PREFACE

This document provides a description of the technical enhancements to the EDEN Submission System (ESS) version 5.7 released in July 2009 and subsequent software change requests (SCRs) implemented in the weeks and months following.

EDEN is a centralized, coordinated repository of state reported, K through 12, educational data residing at the U.S. Department of Education. The EDEN Submission System is an electronic system that facilitates the efficient and timely transmission of data from SEAs to the U.S. Department of Education.

1.0 PURPOSE

The purpose of this document is to educate the users of the EDEN Submission System (ESS) about the improvements that have been made to the system and to provide guidance to users on issues that they may encounter with the new software release.

This document lists all system enhancements and documentation updates that were implemented with the ESS 5.7 release series. The majority of the enhancements include support for ongoing enhancements and maintenance of the ESS.

Where applicable, items are prefixed with corresponding trouble ticket information. For example, "TT 233" refers to the trouble ticket opened by the software development team. "PSC 05-00367" refers to the ticket number opened by the Partner Support Center.

2.0 SUMMARY OF IMPROVEMENTS (RELEASE 5.7)

2.1 ESS Application Updates

The primary purpose of the 5.7 (July 6, 2009) release is to enhance the EDEN Submission System (ESS) to allow for the collection of SY 2008-09 end file specification data. The 5.7 release includes the following new ESS system functionality:

1) Enabled the collection of SY2008-09 end data from the states.
   a) Updated the ESS Data Framework to comply with updated SY2008-09 end specifications.
   b) Configured end file specification "clusters" to ensure that the same Racial and Ethnic permitted values are used across related file specifications.
2) Updated ESS-CCD intersystem communication to include SY 2008-09 migrant student count data from the N/X132 specification in the CCD long-format file extracts ESS generates to send to CCD.
3) Updated all pages within ESS to comply with Section 508 guidelines.
4) TestTrack TT 2600 - Ticket 08-08909 - New business rule for "all students" row in Participation and Performance specs. A state inadvertently submitted an N110 file without the "all students" row and expected that a validation error would be returned, but no error was seen. The state recommended that an error to indicate a missing "all students" row should be implemented to promote greater data quality. In the fix, a new validation error (ER-120 in the version 5.7 Business Rules Guide) was implemented to indicate when the status for All Students has not been provided. This edit applies to the following specs: N/X106, 108, 109, 110 and 111.
5) TestTrack TT 3415 – Nine new submission edit business rules have been implemented for IDEA specification related data. These edits are included in the updated Business Rules Guide v5.7: http://www.ed.gov/about/inits/ed/edfacts/business-rules-guide.html
6) TestTrack 3055 - Ticket 08-16938 - N/X131 Choice/SES field length expansion. A state reported that it was unable to report Choice/SES Set Aside expenditures

of $1,000,000 or more using the N131 fixed-width file. In the fix, the ESS was adjusted to allow Choice/SES Set Aside values of seven or more characters in length.

2.2.2 SY2008-09 Other Specification Updates

The following documentation updates are available with Release 5.7.

SY 2008– 09 File Specifications

Spec	Version	Description of Change	Ticket #
N/X046	5.1	• 1.1, 4.2, 5.2, and 6.2 – Removed NOTCOLLECT from list of permitted values for data elements Sex (Membership) and Disability Status (Only).	09-09998

3.0 SUMMARY OF IMPROVEMENTS (RELEASE 5.7A)

3.1 ESS Application Updates

The 5.7A release (July 10, 2009) includes the following new ESS system functionality:

1) TestTrack 3577 - Ticket 09-10424 – A state reported a discrepancy between the Business Rules Guide and ESS for submission edit S052-R15 – "State has not submitted a count of ungraded students." In addition to indicating an invalid NULL student count, the system was configured such that the edit also would be triggered if a count of zero was submitted. In the fix, the system and the error message were adjusted to match the Business Rules Guide and allow the submission of student counts equal to zero.

4.0 SUMMARY OF IMPROVEMENTS (RELEASE 5.7B)

4.1 ESS Application Updates

The 5.7B release (July 17, 2009) includes the following new ESS system functionality:

1) TestTrack 3581 - Ticket 09-10536 - While assisting states in clearing CCD errors the Partner Support Center noticed that S029-R33 was not flagged as a CCD error by the system. This edit checks to see whether or not the state has submitted Magnet Status and is an NCES edit. It appeared on the school tab of the Submission Error Report but did not show up on either the school edit report or the master CCD Error Report. In the fix the edit was added to the “Verify Missing” tab of the edit report.

5.0 SUMMARY OF IMPROVEMENTS (RELEASE 5.7C)

5.1 ESS Application Updates

The 5.7C release (July 24, 2009) includes the following new ESS system functionality:

1) TestTrack 3606 - Ticket 09-10747 – A state changed the status of a school to Open, but still received submission error BR S033-R03 (Free lunch program count submitted for a school with an Operational Status of Closed, Inactive, or Future Agency). In the fix, the business rule was linked to the N/X029 Directory specification to take the current operational status into consideration.
2) TestTrack 3614 – Ticket 09-10849 – A state reported that staff count data in the Education Unit Profile was not correctly reflected in the State Staff tab of the Summary report. It was determined that the mappings from the Education Unit Profile were offset by one staff category. In the fix, the mappings were corrected such that the proper staff count would be mapped to the correct field in the Summary report.

The Department of Education's mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.
