This technical guide is in the public domain. Authorization to reproduce it in whole or in part is granted. While permission to reprint this publication is not necessary, the citation should be: U.S. Department of Education, Office of Planning, Evaluation and Policy Development, *EDFacts Frequently Asked Questions*, Washington, D.C., 2012.

This technical guide is also available on the Department's Web site at:

<http://www.ed.gov/edfacts>

On request, this publication is available in alternate formats, such as Braille, large print, or computer diskette. For more information, please contact the Department's Alternate Format Center at (202) 260–0852 or (202) 260–0818.

CONTENTS

1. EDFacts GENERAL INFORMATION	6
Where do I get more information concerning the EDFacts initiative?	6
What are the differences between EDFacts, ESS and EDFacts Reporting System?	6
2. EDFacts DOCUMENTATION	7
Where can I find supporting documentation for EDFacts?	7
Where can I find the official and most recent versions of the EDFacts File Specifications?	8
Where can I find the list of Language codes?	8
Where can I obtain a copy of the presentation material from previous EDFacts Conferences?	9
Before submitting a file to ESS, how do I check which other files ESS will cross-check the data against?	9
How do I know which Business Rules are new in the EDFacts Business Rules Guide?	9
3. EDFacts SUBMISSION SYSTEM	10
How do I access the EDFacts Submission System?	10
What types of ESS user access can be provided?	10
How many ESS users may a state have? How do I request a new account be created?	10
I would like to get a data extract of my EDFacts files. Whom should I contact?	11
Are there any internal tools available to help me test my file before submission?	11
Why do I still receive validation errors in ESS after the PSC File Format Checker reported the file had no errors?	11
When I get a File Format error for my non-XML file, what are some troubleshooting tips?	12
Is there a maximum file size allowed for EDFacts submissions?	12
Why, at times, is the EDFacts Submission System performance very slow?	13
Can I open multiple sessions of ESS using my one login?	14
My file is stuck in Received status. Why has it not processed yet?	14
My file is receiving a Database Exception status. What do I do?	14
How often does the EDFacts Submission System make me reset my password?	14
What if my state is missing data? How do I communicate this to the EDFacts Team?	15
My state's Submission Error Report has been flagged by several submission errors. I have verified that all my submitted data is correct but I am still receiving errors. How do I address these?	15
My state's Submission Error Report has been flagged by errors and warnings. I submitted corrected data and the errors no longer appear; how should I address the warnings? When will the warnings drop off my state report?	15
When I submitted a replacement file, it did not remove the LEAs that I had inadvertently submitted with the initial file. What should I do?	15

What should I do if I have data in ESS that needs to be removed?	16
How often is the EDFacts Submission Error Report refreshed?	16
Do the states have an option of only submitting some files using the seven RE permitted values? Error! Bookmark not defined.	
Are there any updates concerning zero reporting requirements?	Error! Bookmark not defined.
4. EDFacts DIRECTORY FILE	17
Should I submit an entire Directory file or just updates on schools/LEAs that have changed in the last year?	17
Between SEA, LEA and School level files, is there a particular order I need to submit my Directory files?	17
Can I submit prior year Directory data using the current year Directory File Specifications?	17
How do I get a list of Educational Units that are currently in my Directory file?	17
I inadvertently submitted a school (or LEA) in current year directory that was closed in prior year, how do I fix this?	18
I inadvertently submitted an incorrect NCES ID for a school (or LEA), how do I fix this?	18
I thought NCES IDs were optional – why is ESS indicating they are mandatory?	18
I have schools that have changed operational status from previous year’s directory submission. What are the allowable statuses based on prior year’s operational status?	18
5. EDFacts-CCD INTEGRATION	19
What are the Match and Edit Reports?	19
Where are the CCD Match and Edit reports located?	20
What is the CCD Match and Edit report process?	20
How often are the submissions processed for the Match, Summary and Edit Reports?	20
How do I get to my Edit Reports? I just see the Match Error and Summary Reports.	21
What if I have been working on my Edit Reports and today, I noticed my Edit Reports buttons are no longer available to me?	21
How can I obtain a list of my NCES IDs?	21
6. EDFacts REPORTING SYSTEM	21
How do I obtain a user account to access the EDFacts Reporting System?	21
How do I email someone the results of an EDFacts report?	21
How do I regularly schedule the distribution of an EDFacts report?	23
How do I modify or disable the regularly scheduled distribution of an EDFacts report?	27
How long does it take to generate the EDFacts State Submission Plan Execution Report (LEAD004; LEAD015; LEAD018)?	29
7. EDFacts METADATA AND PROCESS SYSTEM (EMAPS)	30
What is EMAPS?	30
How do I access EMAPS?	30
When I log into ESS I have a new link on the left menu for EMAPS, but when I click on it, I am prompted for an ID and password. Why is my ESS ID and password not working with EMAPS?	30
What is collected in EMAPS?	30

EMAPS is also being used for the State Submission Plan. Where can I get more information concerning this process?	30
8. EDFacts STATE SUBMISSION PLANS	31
Where do I get a copy of my State Submission Plan?	31
How do I update my Submission Plan for SY 2011-12?	31
How often do I need to update my Submission Plan?	31
9. EDFacts – OTHER DATA COLLECTIONS	32
What is EASIE?	32
Are any EDFacts data utilized to prepopulate EASIE?	32
What is the CRDC?	32
Are any EDFacts data utilized to prepopulate the CRDC?	32
10. EDFacts SUPPORT INFORMATION	32
Whom do I contact when I have a question concerning EDFacts and its supporting tools/documentation?	32
How do states appropriately use the assistance available from the Office of Special Education Program's Data and Analysis Center (DAC) and the Partner Support Center for submitting IDEA-related data through EDFacts?	33
I have new staff that needs training in ESS. Whom should I contact?	33
I have a suggestion for a change that I feel will make EDFacts and ESS work better for the states. Whom do I contact?	33
I previously made an enhancement suggestion. How do I find out if or when it will be implemented?	33
UPDATED: How can I join the EDFacts list-serve?	34

1. EDFACTS GENERAL INFORMATION

Where do I get more information concerning the EDFacts initiative?

RESPONSE: Go to the following Web site: <http://www.ed.gov/EDFacts>

What are the differences between EDFacts, ESS and EDFacts Reporting System?

RESPONSE: See below for a definition of each:

EDFacts: EDFacts is a U.S. Department of Education initiative to put performance data at the center of policy, management and budget decisions for all K-12 educational programs. EDFacts centralizes performance data supplied by K-12 SEAs with other data assets, such as financial grant information, within the Department to enable better analysis and use in policy development, planning and management. The purpose of EDFacts is to:

- Increase the focus on education outcomes and accountability rather than process.
- Provide robust K-12 performance data by integrating student achievement and federal program performance data.
- Reduce data collection burden for the Department and the states.

Provide data about outcomes at the federal, state, and local levels for federal and state planning, policy, and program management

ESS: States report data to the U.S. Department of Education using the EDFacts Submission System (ESS), an electronic system that facilitates the efficient and timely transmission of data from State Education Agencies (SEAs) to the Department of Education. It is a file submission application.

EDFacts Reporting System: The EDFacts Reporting System (ERS) is a U.S. Department of Education application used to report on EDFacts data in a variety of ways. EDFacts data analysis and reporting tools permit users to access, analyze and report on education data for over 100 data groups.

2. EDFACTS DOCUMENTATION

Where can I find supporting documentation for EDFacts?

RESPONSE: Most of the documentation can be downloaded from the ED.gov Web site: <http://www.ed.gov/EDFacts>. This includes:

- **EDFacts Workbook** – This school year-specific guide provides overall and high-level guidance for submitting data to EDFacts.
- **EDFacts Submission System (ESS) Users Guide** – This guide addresses the basic mechanics of system access and file transmission.
- **EDFacts Submission System’s Release Notes** – These documents provide a description of the technical enhancements to each version of ESS.
- **File / XML Specifications** – These documents provide policy guidance and technical instructions for building the files that are submitted through ESS.
- **EDFacts Business Rules Guide (BRG)** – This school year-specific document lists all the business rules that ESS uses to check the quality of data submitted to the system. Starting with SY 2008-09, the BRG includes two documents: (1) a PDF document detailing the terminology used in the BRG spreadsheet and other information helpful in using the BRG spreadsheet, and (2) an Excel spreadsheet describing each business rule.
- **EDFacts Calendar** – This provides important due dates and events pertaining to the EDFacts initiative.
- **EMAPS Submission Plan and File Status User Guides** – These user guides help in the process of submitting State Submission Plans through EMAPS.
- **User Support Information at www.ed.gov/edfacts/support.html** - includes the user support knowledgebase of articles, user update messages, and webinars relevant to multiple states.

In addition, the following tools are available from the PSC:

- **EDFacts Data Set Viewer** – a customized Microsoft Access Database that allows users to review the data groups and categories used by EDFacts, which is also available through the EDFacts Reporting System,
- **PSC File Format Checker (PSC Internal Tool)** – This tool allows states to check for non-XML format errors prior to attempting to submit to ESS.
- **PSC Weekly Support Update** – This weekly broadcast email is sent to the state EDFacts Coordinator and includes weekly updates and current information for EDFacts users. The EDFacts Coordinator may forward information from this to appropriate staff within the state.

- **ERS Crosswalk-** This cross-walk provides the file numbers and data groups that populate each report in the EDFacts Reporting System.

Where can I find the official and most recent versions of the EDFacts File Specifications?

RESPONSE: The EDFacts File Specifications can be viewed through the Data Framework function in the EDFacts System or can be downloaded from the ED.gov Web site: <http://www.ed.gov/EDFacts>.

Upon gaining access to the EDFacts Web site, click the File Specification link under the EDFacts System Documentation section.

Beginning with SY 2009-10 file specifications will be listed on the website as either Active File Specifications (Enabled in ESS) or Inactive File Specifications (Not Yet Enabled in ESS). Watermarks will be removed for SY2011-2012, only files listed under Active File Specifications will be active.

File specifications are updated from time to time. This is due to updated or enhanced policy, mid-year changes or to fix problems/defects. The specifications are version controlled, so the best thing to do is to compare the release number of the document.

You can do this via the EDFacts Web site:

- N002 — Children With Disabilities (IDEA) School Age v3.1  
- N003 — Child w Disab Assmt Compl v3.0  [Word](#)
- N004 — Child w Disab Not Assessed v3.0  [Word](#)
- N005 — Child w Disab Removal v3.0  [Word](#)
- N006 — Child w Disab Susp Expul v3.0  [Word](#)

Alternatively, within the document itself:

DOCUMENT CONTROL	
DOCUMENT INFORMATION	
Title:	N089 - Children with Disabilities (IDEA) Early Childhood File Specifications
Revision:	3.2
Issue Date:	March 2007
Security Level:	Unclassified - For Official Use Only
Filename:	N089 - Children w Disab Early Childhood v3.2.doc

Where can I find the list of Language codes?

RESPONSE: It varies by School Year. See below for specifics:

- Beginning in SY 2007-08, the ISO-639-2 standard is being used. The system and supporting documentation has been updated to accept the three character codes. This ISO-639-2 standard can be found at: http://www.loc.gov/standards/iso639-2/php/English_list.php. (Note: Reference 639-2 column.)

Where can I obtain a copy of the presentation material from previous EDFacts Conferences?

RESPONSE: The presentation material from previous WebEx sessions and EDFacts Conferences are now available. Please go to the following Web site to download copies of the presentations and WebEx recordings:

<http://www2.ed.gov/about/inits/ed/edfacts/support-training-webinars.html>

From here, you can choose the specific session of interest.

Before submitting a file to ESS, how do I check which other files ESS will cross-check the data against?

RESPONSE: The EDFacts Business Rule Guide can be easily filtered to show cross-file edits:

1. Open the Business Rule Guide Excel spreadsheet (<http://www2.ed.gov/about/inits/ed/edfacts/business-rules-guide.html>)
2. Scroll right to the column titled File Spec Used #1. In the filter drop down menu (click the downward arrow icon within the column title), scroll to the file specification number desired and select it.
3. Scroll right to the column titled File Spec Used #2. In the filter drop down menu (click the icon on the column title), scroll to the bottom and select 'Non-Blanks'.

This procedure should provide you with the list of all cross-file edit checks on a given file (other than current year-to-prior year checks of the same file).

To retrieve a list of ALL cross-file edit checks, simply leave the column titled File Spec Used #1 blank.

How do I know which Business Rules are new in the EDFacts Business Rules Guide?

RESPONSE: In the EDFacts Business Rules Guide under column M it says "First ESS Release." You can filter through this column to see which release of ESS the error message was first used. The newest errors for SY 2010-11 will say Release 7.1 since that is the current version of ESS that is in use.

3. EDFACTS SUBMISSION SYSTEM

How do I access the EDFacts Submission System?

RESPONSE: Go to the following Web site: <http://eden.ed.gov/EDENPortal>

What types of ESS user access can be provided?

The following is the list of user access types:

- **ESS Submitter** – This user role of ESS can submit files and review reports on the status of files submitted. ESS e-mails reports to the SEA Submitter who transmits the file. ESS includes the data framework, which provides information on the data submitted through ESS.
- **ESS Reviewer** – This user role of ESS will provide access to state submission and transmission reports but does not allow access to the Transmittal Authorization sub-application. These personnel will not require the ability to submit files but only an ability to review and analyze error reports and data. These users may include the CCD Coordinator and the IDEA Part B Data Manager.
- **EDFacts Reporting System Users** – The EDFacts Reporting System contains reports on the status of submissions through ESS, IDEA data and CSPR data. Please contact the PSC to replace an existing ERS user with another. States are limited to the number of user licenses they currently hold.
- **State Agency Error Report** - This user role of ESS will be notified, via an automated e-mail, when the state has received an error on the Submission Error Report for their state.

How many ESS users may a state have? How do I request a new account be created?

- **RESPONSE:** The state is not limited to how many users they may have with ESS access. The state EDFacts Coordinator should contact the PSC to request that a new account be created, and specify the type of ESS access required.

I would like to get a data extract of my EDFacts files. Whom should I contact?

RESPONSE: Upon request by the state, PSC can provide a data extract of most files submitted through ESS. This includes: Directory (029), Grades Offered (039), Membership Data (052), Performance Data (to include 081, 075-078), Accountability Data (to include 103 and 106-111) and others per request.

Contact the PSC to request an extract of your state file(s). Typical turnaround time on extract requests is within three business days. Note: You need to be an approved ESS submitting representative of your state to acquire an extract.

EDEN017 is a new report in ERS that shows an extract of states' N/X029 Directory and N039 Grades Offered data at the school level in the same order as the input file. The report will be available for data beginning SY 2003-04 to the current submission year.

EDEN028 is a new report in ERS that shows an extract of the states N/X029 Directory and N039 Grades Offered data at the LEA level in the same order as the input file. The report will be available for data beginning SY 2003-04 to the current submission year.

Are there any internal tools available to help me test my file before submission?

RESPONSE: Yes, see below for additional information.

- For **Non-XML files**, Partner Support Center has developed a tool, PSC File Format Checker, that can be installed locally and states can use it to check for non-XML format errors prior to attempting to submit to ESS. Contact PSC for a copy of the tool.
- For **XML files**, the team has provided validation schemas. These are provided for the states to use in the creation and validation of XML files. Files created against these schemas must be transformed into the EDFacts ESS standard format and as a result, XML style sheets are provided to accomplish that task. Once transformed, the XML files will comply with the submission schemas. Both the Schemas and Style sheets can be downloaded from the ED.gov Web site: <http://www.ed.gov/EDFacts>

Why do I still receive validation errors in ESS after the PSC File Format Checker reported the file had no errors?

Response: The main purpose of the File Format Checker is to identify Format Errors. It will find some validation errors such as an incorrect permitted value, but it is not designed to find them all since ESS already has this functionality.

When I get a File Format error for my non-XML file, what are some troubleshooting tips?

Response: The *EDFacts* Workbook provides more information on resolving file format errors. When a non-XML data transmission is flagged as having format errors, PSC starts by looking for the following commonly found errors:

- The number of records does not match the number of records noted in the header record.
- Occurrences of “hidden” spaces or tabs to the far right of header or data records.
- The use of single quotes in the file.
- There is no carriage return/line feed at the end of the last record.
- The file name does not match the name noted in the header record.
- The number of spaces and values in the header record do not match the header record definition noted in the file specification. Common problems are using the incorrect **SY** file specification or the incorrect **level** (SEA, LEA or school).
- The number of spaces and values in the data records do not match the data record definition noted in the file specification. Common problems are using the incorrect **SY** file specification or the incorrect **level** (SEA, LEA or school).
- Additional white spaces between filler fields.

Contact the PSC when you cannot determine the problem and we will help you continue troubleshooting the file.

Is there a maximum file size allowed for EDFacts submissions?

BACKGROUND: Performance testing has been done to determine if a maximum file size exists within ESS. That testing showed that Directory files over 300 megabytes (MB) successfully processed through the system.

For most files, a series of validation checks occur after the entire file is read into the ESS system. The records are then grouped according to their LEA and then their school. At this point, validation proceeds through each education unit (LEA or school). The validation checks to make sure that grand totals and subtotals are present and that they are greater than, or equal to, their respective subtotals.

The *EDFacts* Submission System is a shared environment where processing resources can be used by many SEAs at the same time.

RESPONSE: The *EDFacts* files can be quite large. The ESS has been upgraded over the last few years to handle large files. Local internet bandwidth bottlenecks can still present problems when submitting large files. There are two solutions. The first is to use file compression and the second is to split larger files into sections.

Compressing Large Files

The ESS has been modified to recognize files compressed with the Zip data compression algorithm. The ESS will accept a Zip file and automatically extract (i.e., decompress) the file. We recommend that states zip any file larger than 20MB.

Plain text files, like the EDFacts files, are very amenable to Zip compression. File size reductions of 50 to 95% are common with text files. There are varieties of commercial or free file compression utilities that create Zip files.

Zip compressed files should have the .zip extension when uploaded to the ESS. The file name included in the Header Record (or FILETRANSMIT object if XML) should have the extension appropriate to the format of the uncompressed file.

Splitting Large Files

If compression is insufficient or not available, large files can be split into smaller files. A file should be split at an agency boundary; the data for a single education unit must not be split between files. We recommend splitting the file if it is larger than the below thresholds:

- XML files - 120MB unzipped
- Non-XML files - 250MB unzipped

Each of the split files must still be properly formatted according to the file specification. Each must have a unique File ID and File Name. Each non-XML file must have a Header Record with the correct record count for the individual file. Each XML file must be a valid XML document with valid FILETRANSMISSION start and end tags.

Additional processing resources will be brought online in the future and ongoing performance enhancements to the software will help reduce large file submission problems.

Why, at times, is the EDFacts Submission System performance very slow?

BACKGROUND: Every attempt was made during the development process to create a system that could process the large volume of file submissions from all the SEAs. The continual evolution of the EDFacts Submission System has and will continue to provide increased performance.

RESPONSE: The volume of data being processed and resource availability are the two main factors that slow ESS. There are steps that the SEAs can take to help reduce the system burden. They include:

- A. Submit the files as soon as they are created. Creating many files and then submitting the entire batch at once places a performance burden on the EDFacts Submission System. This is compounded by other SEAs submitting large jobs.

- B. If possible, schedule files submissions either late in the evening (this is the best for the western states) or early in the morning (this is the best for the eastern states). Outside of the peak times of 8:00 A.M. to 5:00 P.M. Eastern Time, the server is not as busy.
- C. Do not wait until the actual due date for certain data usage initiatives. Due dates are often high-submission days and therefore it may take several hours (at times, even longer) to process your file transmission.
- D. If possible, submit the files on Saturdays. There is usually no competing traffic on the EDFacts Submission System on Saturdays. However, please be aware that PSC is not available on weekends for state support. **NOTE:** Sundays are routine maintenance periods. The server might not be available for file submissions.

Can I open multiple sessions of ESS using my one login?

RESPONSE: Yes. When more than one instance of ESS or any sub-applications (i.e., Data Framework, CSPR) are necessary, it is suggested to open each instance using either the Desktop icon or the Start button application menu. This ensures that multiple Web sessions are created and prevents the possibility of data loss due to multiple instances using a single session.

My file is stuck in Received status. Why has it not processed yet?

RESPONSE: ESS can only process a certain number of files at any one time. Files that have yet to process will remain in Received status until it is their turn to be processed. When states submit several very large files, some state's submissions may stay in Received status for several hours. If your file remains in a Received status for over 24 hours, you should contact the Partner Support Center.

My file is receiving a Database Exception status. What do I do?

RESPONSE: A Database Exception is an unexpected error. If a Database Exception occurs, report the instance to the Partner Support Center.

How often does the EDFacts Submission System make me reset my password?

RESPONSE: Every 90 days.

What if my state is missing data? How do I communicate this to the EDFacts Team?

RESPONSE: Section 2 (Guidance) in the file specifications addresses these questions. Please note that the guidance does vary between files and may even change between SY's.

My state's Submission Error Report has been flagged by several submission errors. I have verified that all my submitted data is correct but I am still receiving errors. How do I address these?

RESPONSE: Errors appearing in the Submission Error Report must be addressed. If you think an error is firing by mistake and you are certain that your submitted data is accurate, contact the PSC. Be ready to provide the details of why you think an error is firing inaccurately, as PSC will need approval from the U.S. Department of Education before turning off any errors.

My state's Submission Error Report has been flagged by errors and warnings. I submitted corrected data and the errors no longer appear; how should I address the warnings? When will the warnings drop off my state report?

RESPONSE: Warnings are flagged when data appears unusual or unexpected. States should review the data to determine if the data is accurate. If the data is accurate, no update is needed.

When I submitted a replacement file, it did not remove the LEAs that I had inadvertently submitted with the initial file. What should I do?

RESPONSE: When you re-submit a file to ESS, only the education units in that file are updated. For example, if your original submission contained 100 schools worth of data, and your second submission contains data for 90 of those schools, only the data for those 90 schools are updated. The data for the remaining 10 schools are left unchanged in the EDFacts database.

The benefit of this is that you can make corrections to the data of individual schools or LEAs without having to submit the data for all of them. For example, if after submitting your LEA membership file you discover that you forgot to include a district in your file, all you need to do is submit a file that contains just the data for that one district.

One consequence of this system behavior is that one file submission may not completely overwrite a previous submission. If you discover that you submitted data for a school that should not have been submitted at all, you cannot correct this by leaving that school out of your next submission. When you leave the school out, the system does not make any updates to the data for the school that is already in the database.

If data submitted to ESS needs to be revised, you can make the revisions by simply re-submitting the data for that school or LEA. On the other hand, if you discover that data submitted to ESS should not have been submitted in the first place, you will not be able to correct this through a file submission. You will need to have the data removed.

What should I do if I have data in ESS that needs to be removed?

RESPONSE: If you need to have data removed from ESS, please send a request, via e-mail to the PSC. Please include the file number(s), the level(s) of the file which need to be removed (SEA, LEA, SCH), the school year of the file(s), and a detailed justification or a reason for the removal of the data. Please note that deletions can be processed either by Educational Unit or by file number, but cannot be processed by submission date. The PSC will then process it through the necessary channels to ensure that the impacted program offices are aware and approve of the request. This may take several weeks to completely process through all necessary approvals and systems.

How often is the EDFacts Submission Error Report refreshed?

RESPONSE: The EDFacts Submission Error Report is refreshed overnight; however, the report is only refreshed if the state submitted a file that day. If a state submitted a file in order to resolve an error(s) on the SER, then the report will refresh overnight and the next day the state can determine if the new file submission resolved the error(s).

4. EDFACTS DIRECTORY FILE

Should I submit an entire Directory file or just updates on schools/LEAs that have changed in the last year?

RESPONSE: Up until SY 2007-08, the Directory was the only non-SY specific state supplied data. Starting with SY 2008-09, all school and LEA directory data will now be specific to a school year. This is a change that states requested along with satisfying the U. S. Department of Education's need for an "annual" survey for CCD. Business rules will be used to match one institution in a SY to the same institution in the prior SY. As a result of this SY implementation, several new statuses have been added to ensure information is captured at the start of the school year as well as throughout the school year. These are described in more detail in the guidance section of the Directory File (N/X029) specification. **Note: Do not submit a directory record for an entity that was closed in the prior SY unless you are reopening the entity. When updating a previous SY directory file, please inform the PSC to ensure the changes are submitted properly.**

Between SEA, LEA and School level files, is there a particular order I need to submit my Directory files?

RESPONSE: States must submit complete LEA and school directory file submissions, in that order. Note: States will not be required to submit an updated SEA directory file.

Can I submit prior year Directory data using the current year Directory File Specifications?

RESPONSE: No, you should use the year of the specification for that specific change. A note of caution for making Directory changes to prior years: CCD will not see this update since the state's CCD is locked by NCES. If you have specific questions or concerns, contact PSC.

How do I get a list of Educational Units that are currently in my Directory file?

RESPONSE: The EDEN017 and EDEN028 reports can now be run in ERS for N/X029 Directory and N039 Grades Offered extracts beginning with SY 2003-04 to the current submission year.

I inadvertently submitted a school (or LEA) in current year directory that was closed in prior year, how do I fix this?

RESPONSE: As noted above, you should not submit a directory record for an entity that was closed in a prior year unless you are reopening the entity. To fix this issue, please contact PSC. They will work with the technical team to remove this entity from your current year directory file.

I inadvertently submitted an incorrect NCES ID for a school (or LEA), how do I fix this?

RESPONSE: Contact PSC, they will need to have the technical team make this correction to the database. NCES IDs cannot be corrected in ESS by file submission.

I thought NCES IDs were optional – why is ESS indicating they are mandatory?

RESPONSE: Starting in SY 2008-09, when submitting directory data, NCES identifiers are now mandatory for all schools and LEAs *UNLESS* the school or LEA has one of the following School Year Start Operational statuses:

- New (if not Future in the prior year)
- Added
- Future (only in the first year)

This change was implemented with ESS Release 5.0 (January 2009).

I have schools that have changed operational status from previous year's directory submission. What are the allowable statuses based on prior year's operational status?

The chart below indicates what current year operational statuses are allowable based on the prior year operational status.

Table C-1: Verifying Current Year CCD School/Agency Operational Status Against Prior Year's Status

		Current Year Operational Status								
		1- OPEN	2- CLOSED	3- NEW	4- ADDED	5- CHANGED	6- INACTIVE	7- FUTURE	8- REOPENED	Omit from CY Directory
Prior Year Operational Status	1-OPEN	Yes	Yes	X	X	Yes	Yes	X	X	X
	2-CLOSED	X	X	X	X	X	X	X	Yes	Yes
	3-NEW	Yes	Yes	X	X	Yes	Yes	X	X	X
	4-ADDED	Yes	Yes	X	X	Yes	Yes	X	X	X
	5-CHANGED	Yes	Yes	X	X	Yes	Yes	X	X	X
	6-INACTIVE	Yes	Yes	X	X	Yes	Yes	X	X	X

7-FUTURE	X	Yes	Yes	X	X	X	Yes	X	X
8-REOPENED	Yes	Yes	X	X	Yes	Yes	X	X	X
Omitted from PY Directory	X	X	Yes	Yes	X	X	Yes	Yes	

Legend

Yes- Acceptable

X – Not acceptable

Additional Supporting Notes**PY Status 2-Closed**

The only acceptable CY Status when the PY status is “2-Closed” is “8-Reopen.” If you submit any other status, you will get a match error. To resolve the match error, you will need to contact PSC so that they can delete the entity from the CY directory.

CY Status 8-Reopen

This status only works for the year after a school has closed the prior year. If a school has been closed for more than one year, it needs to be reported as a “3-New.”

PY Status 6-Inactive

An education unit can be inactive for 3 full years. At the beginning of the 4th year, the education unit needs to change status to one of the following: “1-Open”, “2-Closed”, or “5-Changed”.

5. EDFACTS-CCD INTEGRATION

What are the Match and Edit Reports?

RESPONSE: The Match and Edit Reports are located on the Reports tab in the Submission Error Report. They include:

1. **Match Error Report:** This displays LEA and school match problems. This is isolated to resolving Directory discrepancies.
2. **Summary Report:** This displays all other tabs (worksheets) that were previously available in the CCD Match Summary Workbook.
3. **Edit Reports:** Once Directory Match Error issues are resolved, Edit Reports will be available. There are three individual Edit Reports: State, Agency and School.

Where are the CCD Match and Edit reports located?

RESPONSE: The CCD Match and Edit reports can be accessed in ESS through the Reports tab in the Submission Error Report sub-application.

What is the CCD Match and Edit report process?

RESPONSE: CCD-related errors and warnings can be accessed in ESS through the Reports tab in the Submission Error Report sub-application. The Reports tab can have up to 5 CCD-related reports: Match Report, Summary Report, and the State, Agency, and School Edit Reports. The Edit Reports will not appear until all critical Match Report errors have been resolved. Resolving critical match errors requires you to resubmit your data or, if you cannot fix the data, contacting the Partner Support Center to have data corrected or removed.

- Match Report – All critical Directory errors must be corrected before proceeding to Edit Reports. Not all tabs on the Match Report show errors. Many of the tabs are informational. Focus on the Agency Match Problems and School Match Problems tabs.
- Summary Report – This report is a summary of the CCD-related data you have submitted and is a way for you to review that data.
- Edit Reports – These reports contain both critical and non-critical (warning) errors. The critical errors must be corrected.

Starting in the SY 2009-10, CCD Workbooks need not be annotated and sent to Census. However for your reference, the reports will continue to be displayed in ESS. Also, Census will continue to follow up with state CCD Coordinators about CCD data that seems incorrect or questionable. This is part of the CCD regular data quality review and states need to correct the data, if it's in error, or explain the anomaly to Census. However, the state no longer needs to document their explanation in the CCD Workbook and return that document (Excel spreadsheet) to Census.

How often are the submissions processed for the Match, Summary and Edit Reports?

RESPONSE: The submission edits are processed nightly. The SY Reports can be reprocessed on an as needed basis. Click the "Regenerate" hyperlink to refresh the Match report data.

How do I get to my Edit Reports? I just see the Match Error and Summary Reports.

RESPONSE: The Edit Reports will not appear until all match problems have been corrected. If you are not getting the Edit Reports, then you need to resolve issues noted in the LEA and School Match Error Report. Once all match problems have been corrected, the Edit Report feature will be available.

What if I have been working on my Edit Reports and today, I noticed my Edit Reports buttons are no longer available to me?

RESPONSE: Most likely, you have submitted an updated Directory file that caused a match problem. Reference the Match Error Report.

How can I obtain a list of my NCES IDs?

RESPONSE: You can obtain your NCES IDs by going to the Education Unit Profile and looking up your educational unit. You can also run the EDEN017 and EDEN028 reports in ERS for N/X029 Directory extract containing your state's current NCES IDs.

6. EDFACTS REPORTING SYSTEM

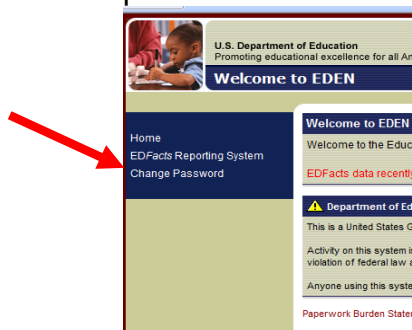

How do I obtain a user account to access the EDFacts Reporting System?

RESPONSE: The *EDFacts* Coordinator needs to contact the PSC to replace an existing ERS user with another. States are limited to the number of user licenses they currently hold.

How do I email someone the results of an EDFacts report?

RESPONSE: Assuming you are the *EDFacts* user for your state, follow the below steps:

1. Login to ESS, and then access the *EDFacts Reports System* link on the left side panel.

- Once in the EDFacts Reporting System, access the area of interest. For example, *Submission Status, Office of Special of Education Programs (OSEP)*.

Welcome to EDFacts, the Department of Education's enterprise-wide reporting system. EDFacts currently provides State Education Agencies with access to data contained within the EDEN Staging Database.

SEAs currently have access to the following data and tools:

- Submission Status**
Provides standard reporting capabilities related to EDEN submission status for a particular program year.
- Office of Special Education Programs (OSEP)**
Provides standard OSEP reports for Exiting, Child Count, Educational Environment, Discipline, Personnel, and Assessment.
- EDFacts Data Profiles and Scorecards**
Provides EDFacts State Profiles (for all states) and Congressional District Profiles (for districts of members on education authorizing and appropriations committees only) that highlight key education data for use in education planning, policymaking and performance management. Key education data include state assessment performance, NAEP achievement data, adequate yearly progress, AMO targets, highly qualified teachers, choice and SES, and demographic and economic data.
- Consolidated State Performance Reports (CSPR)**
Provides access to 2003-2004, 2004-2005, 2005-2006, 2006-2007, and 2007-2008 School Year CSPR standard reports.
- EDFacts Data Collection**
Provides ad hoc reporting capabilities for state, district and school level data collected through EDFacts. Data collected through EDFacts cover the quantitative information needs of major K-12 formula programs and are available starting with school year 2003-04 through the present data collection cycle.

Disclaimer: Depending on your assigned role and access level, the content of the EDFacts Reporting System differs from user to user.

- Access and run a report.
- In the top right corner of the report, click the icon to “*Keep this version*” and choose “*Email Report*”.

- You will be taken to the next window to establish the email options. Complete the four items in the “*Set the email options*” window.
 - Enter the email addresses you wish to send to in the “*Type the email addresses, separated by semi-colons.*” See below for an example.
 - Important Note!** EDFacts users are responsible for ensuring that data reports are shared only with SEA staff having access rights to the data.
 - Name the report in the “*Subject.*” box.
 - Enter a comment for the recipient(s) in the “*Body.*” box.
 - Important Note!** The report will come from the following email address: edfacts@ed.gov. Please let recipients know not to respond to this email box. If they have questions, please direct them back to you (EDFacts Coordinator) or to the Partner Support Center (eden_ss@ed.gov). We recommend adding this note to the “*Body.*” of each scheduled report.
 - Choose the “include the report” as your “*Attachments*” option.

6. Press the OK button.
7. Your recipients will receive a copy of the report shortly.

How do I regularly schedule the distribution of an EDFacts report?

RESPONSE: Assuming you are the EDFacts user for your state, follow the below steps:

1. Login to ESS, and then access the *EDFacts Reports System* link on the left side panel.

2. Once in the EDFacts Reporting System, access the area of interest. For example, *Submission Status, Office of Special of Education Programs (OSEP)*.

Welcome to EDFacts, the Department of Education's enterprise-wide reporting system. EDFacts currently provides State Education Agencies with access to data contained within the EDEN Staging Database.

SEAs currently have access to the following data and tools:

- Submission Status**: Provides standard reporting capabilities related to EDEN submission status for a particular program year.
- Office of Special Education Programs (OSEP)**: Provides standard OSEP reports for Exiting, Child Count, Educational Environment, Discipline, Personnel, and Assessment.
- EDFacts Data Profiles and Scorecards**: Provides EDFacts State Profiles (for all states) and Congressional District Profiles (for districts of members on education authorizing and appropriations committees only) that highlight key education data for use in education planning, policymaking and performance management. Key education data include state assessment performance, NAEP achievement data, adequate yearly progress, AMO targets, highly qualified teachers, choice and SES, and demographic and economic data.
- Consolidated State Performance Reports (CSPR)**: Provides access to 2003-2004, 2004-2005, 2005-2006, 2006-2007, and 2007-2008 School Year CSPR standard reports.
- EDFacts Data Collection**: Provides ad hoc reporting capabilities for state, district and school level data collected through EDFacts. Data collected through EDFacts cover the quantitative information needs of major K-12 formula programs and are available starting with school year 2003-04 through the present data collection cycle.

Disclaimer: Depending on your assigned role and access level, the content of the EDFacts Reporting System differs from user to user.

3. Access and run a report. In the top right corner of the report, access the icon to “Save the report as a report view”.

4. From the next window, save the report as a report view by completing the following options.
 - Name the report.
 - Select the “My Folders” option.

Save as report view Help X

Specify a name and location for this entry. A report view shares the same report specification as the source report.

Name:

Location:
 None
[Select another location...](#) [Select My Folders](#)

5. Press the OK button to return to the report. Click the *Return* link to exit out of the report.
6. Click the *Welcome* tab, then access the area interest (e.g., *Submission Status, Office of Special of Education Programs (OSEP)*) again.
7. Select *My Folders*. Then, find the new report view that you created in Step 5. Click on “*More*” for the report that you want to schedule.

The screenshot shows the EDFacts Reporting System interface. At the top, there is a navigation bar with 'Welcome', 'Public Reports', and 'My Folders' tabs. Below this, the 'My Folders' section displays a grid of report thumbnails. Each thumbnail includes a report title, a date and time, and a 'More...' link. A red arrow points to the 'More...' link of the report titled 'Scheduled Report of the Performance of Students'.

ED.GOV EDEN Submission System

8. Select the *New Schedule* option.

9. Set the *Schedule* distribution options identified in the below screen.

- Choose *Frequency*, *Start* and *End* dates, *Options*.
- Under *Prompt Values*, if this option is selected, you will need to select the prompt answers as the last step.
- Under the Deliverable, select “*Edit the email options*”.

10. Set the email options identified below.

- Enter the email addresses you wish to send to in the “*Type the email addresses, separated by semi-colons.*” See below for an example.
 - **Important Note!** EDFacts users are responsible for ensuring that data reports are shared only with SEA staff having access rights to the data.
- Name the report in the “*Subject:*” box.
- Enter a comment for the recipient(s) in the “*Body:*” box.
 - **Important Note!** The report will come from the following email address: edfacts@ed.gov. Please let recipients know not to respond to this email box. If they have questions, please direct them back to you (EDFacts Coordinator) or to the Partner Support Center (eden_ss@ed.gov). We recommend adding this note to the “*Body:*” of each scheduled report.
- Choose the “include the report” as your “*Attachments*” option.
- Do not modify data under the “*To*” box.

The screenshot shows the 'Set the email options - Scheduled Report of the Performance of Students' window. At the top, there is a header with the EDFacts logo and a navigation bar. Below the header, there are three main sections: 'To:', 'Subject:', and 'Body:'. The 'To:' section includes a table with columns for 'Name' and 'Type', and a text input field for email addresses. The 'Subject:' section has a text input field. The 'Body:' section has a text area. Below these sections is an 'Attachments' section with two checkboxes: 'Include the report' (checked) and 'Include a link to the report'. At the bottom, there are 'OK' and 'Cancel' buttons.

Subject:
Report: Scheduled Report of the Performance of Students

Body:
Hello EDEN Team -
This is a regularly scheduled report that will be emailed to you.
Thanks,
EDFacts Coordinator

Attachments

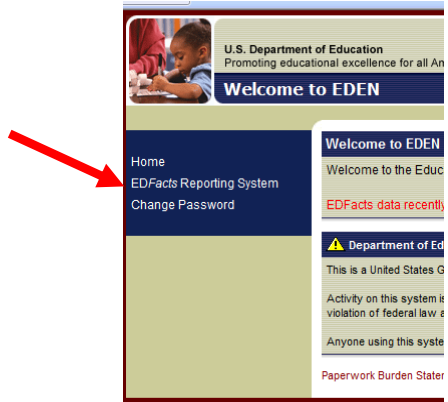

Include the report
 Include a link to the report

11. Press the OK button.
12. Press the OK button again (next window) to set the Schedule options.
 - Again, if under *Prompt Values* (on Schedule options screen) is selected, you will need to select the prompt answers as the last step.
13. You can always go back to modify this scheduled event as needed!

How do I modify or disable the regularly scheduled distribution of an EDFacts report?

RESPONSE: Assuming you are the EDFacts user for your state, follow the below steps:

1. Login to ESS, and then access the *EDFacts Reports System* link on the left side panel.

2. Once in the EDFacts Reporting System, access the area of interest. For example, *Submission Status, Office of Special of Education Programs (OSEP)*.

EDFacts Reporting System

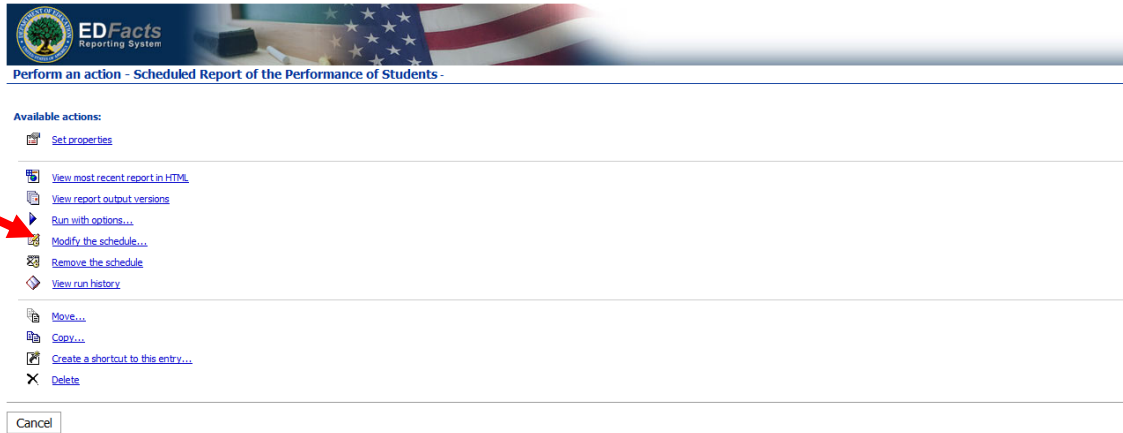

Welcome to EDFacts, the Department of Education's enterprise-wide reporting system. EDFacts currently provides State Education Agencies with access to data contained within the EDEN Staging Database.

SEAs currently have access to the following data and tools:

- Submission Status**
Provides standard reporting capabilities related to EDEN submission status for a particular program year.
- Office of Special Education Programs (OSEP)**
Provides standard OSEP reports for Exiting, Child Count, Educational Environment, Discipline, Personnel, and Assessment.
- EDFacts Data Profiles and Scorecards**
Provides EDFacts State Profiles (for all states) and Congressional District Profiles (for districts of members on education authorizing and appropriations committees only) that highlight key education data for use in education planning, policymaking and performance management. Key education data include state assessment performance, NAEP achievement data, adequate yearly progress, AMO targets, highly qualified teachers, choice and SES, and demographic and economic data.
- Consolidated State Performance Reports (CSPR)**
Provides access to 2003-2004, 2004-2005, 2005-2006, 2006-2007, and 2007-2008 School Year CSPR standard reports.
- EDFacts Data Collection**
Provides ad hoc reporting capabilities for state, district and school level data collected through EDFacts. Data collected through EDFacts cover the quantitative information needs of major K-12 formula programs and are available starting with school year 2003-04 through the present data collection cycle.

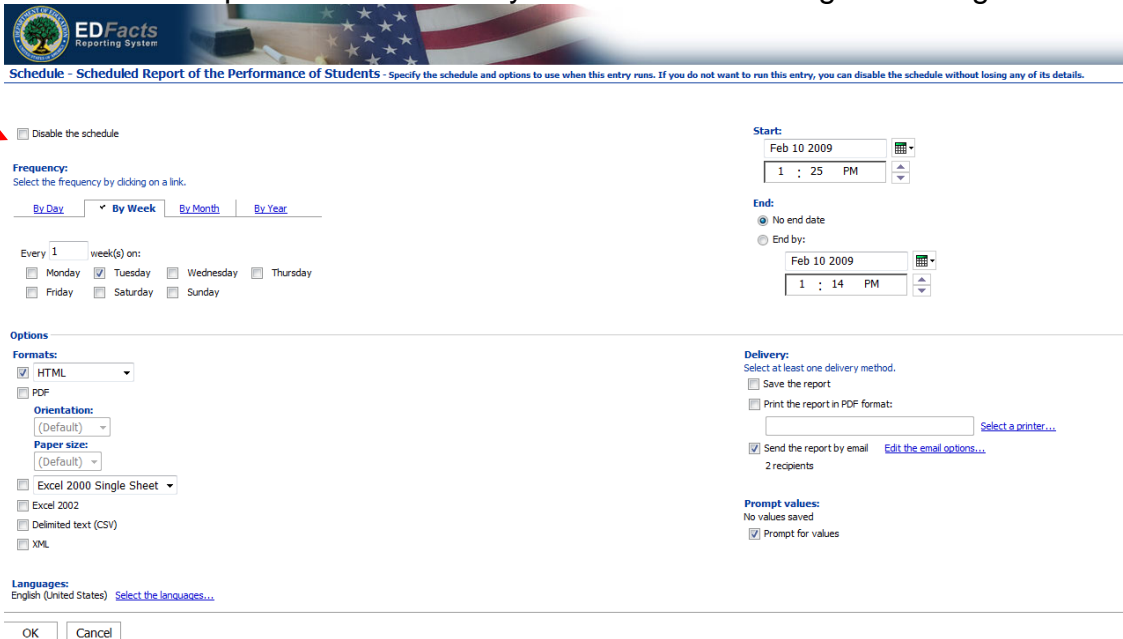

Disclaimer: Depending on your assigned role and access level, the content of the EDFacts Reporting System differs from user to user.

3. Select *My Folders*. Then, find the new report view that you created. Click on "More" for the report that you want to schedule.
4. Select the *Modify the schedule* option.

5. You will then be taken to the *Schedule* option screen. This screen will allow you to disable the auto-distribution, modify the date and times along with adding and removing recipients.

- Important Note!** EDFacts users are responsible for ensuring that data reports are shared only with SEA staff having access rights to the data.

How long does it take to generate the EDFacts State Submission Plan Execution Report (LEAD004; LEAD015; LEAD018)?

RESPONSE: The LEAD reports usually take several minutes to generate the prompt page and about 4 minutes to execute the actual report. The report could take longer to run if there is high usage of the system. Usually, as the day progresses, the report execution times will increase due to a higher count of users.

7. EDFACTS METADATA AND PROCESS SYSTEM (EMAPS)

What is EMAPS?

RESPONSE: EMAPS is a web-based tool to provide SEAs with an easy method to report and maintain information on state policies, plans, and metadata to aid in the analysis of data collected in EDFacts. The initial rollout of EMAPS allowed states to enter their Racial and Ethnic (RE) Data Reporting Plans.

How do I access EMAPS?

RESPONSE: The EDFacts Coordinator for each state will have access to the EMAPS tool. There are three ways to access EMAPS: through EMAPS website directly (<https://emaps.ed.gov/suite/>), ESS or the EDFacts website.

When I log into ESS I have a new link on the left menu for EMAPS, but when I click on it, I am prompted for an ID and password. Why is my ESS ID and password not working with EMAPS?

RESPONSE: Although EMAPS is accessible via the EDFacts Portal, it utilizes a different authentication process therefore having a different user ID. If you need access, please have your Coordinator contact PSC.

What is collected in EMAPS?

RESPONSE: EMAPS houses a variety of state supplied information and collects several surveys throughout the year.

- Gun Free School Act (GFSA) Questionnaire
- Academic Achievement Levels Survey
- IDEA State Supplemental Survey
- State Submission Plan

EMAPS is also being used for the State Submission Plan. Where can I get more information concerning this process?

RESPONSE: Please view the [Submission Plan and File Status User Guide](#) posted on the EDFacts Web site (www.ed.gov/EDFacts) for more instructional information.

8. EDFACTS STATE SUBMISSION PLANS

Where do I get a copy of my State Submission Plan?

RESPONSE: Contact your state EDFacts Coordinator for a copy. If you are the state EDFacts Coordinator, e-mail the PSC (eden_ss@ed.gov) for a copy of your 2008-09 Submission Plan. State Submission Plans for SY 2009-10 and beyond are maintained in EMAPS.

How do I update my Submission Plan for SY 2011-12?

RESPONSE: As part of a continuing effort to streamline the State Submission Plan process and expedite data collection, ED transitioned the EDFacts Submission Plans into the EDFacts Metadata and Process System (EMAPS) tool. The purpose of this transition was to improve the way ED monitors timeliness and completeness of data submissions, eliminate the current process of updating and uploading Excel Submission Plans, and enhance the features of the Submission Plans by integrating them with the EDFacts system.

Three elements are collected within the SY 2011-12 Submission Plan. States indicate whether a file will be timely prior to the file's due date, and when they have completed the submission for a file. States also may use the comments field for any data notes or explanations.

ED has prepared a spreadsheet that lists all files by due date for the SY 2011-12 submissions. This does not replace EMAPS as a way to submit your plan, but may be helpful in the planning process. Please contact PSC if you are interested in receiving a copy of this document.

How often do I need to update my Submission Plan?

RESPONSE: States need to update their Submission Plans as they submit complete data submission for a file so that the LEAD018 can be updated. If you need to make changes to your SSP after a file is due, you may do so at any time. ED data stewards are using the completion information entered by the state as an indicator to begin reviewing that state's data.

9. EDFACTS – OTHER DATA COLLECTIONS

What is EASIE?

RESPONSE: EASIE stands for Electronic Application System for Indian Education. It is used to collect applications for the Title VII Formula Grant that is administered by the US Department of Education's Office of Indian Education (OIE). The grant is open to any entity (an LEA, a BIE school or a tribe) that serves Native American students.

Are any EDFacts data utilized to prepopulate EASIE?

RESPONSE: The following files are used to prepopulate the EASIE system:

- In Part I, membership data from the LEA level, N/X052 file, is used to prepopulate the application.
- In Part II, sections are prepopulated using student performance data from N/X075, N/X078, N/X079 and graduation rate from N/X041 (all at the LEA level). The entities do have the option for manual entry.

What is the CRDC?

RESPONSE: The Civil Rights Data Collection (CRDC) is a two part, biennial survey of a sample of 7,000 school districts on a variety of areas related to civil rights in education, often disaggregated by sex, race/ethnicity, disability and limited English proficiency. The selected LEAs are responsible for submitting the data to the CRDC directly.

Are any EDFacts data utilized to prepopulate the CRDC?

EDFacts data are not used to prepopulate the survey tool. However, some data collected through EDFacts, such as school-level data on Children with Disabilities School Age, may be included in the final survey report along with the data submitted by the districts.

10. EDFACTS SUPPORT INFORMATION

Whom do I contact when I have a question concerning EDFacts and its supporting tools/documentation?

RESPONSE: SEA Partners can contact the EDFacts Partner Support Center by toll free telephone, fax or e-mail:

Telephone: 877-457-3336 (877-HLP-EDEN)
Fax: 888-329-3336 (888-FAX-EDEN)
TTY/TDD: 888-403-3336 (888-403-EDEN)
E-mail: eden_ss@ed.gov

Hours of operation are between 8am-6pm ET, Monday through Friday except for Federal holidays.

How do states appropriately use the assistance available from the Office of Special Education Program's Data and Analysis Center (DAC) and the Partner Support Center for submitting IDEA-related data through EDFacts?

RESPONSE: When submitting data required under the Individuals with Disabilities in Education Act (IDEA), if any policy questions arise the EDFacts Coordinators should first consult with their SEA's Part B Data Manager. If the Part B Data Manager does not know the answer, the EDFacts Coordinator and Part B Data Manager should jointly send the question to DAC for a response. The EDFacts Partner Support Center should be contacted regarding any file preparation or data submission questions.

I have new staff that needs training in ESS. Whom should I contact?

RESPONSE: PSC provides online training for new EDFacts Submitters and new EDFacts Coordinators. The training is typically 90 minutes in duration covering a range of topics from an overview of all EDFacts Tools to troubleshooting transmissions to state-specific information such as submission status. Contact PSC to schedule a one-on-one online training session.

I have a suggestion for a change that I feel will make EDFacts and ESS work better for the states. Whom do I contact?

RESPONSE: Contact the Partner Support Center. Your suggestion will be logged and communicated to the EDFacts Change Review Board (ECRB). The ECRB will periodically review requests to determine if resources and priorities allow for implementation.

I previously made an enhancement suggestion. How do I find out if or when it will be implemented?

RESPONSE: When ECRB decisions are made, PSC will contact you back with this information. If you have not heard back, this means your request is pending but feel free to contact the PSC for confirmed status of your request.

UPDATED: How can I join the EDFacts list-serve?

RESPONSE: For the time being the Department of Education is adding people to the list-serve manually. Please contact Ross Lemke at ross.lemke@aemcorp.com if you need to be added to the list-serv or if you have questions or concerns regarding the list-serv.

The Department of Education's mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.

www.ed.gov
