LOUISIANA
MISSISSIPPI
TEXAS

Ref: #06161806

Michael A. Cardona, Superintendent
San Marcos Consolidated School District
501 S. LBJ Drive
San Marcos, Texas 78666

Dear Superintendent Cardona:

This is to notify you of the resolution of the complaint filed with the U.S. Department of Education (Department), Office for Civil Rights (OCR), against the San Marcos Consolidated School District (the District), alleging discrimination on the basis of disability. The complainant alleged that the SMCISD discriminates against individuals with disabilities because the playgrounds, entrances and walkways at certain SMCISD schools are not accessible to persons who are mobility impaired. Specifically, OCR opened for investigation the following legal issue:

Whether persons with disabilities are denied the benefits of, excluded from participation in, or otherwise subjected to discrimination by SMCISD because the playgrounds at each of the six SMCISD elementary schools (Travis, Crockett, Hernandez, Mendez, Bowie and DeZavala); the entrances at each of the six elementary schools, both middle schools (Miller and Goodnight) and San Marcos high school and; the crosswalk and water fountains at Travis elementary school are inaccessible to or unusable by persons with disabilities, in violation of Section 504 and Title II, at 34 C.F.R. §§ 104.21-104.23, and 28 C.F.R. §§ 35.149-35.151, respectively.

OCR enforces:

- Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, and its implementing regulation, 34 C.F.R. Part 104 (Section 504). Section 504 prohibits discrimination on the basis of disability by recipients of Federal financial assistance.
- Title II of the Americans with Disabilities Act of 1990, 42 U.S.C. § 12131, and its implementing regulation, 28 C.F.R. Part 35 (Title II). Title II prohibits discrimination on the basis of disability by public entities.

The Department of Education's mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.

Because the District receives Federal financial assistance from the Department and is a public entity, the District is subject to these laws. Additional information about the laws OCR enforces is available on our website at <http://www.ed.gov/ocr>.

Legal Standards

The accessibility requirements of the Section 504 regulation are found at 34 C.F.R. Section 104.21-104.23. Comparable provisions of the Title II regulation are found at 28 C.F.R. 35.149-35.151. Both regulations provide that no qualified person with a disability shall, because a recipient's facilities are inaccessible to or unusable by persons with disabilities, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity operated by the recipient.

A playground meets the definition of a "facility" under the Section 504 and Title II regulations (see 34 C.F.R. 104.3(i) and 28 C.F.R. 35.104). A playground facility is comprised of the structure or equipment installed to provide play activities, the route into and around the playground area, as well as the surface surrounding the structure or equipment.

The general nondiscrimination provisions of Section 504 and Title II apply to playgrounds (see 34 C.F.R. 104.4 and 28 C.F.R. 35.130). These provisions provide for equal opportunity and program accessibility.

In September 2010, the U.S. Department of Justice (DOJ) released its final rule updating the Title II regulations. Among other significant changes, DOJ adopted the entirety of the 2004 ADA Accessibility Guidelines (ADAAG) as the revised standards for physical accessibility under Title II. The 2010 ADA Standards for Accessible Design ("2010 Standards"), which took effect on March 15, 2012, consist of the 2004 ADAAG and the requirements under 28 C.F.R. §35.151. These include sections 240 and 1008, the scoping and technical requirements for play areas, in the 2010 ADA Standards.

According to 28 C.F.R. § 35.150(b)(2)(i), elements that have not been altered in existing facilities on or after March 15, 2012, and that comply with the corresponding technical and scoping specifications for those elements in either the 1991 Standards or in the Uniform Federal Accessibility Standards (UFAS), are not required to be modified in order to comply with the requirements set forth in the 2010 Standards. However, 28 C.F.R. §35.150(b)(2)(ii) provides that this safe harbor provision does not apply to those elements in existing facilities that are subject to supplemental requirements, which includes play areas. Thus, play areas must comply with 2010 Standards sections 240 and 1008, as of March 15, 2012; accordingly, the 2010 ADA Standards became effective as the only physical accessibility standard for playgrounds on March 15, 2012. Under this standard, playgrounds must be designed and constructed so as to be readily accessible to and usable by persons with disabilities.

Not every component or element of a playground structure need be accessible. However, where components provide different types of play experiences, such as rocking, swinging, climbing, spinning, or sliding, at least one of each type of activity must be accessible to children with disabilities.

In reaching its determination regarding the accessibility of playground facilities, OCR analyzes whether there is an accessible route leading to and through the playground which is firm, stable, and slip resistant; whether there is a sufficient range of play structure activities within the playground that is accessible to and usable by disabled individuals; and whether there is accessible surfacing beneath accessible play equipment that is firm, stable, slip resistant, and resilient.

OCR procedures provide that a complaint may be resolved before the conclusion of an investigation if a recipient asks to resolve the complaint by signing a resolution agreement. The provisions of the resolution agreement must be aligned with the complaint allegations and be consistent with applicable regulations. Such a request does not constitute an admission of a violation on the part of the District, nor does it constitute a determination by OCR of any violation of our regulations.

Consistent with OCR's procedures, on November 18, 2016, the District requested to resolve this complaint through a Voluntary Resolution Agreement (the Agreement). We determined that this case was appropriately resolved through OCR's voluntary resolution process. OCR will need to conduct an on-site inspection of the School's playground facilities and verify the District's representations regarding the accessibility of the School's playgrounds in order to make a compliance determination in this complaint.

On _____, 2017, the District signed a Voluntary Resolution Agreement with OCR to resolve the allegation in this complaint. Accordingly, OCR is concluding its investigation of this complaint. A copy of the signed Agreement is enclosed. As is our standard practice, OCR will monitor the District's implementation of the Agreement.

This letter is not intended, nor should it be construed, to cover any other issues regarding the District's compliance with Section 504, Title II and their implementing regulations that may exist and are not discussed herein. The Complainant may have the right to file a private suit in federal court, whether or not OCR finds a violation.

Under the Freedom of Information Act, it may be necessary to release this document and related correspondence and records upon request. In the event that OCR receives such a request, we will seek to protect, to the extent provided by law, personally identifiable information, which, if released, could reasonably be expected to constitute an unwarranted invasion of personal privacy.

Michael A. Cardona, Superintendent
San Marcos Consolidated School District
