Re: Lex La-Ray Technical Center  
OCR Docket No. 07132231

Dear

This letter is in response to our discussions regarding the resolution of the above-referenced complaint. As we have discussed, OCR has found insufficient evidence to substantiate the allegations of the complaint. However, there were some potential technical deficiencies in the Technical Center's application and accommodations policy. The District is willing to revise the Technical Center's application and accommodations policy to ensure compliance with federal law. Nothing in this letter shall be construed as an admission or acknowledgment of any liability or wrongdoing. As counsel for the District, I have the authority to bind the District in this matter.

By February 10, 2014, the Technical Center will remove from its application for admission to the practical nursing program requests for information from the applicant about his or her status as a disabled person or his or her medical information, as necessary to comply with 34 C.F.R. 104.42. The Technical Center may still request this information from an applicant on a post-admission basis. The Technical Center shall submit a copy of the revised application to OCR on or before February 11, 2014.

By February 10, 2014, the Technical Center will revise its Student Accommodations Policy for the practical nursing program to remove the content deadlines for a student to request reasonable accommodations and to provide documentation of the need for said reasonable accommodations. The Technical Center shall submit a copy of the revised Student Accommodations Policy to OCR on or before February 11, 2014.

The Technical Center will publish the above-referenced revisions within thirty (30) days after receipt of OCR's approval of said revisions. OCR will issue its findings of insufficient evidence to
