SECTION B

B.1. 301-6a

ESTIMATED COST AND INCENTIVE FEE (INCREMENTALLY FUNDED
CONTRACTS)(MAY 1998)

- (a) It is estimated that the total cost to the Government for full performance of this contract will be \$_____ of which \$_____ represents the estimated cost and \$ _____ represents the target fee (if any). The fee payable under this contract shall be the target fee adjusted in accordance with paragraph (e) of clause 52.216-10, Incentive Fee and the Quality Assurance Surveillance Plan of this contract.
- (b) Sufficient funds are not presently available to cover the total estimated cost of this contract; however, this contract will follow the concepts of incremental funding described in FAR clause 52.232-22, "Limitation of Funds". Funds currently available for payment and allotted to this contract are \$_____ of which \$ _____ represents the limitation of reimbursable costs and \$_____ represents the amount set aside for fee (if any).
- (c) If and when the contract is fully funded, as specified in paragraph (a) of this clause, the "Limitation of Cost" clause shall become applicable.
- (d) The Contracting Officer may allot additional funds to the contract without the concurrence of the Contractor.

B.2. 52.216-10

INCENTIVE FEE (MAR 1997)

- (a) General. The Government shall pay the Contractor for performing this contract a fee determined as provided in this contract.
- (b) Target cost and target fee. The target cost and target fee specified in the Schedule are subject to adjustment if the contract is modified in accordance with paragraph (d) of this clause.
- (1) "Target cost," as used in this contract, means the estimated cost of this contract as initially negotiated, adjusted in accordance with paragraph (d) below.
- (2) "Target fee," as used in this contract, means the fee initially negotiated on the assumption that this contract would be performed for a cost equal to the estimated cost initially negotiated, adjusted in accordance with paragraph (d) of this clause.
- (c) Withholding of payment. Normally, the Government shall pay the fee to the Contractor as specified in the Schedule. However, when the Contracting Officer considers that performance or cost indicates that the Contractor will not achieve target, the Government shall pay on the basis of an appropriate lesser fee. When the Contractor demonstrates that performance or cost clearly indicates that the Contractor will earn a fee significantly above the target fee, the Government may, at the sole discretion of the Contracting Officer, pay on the basis of an appropriate higher fee. After payment of 85 percent of the applicable fee, the Contracting Officer may withhold further payment of fee until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed 15

SECTION B

percent of the applicable fee or \$100,000, whichever is less. The Contracting Officer shall release 75 percent of all fee withholds under this contract after receipt of the certified final indirect cost rate proposal covering the year of physical completion of this contract, provided the Contractor has satisfied all other contract terms and conditions, including the submission of the final patent and royalty reports, and is not delinquent in submitting final vouchers on prior years' settlements. The Contracting Officer may release up to 90 percent of the fee withholds under this contract based on the Contractor's past performance related to the submission and settlement of final indirect cost rate proposals.

(d) Equitable adjustments. When the work under this contract is increased or decreased by a modification to this contract or when any equitable adjustment in the target cost is authorized under any other clause, equitable adjustments in the target cost, target fee, minimum fee, and maximum fee, as appropriate, shall be stated in a supplemental agreement to this contract.

(e) Fee payable. (1) The fee payable under this contract shall be the target fee increased by ten (10) cents for every dollar that the total allowable cost is less than the target cost or decreased by ten (10) cents for every dollar that the total allowable cost exceeds the target cost. In no event shall the fee be greater than ten (10) percent or less than zero (0) percent of the target cost.

(2) The fee shall be subject to adjustment, to the extent provided in paragraph (d) of this clause, and within the minimum and maximum fee limitations in paragraph (e)(1) of this clause, when the total allowable cost is increased or decreased as a consequence of (i) payments made under assignments or (ii) claims excepted from the release as required by paragraph (h)(2) of the Allowable Cost and Payment clause.

(3) If this contract is terminated in its entirety, the portion of the target fee payable shall not be subject to an increase or decrease as provided in this paragraph. The termination shall be accomplished in accordance with other applicable clauses of this contract.

(4) For the purpose of fee adjustment, "total allowable cost" shall not include allowable costs arising out of--

(i) Any of the causes covered by the Excusable Delays clause to the extent that they are beyond the control and without the fault or negligence of the Contractor or any subcontractor;

(ii) The taking effect, after negotiating the target cost, of a statute, court decision, written ruling, or regulation that results in the Contractor's being required to pay or bear the burden of any tax or duty or rate increase in a tax or duty;

(iii) Any direct cost attributed to the Contractor's involvement in litigation as required by the Contracting Officer pursuant to a clause of this contract, including furnishing evidence and information requested pursuant to the Notice and Assistance Regarding Patent and Copyright Infringement clause;

(iv) The purchase and maintenance of additional insurance not in the target cost and required by the Contracting Officer, or claims for reimbursement for liabilities to third persons pursuant to the Insurance Liability to Third Persons clause;

(v) Any claim, loss, or damage resulting from a risk for which the Contractor has been relieved of liability by the Government Property clause; or

(vi) Any claim, loss, or damage resulting from a risk defined in the

SECTION B

contract as unusually hazardous or as a nuclear risk and against which the Government has expressly agreed to indemnify the Contractor.

(5) All other allowable costs are included in "total allowable cost" for fee adjustment in accordance with this paragraph (e), unless otherwise specifically provided in this contract.

(f) Contract modification. The total allowable cost and the adjusted fee determined as provided in this clause shall be evidenced by a modification to this contract signed by the Contractor and Contracting Officer.

(g) Inconsistencies. In the event of any language inconsistencies between this clause and provisioning documents or Government options under this contract, compensation for spare parts or other supplies and services ordered under such documents shall be determined in accordance with this clause.

The requirements of this clause apply to the Contractor, regardless of which entity performs the covered research. The contractor shall comply with Part 97 and shall ensure that each entity involved in covered research activities complies with Part 97.

(b) The Contractor agrees that the rights and welfare of human subjects involved in research under this contract shall be protected in accordance with 34 CFR Part 97 and with the Contractor's current Assurance of Compliance on file with ED or the Office for Protection from Research Risks, Department of Health and Human Services.

(c) Under no condition shall the Contractor conduct, or allow to be conducted, any covered research activity involving human subjects prior to the Department's receipt of the Certification that the research has been reviewed and approved by the Institutional Review Board (IRB) [34 CFR 97.103(f)]. No covered research involving human subjects shall be initiated under this contract until the Contractor has provided the Contracting Officer (or the Contracting Officer's designee) a properly completed Certification form certifying IRB review and approval of the research activity, and the Contracting Officer or designee has received the Certification. This restriction applies to the activities of each participating entity.

(d) In accordance with 34 CFR 97.109(e), an IRB must conduct continuing reviews of covered research activities at intervals appropriate to the degree of risk, but no less than once a year. Covered research activities that are expected to last one year or more are therefore subject to review by an IRB at least once a year.

(1) For each covered activity under this contract that requires continuing review, the contractor shall submit an annual written representation to the Contracting Officer (or the Contracting Officer's designee) stating whether covered research activities have been reviewed and approved by an IRB within the previous 12 months. The contractor may use Optional Form 310 for this representation. For multi-institutional projects, the contractor shall provide this information on its behalf and on behalf of any other entity engaged in covered research activities for which continuing IRB reviews are required.

(2) If the IRB disapproves, suspends, terminates or requires modification of any covered research activities under this contract, the Contractor shall immediately notify the Contracting Officer in writing of the IRB's action.

(e) The Contractor shall bear full responsibility for performing as safely as is feasible all activities under this contract involving the use of human subjects and for complying with all

SPECIAL CONTRACT REQUIREMENTS

applicable regulations and requirements concerning human subjects. No one (neither the Contractor, nor any subcontractor, agent or employee of the Contractor, nor any other person or organization, institution, or group of any kind whatsoever) involved in the performance of such activities shall be deemed to constitute an agent or employee of the Department of Education or of the Federal Government with respect to such activities. The Contractor agrees to discharge its obligations, duties, and undertakings and the work pursuant thereto, whether requiring professional judgement or otherwise, as an independent Contractor without imputing liability on the part of the Government for the acts of the Contractor and its employees.

(f) Upon discovery of any noncompliance with any of the requirements or standards stated in paragraphs (b), (c) and (d) above, the Contractor shall immediately correct the deficiency. If at any time during performance of this contract, the Contracting Officer determines, in consultation with the Protection of Human Subjects Coordinator, Office of the Chief Financial and Chief Information Officer, or the sponsoring office, that the Contractor is not in compliance with any of the requirements or standards stated in paragraphs (b), (c) and (d) above, the Contracting Officer may immediately suspend, in whole or in part, work and further payments under this contract until the Contractor corrects such noncompliance. Notice of the suspension may be communicated by telephone and confirmed in writing.

(g) The Government may terminate this contract, in full or in part, for failure to fully comply with any regulation or requirement related to human subjects involved in research. Such termination may be in lieu of or in addition to suspension of work or payment. Nothing herein shall be construed to limit the Government's right to terminate the contract for failure to fully comply with such requirements.

H.17. 316-1

ACCESSIBILITY OF SOFTWARE (OCTOBER 1999)

The Department of Education (ED) considers universal accessibility to information a priority for all its employees and external customers, including individuals with disabilities. Under Sections 504 and 508 of the Rehabilitation Act of 1973 (29 U.S.C. sections 794 and 794d, as amended), ED must ensure the accessibility of its programs and activities, specifically its obligation to acquire and use accessible electronic and information technology. ED maintains the manual, "Requirements for Accessible Software Design," to convey the accessibility needs of the Department to the developers and suppliers of computer applications. To comply with the provisions of this clause, the contractor may use the edition of the ED manual "Requirements for Accessible Software Design" in effect at the date of award of this contract or any more recent edition.

SECTION H
SPECIAL CONTRACT REQUIREMENTS

A copy of the most recent edition of the manual may be found at <http://ocfo.ed.gov/coninfo/clibrary/software.htm>.

(a) Software delivered to or developed for ED--Except as provided in paragraph (b) or (c) of this clause, all software delivered to or developed for ED, under this contract, for use by ED's employees or external customers must meet all the requirements of the ED manual "Requirements for Accessible Software Design." However, in accordance with paragraph (c) of this clause, the contracting officer may waive a particular requirement of the ED Manual, provided that ED's use of the software will meet the requirements of Sections 504 and 508 of the Rehabilitation Act of 1973 (29 U.S.C. sections 794 and 794d, as amended).

(b) Software enhanced or modified for ED--Any enhancements and other modifications, made under this contract to software for use by ED's employees or external customers, are subject to the requirements of paragraph (a) of this clause, regardless of where or how the software was first developed. Except as otherwise specified elsewhere in the contract schedule, the contractor is only required to ensure that enhancements or modifications (not other, preexisting features or components) of the software fully comply with the accessibility requirements of paragraph (a). However, the contractor is encouraged point out any preexisting features or components that do not meet accessibility requirements and to suggest solutions to ensure the software complies.

(c) Waiver of requirements--It is recognized that new technologies may provide solutions that are not envisioned in or consistent with the provisions of the manual "Requirements for Accessible Software Design." Also, compliance with certain requirements of the manual may not be feasible for the particular software required. In such extraordinary circumstances, the contracting officer may grant a waiver, in writing, to any requirement of the manual or of this clause if it furthers a public interest of ED and will not significantly impair ED's ability to ensure accessibility of its programs and activities to all its employees and external customers, including individuals with disabilities. To request a waiver, the contractor shall notify the contracting officer in writing, listing the specific accessibility requirements that would not be met and explaining how the accessibility of a particular feature can be achieved by alternative means or why it is not feasible to make a feature of the software accessible.

(d) Condition of payment--The contractor agrees that compliance with the provisions of this clause upon delivery of the software to ED is a condition of payment under this contract.

SECTION H
SPECIAL CONTRACT REQUIREMENTS

(2) The Contracting Officer will apply the factor to a line item or a group of line items on which award may be made. The Contracting Officer will apply other evaluation factors described in the solicitation before application of the factor. The factor may not be applied if using the adjustment would cause the contract award to be made at a price that exceeds the fair market price by more than the factor in paragraph (b)(1) of this clause.

REPRESENTATION OF LIMITED RIGHTS DATA AND RESTRICTED COMPUTER SOFTWARE
(MAY 1999)

(a) This solicitation sets forth the work to be performed if a contract award results, and the Government's known delivery requirements for data (as defined in FAR 27.401). NOTICE ABOUT RESEARCH ACTIVITIES INVOLVING HUMAN SUBJECTS (MARCH 1999)

(a) Applicable Regulations. Any research activities under this proposed contract involving human subjects are governed by Department of Education (ED) regulations for the protection of human subjects in research, Title 34, Code of Federal Regulations, Part 97 (hereafter, "the regulations"). The regulations require contractors and other entities involved in covered (nonexempt) research activities to establish and maintain procedures for the protection of human subjects. Copies of the regulations and related information on the protection of human research subjects are available on ED's Protection of Human Subjects in Research Web Site at <<http://ocfo.ed.gov/humansub.htm>> and from the Department's Protection of Human Subjects Coordinator, at the address shown below.

(b) Definitions.

- (1) The regulations define research as "a systematic investigation, including research development, testing and evaluation designed to develop or contribute to generalizable knowledge." (If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.) It includes activities that meet this definition, whether or not they are conducted under a program considered "research" for other purposes [34 CFR 97.102(d)].
- (2) The regulations define human subject as "a living

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

individual about whom an investigator (whether professional or student) conducting research obtains data through intervention or interaction with the individual or obtains identifiable private information" [34 CFR 97.102(f)(1)]. The definition of human subjects is met if an activity involves obtaining--

(A) information about a living person by--

- (i) manipulating that person's environment, as might occur when a new instructional technique is tested, or
- (ii) communicating or interacting with the individual, as occurs with surveys and interviews; or

(B) private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information). [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which an individual can reasonably expect will not be made public (for example, a school health record).]

(c) Exemptions. The regulations provide exemptions from coverage for activities in which the only involvement of human subjects will be in one or more of the categories set forth in 34 CFR 97.101(b)(1-6). However, if the research subjects are children, the exemption at 34 CFR 97.101(b)(2)(i.e., research involving use of educational tests, survey procedures, interview procedures or observation of public behavior) is modified by 34 CFR 97.401(b), as explained in paragraph (d) below. Many types of research conducted on behalf of ED's National Center for Education Statistics are exempt under 34 CFR 97.101(b)(3)(ii), since the National Education Statistics Act prohibits disclosure of any individually identifiable information.

(d) Children as research subjects. Paragraph 34 CFR 97.402(a) of the regulations defines children as "persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law of the jurisdiction in which the research will be conducted." Paragraph 34 CFR 97.401(b) of the regulations provides that, if the research involves children as subjects--

(1) The exemption at 34 CFR 97.101(b)(2) does not apply to activities involving--

- (A) survey or interview procedures involving children as subjects, or
- (B) observations of public behavior of children in which the investigator(s) will participate in the activities being observed.

(2) The exemption at 34 CFR 97.101(b)(2) continues to apply, unmodified by 34 CFR 97.401(b), to--

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

- (A) educational tests, and
- (B) observations of public behavior in which the investigator(s) will not participate in the activities being observed.

(e) Proposal Instructions. An offeror proposing to do research that involves human subjects must provide information to ED on the proposed exempt and nonexempt activities. The offeror should submit this information as an attachment to its technical proposal. No specific page limitation applies to this requirement, but the offeror should be brief and to the point.

- (1) For exempt research activities involving human subjects, the offeror should identify the exemption(s) that applies and provide sufficient information to allow ED to determine that the designated exemption(s) is appropriate.
- (2) For covered research activities involving human subjects (whether conducted at the offeror's site or elsewhere), the offeror should identify the organizations (i.e., legally separate entities) that will be involved in the research activities to allow ED to:
 - (A) Determine the identity of the entities that need to submit Assurances and Certifications;
 - (B) Evaluate the adequacy of the proposed Institutional Review Board(s) in light of the research subjects likely to be involved;
 - and
 - (C) Evaluate the appropriateness of the initial and continuing Institutional Review Board review procedures in consideration of the risks to subjects.
- (3) If a reasonable potential exists that a need to conduct research involving human subjects may be identified after award of the contract and the offeror's proposal contains no definite plans for such research:
 - (A) The offeror should briefly describe the circumstances and nature of the potential research involving human subjects.
 - (B) If the offeror believes that an exemption is likely to apply, the offeror should identify the exemption and explain why it would apply.
 - (C) The offeror's proposal should allow adequate time to obtain and submit an Assurance of Compliance and a Certification of Institutional Review Board (IRB) review for any potential covered research that may be identified after award. Offerors are cautioned that no human subjects may be involved in covered research until the research has been reviewed and approved by the IRB and the contractor has submitted to ED an acceptable Assurance and a Certification of IRB review.

(f) Assurances and Certifications.

- (1) For an offeror reasonably likely to receive an award, if ED determines that proposed research activities involving human subjects are covered (i.e., not exempt) under the regulations, the contracting officer will request the offeror to file an

acceptable Assurance of Compliance with the regulations and provide Certification of IRB review and approval of the proposed project. In lieu of a new Assurance, ED will accept a current Multiple Project Assurance on file with the Office for Protection from Research Risks, Department of Health and Human Services, if ED determines that the Multiple Project Assurance is appropriate to the proposed covered research activity. Offerors reasonably likely to receive an award and proposing to do research that is covered by the regulations will be contacted by ED and given detailed instructions on filing the Assurances and Certifications.

(2) In accordance with 34 CFR 97, all subcontractors and any other legally separate entity (neither owned nor operated by the offeror) that will be engaged in covered research activities shall be required to have an Assurance on file and to provide to ED Certification of IRB review and approval.

(3) The offeror is responsible for ensuring that it and the other entities submit the required documents to ED in a timely manner. Although an offeror does not need to submit an Assurance of Compliance or a Certification of Institutional Review Board (IRB) review with its initial proposal, the offeror should be prepared to obtain and provide these documents promptly upon request. Failure to submit the documents in a timely manner may result in deferral of an award or award to another offeror.

(g) Offerors may contact ED's Protection of Human Subjects Coordinator to obtain information about the regulations for the protection of human subjects and related policies and guidelines.

clause entitled "Information Technology System Security Requirements", ED 307-13. Technical proposals must include a separately detailed plan for meeting these requirements, including any necessary subcontract applications. Submission of these plans shall serve as certifications of the offerors' full intent for compliance.

L.6. 311-2a

GENERAL INSTRUCTIONS (APRIL 1999)

The following instructions establish the acceptable minimum requirements for the format and content of proposals:

Your special attention is directed to the requirements for technical and business proposals and past performance report to be submitted in accordance with these instructions. Any resultant contract shall include the general provisions applicable to the selected offeror's organization and type of contract awarded. Copies of general provisions may be obtained by contacting the Contracting Officer. Any additional clauses required by public law, executive order, or acquisition regulations, in effect at the time of execution of the proposed contract, will be included.

The proposal must be prepared in three parts:

A "Technical Proposal," "Business Proposal," and a "Past Performance Report." Each of the parts shall be separate and complete in itself so that evaluation of one may be accomplished independently of evaluation of the other. The technical proposal must not contain reference to cost; however, resource information, such as data concerning labor hours and categories, materials, subcontracts, etc., must be contained in the technical proposal so that your understanding of the scope of the work may be evaluated. It must disclose your technical approach in sufficient detail to provide a clear and concise presentation that includes, but is not limited to, the requirements of the technical proposal instructions.

The proposal must be signed by an official authorized to bind your organization. You must submit an original and 8 copies of your technical proposal and an original and 3 copies of your business proposal and an original and one copy of your past performance report to:

U.S. Department of Education
Contracts and Purchasing Operations
GSA-NCR Building, Room 3616
7th & D Streets, S.W.
Washington, D.C. 20202-4443

Hand-carried proposals must be delivered by entering through the 'D' Street entrance of the building and stopping at the Guard's Desk. Offerors are directed to call Contracts and Purchasing Operations at 708-8191 (if no answer is received at this number please call the number listed under clause 311-6). Offerors should indicate for which RFP number they are submitting a proposal and should have proper identification. Offerors will be required to sign in and be escorted to Contracts and Purchasing Operations where the proposal will be officially received. Offerors should consider this delay in meeting the time specified for proposal

receipt.

The Government will evaluate proposals in accordance with the evaluation criteria set forth in Section M (if applicable) of this request for proposals. Offerors are encouraged to submit proposals on recycled paper with a high post-consumer waste content. It is understood that your proposal will become part of the official contract file.

The RFP does not commit the Government to pay any cost for the preparation and submission of a proposal. In addition, the Contracting Officer is the only individual who can legally commit the Government to the expenditure of public funds in connection with this proposed acquisition.

The RFP and all of the attachments including the Statement of Work will be available on the OCFO Web Site from the Contract Information/Contract Documents On-Line Page. The Internet address is <http://ocfo.ed.gov>. For technical questions on the OCFO Web Site, call Gary Weaver at 202/401-0083.

To assist you in the preparation of your proposal, the Government has estimated the effort to perform this contract. The estimated level of effort is

Labor Category	Staff Hours
Project Director	4,000 across the five-year period
Senior Researcher	8,000 across the five-year period
Research Staff	10,000 across the five-year period
Research Assistant	10,000 across the five-year period
Secretary	8,000 across the five-year period

These numbers are furnished for the offeror's information only and are not considered restrictive for proposal purposes.

L.7. 311-3

TECHNICAL PROPOSAL INSTRUCTIONS (MARCH 1986)

Proposals which merely offer to conduct a program in accordance with the requirements of the Government's scope of work will not be eligible for award. You must submit an explanation of the proposed technical approach in conjunction with the tasks to be performed in achieving the project objectives.

A detailed work plan must be submitted indicating how each aspect of the statement of work is to be accomplished. Your technical approach should be in as much detail as you consider necessary to fully explain your proposed technical approach or method. The technical proposal should reflect a clear understanding of the nature of the work being undertaken.

The technical proposal must include information on how the project is to be organized, staffed, and managed. Information should be provided which will demonstrate your understanding and management of important events or tasks. You must explain how the management and coordination of consultant and/or subcontractor efforts will be accomplished.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

The technical proposal must include a list of names and proposed duties of the professional personnel, consultants, and key subcontractor employees assigned to the project. Their resumes should be included and should contain information on education, background, recent experience, and specific requirement related or technical accomplishments. The approximate percentage of time each individual will be available for this project must be included.

The proposed staff hours for each of the above individuals should be allocated against each task or subtask for the project. The technical proposal must provide the general background, experience, and qualifications of the organization. Similar or related contracts, subcontracts, or grants should be included and contain the name of the customer, contract or grant number, dollar amount, time of performance, and the names and telephone numbers of the project officer and contracting/grants officer.

The technical proposal must contain a discussion of present or proposed facilities and equipment which will be used in the performance of the contract.

The technical proposal must be prepared and submitted in the following format:

Instructions for Technical Proposal

General Instructions

1. The technical proposal shall not exceed 100 double-spaced pages, including the discussion of the work plan. Appendices, such as resumes and tables, may be provided in addition to the 100-page limit. The proposal must use a standard font of legible size (no smaller than 11 point for text other than charts and tables). The proposal must include a table of contents (which will not be counted as part of the 100-page limit), and all pages must be numbered. Pages beyond the 100-page limit (other than appendices) will not be reviewed.
2. The proposal must identify the author(s) of each chapter and state their proposed roles in the contract.
3. In discussing contract tasks and subtasks, the proposal must use the same task and subtask numbers included in the Statement of Work.
4. The tasks specified in the Statement of Work are a starting point. The offeror must build on them rather

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

than simply repeating the language of the Statement of Work. Offerors may propose revisions, clarifications, and alternate approaches to the tasks described in the Statement of Work. In addition, although a preliminary study design is provided with the statement of work, offerors may propose revisions, clarifications, and alternate approaches to that design; offerors must propose the most effective method for carrying out each task.

5. There may be instances where the Statement of Work and the preliminary study design differ in terms of the work described. Where any such differences occur, offerors shall base their proposals on the Statement of Work. However, if offerors choose to propose alternate approaches to certain tasks, they may include as alternate approaches any aspects of the preliminary design that differ from the Statement of Work. In such cases, offerors shall identify, explain, and justify their decision to propose these differing aspects of the preliminary design just as they identify, explain, and justify any other alternate approaches they may choose to propose.

Specific Instructions

The proposal must include (but is not limited to) the following sections and subsections:

Technical Approach

1. Purpose and objectives. This section of the proposal must describe the purpose and objectives of the offeror's approach to the project, and must include a discussion of the preliminary research questions and conceptual framework (provided as part of the preliminary study design). The offeror may propose revisions or clarifications to the preliminary research questions or preliminary conceptual framework, but if so the proposal must identify, explain, and justify the revisions or clarifications.

2. Background information and policy issues. This section of the proposal must discuss background information and policy issues relevant to the Safe and Drug-Free Schools program in general and to the study in particular, including relevant research literature, as well as a consideration of other recent and ongoing school-based data collections relevant to drug and violence prevention.

3. Methodology and work plan. This section of the proposal must discuss the offeror's overall technical approach and the specific work to be performed. The

SECTION L

The offeror may propose a methodological approach or work plan that differs from the preliminary study design, but if so the proposal must identify, explain, and justify the revisions or alternate approaches.

The offeror must name all senior staff and designate all key personnel. The proposal must describe the qualifications of key staff:

1. Project director's technical knowledge and experience, including the specific qualifications of the project director in terms of:

b) Experience and training in conducting evaluations in the areas of school-based prevention and intervention efforts, drug and violence prevention, and related educational policy areas;

c) Other experience and training in the areas of school-based prevention and intervention efforts, drug and violence prevention, and related aspects of education policy.

2. b) Experience and training in conducting evaluations in the areas of school-based prevention and intervention efforts, drug and violence prevention, and related educational policy areas;

c) Other experience and training in the areas of school-based prevention and intervention efforts, drug and violence prevention, and related aspects of education policy.

For the project director and all senior staff members, including all key personnel, the offeror must indicate the percentage of each person's time that the offeror is proposing to commit to this contract, showing this information for each year of the contract. In addition, for the project director and all key personnel, the offeror must indicate all other contracts to which each person is currently committed as well as all other contracts for which each person has been proposed, giving the percentage of time each commitment represents, and must account for 100% of each person's time. [Information on percentages of staff time may be provided in an appendix.]

Corporate Experience

The proposal must summarize and briefly describe the offeror's relevant past and current experience in conducting work similar to that described in the Statement of Work. If the offeror's proposal includes subcontractors, the proposal must identify the experience of the prime contractor and the subcontractor(s) separately.

Management Plan

The proposal must describe the offeror's plan for managing the work of the contract, including a summary description of the methods the offeror intends to use for planning, scheduling, budgeting, managing, and reporting on the work of the contract, as well as a specific description of how the offeror will:

The proposal must include charts or tables [which may be in appendices] that provide the following information:

- a.A schedule of task activities and deliverables.
- b.The time commitments of all personnel to each task (and the proportion of overall time), by name for key personnel, senior staff, consultants (if any), and subcontractor senior staff (if any); for all other staff, by staff category.
- c.The organizational structure of the project, including proposed lines of authority, coordination, and communication, within the offering organization, with consultants and subcontractors (if any), and with the U.S. Department of Education.
- d.The interrelationship of tasks.

Special Requirements

For all data collection involving students, the offeror must propose (as part of the discussion of the offeror's technical approach) methods for addressing the requirements of the Protection of Pupil Rights amendment to the General Education Provisions Act, which states in part that "No student shall be required, as part of any applicable program, to submit to a survey, analysis, or evaluation that reveals information concerning ... illegal, anti-social, self-incriminating and demeaning behavior ... without the prior consent of the student (if the student is an adult or emancipated minor), or in the case of an unemancipated minor, without the prior written consent of the parent."

Offerors must include in their proposal a statement that they are cognizant of the requirements of the U.S. Department of Education's regulation on protection of human subjects of research and shall comply with it as necessary [this statement may be included in an appendix]. This regulation was published in The Federal Register on June 18, 1991 as "The Federal Policy for the Protection of Human Subjects: Notices and Rules." L.13. 314-1

PAST PERFORMANCE REPORT (MAR 1996)

Each offeror shall submit the following information as a separately bound part of its proposal for both the offeror and proposed major subcontractors. Major, as defined here and in the remainder of sections L and M regarding past performance, is any subcontractor that is subcontracted for a minimum of 25% of the total contract amount. Each major subcontractor shall identify the name of the prime contractor on each of its past performance forms. If the offeror has no relevant corporate or organizational past performance, the offeror may substitute past performance of a predecessor company or of the offeror's management or proposed key personnel who have relevant experience.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

A. Each offeror shall submit information about its most recent four contracts, completed in the last three years or currently in process, which are of similar size, scope, complexity or, in any way, are relevant to the effort required by this solicitation. If the offeror's last four similar contracts are all currently in process, submit the last three similar contracts currently in process, and the most recent similar contract completed within the last three years. Contracts listed may include those entered into by the Federal Government, agencies of State and local governments and commercial customers. Contracts with the parent or an affiliate of the offeror may not be used.

Include the following information for each contract and subcontract:

1. Identification
 - a. Name of the contracting activity
 - b. Program title or product name
 - c. Contract number
 - d. Contract type
 - e. Period of performance, including all option periods
 - f. Contract Value:
 - (1) Initial projected total contract amount including all option periods
 - (2) Final or current projected total contract amount including all option periods
 - g. Points of Contact
 - (1) Contracting officer and telephone and fax number and e-mail address (if known)
 - (2) Administrative contracting officer, if different from above, and telephone and fax number and e-mail address (if known)
 - (3) Program manager, COTR or technical officer and telephone and fax number and e-mail address (if known)
2. Work performed and relevance
 - a. Brief synopsis of work performed
 - b. Brief discussion of how the work performed is relevant to the statement of work in this solicitation
 - c. Brief, specific examples of the offeror's high quality performance
3. If any of the listed contracts are award-fee or incentive contracts, include a table showing fees awarded and the minimum and maximum available fee for each period.
4. Paragraph E. below requires you to send a copy of the "Contractor Information Form" to each of your references. In your past performance report, include:
 - a. The date you sent the "Contractor Information Form" to each reference.
 - b. How you sent it (e.g., fax, mail, express delivery service, courier, e-mail, etc.).

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

c. To whom you sent it including telephone and fax number and e-mail address (if known).

B. The offeror may provide information on problems encountered on the contracts and subcontracts identified in A above and corrective actions taken to resolve those problems. Other than the information requested in A above, offerors should not provide general information on their performance on the identified contracts. General performance information will be obtained from the references.

C. Offerors should understand the difference between experience and past performance. Experience reflects the offeror's capability of performing a requirement. Past performance reflects how well it has performed similar requirements. In assessing past performance, the quality of the offeror's past performance is of primary significance, not the quantity of previous contracts performed. An offeror's experience will be evaluated in the technical proposal. For further guidance on including information on experience or how experience will be evaluated refer to the technical proposal instructions and evaluation criteria.

D. The offeror may describe any quality awards or certifications that indicate the offeror possesses a high-quality process for developing and producing the product or service required. Such awards or certifications include, for example, the Malcolm Baldrige Quality Award, other government quality awards, and private sector awards or certifications(e.g., the automobile industry's QS 9000, Sematech's SSQA, or ANSI/EIA-599).

Identify which segment of the company (one division or the entire company) received the award or certification. Describe when the award or certification was bestowed. If the award or certification is over three years old, present evidence that the qualifications still apply. Information about awards will be considered in evaluation of each of the past performance subfactors described in Section M. The offeror may describe how the award relates to one or more of the subfactors.

E. No later than the date proposals are due under this solicitation (see Block 9 of Standard Form 33), send a copy to each of your four references of the "Contractor Performance Information" form attached to this solicitation. Ask each reference to complete the form and return it to the contracting officer as prescribed on the form. Completed forms from references are due 10 calendar days after the date proposals are due under this solicitation. Request that the reference please return the completed form to the contracting officer by this date. Do not ask the reference to give you a copy of the completed form or any information therefrom. Beyond that initial request, you do not need to follow up with the reference; the contracting officer will contact the reference if necessary.

F. Each offeror will be evaluated on its performance under existing and prior contracts for similar products or services. Performance information will be used for both responsibility determinations and as an evaluation factor against which offerors' relative rankings will be compared to assure best value to the government. The government will

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

focus on information that demonstrates quality of performance relative to the size and complexity of the procurement under consideration. The "Contractor Performance Information" form identified in Section J will be used to collect this information. References other than those identified by the offeror may be contacted by the Government with the information received in the evaluation of the offeror's past performance.

L.14. 3452.232-71

INCREMENTAL FUNDING (AUG 1987)

(a) Sufficient funds are not presently available to cover the total cost of the complete project described in this solicitation. However, it is the Government's intention to negotiate and award a contract using the incremental funding concepts described in the clause titled 'Limitation of Funds' in FAR 52.232-22. Under that clause, which will be included in the resultant contract, initial funds will be obligated under the contract to cover an estimated base performance period. Additional funds are intended to be allotted to the contract by contract modification, up to and including the full estimated cost of the entire period of performance. This intent notwithstanding, the Government will not be obligated to reimburse the contractor for cost incurred in excess of the periodic allotments, nor will the contractor be obligated to perform in excess of the amount allotted.

(b) The Limitation of Cost clause in FAR 52.232-20 shall supersede the Limitation of Funds clause in the event the contract becomes fully funded.

L.15. 52.215-20 IV

REQUIREMENTS FOR COST OR PRICING DATA

OR INFORMATION OTHER THAN COST

PRICING DATA (OCT 1997)--ALTERNATE IV (OCT 1997)

(a) Submission of cost or pricing data is not required.

(b) Provide information described below:

As part of its business proposal, the offeror shall submit information to help the contracting officer determine the reasonableness of the proposed price and assess cost realism. The offeror should include at least the following information:

The estimated cost and fee (if any) for the base contract period and for any option periods;
Salaries of proposed key personnel;
Number of hours proposed for key personnel;
Indirect cost rates used in preparing the cost proposal;
Any property or equipment costing over \$1,000 proposed for purchase; and
Significant assumptions used, such as inflation rates for subsequent years.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

The offeror may use the format indicated in Table 15-2 of 15.408 or its own format for this information. The offeror may include other information to show that the offeror can complete the work at the proposed price.

The contracting officer reserves the right to require cost or pricing data if the contracting officer subsequently determines that none of the exceptions under FAR 15.403-1 apply and that the contract amount exceeds the threshold at FAR 15.403-4(a)(1).

L.16. 52.215-1 I

INSTRUCTIONS TO OFFERORS--COMPETITIVE ACQUISITION (FEB 2000)--ALTERNATE I (OCT 1997)

(a) Definitions. As used in this provision--

"Discussions" are negotiations that occur after establishment of the competitive range that may, at the Contracting Officer's discretion, result in the offeror being allowed to revise its proposal.

"In writing" or "written" means any worded or numbered expression which can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

"Proposal modification" is a change made to a proposal before the solicitation's closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

"Proposal revision" is a change to a proposal made after the solicitation closing date, at the request of or as allowed by a Contracting Officer as the result of negotiations.

"Time," if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to solicitations. If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).

(c) Submission, modification, revision, and withdrawal of proposals.
(1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, proposals and modifications to proposals shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror. Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i) and (c)(1)(ii) of this provision.

(2) The first page of the proposal must show--

(i) The solicitation number;

(ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);

(iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;

(iv) Names, titles, and telephone and facsimile numbers (and

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this solicitation; and

(v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence that agent's authority, unless that evidence has been previously furnished to the issuing office.

(3) Submission, modification, revision, and withdrawal of proposals.

(i) Offerors are responsible for submitting proposals, and any modifications, or revisions, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.

(ii)(A) Any proposal, modification, or revision, received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(1) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp on that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the provision at 52.215-5, Facsimile Proposals. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

(4) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this solicitation in English, unless otherwise permitted by the solicitation, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in this solicitation.

(6) Offerors may submit modifications to their proposals at any time before the solicitation closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) Offer expiration date. Proposals in response to this solicitation will be valid for the number of days specified on the solicitation cover sheet (unless a different period is proposed by the offeror).

(e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall--

(1) Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed--in whole or in part--for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of--or in connection with--the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction
are contained in sheets _____ and

(2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award. (1) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offer(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the solicitation.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(8) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(9) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(10) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

(11) The Government may disclose the following information in postaward debriefings to other offerors:

- (i) The overall evaluated cost or price and technical rating of the successful offeror;
- (ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;
- (iii) A summary of the rationale for award; and
- (iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

SECTION M
EVALUATION FACTORS FOR AWARD

M.1. 312-2

EVALUATION FACTORS FOR AWARD (FEB 1996)

(A) The Government will make award to the responsible offeror(s) whose offer conforms to the solicitation, has no deficiencies (as defined in FAR 15.301) and is most advantageous to the Government, cost or price and other factors considered. For this solicitation, price will be a substantial factor in source selection, however quality factors (including technical merit and past performance), considered together, are significantly more important than cost or price. The contracting officer will determine whether the difference in quality is worth the difference in cost or price.

(B) Past Performance

1. Each offeror's past performance will be evaluated based on the subfactors below. The past performance rating will be combined with the technical rating at a ratio of 36% past performance to technical to produce a combined quality rating. The relative importance of combined quality factors to cost or price is described in paragraph (A).

2. Past performance subfactors:

- a. Quality of Product or Service - compliance with contract requirements - accuracy of reports - appropriateness of personnel - technical excellence.
- b. Problem Resolution - anticipates and avoids or mitigates problems - satisfactorily overcomes or resolves problems - prompt notification of problems - pro-active - effective contractor-recommended solutions.
- c. Cost Control - within budget - current, accurate and complete billings - costs properly allocated - unallowable costs not billed - relationship of negotiated costs to actual - cost efficiencies.
- d. Timeliness of Performance - meets interim milestones - reliable - stays on schedule despite problems - responsive to technical direction - completes on time, including wrap-up and contract administration - no liquidated damages assessed.
- e. Business Relations - effective management - use of performance-based management techniques - business-like concern for the customer's interests - effective management and selection of subcontractors - effective small/small disadvantaged business subcontracting program - reasonable/cooperative behavior - effective use of technology in management and communication - flexible - minimal staff turnover - maintains high employee morale - resolves disagreements without being unnecessarily litigious.
- f. Customer Service - understands and embraces service and program goals - team approach with the customer - satisfaction of end users with the contractor's service - positive customer feedback - prompt responses - courteous interactions - effective escalations and referrals - initiative and proactive improvements - creative service

SECTION M
EVALUATION FACTORS FOR AWARD

strategies.

Bonus Rating--Where the offeror has demonstrated an exceptional performance level in any of the above six subfactors, the contracting officer may give additional consideration for that factor. It is expected that this rating will be used in those rare circumstances when contractor performance clearly exceeds the performance level of "excellent."

3. Past performance evaluation will be based on information obtained from the awards and references listed in the offeror's proposal, other customers known to the Government, consumer protection organizations, and others who may have useful and relevant information. Information will also be considered regarding any major subcontractors, and key personnel records. The currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance will be considered. The contracting officer will give greater consideration to information about an offeror's past performance that the contracting officer considers either more reliable or more relevant to the effort required by this solicitation.
4. Evaluation of past performance may be quite subjective, based on consideration of all relevant facts and circumstances. It will include consideration of the offeror's commitment to customer satisfaction and will include conclusions of informed judgement.
5. An offeror will be given an opportunity to discuss adverse past performance information, if the offeror has not had a previous opportunity to comment on the information. The contracting officer may review recent contracts to ensure that corrective measures raised in discussions have been implemented. Prompt corrective action in an isolated instance might not outweigh an overall negative trend.
6. If no relevant information on past performance is available for an offeror, the offeror will not be evaluated favorably or unfavorably credit.

(C) Technical Evaluation Criteria: In accordance with the technical evaluation criteria, technical solutions that exceed any mandatory minimums will be given appropriate evaluation credit.
