Tom Luce,

Assistant Secretary for Planning, Evaluation, and Policy Development.

For the reasons discussed in the preamble, the Director, Policy and Program Studies Service, U.S. Department of Education, publishes a notice of a new system of records to read as follows:

18-17-02

SYSTEM NAME:

"Follow Up Evaluation of the Gear Up Program".

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Program and Analytic Studies Division, Policy and Program Studies Service, U.S. Department of Education, 400 Maryland Avenue, SW., Room 6W231, Washington, DC 20202.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This system contains records on middle school students who participated in the GEAR UP program in 2000–01 and a comparison group of non-participants from schools matched on socio-demographic characteristics.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of the name, address, and social security number of the study participants as well as demographic information such as race/ethnicity and age; educational background, transcript information, service participation information, high school graduation, and preliminary postsecondary enrollment information; and financial aid application and award.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

20 U.S.C. 1070a–27.

PURPOSE(S):

The information in this system is used for the following purposes: (1) to contribute to the legislatively mandated GEAR UP program evaluation; and (2) generally to identify the educational outcomes of study participants and the extent to which GEAR UP participation is associated with positive outcomes in comparison to the control group.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:**ROUTINE USE COMPATIBILITY:**

(1) *Freedom Of Information Act (FOIA) Advice Disclosure.* The Department may disclose records to the U.S. Department of Justice and the Office of Management and Budget (OMB) if the Department concludes that disclosure is desirable or necessary in determining whether the Freedom of Information Act (FOIA) requires particular records to be disclosed.

Under the FOIA, the public has a general right of access to Federal agency records, except to the extent that such records (or portions of them) are protected from disclosure by an exemption or an exclusion that is contained in the FOIA. This routine use is compatible with the purposes of this system in that the Department can disclose records to the agencies responsible for the litigation relating to and the interpretation of the FOIA. These agencies can assist the Department in determining whether the FOIA requires the disclosure of the records or whether the records are exempt from disclosure under the FOIA.

(2) *Contract Disclosure.* If the Department contracts with an entity for the purposes of performing any function

that requires disclosure of records in this system to employees of the contractor, the Department may disclose the records to those employees. Before entering into such a contract, the Department must require the contractor to maintain Privacy Act safeguards as required under 5 U.S.C. 552a(m) with respect to the records in the system.

In the course of administering its programs, the Department may enter into contracts with entities that will perform functions for these programs. This routine use is compatible with the purposes of the system to which it applies in that it permits entities with which the Department contracts to receive the information needed to ensure that the program is administered efficiently.

(3) *Research Disclosure.* The Department may disclose records to a researcher if an appropriate official of the Department determines that the individual or organization to which the disclosure would be made is qualified to carry out specific research related to functions or purposes of a system of records to which this routine use applies. The official may disclose records from this system of records to that researcher solely for the purpose of carrying out that research related to the functions or purposes of the system of records. The researcher must maintain Privacy Act safeguards with respect to the disclosed records. This routine use is compatible with the purpose of this system of records because it permits the Department to disclose records to researchers so that the Department can improve the management of the system and contribute to advancing knowledge regarding the purposes and objective of the program served by the system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

Records are on a computer database as well as in hard copy.

RETRIEVABILITY:

The records in this system are indexed by the name of the individual and/or a number assigned to each individual.

SAFEGUARDS:

All physical access to the Department's site, and the sites of Department contractors where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security

system limits data access to Department and contract staff on a "need to know" basis, and controls individual users' ability to access and alter records within the system. The contractor, Westat, has established a set of procedures to ensure confidentiality of data. The system ensures that information identifying individuals is in files physically separated from other research data. Westat will maintain security of the complete set of all master data files and documentation. Access to individually identifiable data will be strictly controlled. All data will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry. Physical security of electronic data will also be maintained. Security features that protect project data include password-protected accounts that authorize users to use the Westat system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; e-mail passwords that authorize the user to access mail services; and additional security features that the network administrator establishes for projects as needed.

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's ED/RDS Part 3, Items 1, 2 or 3. Design, implementation, and final reports of the study are permanent records. They are maintained by the Department for 10 years, and then transferred to the National Archives and Records Administration. Administrative records of the study are destroyed 2 years after completion of the project.

SYSTEM MANAGER AND ADDRESS:

Director, Program and Analytic Studies Division, Policy and Program Studies Service, U.S. Department of Education, 400 Maryland Avenue, SW., room 6W231, Washington, DC 20202.

NOTIFICATION PROCEDURE:

If you wish to determine whether a record exists regarding you in the system of records, contact the system manager. Your request must meet the requirements of the Department's Privacy Act regulations in 34 CFR 5b.5, including proof of identity.

Information in this system is obtained from surveys with students who were in middle school in 2000–01 and who participated in the GEAR UP program and from a comparison group of students. Students are to be surveyed in spring 2006 when normal progression would make them seniors in high school. Surveys are being conducted as a source of providing information.

EXEMPTIONS CLAIMED FOR THE SYSTEM:
