

## UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION

June 27, 2012

The Honorable Mike Hanley  
Commissioner of Education  
Alaska Department of Education & Early Development  
801 West 10 Street, Suite 200  
Juneau, Alaska 99811-0500

Dear Commissioner Hanley:

I am writing in response to the Alaska Department of Education (AKDOE) request to waive certain requirements of the Elementary and Secondary Education Act of 1965 (ESEA), as amended, to permit Alaska to use the same annual measurable objectives (AMOs) to make AYP determinations based on assessments administered in the 2011–2012 school year that Alaska used to make such determinations based on assessments administered in the 2010–2011 school year. AKDOE submitted this request in response to a voluntary opportunity that was announced by Secretary Duncan when he invited interested States to submit requests for ESEA flexibility.

AKDOE included in its request—

- evidence that Alaska has formally adopted, consistent with the State’s own standards-adoption process, college- and career-ready content standards in reading/language arts and mathematics that meet the definition of “college- and career-ready standards” in the document titled *ESEA Flexibility*;
- an assurance that Alaska will provide, in a manner that is timely and informs instruction, student growth data on current students and students taught in the previous year to, at a minimum, teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects, consistent with the timelines and definitions required under State Fiscal Stabilization Fund (SFSF) Indicator (b)(2);
- evidence that Alaska identified persistent achievement and graduation rate gaps within the State that need to be closed and an assurance that Alaska will report these data publicly by posting the data, in a format that is easily understandable, on its website on a page that is easily accessible by the public; and
- an assurance that Alaska will take all steps necessary to develop and submit a request for ESEA flexibility.

400 MARYLAND AVE., SW, WASHINGTON, DC 20202

*The Department of Education’s mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.*

After reviewing AKDOE's request and confirming that AKDOE posted on its website the data related to persistent achievement and graduation rate gaps, I am granting, pursuant to my authority under ESEA section 9401, a one-year waiver of ESEA section 1111(b)(2)(H) to permit Alaska to use the same AMOs to make AYP determinations based on assessments administered in the 2011–2012 school year that it used to make such determinations based on assessments administered the prior school year. My approval is based on the determination that this waiver is likely to increase the quality of instruction for students and improve the academic achievement of students by enabling AKDOE, its local educational agencies (LEAs), and its schools devote time and resources to planning for the implementation of ESEA flexibility rather than devoting additional resources to respond to the growing numbers of schools and LEAs that otherwise would be identified for improvement as a consequence of the escalating AMOs required by current law. Please note that I do not anticipate granting an extension of this one-year waiver. Accordingly, should AKDOE choose not to submit a request for ESEA flexibility, or not receive approval of its request, it will be required to make AYP determinations based on assessment administered in the 2012–2013 school year using AMOs that meet the requirements of current law.

I appreciate the work you are doing to develop an ESEA flexibility request. If you have any questions, please send an e-mail to [ESEAFlexibility@ed.gov](mailto:ESEAFlexibility@ed.gov).

Sincerely,

/s/

Deborah S. Delisle  
Assistant Secretary for Elementary and Secondary  
Education
