**PART 3: INITIAL BASELINE DATA FOR EDUCATION REFORM ASSURANCES**

**SPECIAL NOTES:**

- In completing this portion of the application, please refer to Appendix B – Instructions for Part 3: Initial Baseline Data for Education Reform Assurances.
- The data described in Appendix B for two of the education reform assurances in Part 2 of the application – the Improving Assessments Assurance and the Improving Standards Assurance – are the most current available baseline data for these areas. Thus, the Department is not inviting States to submit additional information with respect to these two assurances.
- The Governor or his/her authorized representative should confirm whether the initial baseline data sources described in Appendix B for the four assurances referenced below – Achieving Equity in Teacher Distribution; Improving Collection and Use of Data; Improving State Academic Content and Student Achievement Standards; and Supporting Struggling Schools – reflect the State’s current status with respect to these assurances. A State that confirms the use of these initial baseline data sources does not have to submit additional baseline data with this application. If a State elects not to use the identified data sources for one or more of these four assurances, it must submit other initial baseline data for that assurance.

The Governor or his/her authorized representative confirms that the data sources that are currently available to the Department and described in Appendix B are a reasonable reflection of the current status of the State with respect to the following education reform assurances that he/she provided in Part 2 of the Application (*check only those assurances for which the State accepts the data described in Appendix B*):

Achieving Equity in Teacher Distribution Assurance.

Improving Collection and Use of Data Assurance.

Improving Standards Assurance.

Supporting Struggling Schools Assurance.

**PART 4, SECTION A: MAINTENANCE-OF-EFFORT (MOE) ASSURANCE**

**SPECIAL NOTES:**

- In completing Part 4 of the application, please refer to Appendix C – Instructions for Part 4: Maintenance of Effort.
- The Governor or his/her authorized representative should check only those MOE requirements that he or she anticipates the State will meet. If the Governor or his/her authorized representative anticipates that the State will be unable to meet one or more of the requirements, he or she must sign the additional waiver assurance in Part 4, Section B.
- For the purpose of determining MOE, State support for public institutions of higher education (IHEs) must not include support for capital projects or for research and development or tuition and fees paid by students.

The Governor or his/her authorized representative assures the following (*check appropriate assurances that apply*):

- In FY 2009, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- In FY 2010, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- In FY 2011, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- In FY 2009, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.
- In FY 2010, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.
- In FY 2011, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.

**---OR---**

To the best of his/her knowledge and based on the best available data, the State will be unable to meet any of the above-referenced maintenance-of-effort requirements.

Governor or Authorized Representative of the Governor (Printed Name): Jim Gibbons, Governor	
Signature: 	Date: April 28, 2009

**PART 4, SECTION B: MAINTENANCE-OF-EFFORT WAIVER ASSURANCE**

**SPECIAL NOTES:**

- If a State anticipates that it will be unable to comply with one or more of the Stabilization program MOE requirements referenced in Part 4, Section A of the application, the State must provide the assurance below.
- States that anticipate meeting all of the Stabilization program MOE requirements should not complete the waiver assurance in this section of the application. *See Appendix C – Instructions for Part 4: Maintenance of Effort. The criterion for a waiver of the MOE requirements is provided in Appendix C.*
- The Department will be providing additional guidance to States regarding the process for applying for waivers of the Stabilization program MOE requirements.

The Governor or his/her authorized representative assures the following:

To the best of his/her knowledge and based on the best available data, the State meets or will meet the eligibility criterion for a MOE waiver for each of the Stabilization program MOE requirements that the Governor or his/her authorized representative anticipates the State will be unable to meet.

○	The calculations for these data must be based on the State’s total Education Stabilization Fund allocation as reflected in Appendix A and not on the State’s initial Education Stabilization Fund award.
○	Although the State must follow the Instructions in Appendix D, in order to determine the amount of funds that LEAs and IHEs will receive under the program (i.e., the “restoration amounts”), the Governor has discretion in determining when to release these funds to LEAs and IHEs.

**PART 5, SECTION B: STATE USES OF THE  
GOVERNMENT SERVICES FUND**

## ATTACHEMENT 1

### PART 4, SECTION C: MAINTENANCE-OF-EFFORT BASELINE DATA

- 3) **Additional Submission Requirements: In an attachment to the application –**  
**(a) Identify and describe the data sources used in determining the levels of State support for elementary and secondary education; -and-**  
**(b) Identify and describe the data sources used in determining the levels of State support for public IHEs.**

- a) The primary source of data used for determining the level of State support for elementary and secondary education is the approved Distributive School Account document which is based upon the NRS (Nevada Revised Statutes) 387.303 Revenue and Expenditure reports prepared and submitted each year by all school districts and charter schools in Nevada. State funding for elementary and secondary education is based upon base year actual expenditures with adjustments for enrollment growth, inflation for operating expenditures, Cost of Living Adjustments for salaries and benefits, changes in fringe benefit rates and step and column increases (estimated at 2% per year). Nevada has a biennial budget process so the fiscal year 2008 and 2009 budgets approved by the Legislature were based upon the 2006 actual expenditure reports with additions for the adjustments listed above.

The primary funding formulae includes three basic program components: Basic Support; Special Education; and Class-size Reduction.

- 1) Basic Support - The basic support guarantee is defined in Nevada Revised Statutes (NRS) 387.122 as "...the basic support guarantee per pupil for each school district and the basic support guarantee for each special education program unit maintained and operated during at least 9 months of a school year are established by law for each school year." This provides the guaranteed level of support per pupil.
- 2) Special Education - The funding for special education is a per unit rate with the number of units determined by the projected enrollments. The rate per unit is determined by law for each school year. A "special education program unit means an organized unit of special education and related services which includes full-time services of persons licensed by the Superintendent of Public Instruction or other appropriate licensing body, providing a program of instruction in accordance with minimum standards prescribed by the State Board."
- 3) Class-size Reduction – Class-size reduction funding is provided to bring the class size in grades K-3 to the following ratios:
  - i. Kindergarten (at-risk schools) funding for 23.5 additional teachers in at risk schools
  - ii. 1<sup>st</sup> grade 16 to 1
  - iii. 2<sup>nd</sup> grade 16 to 1
  - iv. 3<sup>rd</sup> grade 19 to 1

Statutory authority is NRS 387.123

The State support is determined by taking the total of basic support, special education and class-size reduction and subtracting the portion funded by Federal Mineral Lease revenues and the Public School Operating Property Tax (PSOPT) to come to total state support. State support revenues consist of the Local School Support Tax (a portion of the

state sales tax rate), interest earned on the State Permanent School Fund, a portion of the State Slot Tax revenues, Estate Tax revenues, prior year adjustments and General Fund Appropriations.

For State Fiscal Year (SFY) 2006 the amounts come from the 2007-2009 Legislatively Approved Distributive School Account (DSA) workbook which includes the approved report of revenues and expenditures for all districts and charter schools for SFY 2006.

For SFY 2008 the amounts come from the 2009-2011 Governor Recommends DSA workbook which includes the approved report of revenues and expenditures for all districts and charter schools for SFY 2008.

For SFY 2009 the amounts come from the 2009 Governor Recommends DSA workbook request for a supplemental appropriation for SFY 2009 to cover a shortfall in revenues for the basic support guarantee. This was submitted to the 2009 Legislature (AB 533) and includes the estimate of revenues and distributions to school districts and charter schools for SFY 2009.

For SFY 2010 and SFY 2011 the amounts come from the Governor Recommends DSA workbook submitted with the Governor Recommends Budget to the 2009 Legislature.

- b) The primary data source used in determining the levels of State support for public IHEs for SFY 2006, SFY 2008 and SFY 2009 is the Legislatively approved appropriation less funding for research, less unexpended funds reverted to the General Fund and for SFY 2008 and SFY 2009 approved budget reductions. For SFY 2010 and SFY 2011 the primary data source used is the General Fund appropriations included in the Governor Recommends budget for higher education submitted to the 2009 Legislature (also less funding for research).

### PART 5, SECTION A: STATE USES OF THE EDUCATION STABILIZATION FUND

#### 2) State's Primary Education Funding Formulae

**Additional Submission Requirement: In an attachment to the application, identify and describe each of the State's primary elementary and secondary education funding formulae that were used in determining the calculations provided above for the levels of State support for elementary and secondary education.**

The primary funding formulae used for determining the level of State support for elementary and secondary education is the approved Distributive School Account document which is based upon the NRS (Nevada Revised Statutes) 387.303 Revenue and Expenditure reports prepared and submitted each year by all school districts and charter schools in Nevada. State funding for elementary and secondary education is based upon base year actual expenditures with adjustments for enrollment growth, inflation for operating expenditures, Cost of Living Adjustments for salaries and benefits, changes in fringe benefit rates and step and column increases (estimated at 2% per year). Nevada has a biennial budget process so the fiscal year 2008 and 2009 budgets approved by the Legislature were based upon the 2006 actual expenditure reports with additions for the adjustments listed above.

The primary funding formulae includes three basic program components: Basic Support; Special Education; and Class-size Reduction.

- 4) Basic Support - The basic support guarantee is defined in Nevada Revised Statutes (NRS) 387.122 as "...the basic support guarantee per pupil for each school district and the basic support guarantee for each special education program unit maintained and operated during at least 9 months of a school year are established by law for each school year." This provides the guaranteed level of support per pupil.
- 5) Special Education - The funding for special education is a per unit rate with the number of units determined by the projected enrollments. The rate per unit is determined by law for each school year. A "special education program unit means an organized unit of special education and related services which includes full-time services of persons licensed by the Superintendent of Public Instruction or other appropriate licensing body, providing a program of instruction in accordance with minimum standards prescribed by the State Board."
- 6) Class-size Reduction – Class-size reduction funding is provided to bring the class size in grades K-3 to the following ratios:
  - i. Kindergarten (at-risk schools) funding for 23.5 additional teachers in at risk schools
  - ii. 1<sup>st</sup> grade 16 to 1
  - iii. 2<sup>nd</sup> grade 16 to 1
  - iv. 3<sup>rd</sup> grade 19 to 1

Statutory authority is NRS 387.123

The State support is determined by taking the total of basic support, special education and class-size reduction and subtracting the portion funded by Federal Mineral Lease revenues and the Public School Operating Property Tax (PSOPT) to come to total state support. State support revenues consist of the Local School Support Tax (a portion of the

state sales tax rate), interest earned on the State Permanent School Fund, a portion of the State Slot Tax revenues, Estate Tax revenues, prior year adjustments and General Fund Appropriations.

3) **Data on State Support for Post Secondary Education**

**Additional Submission Requirement: In an attachment to the application, identify and describe the specific data sources used in determining the calculations provided for the levels of State support for public IHEs.**

The specific data sources used in determining the levels of State support for public IHEs for SFY 2008 and SFY 2009 is the Legislatively approved appropriation (2007 Appropriations Report) less unexpended funds reverted to the General Fund and approved budget reductions. For SFY 2010 and SFY 2011 the primary data source used is the General Fund appropriations included in the Governor Recommends budget for higher education submitted to the 2009 Legislature.

5) **Process for Awarding Funds to Public IHEs**

**Additional Submission Requirement: In an attachment to the application, describe the process that the state will use to determine the amount of funding that individual public IHEs will receive from the funds that the State sets aside to restore levels of State support for these institutions.**

The funding will be provided directly to the individual public institutions in the Nevada System of Higher Education through the legislatively approved funding formula and as authorized in the State Authorizations Act.
