APPLICATION FOR FUNDING FOR PHASE II OF THE EDUCATION FUND UNDER THE STATE FISCAL STABILIZATION PROGRAM

Purpose of Program

The State Fiscal Stabilization Fund (SFSF or Stabilization) program provides approximately \$48.6 billion in formula grants to States to help stabilize State and local budgets in order to minimize and avoid reductions in education and other essential services, in exchange for a State's commitment to advance essential education reform in key areas. Almost \$36.8 billion have already been awarded during SFSF Phase I. Approximately \$11.5 billion will be awarded under SFSF Phase II (through this application).

Program and Application Background

Section 14005(d) of Division A of the American Recovery and Reinvestment Act of 2009 (ARRA) requires a State receiving funds under the Stabilization program to provide assurances in four key areas of education reform: (a) achieving equity in teacher distribution, (b) improving collection and use of data, (c) standards and assessments, and (d) supporting struggling schools. For each area of reform, the ARRA prescribes specific action(s) that the State must assure that it will implement. In addition, section 14005(a) of the ARRA requires a State that receives funds under the Stabilization program to submit an application to the U.S. Department of Education (the Department) containing such information as the Secretary may reasonably require.

As part of its application for Phase II funding under the Stabilization program, a State must demonstrate its ability to meet specific data and information requirements (the assurance indicators and descriptors) with respect to the statutory assurances. In addition, in cases where a State is not currently able to meet the specific data and information requirements, a State must submit a State plan to describe how it will respond to the requirements of each assurance indicator and descriptor. Together, these two sets of requirements aim to provide transparency on the extent to which a State is implementing the actions for which it has provided assurances.

Increased access to and focus on this information will better enable States and other stakeholders to identify strengths and weaknesses in education systems and determine where concentrated reform effort is warranted. The Department will also use the data and information that States collect and report in assessing whether a State is qualified to participate in and receive funds under other reform-oriented programs administered by the Department.

An assurance indicator or descriptor may relate to data or other information that States currently collect and report to the Department, or to data or other information for which the Department is itself the source. In those cases, there are no new data or information collection requirements for a State; rather, the Department will provide the State with the relevant data or other information that the State will be required to confirm and make publicly available. In the other cases, requirements constitute new data or information collection and/or public reporting responsibilities for the State, to the extent the State does not currently collect and publicly report such data or information for other purposes.

The Department recognizes that requests for data and information should reflect an integrated and coordinated approach among the various programs supported with ARRA funds, particularly the SFSF, Race to the Top, School Improvement, and Statewide Longitudinal Data Systems grant programs. Accordingly, the Department has taken into consideration the context of those other programs in developing the requirements for SFSF Phase II.

Background Information on Assurances

Achieving Equity in Teacher Distribution

Regarding education reform area (a), achieving equity in teacher distribution, section 14005(d)(2) of the ARRA requires a State receiving funds under the Stabilization program to assure that it will take actions to improve teacher effectiveness and comply with section 1111(b)(8)(C) of the Elementary and Secondary Education Act of 1965, as amended (ESEA) (20 U.S.C. 6311), in order to address inequities in the distribution of highly qualified teachers between high- and low-poverty schools and to ensure that low-income and minority children are not taught at higher rates than other children by inexperienced, unqualified, or out-of-field teachers. A State must collect and publicly report data and other information on the extent to which students in high- and low-poverty schools in the State have access to highly qualified teachers; on steps the State is currently taking to ensure that students from low-income families and minority students are not taught at higher rates than other students by inexperienced, unqualified, or out-of-field teachers; on how teacher and principal performance is evaluated and how the results of those evaluations are used for decisions regarding compensation, promotion, retention, and removal; and on the distribution of performance evaluation ratings or levels among teachers and principals.

Improving Collection and Use of Data

Regarding education reform area (b), improving collection and use of data, section 14005(d)(3) of the ARRA requires a State receiving funds under the Stabilization program to provide an assurance that it will establish a statewide longitudinal data system that includes the elements described in section 6401(e)(2)(D) of the America COMPETES Act (20 U.S.C. 9871). To provide indicators of the extent to which a State is meeting that requirement, the State must provide information on the elements of its statewide longitudinal data system and on whether the State provides teachers with: (1) data on student growth in a manner that is timely and informs instructional programs, and (2) reports of teacher impact on student achievement.

Standards and Assessments

Regarding education reform area (c), standards and assessments, section 14005(d)(4) of the ARRA requires a State receiving funds under the Stabilization program to assure that it will: (A) enhance the quality of the academic assessments it administers pursuant to section 1111(b)(3) of the ESEA (20 U.S.C. 6311) through activities such as those described in section 6112(a) of the ESEA (20 U.S.C. 7301a); (B) comply with the requirements of paragraphs (3)(C)(ix) and (6) of section 1111(b) of the ESEA (20 U.S.C. 6311) and section 612(a)(16) of the Individuals with Disabilities Education Act (20 U.S.C. 1412) related to the inclusion of children with disabilities and limited English proficient students in State assessments, the development of valid and

reliable assessments for those students, and the provision of accommodations that enable their participation in State assessments; and (C) take steps to improve State academic content standards and student academic achievement standards for secondary schools consistent with section 6401(e)(1)(A)(ii) of the America COMPETES Act (20 U.S.C. 9871). To provide indicators of the extent to which a State is taking these actions, the State must collect and publicly report data and other information regarding State assessment systems, including the assessment of students with disabilities and limited English proficient students, the public reporting of State National Assessment of Educational Progress (NAEP) data, and data on the number of students who graduate from high school, enroll in an Institute of Higher Education (IHE) (whether public or private, in-state or out-of-state), and complete at least one year of coursework (towards a degree) within two years of enrollment in a public in-state IHE.

As States prepare to significantly improve the rigor and effectiveness of their standards and assessment systems, this information will, in general, provide stakeholders with vital transparency on the current status of those systems and on the efforts to improve them that are currently underway.

Supporting Struggling Schools

Regarding education reform area (d), supporting struggling schools, section 14005(d)(5) of the ARRA requires a State receiving funds under the Stabilization program to provide an assurance that it will ensure compliance with the requirements of section 1116(b)(7)(C)(iv) and section 1116(b)(8)(B) of the ESEA (20 U.S.C. 6316) with respect to Title I schools identified for corrective action and restructuring. In order to provide indicators of the extent to which a State is implementing the statutory assurance, the State must provide data on the extent to which dramatic reforms to improve student academic achievement are implemented in Title I schools in improvement under section 1116(b)(1)(A) of the ESEA, in corrective action, or in restructuring and secondary schools that are Title I eligible, but not receiving funds. Additionally, a State must provide data on the operation and performance of its charter schools.

Requirements for Phase I Funding

Earlier this year, States applied to receive their initial allocation under the State Fiscal Stabilization Fund (Stabilization) program. States with approved applications were awarded at least 67 percent of their Education Fund allocation and all of their Government Services Fund Allocation. Governors submitted assurances that their State would commit to advancing education reform in the four assurance areas, and confirmed baseline data for purposes of demonstrating the State's current status in each of the four education reform areas for which the State provided assurances, or submitted alternative baseline data. In addition, to receive SFSF Phase I funds, States provided maintenance of effort (MOE) information (see Part 2 of this application for more information), including an assurance that the State would comply with the Stabilization program MOE requirements (or, if applicable, an assurance that the State met or would meet the eligibility criterion for a waiver of those requirements), as well as MOE baseline data.¹ States were also required to describe how they intended to use the funds allocated under (1) the Education Stabilization Fund and (2) the Government Services Fund, in addition to submitting accountability, transparency and reporting assurances.

¹ Guidance on the Maintenance of Effort Requirements for SFSF and MOE Waiver Form are available at <http://www.ed.gov/policy/gen/leg/recovery/statutory/moe-guidance.pdf>.

About the Application for Phase II Funding

States requesting the remainder of their State Fiscal Stabilization Fund monies—in most cases, the remaining 33 percent of the Education Fund allocation²—must complete and submit the application contained in this packet in its entirety. To receive funding, applications will need to meet standards of both completeness and quality. The Department will employ a two-tier review process to evaluate State applications. The first review will verify that a State submitted a complete Phase II application. The second review will judge the application against the approval criteria identified in the NFR to assess the quality of the plan.

The Department is taking steps to ensure that the process for awarding SFSF Phase II funds is transparent. Immediately upon the Department's receipt of a State application, the application will be made available for public viewing on the Department's web site at <http://www.ed.gov/programs/statestabilization/index.html>. The final approved version of a state application will also be posted on the Department's web site in addition to any revisions subsequent to an approved application. In addition to facilitating transparency, the Department's public sharing of applications will allow members of the public to learn about the availability of data and information related to the four assurance areas in each state. Also, such a level of transparency provides an additional layer of accountability for States.

Data Collection

This application asks States to answer questions about 37 separate items: indicators (of which there are 34) and descriptors (of which there are three). The Department is, as a general rule, *not asking States to submit the actual data* that respond to these indicators and descriptors; rather, the Department wants to know how States will respond to the requirements of the indicators and descriptors and make the data and information accessible to the public. Specifically, for assurances (a), (c), and (d) (with the exception of, in some cases, indicators (c)(11) and (c)(12)), the application requests a response as to whether or not States are collecting and publicly reporting the data or information via a State website for each indicator and descriptor. If the State is not currently collecting and/or publicly reporting the data for a particular indicator or descriptor, the Department also is requesting the State's plan for doing so as soon as possible, but no later than September 30, 2011. In the case of indicators (c)(11) and (c)(12), if a State will develop, but not implement, the capacity to collect and publicly report the data, the State plan need only address the development of capacity, and not implementation and public reporting for the relevant indicator (s). For indicators (b)(1) and (b)(2), a State must specify whether or not the State collects the information, and if not, what its plans and timelines are for developing and implementing the capacity to do so as soon as possible, but no later than September 30, 2011. For indicator (b)(3), a State must specify whether or not the State collects the information, and, if not, what its plan and timeline are for developing and implementing the capacity to implement this requirement.

² If a State's FY 2009 shortfall exceeded 67 percent of the Education Fund allocation, they could request an amount equal to the needed restoration amount, up to 90 percent of the State's total Education Fund allocation.

Public Reporting on a State Website

For the purposes of this program, indicator and descriptor data are largely intended for public use, rather than for Federal reporting. Individual States and communities have the greatest power to hold their schools accountable for the reforms that are in the best interest of their students. Rather than the Department collecting and warehousing this information, it is the intention that State Education Agencies (SEAs) and Local Education Agencies (LEAs) will make the information available to the public in a manner that is useful for stakeholders to understand key information about education in each state and community.

As such, the Department believes that the most effective and expeditious way for States to share information with the public is via the internet. For the purposes of this program, *publicly report* means that the data or information required for an indicator or descriptor are made available to anyone with access to an Internet connection without having to submit a request to the entity that maintains the data and information in order to access that data and information. Therefore, States are required to maintain a public website that provides the data and information that are responsive to the indicator and descriptor requirements. If a State does not currently provide the required data or information, it must provide on this website its plan with respect to the indicator or descriptor and its reports on its progress in implementing that plan.

The URLs (i.e., website addresses) where the data and information are available should be provided where requested in Part 3A of the application. URLs should link to the actual page where the data are available, rather than the main page of the website. Websites where the required data and information are available should show the last date on which the data and information were updated. For example, the URL should not link to the main page for an SEA or Governor's office. For further information on public reporting and website submission, please refer to SFSF Phase II guidance.

Preparing the Application

The Department strongly recommends that States involve parents, educators, content experts, policy makers, technical advisors, teachers' union(s), business, community, and civil rights leaders, and other community stakeholders when preparing the application. While such involvement is not a requirement for approval of State applications, the Department believes that stakeholder input and expertise will help States develop stronger applications and more successful implementation strategies.

APPLICATION INSTRUCTIONS

GENERAL INSTRUCTIONS

To receive the remaining portion of a State's allocation under Education Fund of the Stabilization program, a Governor must submit to the Department an application that provides the following information:

- A completed application cover sheet that includes the signature of the Governor or authorized representative (*Part 1 of the Application*).
- A complete updated and/or reaffirmation of Maintenance-of-Effort (MOE) data (*Part 2A of the Application*).
- An attestation that the State has met all MOE requirements for FY 2009 that includes the signature of the Governor or authorized representative, or acknowledgement of inability to meet MOE requirements (*Part 2B of the Application*).
- The State's status with regard to collection, public reporting and other information related to the indicators and descriptors in the following education reform assurance areas:
 - (a) achieving equity in teacher distribution;
 - (b) improving collection and use of data;
 - (c) standards and assessments; and
 - (d) supporting struggling schools (*Part 3A of the Application*).
- A completed State plan that describes how the applicant will collect and publicly report the data and information related to the assurance indicators and descriptors (*Part 3B of the Application*).
- Complete responses to the questions in the General Requirements section (*Part 3C of the Application*).

PART 2: MAINTENANCE-OF-EFFORT INFORMATION

In the SFSF Phase I Application, States were required to submit the following in order to receive the first portion of funds:

- A *Maintenance-of-Effort Assurance* (Part 4, Section A) of maintaining State support for elementary and secondary education and for public institutions of higher education (IHEs) at least at the level of such support in FY 2006 for FYs 2009, 2010, and 2011.
- A *Maintenance-of-Effort Waiver Assurance* (Part 4, Section B). In the event that a State anticipated being unable to comply with one or more of the Stabilization program MOE requirements referenced in the Maintenance-of-Effort Assurance, the State would provide an assurance that it met the eligibility criteria for a MOE waiver.³
- A *Maintenance-of-Effort Baseline Data* form.

In order to complete this Phase II Application, States must reaffirm and/or update the MOE baseline data referenced above as requested in Phase I. Part 2A of this application, *Update of Maintenance-of-Effort Data*, asks that a State reaffirm or update the baseline data provided in Phase I (Maintenance-of-Effort Baseline Data), including actual levels of support for FY 2009.

In Part 2B, a Governor or Authorized Representative of the Governor must provide an attestation that the State has met the MOE requirements as was assured in Phase I. If a State cannot meet the MOE requirements, it must submit a Waiver of MOE Requirements or note that it has submitted one already.

Additional information on the MOE requirements can be found in Appendix D—*Instructions for Part 2, Maintenance-Of-Effort*.

³ Guidance on the Maintenance of Effort Requirements for SFSF and MOE Waiver Form are available at <http://www.ed.gov/policy/gen/leg/recovery/statutory/moe-guidance.pdf>.

PART 2A: UPDATE OF MAINTENANCE-OF-EFFORT DATA

SPECIAL NOTES:

- In the SFSF Phase I Application, States were required to submit MOE data. The Department is requesting that States reaffirm these data for Phase II, and in particular, to update FY 2009 data to actual levels of State support.
- *For further information, see Appendix D – Instructions for Part 2: Maintenance of Effort.*

1. Levels of State support for elementary and secondary education *(the amounts may reflect the levels of State support on either an aggregate basis or a per-student basis):*

| | |
|----------|--------------------|
| FY 2006 | \$ 3,754,700,000__ |
| FY 2009 | \$ 5,829,900,000__ |
| FY 2010* | \$ 6,548,900,000__ |
| FY 2011* | \$ 6,568,500,000__ |

(* Provide data to the extent that data are currently available.)

2. Levels of State support for public institutions of higher education *(enter amounts for each year):*

| | |
|----------|--------------------|
| FY 2006 | \$ 1,241,612,139*_ |
| FY 2009 | \$ 1,309,288,634__ |
| FY 2010* | \$ 1,271,513,104__ |
| FY 2011* | \$ 1,268,164,793__ |

*Please note the Levels of State support for public institutions of higher education for FY06 has been revised. The previous application included \$4,975,000 in capital funds that were inadvertently included.

3. Additional Submission Requirements: In an attachment to the application –

- (a) Identify and describe the data sources used in determining the levels of State support for elementary and secondary education; - and –

For 2008 and 2009, the tuition support distribution formula found in the Indiana As Passed budget was used. The formulas are written and limited by State appropriations on a calendar year basis.

The Indiana school funding formula can be found at IC 20-43 and is addressed every two years by the Indiana General Assembly. See IC 20-43-2-2 as amended by Section 329 HEA 1001-2009(ss). For CY 2010 and CY 2011, the tuition support caps were used as adopted by the Indiana General Assembly. The Indiana General Assembly revised the CY 2009 tuition support cap in HB 1001-2009(ss).

Indiana has a per student foundation based school funding formula. Foundation is currently set at \$4,825 per student. The Foundation amount is increased on a corporation basis via a complexity index factor based on students on free or reduced price lunch. This amount per student is then multiplied by the adjusted student count for a school corporation. There are over 300 school corporations in Indiana, each with a different complexity index. For 2010, foundation is set at \$4,550. However, the restoration portion of the formula created a minimum guarantee that limits the increase/decrease to \$25 per student.

(b) Identify and describe the data sources used in determining the levels of State support for public IHEs.

For FY 2008 and FY 2009 the Indiana As Passed budget was used to determine State Support for IHEs. For FY 2010 and FY 2011 HEA 1001(ss) was used to determine State Support for IHEs.

PART 2B: ATTESTATION OF MAINTENANCE-OF-EFFORT COMPLIANCE

The Governor or his/her authorized representative attests to the following:

To the best of his/her knowledge and based on the best available data, the State has met all maintenance-of-effort requirements for the State Fiscal Stabilization Program for FY 2009 (check all that apply):

- for elementary and secondary education.
- for public Institutions of Higher Education (IHEs).

| | |
|--|--------------------------|
| Governor or Authorized Representative of the Governor (Printed Name): Governor Mitchell E. Daniels, Jr. <i>CHRISTOPHER A. RUMBLE FOR GOV. DANIELS</i> | |
| Signature:  | Date: <i>12-22-09</i> |

If a State has not met or cannot meet MOE for either elementary and secondary education or public IHEs, or both, it must complete the following:

The State has not met all maintenance-of-effort requirements for the State Fiscal Stabilization Program for FY 2009 and

(check one):

- has already submitted a MOE Waiver Request to the US Department of Education.
- is submitting a MOE Waiver Request with this application package.

PART 3: DATA COLLECTION, PUBLIC REPORTING, AND PLANNING

Requirements

The State plan must describe the State's current ability to collect the data or other information needed for the assurance indicators and descriptors as well as the State's current ability to publicly report (as defined in the Notice of Final Requirements, included here as Appendix E) the data. If the State is currently able to fully collect and publicly report the required data or other information, the State must provide a URL where the most recent data or information may be accessed. If a State is not currently able to collect or publicly report the data or other information, the plan must describe the State's process and timeline for developing and implementing the means to do so as soon as possible but no later than September 30, 2011. These requirements apply to the assurance indicators and descriptors in the following education reform assurance areas: (a) Achieving Equity in Teacher Distribution, (c) Standards and Assessments (with the exception, in many cases, of Indicators (c)(11) and (c)(12)), and (d) Supporting Struggling Schools. Sections related to these assurances are located in sections I, III, and IV of Part 3A and Section I of Part 3B in the application.

In the event that a State will develop, but not implement, the ability to fully collect and publicly report the data for Indicator(s) (c)(11) and/or (c)(12), its plan need not meet the requirements of Section I of Part 3B. Rather, a State should complete a plan that meets the requirements of Section V of Part 3B for the relevant indicator(s). If a State will be able to both develop and implement collection and public reporting of either of these indicators, the plan requirements of Section I of Part 3B will apply to the relevant indicator(s).

Regarding education reform assurance area (b) Improving Collection and Use of Data, the State must describe in the State plan whether the State's data system includes the required elements of a statewide longitudinal data system and whether the State provides teachers with their students' growth data and information related to individual teacher impact. If the State does not meet the requirement, the State plan must describe the State's process and timeline for developing and implementing the means to meet the requirement in accordance with the requirements in the notice. Sections related to this assurance are Section II of Part 3A and Sections II, III, and IV of Part 3B.

The data or information needed for an assurance indicator or descriptor are in some cases already reported to the Department by the State, or are provided by the Department. In those cases, it is understood that the State does and is currently able to collect the data or information. For those elements, the State's plan only needs to address the State's ability to publicly report the data or information, and the State does not need to include a plan for collecting the data or information in Part 3B. The indicators and descriptors involving data or information currently reported to the Department or provided by the Department are marked below with a Confirm icon (see Icon Key below). Sections requiring States to confirm data or information already reported to the Department contain specific links to the appropriate Department webpage. The overall webpage housing all information for indicators requiring confirmation is <http://www.ed.gov/programs/statestabilization/confirm-indicators.html>.

Some elements in this application are of a cross-cutting nature, sharing indicators and/or definitions with another Recovery Act initiative, Race to the Top. These elements are marked by a Cross-Cutting icon with the recovery.gov logo and the Race to the Top logo (see Icon Key below). It is the Department's hope that marking these cross-cutting elements will facilitate consistency and improve the ease of completing the application for the Race to the Top program.

Numbering of Fields

Applicants may notice small numbers to the left of checkboxes and text fields in Part 3A. These numbers do not have any significance in terms of point values or codes. Rather, they are designed to be used by both applicants and Department staff alike as a convenient reference point when referring to a particular part of the application.

Overview of Part 3

Part 3A, *Indicators and Descriptors under the Assurances*, is designed to collect short answers about the State's current status with respect to each indicator and descriptor. If you are using the macro-enabled⁴ MS Word version of this form, you will be able to check boxes and type your answers directly into the form. If you wish to attach narrative answers in a separate document, you may do so, but be sure to clearly note in the relevant text box that the response is attached and mark the attachment with the citation of the indicator or descriptor to which you are responding.

⁴ To enable macros in Microsoft Word, select Save As (if you are using the 2007 version, Save As is under the round icon in the top left hand corner; in older versions, Save As is under the File menu) and from the Save File as Type menu, select Word Macro-Enabled Document.

Part 3B is the *State Plan* section. For those indicators and descriptors for which the State is not currently collecting and/or publicly reporting the requested data and information in such a way that addresses the program requirements, you must provide a plan for doing so in Part 3B. If, based on your answer, you are directed to address the element in Part 3B, write the element reference in the Plan Element Verification chart in Part 3B to keep a running list of the items you will need to address in your State Plan. Directions for which elements must be addressed in the State Plan are embedded into each indicator and descriptor boxes below. Part 3B contains five subsections. The subsections provide separate instructions for the plan elements that must be included for:

- I. Assurances (a), (c) (with the exception of Indicators (c)(11) and (c)(12)), and (d);
- II. Indicator (b)(1);
- III. Indicator (b)(2);
- IV. Indicator (b)(3); and,

PART 3A: ASSURANCE INDICATORS AND DESCRIPTORS

Instructions

For each indicator and descriptor, please follow the specific directions in the boxes below. There are two basic types of elements: indicators and descriptors.

- An **indicator** requests a discrete response (e.g., a yes/no answer or short answer) about whether a State is collecting or publicly reporting certain information, as well as where the information can be found. Indicators that involve data already submitted by States to the Department through preexisting collections will only need to be confirmed. The Department will ask States to confirm whether or not these data are accurate and to verify public reporting of them. States need not submit the actual data for each indicator; rather, the data should be reported directly to the public per the application instructions.
- A **descriptor** asks about information which could be provided in a narrative response (e.g., about the development of a type of assessment or teacher evaluation system) about the progress or development of system elements. The Department of Education also asks whether information requested in descriptors is publicly reported. As with the indicators, States do not have to submit the actual descriptor information to the Department. Rather, the State must publicly report the information per the application instructions.

I. Assurance (a): Achieving Equity in Teacher Distribution

A State must collect and publicly report data and other information on: (1) the extent that students in high- and low-poverty schools in the State have access to highly qualified teachers; (2) the extent that current strategies and efforts to address inequities in the distribution of inexperienced, unqualified, or out-of-field teachers; (3) how teacher and principal performance is evaluated and how performance ratings are used; and (4) the distribution of performance evaluation ratings or levels among teachers and principals.

Indicator (a)(1) Confirm, for the State, the number and percentage (including numerator and denominator) of core academic courses taught, in the highest-poverty and lowest-poverty schools, by teachers who are highly qualified consistent with section 9101(23) of the Elementary and Secondary Education Act of 1965, as amended (ESEA).

Please respond (Yes or No): Are the data related to this indicator at <http://www.ed.gov/programs/statestabilization/indicator-a1.xls> correct?

¹ Yes, the data are correct.

² No, the data are not correct.

If checked, provide below or in an attachment the correct data and any supporting information. A URL linking to the correct data on the State's website is also sufficient:³ <http://www.doe.in.gov/hqt>

Please respond (check only one):

⁴ The State makes the data *publicly available* and updates the data *annually* on a website.

→ Provide the State website where the data are provided by the State to the public:⁵ <http://www.doe.in.gov/hqt>

⁶ The State makes the data *publicly available* on a website but updates it *less than annually*.

→ Provide the State's plan for making the data publicly available and updating it annually on a website in Part 3B. Cite "Indicator (a)(1)" in the Plan Element Verification Chart in Part 3B, Section I and mark the Public Reporting column.
Provide the State website where the most recently updated data are provided by the State to the public: ⁷ [Click here to enter text.](#)

⁸ The State does not make the data publicly available on a website.

➔ Provide the State's plan for making the data publicly available and updating the data annually on a website in Part 3B. Cite "Indicator (a)(1)" in the Plan Element Verification chart in Part 3B, Section I and mark both the Collection and Public Reporting columns.

Indicator (a)(2) Confirm whether the State's Teacher Equity Plan (as part of the State's Highly Qualified Teacher Plan) fully reflects the steps the State is currently taking to ensure that students from low-income families and minority students are not taught at higher rates than other students by inexperienced, unqualified, or out-of-field teachers (as required in section 111(b)(8)(C) of the ESEA).

Please respond (Yes or No): Is the State's Teacher Equity Plan located at <http://www.ed.gov/programs/teacherqual/hqt/plans/index.html> correct?

- Yes, the information is correct.
- No, the information is not correct.

➔ If checked, provide below or in an attachment the State's most updated Teacher Equity Plan. A URL linking to the correct data on the State's website is also sufficient:³ <http://www.doe.in.gov/hqt>

Please respond (check only one):
