PREFACE

This document provides a description of the technical enhancements to the EDEN Submission System (ESS) version 6.1 released in March 2010 and subsequent software change requests (SCRs) implemented in the weeks and months following.

EDEN is a centralized, coordinated repository of state reported, K through 12, educational data residing at the U.S. Department of Education. The EDEN Submission System is an electronic system that facilitates the efficient and timely transmission of data from SEAs to the U.S. Department of Education.

1.0 PURPOSE

The purpose of this document is to educate the users of the EDEN Submission System (ESS) about improvements, including new features, data quality measures, reporting enhancements, etc., that have been made to the system with the new software release.

This document lists all system enhancements and documentation updates that were implemented with the ESS 6.1 series of releases. The majority of the enhancements include support for ongoing enhancements and maintenance of the ESS.

Where applicable, items are prefixed with corresponding System Information Request (SIR) numbers. For example, "Ticket 123" refers to the SIR opened by the software development team. "PSC 123456" refers to the SIR opened by the Partner Support Center.

2.0 SUMMARY OF IMPROVEMENTS (RELEASE 6.1)

2.1 ESS Application Updates

The primary purpose of the ESS 6.1 release (March 25, 2010) is to include the enhancements to the EDEN Submission System (ESS) required to prepare the CCD extract generation process for the 2009-10 school year. Each new school year requires updates to the auto-generated CCD extracts to include data for that school year for the purposes of non-fiscal education data analysis by NCES. Per NCES's request for greater congruency with EDEN data, the extracts have been updated to include more directory fields and additional details for student count data.

In addition to the updates to the CCD extracts for NCES's use, ESS 6.1 includes the following new ESS system functionality:

- 1) Ticket 506 - ESS Enhancement - Enable 09-10 specs with No Technical Changes.
 - a) 12 Non-XML Specifications.
 - b) 12 XML Specifications.
 - c) 12 XSD Schema.
 - d) 12 XSL Stylesheets.
 - e) Data Framework updates including file and Data Group name changes approved by ECRB for SY 2009-10.

- 2) Ticket 508 - New N/X002 - CWD Edits
 - a) Nine new school level submission edits to be implemented to improve data quality in N/X002.

- 3) Ticket 511 - ESS Enhancement - Allow N/X035 Submission for Closed, Inactive, Future.
 - a) Modify Validation business rule ER-91 such that it allows N/X035 to be submitted for education units with Operational Statuses of Closed, Inactive, or Future.
- 4) Ticket 659 - New CFDA codes for N/X035.
 - a) For SY 2007-08, implement three newly requested CFDA codes: 84.144F, 84.323A and 84.363A.
- 5) Ticket 919 – New CFDA code for N/X035
 - a) For SY 2007-08, implement code 84.377.
- 6) Ticket 521 - Change Race data collection for N/X041
 - a) Change N/X041 for SY 2008-09 from major racial to 5/7RE.
 - b) New RE Cluster is Title1.
 - c) Added new submission edits to ensure that detail records equal totals for N/X041 submitted using 7 RE values.

2.2.3 SY2009-10 ESS Business Rule Updates

New and/or updated business rules described in items 2, 3, and 6 of section 2.1 above are included in the Business Rules Guide v6.1 posted on www.ed.gov at the following link:

<http://www.ed.gov/about/inits/ed/edfacts/business-rules-guide.html>

3.0 SUMMARY OF IMPROVEMENTS (RELEASE 6.1D)

ESS releases 6.1A through 6.1C did not include any new system-wide ESS improvements. The 6.1D release (April 16, 2010) included the following new ESS system functionality:

3.1 ESS Application Updates

- 1) PSC Ticket #120128; SI Ticket #1035 – Change submission edit Rule ID S052-R60 from an error to a warning.

Submission edit S052-R60 identifies when there was a membership count reported for a Grade, while that Grade was not reported as a Grade Offered by the LEA. The edit was documented as warning in the ESS Business Rules Guide, but was being displayed as an error in the ESS Submission Error Report. In the fix, the edit was modified to display as a warning in the system.

- 2) PSC Tickets #113582 and #113813, SI Ticket #281 – Modify business rules to allow reopening of schools closed dating back to SY 2006-07

The ESS 6.0 release (January 19, 2010) included enhancements intended to allow the re-opening of LEAs and schools that were closed as far back as SY 2006-07. Despite the enhancements, validation edit ER-110 continued to trigger when an LEA or school that a state intended to reopen in the current year did not match a directory record in the current or prior school year. In the fix, ER-110 was modified such that it no longer takes Operational Status = 8 (Reopened) into account. A new validation edit, ER-121, was also implemented to ensure that the NCES ID for an LEA or school with Operational Status = 8 match an existing record in ESS that was previously closed.

Please note that match edits reported in the Match Error Report (Submission Error Report > Reports > Match Error Report) will continue to trigger when an LEA or school that has been reopened does not match a prior year record. Match edits M-01 and M-07 shall be modified in accordance with the new policy for reopening education units in an upcoming ESS update.

3.2.4 ESS Business Rules Guide

The ESS Business Rules Guide shall be updated to reflect the business rule updates described in section 3.1, item #2 above.

4.0 SUMMARY OF IMPROVEMENTS (RELEASE 6.1F)

ESS releases 6.1F (April 30, 2010) included the following new ESS system functionality:

4.1 ESS Application Updates

1. PSC Ticket # 119109 – SI Ticket #1048 – Disable submission edit S052-R88 for all states.

The edit logic for Rule ID S052-R88 is: “For each Race/Sex and Race/Grade Subtotal, sum the detail counts that would make up that subtotal value. Raise the error if the calculated sum of the detail counts is not equal to the subtotal value.”

A state did not have students identified by race in its SY 2009-10 school-level Membership file, so it had totals that were larger than the sum of the detail counts. This is acceptable according to the guidance in the file spec which states, “If the count provided is either a subtotal or total of the education unit, it must be equal to or greater than the sum of its parts.”

The above action resulted in a large number of S052-R88 errors. In the fix, the submission edit was disabled.

5.0 SUMMARY OF IMPROVEMENTS (RELEASE 6.1H)

ESS releases 6.1G (May 7, 2010) and 6.1H (May 14, 2010) did not include any new system wide ESS improvements.
