New! LEAD018 State Submission Status Timeliness and Completeness Report Released in ERS

The new ERS report entitled State Submission Status Timeliness and Completeness Report (LEAD018) will be available through ERS on Monday, February 28th in the Submission Status folder. This report provides information on a state's submission progress for SY2010-11. The report compares the state's submission progress to both the state's submission plan for the number of SEA, LEA and school files expected (in order to measure completeness) and the file due dates (to measure timeliness). The report provides both a high-level status overview of the state's submission progress, as well as a detailed view of the state's actual submissions.

As a reminder, states can access training on LEAD018, including the differences in LEAD015 and LEAD018, by viewing the webinar originally held on 2/9/2011. State can view it via the audio/video recording posted at: <http://www.mediafire.com/?qj23bo1qvx6mui8>. The PowerPoint presentation is posted at: <http://www.mediafire.com/?211rxp74wjb73g1>.

Support Issues, Solutions, and Metrics

The following is provided to give you some insight into issues being handled by your Partner Support Center (PSC):

New Issues Affecting Multiple SEAs

1. ESS: A state asked how to define "school" as including school property in N/X086 – Students Involved with Firearms. What is the definition of public school as it relates to this file? Do we also include the school's property (i.e. school bus)? Status: Escalated to ED for guidance.
2. ESS: A state received validation error ER-15/ *Field ImprovementStat contains value IMPR that is not part of the valid set* for their N/X130 – ESEA Status file submission at the LEA level. The value IMPR is submitted correctly according to the SY 2010-11 File Specification and is the same as the SY 2009-10 file spec. Status: Issue was escalated to the development team and resolved via an update to ESS.
