

PSC Solution:

Date: 11/29/2010

Application: ESS

School Year: 2009-2010

File Specification: N/X050- Title III LEP English Language Proficiency Results;
N/X 139- LEP English Language Proficiency

Solution Type: Technical Tip

Title: Clarifying LEP students to count in NX050 and NX139

States may require more specific guidance on which LEP students to count in N/X050 - Title III LEP English Language Proficiency Results and N/X139 - LEP English Language Proficiency.

N/X050 Title III LEP English Language Proficiency Results collects Title III ELP results. Therefore, states should report all Title III LEP students in grades K through 12 who took the annual ELP assessment and who received services in a Title III LEP program. ED does not use these AMAO data for accountability purposes. This file is not used to calculate AMAOs for accountability purposes.

N/X139 LEP English Language Proficiency collects data on all LEP students in the state who took the annual state English language proficiency assessment, regardless of their Title III status.

This clarified guidance will be included in the SY2010-11 file specifications for N/X050 and N/X139.
