East Hartford Public Schools (the District) has entered into the following agreement (Agreement) with the United States Department of Education, Office for Civil Rights (OCR), to resolve the above-referenced compliance review and to ensure the District’s compliance with Title VI of the Civil Rights Act of 1964 (Title VI), as amended, 42 U.S.C. § 2000d et seq., and its implementing regulation, 34 C.F.R. Part 100. The District acknowledges that under Title VI: (1) it cannot employ criteria or methods of administration in registering and enrolling students which have the effect of subjecting students to discrimination because of their or their parents'/guardians’ national origin; (2) it cannot require or request different or more exacting documentation from certain students based on their or their parents’/guardians’ actual or perceived national origin, citizenship, or immigration status than it requests from other students; and (3) it has an obligation to ensure that Limited English Proficient (LEP) parents/guardians have comparable access to information that is provided to parents/guardians in English during the enrollment and registration process.

The District has informed OCR that it intends to revise its registration and enrollment procedures to eliminate the collection of unnecessary information and to ensure that LEP individuals can understand the registration process and receive notice of the District’s translation and interpreter services. For example, the District intends to provide a notice on its website, phone lines, and at the registration desk about the availability of free interpreters provided by the District. As part of this Agreement, the District will ensure that these efforts are either already consistent with the terms below, or will be promptly revised to be consistent with the terms below in order to comply with Title VI.

In order to address the compliance concerns identified in Compliance Review No. 01-15-5001, and to ensure compliance with Title VI, the District agrees to the following terms:

**Action Item 2: District’s Policy or Administrative Regulation for Communicating with LEP Parents and Guardians During the Enrollment and Registration Process**

The District will develop a written policy or administrative regulation for providing language assistance to LEP parents/guardians to ensure that they have meaningful access to the District’s enrollment and registration process (the Communication Policy). The District’s Board or the District’s Superintendent will rescind any District policy, administrative regulation, practice, or procedure that conflicts with the Communication Policy.

Such Communication Policy will include the following:

1. A “Notice of Language Assistance” (Notice) to provide written notice to LEP parents/guardians, in a language that the parents/guardians will understand, of the availability of free translation and interpreter services with respect to the enrollment and registration process. This Notice will also provide parents/guardians with a contact person who can answer any questions regarding parental communication and assist parents/guardians to access interpreter services or translated documents. This Notice will, at a minimum, be published on the District’s website, as a cover page to the District’s enrollment forms, in student and parent handbooks, in any District-wide or school-based newsletters addressing registration and enrollment, and in a handout or poster in the Central Registration office. It is sufficient for the District to provide the Notice of
Language Assistance in the 10 languages most commonly spoken by LEP parents/guardians in the District, updated annually.

2. Removal from the District’s written information, both in hard copy and online, of all statements suggesting that LEP parents/guardians should bring an interpreter with them to register their child.

3. A process for identifying and tracking LEP parents/guardians who may need language assistance, including for purposes of determining “predominant” languages as defined in footnote 3, keeping a log of the language assistance services provided by date of service, type of service, and service provider (including name, position, and qualifications), including, at a minimum:

   - Ensuring that communications with LEP parents/guardians, whether orally or in writing, are in a language the parent/guardian can understand.

   - Using surveys or questionnaires during the registration and enrollment process to ask parents/guardians if they need translation or interpreter services, and if so to specify the language(s) needed.

   - Taking into account that English Learner (EL) students, whom the District has an obligation to identify, may also have LEP parents/guardians, and acknowledging that English-speaking students may also have LEP parents/guardians.

4. A written statement that a parent/guardian does not have to be of limited English proficiency in speaking, listening, reading, and writing English in order to be considered “LEP,” but, rather, that it is only necessary that a parent/guardian be limited in at least one of these areas in order to be eligible to receive language assistance as needed.

5. A written statement that, generally, the District will accept a parent’s/guardian’s assertion that he or she needs language assistance without requiring additional corroboration.

6. A process by which the District will provide and Central Registration staff may obtain, in a timely manner, appropriate, qualified and competent translators/interpreters\(^4\) for LEP parents/guardians during the registration and enrollment process, including for parents/guardians from less predominant language groups. This could include the use of various services, such as onsite translators/interpreters, telephonic translators/interpreters, and/or effective translation programs. A translator/interpreter will be considered “qualified and competent” if:

   - The translator/interpreter’s skills are supported by an objective measure of proficiency in the language domain he or she is translating/interpreting (e.g.,

\(^4\) This provision shall be applicable to Central Registration staff who are bilingual, regardless of whether they are formally considered a “translator/interpreter.”
speaking, listening, reading, and writing). With respect to the District’s use of bilingual Central Registration staff for this purpose, the World Languages Department Supervisor may provide the objective measure by assessing the translator/interpreter’s proficiency in the applicable language domain(s) and providing a written statement to document the level of proficiency and method of measurement, or the District may demonstrate that the bilingual Central Registration staff member has satisfied a relevant state standard for translators/interpreters.5

- The translator/interpreter has been appropriately trained on the role of a translator/interpreter, the ethics of translation/interpreter services, and the need to maintain confidentiality.

- The translator/interpreter has knowledge, in English and the LEP parents'/guardians’ language, of any specialized terms or concepts used in the District’s enrollment and registration process.

- Where appropriate, the translator/interpreter understands the expected reading level of the audience and has fundamental knowledge about the target language group’s vocabulary and phraseology.

7. A designated contact person(s) responsible for coordinating translation and interpreter services for the registration and enrollment process.

8. A process for notifying District and Central Registration staff of the availability of translation and interpreter services, the availability of translated documents, and the designated contact person(s).

9. A process for notifying relevant District and Central Registration staff, on an annual basis, that the use of LEP parents'/guardians’ family, friends, and children for the provision of language assistance is generally not acceptable in lieu of an appropriate and qualified translator/interpreter. The notice shall state that:

- The use of such individuals may raise issues of confidentiality, privacy, or conflicts of interest.

- In many circumstances such individuals are not competent to provide quality, accurate interpretations.

- When LEP parents/guardians have voluntarily chosen to provide their own translator/interpreter, the District may still need to provide its translator/interpreter to ensure accurate translation/interpretation of critical information. For example, a District-provided translator/interpreter may be

5 For example, certification to translate/interpret in court or administrative hearings.
needed if the competency of the LEP parent’s/guardian’s chosen interpreter cannot be established.

- It is never advisable to use minor children to convey information about their own education and/or complex information because the use of minor children raises particular concerns about competency, quality, and accuracy of translations/interpretations.

10. A process for identifying and accurately translating all material written enrollment and registration documents into the predominant languages in the District. The District will ensure accuracy, such that the translated version of the documents does not contain different or more exacting requirements than the English version. In determining if a written document is material, the District will consider the importance of the information and the consequence to the LEP parent/guardian if the information in question is not provided accurately or in a timely manner. Typical material registration and enrollment documents include:

- Enrollment and Registration Forms.
- Documents related to Section 504 of the Rehabilitation Act of 1973 and the Individuals with Disabilities Education Act.
- Parent handbooks and factsheets.
- Documents regarding the availability of academic options and planning, including counseling and guidance services.
- Screening procedures that request information from parents/guardians about the student’s language background and the parent’s/guardian’s preferred language for communication with the District.
- Public notification materials (e.g., District informational flyers, school brochures, and pamphlets).

11. A process for disseminating all translated material written enrollment and registration documents in the predominant languages in the District, including publishing on the District’s website and providing hard copies in the Central Registration office.

12. A process for notifying LEP parents/guardians, in a language that the parents/guardians will understand, of how they can obtain oral or written translations/interpretations of material written enrollment and registration documents in less predominant languages.

13. A process for evaluating the effectiveness of the Communication Policy on an annual basis. The written evaluation plan will include the following:
• Identification of District staff responsible for evaluating the Communication Policy on an annual basis.

• Identification of the date by which the evaluation will be completed on an annual basis.

• A list of information and items to be examined when evaluating the effectiveness of the Communication Policy.

• A process for determining whether new documents need to be made accessible for LEP parents/guardians.

• A procedure for tracking and reviewing LEP parents’/guardians’ requests for translators/interpreters.

**Reporting Requirements**

a. By December 1, 2016, the District will submit to OCR documentation confirming that the District’s Central Registration staff has discontinued making oral requests for the following information during the enrollment and registration process, and documentation (including relevant URL(s)) demonstrating that the District has redacted or otherwise removed all references to the following information from all Enrollment and Registration Forms; student/parent handbooks; and District policies or administrative regulations, practices, and procedures:

• Statements suggesting that LEP parents/guardians should bring an interpreter with them to register their child.

b. By December 1, 2016, the District will submit to OCR, for review and approval, a copy of the Communication Policy, including but not limited to all newly-drafted documentation regarding the District’s provision of language assistance to LEP parents/guardians to ensure that they have meaningful access to the District’s enrollment and registration process.

c. Within 45 calendar days of OCR’s review and approval of the Communication Policy, the District will adopt and implement the Communication Policy and the District will rescind any conflicting Enrollment and Registration Forms; student/parent handbooks; and District policy, administrative regulation, practice, or procedure.
