Re: Case No. 02-17-2452  
State University of New York, Jefferson Community College

Dear President Stone:

This letter is to notify you of the determination made by the U.S. Department of Education, Office for Civil Rights (OCR), with respect to the above-referenced complaint filed against the State University of New York, Jefferson Community College (the College). OCR investigated the complainant's allegation that the College discriminated, on the basis of disability, because the College's website is not accessible to individuals with disabilities.

OCR is responsible for enforcing Section 504 of the Rehabilitation Act of 1973 (Section 504), as amended, 29 U.S.C. § 794, and its implementing regulation at 34 C.F.R. Part 104, which prohibit discrimination on the basis of disability in programs and activities receiving financial assistance from the U.S. Department of Education (the Department). OCR also is responsible for enforcing Title II of the Americans with Disabilities Act of 1990 (the ADA), 42 U.S.C. § 12131 et seq., and its implementing regulation at 28 C.F.R. Part 35. Under the ADA, OCR has jurisdiction over complaints alleging discrimination on the basis of disability that are filed against certain public entities. The College is a recipient of financial assistance from the Department and is a public postsecondary education system. Therefore, OCR has jurisdictional authority to investigate this complaint under both Section 504 and the ADA.

This letter summarizes the applicable legal standards, the information gathered during the investigation, and how the investigation was resolved.

Legal Authority:

Section 504 and the ADA prohibit individuals, on the basis of disability, from being excluded from participation in, being denied the benefits of, or otherwise being subjected to discrimination

by recipients of federal financial assistance or by public entities, respectively. 34 C.F.R. § 104.4 and 28 C.F.R. § 35.130. Individuals with disabilities must have equal access to recipients' programs, services, or activities unless doing so would fundamentally alter the nature of the programs, services, or activities, or would impose an undue burden. 28 C.F.R. § 35.164. Both Section 504 and the ADA prohibit affording individuals with disabilities an opportunity to participate in or benefit from aids, benefits, and services that is unequal to the opportunity afforded others. 34 C.F.R. § 104.4(b)(1)(ii); 28 C.F.R. § 35.130(b)(1)(ii). Similarly, individuals with disabilities must be provided with aids, benefits, or services that provide an equal opportunity to achieve the same result or the same level of achievement as others. 34 C.F.R. § 104.4(b)(2); 28 C.F.R. § 35.130(b)(1)(iii). An individual with a disability, or a class of individuals with disabilities, may be provided with a different or separate aid, benefit, or service only if doing so is necessary to ensure that the aid, benefit, or service is as effective as that provided to others. 34 C.F.R. § 104.4(b)(1)(iv); 28 C.F.R. § 35.130(b)(1)(iv). The ADA also requires public entities to take steps to ensure that communications with people with disabilities are as effective as communications with others, subject to the fundamental alteration and undue burden defenses. 28 C.F.R. § 35.160(a)(1). In sum, programs, services, and activities—whether in a “brick and mortar,” on-line, or other “virtual” context—must be operated in ways that comply with Section 504 and the ADA.

#### Investigation:

During the course of the investigation, OCR examined pages on the College's website to determine whether these are accessible to persons with disabilities. These webpages included:

- <http://www.sunyjefferson.edu/>
- <http://www.sunyjefferson.edu/academics/programs-study>
- <http://www.sunyjefferson.edu/academics/library>
- <http://www.sunyjefferson.edu/academics/academic-support-services>

- <https://www.facebook.com/sunyjefferson/?ref=stream>
- <http://www.sunyjefferson.edu/about-jcc/college-directory/facultystaff>

OCR evaluated the above-listed pages and determined that: (i) keyboard controls were not visually apparent, which means that content was not available to those who have low vision, and those with disabilities affecting fine motor control; (ii) keyboard controls did not access all content and functions, which made it difficult or impossible for keyboard users who are blind, many who have low vision, and those with disabilities affecting fine motor control to access important content of the website; (iii) text in linked portable document formats (PDFs) was not

accessible to blind and low-vision users who use special software; (iv) important images were missing associated text descriptions, referred to as “alt tags,” that describe the images to blind and low-vision users who use special software; (v) linked videos were missing meaningful captioning to convey audible content to users who are deaf or hard of hearing; and, (vi) form fields were missing properly associated text labels, which identify the purpose and function of the otherwise unlabeled form field for users of special software. Many of these barriers deny persons with disabilities access to programs, services and activities offered on the website and impede the College’s communications with persons with disabilities.

Before OCR conducted additional investigation of the College’s website, the College expressed an interest in voluntarily resolving this case. In light of the College’s willingness to address its website comprehensively without further investigation, OCR determined that entering into a voluntary resolution agreement was appropriate.

### Resolution Agreement

The College signed a resolution agreement (Agreement) on January 17, 2018. When fully implemented, the Agreement will address the issues noted above, as well as resolve issues of accessibility pertaining to the rest of the College’s website. The College committed to take actions including:

- selecting an auditor who has the requisite knowledge and experience to identify barriers to access on the College’s website and conducting an audit of existing online content and functionality;
- making all new website content and functionality accessible to people with disabilities;
- developing a corrective action plan to prioritize the removal of online barriers over a 12-month period;
- posting a notice to persons with disabilities about how to request access to online information or functionality that is currently inaccessible; and,
- providing website accessibility training to all appropriate personnel.

OCR will monitor the College’s implementation of the Agreement. Upon completion of the obligations under this Agreement, OCR shall close this case. If the College fails to implement the Agreement, OCR may initiate administrative or judicial proceedings to enforce specific terms and obligations of the Agreement. Before initiating administrative (34 C.F.R. §§ 100.9, 100.10) or judicial proceedings to enforce the Agreement, OCR will give the College written notice of the alleged breach and sixty (60) calendar days to cure the breach.

This letter should not be interpreted to address the College’s compliance with any other regulatory provision or to address any issues other than those addressed in this letter. This letter sets forth OCR’s determination in an individual OCR case. This letter is not a formal statement of OCR policy and should not be relied upon, cited, or construed as such. OCR’s formal policy statements are approved by a duly authorized OCR official and made available to the public. The complainant may have the right to file a private suit in federal court whether or not OCR finds a violation.

Please be advised that the College may not harass, coerce, intimidate, or discriminate against any individual because he or she has filed a complaint or participated in the complaint resolution process. If this happens, the individual may file a complaint alleging such treatment.

Under the Freedom of Information Act, it may be necessary to release this letter and related correspondence and records upon request. In the event that OCR receives such a request, it will seek to protect, to the extent provided by law, personally identifiable information that, if released, could reasonably be expected to constitute an unwarranted invasion of personal privacy.
