

Michigan Virtual University
Resolution Agreement
OCR Docket #15-16-2146

Michigan Virtual University (the University) voluntarily submits this Resolution Agreement (Agreement) to the U.S. Department of Education, Office for Civil Rights (OCR), for the purpose of resolving the above-referenced complaint alleging violation of Title II of the Americans with Disabilities Act of 1990 (Title II), 42 U.S.C. § 12131 *et seq.*, and its implementing regulation at 28 C.F.R. Part 35. This Agreement has been entered into voluntarily by the University and does not constitute an admission by the University that it is not in compliance with Title II or its implementing regulation.

“Accessible,” as used in this Agreement, means a person with a disability is afforded the opportunity to acquire the same information, engage in the same interactions, and enjoy the same services as a person without a disability in an equally effective and equally integrated manner, with substantially equivalent ease of use. A person with a disability must be able to obtain the information as fully, equally, and independently as a person without a disability. Although this might not result in identical ease of use compared to that of persons without disabilities, it still must ensure equal opportunity to the educational benefits and opportunities afforded by the technology and equal treatment in the use of such technology.

The University agrees to take the following actions:

1. By December 31, 2016, the University will draft and submit to OCR for review and approval a policy and/or procedures to ensure information provided through the University’s website(s) (online content) is accessible to students, prospective students, employees, guests, and visitors with disabilities, particularly those with visual, hearing, or manual impairments or who otherwise require the use of assistive technology to access information (Web Accessibility Policy). The Web Accessibility Policy will, at minimum, accomplish the following:
 - a. identify and adopt the specific technical standard(s) the University will use to determine whether online content is accessible (e.g., W3C’s Web Content Accessibility Guidelines (WCAG), Web Accessibility Initiative - Accessible Rich Internet Applications Suite (WAI-ARIA), or other standard or combination of standards that will render online content accessible);¹
 - b. designate at least one individual (Web Accessibility Coordinator) and provide that individual with sufficient resources and authority to coordinate and implement the Web Accessibility Policy, and all other commitments relating to accessibility within this Agreement;

¹ This Agreement does not imply that conformity with WCAG, WAI-ARIA and/or other electronic and information technology standard is either required or sufficient to comply with the requirements of either Section 504 or Title II. The technical standard(s) serve only as guidance with respect to whether the online content is accessible.

- c. provide a procedure to ensure that online content and information obtained through online content provided or developed by third parties is accessible. This procedure should direct administrators and staff to ensure that any University acquisition or use of online content provided or developed by third parties (e.g. vendors, video-sharing websites such as YouTube, other open sources) that the University chooses to make available on its website will provide equal opportunity to the educational benefits and opportunities afforded by the technology and equal treatment in the use of such technology;
- d. annual training for any staff (e.g. administrators, faculty, support staff, student employees) responsible for creating or distributing information with online content to students, employees, guests, and visitors with disabilities, including, but not limited to, training on the Web Accessibility Policy and their roles and responsibilities to ensure that web design, documents, and multimedia content are accessible. The training will be facilitated, in whole or in part, by an individual with sufficient knowledge, skill, and experience to understand and employ the technical standard(s) adopted by the University;
- e. an accessibility audit (Audit) to be completed at regular intervals under the direction of the Web Accessibility Coordinator, during which information provided by the University through its online content is measured against the technical standard(s) adopted in the Web Accessibility Policy. All problems identified through the Audit will be documented, evaluated, and, if necessary, remediated within a reasonable period of time; and
- f. inform students, prospective students, employees, guests, and visitors that they may report violations of the technical standard(s) used by the University, file a formal complaint through its Title II grievance procedure, and/or contact the Web Accessibility Coordinator with any accessibility concerns. The Web Accessibility Policy will include the name and/or title, office address and telephone number, and email address of the Web Accessibility Coordinator.

Reporting Requirement: By December 31, 2016, the University will provide for OCR’s review and approval the Web Accessibility Policy drafted consistent with Item 1.

- 2. Within 60 calendar days of OCR’s approval of the University’s Web Accessibility Policy, the University will post the Web Accessibility Policy in a logical and readily identifiable location on its website and will provide notification to students, prospective students, employees, guests, and visitors. The notification will occur by written correspondence, email, and/or website notification and will further provide information on where the Web Accessibility Policy is located on the University’s website and, alternatively, where individuals may request or obtain a copy of such document.

Reporting Requirement: Within 60 calendar days of OCR’s approval of the University’s Web Accessibility Policy, the University will provide documentation to OCR verifying its implementation of Item 2, including a copy of the notification(s) and the URL (web address[es]) for the location of its Web Accessibility Policy.

3. Within 180 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will complete an initial Audit to examine whether information provided through online content is currently accessible, measured against the technical standard(s) adopted by the Web Accessibility Policy. The University will document the results of the Audit and develop a corrective action strategy based on the audit findings that includes relevant timeframes for completion.

Reporting Requirement: Within 180 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will provide to OCR for review and approval a copy of its Audit report and corrective action strategy, including the timeline for implementation of the corrective action strategy, and the credentials of a third-party web accessibility consultant or employee of the University with sufficient knowledge, skill, and experience to understand and employ the technical standard(s) adopted by the University that will be certifying (pursuant to Item 4 below) that the University's online content meets the technical requirements adopted in the Web Accessibility Policy.

4. Within 30 calendar days of OCR's approval of the corrective action strategy, including the timeline for implementation of the corrective action strategy and the credentials of the University's consultant or responsible employee described above, the University will begin implementation of the corrective action strategy to make its online content accessible to individuals with disabilities, particularly students with visual, hearing, or manual impairments or who otherwise require the use of assistive technology to access the online content.

Reporting Requirements: Within 180 calendar days of OCR's approval of the corrective action strategy, the University will submit documentation to OCR confirming implementation of the corrective action strategy consistent with established timeframes, including certification to OCR that its online content meets the technical requirements adopted in the Web Accessibility Policy. The University will also provide to OCR the bases for this certification including copies of any accessibility evaluation or report, dates of correction actions, and copies of any reports from interim audits conducted pursuant to the Web Accessibility Policy.

5. Within 60 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will develop and conduct training on how to ensure accessibility in web design and implementation. The training will be provided by qualified personnel, or through an online training program vetted by said qualified personnel, to all staff involved in web design and implementation, including but not limited to administrators, teachers, staff, and volunteers who develop content for online instruction and/or post material on University webpage(s)/portal(s). The training will include, at a minimum, training on the Web Accessibility Policy and the roles and responsibilities of University staff to ensure that web design, documents, course content, and multimedia videos or content are accessible.

Reporting Requirement: Within 60 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will provide to OCR the name(s) and credentials of the individual(s) who conducted the training; a list of individuals, by name and title, who

attended the training; and a copy of any training materials (e.g., pamphlets, presentation materials).

General Requirements

The University understands that OCR will not close the monitoring of this Agreement until OCR determines that the University has fulfilled the terms of this Agreement and is in compliance with Title II and its implementing regulation at 28 C.F.R. §§ 35.130 and 35.160, which were at issue in this complaint.

The University understands that, by signing this Agreement, it agrees to provide data and other information in a timely manner. Further, the University understands that during the monitoring of this Agreement OCR may visit the University, interview staff, and request such additional reports or data as are necessary for OCR to determine whether the University has fulfilled the terms of this Agreement and is in compliance with Title II and its implementing regulation at 28 C.F.R. §§ 35.130 and 35.160.

The University understands and acknowledges that, if it does not implement the specific terms and obligations of this Agreement or otherwise come into compliance with the Title II regulation at 28 C.F.R. §§ 35.130 and 35.160, OCR may reopen the investigation of this complaint to ensure the Library’s compliance.
