

Bowling Green State University
Section 302 Resolution Agreement
OCR Docket #15-17-2234

Bowling Green State University (the University) voluntarily submits this Section 302 Resolution Agreement (Agreement) to the U.S. Department of Education, Office for Civil Rights (OCR), for the purpose of resolving the above-referenced complaint alleging a violation of Section 504 of the Rehabilitation Act of 1973 (Section 504), 29 U.S.C. § 794, and its implementing regulation at 34 C.F.R. Part 104, and Title II of the Americans with Disabilities Act of 1990 (Title II), 42 U.S.C. § 12131 *et seq.*, and its implementing regulation at 28 C.F.R. Part 35.

“Accessible,” as used in this Agreement, means a person with a disability is afforded the opportunity to acquire the same information, engage in the same interactions, and enjoy the same services as a person without a disability in an equally effective and equally integrated manner, with substantially equivalent ease of use. A person with a disability must be able to obtain the information as fully, equally, and independently as a person without a disability. Although this might not result in identical ease of use compared to that of persons without disabilities, it still must ensure equal opportunity to the educational benefits and opportunities afforded by the technology and equal treatment in the use of such technology.

The University agrees to take the following actions:

1. By 60 days after the University approves and signs this Agreement, the University will draft and submit to OCR for review and approval a policy and/or procedures to ensure information provided through the University’s website(s) (online content), other than information to which access is limited by means of a password (restricted online content)¹, is accessible to students, prospective students, employees, guests, and visitors with disabilities, particularly those with visual, hearing, or manual impairments or who otherwise require the use of assistive technology to access information (Web Accessibility Policy). The Web Accessibility Policy will, at minimum:
 - a. identify and adopt the specific technical standard(s) the University will use to determine whether online content is accessible (e.g., W3C’s Web Content Accessibility Guidelines (WCAG), Web Accessibility Initiative - Accessible Rich Internet Applications Suite (WAI-ARIA) techniques for web content, or other standard or combination of standards that will render online content accessible);²
 - b. designate at least one individual (Web Accessibility Coordinator) and provide that individual with sufficient resources and authority to coordinate and implement the Web Accessibility Policy, and all other commitments relating to accessibility within this Agreement;

¹ Although restricted online content is outside the scope of this agreement, the University confirms its understanding that such content is also subject to the requirements of Section 504 and Title II and their implementing regulations.

² This Agreement does not imply that conformity with WCAG, WAI-ARIA and/or other electronic and information technology standard is either required or sufficient to comply with the requirements of either Section 504 or Title II. The technical standard(s) serve only as guidance with respect to whether the online content is accessible.

- c. provide a procedure to ensure that online content (including information obtained through online content provided or developed by third parties) is accessible. This procedure should direct administrators and staff to ensure that any University acquisition or use of online content provided or developed by third parties (e.g. vendors, video-sharing websites such as YouTube, other open sources) that the University chooses to make available on its website will provide equal opportunity to the educational benefits and opportunities afforded by the technology and equal treatment in the use of such technology;
- d. provide for annual training for any staff (e.g. administrators, faculty, support staff, student employees) responsible for creating or distributing information with online content to students, employees, guests, and visitors with disabilities, including, but not limited to, training on the Web Accessibility Policy and their roles and responsibilities to ensure that web design, documents, and multimedia content are accessible. The training will be facilitated, in whole or in part, by the Web Accessibility Coordinator or another individual with sufficient knowledge, skill, and experience to understand and employ the technical standard(s) adopted by the University. With regard to staff who have already been fully trained at least once on the Web Accessibility Policy, the annual training requirement can be satisfied by disseminating notice that includes the Web Accessibility Policy (e.g. via email with a link to the policy), highlights any Policy and/or technical standard updates, and provides the name and contact information of the Web Accessibility Coordinator to serve as a resource for staff with questions about the accessibility of online content;
- e. provide for an internal accessibility audit (Audit) to be completed at regular intervals by or under the direction of the Web Accessibility Coordinator, during which information provided by the University through its online content is measured against the technical standard(s) adopted in the Web Accessibility Policy. All problems identified through the Audit will be documented, evaluated, and, if necessary, remediated or resolved within a reasonable period of time, under the direction of the Web Accessibility Coordinator; and
- f. inform students, prospective students, employees, guests, and visitors that they may report perceived or alleged violations of the technical standard(s) used by the University, file a formal complaint through its Section 504 and Title II grievance procedure, and/or contact the Web Accessibility Coordinator with any accessibility concerns. The Web Accessibility Policy will include the name and/or title, office address and telephone number, and email address of the Web Accessibility Coordinator.

Reporting Requirement: By 60 days after the University signs this Agreement, the University will provide for OCR's review and approval the Web Accessibility Policy drafted consistent with Item 1.

2. Within 60 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will post the Web Accessibility Policy in a logical and readily identifiable location on its website and will provide notification to students, prospective students, employees, guests, and visitors. The notification will occur by written correspondence,

email, and/or website notification and will further provide information on where the Web Accessibility Policy is located on the University's website and, alternatively, where individuals may request or obtain a copy of such document.

Reporting Requirement: Within 60 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will provide documentation to OCR verifying its implementation of Item 2, including a copy of the notification(s) and the URL (web address[es]) for the location of its Web Accessibility Policy.

3. Within 180 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will complete an initial internal Audit to examine whether information provided through online content is currently accessible, measured against the technical standard(s) adopted by the Web Accessibility Policy. The University will document the results of the internal Audit. If online content is not accessible, the University will develop a corrective action strategy based on the audit findings to make its online content accessible to individuals with disabilities, particularly students with visual, hearing, or manual impairments of who otherwise require the use of assistive technology to access online content. The corrective action strategy, if necessary, will include relevant timeframes for completion. Within 180 calendar days of OCR's approval of the corrective action strategy, the University will fully implement it.

Reporting Requirement: Within 180 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will provide to OCR for review and approval a copy of its Audit report and corrective action strategy, if needed, including the timeline for implementation of the corrective action strategy, and the credentials of the Web Accessibility Coordinator or third party web accessibility consultant or employee of the University with sufficient knowledge, skill, and experience to understand and employ the technical standard(s) adopted by the University who will be certifying that the University's online content meets the technical requirements adopted in the Web Accessibility Policy. Within 180 calendar days of OCR's approval of the corrective action strategy, if needed, the University will submit documentation to OCR confirming implementation of the corrective action strategy consistent with established timeframes, including certification to OCR that its online content meets the technical requirements adopted in the Web Accessibility Policy. The University will also provide to OCR the bases for this certification including copies of any accessibility evaluation or report, dates of correction action, and copies of any reports from interim audits conducted pursuant to the Web Accessibility Policy.

4. Within 60 calendar days of OCR's approval of the University's Web Accessibility Policy, the University will develop and conduct training, with respect to online content, on how to ensure accessibility in web design and implementation. The training will be provided by the Web Accessibility Coordinator or other qualified personnel, or through an online training program vetted by said qualified personnel, to all staff who develop content for and/or post material on University webpage(s)/portal(s). The training will include, at a minimum, training on the Web Accessibility Policy and the roles and responsibilities of University staff to ensure that web design, documents, course content, and multimedia videos or content are accessible.

Reporting Requirement: Within 60 calendar days of OCR’s approval of the University’s Web Accessibility Policy, the University will provide to OCR the name(s) and credentials of the individual(s) who conducted the training, a list of individuals (by name and title) who attended the training, and a copy of any training materials (e.g., pamphlets, presentation materials).

General Requirements

The University understands that, by signing this Agreement, it agrees to provide data and other information in a timely manner in accordance with the reporting requirements of this Agreement. Further, the University understands that during the monitoring of this Agreement OCR may visit the University, interview staff, and request such additional reports or data as are necessary for OCR to determine whether the University has fulfilled the terms of this Agreement and is in compliance with Section 504 and its implementing regulation at 34 C.F.R. § 104.4, and Title II and its implementing regulation at 28 C.F.R. §§ 35.130 and 35.160. Upon completion of the obligations under this Agreement, OCR shall close the case.

The University understands and acknowledges that OCR may initiate administrative enforcement or judicial proceedings to enforce the specific terms and obligations of this Agreement. Before initiating administrative enforcement (34 C.F.R. §§ 100.9, 100.10) or judicial proceedings to enforce this Agreement, OCR shall give the University written notice of the alleged breach and sixty (60) calendar days to cure the alleged breach.

This Agreement will become effective immediately upon the signature of the University’s representative below.
