⁵ For students in both undergraduate and graduate categories, classify as a graduate student.

⁶ For students who had multiple enrollment intensities use the enrollment status at the time of initial disbursement of the HEERF emergency grant (i.e. for students who received multiple disbursements, the status upon the first disbursement) to determine full-time status or part-time status.

⁷ Designate the student as a Pell grant recipient if the student was a Pell grant recipient at the time of initial disbursement of the HEERF emergency grant within the applicable reporting period.

⁸ Includes non-FAFSA filers.

⁹ For the purposes of this report, institutions may determine the number of eligible students based on the number of students for whom the institution has received an Institutional Student Information Record (ISIR) plus the number of students who completed an alternative application form developed by the institution for this purpose. The institution may then apply this number to its own methodological framework for disbursement of funds to produce a final total of eligible students at the institution. The institution is not asked to make assumptions about the potential eligibility of students for whom the institution has not received an ISIR or an alternative application.
