INTRODUCTION

The mission of the Office of Special Education and Rehabilitative Services (OSERS) is to improve early childhood, educational, and employment outcomes, and to raise expectations for all people with disabilities, their families, their communities, and the nation. OSERS administers programs that help educate children and youth with disabilities and provides for the rehabilitation of youth and adults with disabilities.

For decades, the transition of youth with disabilities from school to adult life has received high priority from OSERS' offices, which include the Office of the Assistant Secretary (OAS), the Office of Special Education Programs (OSEP), and the Rehabilitation Services Administration (RSA). These offices award discretionary and formula grants to States and execute regulatory and policy guidance in an effort to have a successful impact on education and employment outcomes for youth with disabilities. To build upon this priority and the history of accomplishments among the program components, the OSERS Transition Steering Committee (Steering Committee) was established. Representatives from OAS, OSEP, and RSA are on the Steering Committee.

The purpose of the Steering Committee is to facilitate the collaborative efforts of OSERS to improve outcomes for youth with disabilities in their transition from secondary school to adulthood. For the purposes of this document, transition refers to the passage from completing secondary school to participating in postsecondary education or training, engaging in meaningful employment, living within one's community, exercising self-determination, and contributing to society as a productive citizen.

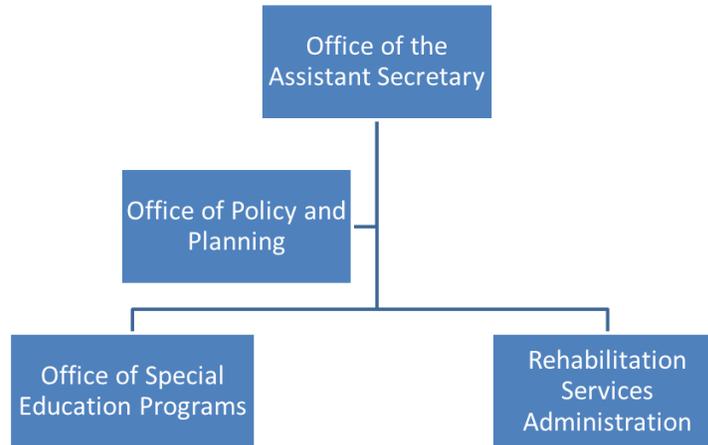

This 2017 publication describes present and upcoming OSERS transition activities, such as projects supporting students and youth with disabilities served by State agencies, written products offering technical assistance (TA), and presentations at conferences facilitating the exchange of information among transition partners. It is intended to be used as a reference tool to broaden awareness of OSERS transition activities. Links offering more detailed information are provided whenever possible. It is important to note that this is a living document that will be updated and will continue to evolve as OSERS activities change and grow.¹

Expanded use of technology, issues raised in the field, and identification of evidence-based transition practices provide opportunities to enhance this document. Please do not hesitate to contact any member of the Steering Committee regarding the information provided, use of this document, or ways to improve it.

ORGANIZATIONAL STRUCTURE OF THE OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES

- The **Office of Policy and Planning (OPP)** is responsible for coordinating, monitoring, and overseeing all OSERS activities relating to policy formulation, program and strategic planning, regulations, program evaluation, grants and contract scheduling activities, and *Freedom of Information Act (FOIA)* requests. In performing its responsibilities, OPP serves as the liaison to the Office of Legislation and Congressional Affairs (OLCA) and the Office of the General Counsel (OGC) on OSERS legislative matters and with the Department's Budget Service on program budget matters. In addition, OPP establishes and monitors the OSERS annual schedule of grant and contract activities.
- The **Office of Special Institutions** within OAS has oversight responsibility for the American Printing House for the Blind, Gallaudet University, Helen Keller National Center, and the National Technical Institute for the Deaf. The office has responsibility to monitor these four Special Institutions to ensure compliance with their respective authorizing legislation, the *Education of the Deaf Act* of 1986 and the *Act to Promote the Education of the Blind* of March 3, 1879. The office serves as the Department's principal liaison to the Institutions and ensures that federal funds appropriated to the Institutions are used appropriately. Responsibilities include assignments, which cover broad program analyses, evaluation, improvement, innovation, policy interpretation and formulation for school-age, postsecondary, adult, continuing and career education programs for children and youth with disabilities enrolled in or served by these Institutions.
- The mission of the **Office of Special Education Programs (OSEP)** is to lead the nation's efforts to improve outcomes for children with disabilities, birth through 21, and their families, ensuring access to fair, equitable, and high-quality education and services. The *Individuals with Disabilities Education Act (IDEA)* authorizes formula grants to States and discretionary grants to institutions of higher education and other

non-profit organizations to support model program demonstrations, technical assistance and dissemination, technology, personnel development and parent training and information centers. OSEP is comprised of the following three divisions:

- The **Program Support Services Group (PSSG)**, located within the Office of the Director, is responsible for coordinating program and administrative budgets, strategic planning sessions, control mail and messenger services, OSEP's workload schedule and master calendar, updates to the OSEP Web page, provision of workplace support and supplies, generation of *IDEA* formula grants, travel and training for OSEP staff, and OSEP weekly reports.
- The **Monitoring and State Improvement Planning (MSIP)** division carries out major activities related to the *IDEA* Part B, Part C, and 619 formula grant programs. MSIP is responsible for State plan review and approval, and for monitoring OSEP's formula grant programs to ensure consistency with federal requirements and to ensure that States and other public agencies continue to implement programs designed to improve results for infants, toddlers, children, and youth with disabilities. State improvement planning activities are also managed by MSIP through a cross-cutting team made up of staff from throughout OSEP.
- The **Research to Practice (RTP)** division provides leadership and oversees the implementation of knowledge development and transfer, and use of this knowledge to improve education results for infants, toddlers, children, and youth with disabilities. RTP, together with parents of children with disabilities, individuals with disabilities, researchers, developers, trainers and service providers, formulates an agenda to improve the quality of early intervention and education for infants, toddlers, children, and youth with disabilities. RTP is responsible for implementing this agenda through a systematic approach to program improvement through research, demonstration, outreach, technology development, technical assistance, training, evaluation, and service delivery.
- The **Rehabilitation Services Administration (RSA)** oversees grant programs that help individuals with physical or mental disabilities to obtain competitive integrated employment and live more independently. Specifically, RSA's vocational rehabilitation formula grant program, authorized under the *Rehabilitation Act* of 1973, as amended by Title IV of the *Workforce Innovation and Opportunity Act*, provides funds to State vocational rehabilitation (VR) agencies to provide employment-related services for individuals with disabilities, giving priority to individuals who have significant disabilities. The VR agencies provide or arrange for the provision of a wide variety of services, such as counseling, medical and psychological services, job training, assistive technology, and other individualized employment-related services. Pre-employment transition services are available Statewide to students with disabilities, regardless of whether the student has applied or been determined eligible for VR services. Individualized VR services are provided in accordance with an individualized plan for employment that is jointly developed by the individual with a disability and his or her VR counselor, and representative as appropriate, and that is designed to assist the individual to achieve an employment outcome that is

consistent with his or her abilities, interests, and informed choice. Annually, State VR agencies assist over 200,000 individuals with disabilities to achieve employment. RSA is comprised of the following three divisions:

- The **Program Support Staff (PSS)** is responsible for providing support for cross-divisional program analysis including data collection and analysis, planning for initiatives, developing coordinated program and salary and expenses (S&E) budgeting to support cross-divisional efforts, providing tracking, coordination and review for compliance with fiscal and program plans and assisting with RSA priority development and grants management processes. PSS provides coordination within RSA and, working through OAS, with the Department and other organizations.
- The **State Monitoring and Program Improvement Division (SMPID)** is responsible for State plan review and approval, and for monitoring five RSA formula grant programs to ensure consistency with federal requirements and to ensure that States continue to implement programs designed to improve results for individuals with disabilities, including students and youth with disabilities. SMPID is divided into four functional units and five State teams.
- The **Training and Services Program Division (TSPD)** administers five programs under two statutes: the *Rehabilitation Act of 1973*, as amended, and the *Randolph-Sheppard Act*. The programs are a mix of discretionary grants and direct appropriations. TSPD houses two units.

OSEP, MSIP	Results-Driven Accountability	<p>OSEP's vision for Results-Driven Accountability (RDA) is that OSEP will target its work and investments to best support States in improving results for infants, toddlers, children, and youth with disabilities. RDA's three components include: 1) State Performance Plan/Annual Performance Reports (SPP/APR), which measures results and compliance and includes State Systematic Improvement Plans (SSIPs) designed to improve outcomes in targeted areas; 2) determinations, which reflect State performance on results, as well as compliance; and 3) differentiated monitoring and support for all States, but especially low performing States. The Core Principles—partnership; transparency; improve outcomes; protect rights; differential incentives, supports, and interventions; focus resources; and responsive—guide OSEP's RDA work.</p> <p>https://www2.ed.gov/about/offices/list/osers/osep/rda/index.html</p>

RSA,TSPD	VR Technical Assistance Center— Targeted Communities (VRTAC-TC) (FY 2016-2020)	<p>The VR Technical Assistance Center—Targeted Communities (VRTAC-TC) helps State agencies and their partners to address the barriers to VR participation and competitive integrated employment of historically underrepresented groups of individuals with disabilities in economically disadvantaged communities, including students and youth with disabilities. Intensive TA is provided on-site. Systemic barriers such as homelessness, chronic health conditions, interpersonal and family issues, language barriers, and lack of transportation are addressed through partnerships with VR agencies, local social services providers, correctional facilities, community rehabilitation programs, school systems, employers, and other relevant stakeholders. Promising practices, lessons learned and resource materials are shared through targeted and universal technical assistance, including communities of practice.</p> <p>https://projecte3.com</p>
RSA, TSPD	VR Technical Assistance Center— Workforce Innovation (WINTAC) (FY 2016-2020)	<p>The Workforce Innovation Technical Assistance Center (WINTAC) is a national center that is funded to provide training and TA to State VR agencies and related rehabilitation professionals and service providers to support them in developing the skills and processes needed to meet the requirements of <i>WIOA</i>. Pre-employment transition services and competitive integrated employment (including supported employment and customized employment) are among the WINTAC's major topical areas. WINTAC coordinates its work with OSEP's <i>IDEA</i> and transition-related TA centers.</p> <p>http://www.wintac.org</p>

As the U.S. Department of Education's primary research arm, the Institute of Education Sciences (IES) advances the rigor, relevance and usefulness of education research. *IDEA* requires that children with unique needs receive specially designed instruction. *IDEA* meets this promise by systematically exploring how to best design instruction to meet the needs of each child with a disability. As specified under Title II of *IDEA*, NCSER'S mission is to

- (1) sponsor research to expand knowledge and understanding of the needs of infants, toddlers and children with disabilities in order to improve the developmental, educational and transitional results of such individuals;
- (2) sponsor research to improve services provided under, and support the implementation of, *IDEA* (20 U.S.C. 1400 et seq.); and
- (3) evaluate the implementation and effectiveness of *IDEA* in coordination with the National Center for Education Evaluation and Regional Assistance (NCEEERA).

NCSER has previously sponsored numerous research projects related to secondary transition and post-school outcomes, including the National Longitudinal Transition Study-2012 (NLTS-2012).

The mission of the Office for Civil Rights (OCR) is to ensure equal access to education and to promote educational excellence throughout the nation through vigorous enforcement of civil rights. OCR serves student populations facing discrimination and the advocates and institutions promoting systemic solutions to civil rights problems. An important responsibility is resolving complaints of discrimination. Agency-initiated cases, typically called compliance reviews, permit OCR to target resources on compliance problems that appear particularly acute. OCR also provides technical assistance to help institutions achieve voluntary compliance with the civil rights laws that OCR enforces. An important part of OCR's technical assistance is partnerships designed to develop creative approaches to preventing and addressing discrimination.
