## COMMENTS:

One of the lessons learned from developing version one of Education's Open Government Plan is the need to provide greater internal structure behind our Open Government efforts. We are already working to address this issue so that we are in a position to respond to the feedback provided May 1.

**10.** For this question ED updated its Plan on Friday (4/23/10) on page 44:

ED does not produce significant education materials; however, we do maintain a one-stop website designed to make it easy for teachers, parents, students, and citizens to find education materials from ALL federal agencies. The website, FREE, is one of ED's most popular web offerings because nearly all the 1,600 resources available there are free for re-use. Federal Resources for Educational Excellence is available at [FREE -- http://www.free.ed.gov/](http://www.free.ed.gov/).
