| 2021 | 22,975,352                  | 24,565,352                | 24,520,352                | 24,545,352              |
| 2022 | 27,545,352                  |                           |                           |                         |

<sup>1</sup> The level for the House and Senate allowances reflect action on the regular annual 2013 appropriations bill, which proceeded in the 112<sup>th</sup> Congress only through the House Subcommittee and the Senate Committee.

<sup>2</sup> The House allowance is shown as N/A because there was no Subcommittee action.

<sup>3</sup> The level for the Senate allowance reflects Committee action only.

<sup>4</sup> The level for the Senate allowance reflects Senate Subcommittee action only.

<sup>5</sup> The levels for House and Senate allowances reflect action on the regular annual 2016 appropriations bill, which proceeded in the 114<sup>th</sup> Congress only through the House Committee and Senate Committee.

<sup>6</sup> The levels for the House and Senate allowances reflect Committee action on the regular annual 2017 appropriations bill; the Appropriation reflects the Consolidated Appropriations Act, 2017.

<sup>7</sup> The level for the House allowance reflects floor action on the Omnibus appropriations bill; the Senate allowance reflects Committee action on the regular annual 2018 appropriations bill; the Appropriation reflects the Consolidated Appropriations Act, 2018 (P.L. 115-141).

<sup>8</sup> The levels for the House and Senate allowance reflect Committee action on the regular annual 2019 appropriations bill; the Appropriation reflects enactment of the Department of Defense and Labor, Health and Human Services, and Education Appropriations Act, 2019 (P.L. 115-245).

<sup>9</sup> The Senate allowance reflects the Chairman's mark; the Appropriation reflects the Further Consolidated Appropriation Act, 2020 (P.L. 116-94).

## STUDENT FINANCIAL ASSISTANCE

### Significant Items in FY 2021 Appropriations Reports

#### **Report on Pell Lifetime Eligibility Used (LEU)**

House: The Committee directs the Department to provide a report within 270 days of enactment of this Act, detailing how many undergraduate students reach the Pell LEU threshold and are no longer able to receive a Pell Grant, including the institutional control and type of the college or university attended, the enrollment status of such students, and their academic progress upon reaching the threshold. In addition, such report must also include a discussion of how students who have not exceeded the LEU limit could benefit from using their remaining Pell eligibility to pursue postbaccalaureate studies, particularly focusing on historically underrepresented populations or groups.

Response: The Department will comply with this directive and take the necessary steps to provide the requested report.

#### **Federal Work-study Resources for First Generation College Students**

House: The Committee directs the Department to provide a report to the Committees on Appropriations, within 180 days of enactment of this Act, on improving the effectiveness of current Federal financial aid policy in supporting first generation students.

Response: The Department will comply with this directive and take the necessary steps to provide the requested report.

NOTES: D = discretionary program; M = mandatory program. Detail may not add to totals due to rounding.

Note: Pursuant to the Budget Control Act of 2011 (P.L. 112-25), for most mandatory programs, with the exception of Pell Grants, Credit Liquidating, and Credit Reestimates the levels shown in the 2020 Appropriation column reflect the 5.9 percent reduction that went into effect on October 1, 2019; the levels shown in the 2021 Appropriation column reflect the 5.7 percent reduction that went into effect on October 1, 2020; and the levels shown in the 2022 Appropriation column reflect the 5.7 percent reduction that went into effect on October 1, 2020.

## STUDENT FINANCIAL ASSISTANCE

### Summary of Request

The Administration's fiscal year 2022 budget request will provide \$135 billion in new Federal grants, loans, and work-study assistance to help students pay for postsecondary education and compete for new jobs in the expanding economy. Overall, funds requested for programs in the Student Financial Assistance account would provide \$43.3 billion in aid<sup>1</sup> and 9.7 million student aid awards.

The fiscal year 2022 funding proposed for the Student Financial Assistance (SFA) account is \$42.9 billion, approximately \$11.8 billion more than the fiscal year 2021 appropriation. This includes a discretionary request of \$27.5 billion: \$25.5 billion for Pell grants, \$1.2 billion for Federal Work-study (FWS), and \$880 million for Supplementary Educational Opportunity Grants (SEOG). \$15.2 billion in mandatory funds are provided in fiscal year 2022 for the Pell Grant program.

The Administration's 2022 budget proposal increases Pell Grant funding in fiscal year 2022, providing for the first step towards doubling the maximum award, while also expanding eligibility. Under the fiscal year 2022 proposal, the maximum Pell Grant in award year 2022-23 will be \$8,370, an increase of \$1,875 over the previous award year. Of that increase, \$1,475 is an increase to the mandatory add-on, and \$400 is an increase to the discretionary maximum award. The proposal also ensures DREAMers, students who are Deferred Action for Childhood Arrivals recipients, are eligible for Pell Grants and campus-based aid if they meet the standard requirements for federal financial aid.

Fiscal year 2022 program-specific funding information and policy proposals, as well as program performance information that applies to all student assistance programs, are discussed in the **Student Aid Overview**.

---

<sup>1</sup> Total aid available is based on new budget authority and any required matching funds, less allowable administrative costs.

---

<sup>1</sup>Table reflects discretionary budget appropriations and mandatory budget authority in support of program costs for each fiscal year.

<sup>2</sup>The Higher Education Act (HEA) provides \$1,170,000 thousand in mandatory funding to be used for discretionary program costs in FY 2022.

---

### PROGRAM DESCRIPTION

The Federal Pell Grant program helps ensure access to postsecondary education for low- and moderate-income undergraduate students by providing grants that help meet postsecondary education costs. The program also promotes lifelong learning by providing resources for low- and moderate-income adults now in the workplace to return to school to upgrade skills.

The Department funds all participating institutions' eligible Pell applicants. Unlike Campus-Based Programs (Supplemental Educational Opportunity Grants and Federal Work-study), a student's eligibility is not dependent on the availability of funds awarded to the institution.

A Pell Grant is the foundation of a student's financial aid package to which other forms of aid are added. The amount of a student's Pell Grant is dependent on the student's "expected family contribution" (EFC), cost of education, whether the student attends school full or part time, and whether the student's program is a full academic year in length or less. Pell Grant disbursements are made to a student at least once every term during the award year or at the beginning and mid-point for programs without terms.

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

---

Budget authority in the Pell Grant program is available for 2 fiscal years; for example, funds become available for obligation on October 1 of the fiscal year in which they are appropriated and remain available through September 30 of the following fiscal year. Funds proposed for fiscal year 2022 would be used for grants in the 2022-23 award year, which runs from July 1, 2022, through June 30, 2023. If Pell Grant costs for a given academic year exceed the corresponding appropriation, the Department uses the next fiscal year's appropriation to cover the balance.

The Fostering Undergraduate Talent by Unlocking Resources for Education Act (FUTURE Act) of 2019 has excepted the Department from restrictions of Section 6103 of the Internal Revenue Code. This exception authorizes the Internal Revenue Service (IRS) to disclose tax return information directly to the Department for the purpose of administering certain Federal aid programs. One of the primary causes of improper payments in the Pell Grant program is failure to verify financial data accurately. This new exception is expected to reduce improper payments by simplifying and improving the accuracy of FAFSA filing by prepopulating certain fields.

Recent and projected funding: The Pell Grant program is the single largest source of grant aid for postsecondary education and helps ensure low- and moderate- income students can afford higher education and successfully attain a postsecondary credential. In 2021, nearly 6.5 million students are expected to receive Pell Grant awards of up to \$6,495. The program operates as an entitlement to eligible students once the maximum grant, award rules, and payment schedule are established. The Higher Education Act (HEA) does not provide for the denial of an award to any student who meets the qualifying conditions, nor does it allow the Secretary to reduce any student's award level.

Mandatory funding: The College Cost Reduction and Access Act authorized mandatory funding to support increases to the Pell maximum award set in each fiscal year's appropriations act. The Health Care and Education Reconciliation Act (HCERA) amended that provision and increased the maximum award by \$690 for award years 2010-11 through 2012-13, and by the Consumer Price Index (CPI) from 2013 to 2017. Beginning with the 2018-19 award year, the add-on award is equal to the award year 2017-18 level and is not increased by the CPI.

Pell Grant program scoring rule: The congressional budget resolution for fiscal year 2006 included a rule under which appropriations bills for the Pell Grant program are scored by the Congressional Budget Office for the estimated budget authority needed to fund the program for that year, or the requested budget authority, whichever is greater. If the appropriation exceeds the program cost as estimated at the beginning of the subsequent fiscal year, any surplus is available to reduce the appropriation needed to support that subsequent year's program costs. Conversely, if the appropriation is lower than the updated estimated program cost, the difference is automatically scored against the subsequent year's appropriation.

Given the nature of the program, it is reasonable to consider Pell Grants an individual entitlement for purposes of budget analysis and enforcement. Congress has chosen to continue treating the portion funded in annual appropriations acts as discretionary, continuing the scoring of budget authority for Pell Grants against the appropriations allocations established annually under section 302 of the Congressional Budget Act. Like previous years, this proposal presents the portion of Pell Grants provided in the annual appropriations act as discretionary funding.

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

---

Need analysis formula: The need analysis formula for the Title IV need-based student aid programs, stipulated in the HEA, determines financial eligibility for Pell Grants and is applied uniformly to all applicants. This formula determines a student's EFC. The fundamental elements in the formula are the student's (and in the case of dependent students, their parents') income and assets (excluding the value of the family's home or farm), the family's household size, and the number of family members (excluding the student's parents) attending postsecondary institutions. The EFC is the sum of (1) a percentage of net income (remaining income after subtracting allowances for taxes and basic living expenses), and (2) a percentage of net assets (assets remaining after subtracting an asset protection allowance). Different assessment rates and allowances are used for dependent students, independent students, and independent students with dependents. For award year 2021-22, the income threshold at which a dependent student receives an automatic zero EFC determination is \$27,000.

FAFSA Simplification Act: In December of 2020, Congress passed the FAFSA Simplification Act, making several changes to the need analysis formula and Pell award determination.

The legislation, which transitions the EFC to the Student Aid Index (SAI), includes the following changes:

- Maximum Pell eligibility will be determined by students' family income in relation to the Federal Poverty Level (FPL) for their family size. Unmarried independents with dependents and unmarried parents of dependents with Adjusted Gross Income (AGI) under 225% of FPL will be eligible for maximum awards as well as all other students with AGI under 175% of FPL.
- The SAI calculation includes the following changes to the current EFC formula.
  - Several financial questions will be removed, such as items from the untaxed income worksheet.
  - More applicants will be eligible for the simplified formula, which does not require asset information.
  - Income protection allowances will be increased for all applicants.
  - The State tax allowance will be removed.
  - The consideration for multiple family members in school will be removed.
- Applicants who are not eligible under the maximum award eligibility formula or the SAI formula may still be eligible for a minimum award if their AGI is below the following FPLs:
  - 400% for unmarried independents with dependents,
  - 350% for married independents with dependents,
  - 325% for unmarried parents of dependents, and
  - 275% for all others.
- Awards for less than full-time enrollment are adjusted proportionally and may fall below the minimum award.

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

---

Institutional participation: Approximately 4,500 postsecondary institutions currently participate in the Pell Grant program. Institutions that lose their eligibility to participate in the loan programs due to high default rates are also precluded from participation in the Pell Grant program.

Student participation: Students may use their grants at any participating postsecondary institution. Pell Grants are disbursed to the student through the institution. The Pell Grant program is the largest source of grant aid to students under the HEA, with approximately 39 percent of all undergraduates receiving a Pell Grant.

Recipients must be undergraduates enrolled with the purpose of obtaining a degree or certificate at an eligible institution and, with an exception for certain teacher certificate programs, cannot have previously received a bachelor's degree.

Students must also have a high school diploma (or its equivalent) or have been homeschooled. Students who first enrolled in an eligible program prior to July 1, 2012, who did not have a high school diploma and were not homeschooled, may receive a Pell Grant by meeting one of the ability-to-benefit (ATB) alternatives. These alternatives include: (1) passing an independently administered, Department-approved ability-to-benefit test; (2) completing at least 6 credit hours or 225 clock hours that are applicable toward a degree or certificate offered by the institution; or (3) completing a State process approved by the Secretary of Education.

Students who did not have a high school diploma, were not homeschooled, and first enrolled in an eligible program on or after July 1, 2012, can only become eligible through one of the ATB alternatives described above if they are enrolled in an eligible career pathway program as defined in section 484(d)(2) of the HEA.

Less than full-time students are eligible for pro rata awards based on their enrollment status. As of July 1, 2012, students are eligible for Pell Grants for a maximum of 12 semesters (or an equivalent) of full-time enrollment.

A student in default on a loan made under any Title IV HEA loan program, or who owes an overpayment on any other previously received Federal student aid, may not receive additional funds under the program unless the student repays the debt in full or makes satisfactory repayment arrangements with the holder of the debt.

Annual award amount: The annual award amount may vary from the statutory minimum payment up to the maximum authorized by statute for the academic year. The Higher Education Opportunity Act of 2008 enacted a minimum Pell Grant award of 10 percent of the maximum award. That is, students who do not qualify for at least 10 percent of the maximum grant do not receive a Pell award. Appropriations acts set annual maximum award levels. For award year 2021-22, the 2021 appropriation level supports an award of \$5,435. With the mandatory add-on award established by the HCERA, the maximum award will increase to \$6,495. The minimum Pell award for award year 2021-22 is \$650.

The aggregate Pell Grant award is the lesser of:

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

---

- the maximum award (as set in annual appropriations acts), plus the additional amount provided by mandatory funds, minus the EFC; or
- the student's cost of attendance, minus the EFC.

Additionally, students who complete more than one academic year within an award year are eligible for larger awards under the "year-round Pell" provision, which was enacted in the fiscal year 2017 Consolidated Appropriations Act. Awards under this provision are capped at 150 percent of the student's regular award.

Cost of attendance: For purposes of determining the Pell Grant award, the postsecondary institution establishes the cost of attendance using the following cost items:

- tuition and fees;
- an allowance for books, supplies, transportation, dependent care, and miscellaneous expenses, including a reasonable allowance for the documented rental or purchase of a personal computer; and
- living allowances of the actual amount charged by the institution for room and board for students living at school; an amount determined by the institution for students without dependents living at home with parents; or, for all other students, an amount based on the expenses reasonably incurred for room and board.

The cost of attendance for less-than-half-time students includes tuition and fees; an allowance for books, supplies, and transportation; and dependent care.

Financial aid administrator discretion: The HEA stipulates financial aid administrators may, on the basis of adequate documentation and on a case-by-case basis, adjust a student's Pell Grant award by changing the cost of attendance or the value of data elements used to calculate the EFC to reflect "special circumstances," such as the following:

- tuition expenses at an elementary or secondary school;
- medical or dental expenses not covered by insurance;
- unusually high childcare costs;
- recent unemployment of an independent student or a family member;
- changes in a student's housing status resulting in homelessness;
- the number of parents enrolled at least half-time in a degree or certificate or other program leading to a recognized educational credential at an institution participating in any of the Title IV programs; or
- other changes in a family's income, assets, or a student's status.

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

---

Institutional payments: The HEA provides for payment to institutions of \$5 per Pell Grant recipient to reimburse institutions for a share of the cost of administering the Pell Grant program. Funds for these payments are paid from the Pell Grant appropriation. In award year 2021-22, these payments will total \$32 million.

Because of the structure of the Pell Grant program, annual funding levels may not equal annual expenditures.

Discretionary and mandatory funding levels for the past 5 fiscal years were:

| Fiscal Year | (dollars in thousands)    |
|-------------|---------------------------|
| 2017 .....  | \$29,475,752 <sup>1</sup> |
| 2018 .....  | 29,806,691 <sup>2</sup>   |
| 2019 .....  | 29,233,392 <sup>3</sup>   |
| 2020 .....  | 29,618,352 <sup>4</sup>   |
| 2021 .....  | 29,618,352 <sup>5</sup>   |

---

<sup>1</sup> Includes \$5,680 million in mandatory funds to increase maximum award by \$1,060 and \$1,320,000 thousand in additional mandatory funds provided in legislation to reduce discretionary need.

<sup>2</sup> Includes \$5,997 million in mandatory funds to increase maximum award by \$1,060 and \$1,334,000 thousand in additional mandatory funds provided in legislation to reduce discretionary need.

<sup>3</sup> Includes \$5,388 million in mandatory funds to increase maximum award by \$1,060 and \$1,370,000 thousand in additional mandatory funds provided in legislation to reduce discretionary need.

<sup>4</sup> Includes \$5,571 million in mandatory funds to increase maximum award by \$1,060 and \$1,405,000 thousand in additional mandatory funds provided in legislation to reduce discretionary need.

<sup>5</sup> Includes \$5,412 million in mandatory funds to increase maximum award by \$1,060 and \$1,142,000 thousand in additional mandatory funds provided in legislation to reduce discretionary need.

---

### FY 2022 BUDGET REQUEST

The Administration's budget request for fiscal year 2022 includes \$25.5 billion in discretionary funding for the Pell Grant program, \$3.0 billion more than the 2021 appropriation. This discretionary request, plus \$15.2 billion in mandatory funding, establishes the total fiscal year 2022 Pell funding level at \$40.7 billion.

The request would, when combined with the Administration's American Families Plan proposals, increase the maximum Pell Grant by \$1,875 in fiscal year 2022 as a down payment on the President's commitment to doubling the grant. The fiscal year 2022 request proposes a \$400 increase to the discretionary award. As part of the American Families Plan, the Administration also proposes an increase of \$1,475 to the mandatory add-on award. These increases would result in a total maximum award of \$8,370 in award year 2022-23.

Over the last 50 years, the maximum Pell Grant went from covering nearly 80 percent of the cost of a four-year college degree to less than 30 percent — leading millions of low-income students to take out debt to finance their education. One in three community college students

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

---

receive Pell Grants to pay for their education. Among students of color, nearly 60 percent of Black, half of American Indian or Alaska Native, almost half of Latino, and over one-third of Native Hawaiian or Pacific Islander students rely on Pell Grants to pay for college.

Through the American Families Plan, the fiscal year 2022 Budget would also expand Pell Grant eligibility to students who are Deferred Action for Childhood Arrivals recipients, commonly known as DREAMers. This change could potentially benefit more than 100,000 students in the 2022-23 award year.

The request for this program is best understood in the context of the Administration's proposals for student aid programs as a whole. Accordingly, program-specific funding information and policy proposals also are discussed in the **Student Aid Overview**.

### PELL GRANT PROGRAM HISTORICAL DATA

#### Applicant and Recipient Growth

The graphs on the following pages show the latest applicant, recipient, and aid available trends for the Pell Grant program. A valid applicant is an undergraduate student who submits a Free Application for Federal Student Aid (FAFSA) with sufficient data to calculate an EFC and determine Pell Grant eligibility. Applicants are estimated at 15.5 million for award year 2022-23, an increase of nearly 700,000 compared to award year 2021-22. Many factors affect applicant growth, including demographic trends and changes in economic conditions, such as labor market demands. Most recently, the COVID-19 pandemic has also been a factor as many students choose not to pursue postsecondary education. A projected recovery in post-pandemic enrollment levels is reflected in AY 2022-23.

Pell Grant recipients are estimated at 7.3 million in award year 2022-23, an increase of 856,000 over award year 2021-22, of which an estimated 455,000 would be attributable to proposed policies. Factors affecting recipient growth include family incomes, need analysis, college costs, the level of the maximum Pell Grant award, and changes in the volume of applicants.

The following tables show program information consistent with actual or requested funding levels.

Federal Pell Grants Applicant Trends<sup>1</sup>

| Award Year | Valid Applicants <sup>2</sup> | Applicant Growth: Number | Applicant Growth: Percent Change |
|------------|-------------------------------|--------------------------|----------------------------------|
| 2006-07    | 11,811,911                    | 200,523                  | 1.73%                            |
| 2007-08    | 12,299,232                    | 487,321                  | 4.13%                            |

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

NOTE: Applicants reflect those applying for all Federal student financial assistance, including those receiving only non-need-based student loans.

Award years 2020-21 through 2022-23 are estimates.

#### Number of Recipients:

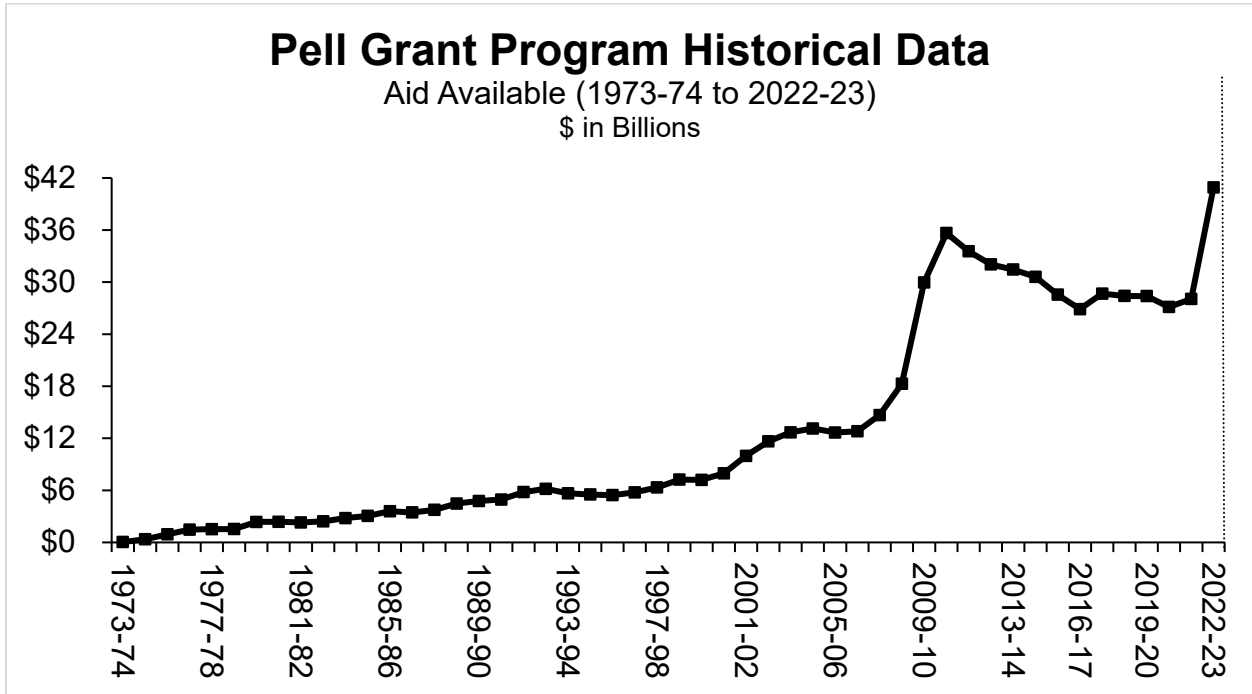

Under current estimates, the funds requested for fiscal year 2022 and proposed through the American Families Plan would support Pell Grant awards to 7.3 million recipients.

#### Aid Available:

Under current estimates, the Administration's fiscal year 2022 proposal would provide \$40.2 billion in Pell Grants to students.

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

NOTE: Award years 2020-21 through 2022-23 are estimates.

#### Maximum Award:

The Administration proposes to increase the base maximum award to \$5,835 for award year 2022-23 through discretionary and mandatory funding. The cost of providing the mandatory add-on that increases the maximum award is funded by permanent mandatory indefinite funding as provided through HCERA. The American Families Plan would amend the HCERA to increase the award to \$8,370 in award year 2022-23.

#### Pell Maximum Award, Aid Available, and Recipients

| Award Year | Maximum Award | Aid Available (dollars in millions) | Recipients |
|------------|---------------|-------------------------------------|------------|
| 2017-18    | \$5,920       | \$28,671                            | 7,111,191  |
| 2018-19    | 6,095         | 28,407                              | 6,863,310  |

### Distribution of Pell Grants

#### Distribution of Pell Grants by Student Status and Income Level:

The tables below illustrate the distribution of Pell Grant funds to dependent and independent students at various income levels. In 2019-2020, approximately 66 percent of all Pell Grant recipients had incomes less than or equal to \$30,000.

## STUDENT FINANCIAL ASSISTANCE

### Federal Pell Grants

#### Distribution of Pell Grants to Dependent Undergraduates in 2019-20

| Income Level           | Recipients       | Available Aid         | Average Award |
|------------------------|------------------|-----------------------|---------------|
| 0 - \$6,000            | 447,796          | \$2,293,519,519       | \$5,122       |
| 6,001 - 9,000          | 93,126           | 478,363,903           | 5,137         |
| 9,001 - 20,000         | 696,161          | 3,644,984,575         | 5,236         |
| 20,001 - 30,000        | 655,897          | 3,398,917,644         | 5,182         |
| 30,001+                | 1,622,020        | 5,835,228,441         | 3,598         |
| <b>Total Dependent</b> | <b>3,515,000</b> | <b>15,651,014,082</b> | <b>4,453</b>  |

Independent students make up nearly half of the students receiving assistance under the Pell Grant program. These recipients tend to be in the lowest income groups, as shown below.

#### Distribution of Pell Grants to Independent Undergraduates in 2019-20

| Income Level              | Recipients       | Available Aid         | Average Award |
|---------------------------|------------------|-----------------------|---------------|
| 0 - \$1,000               | 566,293          | \$2,439,752,289       | \$4,308       |
| 1,001 - 3,000             | 133,032          | 593,595,059           | 4,462         |
| 3,001 - 6,000             | 203,301          | 906,748,739           | 4,460         |
| 6,001 - 9,000             | 220,771          | 981,780,937           | 4,447         |
| 9,001 - 15,000            | 520,323          | 2,204,448,310         | 4,237         |
| 15,001 - 20,000           | 402,344          | 1,434,896,975         | 3,566         |
| 20,001 - 30,000           | 505,858          | 1,744,584,064         | 3,449         |

| <b>All Undergraduates</b> | <b>6,746,000</b> | <b>28,382,270,000</b> | <b>4,207</b>  |

#### Distribution of Pell Grants by Type of Institution

The table below shows the distribution of Pell Grants to students attending different types of institutions. In 2019-2020, approximately 43 percent of the total aid available for Pell Grants went to students attending Public 4-Year schools, and approximately 27 percent went to students attending Public 2-Year schools.

Over the lifetime of the Pell Grant program, the share of Pell Grant aid to proprietary institutions has changed significantly. For example, in the 2009-10 award year, approximately 25 percent of total Pell Grant aid went to students at proprietary institutions; in the 2019-20 award year, that figure was 14 percent.

### PROGRAM OUTPUT MEASURES

(dollars in thousands)

| <u>Output Measures</u>                        | <u>2020</u>  | <u>2021</u>  | <u>2022<sup>1</sup></u> |
|-----------------------------------------------|--------------|--------------|-------------------------|
| Recipients                                    | 6,303,000    | 6,456,000    | 7,312,000               |
| Aid available to students <sup>2</sup>        | \$27,133,485 | \$28,062,720 | \$40,910,440            |
| Maximum grant (in whole dollars)              | \$6,345      | \$6,495      | \$8,370                 |
| Minimum grant (in whole dollars) <sup>3</sup> | \$634        | \$649        | \$837                   |
| Average grant (in whole dollars)              | \$4,305      | \$4,347      | \$5,595                 |

<sup>1</sup> 2022 column reflects discretionary budget request and American Families Plan proposals.

<sup>2</sup> Overall aid available reflects the estimated cost of the program minus administrative costs of \$5 per recipient.

<sup>3</sup> The minimum grant reflects the statutory minimum, but the actual minimum grant published by the Department may be slightly higher due to the calculation methodology used in the payment schedule.

### PROGRAM PERFORMANCE INFORMATION

This section presents selected program performance information, including, for example, GPRA goals, objectives, indicators and performance data and targets; and an assessment of the progress made toward achieving program results. Achievement of program results is based on the cumulative effect of the resources provided in previous years and those requested in fiscal year 2022 and future years, as well as the resources and efforts invested by those served by this program. The Department will be reviewing GPRA program performance goals, objectives, and measures for Pell Grants for possible revision in future years to ensure alignment with Administration policy.

Because the Federal Pell Grant program account relies on the same performance measures, strategies, and program improvement activities that apply to all the student financial assistance grant programs, Pell program performance is discussed in the **Student Aid Overview** and is not repeated here.

---

**PROGRAM DESCRIPTION**

The Federal Supplemental Educational Opportunity Grant (SEOG) program provides need-based grant aid to eligible undergraduate students to help reduce financial barriers to postsecondary education. Federal funding allocations are awarded to qualifying postsecondary institutions under a statutory formula. Unlike the Pell Grant program, the SEOG program is operated by institutional financial aid administrators who have substantial flexibility in determining student awards.

The funding provided for the SEOG program is available for 2 years. Funds become available for obligation on October 1 of the fiscal year in which they are appropriated and remain available through September 30 of the following fiscal year. Funds available for the current fiscal year 2022 will be used for the 2022-23 award year, which runs from July 1, 2022 through June 30, 2023.

Institutional participation: Roughly 3,600 postsecondary institutions receive funds under the SEOG program, compared to more than 4,500 institutions that administer Pell Grants. Under the statutory formula, funds are distributed to institutions first on the basis of the institution's fiscal year 1999 SEOG program base guarantee and pro rata share (a hold harmless basis), and then on the basis of the aggregate need of the eligible undergraduate students in attendance.

Institutional matching: Participating institutions are required by statute to contribute at least 25 percent of the SEOG award amounts. The institutional share can be met using the institution's own resources, State grants, or funds from foundations or other charitable organizations.

Student participation: Students qualify for grants of up to \$4,000 by demonstrating financial need under the need analysis formula used for Federal student aid. Institutions must give priority to Pell Grant recipients with demonstrated "exceptional need" (students with the lowest Expected Family Contributions [EFCs] at the institution).

Remaining awards are then available for students with exceptional need who are not Pell Grant recipients. In addition, if any part of the institution's SEOG allocation determination to students is based, in part, on the financial need demonstrated by students who are independent or

## STUDENT FINANCIAL ASSISTANCE

### Federal supplemental educational opportunity grants

---

attending the institution less-than-full-time, then a reasonable portion of the allocation must be made available to such students.

Recipients must be undergraduates, cannot have received a bachelor's degree, and must be enrolled with the purpose of obtaining a degree or certificate at an eligible institution. Approximately 9 percent of undergraduates receive SEOG awards.

Students must also have a high school diploma (or its equivalent) or have been homeschooled. Students who first enrolled in an eligible program prior to July 1, 2012, who did not have a high school diploma and were not homeschooled, may receive a Pell Grant by meeting one of the ability-to-benefit (ATB) alternatives. These alternatives include: (1) passing an independently administered, Department-approved ability-to-benefit test; (2) completing at least 6 credit hours or 225 clock hours that are applicable toward a degree or certificate offered by the institution; or (3) completing a State process approved by the Secretary of Education.

Students who did not have a high school diploma, were not homeschooled, and first enrolled in an eligible program on or after July 1, 2012, can only become eligible through one of the ATB alternatives described above if they are enrolled in an eligible career pathway program as defined in section 484(d)(2) of the HEA.

A student in default on a loan made under any Title IV HEA loan program, or who owes an overpayment on any other previously received Federal student aid, may not receive additional funds under the program unless the student repays the debt in full or makes satisfactory repayment arrangements with the holder of the debt.

### Institutional administrative provisions

- Administrative costs. Each institution's administrative cost allowance is based upon its expenditures for both campus-based programs – SEOG and Federal Work-study (FWS). During an award year, an institution may use up to 5 percent of the first \$2.75 million of its program expenditures to meet administrative costs associated with these programs; plus up to 4 percent of expenditures greater than \$2.75 million but less than \$5.5 million; and up to 3 percent of expenditures greater than \$5.5 million.
- Transferability of funds. An institution may transfer up to 25 percent of FWS funds to SEOG. Up to 10 percent of an institution's SEOG funds may, at the discretion of the institution, be used for expenditures for the preceding fiscal year, and up to 10 percent of an institution's SEOG funds may remain available for the next fiscal year.
- Reallocation of funds. Excess funds available because of underutilization by institutions are reallocated to other institutions in accordance with program regulations. An institution returning more than 10 percent of its allocation will have its subsequent allocation reduced by the same amount. Under The Hurricanes Harvey, Irma, and Maria Education Relief Act of 2017, the Secretary was provided authority to waive reallocation rules; excess SEOG funds were reallocated to institutions that were directly affected by the 2017 hurricanes or were located in disaster areas.

## STUDENT FINANCIAL ASSISTANCE

### Federal supplemental educational opportunity grants

---

Funding levels for the past 5 fiscal years were:

| Fiscal Year | (dollars in thousands) |
|-------------|------------------------|
| 2017 .....  | \$733,130              |
| 2018 .....  | 840,000                |
| 2019 .....  | 840,000                |
| 2020 .....  | 865,000                |
| 2021 .....  | 880,000                |

### FY 2022 BUDGET REQUEST

The Administration’s fiscal year 2022 budget request proposes to maintain the SEOG program funding at the same level as the 2021 appropriation of \$880 million. In addition, the Budget proposes students who are Deferred Action for Childhood Arrivals recipients are eligible for SEOG if they meet the standard requirements.

The request for this program is best understood in the context of the Administration’s proposals for the student aid programs as a whole. Accordingly, student assistance policy proposals are discussed in greater detail in the **Student Aid Overview**.

### Distribution of SEOG Funds by Student Status and Income Level

The following tables, structured to compare across the programs in the Student Financial Assistance account, show the distribution of SEOG funds to dependent and independent students at various income levels in 2018-19. These tables include the most recent distributional data available, which may not match directly with the data provided in the Program Output Measures section.

In 2018-19, 69 percent of dependent SEOG recipients had family income levels under \$30,000, and 71 percent of independent SEOG recipients had family income levels under \$20,000.

#### Distribution of SEOG to Dependent Undergraduates in 2018-19

| Family Income Level    | Recipients     | Available Aid      | Average Award |
|------------------------|----------------|--------------------|---------------|
| 0 - \$5,999            | 129,053        | \$101,725,036      | \$788         |
| 6,000 - 11,999         | 76,932         | 63,417,369         | 824           |

#### Distribution of SEOG Funds by Type of Institution

The distribution of SEOG assistance to institutions is controlled by a statutory formula. The distribution of SEOG across different types of institutions has remained relatively constant over time due to this formula and the base guarantee. The distribution of aid by institution type has remained relatively constant over the last 5 years.

The following table shows the distribution of SEOG to students attending different types of institutions in 2018-19. Most funding goes to students attending public institutions.

#### Distribution of SEOG by Type of Institution in 2018-19

| Institution Type | Recipients       | Available Aid        | Average Award | Percent of SEOG Aid |
|------------------|------------------|----------------------|---------------|---------------------|
| Public 4-Year    | 554,636          | \$400,446,396        | \$732         | 35.3%               |
| Public 2-Year    | 438,730          | 215,777,347          | 435           | 19.0                |

---

#### PROGRAM PERFORMANCE INFORMATION

This section presents selected program performance information, including, for example, GPRA goals, objectives, measures, and performance targets and data; and an assessment of the progress made toward achieving program results. Achievement of results is based on the cumulative effect of the resources provided in previous years and those requested in fiscal year 2022 and the future as well as the resources and efforts invested by institutions. The Department will be reviewing GPRA program performance goals, objectives, and measures for SEOG for possible revision in future years to ensure alignment with Administration policy.

Because the programs in the Student Financial Assistance account rely on the same performance data, performance measures, strategies, and program improvement activities that apply to all the programs, that information is discussed in the **Student Aid Overview** and is not repeated here.

### PROGRAM DESCRIPTION

The Federal Work-study (FWS) program ensures access to postsecondary education and lifelong learning by offsetting some postsecondary education costs for undergraduate and graduate students with financial need with income from part-time employment. Federal funds are distributed to qualifying institutions whose financial aid administrators select eligible students. Students may be employed by the institution; by a Federal, State, or local public agency or private nonprofit organization; or by a private for-profit organization.

The funding for the FWS program is available for 2 fiscal years. Funds become available for obligation on October 1 of the fiscal year in which they are appropriated and remain available through September 30 of the following fiscal year. Funds requested for fiscal year 2022 would be used for the 2022-23 award year, which runs from July 1, 2022 through June 30, 2023.

Institutional participation: Approximately 3,200 institutions participate in the FWS program. Funds are distributed to institutions based on a statutory formula. The formula starts with the institution's fiscal year 1999 FWS program base guarantee and pro rata share and bases the allocation on the aggregate need of the eligible undergraduate students currently in attendance. The FWS program is administered by institutional financial aid administrators who have substantial flexibility in determining student awards.

If an institution is a proprietary school employing its own students, this employment must be: (1) on campus, except that at least 7 percent of the total funds granted must be used to compensate students employed in community service activities; (2) related, to the maximum extent practicable, to the student's educational objectives; and (3) related to providing student services. The employment tasks of FWS program students, however, must not involve the solicitation of potential students to enroll in the school.

Institutional matching: In general, participating institutions or other employers must contribute at least 25 percent of a student's part-time earnings (or 50 percent in the case of private, for-profit employers). The Federal share may be up to 90 percent for students employed at a private nonprofit organization or a Federal, State, or local public agency that would otherwise be unable to afford the costs of employing those students. The 90 percent Federal share is limited to no more than 10 percent of the students paid under the FWS program; in addition, the school may

## STUDENT FINANCIAL ASSISTANCE

### Federal Work-study

---

not own, operate, or control the organization, and the school must select the organization or agency on a case-by-case basis.

Student participation: Students qualify for FWS program awards by demonstrating financial need under the statutory need analysis formula for the Federal student financial assistance programs. Hourly earnings must not be less than the current Federal minimum wage. Approximately 5 percent of undergraduates participate in the FWS program.

In addition, if the institution's allocation is based in part on the financial need demonstrated by independent students or students attending the institution less-than-full-time, a reasonable portion of the allocation must be made available to such students.

Students must also have a high school diploma (or its equivalent) or have been homeschooled. Students who first enrolled in an eligible program prior to July 1, 2012, who did not have a high school diploma and were not homeschooled, may receive a Pell Grant by meeting one of the ability-to-benefit (ATB) alternatives. These alternatives include: (1) passing an independently administered, Department-approved ability-to-benefit test; (2) completing at least 6 credit hours or 225 clock hours that are applicable toward a degree or certificate offered by the institution; or (3) completing a State process approved by the Secretary of Education.

Students who did not have a high school diploma, were not homeschooled, and first enrolled in an eligible program on or after July 1, 2012, can only become eligible through one of the ATB alternatives described above if they are enrolled in an eligible career pathway program as defined in section 484(d)(2) of the HEA.

A student in default on a loan made under any Title IV HEA loan program, or who owes an overpayment on any other previously received Federal student aid, may not receive additional funds under the program unless the student repays the debt in full or makes satisfactory repayment arrangements with the holder of the debt.

Institutional administrative provisions: Institutions may use their allocations to support a variety of work-study activities, including:

- Community service. An institution must use at least 7 percent of its Federal allocation for payments to students employed in community service activities. Other Work-study jobs that qualify as community service activities include community-accessible childcare and assistance for disabled students. The Higher Education Opportunity Act (HEOA) expanded the definition of community service to include emergency preparedness and response. The eligible institution, at its discretion, may count any contribution made by the employer toward the non-Federal share of the student's compensation.
- Tutoring and literacy activities. An institution must include at least one tutoring or family literacy project as part of its community service activities. Under this requirement, institutions prioritize employing work-study recipients as reading tutors in schools participating in programs, funded under the Elementary and Secondary Education Act of 1965, as amended, that train educators on science-based reading instruction.

## STUDENT FINANCIAL ASSISTANCE

### Federal Work-study

---

- Private sector. An institution may use up to 25 percent of its work-study allocation to match earnings of students working for private for-profit organizations. Students must, to the maximum extent practicable, be placed in jobs that are academically relevant to their course of study. FWS program funds may not be used to pay any employee who would otherwise be employed by the private organization.
- Job Location and Development. An institution may use up to 10 percent of its FWS program allocation, or a maximum of \$50,000, whichever is less, for administrative expenses associated with the establishment or expansion of a Job Location and Development (JLD) program. This program locates and develops off-campus full- or part-time jobs or community service jobs for currently enrolled students. The Federal share of the JLD program costs cannot exceed 80 percent.
- Work Colleges. A “Work College” is an institution that requires all resident students to participate in a work-learning program as an integral part of the institution’s educational philosophy. These colleges are authorized to receive special awards in addition to their regular FWS program allocations to support such programs. Work Colleges must match Federal allocations on a dollar-for-dollar basis. In addition, Work Colleges may transfer all their regular FWS program allotments for use under the Work Colleges program.
- Administrative costs. Each institution’s administrative cost allowance is based upon its expenditures for FWS and Supplemental Educational Opportunity Grants (SEOG). Under a statutory formula, an institution may use up to 5 percent of the first \$2.75 million of its program expenditures during an award year to meet administrative costs associated with these programs; plus up to 4 percent of expenditures greater than \$2.75 million but less than \$5.5 million; and up to 3 percent of expenditures greater than \$5.5 million.
- Transferability of funds. An institution may transfer up to 25 percent of its allocation from FWS to SEOG. Up to 10 percent of an institution’s FWS program funds may, at the discretion of the institution, be used for expenditures for the preceding fiscal year. In addition, up to 10 percent of an institution’s FWS program funds may, at the discretion of the institution, remain available for the next fiscal year.
- Reallocation. If funds become available because of under-utilization by institutions, excess funds are reallocated only to other institutions that used at least 5 percent of their FWS program allocations to compensate students employed in tutoring in reading and family literacy activities in the preceding year. Reallocated funds must be used to support student employment in community service activities. Under the Hurricane Education Relief Act of 2017, excess FWS were first allocated to institutions located in FEMA-declared disaster areas, and then to institutions that enrolled a significant number of students that live in the FEMA-declared disaster areas.
- Disasters. The HEOA added a provision under which an eligible institution located in an area affected by a major disaster, as determined by the Secretary, may make FWS payments to disaster-affected students, for the period of time (not to exceed 1 academic year) in which the students were prevented from fulfilling their FWS obligations due to the disaster. Payment may be made in an amount equal to or less than the amount a student

## STUDENT FINANCIAL ASSISTANCE

### Federal Work-study

---

would have been paid had the student been able to complete the work obligation necessary to receive work-study funds. The Hurricane Education Relief Act of 2017 provided the Secretary authority to waive reallocation rules and to extend the deadline by which funds were reallocated in the campus-based programs due to Hurricanes Harvey, Irma, and Maria.

Funding levels for the past 5 fiscal years were:

| Fiscal Year | (dollars in thousands) |
|-------------|------------------------|
| 2017 .....  | \$989,728              |
| 2018 .....  | 1,130,000              |
| 2019 .....  | 1,130,000              |
| 2020 .....  | 1,180,000              |
| 2021 .....  | 1,190,000              |

### FY 2022 BUDGET REQUEST

For fiscal year 2022, the Administration requests \$1.19 billion for the FWS program, level with the fiscal year 2021 appropriation. In addition, the Budget proposes students who are Deferred Action for Childhood Arrivals recipients are eligible for FWS if they meet the standard requirements.

The fiscal year 2022 request for this program is best understood in the context of the Administration's proposals for the student aid programs as a whole. Accordingly, policy proposals are discussed in greater detail in the Student Aid Overview.

#### Distribution of Work-Study Funds by Type of Institution:

The work-study program is a campus-based program, and the distribution of funds to institutions is controlled by a statutory formula. As a result, the distribution of work-study assistance across

## STUDENT FINANCIAL ASSISTANCE

### Federal Work-study

---

different types of institutions has remained relatively constant over time. The table below shows the distribution of work-study to students attending different types of institutions in 2018-2019.

**Distribution of Work-Study by Type of Institution in 2018-19**

| <b>Institution Type</b> | <b>Recipients</b> | <b>Available Aid</b> | <b>Average Award</b> | <b>Percent of FWS Aid</b> |
|-------------------------|-------------------|----------------------|----------------------|---------------------------|
| Public 4-Year           | 208,254           | \$424,972,684        | \$1,938              | 36.9%                     |
| Public 2-Year           | 74,237            | \$165,296,100        | \$2,205              | 14.4                      |
| Private                 | 316,142           | 526,818,644          | 1,666                | 45.7                      |
| Proprietary             | 13,463            | 34,486,896           | 2,562                | 3.0                       |
| <b>Total</b>            | <b>612,096</b>    | <b>1,151,574,324</b> | <b>1,881</b>         | <b>100.0</b>              |

### **Distribution of Work-Study Funds to Students in Community Service Activities:**

The work-study program has a long tradition of providing opportunities for students to perform community service activities. At least 7 percent of an institution's work-study allotment must be used to pay students employed in community service jobs, unless the institution obtains a waiver from the Department. Nationally, 16 percent of work-study funds are used for jobs in community service.

Participating colleges and universities must ensure that at least one eligible project provides services to both children and their parents. Allowable activities, such as family literacy programs, emphasize preparing parents to read to their own children.

The Department has waived the usual 25 percent institutional contribution, allowing work-study funds to pay up to 100 percent of the wages to support students who tutor children in mathematics, or reading, or who serve in family literacy programs.

The table below shows the distribution of work-study assistance to students employed in community service activities in 2018-19.

**Distribution of Work-Study to Students in Community Service Activities by Type of Institution in 2018-19**

| <b>Institution Type</b> | <b>Recipients</b> | <b>Available Aid</b> | <b>Average Award</b> | <b>Percent of WS Aid</b> |
|-------------------------|-------------------|----------------------|----------------------|--------------------------|
| Public 4-Year           | 34,133            | \$69,128,256         | \$2,025              | 37.9%                    |
| Public 2-Year           | 13,441            | 29,411,794           | 2,188                | 16.1                     |

**Iraq and Afghanistan Service Grants**

(Higher Education Act of 1965, Title IV, Part A, Subpart 10)

(dollars in thousands)

FY 2022 Authorization: 0

Mandatory Budget Authority:

| <u>2021</u><br><u>Appropriation</u> | <u>2022</u><br><u>Request</u> | <u>Change from</u><br><u>2021 to 2022</u> |
|-------------------------------------|-------------------------------|-------------------------------------------|
| \$551                               | \$783                         | +\$232                                    |

---

**PROGRAM DESCRIPTION**

The Iraq and Afghanistan Service Grants (IASG) program provides non-need-based grants to students whose parent or guardian was a member of the Armed Forces who died in Iraq or Afghanistan as a result of performing military service after September 11, 2001. Students are not required to be eligible for a Pell Grant in order to receive a Service Grant; however, the student must be 24 years old or younger; or, if older than 24, must have been enrolled in an institution of higher education at the time of the parent or guardian’s death.

Service Grants are equal to the maximum Pell Grant for a given award year, which was \$6,345 in the 2020-21 award year. However, due to sequestration, IASG award amounts have been reduced in prior years and are subject to sequestration in the current year. Award amounts for any IASG first disbursed on or after Oct. 1, 2020, and before Oct. 1, 2021, will be reduced by 5.9 percent, or \$374 for a student receiving the maximum award. Service Grants are excluded from the total “estimated financial assistance” used to determine a student’s eligibility for other Title IV Federal financial aid. In combination with other student aid, however, the Service Grant may not result in a student’s awards exceeding their cost of attendance. As with Pell Grant eligibility, students are limited to 12 semesters of full-time enrollment.

Funding levels for the past 5 fiscal years were:

| Fiscal Year | (dollars in thousands) |
|-------------|------------------------|
| 2017 .....  | \$359                  |
| 2018 .....  | 349                    |
| 2019 .....  | 517                    |
| 2020 .....  | 513                    |
| 2021 .....  | 551                    |

**FY 2022 BUDGET**

The Administration’s budget request includes mandatory funding the Iraq and Afghanistan Service Grant program in the amount of \$783,000, an increase of \$232,000. The maximum award is tied to the Pell Grant maximum, therefore eligible students would qualify for up to

## STUDENT FINANCIAL ASSISTANCE

### Iraq and Afghanistan service grants

---

\$7,893 in the 2022-23 award year. That amount is the proposed \$8,370 Pell Grant maximum less the reduction due to sequestration.

#### Distribution of Iraq and Afghanistan Service Grant Funds by Type of Institution:

The data provided in the table below shows the distribution of Iraq and Afghanistan service grants to students attending different types of institutions in award year 2018-19.

**Distribution of IASG by Type of Institution in 2018-19**

| Institution Type | Recipients | Available Aid  | Average Award | Percent of IASG Aid |

### PROGRAM OUTPUT MEASURES

(dollars in thousands)

| <u>Output Measures</u>                                        | <u>2020</u> | <u>2021</u> | <u>2022</u> |
|---------------------------------------------------------------|-------------|-------------|-------------|
| Recipients                                                    | (1)         | (1)         | (1)         |
| Aid available to students (dollars in thousands) <sup>2</sup> | \$534       | \$608       | \$783       |
| Maximum grant (whole dollars) <sup>3</sup>                    | \$5,983     | \$6,125     | \$7,893     |
| Average grant (whole dollars)                                 | \$5,528     | \$5,664     | \$7,299     |

<sup>1</sup>Recipients estimated to number fewer than 500.

<sup>2</sup>Aid available is the amount of funding available for new IASG awards to students in any single academic year. This amount differs from budget authority because 1 fiscal year spans across 2 academic years. For instance, total aid available in FY 2021 is comprised of portions of both academic year 2020-2021 (ending June 30) and 2021-22 (beginning July 1). Amount of aid available in 2022 reflects Budget policy to move IASG to the Pell Grant program. In 2022, aid available is estimated to be \$806 thousand.

<sup>3</sup>Maximum grant amounts for 2020, 2021, and 2022 reflect impact of sequestration.

---

### PROGRAM PERFORMANCE INFORMATION

This section presents selected program performance information, including, for example, GPRA goals, objectives, measures, and performance targets and data; and an assessment of the progress made toward achieving program results. Achievement of results is based on the cumulative effect of the resources provided in previous years and those requested in 2022 and future years, as well as the resources and efforts invested by those served by this program. The

## STUDENT FINANCIAL ASSISTANCE

### **Iraq and Afghanistan service grants**

---

Department will be reviewing GPRA program performance goals, objectives, and measures for IASG for possible revision in future years to ensure alignment with Administration policy.

Because the programs in the Student Financial Assistance account rely on the same performance data, when available, the Iraq and Afghanistan Service Grants performance measures, strategies, and program improvement activities will be discussed in the **Student Aid Overview** and not repeated here.
