Appropriations Language

For carrying out subparts 1, 3, and 10 of part A, and part C of title IV of the HEA, [~~\$24,615,352,000~~] \$26,415,352,000, which shall remain available through September 30, [2024] 2025.¹

The maximum Pell Grant for which a student shall be eligible during award year [2023-2024] 2024-2025 shall be [~~\$6,335~~] \$6.835.²

GENERAL PROVISIONS

[(RESCISSION)] (CANCELLATION)

SEC. 308. Of the amounts appropriated under Section 401(b)(7)(A)(iv)(XI) of the Higher Education Act of 1965 (20 U.S.C. 1070a(b)(7)(A)(iv)(XI)) for fiscal year [2023, \$75,000,000] 2024, \$62,000,000 are hereby [~~rescinded~~] cancelled.³

NOTE

Each language provision that is followed by a footnote reference is explained in the Analysis of Language Provisions and Changes document which follows the appropriation language.

STUDENT FINANCIAL ASSISTANCE

Analysis of Language Provisions and Changes

Language Provision	Explanation
¹ For carrying out subparts 1, 3, and 10 of part A of title IV of the HEA, [\$24,615,352,000] <u>\$26,415,352,000</u> which shall remain available through September 30, [2024] <u>2025</u> .	This language sets the availability of funds provided under the account through the end of fiscal year 2025.
² The maximum Pell Grant for which a student shall be eligible during award year [2023-2024] <u>2024-2025</u> shall be [\$6,335] <u>\$6,835</u> .	This language sets the maximum Pell Grant award for award year 2024-25. Including the Budget's proposed increase to mandatory funding provided in the Higher Education Act (HEA), the Pell Grant maximum award in award year 2024-25 would be \$8,215.
<p align="center">GENERAL PROVISIONS</p> ³ Of the amounts appropriated under Section 401(b)(7)(A)(iv)(XI) of the Higher Education Act of 1965 (20 U.S.C. 1070a(b)(7)(A)(iv)(XI)) for fiscal year [2023,\$75,000,000] <u>2024</u> , <u>\$62,000,000</u> are hereby cancelled.	The 2024 request includes a cancellation of \$62,000,000 in mandatory funds to offset the increase in mandatory costs resulting from the increase to the maximum discretionary award.

Feasibility of Using Experimental Sites Authority

- House: The Committee directs the Department to share information around the feasibility of using its Experimental Sites authority for a pilot to use Federal Work Study and other financial aid funding to support social work students involved in internships and field experiences.
- Response: The Department has included information regarding this directive in the Student Aid Administration Congressional Justification.

STUDENT FINANCIAL ASSISTANCE

Summary of Request

The Administration's fiscal year 2024 budget request will provide \$126 billion in new Federal grants, loans, and work-study assistance to help students pay for postsecondary education and compete for high-quality jobs in the expanding economy. Overall, funds requested for programs in the Student Financial Assistance account would provide \$40.5 billion in aid¹ and 9.1 million student aid awards.

The fiscal year 2024 funding proposed for the Student Financial Assistance (SFA) account is \$34.6 billion, approximately \$3.9 billion more than the fiscal year 2023 appropriation. This includes a discretionary request of \$26.4 billion: \$24.3 billion for Pell Grants, \$1.2 billion for Federal Work-study (FWS), and \$910 million for Supplementary Educational Opportunity Grants (SEOG). \$8.2 billion in mandatory funds are requested in fiscal year 2024 for the Pell Grant program.

The Administration's fiscal year 2024 budget would set a maximum award of \$8,215 for award year 2024-25, an increase of \$820 over the 2023-2024 award year. This includes a \$500 increase in the maximum award in discretionary funding and a \$320 increase to the mandatory add-on. The Administration continues to prioritize doubling the maximum award by 2029 to ensure college is accessible and affordable and provides additional mandatory funding to do so. The Administration expects Congress to continue providing discretionary increases to the maximum award, as they have done for the past six years. These discretionary increases, combined with the proposed \$2,295 increase over five years to the mandatory award, will meet the President's commitment to double the grant by 2029. The Administration also intends to work with Congress to ensure access to student financial aid for students who are Deferred Action for Childhood Arrivals recipients, commonly known as DREAMers.

Fiscal year 2024 program-specific funding information and policy proposals, as well as program performance information that applies to all student assistance programs, are discussed in the **Student Aid Overview**.

¹ Total aid available is based on new budget authority and any required matching funds, less allowable administrative costs.

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

(Higher Education Act of 1965, Title IV, Part A, Subpart 1)

Pell Grant program costs	29,836,000	38,087,000	+8,251,000

PROGRAM DESCRIPTION

The Federal Pell Grant program helps ensure access to postsecondary education for low- and moderate-income undergraduate students by providing grants that help meet postsecondary education costs. The program also promotes lifelong learning by providing resources for low- and moderate-income adults now in the workplace to return to school to upgrade skills.

The Department funds all participating institutions’ eligible Pell applicants. Unlike Campus-Based Programs (Supplemental Educational Opportunity Grants and Federal Work-study), a student’s eligibility is not dependent on the availability of funds awarded to the institution.

A Pell Grant is the foundation of a student’s financial aid package to which other forms of aid are added. The amount of a student’s Pell Grant is currently dependent on the student’s “expected family contribution” (EFC), cost of education, whether the student attends school full- or part-time, and whether the student’s program is a full academic year in length or less. Pell Grant disbursements are made to a student at least once every term during the award year or at the beginning and mid-point for programs without terms. Beginning with the 2024-25 award year Pell eligibility will be determined using the Student Aid Index formula as well as an applicant’s

¹Table reflects discretionary budget appropriations and mandatory budget authority in support of program costs for each fiscal year.

²The Higher Education Act (HEA) provides \$1,170,000 thousand in mandatory funding to be used for discretionary program costs in FY 2024.

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

family size and Adjusted Gross Income. For more details on these changes, please see the “FAFSA® Simplification Act” discussion below.

Budget authority in the Pell Grant program is available for 2 fiscal years; for example, funds become available for obligation on October 1 of the fiscal year in which they are appropriated and remain available through September 30 of the following fiscal year. Funds proposed for fiscal year 2024 would be used for grants in the 2024-25 award year, which runs from July 1, 2024, through June 30, 2025. If Pell Grant costs for a given academic year exceed the corresponding appropriation, the Department uses the next fiscal year’s appropriation to cover the balance.

The Fostering Undergraduate Talent by Unlocking Resources for Education Act (FUTURE Act) of 2019 excepted the Department from restrictions of Section 6103 of the Internal Revenue Code. This exception authorizes the Internal Revenue Service (IRS) to disclose tax return information directly to the Department for the purpose of administering certain Federal aid programs. One of the primary causes of improper payments in the Pell Grant program is failure to verify financial data accurately. This new exception is expected to reduce improper payments by simplifying and improving the accuracy of FAFSA® filing by prepopulating certain fields.

Recent and projected funding: The Pell Grant program is the single largest source of grant aid for postsecondary education and helps ensure low- and moderate- income students can afford higher education and successfully attain a postsecondary credential. In 2023, over 6.1 million students are expected to receive Pell Grant awards of up to \$7,395. The program operates as an entitlement to eligible students once the maximum grant, award rules, and payment schedule are established. The Higher Education Act (HEA) does not provide for the denial of an award to any student who meets the qualifying conditions, nor does it allow the Secretary to reduce any student’s award level.

Mandatory funding: The College Cost Reduction and Access Act authorized mandatory funding to support increases to the Pell maximum award set in each fiscal year’s appropriations act. The Health Care and Education Reconciliation Act (HCERA) amended that provision and increased the maximum award by \$690 for award years 2010-11 through 2012-13, and by the Consumer Price Index (CPI) from 2013 to 2017. Beginning with the 2018-19 award year, the add-on award is equal to the award year 2017-18 level and is not increased by the CPI.

Pell Grant program scoring rule: The congressional budget resolution for fiscal year 2006 included a rule under which appropriations bills for the Pell Grant program are scored by the Congressional Budget Office for the estimated budget authority needed to fund the program for that year, or the requested budget authority, whichever is greater. If the appropriation exceeds the program cost as estimated at the beginning of the subsequent fiscal year, any surplus is available to reduce the appropriation needed to support that subsequent year’s program costs. Conversely, if the appropriation is lower than the updated estimated program cost, the difference is automatically scored against the subsequent year’s appropriation.

Given the nature of the program, it is reasonable to consider Pell Grants an individual entitlement for purposes of budget analysis and enforcement. Congress has chosen to continue treating the portion funded in annual appropriations acts as discretionary, continuing the scoring

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

of budget authority for Pell Grants against the appropriations allocations established annually under section 302 of the Congressional Budget Act. Like previous years, this proposal presents the portion of Pell Grants provided in the annual appropriations act as discretionary funding.

Need analysis formula: The need analysis formula for the Title IV need-based student aid programs, stipulated in the HEA, determines financial eligibility for Pell Grants and is applied uniformly to all applicants. Currently, this formula determines a student's EFC. The fundamental elements in the formula are the student's (and in the case of dependent students, their parents') income and assets (excluding the value of the family's home or farm), the family's household size, and the number of family members (excluding the student's parents) attending postsecondary institutions. The EFC is the sum of (1) a percentage of net income (remaining income after subtracting allowances for taxes and basic living expenses), and (2) a percentage of net assets (assets remaining after subtracting an asset protection allowance). Different assessment rates and allowances are used for dependent students, independent students, and independent students with dependents. For award year 2023-24, the income threshold at which a dependent student receives an automatic zero EFC determination is \$29,000.

FAFSA® Simplification Act: In December of 2020, Congress passed the FAFSA® Simplification Act, making several changes to the need analysis formula and Pell award determination.

The legislation, which transitions the EFC to the Student Aid Index (SAI), includes the following changes:

- Maximum Pell Grant eligibility will be determined by students' family income in relation to the Federal Poverty Level (FPL) for their family size. Unmarried independents with dependents and unmarried parents of dependents with Adjusted Gross Income (AGI) under 225 percent of FPL will be eligible for maximum awards as well as all other students with AGI under 175 percent of FPL.
- The SAI calculation includes the following changes to the current EFC formula:
 - Several financial questions will be removed, such as items from the untaxed income worksheet,
 - More applicants will be eligible for the simplified formula, which does not require asset information,
 - Income protection allowances will be increased for all applicants,
 - The State tax allowance will be removed, and
 - The consideration for multiple family members in school will be removed.
- Applicants who are not eligible under the maximum award eligibility formula or the SAI formula may still be eligible for a minimum award if their AGI is below the following FPLs:
 - 400 percent for unmarried independents with dependents,
 - 350 percent for married independents with dependents,
 - 325 percent for unmarried parents of dependents, and
 - 275 percent for all others.

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

- Awards for less than full-time enrollment are adjusted proportionally and may fall below the minimum award.

Institutional participation: Approximately 4,700 postsecondary institutions currently participate in the Pell Grant program. Institutions that lose their eligibility to participate in the loan programs due to high default rates are also precluded from participation in the Pell Grant program.

Student participation: Students may use their grants at any participating postsecondary institution. Pell Grants are disbursed to the student through the institution. The Pell Grant program is the largest source of grant aid to students under the HEA, with approximately 39 percent of all undergraduates receiving a Pell Grant.

Recipients must be undergraduates enrolled with the purpose of obtaining a degree or certificate at an eligible institution and, with an exception for certain teacher certificate programs, cannot have previously received a bachelor's degree.

Students must also have a high school diploma (or its equivalent) or have been homeschooled. Students who first enrolled in an eligible program prior to July 1, 2012, who did not have a high school diploma and were not homeschooled, may receive a Pell Grant by meeting one of the ability-to-benefit (ATB) alternatives. These alternatives include: (1) passing an independently administered, Department-approved ability-to-benefit test; (2) completing at least 6 credit hours or 225 clock hours that are applicable toward a degree or certificate offered by the institution; or (3) completing a State process approved by the Secretary of Education.

Students who did not have a high school diploma, were not homeschooled, and first enrolled in an eligible program on or after July 1, 2012, can only become eligible through one of the ATB alternatives described above if they are enrolled in an eligible career pathway program as defined in section 484(d)(2) of the HEA.

Less than full-time students are eligible for pro rata awards based on their enrollment status. As of July 1, 2012, students are eligible for Pell Grants for a maximum of 12 semesters (or an equivalent) of full-time enrollment.

A student in default on a loan made under any Title IV HEA loan program, or who owes an overpayment on any other previously received Federal student aid, may not receive additional funds under the program unless the student repays the debt in full or makes satisfactory repayment arrangements with the holder of the debt.

Beginning with the 2024-25 award year, eligibility for non-need-based grants to students whose parent or guardian was a member of the Armed Forces and died in Iraq or Afghanistan as a result of performing military service after September 11, 2001, which were previously given through the Iraq and Afghanistan Service Grants (IASG) program, will be folded into the Pell Grant program. This allows qualifying students to receive full maximum Pell Grants that are not subject to sequestration, as IASG has been.

Annual award amount: The annual award amount may vary from the statutory minimum payment up to the maximum authorized by statute for the academic year. The Higher Education

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

Opportunity Act of 2008 enacted a minimum Pell Grant award of 10 percent of the maximum award. That is, students who do not qualify for at least 10 percent of the maximum grant do not receive a Pell award. Appropriations acts set annual maximum award levels. For award year 2023-24, the 2023 appropriation supports an award of \$6,335. With the mandatory add-on award established by the HCERA, the maximum award will be \$7,395. The minimum Pell award for award year 2023-24 is \$750.

The aggregate Pell Grant award is the lesser of:

- the maximum award (as set in annual appropriations acts), plus the additional amount provided by mandatory funds, minus the EFC; or
- the student's cost of attendance, minus the EFC.

Additionally, students who complete more than one academic year within an award year are eligible for larger awards under the "year-round Pell" provision, which was enacted in the fiscal year 2017 Consolidated Appropriations Act. Awards under this provision are capped at 150 percent of the student's regular award.

Cost of attendance: For purposes of determining the Pell Grant award, the postsecondary institution establishes the cost of attendance using the following cost items:

- tuition and fees;
- an allowance for books, supplies, transportation, dependent care, and miscellaneous expenses, including a reasonable allowance for the documented rental or purchase of a personal computer; and
- living allowances of the actual amount charged by the institution for room and board for students living at school; an amount determined by the institution for students without dependents living at home with parents; or, for all other students, an amount based on the expenses reasonably incurred for room and board.

The cost of attendance for less-than-half-time students includes tuition and fees; an allowance for books, supplies, and transportation; and dependent care.

Financial aid administrator discretion: The HEA stipulates financial aid administrators may, on the basis of adequate documentation and on a case-by-case basis, adjust a student's Pell Grant award by changing the cost of attendance or the value of data elements used to calculate the EFC to reflect "special circumstances," such as the following:

- tuition expenses at an elementary or secondary school;
- medical or dental expenses not covered by insurance;
- unusually high childcare costs;
- recent unemployment of an independent student or a family member;

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

- changes in a student's housing status resulting in homelessness;
- the number of parents enrolled at least half-time in a degree or certificate or other program leading to a recognized educational credential at an institution participating in any of the Title IV programs; or
- other changes in a family's income, assets, or a student's status.

Institutional payments: The HEA provides for payment to institutions of \$5 per Pell Grant recipient to reimburse institutions for a share of the cost of administering the Pell Grant program. Funds for these payments are paid from the Pell Grant appropriation. In award year 2023-24, these payments will total \$30 million.

Because of the structure of the Pell Grant program, annual funding levels may not equal annual expenditures.

Discretionary and mandatory funding levels for the past 5 fiscal years were:

Fiscal Year	(dollars in thousands)
2019	\$29,233,392
2020	29,618,352
2021	28,784,934
2022	27,571,272
2023	28,568,352

FY 2024 BUDGET REQUEST

The Administration's budget request for fiscal year 2024 includes \$24.3 billion in discretionary funding for the Pell Grant program, \$1.8 billion more than the fiscal year 2023 appropriation. This discretionary request, plus \$8.2 billion in mandatory funding, establishes the total fiscal year 2024 Pell funding level at \$32.5 billion.

Pell Grants have been the foundation of low- and moderate-income students' financial aid for decades; however, the value has diminished as college costs continue to rise. The Administration's fiscal year 2024 budget would set a maximum award of \$8,215 for award year 2024-25, an increase of \$820 over the 2023-2024 award year. This includes a \$500 increase in the maximum award in discretionary funding and a \$320 increase to the mandatory add-on.

The Administration continues to prioritize doubling the maximum award by 2029 to ensure college is accessible and affordable and provides additional mandatory funding to do so. The Administration expects Congress to continue providing discretionary increases to the maximum award, as they have done for the past six years. These discretionary increases, combined with the proposed \$2,295 increase over five years to the mandatory award, will meet the President's commitment to double the grant by 2029. The Administration also intends to work with Congress to ensure access to student financial aid for students who are Deferred Action for Childhood Arrivals recipients, commonly known as DREAMers.

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

The request for this program is best understood in the context of the Administration's proposals for student aid programs as a whole. Accordingly, program-specific funding information and policy proposals also are discussed in the **Student Aid Overview**.

PELL GRANT PROGRAM HISTORICAL DATA

Applicant and Recipient Growth

The graphs on the following pages show the latest applicant, recipient, and aid available trends for the Pell Grant program. A valid applicant is an undergraduate student who submits a Free Application for Federal Student Aid (FAFSA®) with sufficient data to calculate an EFC and determine Pell Grant eligibility. Applicants are estimated at 14.4 million for award year 2024-25, an increase of over 300,000 compared to award year 2023-24. Many factors affect applicant growth, including demographic trends and changes in economic conditions, such as labor market demands. Most recently, the COVID-19 pandemic has also been a factor as many students have foregone pursuing a postsecondary education.

Pell Grant recipients are estimated at nearly 6.8 million in award year 2024-25, an increase of 697,000 over award year 2023-24, of which an estimated 82,000 would be newly eligible based on the increased maximum award. Factors affecting recipient growth include family incomes, need analysis, college costs, the level of the maximum Pell Grant award, and changes in the volume of applicants.

The following tables show program information consistent with actual or requested funding levels.

2018-19	15,240,392	-289,520	-1.86%
2019-20	14,991,786	-248,606	-1.63%
2020-21	14,655,664	-336,122	-2.24%
2021-22	14,295,701	-359,963	-2.46%
2022-23	13,818,357	-477,344	-3.34%
2023-24	14,109,348	290,991	2.11%
2024-25	14,421,714	312,366	2.21%

¹Applicant data through award year (AY) 2021-22 are considered final and are taken from internal operational reports. Applicant data for award years 2022-23 through 2024-25 are estimates and are subject to change.

²A valid applicant is an undergraduate student who submits an application with sufficient data to calculate an EFC and determine Pell Grant eligibility.

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

NOTE: Applicants reflect those applying for all Federal student financial assistance, including those receiving only non-need-based student loans.

Award years 2022-23 through 2024-25 are estimates.

Number of Recipients:

Under current estimates, the funds requested for fiscal year 2024 would support Pell Grant awards to nearly 6.8 million recipients.

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

Aid Available:

Under current estimates, the Administration's fiscal year 2024 proposal would provide \$38.1 billion in Pell Grants to students.

NOTE: Award years 2022-23 through 2024-25 are estimates.

Maximum Award:

The Administration proposes to increase the base discretionary maximum award to \$6,835 for award year 2024-25 through discretionary and definite mandatory funding. The cost of providing the mandatory add-on that increases the maximum award is funded by permanent mandatory indefinite funding as provided through HCERA. The Budget proposes to amend the HCERA to increase the award to \$8,215 in award year 2024-25.

STUDENT FINANCIAL ASSISTANCE

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

Distribution of Pell Grants

Distribution of Pell Grants by Student Status and Income Level:

The tables below illustrate the distribution of Pell Grant funds to dependent and independent students at various income levels. In 2021-2022, approximately 63 percent of all Pell Grant recipients had incomes less than or equal to \$30,000. Nearly all students at those income levels are eligible for the maximum award, but the average award accounts for factors like part-time enrollment and cost of attendance that can reduce the award received.

Distribution of Pell Grants to Dependent Undergraduates in 2021-22

Income Level	Recipients	Available Aid	Average Award
0 - \$6,000	371,607	\$2,003,646,590	\$5,392
6,001 - 9,000	72,474	395,920,291	5,463
9,001 - 20,000	568,400	3,151,098,979	5,544
20,001 - 30,000	581,144	3,213,258,889	5,529
30,001+	1,566,437	6,130,264,649	3,914
Total Dependent	3,160,062	14,894,189,398	4,713

Independent students make up nearly half of the students receiving assistance under the Pell Grant program. These recipients tend to be in the lowest income groups, as shown below.

Distribution of Pell Grants to Independent Undergraduates in 2021-22

Income Level	Recipients	Available Aid	Average Award
0 - \$1,000	484,129	\$2,040,224,651	\$4,214
1,001 - 3,000	112,458	492,537,094	4,380
3,001 - 6,000	169,502	733,548,855	4,328
6,001 - 9,000	180,566	777,520,207	4,306
9,001 - 15,000	439,995	1,816,167,357	4,128
15,001 - 20,000	352,962	1,225,248,872	3,471
20,001 - 30,000	492,688	1,558,364,599	3,163
30,001+	684,638	2,329,813,967	3,403
Total Independent	2,916,938	10,973,425,602	3,762
All Undergraduates	6,077,000	25,867,615,000	4,257

STUDENT FINANCIAL ASSISTANCE

Federal Pell Grants

Distribution of Pell Grants by Type of Institution

The table below shows the distribution of Pell Grants to students attending different types of institutions. In 2021-2022, approximately 46 percent of the total aid available for Pell Grants went to students attending Public 4-Year schools, and approximately 23 percent went to students attending Public 2-Year schools.

Over the lifetime of the Pell Grant program, the share of Pell Grant aid to proprietary institutions has changed significantly. For example, in the 2009-10 award year, approximately 25 percent of total Pell Grant aid went to students at proprietary institutions; in the 2021-22 award year, that figure was 15 percent.

Distribution of Pell Grants by Type of Institution in 2021-22

Institution Type	Recipients	Available Aid	Average Award	Percent of Pell Aid
Public 4-Year	2,603,365	\$11,834,773,753	\$4,546	45.8%
Public 2-Year	1,575,489	6,012,189,936	3,816	23.2%
Private	999,024	4,071,712,544	4,076	15.7%
Proprietary	899,122	3,948,938,766	4,392	15.3%
Total	6,077,000	25,867,614,999	4,257	100.0%

Federal Supplemental Educational Opportunity Grants

(Higher Education Act of 1965, Title IV, Part A, Subpart 3)

(dollars in thousands)

FY 2024 Authorization: To be determined¹

Budget authority:

2023 Appropriation	2024 Request	Change
\$910,000	\$910,000	+\$0

PROGRAM DESCRIPTION

The Federal Supplemental Educational Opportunity Grant (SEOG) program provides need-based grant aid to eligible undergraduate students to help reduce financial barriers to postsecondary education. Federal funding allocations are awarded to qualifying postsecondary institutions under a statutory formula. Unlike the Pell Grant program, the SEOG program is operated by institutional financial aid administrators who have substantial flexibility in determining student awards.

The funding provided for the SEOG program is available for 2 years. Funds become available for obligation on October 1 of the fiscal year in which they are appropriated and remain available through September 30 of the following fiscal year. Funds available for the current fiscal year 2024 will be used for the 2024-25 award year, which runs from July 1, 2024 through June 30, 2025.

Institutional participation: Roughly 3,600 postsecondary institutions receive funds under the SEOG program, compared to more than 4,500 institutions that administer Pell Grants. Under the statutory formula, funds are distributed to institutions first on the basis of the institution's fiscal year 1999 SEOG program base guarantee and pro rata share (a hold harmless basis), and then on the basis of the aggregate need of the eligible undergraduate students in attendance.

Institutional matching: Participating institutions are required by statute to contribute at least 25 percent of the SEOG award amounts. The institutional share can be met using the institution's own resources, State grants, or funds from foundations or other charitable organizations.

Student participation: Students qualify for grants of up to \$4,000 by demonstrating financial need under the need analysis formula used for Federal student aid. Institutions must give priority to Pell Grant recipients with demonstrated "exceptional need" (students with the lowest Expected Family Contributions [EFCs] at the institution). Beginning with the 2024-25 award year, EFCs will be replaced by the Student Aid Index (SAI).

Remaining awards are then available for students with exceptional need who are not Pell Grant recipients. In addition, if any part of the institution's SEOG allocation determination to students

¹The GEPA extension expired September 30, 2015; reauthorization for FY 2024 is expected through appropriations action.

STUDENT FINANCIAL ASSISTANCE

Federal supplemental educational opportunity grants

is based, in part, on the financial need demonstrated by students who are independent or attending the institution less-than-full-time, then a reasonable portion of the allocation must be made available to such students.

Recipients must be undergraduates, cannot have received a bachelor's degree, and must be enrolled with the purpose of obtaining a degree or certificate at an eligible institution. Approximately 9 percent of undergraduates receive SEOG awards.

Students must also have a high school diploma (or its equivalent) or have been homeschooled. Students who first enrolled in an eligible program prior to July 1, 2012, who did not have a high school diploma and were not homeschooled, may receive a Pell Grant by meeting one of the ability-to-benefit (ATB) alternatives. These alternatives include: (1) passing an independently administered, Department-approved ability-to-benefit test; (2) completing at least 6 credit hours or 225 clock hours that are applicable toward a degree or certificate offered by the institution; or (3) completing a State process approved by the Secretary of Education.

Students who did not have a high school diploma, were not homeschooled, and first enrolled in an eligible program on or after July 1, 2012, can only become eligible through one of the ATB alternatives described above if they are enrolled in an eligible career pathway program as defined in section 484(d)(2) of the HEA.

A student in default on a loan made under any Title IV HEA loan program, or who owes an overpayment on any other previously received Federal student aid, may not receive additional funds under the program unless the student repays the debt in full or makes satisfactory repayment arrangements with the holder of the debt.

Institutional administrative provisions

- Administrative costs. Each institution's administrative cost allowance is based upon its expenditures for both campus-based programs – SEOG and Federal Work-study (FWS). During an award year, an institution may use up to 5 percent of the first \$2.75 million of its program expenditures to meet administrative costs associated with these programs; plus up to 4 percent of expenditures greater than \$2.75 million but less than \$5.5 million; and up to 3 percent of expenditures greater than \$5.5 million.
- Transferability of funds. An institution may transfer up to 25 percent of FWS funds to SEOG. Up to 10 percent of an institution's SEOG funds may, at the discretion of the institution, be used for expenditures for the preceding fiscal year, and up to 10 percent of an institution's SEOG funds may remain available for the next fiscal year.
- Reallocation of funds. Excess funds available because of underutilization by institutions are reallocated to other institutions in accordance with program regulations. An institution returning more than 10 percent of its allocation will have its subsequent allocation reduced by the same amount. Under The Hurricanes Harvey, Irma, and Maria Education Relief Act of 2017, the Secretary was provided authority to waive reallocation rules; excess SEOG funds were reallocated to institutions that were directly affected by the 2017 hurricanes or were located in disaster areas.

STUDENT FINANCIAL ASSISTANCE

Federal supplemental educational opportunity grants

Funding levels for the past 5 fiscal years were:

Fiscal Year	(dollars in thousands)
2019	\$840,000
2020	865,000
2021	880,000
2022	895,000
2023	910,000

FY 2024 BUDGET REQUEST

The Administration’s fiscal year 2024 budget request proposes to maintain the SEOG program funding at the same level as the fiscal year 2023 appropriation of \$910 million. Additionally, the Administration intends to work with Congress to ensure access to student financial aid for students who are Deferred Action for Childhood Arrivals recipients, commonly known as DREAMers.

The request for this program is best understood in the context of the Administration’s proposals for the student aid programs as a whole. Accordingly, student assistance policy proposals are discussed in greater detail in the **Student Aid Overview**.

Distribution of SEOG Funds by Student Status and Income Level

The following tables, structured to compare across the programs in the Student Financial Assistance account, show the distribution of SEOG funds to dependent and independent students at various income levels in 2019-20. These tables include the most recent distributional data available, which may not match directly with the data provided in the Program Output Measures section.

In 2020-21, 66 percent of dependent SEOG recipients had family income levels under \$30,000, and 67 percent of independent SEOG recipients had family income levels under \$20,000.

Distribution of SEOG to Dependent Undergraduates in 2020-21

Family Income Level	Recipients	Available Aid	Average Award

Distribution of SEOG Funds by Type of Institution

The distribution of SEOG assistance to institutions is controlled by a statutory formula. The distribution of SEOG across different types of institutions has remained relatively constant over time due to this formula and the base guarantee. The distribution of aid by institution type has remained relatively constant over the last 5 years.

The following table shows the distribution of SEOG to students attending different types of institutions in 2020-21. Most funding goes to students attending public institutions.

Distribution of SEOG by Type of Institution in 2020-21

Institution Type	Recipients	Available Aid	Average Award	Percent of SEOG Aid
Public 4-Year	702,568	\$552,245,277	\$786	38.1%
Public 2-Year	518,486	269,221,148	519	18.6%
Private	414,016	514,141,140	1,242	35.4%

FY 2024 Authorization: To be determined¹

Budget authority:

2023 Appropriation	2024 Request	Change
\$1,230,000	\$1,230,000	+\$0

PROGRAM DESCRIPTION

The Federal Work-study (FWS) program ensures access to postsecondary education and lifelong learning by offsetting some postsecondary education costs for undergraduate and graduate students with financial need with income from part-time employment. Federal funds are distributed to qualifying institutions whose financial aid administrators select eligible students. Students may be employed by the institution; by a Federal, State, or local public agency or private nonprofit organization; or by a private for-profit organization. The Department is interested in expanding career and academically connected Federal Work-study opportunities, as well as community service Federal Work-study opportunities, including mentoring and tutoring roles in K-12 schools.

The funding for the FWS program is available for 2 fiscal years. Funds become available for obligation on October 1 of the fiscal year in which they are appropriated and remain available through September 30 of the following fiscal year. Funds requested for fiscal year 2024 would be used for the 2024-25 award year, which runs from July 1, 2024 through June 30, 2025.

Institutional participation: Approximately 3,100 institutions participate in the FWS program. Funds are distributed to institutions based on a statutory formula. The formula starts with the institution's fiscal year 1999 FWS program base guarantee and pro rata share and bases the allocation on the aggregate need of the eligible undergraduate students currently in attendance. The FWS program is administered by institutional financial aid administrators who have substantial flexibility in determining student awards.

If an institution is a proprietary school employing its own students, this employment must be: (1) on campus, except that at least 7 percent of the total funds granted must be used to compensate students employed in community service activities; (2) related, to the maximum extent practicable, to the student's educational objectives; and (3) related to providing student services. The employment tasks of FWS program students, however, must not involve the solicitation of potential students to enroll in the school.

Institutional matching: In general, participating institutions or other employers must contribute at least 25 percent of a student's part-time earnings (or 50 percent in the case of private, for-profit employers). The Federal share may be up to 90 percent for students employed at a private nonprofit organization or a Federal, State, or local public agency that would otherwise be unable to afford the costs of employing those students. The 90 percent Federal share is limited to no

¹The GEPA extension applies through September 30, 2015; reauthorization for FY 2024 is expected through appropriation action.

STUDENT FINANCIAL ASSISTANCE

Federal Work-study

more than 10 percent of the students paid under the FWS program; in addition, the school may not own, operate, or control the organization, and the school must select the organization or agency on a case-by-case basis.

Student participation: Students qualify for FWS program awards by demonstrating financial need under the statutory need analysis formula for the Federal student financial assistance programs. Hourly earnings must not be less than the current Federal minimum wage. Approximately 5 percent of undergraduates participate in the FWS program.

In addition, if the institution's allocation is based in part on the financial need demonstrated by independent students or students attending the institution less-than-full-time, a reasonable portion of the allocation must be made available to such students.

Students must also have a high school diploma (or its equivalent) or have been homeschooled. Students who first enrolled in an eligible program prior to July 1, 2012, who did not have a high school diploma and were not homeschooled, may receive a Pell Grant by meeting one of the ability-to-benefit (ATB) alternatives. These alternatives include: (1) passing an independently administered, Department-approved ability-to-benefit test; (2) completing at least 6 credit hours or 225 clock hours that are applicable toward a degree or certificate offered by the institution; or (3) completing a State process approved by the Secretary of Education.

Students who did not have a high school diploma, were not homeschooled, and first enrolled in an eligible program on or after July 1, 2012, can only become eligible through one of the ATB alternatives described above if they are enrolled in an eligible career pathway program as defined in section 484(d)(2) of the HEA.

A student in default on a loan made under any Title IV HEA loan program, or who owes an overpayment on any other previously received Federal student aid, may not receive additional funds under the program unless the student repays the debt in full or makes satisfactory repayment arrangements with the holder of the debt.

Institutional administrative provisions: Institutions may use their allocations to support a variety of work-study activities, including:

- Community service. An institution must use at least 7 percent of its Federal allocation for payments to students employed in community service activities. Other Work-study jobs that qualify as community service activities include community-accessible childcare and assistance for disabled students. The Higher Education Opportunity Act (HEOA) expanded the definition of community service to include emergency preparedness and response. The eligible institution, at its discretion, may count any contribution made by the employer toward the non-Federal share of the student's compensation. The Department encourages institutions to consider pathways to allocate more resources to support community service activities, including tutoring, mentoring, and literacy activities in K-12 schools.
- Tutoring and literacy activities. An institution must include at least one tutoring or family literacy project as part of its community service activities. Under this requirement, institutions prioritize employing work-study recipients as reading tutors in schools participating in

STUDENT FINANCIAL ASSISTANCE

Federal Work-study

programs, funded under the Elementary and Secondary Education Act of 1965, as amended, that train educators on science-based reading instruction. In light of pandemic-related learning loss in K-12 schools, institutions are encouraged to build partnerships with local school districts and strengthen this commitment.

- Private sector. An institution may use up to 25 percent of its work-study allocation to match earnings of students working for private for-profit organizations. Students must, to the maximum extent practicable, be placed in jobs that are academically relevant to their course of study. FWS program funds may not be used to pay any employee who would otherwise be employed by the private organization. The Department encourages institutions to explore private sector partnerships that provide academically relevant and work-based learning opportunities that will facilitate a greater likelihood of connecting academic studies with future career prospects.
- Job Location and Development. An institution may use up to 10 percent of its FWS program allocation, or a maximum of \$50,000, whichever is less, for administrative expenses associated with the establishment or expansion of a Job Location and Development (JLD) program. This program locates and develops off-campus full- or part-time jobs or community service jobs for currently enrolled students. The Federal share of the JLD program costs cannot exceed 80 percent.
- Work Colleges. A “Work College” is an institution that requires all resident students to participate in a work-learning program as an integral part of the institution’s educational philosophy. These colleges are authorized to receive special awards in addition to their regular FWS program allocations to support such programs. Work Colleges must match Federal allocations on a dollar-for-dollar basis. In addition, Work Colleges may transfer all their regular FWS program allotments for use under the Work Colleges program.
- Administrative costs. Each institution’s administrative cost allowance is based upon its expenditures for FWS and Supplemental Educational Opportunity Grants (SEOG). Under a statutory formula, an institution may use up to 5 percent of the first \$2.75 million of its program expenditures during an award year to meet administrative costs associated with these programs; plus up to 4 percent of expenditures greater than \$2.75 million but less than \$5.5 million; and up to 3 percent of expenditures greater than \$5.5 million.
- Transferability of funds. An institution may transfer up to 25 percent of its allocation from FWS to SEOG. Up to 10 percent of an institution’s FWS program funds may, at the discretion of the institution, be used for expenditures for the preceding fiscal year. In addition, up to 10 percent of an institution’s FWS program funds may, at the discretion of the institution, remain available for the next fiscal year.
- Reallocation. If funds become available because of under-utilization by institutions, excess funds are reallocated only to other institutions that used at least 5 percent of their FWS program allocations to compensate students employed in tutoring in reading and family literacy activities in the preceding year. Reallocated funds must be used to support student employment in community service activities. Under the Hurricane Education Relief Act of 2017, excess FWS were first allocated to institutions located in FEMA-declared disaster

STUDENT FINANCIAL ASSISTANCE

Federal Work-study

areas, and then to institutions that enrolled a significant number of students that live in the FEMA-declared disaster areas.

- Disasters. The HEOA added a provision under which an eligible institution located in an area affected by a major disaster, as determined by the Secretary, may make FWS payments to disaster-affected students, for the period of time (not to exceed 1 academic year) in which the students were prevented from fulfilling their FWS obligations due to the disaster. Payment may be made in an amount equal to or less than the amount a student would have been paid had the student been able to complete the work obligation necessary to receive work-study funds. The Hurricane Education Relief Act of 2017 provided the Secretary authority to waive reallocation rules and to extend the deadline by which funds were reallocated in the campus-based programs due to Hurricanes Harvey, Irma, and Maria.

Funding levels for the past 5 fiscal years were:

Fiscal Year	(dollars in thousands)
2019	\$1,130,000
2020	1,180,000
2021	1,190,000
2022	1,210,000
2023	1,230,000

FY 2024 BUDGET REQUEST

For fiscal year 2024, the Administration requests \$1.23 billion for the FWS program, level with the fiscal year 2023 appropriation. Additionally, the Administration intends to work with Congress to ensure access to student financial aid for students who are Deferred Action for Childhood Arrivals recipients, commonly known as DREAMers.

The fiscal year 2024 request for this program is best understood in the context of the Administration's proposals for the student aid programs as a whole. Accordingly, policy proposals are discussed in greater detail in the Student Aid Overview.

Distribution of Work-Study Funds by Student Status and Income Level

The following tables (structured to provide a common basis of comparison among the programs in the Student Financial Assistance account) illustrate the distribution of work-study funds to dependent students and the distribution to independent students at various income levels for 2020-21. These tables include the most recent distributional data available, which may not correspond directly with the data provided in the Program Output Measures section. Work-study recipients and aid have decreased due to the pandemic. These measures have begun to rebound, though they are not yet at pre-pandemic levels.

12,000 - 15,999	3,531	8,411,179	2,382
16,000 - 19,999	2,626	6,187,039	2,356
20,000+	8,666	19,824,646	2,288
Total Independent	38,654	85,998,948	2,225
Graduate Students	38,708	104,558,554	2,701
All Students	371,645	703,303,364	1,892

Distribution of Work-Study Funds by Type of Institution:

The work-study program is a campus-based program, and the distribution of funds to institutions is controlled by a statutory formula. As a result, the distribution of work-study assistance across different types of institutions has remained relatively constant over time. The table below shows the distribution of work-study to students attending different types of institutions in 2020-2021.

STUDENT FINANCIAL ASSISTANCE

Federal Work-study

Distribution of Work-Study by Type of Institution in 2020-21

Institution Type	Recipients	Available Aid	Average Award	Percent of FWS Aid
Public 4-Year	134,719	\$278,966,808	\$2,071	39.7%
Public 2-Year	28,769	63,740,926	2,216	9.1%
Private	202,685	344,839,115	1,701	49.0%
Proprietary	5,470	15,753,843	2,880	2.2%
Total	371,643	703,300,692	1,892	100.0%

Distribution of Work-Study Funds to Students in Community Service Activities:

The work-study program has a long tradition of providing opportunities for students to perform community service activities. At least 7 percent of an institution's work-study allotment must be used to pay students employed in community service jobs, unless the institution obtains a waiver from the Department. Nationally, 16 percent of work-study funds are used for jobs in community service.

Participating colleges and universities must ensure that at least one eligible project provides services to both children and their parents. Allowable activities, such as family literacy programs, emphasize preparing parents to read to their own children.

The Department has waived the usual 25 percent institutional contribution, allowing work-study funds to pay up to 100 percent of the wages to support students who tutor children in mathematics, or reading, or who serve in family literacy programs.

The table below shows the distribution of work-study assistance to students employed in community service activities in 2020-21.

Distribution of Work-Study to Students in Community Service Activities by Type of Institution in 2020-21

Institution Type	Recipients	Available Aid	Average Award	Percent of WS Aid
Public 4-Year	20,012	\$41,405,301	\$2,069	41.5%
Public 2-Year	4,273	\$9,680,392	2,265	9.7%
Private	26,223	47,273,305	1,803	47.4%
Proprietary	498	1,308,456	2,627	1.3%
Total	51,006	99,667,454	1,954	100.0%

NOTE: Percentages may not total to 100 percent due to rounding.

PROGRAM OUTPUT MEASURES

(dollars in thousands)

Output Measures	2022	2023	2024
Recipients	416,000	660,000	660,000
Aid available to students ¹	\$786,746	\$1,247,893	\$1,247,893
Average award (in whole dollars)	\$1,892	\$1,892	\$1,892

PROGRAM PERFORMANCE INFORMATION

This section presents selected program performance information, including, for example, program goals, objectives, measures, and performance targets and data; and an assessment of the progress made toward achieving program results. Achievement of results is based on the cumulative effect of the resources provided in previous years and those requested in 2024 and future years, as well as the resources and efforts invested by those served by this program.

Because the programs in the Student Financial Assistance account rely on the same performance data, performance measures, strategies, and program improvement activities that apply to all the programs, that information is discussed in the **Student Aid Overview** and is not repeated here.

¹Aid available includes budget authority, institutional matching funds, transfers from the SEOG program, minus administrative costs.

STUDENT FINANCIAL ASSISTANCE

Iraq and Afghanistan Service Grants

(Higher Education Act of 1965, Title IV, Part A, Subpart 10)

(dollars in thousands)

FY 2024 Authorization: Indefinite

Mandatory Budget Authority:

2023 Appropriation	2024 Request	Change
\$578	\$477	-\$101

PROGRAM DESCRIPTION

The Iraq and Afghanistan Service Grants (IASG) program provides non-need-based grants to students whose parent or guardian was a member of the Armed Forces who died in Iraq or Afghanistan as a result of performing military service after September 11, 2001. Students are not required to be eligible for a Pell Grant in order to receive a Service Grant; however, the student must be 24 years old or younger; or, if older than 24, must have been enrolled in an institution of higher education at the time of the parent or guardian's death.

Service Grants are equal to the maximum Pell Grant for a given award year, which was \$6,895 in the 2022-23 award year. However, due to sequestration, IASG award amounts have been reduced in prior years and are subject to sequestration in the current year. Award amounts for any IASG first disbursed on or after Oct. 1, 2022, and before Oct. 1, 2023, will be reduced by 5.7 percent, or \$393 for a student receiving the maximum award. Service Grants are excluded from the total "estimated financial assistance" used to determine a student's eligibility for other Title IV Federal financial aid. In combination with other student aid, however, the Service Grant may not result in a student's awards exceeding their cost of attendance. As with Pell Grant eligibility, students are limited to 12 semesters of full-time enrollment.

Funding levels for the past 5 fiscal years were:

Fiscal Year	(dollars in thousands)
2019	\$517
2020	513
2021	551
2022	576
2023	578

FY 2024 BUDGET

The Administration's budget request includes \$477,000 in mandatory funding for Iraq and Afghanistan service grants, a decrease of \$101,000. These funds are for fiscal year 2024 activity within the 2023-24 award year. The program is set to be rolled into the Pell Grant

STUDENT FINANCIAL ASSISTANCE

Iraq and Afghanistan service grants

program starting with the 2024-25 award year. Qualifying students will be eligible to receive full maximum Pell awards, which are not subject to sequestration.

Distribution of Iraq and Afghanistan Service Grant Funds by Type of Institution:

The data provided in the table below shows the distribution of Iraq and Afghanistan service grants to students attending different types of institutions in award year 2021-22.

Distribution of IASG by Type of Institution in 2021-22

Institution Type	Recipients	Available Aid	Average Award	Percent of IASG Aid
Public 4-Year	64	348,204	5,441	65%
Public 2-Year	10	45,412	4,541	8
Private	22	130,373	5,926	24
Proprietary	2	12,250	6,125	2
Total	98	536,239	5,472	100

PROGRAM OUTPUT MEASURES

(dollars in thousands)

Output Measures	2022	2023	2024
Recipients	(1)	(25)	(25)
Aid available to students (dollars in thousands) ²	\$569	\$611	\$0
Maximum grant (whole dollars) ³	\$6,502	\$6,973	\$0
Average grant (whole dollars)	\$5,809	\$6,230	\$0

PROGRAM PERFORMANCE INFORMATION

This section presents selected program performance information, including, for example, program goals, objectives, measures, and performance targets and data; and an assessment of the progress made toward achieving program results. Achievement of results is based on the cumulative effect of the resources provided in previous years and those requested in 2024 and future years, as well as the resources and efforts invested by those served by this program.

Because the programs in the Student Financial Assistance account rely on the same performance data, when available, the Iraq and Afghanistan Service Grants performance

¹Recipients estimated to number fewer than 500.

²Aid available is the amount of funding available for new IASG awards to students in any single academic year. This amount differs from budget authority because 1 fiscal year spans across 2 academic years.

³Maximum grant amounts for 2022, and 2023 reflect impact of sequestration.

STUDENT FINANCIAL ASSISTANCE

Iraq and Afghanistan service grants

measures, strategies, and program improvement activities will be discussed in the **Student Aid Overview** and not repeated here.
