NOTES: Estimates for 2017 and 2018 were calculated using a combination of State-provided English learner counts and counts from the American Community Survey (ACS). The State-provided data used to calculate these estimates are from academic year 2015-2016 and the ACS data are estimates from a 5-year period from 2011-2015. In addition, the 2017 estimates weight the ACS and State English learner counts at 90 and 10 percent, respectively, and the 2018 estimates weight the ACS and State English learner counts at 80 and 20 percent, respectively. The 2017 and 2018 estimates also withhold 0.5 percent of the amounts available for States, the Outlying Areas, and the Indian set-aside for pooled evaluation activities per section 8601 of the Elementary and Secondary Education Act, as amended. The amounts for 2016 were calculated using only 3-year American Community Survey estimates from 2011-2013.
