## Federally Funded Adult Education and Family Literacy Programs

The Adult Education and Family Literacy Act (Title II of the Workforce Innovation and Opportunity Act) authorizes and provides funding for adult education programs that provide instruction below the postsecondary level to adults who are 16 years or older. Programs, which include adult basic education (ABE), adult secondary education (ASE), and English as a second language (ESL), are designed to improve basic reading, writing, numeracy, and English language skills; assist adults in completing secondary school; prepare them for successful transition to postsecondary education and work; and support civics education for new Americans who are learning English.

This document provides links to information about local adult education programs (including education and literacy programs) that receive public funding from the Federal government.
