

## Notes to the Principal Financial Statements For the Years Ended September 30, 2010 and 2009

### Note 1. Summary of Significant Accounting Policies

#### Reporting Entity

The U.S. Department of Education (the Department), a Cabinet-level agency of the Executive Branch of the U.S. Government, was established by the Congress under the *Department of Education Organization Act* (Public Law 96-88), which became effective on May 4, 1980. The Department is responsible, through the execution of its congressionally enacted budget, for administering direct loans, guaranteed loans, and grant programs.

The Department administers the William D. Ford Federal Direct Loan (Direct Loan) Program, the Federal Family Education Loan (FFEL) Program, the Federal Pell Grant (Pell Grant) Program, and the campus-based student aid programs to help students finance the costs of higher education. The Direct Loan Program, added to the *Higher Education Act of 1965 (HEA)* in 1993 by the *Student Loan Reform Act of 1993*, authorizes the Department to make loans directly to eligible undergraduate and graduate students and their parents through participating schools. The FFEL Program, authorized by the *HEA*, operates through state and private nonprofit guaranty agencies to provide loan guarantees and interest subsidies on loans made by private lenders to eligible students. Under these programs, the loans are made to individuals who meet statutorily set eligibility criteria and attend eligible institutions of higher education—public or private two- and four-year institutions, graduate schools, and vocational training schools. Students and their parents, based on eligibility criteria, receive loans regardless of income or credit rating. Student borrowers who demonstrate financial need also receive federal interest subsidies while the students are in school or in a deferment period.

The *Ensuring Continued Access to Student Loans Act of 2008 (ECASLA)* authorized the Secretary to purchase or enter into forward commitments to purchase FFEL loans. This temporary loan purchase authority was to expire on September 30, 2009; however, Public Law (P.L.) 110-350 extended the authority through September 30, 2010. The Department implemented three activities under this temporary loan purchase authority. These activities are: (1) loan purchase commitments under which the Department purchases loans directly from FFEL lenders; (2) loan participation purchases in which the Department purchases participation interests in FFEL loans; and (3) an Asset-Backed Commercial Paper (ABCP) Conduit in which the Department enters into a forward commitment to purchase FFEL loans from a conduit, as needed, to allow the conduit to repay short-term liquidity loans used to re-finance maturing commercial paper.

The *Student Aid and Fiscal Responsibility Act (SAFRA)*, which became effective July 1, 2010, was included in the *Health Care and Education Reconciliation Act of 2010 (HCERA)*. *SAFRA* provides that no FFEL reinsurance or other benefits will be paid on loans made by private lenders after June 30, 2010. However, FFEL lenders are still obligated to make the subsequent disbursements after June 30, 2010 if the first disbursement of a FFEL loan was made by the FFEL lender on or before June 30, 2010.

The Teacher Education Assistance for College and Higher Education Grant (TEACH) Program was implemented beginning July 1, 2008. This program, added to the *HEA* by the *College Cost Reduction and Access Act (CCRAA)*, awards annual grants to students who agree to teach in a high-need subject area in a public or private elementary or secondary school that serves low-income students.

The Federal Pell Grant Program provides need-based grants to low-income undergraduate and certain post-baccalaureate students to promote access to postsecondary education.

Additionally, the Department administers numerous other grant programs and facilities loan programs. Grant programs include grants to state and local entities for elementary and secondary education; special education and rehabilitative services; educational research and improvement; and grants for needs of the disadvantaged. Through the facilities loan programs, the Department administers low-interest loans to institutions of higher education for the construction and renovation of facilities.

The *American Recovery and Reinvestment Act of 2009 (Recovery Act)*, enacted on February 17, 2009 as P.L. 111-5, provided funding to the Department for improving schools, raising students' achievement, driving reform, and producing better results for children and young people for the long-term health of the nation. Approximately 55 percent of the Department's *Recovery Act* funding was appropriated for the creation of a new State Fiscal Stabilization Fund with the goal to stabilize state and local government budgets to avoid reductions in education and other essential public services while driving education reform. The Department was tasked with promptly disbursing these funds through a variety of existing and new grant programs, while ensuring the transparency and accountability of every dollar spent.

P.L. 111-226, enacted on August 10, 2010, created the Education Jobs Fund, which provided funding to the Department to assist in saving and creating jobs for the 2010-11 school year. The Department was authorized to disburse these funds promptly to states through formula grants, while ensuring transparency and accountability overall.

The Department is organized into 10 reporting organizations that administer the loan and grant programs. The financial reporting structure of the Department presents operations based on five major reporting groups. The reporting organizations and the major reporting groups are shown below.

### Reporting Organizations

- Federal Student Aid (FSA)
- Office of Elementary and Secondary Education (OESE)
- Office of Special Education and Rehabilitative Services (OSERS)
- Office of Vocational and Adult Education (OVAE)
- Office of Postsecondary Education (OPE)
- Institute of Education Sciences (IES)
- Office of English Language Acquisition (OELA)
- Office of Safe and Drug-Free Schools (OSDFS)
- Office of Innovation and Improvement (OII)
- Office of Management (OM)

### Major Reporting Groups

- Federal Student Aid
- Office of Elementary and Secondary Education
- American Recovery and Reinvestment Act and Education Jobs Fund (RA/JF)
- Office of Special Education and Rehabilitative Services
- Other

The FSA, IES, OESE, OII, and OSERS reporting organizations are responsible for the administration of *Recovery Act* funds. The OESE reporting organization is responsible for administration of the Education Jobs Fund. *Recovery Act* and Education Jobs Fund activities are reported under the "American Recovery and Reinvestment Act and Education Jobs Fund" major reporting group. (See Notes 11, 13, 18 and 19) The major reporting group "Other"

includes the IES, OELA, OII, OM, OPE, OSDFS, and OVAE reporting organizations and Hurricane Education Recovery (HR) activities. (See Notes 11, 13 and 20)

### **Basis of Accounting and Presentation**

These financial statements have been prepared to report the financial position, net cost of operations, changes in net position, and budgetary resources of the Department, as required by the *Chief Financial Officers Act of 1990* and the *Government Management Reform Act of 1994*. The financial statements were prepared from the books and records of the Department, in accordance with accounting principles generally accepted in the United States of America for federal entities, issued by the Federal Accounting Standards Advisory Board (FASAB), and the Office of Management and Budget (OMB) Circular No. A-136, *Financial Reporting Requirements*, as revised September 2010. These financial statements are different from the financial reports prepared by the Department pursuant to OMB directives that are used to monitor and control the Department's use of budgetary resources.

The Department's financial statements should be read with the realization that they are for a component of the U.S. Government, a sovereign entity. One implication of this is that the liabilities cannot be liquidated without legislation providing resources and legal authority to do so.

The accounting structure of federal agencies is designed to reflect both accrual and budgetary accounting transactions. Under the accrual method of accounting, revenues are recognized when earned, and expenses are recognized when a liability is incurred, without regard to receipt or payment of cash. Budgetary accounting facilitates compliance with legal constraints and controls over the use of federal funds.

Intradepartmental transactions and balances have been eliminated from the consolidated financial statements.

### **Use of Estimates**

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make assumptions and estimates that directly affect the amounts reported in the financial statements. Actual results may differ from those estimates.

The *Federal Credit Reform Act of 1990 (Credit Reform Act)* underlies the proprietary and budgetary accounting treatment of direct and guaranteed loans. The long-term cost to the government for direct loans or loan guarantees, other than for general administration of the programs, is referred to as "subsidy cost." Under the *Credit Reform Act*, subsidy costs for loans obligated beginning in FY 1992 are estimated at the net present value of projected lifetime costs in the year the loan is obligated. Subsidy costs are re-estimated annually.

Estimates for credit program receivables and liabilities contain assumptions that have a significant impact on the financial statements. The primary components of this assumption set include, but are not limited to, collections (including loan consolidations), repayments, default rates, prevailing interest rates, and loan volume. Actual loan volume, interest rates, cash flows, and other critical components used in the estimation process may differ significantly from the assumptions made at the time the financial statements are prepared. Minor adjustments to any of these components may create significant changes to the estimate and the amounts recorded.

The Department estimates all future cash flows associated with the Direct Loan, FFEL, and TEACH Programs. Projected cash flows are used to develop subsidy estimates. Subsidy cost can be positive or negative; negative subsidies occur when expected program inflows of cash (e.g., repayments and fees) exceed expected outflows. Subsidy cost is recorded as the initial

amount of the loan guarantee liability when guarantees are made or as a valuation allowance to government-owned loans and interest receivable (i.e., direct and defaulted guaranteed loans).

The Department uses a computerized cash flow projection Student Loan Model to calculate subsidy estimates for the Direct Loan, FFEL, and TEACH Programs. Each year, the Department re-evaluates the estimation methods related to changing conditions. The Department uses a probabilistic technique to forecast interest rates based on different methods to establish the relationship between an event's occurrence and the magnitude of its probability. The Department's approach estimates interest rates under numerous scenarios and then bases interest rates on the average interest rates weighted by the assumed probability of each scenario occurring. Probabilistic methodology facilitates the modeling of the Department's unique loan programs.

For each program, cash flows are projected over the life of the loans, aggregated by loan type, cohort year, and risk category. The loan's cohort year represents the year a loan was obligated or a loan was guaranteed, regardless of the timing of disbursements. Risk categories include two-year colleges, freshmen and sophomores at four-year colleges, juniors and seniors at four-year colleges, graduate schools, and proprietary (for-profit) schools.

Estimates reflected in these financial statements were prepared using assumptions developed for the FY 2011 Mid-Session Review, a government-wide exercise required annually by OMB. These estimates are based on the most current information available to the Department at the time the financial statements were prepared. Assumptions and their impact are updated after the Mid-Session Review to account for significant subsequent changes in activity. Management has a process to review these estimates in the context of subsequent changes in activity and assumptions, and to reflect the impact of changes, as appropriate.

The Department recognizes that cash flow projections and the sensitivity of changes in assumptions can have a significant impact on estimates. Management has attempted to mitigate fluctuations in the estimates by using trend analysis to project future cash flows. Changes in assumptions could significantly affect the amounts reflected in these financial statements. For example, a minimal change in the projected long-term interest rate charged to borrowers could change the current subsidy re-estimate by a significant amount. (See Note 6)

### **Budget Authority**

Budget authority is the authorization provided by law for the Department to incur financial obligations that will result in outlays. The Department's budgetary resources include (1) unobligated balances of resources from prior years, (2) recoveries of prior-year obligations, and (3) new resources, which include appropriations, authority to borrow from the U.S. Department of the Treasury (Treasury), and spending authority from collections.

Unobligated balances associated with resources expiring at the end of the fiscal year remain available for five years after expiration only for upward adjustments of prior year obligations, after which they are canceled and may not be used. Unobligated balances of resources that have not expired at year-end are available for new obligations placed against them, as well as upward adjustments of prior year obligations.

Authority to borrow from Treasury provides most of the funding for disbursements made under the Direct Loan Program, the TEACH Program, and activities under the temporary loan purchase authority. Subsidy and administrative costs of the programs are funded by appropriations. Budgetary resources from collections are used primarily to repay the Department's debt to Treasury. Major sources of collections include (1) principal and interest collections from borrowers, (2) related fees, and (3) interest from Treasury on balances in certain credit financing accounts that make and administer loans and loan guarantees.

Borrowing authority is an indefinite budgetary resource authorized under the *Credit Reform Act*. This resource, when realized, finances the unsubsidized portion of the Direct Loan Program, the TEACH Program, and activities under the temporary loan purchase authority. In addition, borrowing authority is requested in advance of expected collections to cover negative subsidy cost. Treasury prescribes the terms and conditions of borrowing authority and lends to the credit financing account amounts as appropriate. Amounts borrowed, but not yet disbursed, are included in uninvested funds and earn interest. Treasury uses the same weighted average interest rates for both the interest charged on borrowed funds and the interest earned on uninvested funds. The Department may carry forward borrowing authority to future fiscal years provided that cohorts are disbursing loans. All borrowings from Treasury are effective on October 1 of the current fiscal year, regardless of when the Department borrowed the funds, except for amounts borrowed to make annual interest payments.

### **Assets**

Assets are classified as either entity or non-entity assets. Entity assets are those that the Department has authority to use for its operations. Non-entity assets are those held by the Department but not available for use in its operations. The Department combines its entity and non-entity assets on the Balance Sheet and discloses its non-entity assets in the notes. (See Note 2)

### **Fund Balance with Treasury**

The Fund Balance with Treasury includes general, revolving, trust, special, and other funds available to pay current liabilities and finance authorized purchases, as well as funds restricted until future appropriations are received. Treasury processes cash receipts and cash disbursements for the Department. The Department's records are reconciled with those of Treasury.

A portion of the general funds is funded in advance by multi-year appropriations for obligations anticipated during the current and future fiscal years. Revolving funds conduct continuing cycles of business-like activity and do not require annual appropriations. Their fund balance is derived from borrowings, as well as collections from the public and other federal agencies. Trust funds generally consist of donations for the hurricane relief activities. Other funds, which are non-budgetary, primarily consist of deposit and receipt funds and clearing accounts.

Available unobligated balances represent amounts that are apportioned for obligation in the current fiscal year. Unavailable unobligated balances represent amounts that are not apportioned for obligation during the current fiscal year and expired appropriations no longer available to incur new obligations. Obligated balances not yet disbursed include undelivered orders and unpaid expended authority.

The Fund Balance with Treasury also includes funds received for grants during FY 2009 and FY 2010, which are statutorily not available for obligation until the following fiscal year. Since this is a deferral made in law, it reduces total budgetary resources. (See Notes 3 and 12)

### **Accounts Receivable**

Accounts Receivable are amounts due to the Department from the public and other federal agencies. Receivables from the public result from overpayments to recipients of grants and other financial assistance programs, and disputed costs resulting from audits of educational assistance programs. Amounts due from federal agencies result from reimbursable agreements entered into by the Department with other agencies to provide various goods and services. Accounts receivable are reduced to net realizable value by an allowance for uncollectible amounts. The estimate of an allowance for loss on uncollectible accounts is based on the

Department's experience in the collection of receivables and an analysis of the outstanding balances. (See Note 4)

### **Cash and Other Monetary Assets**

Cash and Other Monetary Assets consist of guaranty agency reserves that represent the federal government's interest in the net Federal Fund assets of state and nonprofit FFEL Program guaranty agencies. Guaranty agency Federal Fund reserves are classified as non-entity assets with the public (See Notes 2 and 5) and are offset by a corresponding liability due to Treasury. Guaranty agency reserves include initial federal start-up funds, receipts of federal reinsurance payments, insurance premiums, guaranty agency share of collections on defaulted loans, investment income, administrative cost allowances, and other assets.

Sections 422A and 422B of the *HEA* required FFEL guaranty agencies to establish a Federal Student Loan Reserve Fund (Federal Fund) and an Operating Fund by December 6, 1998. The Federal Fund and the non-liquid assets developed or purchased by a guaranty agency, in whole or in part with federal funds, are the property of the United States and reflected in the *Budget of the United States Government*. However, such ownership by the federal government is independent of the actual control of the assets. Payments to the Department from guaranty agency Federal Funds, which increase the Fund Balance with Treasury, are remitted to Treasury.

The Department disburses funds to a guaranty agency; a guaranty agency, through its Federal Fund, pays lender claims and default aversion fees. The Operating Fund is the property of the guaranty agency and is used by the guaranty agency to fulfill responsibilities that include repaying money borrowed from the Federal Fund, and performing default aversion and collection activities.

### **Credit Program Receivables and Liabilities for Loan Guarantees**

The financial statements reflect the Department's estimate of the long-term cost of direct and guaranteed loans in accordance with the *Credit Reform Act*. Loans and interest receivable are valued at their gross amounts less an allowance for the present value of amounts not expected to be recovered and thus having to be subsidized—called "allowance for subsidy." The difference between the gross amount and the allowance for subsidy is the present value of the cash flows to and from the Department that are expected from the receivables over their projected lives. Similarly, liabilities for loan guarantees are valued at the present value of the cash outflows from the Department less the present value of related inflows. The estimated present value of net long-term cash outflows of the Department for subsidized costs is net of recoveries, interest supplements, and offsetting fees. The Department records all credit program loans and loan guarantees at their present values.

Credit program receivables for activities under the temporary loan purchase authority include the present value of future cash flows related to the participation agreements or purchased loans. Subsidy is transferred, which may be prior to purchasing loans, and is recognized as subsidy expense in the Statement of Net Cost. The cash flows of these authorities also include inflows and outflows associated with the underlying or purchased loans and other related activities including any positive or negative subsidy transfers.

Components of subsidy costs for loans and guarantees include defaults (net of recoveries), contractual payments to third-party private loan collectors who receive a set percentage of amounts collected, and, as an offset, origination and other fees collected. For direct loans, the difference between interest rates incurred by the Department on its borrowings from Treasury and interest rates charged to target groups is also subsidized (or may provide an offset to subsidy if the Department's rate is less). The corresponding interest subsidy in loan guarantee programs is the payment of interest supplements to third-party lenders in order to pay down the

interest rates on loans made by those lenders. Subsidy costs are recognized when direct loans or guaranteed loans are disbursed to borrowers and re-estimated each year. (See Note 6)

### General Property, Plant and Equipment

The Department capitalizes single items of property and equipment with a cost of \$50,000 or more that have an estimated useful life greater than two years. Additionally, the Department capitalizes bulk purchases of property and equipment with an aggregate cost of \$500,000 or more. A bulk purchase is defined as the purchase of like items related to a specific project or the purchase of like items occurring within the same fiscal year that have an estimated useful life greater than two years. Property and equipment are depreciated over their estimated useful lives using the straight-line method of depreciation. Internal Use Software meeting the above cost and useful life criteria is also capitalized. Internal Use Software is either purchased off the shelf, internally developed, or contractor developed solely to meet the Department's needs. (See Note 7)

The Department adopted the following useful lives for its major classes of depreciable property and equipment:

#### Depreciable Property and Equipment

(In Years)

| Major Class   | Useful Life |
|---|-------------|
| Information Technology, Internal Use Software, and Telecommunications Equipment | 3           |
| Furniture and Fixtures  | 5           |

### Other Assets

Other assets include assets not reported separately on the balance sheet. The Department's other intragovernmental assets primarily consist of advance payments to federal agencies as part of interagency agreements for various goods and services. The Department's other assets (with the public) consist of payments made to grant recipients in advance of their expenditures and in-process disbursements of interest benefits and special allowance payments for the FFEL Program. (See Note 8)

### Liabilities

Liabilities represent actual and estimated amounts to be paid as a result of transactions or events that have already occurred. However, no liabilities can be paid by the Department without budget authority. Liabilities for which an appropriation has not been enacted are classified as liabilities not covered by budgetary resources, and there is no certainty that an appropriation will be enacted. The government, acting in its sovereign capacity, can abrogate liabilities that arise from activities other than contracts. FFEL Program and Direct Loan Program liabilities are entitlements covered by permanent indefinite budget authority. (See Note 10)

### Debt

The Department borrows to provide funding for the Direct Loan, FFEL, and TEACH Programs. The liability to Treasury from borrowings represents unpaid principal at year-end. The Department repays the principal based on available fund balances. Interest on the debt is calculated at fiscal year-end using rates set by Treasury, with such rates generally fixed based on the rate for 10-year Treasury securities. In addition, the Federal Financing Bank (FFB) holds bonds issued by a designated bonding authority, on behalf of the Department, for the Historically Black Colleges and Universities Capital Financing Program. The Department

reports the corresponding liability for full payment of principal and accrued interest on bonds as a payable to the FFB. (See Note 9)

### **Accrued Grant Liability**

Disbursements of grant funds are recognized as expenses at the time of disbursement. However, some grant recipients incur expenditures prior to initiating a request for disbursement based on the nature of the expenditures. A liability is accrued by the Department for expenditures incurred by grantees prior to their receiving grant funds to cover the expenditures. The amount is estimated using statistical sampling. (See Note 11)

### **Net Position**

Net position consists of unexpended appropriations and cumulative results of operations. Unexpended appropriations include undelivered orders and unobligated balances, except for federal credit financing and liquidating funds, and trust funds. Cumulative results of operations represent the net difference since inception between (1) expenses and (2) revenues and financing sources. (See Note 12)

### **Earmarked Funds**

Earmarked funds are recorded as specially identified resources, often supplemented by other financing sources, which remain available over time. These funds are required by statute to be used for designated recipients. The Department's earmarked funds are primarily related to the 2005 Hurricane Relief efforts. (See Note 20)

### **Personnel Compensation and Other Employee Benefits**

**Annual, Sick, and Other Leave.** The liability for annual leave, compensatory time off, and other vested leave is accrued when earned and reduced when taken. Each year, the accrued annual leave account balance is adjusted to reflect current pay rates. Annual leave earned but not taken, within established limits, is funded from future financing sources. (See Note 10) Sick leave and other types of non-vested leave are expensed as taken.

**Retirement Plans and Other Retirement Benefits.** Employees participate in either the Civil Service Retirement System (CSRS), a defined benefit plan or in the Federal Employees Retirement System (FERS), a defined benefit and contribution plan. For CSRS employees, the Department contributes a fixed percentage of pay.

FERS consists of Social Security, a basic annuity plan, and the Thrift Savings Plan. The Department and the employee contribute to Social Security and the basic annuity plan at rates prescribed by law. In addition, the Department is required to contribute to the Thrift Savings Plan a minimum of 1 percent per year of the basic pay of employees covered by this system and to match voluntary employee contributions up to 3 percent of the employee's basic pay, and one-half of contributions between 3 percent and 5 percent of basic pay. For FERS employees, the Department also contributes the employer's share of Medicare.

Contributions for CSRS, FERS, and other retirement benefits are insufficient to fully fund the programs and are subsidized by the Office of Personnel Management (OPM). The Department imputes its share of the OPM subsidy, using cost factors provided by OPM, and reports the full cost of the programs related to its employees.

**Federal Employees' Compensation Act.** The *Federal Employees' Compensation Act (FECA)* provides income and medical cost protection to covered federal civilian employees injured on the job, to employees who have incurred work-related occupational diseases, and to beneficiaries of employees whose deaths are attributable to job-related injuries or occupational diseases. The *FECA* Program is administered by the U.S. Department of Labor (DOL), which

pays valid claims and subsequently seeks reimbursement from the Department for these paid claims.

The *FECA* liability consists of two components. The first component is based on actual claims paid and recognized by the Department as a liability. Generally, the Department reimburses DOL within two to three years once funds are appropriated. The second component is the estimated liability for future benefit payments based on unforeseen events such as death, disability, medical, and miscellaneous costs as determined by DOL annually. (See Note 10)

### **Intragovernmental Transactions**

The Department's financial activities interact with and are dependent upon the financial activities of the centralized management functions of the federal government. Due to financial regulation and management control by OMB and Treasury, operations may not be conducted and financial positions may not be reported as they would if the Department were a separate, unrelated entity.

### **Additional Comparative Information**

Certain additional FY 2009 information is presented in the FY 2010 notes to the principal financial statements to conform to the current year presentation. (See Note 6)

**Note 2. Non-Entity Assets**

As of September 30, 2010 and 2009, non-entity assets consisted of the following:

**Non-Entity Assets**

(Dollars in Millions)

|                                 | 2010              | 2009              |
|---------------------------------|-------------------|-------------------|
| <b>Non-Entity Assets</b>        |                   |                   |
| Intragovernmental               |                   |                   |
| Fund Balance with Treasury      | \$ 93             | \$ 45             |
| <b>Total Intragovernmental</b>  | <b>93</b>         | <b>45</b>         |
| With the Public                 |                   |                   |
| Cash and Other Monetary Assets  | 2,965             | 2,414             |
| Accounts Receivable, Net        | 21                | 16                |
| Credit Program Receivables, Net | 183               | 184               |
| <b>Total With the Public</b>    | <b>3,169</b>      | <b>2,614</b>      |
| <b>Total Non-Entity Assets</b>  | <b>3,262</b>      | <b>2,659</b>      |
| Entity Assets                   | 500,402           | 403,286           |
| <b>Total Assets</b>             | <b>\$ 503,664</b> | <b>\$ 405,945</b> |

Non-entity intragovernmental assets consist of deposit fund and clearing account balances. Non-entity assets with the public primarily consist of guaranty agency reserves and Federal Perkins Program Loan Receivables. (See Notes 5 and 6)

**Note 3. Fund Balance with Treasury**

The Fund Balance with Treasury, by fund type, as of September 30, 2010 and 2009, consisted of the following:

**Fund Balances**

(Dollars in Millions)

|                                   | 2010              | 2009              |
|-----------------------------------|-------------------|-------------------|
| General Funds                     | \$ 98,792         | \$ 130,533        |
| Revolving Funds                   | 33,351            | 37,431            |
| Trust Funds                       | 5                 | 9                 |
| Special Funds                     | 18                | 14                |
| Other Funds                       | 93                | 45                |
| <b>Fund Balance with Treasury</b> | <b>\$ 132,259</b> | <b>\$ 168,032</b> |

The Status of Fund Balance with Treasury, as of September 30, 2010 and 2009, consisted of the following:

### Status of Fund Balance with Treasury

(Dollars in Millions)

|   | 2010              | 2009              |
|---|-------------------|-------------------|
| Unobligated Balance                             |                   |                   |
| Available                                       | \$ 3,784          | \$ 33,737         |
| Unavailable                                     | 15,431            | 10,444            |
| Obligated Balance, Not Yet Disbursed            | 112,390           | 122,919           |
| Authority Temporarily Precluded from Obligation | 561               | 887               |
| Non-Budgetary Fund Balance with Treasury        | 93                | 45                |
| <b>Fund Balance with Treasury</b>               | <b>\$ 132,259</b> | <b>\$ 168,032</b> |

### Note 4. Accounts Receivable

Accounts Receivable, as of September 30, 2010 and 2009, consisted of the following:

### Accounts Receivable

(Dollars in Millions)

**Note 5. Cash and Other Monetary Assets**

Cash and Other Monetary Assets consist of reserves held in the FFEL Guaranty Agency Federal Funds. Changes in the valuation of the Federal Fund increase or decrease the Department's Cash and Other Monetary Assets with a corresponding change in Payable to Treasury. The table below presents Cash and Other Monetary Assets for the periods ended September 30, 2010 and 2009.

**Cash and Other Monetary Assets**

(Dollars in Millions)

|  | 2010            | 2009            |
|--|-----------------|-----------------|
| <b>Beginning Balance, Cash and Other Monetary Assets</b> | <b>\$ 2,414</b> | <b>\$ 1,663</b> |
| Increase in Guaranty Agency Federal Funds, net           | 989             | 751             |
| Less: Collections Remitted to Treasury                   | 438             | -               |
| <b>Ending Balance, Cash and Other Monetary Assets</b>    | <b>\$ 2,965</b> | <b>\$ 2,414</b> |

The \$551 million net increase in the Federal Fund in FY 2010 reflects the impact of guaranty agencies' operations. During FY 2010, \$438 million was remitted to the Department by a guaranty agency whose agreement with the Department requires the agency to remit funds in excess of agreed-upon working capital levels. Those remitted funds were returned to Treasury.

**Note 6. Credit Programs for Higher Education**

**William D. Ford Federal Direct Loan Program.** The federal government makes loans directly to students and parents through participating institutions of higher education under the William D. Ford Federal Direct Loan Program, referred to as the Direct Loan Program. Direct loans are originated and serviced through contracts with private vendors.

The Department disbursed approximately \$75 billion in Direct Loans to eligible borrowers in FY 2010 and approximately \$38 billion in FY 2009. Loans typically are disbursed in multiple installments over an academic period; as a result, loan disbursements for an origination cohort year often cross fiscal years. Half of all loan volume is obligated in the fourth quarter of a fiscal year. Regardless of the fiscal year in which they occur, disbursements are tracked by cohort as determined by the date of obligation rather than disbursement. The substantial increase in Direct Loan Program disbursements during FY 2010 resulted from the increased use of the Direct Loan Program in accordance with the changes made by *SAFRA*.

Approximately 11 percent of Direct Loan obligations made in an individual fiscal year are never disbursed. Loan obligations are established at a summary level based on estimates of schools' receipt of aid applications. The loan obligation may occur before a student has been accepted by a school or begins classes. For Direct Loans obligated in the 2010 cohort, an estimated \$11.7 billion will never be disbursed. Eligible schools may originate direct loans through a cash advance from the Department or by advancing their own funds in anticipation of reimbursement from the Department.

The Department accrues interest receivable and records interest revenue on performing Direct Loans and, given the Department's substantial collection rates, on defaulted Direct Loans.

**Federal Family Education Loan Program.** Prior to FY 2008, the FFEL Program included only private lender loans to students and parents insured against default by the federal government. In FY 2008, the Department began administering activities under the temporary loan purchase authority by purchasing FFEL loans and participation interests in those loans directly from

lenders. As a result, the FFEL Program includes approximately \$103 billion and \$52 billion in direct federal assets as of September 30, 2010 and 2009, respectively.

*ECASLA* gave the Department temporary authority to purchase FFEL loans and interest in those loans. This authority was to expire on September 30, 2009; however, P.L. 110-350 extended the authority through September 30, 2010. The Department implemented three activities under this authority: loan purchase commitments; purchases of loan participation interests; and a put, or forward purchase commitment, with an ABCP Conduit. Credit Program Receivables are established for loans and participation interests in loans acquired through these activities.

Under the loan purchase activity, lenders have the option to sell directly to the Department fully disbursed loans originated for academic years 2007-08, 2008-09, or 2009-10. As of September 30, 2010, only loans originated for the 2009-10 academic year remain eligible for future purchase.

In loan participation transactions, lenders transfer to a custodian FFEL loans originated in academic years 2008-09 or 2009-10 on which at least one disbursement has been made. The custodian issues participation certificates to the lender that conveys a participation interest in the loans. The lender sells the participation interest in the loans to the Department at the par value of these loans. The Department remits the proceeds through the custodian to the lenders. Participation interests earn a yield payable from the lender to the Department at the rate of the 91-day commercial paper rate plus 50 basis points and reset quarterly. Funds to redeem these loans from the Department's participation interest may be obtained by selling the underlying loans to the Department or by other means.

The terms of these two purchase activities permit lenders to sell loans and participation interests in loans to the Department and require them to redeem the participated loans. Lenders must commit to redeem the certificates and sell loans by September 30; the Department must finalize all related transactions by October 15. As of September 30, 2010, the Department had \$27 billion in notices of intent to sell from lenders in the purchase commitment and loan participation purchase activities.

During FY 2009, the Department, Treasury, and OMB established the terms on which the Department would support an ABCP Conduit to provide liquidity to the student loan market. An ABCP Conduit issues short-term commercial paper to investors; this paper is backed by student loans pledged to the conduit. The conduit used the proceeds of sales of its commercial paper to acquire from lenders interests in student loans. Lenders must have used a portion of conduit payments to make new loans. Though the intent is for the conduit to meet demands on maturing paper by reissuing commercial paper, the Department, using its *ECASLA* authority, will purchase loans from the conduit as needed to ensure the conduit will be able to meet the demands on its paper if it is unable to refinance maturing commercial paper. The Department purchases those pledged loans that become more than 210 days delinquent. The conduit has sold to the Department approximately \$544 million of these delinquent loans as of September 30, 2010. Under the terms of the Put Agreement with the conduit, the Department may purchase pledged loans 45 days prior to the Put Agreement expiration on January 19, 2014. As required by the *Credit Reform Act*, all cash flows to and from the Government resulting from its transactions with the ABCP Conduit are recorded in a non-budgetary credit financing account. Amounts in this account are a means of financing and are not included in budget totals. Loans originated in academic years 2004-05 through 2007-08 are eligible to be purchased through the ABCP Conduit.

As of September 30, 2010, the Department has \$70 billion in obligations to cover any buyer-of-last-resort activities and potential purchases of underlying student loans under the ABCP Conduit. These obligations are supported by available borrowing authority. In FY 2009, the

Department estimated approximately \$4 billion in negative subsidy. The conduit, a separate legal entity, has approximately \$39 billion in commercial paper outstanding.

Beginning with FFEL loans first disbursed on or after October 1, 1993, FFEL lender financial institutions became responsible for 2 percent of the cost of each default. Guaranty agencies also began paying a portion of the cost (in most cases, 5 percent) of each defaulted loan from their Federal Fund, which consists of Federal resources held in trust by the agency. FFEL lenders receive statutorily set federal interest and special allowance subsidies. Guaranty agencies receive fee payments as set by statute. In most cases, loan terms and conditions under the Direct Loan and FFEL Programs are identical.

The estimated FFEL liability for loan guarantees is reported as the present value of estimated net cash outflows. Defaulted FFEL loans are reported net of an allowance for subsidy computed using net present value methodology, including defaults, collections, and loan cancellations. The same methodology is used to estimate the allowance on Direct Loan receivables.

The Department guaranteed \$24 billion and \$80 billion in gross non-consolidation loans to FFEL recipients during FY 2010 and FY 2009, respectively. In 2010, lenders disbursed \$20 billion in FFEL loans from the 2009 and 2010 cohorts; in 2009, lenders disbursed \$63 billion in FFEL loans from the 2008 and 2009 cohorts. As of September 30, 2010 and 2009, total principal balances outstanding of guaranteed loans held by lenders were approximately \$390 billion and \$457 billion, respectively. As of September 30, 2010 and 2009, the estimated maximum government exposure on outstanding guaranteed loans held by lenders was approximately \$382 billion and \$445 billion, respectively. Of the insured amount, the Department would pay a smaller amount to the guaranty agencies, based on the appropriate reinsurance rates, which range from 100 to 95 percent. Any remaining insurance not paid as reinsurance would be paid to lenders by the guaranty agencies from their Federal Fund. Payments by guaranty agencies do not reduce government exposure because they are made from the Federal Fund administered by the agencies but owned by the federal government.

Approximately 17 percent of guaranteed loan commitments made in an individual fiscal year are never disbursed due to the nature of the loan commitment process. For guaranteed loans committed in the 2010 cohort, an estimated \$4.0 billion will never be disbursed.

Guaranteed loans that default are initially turned over to guaranty agencies for collection, and interest receivable is accrued and recorded on the loans as the collection rate is substantial. After approximately four years, defaulted guaranteed loans not in repayment are assigned to the Department, which then collects them directly. Interest continues to accrue on assigned loans, but is only realized upon collection.

Under provisions of *SAFRA*, new loans under the FFEL Program were virtually ended as of July 1, 2010, giving the Department full responsibility for originating all federal student loans as of July 1, 2010. The new legislation effectively requires a transition from guaranteed student loans to full direct lending through the Department under the Direct Loan Program. Federal guarantees on FFEL Program loans and commitments remain in effect for loans made before July 1, 2010 until the loan is sold to the Department through an *ECASLA* program, consolidated into a direct loan, or otherwise disposed of. The FFEL Program will continue to be accounted for under credit reform accounting.

The Direct Loan Program operates as a public-private partnership leveraging the federal government's lower cost of capital with the expertise of the private sector. While the Department provides the capital for new loans through borrowing from the Treasury, private sector partners may disburse, service, and/or collect the loans. Approximately 5,000 domestic schools participating in the federal student loan programs have successfully transitioned to the

Direct Loan Program. The Department continues to work closely with higher education institutions to complete the transition to direct lending.

**Federal Perkins Loan Program.** The Federal Perkins Loan Program is a campus-based program providing low interest loans to eligible postsecondary school students. In some statutorily defined cases, funds are provided to reimburse schools for loan cancellations. For defaulted loans assigned to the Department, collections of principal, interest, and fees, net of amounts paid by the Department to cover contract collection costs, are transferred to Treasury annually.

**TEACH Program.** The Department awards annual grants up to \$4,000 to eligible undergraduate and graduate students agreeing to serve as full-time mathematics, science, foreign language, bilingual education, special education, or reading teachers at high-need schools for four years within eight years of graduation. For students failing to fulfill the service requirement, grants are converted to Direct Unsubsidized Stafford Loans. Because grants can be converted to direct loans, for budget and accounting purposes the program is operated under the *Credit Reform Act*.

**Facilities Loan Programs.** The Department administers the College Housing and Academic Facilities Loan Program, the College Housing Loan Program and the Higher Education Facilities Loan Program. From 1952 to 1993, these programs provided low-interest financing to institutions of higher education for the construction, reconstruction, and renovation of housing, academic, and other educational facilities.

The Department also administers the Historically Black Colleges and Universities (HBCU) Capital Financing Program. Since 1992, this program has given HBCUs access to financing for the repair, renovation, and, in exceptional circumstances, the construction or acquisition of facilities, equipment, and infrastructure through federally insured bonds. The Department has authorized a designated bonding authority to make the loans to eligible institutions, charge interest, and collect principal and interest payments. In compliance with statute, the bonding authority maintains an escrow account to pay the principal and interest on bonds for loans in default.

In FY 2006, Congress passed the *Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery* (P.L. 109-234). Section 2601 of this Act created a new sub-program within the HBCU Capital Financing Program under the *HEA* to provide loans on advantageous terms to HBCUs affected by Hurricanes Rita and Katrina. Under this sub-program, the interest rate charged on loans is capped at 1 percent, fees associated with the program are less than fees for the rest of the program, and institutions are not required to participate in the program's pooled escrow account. In addition, principal and interest payments on loans already made to affected HBCUs can be deferred for up to 3 years, with the Department making any payments that come due during this period. The statute gives the Department authority to make loans under the new sub-program in excess of the overall program loan caps. The Department has made four loans under the new sub-program and has assumed one default and no recoveries in making initial subsidy estimates. Based on these forecast assumptions and the expected cash flows for the new sub-program, the estimated subsidy rate for the sub-program is 76 percent. The current subsidy estimate for the sub-program is \$304 million on a loan volume of \$400 million.

### Loan Consolidations

Student and parent borrowers may prepay existing loans without penalty through a new consolidation loan. Under the *Credit Reform Act* and requirements provided by OMB Circular No. A-11, *Preparation, Submission, and Execution of the Budget*, the retirement of Direct Loans being consolidated is considered a receipt of principal and interest. This receipt is offset

by the disbursement related to the newly created consolidation loan. Underlying direct or guaranteed loans, performing or nonperforming, are paid off in their original cohort; new consolidation loans are originated in the cohort in which the new, consolidation loan was obligated. Consolidation activity is taken into consideration in establishing subsidy rates for defaults and other cash flows. The cost of new consolidations is included in subsidy expense for the current-year cohort; the effect of prepayments on existing loans could contribute to re-estimates of prior cohort costs. The loan liability and net receivables include estimates of future prepayments of existing loans through consolidations; they do not reflect costs associated with anticipated future consolidation loans.

Direct Loan Program consolidations increased from \$12.5 billion as of September 30, 2009 to \$17.1 billion as of September 30, 2010. Under credit reform accounting, the subsidy costs of new consolidation loans are not reflected until the future fiscal year in which they are disbursed. The effect of the early pay-off of the existing loans – those being consolidated – is recognized in the future projected cash flows of the past cohort year those loans were originated. FFEL to Direct Loan consolidations are part of the \$17.1 billion.

### **Modification of Subsidy Cost**

The recorded subsidy cost of a loan is based on a set of assumed future cash flows. Government actions that change these assumed future cash flows change subsidy cost and are recorded as loan modifications. Loan modifications are recognized under the same accounting principle as subsidy re-estimates. Modification adjustment transfers are required to adjust for the difference between current discount rates used to calculate modification costs and the discount rates used to calculate cohort interest expense and revenue. Separate amounts are calculated for modification costs and modification adjustment transfers. The Department modified loans in FY 2009, but not during FY 2010.

**FY 2009 Modification.** *ECASLA* and its subsequent extension contained provisions authorizing the Secretary to purchase certain categories of outstanding FFEL loans. Two programs were implemented under *ECASLA* during FY 2008 and FY 2009, both for loans from academic years 2008-09 and 2009-10: 1) a standard put program in which the Department purchases loans directly from lenders, and 2) a loan participation purchase program, under which the Department purchases participation interests in loans that holders must redeem and which they may do by sale to the Department of the underlying loans. In FY 2009, the standard put program was expanded to allow the sale of loans originated for the 2007-08 academic year. In FY 2009, the Department also implemented the ABCP Conduit program under which the Department issued a five-year commitment to purchase from the conduit loans it acquires from lenders. This program allows lenders to secure private financing from the conduit at favorable rates. The Department's purchase commitment to the ABCP Conduit applies to loans acquired by the conduit and made from October 2003 through academic year 2008-09. Additionally, in response to disruptions in the commercial paper market, the Secretary used authority to approve a temporary change in the basis for calculating special allowance payments to and from loan holders for the first quarter of FY 2009.

The net effect of changes related to loan modifications executed in FY 2009 was a downward cost of \$2.6 billion in the FFEL Program with a corresponding effect on the Liability for Loan Guarantees. Of this amount, \$526 million related to the standard loan put authority for award year 2007-08, \$778 million related to the ABCP Conduit authority, and \$1.3 billion related to the temporary change in the special allowance payment basis. The FFEL Program also recognized a net modification adjustment transfer loss of \$130 million.

**Credit Program Receivables**

Credit Program Receivables as of September 30, 2010 and 2009, consisted of the following:

**Credit Program Receivables, Net**

(Dollars in Millions)

All loans and participation interests in loans purchased by the Department under the temporary loan purchase authority are federal assets; the loan receivable represents all outstanding loans and participation interests. Approximately \$36 billion and \$9 billion in participation interests were redeemed by selling the underlying loans to the Department during FY 2010 and FY 2009, respectively.

**Federal Perkins Loan Program.** At September 30, 2010 and 2009, loan receivables, net of an allowance for loss, were \$183 million and \$184 million, respectively. These loans are valued at historical cost.

**TEACH Program.** At September 30, 2010 and 2009, loan receivables, net of an allowance for subsidy, were \$137 million and \$50 million, respectively.

| <b>Liabilities for Loan Guarantees</b>   | <b>\$ 14,479</b> | <b>\$ 20,543</b> |

<sup>1</sup> Subsidy primarily associated with debt collections and loan cancellations due to death, disability, and bankruptcy.

<sup>2</sup> Activity primarily associated with negative special allowance payments; also composed of the transfer of subsidy for defaults; loan consolidation activity; and loan cancellations due to death, disability, and bankruptcy.

The following schedules provide reconciliations between the beginning and ending balances of the allowance for subsidy for the Loan Purchase Commitment component and the Loan Participation Purchase component of the FFEL Program. These FFEL components are accounted for using credit reform accounting methodology and affect credit program receivables accordingly.

| <b>Ending Balance, Allowance for Subsidy</b>    | <b>\$ (5,090)</b> | <b>\$ (2,717)</b> |

For FY 2010, the Loan Participation Purchase net upward re-estimate of \$1.3 billion is composed of an upward cost interest rate re-estimate of \$2.6 billion along with a downward cost technical and default re-estimate of \$1.3 billion. The Loan Purchase Commitment net upward re-estimate of \$1.7 billion is composed of an upward cost interest rate re-estimate of \$1.3 billion along with an upward cost technical and default re-estimate of \$0.4 billion.

### Financing Account Interest Expense and Interest Revenue

The Department borrows from Treasury to fund the unsubsidized portion of lending activities. The Department calculates and pays Treasury interest on its borrowing at the end of each year. During the year, interest is earned on outstanding direct loans, outstanding FFEL loans purchased by the Department, participation interests, and the Fund Balance with Treasury.

Subsidy amortization is calculated, in accordance with Statement of Federal Financial Accounting Standards No. 2, *Accounting for Direct Loans and Loan Guarantees*, as the difference between interest revenue and interest expense. For direct loans, the allowance for subsidy is adjusted with the offset to interest revenue. For guaranteed loans, the liability for loan guarantees is adjusted with the offset to interest expense.

**William D. Ford Federal Direct Loan Program.** The following schedule summarizes the Direct Loan financing account interest expense and interest revenue:

#### Direct Loan Program

(Dollars in Millions)

|  | 2010             | 2009            |
|--|------------------|-----------------|
| Interest Expense on Treasury Borrowing | \$ 10,514        | \$ 7,094        |
| <b>Interest Expense</b>                | <b>\$ 10,514</b> | <b>\$ 7,094</b> |
| Interest Revenue from the Public       | \$ 7,352         | \$ 5,669        |
| Amortization of Subsidy                | 500              | (40)            |
| Interest Revenue on Uninvested Funds   | 2,662            | 1,465           |
| <b>Interest Revenue</b>                | <b>\$ 10,514</b> | <b>\$ 7,094</b> |

### Payable to Treasury

Payable to Treasury for the years ended September 30, 2010 and 2009 consisted of the following:

#### Payable to Treasury

(Dollars in Millions)

|  | 2010            | 2009            |

**Subsidy Expense****William D. Ford Federal Direct Loan Program****Direct Loan Program Subsidy Expense**

(Dollars in Millions)

|   | <b>2010</b>       | <b>2009</b>       |
|---|-------------------|-------------------|
| <b>Components of Current Year Subsidy Transfers</b> |                   |                   |
| Interest Rate Differential                          | \$ (11,708)       | \$ (7,785)        |
| Defaults, Net of Recoveries                         | 1,307             | 1,070             |
| Fees  | (1,067)           | (551)             |
| Other   | 5,158             | 2,863             |
| <b>Current Year Subsidy Transfers</b>               | <b>(6,310)</b>    | <b>(4,403)</b>    |
| Subsidy Re-estimates                                | 4,743             | (5,200)           |
| <b>Direct Loan Subsidy Expense</b>                  | <b>\$ (1,567)</b> | <b>\$ (9,603)</b> |

William D. Ford Direct Loan re-estimated subsidy cost increased \$4.7 billion in FY 2010. The majority of this increase was related to discount rate changes increasing costs \$2.2 billion. Changes in assumptions for income-based repayments and public service loan forgiveness increased subsidy cost \$611 million. Rising default rates increased subsidy cost \$226 million. Changes in other interest components, probabilistic methodology for estimating, and an uptick in consolidated weighted rates increased costs \$887 million. Other assumption updates produced offsetting costs with the remainder attributable to interest on the re-estimate. The subsidy rate is sensitive to interest rate fluctuations, for example, a 1 percent increase in projected borrower base rates would reduce projected Direct Loan subsidy cost \$662 million. Re-estimated costs only include those cohorts that are 90 percent disbursed; cohort years 1994-2009.

For 2009 re-estimated subsidy cost, Direct Loan subsidy cost was decreased \$5.2 billion. Changes in the assumption for income-based repayments decreased subsidy cost by \$3.7 billion. Rising default rates increased subsidy cost \$374 million, interest rate changes increased costs \$350 million, and changes in deferments and forbearance rates increased costs \$313 million. Other assumption updates produced offsetting costs with the remainder attributable to interest on the re-estimate. The subsidy rate is sensitive to interest rate fluctuations, for example, a 1 percent increase in projected borrower base rates would reduce projected Direct Loan subsidy cost \$455 million. Re-estimated costs only include those cohorts that are 90 percent disbursed; cohort years 1994-2008.

FFEL Guaranteed re-estimated subsidy cost decreased \$12.7 billion in FY 2010. The change in consolidated weighted rates decreased subsidy cost \$6.6 billion. Interest rates and probabilistic methodology for estimating decreased subsidy costs \$3.7 billion. ECASLA and other volume adjustments decreased subsidy cost \$1.7 billion. Loan deferment increases produced an increase in subsidy cost of \$1 billion. Other assumption updates produced offsetting costs with

the remainder attributable to interest on the re-estimate. The subsidy rate is sensitive to interest rate fluctuations, for example, a 1 percent increase in borrower interest rates and the guaranteed yield for lenders would increase projected FFEL costs by \$17 billion. Re-estimated costs only include those cohorts that are 90 percent disbursed; cohort years 1992-2009.

FFEL Participation Purchase subsidy components reported in last year's schedule were reclassified to more accurately disclose components of subsidy transfers. No change in overall subsidy expense, or allowance for subsidy, resulted from this change as of, and for the year ended, September 30, 2009.

For 2009 re-estimated subsidy cost, FFEL Guaranteed subsidy cost was decreased \$21.7 billion. Interest rate changes related to updated economic assumptions accounted for approximately \$18 billion in decreased subsidy cost. A \$1.5 billion increase in subsidy cost related to changes in deferment and forbearance rates was offset by other changes in assumptions such as \$966 million decreased cost for changes in repayment rates; loan volume changes produced a decreased subsidy cost of \$790 million. Other assumption updates produced offsetting costs with the remainder attributable to interest on the re-estimate. The subsidy rate is sensitive to interest rate fluctuations, for example, a 1 percent increase in borrower interest rates and the guaranteed yield for lenders would increase projected FFEL costs \$16.4 billion. Re-estimated costs only include those cohorts that are 90 percent disbursed; cohort years 1992-2008.

### Subsidy Rates

The subsidy rates applicable to the 2010 loan cohort year follow:

| <b>Subsidy Rates—Cohort 2010</b>   |   |                 |             |              |              |
|------------------------------------|---|-----------------|-------------|--------------|--------------|
|                                    | <b>Interest<br/>Differential/<br/>Supplements</b> | <b>Defaults</b> | <b>Fees</b> | <b>Other</b> | <b>Total</b> |
| Direct Loan Program                | (13.43%)  | 1.58%           | (1.48%)     | 6.18%        | (7.15%)      |
| TEACH Program                      | 6.00%   | 0.53%           | 0.00%       | 7.10%        | 13.63%       |
| FFEL Program (Post-1991):          |   |                 |             |              |              |
| Guaranteed Loan Program            | (1.71%)   | 0.05%           | (1.53%)     | 1.40%        | (1.79%)      |
| Temporary Loan Purchase Authority: |   |                 |             |              |              |
| Loan Purchase Commitment           | (12.40%)  | 1.22%           | 3.01%       | 2.87%        | (5.30%)      |
| Loan Participation Purchase        | (15.01%)  | 1.57%           | 3.07%       | 6.41%        | (3.96%)      |

The subsidy rate represents the subsidy expense of the program in relation to the obligations or commitments made during the fiscal year. The subsidy expense for new direct or guaranteed loans reported in the current year relate to disbursements of loans from both current and prior years' cohorts. Subsidy expense is recognized when the Department disburses direct loans or third-party lenders disburse guaranteed loans. The subsidy expense reported in the current year may include modifications and re-estimates. The subsidy rates shown above, which reflect aggregate negative subsidy in the FY 2010 cohort, cannot be applied to direct or guaranteed loans disbursed during the current reporting year to yield the subsidy expense, nor are these rates applicable to the portfolio as a whole.

The costs of the Department's student loan programs, especially the Direct Loan Program, are highly sensitive to changes in actual and forecasted interest rates. The formulas for determining program interest rates are established by statute; the existing loan portfolio has a mixture of borrower and lender rate formulas. Interest rate projections are based on probabilistic interest rate scenario inputs developed and provided by OMB.

## Administrative Expenses

Administrative Expense for the years ended September 30, 2010 and 2009, consisted of the following:

| <b>Administrative Expense</b>  |                                |                         |                                |                         |
|--------------------------------|--------------------------------|-------------------------|--------------------------------|-------------------------|
| (Dollars in Millions)          |                                |                         |                                |                         |

| Other Expense                  | 22                             | 13                      | 23                             | 13                      |
| <b>Administrative Expenses</b> | <b>\$ 558</b>                  | <b>\$ 327</b>           | <b>\$ 481</b>                  | <b>\$ 282</b>           |

## Note 7. General Property, Plant, and Equipment

General Property, Plant, and Equipment, as of September 30, 2010 and 2009, consisted of the following:

| <b>General Property, Plant, and Equipment</b>                                      |               |                                     |                            |
|--|---------------|-------------------------------------|----------------------------|
| (Dollars in Millions)  |               |                                     |                            |
|  | <b>2010</b>   |                                     |                            |
|  | <b>Cost</b>   | <b>Accumulated<br/>Depreciation</b> | <b>Net Asset<br/>Value</b> |
| Information Technology, Internal Use Software,<br>and Telecommunications Equipment | \$ 172        | \$ (144)                            | \$ 28                      |
| Furniture and Fixtures   | 3             | (3)                                 | -                          |
| <b>General Property, Plant, and Equipment</b>                                      | <b>\$ 175</b> | <b>\$ (147)</b>                     | <b>\$ 28</b>               |
|  | <b>2009</b>   |                                     |                            |
|  | <b>Cost</b>   | <b>Accumulated<br/>Depreciation</b> | <b>Net Asset<br/>Value</b> |
| Information Technology, Internal Use Software,<br>and Telecommunications Equipment | \$ 160        | \$ (122)                            | \$ 38                      |
| Furniture and Fixtures   | 3             | (3)                                 | -                          |
| <b>General Property, Plant, and Equipment</b>                                      | <b>\$ 163</b> | <b>\$ (125)</b>                     | <b>\$ 38</b>               |

The majority of the asset costs relate to financial management systems and other information technology and communications improvements.

## Leases

The Department leases information technology and telecommunications equipment as part of a contractor-owned contractor-operated services contract. Lease payments associated with the equipment are classified as operating leases and as such are expensed as incurred. The non-cancelable lease term is one year, with the Department holding the right to extend the lease term by exercising additional one-year options.

The Department leases office space from the General Services Administration (GSA). The lease contracts with GSA for privately and publicly owned buildings are operating leases.

Future lease payments are not accrued as liabilities, but expensed as incurred. Estimated future minimum lease payments for the privately owned buildings are presented below.

### Leases

(Dollars in Millions)

| 2010         |               |            | 2009         |               |            |
|--------------|---------------|------------|--------------|---------------|------------|

| <b>Total</b> | <b>\$</b>     | <b>298</b> | <b>Total</b> | <b>\$</b>     | <b>318</b> |

### Note 8. Other Assets

Other Intragovernmental Assets primarily consist of advance payments to the Department of Interior's Bureau of Indian Education under terms of an interagency agreement. Other Intragovernmental Assets were \$102 million and \$141 million as of September 30, 2010 and 2009, respectively.

Other Assets With the Public consist of payments made to grant recipients in advance of their expenditures and in-process invoices for interest benefits and special allowances for the FFEL Program. Other Assets With the Public were \$166 million and \$546 million as of September 30, 2010 and 2009, respectively.

### Note 9. Debt

Debt as of September 30, 2010 and 2009 consisted of the following:

### Debt

(Dollars in Millions)

|                              | Beginning Balance | Accrued Interest | 2010              |                    | Ending Balance    |

The amount available for repayments on borrowings to Treasury is derived from many factors. For instance, beginning of the year cash balances, collections and new borrowings have an impact on the cash available to repay Treasury. Cash is also held to cover future liabilities, such as contract collection costs and disbursements in transit.

**Note 10. Other Liabilities**

Other liabilities include current and non-current liabilities. The non-current liabilities primarily relate to the student loan receivables of the Federal Perkins Loan Program, which when collected will be returned to the General Fund of Treasury.

The current liabilities covered by budgetary resources primarily consist of downward subsidy re-estimates, which when executed will be paid to Treasury.

Other Liabilities as of September 30, 2010 and 2009 consisted of the following:

| <b>Other Liabilities</b>  |                        |                    |                        |                    |

**Liabilities Not Covered by Budgetary Resources**

Liabilities not covered by budgetary resources include liabilities for which congressional action is needed before budgetary resources can be provided. Although future appropriations to fund these liabilities are likely, it is not certain that appropriations will be enacted to fund these liabilities. Liabilities not covered by budgetary resources totaled \$239 million and \$237 million as of September 30, 2010 and 2009, respectively.

As of September 30, 2010 and 2009, liabilities on the Balance Sheet totaled \$416.1 billion and \$278.9 billion respectively. Of this amount, liabilities covered by budgetary resources totaled \$415.9 billion as of September 30, 2010, and \$278.7 billion as of September 30, 2009.

**Note 11. Accrued Grant Liability**

The accrued grant liability by major reporting groups as of September 30, 2010 and 2009, consisted of the following:

| <b>Accrued Grant Liability</b> |                 |                 |
|--------------------------------|-----------------|-----------------|
| (Dollars in Millions)          |                 |                 |

| <b>Accrued Grant Liability</b> | <b>\$ 3,744</b> | <b>\$ 2,962</b> |

**Note 12. Net Position**

Unexpended appropriations as of September 30, 2010 and 2009, consisted of the following:

| <b>Unexpended Appropriations</b>                |                  |                   |
|---|------------------|-------------------|
| (Dollars in Millions)                           |                  |                   |
|   | <u>2010</u>      | <u>2009</u>       |
| Unobligated Balances                            |                  |                   |
| Available                                       | \$ 2,323         | \$ 33,243         |
| Not Available                                   | 1,181            | 770               |
| Undelivered Orders, end of period               | 90,306           | 92,369            |
| Authority Temporarily Precluded from Obligation | 561              | 887               |
| <b>Unexpended Appropriations</b>                | <b>\$ 94,371</b> | <b>\$ 127,269</b> |

The Cumulative Results of Operations - Earmarked Funds of \$4 million as of September 30, 2010, and \$8 million as of September 30, 2009, represent donations from foreign governments, international entities and individuals to support Hurricane Katrina relief and recovery efforts that have not yet been used. (See Note 20)

The Cumulative Results of Operations - Other Funds of \$(6,773) million as of September 30, 2010, and \$(217) million as of September 30, 2009, consists mostly of unfunded upward subsidy re-estimates, other unfunded expenses, and net investments of capitalized assets.

**Note 13. Intragovernmental Cost and Exchange Revenue by Program**

As required by the *Government Performance and Results Act of 1993*, each of the Department's Reporting Organizations has been aligned with the major goals presented in the Department's *Strategic Plan 2007–2012*.

| Net Cost Program   | Reporting Organizations/ Groups | Strategic Goal  |
|--|---------------------------------|---|
| Ensure Accessibility, Affordability, and Accountability of Higher Education and Career and Technical Advancement | FSA<br>OPE<br>OVAE              | 3. Ensure the accessibility, affordability, and accountability of higher education, and better prepare students and adults for employment and future learning                                     |
| Promote Academic Achievement in Elementary and Secondary Schools   | OESE<br>OELA<br>OSDFS<br>HR     | 1. Improve student achievement, with the focus on bringing all students to grade level in reading and mathematics by 2014<br><br>2. Increase the academic achievement of all high school students |
| Transformation of Education  | IES<br>OII                      | 1. Improve student achievement, with the focus on bringing all students to grade level in reading and mathematics by 2014   |
| Special Education  | OSERS                           | Cuts across Strategic Goals 1, 2, and 3   |
| American Recovery and Reinvestment Act and Education Jobs Fund   | RA/JF                           | Cuts across Strategic Goals 1, 2, and 3   |

Strategic Goals 1, 2, and 3 are sharply defined directives that guide the Department's reporting organizations to carry out the vision and programmatic mission, and the net cost programs can be specifically associated with these three strategic goals. The Department has a Cross-Goal Strategy on Management, which is considered a high-level premise on which the Department establishes its foundation for the three goals. As a result, we do not assign specific programs to the Cross-Goal Strategy for presentation in the Statement of Net Cost.

The goals of the *Recovery Act* and Education Jobs Fund are consistent with the Department's current Strategic Goals and programs. For reporting purposes, a net cost program called American Recovery and Reinvestment Act and Education Jobs Fund has been created.

The following table presents the gross cost and exchange revenue by program for the Department for September 30, 2010 and 2009. Gross costs and earned revenue are classified as intragovernmental (exchange transactions between the Department and other entities within the federal government) or with the public (exchange transactions between the Department and non-federal entities).

**Gross Cost and Exchange Revenue by Program**

Gross Cost and Exchange Revenue by Program, as of September 30, 2010 and 2009, consisted of the following:

Federal interest expense is recognized on the Department's outstanding debt. Non-federal interest revenue is earned on the individual loans and participation interests in FFEL loans. Federal interest revenue is earned on the uninvested fund balance with Treasury.

**Note 15. Statement of Budgetary Resources**

The Statement of Budgetary Resources (SBR) compares budgetary resources with the status of those resources. As of September 30, 2010, budgetary resources were \$362,489 million and net outlays were \$235,919 million. As of September 30, 2009, budgetary resources were \$437,777 million and net outlays were \$165,158 million.

**Permanent Indefinite Budget Authority**

The Direct Loan, FFEL, and TEACH Programs have permanent indefinite budget authority through legislation. Part D of the William D. Ford Federal Direct Loan Program and Part B of

the Federal Family Education Loan Program, pursuant to the *HEA*, pertain to the existence, purpose, and availability of this permanent indefinite budget authority.

### Reauthorization of Legislation

Funds for most Department programs are authorized, by statute, to be appropriated for a specified number of years, with an automatic one-year extension available under Section 422 of the *General Education Provisions Act*. Congress may continue to appropriate funds after the expiration of the statutory authorization period, effectively reauthorizing the program through the appropriations process. The current *Budget of the United States Government* presumes all programs continue per congressional budgeting rules.

### Obligations Incurred by Apportionment Type and Category

Obligations incurred by apportionment type and category, as of September 30, 2010 and 2009, consisted of the following:

#### Obligations Incurred by Apportionment Type and Category

(Dollars in Millions)

| <b>Obligations Incurred</b> | <b><u>\$ 340,309</u></b> | <b><u>\$ 391,182</u></b> |

Obligations incurred can be either direct or reimbursable. Reimbursable obligations are those financed by offsetting collections received in return for goods and services provided, while all other obligations are direct. Category A apportionments are those resources that can be obligated without restriction on the purpose of the obligation, other than to be in compliance with legislation underlying programs for which the resources were made available. Category B apportionments are restricted by purpose for which obligations can be incurred. In addition, some resources are available without apportionment by OMB.

**Unused Borrowing Authority**

Unused borrowing authority, as of September 30, 2010 and 2009, consisted of the following:

**Unused Borrowing Authority**

(Dollars in Millions)

|  | <b>2010</b>       | <b>2009</b>       |
|--|-------------------|-------------------|
| <b>Beginning Balance, Unused Borrowing Authority</b> | <b>\$ 106,355</b> | <b>\$ 25,930</b>  |
| Current Year Borrowing Authority                     | 183,079           | 200,265           |
| Funds Drawn From Treasury                            | (155,346)         | (117,101)         |
| Borrowing Authority Withdrawn                        | (968)             | (2,739)           |
| <b>Ending Balance, Unused Borrowing Authority</b>    | <b>\$ 133,120</b> | <b>\$ 106,355</b> |

The Department is given authority to draw funds from Treasury to finance the Direct Loan, FFEL, and TEACH Programs. Unused Borrowing Authority is a budgetary resource and is available to support obligations. The Department periodically reviews its borrowing authority balances in relation to its obligations and may cancel unused amounts.

**Undelivered Orders at the End of the Period**

Undelivered orders, as of September 30, 2010 and 2009, consisted of the following:

**Undelivered Orders**

(Dollars in Millions)

|                                    | <b>2010</b>       | <b>2009</b>       |
|------------------------------------|-------------------|-------------------|
| Budgetary                          | \$ 90,281         | \$ 92,035         |
| Non-Budgetary                      | 147,260           | 132,500           |
| <b>Undelivered Orders (Unpaid)</b> | <b>\$ 237,541</b> | <b>\$ 224,535</b> |

Undelivered orders at the end of the period, as presented above, will differ from the undelivered orders included in the Net Position, Unexpended Appropriations. Undelivered orders for trust funds, reimbursable agreements, and federal credit financing and liquidating funds are not funded through appropriations and are not included in Net Position. (See Note 12)

**Distributed Offsetting Receipts**

The majority of the Distributed Offsetting Receipts line item on the SBR represents amounts paid from the Direct Loan Program and FFEL Program financing accounts to general fund receipt accounts for downward re-estimates and negative subsidies.

### Explanation of Differences Between the Statement of Budgetary Resources and the Budget of the United States Government

The FY 2012 *Budget of the United States Government* (President's Budget) presenting the actual amounts for the year ended September 30, 2010, has not been published as of the issue date of these financial statements. The FY 2012 President's Budget is scheduled for release in February 2011. A reconciliation of the FY 2009 SBR to FY 2011 President's Budget (FY 2009 actual amounts) for budgetary resources, obligations incurred, distributed offsetting receipts, and net outlays is presented below.

#### SBR to Budget of the United States Government

(Dollars in Millions)

|   | <u>Budgetary<br/>Resources</u> | <u>Obligations<br/>Incurred</u> | <u>Distributed<br/>Offsetting<br/>Receipts</u> | <u>Net Outlays</u>       |
|---|--------------------------------|---------------------------------|--|--------------------------|
| <b>Combined Statement of Budgetary Resources</b>      | \$ 437,777                     | \$ 391,182                      | \$ 31,763                                      | \$ 165,158               |
| Expired Funds   | (1,377)                        | (630)                           | -  | -                        |
| Amounts included in the President's Budget            | 11,787                         | 11,787                          | -  | -                        |
| Funds excluded from President's Budget and Rounding   | (3)                            | 2                               | (4)  | -                        |
| <b><i>Budget of the United States Government*</i></b> | <b><u>\$ 448,184</u></b>       | <b><u>\$ 402,341</u></b>        | <b><u>\$ 31,759</u></b>                        | <b><u>\$ 165,158</u></b> |

\*Amounts obtained from the Appendix, Budget of the United States Government, FY 2011.

The President's Budget includes a public enterprise fund that reflects the gross obligations by the FFEL Program for the estimated activity of the consolidated Federal Funds of the guaranty agencies. Ownership by the federal government is independent of the actual control of the assets. Since the actual operation of the Federal Fund is independent from the Department's direct control, budgetary resources and obligations are estimated and disclosed in the President's Budget to approximate the gross activities of the combined Federal Funds. Amounts reported on the FY 2009 SBR for the Federal Fund are compiled through combining all guaranty agencies' annual reports to determine a net valuation amount for the Federal Fund.

**Note 16. Reconciliation of Net Cost of Operations to Budget**

The Reconciliation of Net Cost of Operations (proprietary) to Budget provides information on how budgetary resources obligated during the period relate to the net cost of operations. The schedule presented in this note reconciles budgetary resources with the net cost of operations by (1) removing resources that do not fund net cost of operations and (2) including components of net cost of operations that did not generate or use resources during the year.

Components Requiring or Generating Resources in Future Periods includes subsidy re-estimates that will be executed in future periods. The Reconciliation of Net Cost of Operations to Budget as of September 30, 2010 and 2009, are presented below:

**Reconciliation of Net Cost of Operations to Budget**

(Dollars in Millions)

|   | <b>2010</b>        | <b>2009</b>        |
|---|--------------------|--------------------|
| <b>Resources Used to Finance Activities</b>   |                    |                    |
| Obligations Incurred  | \$ (340,309)       | \$ (391,182)       |
| Spending Authority from Offsetting Collections and Recoveries   | 59,110             | 56,300             |
| Offsetting Receipts   | 29,046             | 31,763             |
| Imputed Financing from Costs Absorbed by Others   | (30)               | (32)               |
| <b>Total Resources Used to Finance Activities</b>   | <b>(252,183)</b>   | <b>(303,151)</b>   |
| <b>Resources Used to Finance Items Not Part of Net Cost of Operations</b>   |                    |                    |
| Change in Budgetary Resources Obligated for Goods, Services, and Benefits Ordered but Not Yet Provided (+/-)  | (13,755)           | (137,170)          |
| Resources that Fund Expenses Recognized in Prior Period   | 10,883             | 1,091              |
| Credit Program Collections which Increase/Decrease Liabilities for Loan Guarantees, or Credit Program Receivables, Net including Allowances for Subsidy                           | 43,806             | 39,495             |
| Resources Used to Finance the Acquisition of Fixed Assets, or Increase/Decrease Liabilities for Loan Guarantees or Credit Program Receivables, Net in the Current or Prior Period | (180,400)          | (147,800)          |
| <b>Total Resources Used to Finance Items Not Part of the Net Cost of Operations</b>   | <b>(139,466)</b>   | <b>(244,384)</b>   |
| <b>Components Not Requiring or Generating Resources</b>   |                    |                    |
| Depreciation and Amortization   | 1,469              | 325                |
| Other (+/-)   | -                  | 448                |
| <b>Total Components of the Net Cost of Operations that Will Not Require or Generate Resources</b>   | <b>1,469</b>       | <b>773</b>         |
| <b>Components Requiring or Generating Resources in Future Periods</b>   |                    |                    |

| Upward/Downward Re-estimates of Credit Subsidy Expense  | 5,785              | 10,883             |
| Increase in Exchange Revenue Receivable from the Public   | 5,868              | 2,957              |
| Other (+/-)   | (76)               | (7)                |
| <b>Total Components of the Net Cost of Operations that Will Require or Generate Resources in Future Periods</b>   | <b>11,574</b>      | <b>13,833</b>      |
| <b>Net Cost of Operations</b>   | <b>\$ (99,674)</b> | <b>\$ (44,161)</b> |

**Note 17. Incidental Custodial Collections**

The Department administers certain activities associated with the collection of non-exchange revenues. The Department collects these amounts in a custodial capacity and transfers the amounts collected to the General Fund of the Treasury at the end of each fiscal year. These collections primarily consist of penalties on accounts receivable and are considered incidental to the primary mission of the Department. During FY 2010 and FY 2009, the Department collected \$0.6 million and \$1.0 million, respectively, in custodial revenues.

**Note 18. American Recovery and Reinvestment Act of 2009**

The *Recovery Act* provided \$97,407 million to the Department in supplemental appropriations for job preservation and state and local fiscal stabilization. This investment was made available for use in saving jobs, supporting states and local school districts, and advancing reforms and improvements in the education of our nation's children and youth from early learning programs through postsecondary education.

The *Recovery Act* created the State Fiscal Stabilization Fund (SFSF), a new program in which the Department awards grants to governors to help save jobs and drive education reform. The majority of SFSF funding was provided for awards made by formula in exchange for a commitment to advance essential education reforms to benefit children and youth from early learning through postsecondary education, increasing teacher effectiveness and ensuring an equitable distribution of qualified teachers, and turning around the lowest-performing schools. There are also two competitive programs within the SFSF: Race to the Top and Investing in Innovation. Race to the Top grants are being awarded to states that are leading the way with ambitious yet achievable plans for implementing coherent, compelling, and comprehensive education reform. Innovation and Improvement awards will support the development, validation, and expansion of revolutionary approaches to improving student achievement.

*Recovery Act* funding also was provided for several of the Department's key programs, including Student Financial Assistance, Education for the Disadvantaged, Special Education, School Improvement Programs, Rehabilitation Services and Disability Research, Institute of Education Sciences, Innovation and Improvement, Impact Aid, and Higher Education. In addition, *Recovery Act* funding was provided for Student Aid Administration and to the Office of Inspector General.

The status of *Recovery Act* funding as of September 30, 2010 and 2009 are presented below:

### American Recovery and Reinvestment Act of 2009

**Note 19. Education Jobs Fund**

P.L. 111-226, enacted on August 10, 2010, created an Education Jobs Fund which allows the Department to provide assistance in saving and creating education jobs. This investment of \$10 billion was made available to states through formula grants for use in the 2010-2011 school year for teachers and other employees of our nation's children and youth from early learning programs through secondary education. As of September 30, 2010, \$9,007 million has been obligated and \$1,232 million has been expended to support states and local school districts in their effort to save jobs.

**Note 20. 2005 Hurricane Relief**

The *Hurricane Education Recovery Act* (P.L. 109-148, Division B, Title IV), enacted on December 30, 2005, and the *U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007*, appropriated funds to the Department to provide needed assistance to reopen schools and help educate the estimated 370,000 students affected by Hurricanes Katrina and Rita. As of September 30, 2010, \$1,945 million has been appropriated to the Department, of which \$1,939 million has been obligated to assist local educational agencies and non-public schools, and \$1,845 million has been expended. As of September 30, 2009, \$1,945 million had been appropriated to the Department, of which \$1,941 million had been obligated to assist local educational agencies and non-public schools, and \$1,818 million has been expended.

**Earmarked Funds Donated for Hurricane Relief**

In the aftermath of Hurricane Katrina, a number of foreign governments, international entities, and individuals made donations of financial assistance to the U.S. Government to support Katrina relief and recovery efforts. These donations were received by the U.S. Department of State as an intermediary. Subsequently, \$61 million was transferred to the Department to finance educational initiatives in Louisiana and Mississippi under a Memorandum of Understanding issued in March 2006. As of September 30, 2010, \$61 million has been obligated from the earmarked funds to assist in the relief and recovery efforts and \$57 million has been expended. As of September 30, 2009, \$61 million has been obligated from the earmarked funds to assist in the relief and recovery efforts and \$53 million has been expended.

**Note 21. Contingencies****Guaranty Agencies**

The Department can assist guaranty agencies experiencing financial difficulties by various means. No provision has been made in the principal statements for potential liabilities related to financial difficulties of guaranty agencies because the likelihood of such occurrences cannot be estimated with sufficient reliability.

**Federal Perkins Loan Program Reserve Funds**

The Federal Perkins Loan Program is a campus-based program providing financial assistance to eligible postsecondary school students. In FY 2010, the Department provided funding of 82.5 percent of the capital used to make loans to eligible students through participating schools at 5 percent interest. The schools provided the remaining 17.5 percent of program funding. For the latest academic year ended June 30, 2010, approximately 441 thousand loans were made, totaling approximately \$816.4 million at 1,540 institutions, averaging \$1,852 per loan. The Department's share of the Federal Perkins Loan Program was approximately \$6.6 billion as of June 30, 2010.

In FY 2009, the Department provided funding of 82.4 percent of the capital used to make loans to eligible students through participating schools at 5 percent interest. The schools provided the remaining 17.6 percent of program funding. For the academic year ended June 30, 2009, approximately 494 thousand loans were made, totaling approximately \$954.8 million at 1,607 institutions, averaging \$1,934 per loan. The Department's share of the Federal Perkins Loan Program was approximately \$6.5 billion as of June 30, 2009.

Federal Perkins Loan Program borrowers who meet statutory eligibility requirements—such as service as a teacher in low-income areas, as a Peace Corps or VISTA volunteer, in the military or in law enforcement, in nursing, or in family services—may receive partial loan forgiveness for each year of qualifying service. In these circumstances, a contingency is deemed to exist. The Department may be required to compensate Federal Perkins Loan Program institutions for the cost of the partial loan forgiveness.

### **Litigation and Other Claims**

The Department is involved in various lawsuits incidental to its operations. In the opinion of management, the ultimate resolution of pending litigation will not have a material effect on the Department's financial position.

### **Other Matters**

Some portion of the current-year financial assistance expenses (grants) may include funded recipient expenditures that are subsequently disallowed through program review or audit processes. In the opinion of management, the ultimate disposition of these matters will not have a material effect on the Department's financial position.
