The Literacy Information and Communication System (LINCS) is a Department initiative that seeks to expand evidence-based practice in the field of adult literacy. LINCS provides high-quality, on-demand educational opportunities to practitioners of adult education in order to help adult learners successfully transition to postsecondary education and employment. LINCS is comprised of three components: 1) the LINCS Resource Collection provides free online access to high-quality, evidence-based materials and self-access courses to help practitioners and state and local staff improve programs, services, instruction and teacher quality; 2) LINCS Regional Professional Development Centers work with states to offer practitioners training and professional development activities; and 3) LINCS Community provides an online social learning space (a community of practice) for networking, information sharing, and collaboration among adult education leadership, professional developers, administrative staff, and practitioners across the country. <http://lincs.ed.gov/>

## Program Inventory

The *GPRA Modernization Act of 2010*, P.L. 111-352, requires that OMB establish a single website with a central inventory of all federal programs, including the purpose of each program and its contribution to the mission and goals of the Department. The initial Federal Program Inventory was published in May 2013. The Department described each program within 27 budgetary accounts, as well as how the programs support the Department's broader strategic goals and objectives.

Since that time, Congress passed the *Digital Accountability and Transparency Act* (DATA Act) requiring new public reporting requirements, which impact the definition of program used in this guidance. OMB is currently working with agencies to merge the implementation of the DATA Act and the Federal Program Inventory requirements to the extent possible to avoid duplicative efforts. While OMB and agencies determine the right implementation strategy, the initial Federal Program Inventory remains available on the Department's website and at Performance.gov.

It also offers a wide variety of primary documents, photos, and videos. In addition, FREE allows educators to follow via Twitter, a social network, which facilitates the sharing of ideas. This tool acts as a library of digital resources for educators to help them enrich their lessons. <http://free.ed.gov/>

## Practice Guides for Educators

The Department offers guides that help educators address everyday challenges faced in classrooms and schools. Developed by a panel of nationally recognized experts, practice guides consist of actionable recommendations, strategies for overcoming potential roadblocks, and an indication of the strength of evidence supporting each recommendation. The guides themselves are subjected to rigorous external peer review. Users can sort by subject area, academic level, and intended audience to find the most recent, relevant, and useful guides.
