I. PAYMENT REPORTING

Office of Management and Budget (OMB) Memorandum M-18-20 defines an improper payment as any payment that should not have been made or that was made in an incorrect amount under statutory, contractual, administrative, or other legally applicable requirements. Incorrect amounts are overpayments or underpayments that are made to eligible recipients (including inappropriate denials of payment or service, any payment that does not account for credit for applicable discounts, payments that are for an incorrect amount, and duplicate payments). An improper payment also includes any payment that was made to an ineligible recipient or for an ineligible good or service, or payments for goods or services not received (except for such payments authorized by law). In addition, when an agency’s review is unable to discern whether a payment was proper as a result of insufficient or lack of documentation, this payment should also be considered an improper payment.

The Department places a high value on maintaining the integrity of all types of payments made to ensure that the billions of dollars in federal funds it disburses annually reach intended recipients in the right amount and for the right purpose. The Department ensures payment integrity by establishing effective policies, business processes, systems, and controls over key payment activities, including those pertaining to: payment data quality, cash management, banking information, third-party oversight, assessments of audit reports, and financial reporting. The number and dollar value of improper payments are key indicators of payment integrity. Accordingly, the Department maintains a robust internal control framework that includes over 500 controls designed to help prevent, detect, and recover improper payments. In designing controls, the Department attempts to strike the right balance between making timely and accurate payments and ensuring that controls put in place are not too costly or overly burdensome and thereby deter intended beneficiaries from obtaining funds they are entitled to receive. Additionally, the Department must rely heavily on controls established by external entities that receive Department payments, including federal, state, and private organizations and institutions, because they further distribute the funds they receive from the Department to subordinate organizations and individuals. Because these “third-party” controls are outside of the Department’s operational control, they present a higher risk to the Department, as evidenced by the work of the Department’s Office of Inspector General (OIG) and our root cause analysis. When control deficiencies are detected, either within the Department or at external entities, the Department seeks to identify their root causes, develop corrective action plans, and track corrective actions through to completion.

Readers can obtain more detailed information on improper payments at https://paymentaccuracy.gov.

DESCRIPTION OF RISK-SUSCEPTIBLE AND HIGH-PRIORITY PROGRAMS

In FY 2018, the Pell Grant and Direct Loan programs continued to be susceptible to significant improper payments and remained OMB-designated high priority programs. The Department continues to place additional emphasis to ensure payment integrity and minimize improper payments in these two important programs as required by OMB guidance. Please refer to the Internal Controls Section of this agency financial report (AFR) for more information. Details on improper payment estimates and root causes for both programs are included within the Improper Payment Estimates, Payment Reporting Root Cause Categories, and Improper Payment Corrective Actions sub-sections that follow and in Section VII.

PELL GRANT

The Pell Grant program, authorized under Title IV of the Higher Education Act of 1965 (HEA), provides need based grants to low-income undergraduate and certain post baccalaureate students to promote access to postsecondary education.
DIRECT LOAN

The Direct Loan program, added to HEA in 1993 by the Student Loan Reform Act of 1993, authorizes the Department to make loans through participating schools to eligible undergraduate and graduate students and their parents.

IMPROPER PAYMENT ESTIMATES

The Department used a nonstatistical sampling and estimation methodology to estimate the improper payment rate for the Pell Grant and Direct Loan programs in FY 2018. Please refer to Section VII, Sampling and Estimation Methodology, for additional details about the methodology and its statistical limitations.

The Department’s nonstatistical methodology was revised in FY 2017 to address volatility issues, as described further below in Section VII, Sampling and Estimation Methodology, but imprecision and volatility in the improper payments estimates continue that limit the ability to establish accurate out-year reduction targets. Accordingly, reduction targets were set to the current year improper payment percentages. The Department is implementing a statistically valid methodology in FY 2019 to improve the accuracy of the improper payment estimates.

Readers can obtain more detailed information on improper payments and all of the information reported in the past AFR at https://paymentaccuracy.gov.

Figure 17, FY 2018 Source of Improper Payments, summarizes the estimated amount of improper payments made directly by the Department and the amount of improper payments made by recipients of federal money in FY 2018 for the Pell Grant and Direct Loan programs. Improper payments attributed to the Department include, for Pell, estimates of misreported income for students not selected for verification and who did not use the Internal Revenue Service (IRS) Data Retrieval Tool (DRT) and, for Direct Loan, Consolidation and Refund improper payments related to the Department’s loan servicing operations. Improper payments attributed to recipients of federal money include improper disbursements of Title IV funds by schools.
PAYMENT REPORTING ROOT CAUSE CATEGORIES

Our analysis indicated that the underlying root causes of improper payments for the Pell Grant and Direct Loan programs in FY 2018 were “Failure to Verify—Financial Data” and “Administrative or Process Errors Made by—Other Party.” The root causes were identified through improper payment fieldwork and categorized using categories of error as defined in the June 2018 update to OMB Circular A-123, Appendix C (OMB Memorandum M-18-20). Specific root causes associated with the “Failure to Verify—Financial Data” category include, but are not limited to, ineligibility for a Pell Grant or Direct Loan and incorrect self-reporting of an applicant’s information that leads to incorrect awards based on Expected Family Contribution. Specific root causes associated with the “Administrative or Process Errors Made by—Other Party” category include, but are not limited to, incorrect processing of student data by institutions during normal operations; student account data changes not applied or processed correctly; satisfactory academic progress not achieved; incorrectly calculated return records by institutions returning Title IV student aid funds; and processing errors at the servicer level.

IMPROPER PAYMENT CORRECTIVE ACTIONS

This section presents the corrective actions for the Pell Grant and Direct Loan programs.

The Department has established an integrated system of complementary oversight functions to help prevent, detect, and recover improper payments, and ensure compliance by all participating parties. These oversight functions include FSA’s Enforcement Unit and Program Compliance, among others. FSA’s Enforcement Unit is focused on identifying, investigating and adjudicating statutory and regulatory violations of the federal student aid programs and on resolving borrower defense claims. The Unit plays a central role in coordinating efforts to prevent third-party companies associated with student aid programs from harming students, parents and borrowers. Program Compliance likewise plays a central role in monitoring and oversight of the institutions (i.e., schools, guaranty agencies, lenders, and servicers) participating in the Department’s FSA programs. The office establishes and maintains systems and procedures to support the eligibility, certification, and oversight of program participants. Program Compliance annually conducts approximately 100–300 Program Reviews of the approximately 6,000 eligible schools to assess institutions’ compliance with Title IV regulations. Program Compliance evaluates a school’s compliance with federal requirements, assesses liabilities for errors in performance, and identifies actions the school must take to make the Title IV, HEA programs, or the recipients, whole for any funds that were improperly managed and to prevent the same problems from recurring. A school with serious violations may be placed on heightened cash monitoring (HCM) for disbursements, lose funding for specific programs, or be terminated from participation in all Title IV programs for noncompliance.
The corrective actions listed below are specific to the root causes of improper payments identified from FY 2018 improper payment fieldwork.

<tbody>
<tr>
<td>Failure to Verify Financial Data (Identified from Program Reviews)</td>
<td>Incorrect awards based on Expected Family Contribution (EFC)</td>
<td>EFC is a number that determines students’ eligibility for federal student aid. The EFC formulas use the financial information students provide on their Free Application for Federal Student Aid (FAFSA) to calculate the EFC. Financial aid administrators (FAAs) subtract the EFC from students’ cost of attendance (COA) to determine their need for federal student financial assistance offered by the Department. On August 20, 2018, FSA published the 2019–2020 EFC Formula Guide. The Guide includes EFC worksheets and tables for the 2019–2020 processing cycle, which can help calculate an estimated EFC for students. The Guide provides information about the EFC formula worksheets, and direction about when to use the respective worksheets. FSA will publish the 2020–2021 Guide with updates to address any changes to the formulas and to clarify existing guidance. In FY 2018, the FSA Training Conference for Financial Aid Professionals was held from November 28 to December 1, 2017. The FSA Training Conference is a series of training and technical assistance programs provided by the Department for financial aid professionals charged with administering the Title IV student financial assistance programs on their campuses. In FY 2018, FSA addressed topics related to incorrect awards based on EFC. Over 2,000 unique schools registered for the FY 2018 conference. All 50 states were represented as well as the U.S. territories. More than 160 Foreign School officials attended from countries all over the world. Also, 26 percent of attendees were first-time attendees. The session recordings are publicly available. In FY 2019, FSA will again hold the FSA Training Conference. FSA will promote the training to financial aid professionals. The Training Conference will provide guidance about preventing incorrect awards based on EFC. FSA annually publishes the FSA Handbook. This publication is intended to provide guidance to college financial aid administrators and counselors about the administration of Title IV aid. The 2018–2019 Handbook includes a volume about Student Eligibility, including eligibility for program funds based on EFC. The Handbook provides examples and guidance about using EFC to determine and calculate eligibility. FSA will publish an updated volume for 2019–2020, including content which addresses incorrect awards based on EFC. FSA has also designed, in collaboration with financial aid professionals, the FSA Assessments to help schools with compliance and improvement activities. The Assessments contain links to applicable laws and regulations related to administering Title IV funds. The Assessments address topics related to incorrect awards based on EFC, such as student eligibility and financial need and packaging. FSA updated the Assessments in the spring of 2018. In FY 2019, FSA will again update the FSA Assessments to help address incorrect awards based on EFC. FSA also offers a variety of free training, including Fundamentals of Federal Student Aid Administration training workshops, required when schools apply for initial participation in the Federal Student Aid programs and for a variety of other reasons. These workshops are also open to anyone who wishes to attend. In FY 2019, FSA will hold 4.5 day in-person training workshops at the Department’s 11 regional training facilities. FSA also offers FSA Coach, online self-paced training on the concepts, processes and systems to properly administer Federal Student Aid programs, along with a suite of other e-training available via <a href="https://fssatraining.info/">https://fssatraining.info/</a>. Training is focused on specific topics of interest such as those related to correctly awarding funds based on EFC. In FY 2018, FSA published updated training content. In FY 2019, FSA will continue to update training content to help financial aid professionals with the mastery of the knowledge and skills needed to correctly award based on EFC. The Department maintains a blog to provide insights on the activities of schools, programs, grantees, and other education stakeholders to promote continuing discussion of educational innovation and reform. For example, on September 28, 2018, the Department published an article about how to fill out the FAFSA form when there is more than one child in college, which may impact EFC. The Department will continue to update the blog to address topics such as incorrect awards based on EFC. In FY 2019, FSA will publish an updated EFC Formula Guide for award year 2020–2021. FSA will hold the FY 2019 FSA Training Conference for Financial Aid Professionals from November 27 to November 30, 2018. In FY 2019, FSA will publish the 2019–2020 FSA Handbook, including updated content that addresses incorrect awards based on EFC. In FY 2019, FSA will update the FSA Assessments to help address incorrect awards based on EFC. In FY 2019, FSA will publish updated free training content. In FY 2019, the Department will maintain its blog, publishing additional articles which address topics such as incorrect awards based on EFC.</td>
<td>In FY 2019, FSA will publish an updated EFC Formula Guide for award year 2020–2021. </tr>
</tbody>
</table>
Verification is the process where schools, in partnership with FSA, confirm the accuracy of select data reported by students on their FAFSA. FSA’s Central Processing System selects which applications are to be verified. Schools also have the authority to verify additional students. Students selected for verification are placed in one of several verification tracking groups to determine which FAFSA information must be verified. Items verified include Adjusted Gross Income (AGI), taxes paid, and other tax data. Income verification helps detect and prevent misreported income.

In FY 2018, FSA completed an analysis of the verification data to inform the upcoming award year cycle before launch (to allow for system changes) using the most recently available data at that time. In FY 2019, FSA will continue to refine the verification selection process. As with prior years’ verification selection, data-based statistical analysis will continue to be used by the Department to select for verification of the 2019–2020 FAFSA applicants with the highest statistical probability of error and the impact of such error on award amounts.

In FY 2018, FSA published an updated listing of FAFSA information schools and applicants may be required to verify for the 2019–2020 award year. This notice was published in the Federal Register on March 28, 2018. In FY 2019, FSA will continue to enhance verification procedures, requiring selected schools to verify specific information reported on the FAFSA by student aid applicants. FSA will publish an updated notice in the Federal Register announcing the FAFSA information schools and financial aid applicants may be required to verify, as well as the acceptable documentation for verifying FAFSA information.

From November 28 to December 1, 2017, FSA held its annual FSA Training Conference for Financial Aid Professionals to provide training and technical assistance to financial aid professionals charged with administering the Title IV student financial assistance programs. FSA addressed topics related to verification, including a session on professional judgement and verification, and a session on institutional resolution of conflicting information between the 2017–2018 and 2018–2019 FAFSAs. The session recordings are publicly available. In FY 2019, FSA will again hold the FSA Training Conference. FSA will promote the training to financial aid professionals. The Training Conference will provide updated guidance to help prevent verification deficiencies.

FSA annually publishes the FSA Handbook. This publication is intended for college financial aid administrators and counselors. In FY 2018, FSA published a 2018–2019 Verification Guide as part of the 2018–2019 FSA Handbook. The Guide was updated as of December 2017. The updates for 2018–2019 include updates to address changing requirements, and clarify existing requirements. For FY 2019, FSA will publish an updated Verification Guide to address any new requirements and to provide additional clarification about existing requirements.

FSA also publishes questions and answers about verification on its website. Questions and answers were updated in FY 2018 to help clarify verification requirements. FSA will continue to update the frequently asked questions and answers, if updates are identified.

FSA designed, in collaboration with financial aid professionals, a Verification Assessment, part of the FSA Assessments that help schools with compliance and improvement activities. The Verification Assessment, updated in May 2018, contains a consolidated set of links to applicable laws and regulations to assist schools with understanding the verification requirements, and guidance and examples of verification issues, such as conflicting information.

FSA also offers free verification related training via FSACoach, a suite of interactive courses for new and experienced financial aid administrators in the essential knowledge and skills needed to successfully administer the federal student aid programs, and other e-training. For FY 2019, FSA will publish updated training content that addresses annual updates for the new award year, and interactive exercises and self-assessments to help financial aid professionals with the mastery of the knowledge and skills needed to properly perform verification.

In FY 2019, FSA will complete an analysis of the verification data to inform the upcoming award year cycle approximately nine months before launch (to allow for system changes) using the most recently available data at that time. In FY 2019, FSA will publish an updated listing of FAFSA information schools and applicants may be required to verify for the 2019–2020 award year. FSA will hold the FY 2019 FSA Training Conference for Financial Aid Professionals from November 27 to November 30, 2018. In FY 2019, FSA will publish the 2019–2020 Verification Guide, including updated content that addresses verification deficiencies.

In FY 2019, FSA will publish updates to questions and answers about verification requirements to its website, if identified.

In FY 2019, FSA will update the Verification Assessment to help address verification deficiencies.

In FY 2019, FSA will publish updated free training content related to verification.

<th>Failure to Verify Financial Data (Identified from Program Reviews)</th>
<th>Verification deficiencies</th>
</tr>
</thead>
</table>

FSA continues to utilize and promote the IRS DRT, which enables Title IV student aid applicants and, as needed, parents of applicants, to transfer certain tax return information from an IRS website directly to their online FAFSA. The IRS DRT remains the fastest, most accurate way to input tax return information into the FAFSA form.

To increase IRS DRT usage, and thereby reduce improper payments associated with misreported income, FSA has taken action to vigorously increase access to and promote the tool. For the 2018–2019 application cycle, FSA expanded the population available to use the tool to include amended tax returns. Additionally, the data transferred from the IRS was masked to improve the privacy of applicant and parent tax information. As part of the ongoing effort to expand usage of the IRS DRT by applicants and parents, FSA publishes information about the benefits and use of the IRS DRT, including on its blog, and sends electronic announcements via Information for Financial Aid Professionals (IFAP) urging institutions to promote the use of the IRS DRT. FSA actively monitors the impact of its promotion of the IRS DRT. For example, FSA reports IRS DRT usage figures, disaggregated by dependency status and tax filing status on a quarterly basis. The impact of efforts to promote use of the IRS DRT is also assessed through reporting of IRS DRT usage via [paymentaccuracy.gov](http://paymentaccuracy.gov). FSA also conducts an annual FAFSA/IRS Data Statistical Study (Study). This Study includes an analysis of Pell applicants based on IRS DRT usage. Additionally, FSA monitors anecdotal reports from schools and IRS DRT users via annual surveys, usability studies, and the FSA Feedback System, among other mechanisms.

The Department is also coordinating with the Treasury Department and OMB to pursue legislation that would provide an exemption to the IRS Tax Code Section 6103 that would further streamline FSA's ability to receive and verify applicants' and borrowers' income data. The Department expects this to have a meaningful impact on IRS DRT usage, reducing improper payments, reducing burden on applicants and schools, and reducing burden on borrowers' income data.

Given the importance of IRS DRT usage in preventing misreported income, IRS DRT usage is reported on [paymentaccuracy.gov](http://paymentaccuracy.gov) for the Pell Grant and Direct Loan programs. The usage results will be posted by the end of November, 2018. Exemption to the IRS Tax Code Section 6103 is pending legislative changes.

<tr>
<th>Administrative or Process Errors by Other Party (Identified from Program Reviews)</th>
<th>Incorrect processing of funds during normal operations</th>
</tr>
</thead>
</table>

Incorrect processing of funds during normal operations includes failure to properly pay credit balances, ineligible use of Title IV funds, incorrect disbursement periods, inaccurate application of credit balance to charges for program overages, incorrect calculation of lifetime eligibility used (LEU) and Direct Loan annual loan limits, and incorrect calculation of COA.

From November 28 to December 1, 2017, FSA held its annual FSA Training Conference for Financial Aid Professionals to provide training and technical assistance to financial aid professionals charged with administering the Title IV student financial assistance programs. The FY 2018 Training Conference included several sessions related to processing of funds during normal operations. The session recordings are publicly available. In FY 2019, FSA will again hold the FSA Training Conference. FSA will promote the training to financial aid professionals. The Training Conference will provide updated guidance related to processing of funds during normal operations.

FSA annually publishes the FSA Handbook for college financial aid administrators and counselors. The 2018–2019 Handbook includes volumes about Calculating Awards & Packaging, and Processing Aid and Managing FSA Funds. These volumes provide examples and guidance about processing of funds during normal operations. FSA will publish updated volumes for 2019–2020.

FSA designed, in collaboration with financial aid professionals, a Fiscal Management and Student Eligibility Assessment, part of the FSA Assessments that help schools with compliance and improvement activities. The Fiscal Management Assessment and Student Eligibility Assessment, updated in February 2018 and June 2018, respectively, contain a consolidated set of links to applicable laws and regulations related to processing of funds during normal operations, and related guidance, worksheets, and checklists to help schools comply with these requirements.

FSA also offers free training related to processing of funds during normal operations via FSA Coach, a suite of interactive courses for new and experienced financial aid administrators in the essential knowledge and skills needed to successfully administer the federal student aid programs, and other e-training. For FY 2019, FSA will publish updated training content that addresses annual updates for the new award year, and interactive exercises and self-assessments to help financial aid professionals with the mastery of the knowledge and skills needed to process funds during normal operations.

FSA will hold the FY 2019 FSA Training Conference for Financial Aid Professionals from November 27 to November 30, 2018.

In FY 2019, FSA will publish the 2019–2020 FSA Handbook, including updated content that addresses processing of funds during normal operations.

In FY 2019, FSA will update the Fiscal Management and Student Eligibility Assessments.

In FY 2019, FSA will publish updated free training content related to processing of funds during normal operations.
Incorrect processing of student data during normal operations includes inaccurate or inadequate tracking of clock hours, credit hours, and other documentation of attendance.

From November 28 to December 1, 2017, FSA held its annual FSA Training Conference for Financial Aid Professionals to provide training and technical assistance to financial aid professionals charged with administering the Title IV student financial assistance programs. The FY 2018 Training Conference included several related sessions: Administering Adds, Drops, and Withdrawals; Basics of Determining Academic Calendars (Standard, NonStandard, and NonTerm); and Administering Title IV Aid for Transfer Students. The session recordings are publicly available. In FY 2019, FSA will again hold the FSA Training Conference. FSA will promote the training to financial aid professionals. The Training Conference will provide updated guidance about processing of student data during normal operations.

FSA annually publishes the FSA Handbook for college financial aid administrators and counselors. The 2018–2019 Handbook includes a Student Eligibility volume, updated in May 2018, which includes a section devoted to enrollment status. This volume provides examples and guidance about processing of student data during normal operations. FSA will publish an updated volume for 2019–2020.

FSA designed, in collaboration with financial aid professionals, a Fiscal Management and Student Eligibility Assessment, part of the FSA Assessments that help schools with compliance and improvement activities. The Fiscal Management Assessment and Student Eligibility Assessment, updated in February 2018 and June 2018, respectively, contain links to applicable laws and regulations about disbursing funds to regular students enrolled in eligible programs and enrollment record retention. The Assessments also include related guidance, worksheets, and checklists to help schools comply with these requirements.

FSA also offers free training related to processing of student data during normal operations via FSA Coach, a suite of interactive courses for new and experienced financial aid administrators in the essential knowledge and skills needed to successfully administer the federal student aid programs, and other e-training. For FY 2019, FSA will publish updated training content that addresses annual updates for the new award year, and interactive exercises and self-assessments to help financial aid professionals with the mastery of the knowledge and skills needed to process student data during normal operations.

In FY 2019, FSA will hold the FY 2019 FSA Training Conference for Financial Aid Professionals from November 27 to November 30, 2018.

In FY 2019, FSA will publish the 2019–2020 FSA Handbook, including updated content that addresses processing of student data during normal operations.

In FY 2019, FSA will update the Fiscal Management and Student Eligibility Assessments.

In FY 2019, FSA will publish updated free training content related to processing of funds during normal operations.
Schools that disburse Title IV funds must demonstrate that they are eligible to participate in these programs before they can be certified for participation and must maintain eligibility. Further, student and parent borrowers must satisfy eligibility requirements for the Title IV funds.

From November 28 to December 1, 2017, FSA held its annual FSA Training Conference for Financial Aid Professionals to provide training and technical assistance to financial aid professionals charged with administering the Title IV student financial assistance programs. The FY 2018 Training Conference included several sessions related to student and institutional eligibility: Student Eligibility Requirements; Maintaining Your Institutional Eligibility; and Pell LEU & Subsidized Usage Limit Applies (SULA) Adjustments for Transfer Students Coming from Closed Schools. The session recordings are publicly available. In FY 2019, FSA will again hold the FSA Training Conference. FSA will promote the training to financial aid professionals. The Training Conference will provide updated guidance about confirming student and institutional eligibility.

FSA annually publishes the FSA Handbook for college financial aid administrators and counselors. The 2018–2019 Handbook includes volumes for Student Eligibility and School Eligibility and Operations. These volumes provide examples and guidance about student and school eligibility. FSA will publish updated volume for 2019–2020.

FSA designed, in collaboration with financial aid professionals, Student Eligibility and Institutional Eligibility Assessments, part of the FSA Assessments that help schools with compliance and improvement activities. The Student Eligibility Assessment and Institutional Eligibility Assessment, both updated in June 2018, contain a consolidated set of links to applicable laws and regulations related to eligibility, and corresponding guidance, worksheets, and checklists.

FSA also offers free training related to maintaining and confirming student and institutional eligibility via FSA Coach, a suite of interactive courses for new and experienced financial aid administrators in the essential knowledge and skills needed to successfully administer the federal student aid programs, and other e-training. For FY 2019, FSA will publish updated training content that addresses annual updates for the new award year, and interactive exercises and self-assessments to help financial aid professionals with the mastery of the knowledge and skills needed to award funds to eligible students attending eligible programs and institutions.

According to federal regulations, all schools participating in Title IV programs must establish SAP standards. SAP is a student-eligibility requirement and schools are responsible for making sure that students who are not making SAP do not receive student financial aid funds.

From November 28 to December 1, 2017, FSA held its annual FSA Training Conference for Financial Aid Professionals to provide training and technical assistance to financial aid professionals charged with administering the Title IV student financial assistance programs. The FY 2018 Training Conference included sessions related to SAP. The session recordings are publicly available. In FY 2019, FSA will again hold the FSA Training Conference. FSA will promote the training to financial aid professionals. The Training Conference will provide updated SAP guidance.

FSA annually publishes the FSA Handbook for college financial aid administrators and counselors. The 2018–2019 Handbook includes a Student Eligibility volume, updated in May 2018, which includes a section devoted to SAP. This volume provides examples and guidance about SAP-related issues. FSA will publish an updated volume for 2019–2020.

FSA designed, in collaboration with financial aid professionals, a Satisfactory Academic Progress Assessment, part of the FSA Assessments that help schools with compliance and improvement activities. The Satisfactory Academic Progress Assessment, updated in February 2018, contains a consolidated set of links to applicable SAP laws and regulations, and related guidance and worksheets.

FSA also offers free training related to SAP via FSA Coach. A suite of interactive courses for new and experienced financial aid administrators in the essential knowledge and skills needed to successfully administer the federal student aid programs, and other e-training. For FY 2019, FSA will publish updated training content that addresses annual updates for the new award year, and interactive exercises and self-assessments to help financial aid professionals with the mastery of the knowledge and skills needed to monitor SAP.

<tr>
<td>In FY 2018, FSA shared with the TIVAS a Direct Loan Consolidation improper payment fieldwork checklist. This checklist provides the TIVAS guidance on the documentation that should be maintained to demonstrate that FFEL to Direct Loan Consolidations were made to eligible borrowers, for eligible purposes, and for the correct amount. In FY 2018, FSA also sent a communication to the TIVAS reiterating the need to maintain sufficient documentation to support FFEL to Direct Loan Consolidations were made properly. In FY 2018, of the 120 Direct Loan Consolidation payments sampled, no improper payments were identified due to lack of sufficient supporting documentation, a reduction from two in the prior year. No additional corrective actions are identified for FY 2019 as no Direct Loan Consolidation improper payments due to insufficient documentation were identified in FY 2018.</td>
<td>In FY 2019, FSA will provide the Direct Loan Consolidation improper payment fieldwork checklist regarding documentation that must be maintained by the TIVAS.</td>

Administrative or Process Errors by Other Party (Identified from Direct Loan Refunds)

Not applicable; no Direct Loan Refund improper payments were identified in FY 2018.

In FY 2018, FSA shared with the TIVAS a Direct Loan Refund improper payment fieldwork checklist. This checklist provides the TIVAS guidance on the documentation that should be maintained to demonstrate that refunds were made to eligible lenders and borrowers, for eligible purposes, and for the correct amount. In FY 2017 and FY 2018, no improper payments were identified from review of a sample of Direct Loan Refund payments. The Direct Loan Refund improper payment fieldwork checklist supported the collection of documentation from the servicers evidencing that all sampled Direct Loan Refunds were proper.

No additional corrective actions are identified for FY 2019 as no Direct Loan Refund improper payments were identified in FY 2018.

In FY 2019, FSA will provide the Direct Loan Refund improper payment fieldwork checklist regarding documentation that must be maintained by the TIVAS.

---

1 FSA does not attempt to quantify the reduction of the improper payment estimates in terms of percentage or amount due to these corrective actions. The quantification of results is not feasible due to the use of a nonstatistical alternative estimation methodology.
II. RECAPTURE OF IMPROPER PAYMENTS REPORTING

Agencies are required to conduct recovery audits for contract payments and programs that expend $1 million or more annually if conducting such audits would be cost effective. The Department determined that payment recapture audits would not be cost effective for any of its loan and grant programs or for contracts. A comprehensive report on the cost effectiveness of the various recapture audit programs can be found in the Department’s FY 2012 Report on the Department of Education’s Payment Recapture Audits.

The Department identifies and recovers improper payments through sources other than payment recapture audits. The Department works with grantees and Title IV (FSA) program participants to resolve and recover amounts identified in compliance audits, OIG audits, and Department-conducted program reviews. The Department also analyzes the return of grant funds from recipients to determine if they are due to improper payments. When an improper payment is detected and deemed collectable, the Department establishes an account receivable and pursues collections. Recoveries are also made through grant program, payroll, and other offsets. Recipients of Department funds can appeal management’s decisions regarding funds to be returned to the Department or they may go bankrupt before the Department can collect, thereby delaying or decreasing the amounts the Department is able to collect. Additionally, the Department has wide discretion to make a determination to not collect improper payments from grantees in cases where it determines that pursuing collections would cause more harm to the federal interest. For these and other reasons, not all identified improper payments will ultimately be collected and collections will not necessarily be made in the same year as when the improper payments were identified.

In FY 2018, the Department identified $34.84 million in improper payments and recovered $45.06 million in improper payments (or 129 percent\(^1\)), as depicted in the graph below. For detailed information on identified and recovered improper payments, readers can visit https://paymentaccuracy.gov. The Department continues to work to improve its methods to identify, collect, and report on improper payment collections.

\(^1\) Improper payments identified and recaptured in FY 2018 include payments that were made prior to FY 2018, which leads to a percentage greater than 100 percent.

III. AGENCY IMPROVEMENT OF PAYMENT ACCURACY WITH THE DO NOT PAY (DNP) INITIATIVE

The Department continues its efforts to prevent and detect improper payments via the DNP Business Center Portal as required by the Improper Payments Elimination and Recovery Improvement Act of 2012 (IPERIA), as amended by the Bipartisan Budget Act of 2013 and the Federal Improper Payments Coordination Act of 2015 (FIPCA). During FY 2018, 1,382,275 payments, totaling $161.3 billion, were reviewed for possible improper payments through the DNP Portal screening, which includes the Death Master File and the System for Award Management File. The Department continues to validate that potential improper payments identified through this screening process were properly adjudicated and reported to Treasury timely.

IV. BARRIERS

The Department must rely on controls established by fund recipients who make payments on behalf of the Department. These controls are outside of the Department’s operational authority. In designing controls, the Department strives to strike the right balance between providing timely and accurate payments to grant recipients and students, while at the same time ensuring that the controls are not too costly and burdensome to fund recipients. Additionally, there are limitations to the availability of data necessary to verify FAFSA® information without increasing the burden on
schools and students. For example, the Internal Revenue Code does not currently permit a database match with the IRS. Such a match would eliminate the need to rely on tax transcripts submitted by the applicant (and the applicant's parent, if the applicant is a dependent) to verify income data in cases where the IRS DRT is not used to transfer tax information directly into the FAFSA® form.

A detailed discussion of program-specific barriers can be found in the FY 2012 Report on the Department of Education's Payment Recapture Audits.

V. ACCOUNTABILITY
The Department offices, managers, and staff are held accountable for promoting payment integrity by being held accountable for maintaining effective controls in their day-to-day jobs and key management officials have specific expectations related to payment integrity included in their annual performance plans. Additionally, Accountable Officials are identified for the Department and FSA.

VI. AGENCY INFORMATION SYSTEMS AND OTHER INFRASTRUCTURE
Audit Follow-up
The Department gathers and manages thousands of audits of grantees related to our loan and grant programs. Audit records are managed, maintained, and analyzed in the Department’s automated audit tracking systems. Audits are a key source of identifying risks and in identifying potential improper payments made by outside entities. The Department has demonstrated tremendous success in working with grant recipients to resolve audit findings timely. The Department is continuously looking for options to gain further insight from audit reports and is partnering with OMB and others to do so.

VII. SAMPLING AND ESTIMATION METHODOLOGY
For FY 2018 AFR reporting, the Department obtained approval from OMB to use a nonstatistical estimation methodology, formerly referred to as an alternative methodology, for estimating improper payments for the Pell Grant and Direct Loan programs. The methodology is a nonstatistical estimation methodology as it has statistical limitations, including reliance on nonrandom sampling and limited sample size. The methodology leverages data collected through FSA Program Reviews, which include procedures such as determining whether schools properly performed verification of students’ self-reported income, identifying conflicting applicant data, student academic performance, and eligibility on the disbursed funds for a sample of students in each review. The Department determined that it would be too costly and inefficient, and potentially increase the burden on schools and students to an unacceptable level, to increase the reviews that make up its nonstatistical methodology to a level that would meet the precision rate prescribed by OMB. The Department is implementing a statistically valid methodology in FY 2019.

On June 29, 2018, the Department submitted to OMB for approval updates to the nonstatistical sampling plan and estimation methodology. These updates to the methodology incorporate self-identified enhancements. OMB approved the Department’s updates to the nonstatistical sampling plan and estimation methodology on August 15, 2018. The methodology is described in detail on the Department’s improper payments website.

Risk Assessments
As required by OMB Circular A-123, Appendix C, the Department assesses the risk of improper payments at least once every three years for each program and activity that is not reporting an improper payments estimate. In FY 2018, the Department did not conduct any risk assessments, as all programs and activities were previously assessed for risk in either FY 2017 or FY 2016.
ADDITIONAL COMMENTS

Enhancing Payment Integrity
In support of the Department’s payment integrity initiative, the Department continues to develop the Continuous Controls Monitoring System (CCMS), which detects anomalies in grants payment data. Case management files for the anomalies are established within the application for follow-up investigation by the Department’s grants program offices to validate improper payments and determine root causes. Additionally, the Data Integrity and Financial Controls Group within the Office of the Chief Financial Officer continues working with other internal control teams within the Department to implement recommendations from its Payment Integrity Workgroup (PIWG), whose objective was to address identified gaps and strengthen the internal control process. Both efforts reflect the Department’s recognition of the critical importance that payment integrity plays in demonstrating financial stewardship to the American taxpayer.

Risk Management
The Department took measures to prevent improper payments through the use of the Decision Support System to run Entity Risk Review reports for non-FSA grant awards. Using data drawn from the Department’s grants business system, the Federal Audit Clearinghouse, the Institutes of Higher Education accreditation reporting, and Dun & Bradstreet, this report identifies financial, programmatic, and controls risks posed by award to the prospective grantee. Grant officers and awarding officials use the Entity Risk Review reports in the pre-award stage of the grant process to assess grantees’ risk and assist in the determination of special conditions for grant awards. They also apply these reports in devising monitoring plans for the life of the grant, strengthening them as the Department’s first line of defense against improper payments by grantees.

In FY 2018, the Department’s discretionary grant awards were assessed for risk prior to award in the areas of: financial stability; adequacy of management systems to meet applicable standards; performance history; and compliance with applicable laws and regulations, including those related to Suspension and Debarment. This work successfully demonstrated the Department’s early compliance with 2 C.F.R. Section 205, Federal Awarding Agency Review of Risk Posed by Applicants.
