ACCREDITATION HANDBOOK

In accordance with 34 CFR Part 602
The Secretary's Recognition of Accrediting Agencies

For Voluntary use by Accrediting Agencies in 2019 and 2020

Revised June 2019

For each section, Department staff will issue a recommended finding to be evaluated by NACIQI:

- Fully compliant – the agency has the appropriate policy, procedure or standard in place and in each example provided or reviewed during the staff analyst’s site visit adhered to those policies, procedures and/or standards. The agency is also compliant if the agency has the appropriate policy, procedure or standard in place, but the agency has not implemented or had the opportunity to demonstrate compliance with the policy, practice or standard during the review period. This may apply to an entire criterion or to one or more elements within a given recognition criterion and follow-up verification may be needed in such circumstances.
- Not compliant – the agency does not have the appropriate policy, procedure or standard in place or has the policy in place or has consistently failed to adhere to it as demonstrated by the examples provided or reviewed during the staff analyst’s site visit.

NOTES

- *Where applicable, agencies that oversee both institutions and programs must provide documentation and examples related to their review of both institutions and programs.*
- *During any site visit, Department staff will consult with agency staff in person at the agency’s offices and/or virtually and must be provided with access to agency files and documents, including electronic files, necessary to evaluate the agency’s compliance with any applicable statutory and regulatory requirements. The Department must be able to obtain and archive copies of those documents in either an electronic or paper-based format to serve as evidence for the analyst’s recommended finding and the Department may be required to disclose some or all of these documents to the public under FOIA.*
- *Selection of institutions or programs, and records during the Department staff’s site visit will be made by the Department staff. This will include the random selection of files but will be limited to the review period for which the site visit is being performed. However, the agency can provide any additional files it believes offer a more relevant example of the agency’s or its member institutions’ work.*
- *An agency is not out of compliance with a standard if it has not had the opportunity to apply the standard during the review period.*
- *Although documents required to verify compliance with the standards in one section may be useful in verifying compliance with another, they are listed under only one section in order to ensure that a single deficiency is not described by the Department as a deficiency for more than one standard. For further information, including up-to-date contact information for Department of Education staff, please visit ed.gov/accreditation.*

(d) For purposes of paragraph (a)(3) of this section, the Secretary may waive the "separate and independent" requirements in paragraph (b) of this section if the agency demonstrates that --(1) The Secretary listed the agency as a nationally recognized agency on or before October 1, 1991 and has recognized it continuously since that date; (2) The related, associated, or affiliated trade association or membership organization plays no role in making or ratifying either the accrediting or policy decisions of the agency; (3) The agency has sufficient budgetary and administrative autonomy to carry out its accrediting functions independently; and(4) The agency provides to the related, associated, or affiliated trade association or membership organization only information it makes available to the public;

- (b) The agency must demonstrate it has, and effectively applies, a set of monitoring and evaluation approaches that enables the agency to identify problems with an institution's or program's continued compliance with agency standards and that takes into account institutional or program strengths and stability. These approaches must include periodic reports, and collection and analysis of key data and indicators, identified by the agency, including, but not limited to, fiscal information and measures of student achievement, consistent with the provisions of §602.16(f). (d) Institutional accrediting agencies must monitor the growth of programs at institutions experiencing significant enrollment growth, as reasonably defined by the agency.

(e) Any agency that has notified the Secretary of a change in its scope in accordance with §602.27(a)(5) must monitor the headcount enrollment of each institution it has accredited that offers distance education or correspondence education. If any such institution has experienced an increase in headcount enrollment of 50 percent or more within one institutional fiscal year, the agency must report that information to the Secretary within 30 days of acquiring such data.

(a) If the agency’s review of an institution or program under any standard indicates that the institution or program is not in compliance with that standard, the agency must --

(1) Immediately initiate adverse action against the institution or program; or

(2) Require the institution or program to take appropriate action to bring itself into compliance with the agency’s standards within a time period that must not exceed –(i) Twelve months, if the program, or the longest program offered by the institution, is less than one year in length;(ii) Eighteen months, if the program, or the longest program offered by the institution, is at least one year, but less than two years, in length; or(iii) Two years, if the program, or the longest program offered by the institution, is at least two years in length.

Section 602.21 - Review of standards

- (a) The agency must maintain a systematic program of review that demonstrates that its standards are adequate to evaluate the quality of the education or training provided by the institutions and programs it accredits and relevant to the educational or training needs of students.
- (b) The agency determines the specific procedures it follows in evaluating its standards, but the agency must ensure that its program of review --(1) Is comprehensive; (2) Occurs at regular, yet reasonable, intervals or on an ongoing basis;(3) Examines each of the agency’s standards and the standards as a whole; and (4) Involves all of the agency’s relevant constituencies in the review and affords them a meaningful opportunity to provide input into the review.
- (c) If the agency determines, at any point during its systematic program of review, that it needs to make changes to its standards, the agency must initiate action within 12 months to make the changes and must complete that action within a reasonable period of time. Before finalizing any changes to its standards, the agency must --
 - (1) Provide notice to all of the agency’s relevant constituencies, and other parties who have made their interest known to the agency, of the changes the agency proposes to make;
 - (2) Give the constituencies and other interested parties adequate opportunity to comment on the proposed changes; and

Section 602.22 - Substantive change

- (a) If the agency accredits institutions, it must maintain adequate substantive change policies that ensure that any substantive change to the educational mission, program, or programs of an institution after the agency has accredited or preaccredited the institution does not adversely affect the capacity of the institution to continue to meet the agency's standards. The agency meets this requirement if—
 - (1) The agency requires the institution to obtain the agency’s approval of the substantive change before the agency includes the change in the scope of accreditation or preaccreditation it previously granted to the institution.
 - (2) The agency's definition of substantive change includes at least the following types of change:
 - (i) Any change in the established mission or objectives of the institution.
 - (ii) Any change in the legal status, form of control, or ownership of the institution.
 - (iii) The addition of courses or programs that represent a significant departure from existing offerings of educational programs, or method of delivery, from

those that were offered when the agency last evaluated the institution.

(iv) The addition of programs of study at a degree or credential level different from that which is included in the institution's current accreditation or preaccreditation.

(v) A change from clock hours to credit hours.

(vi) A substantial increase in the number of clock or credit hours awarded for successful completion of a program.

(vii) If the agency's accreditation of an institution enables the institution to seek eligibility to participate in title IV, HEA programs, the entering into a contract under which an institution or organization not certified to participate in the title IV, HEA programs offers more than 25 percent of one or more of the accredited institution's educational programs.

(viii) (A) If the agency's accreditation of an institution enables it to seek eligibility to participate in title IV, HEA programs, the establishment of an additional location at which the institution offers at least 50 percent of an educational program. The addition of such a location must be approved by the agency in accordance with paragraph (c) of this section unless the accrediting agency determines, and issues a written determination stating that the institution has--

(1) Successfully completed at least one cycle of accreditation of maximum length offered by the agency and one renewal, or has been accredited for at least ten years;

(2) At least three additional locations that the agency has approved; and

(3) Met criteria established by the agency indicating sufficient capacity to add additional locations without individual prior approvals, including at a minimum satisfactory evidence of a system to ensure quality across a distributed enterprise that includes--

(i) Clearly identified academic control;

(ii) Regular evaluation of the locations;

(iii) Adequate faculty, facilities, resources, and academic and student support systems;

(iv) Financial stability; and

(v) Long-range planning for expansion.

(B) The agency's procedures for approval of an additional location, pursuant to paragraph (a)(2)(viii)(A) of this section, must require timely reporting to the agency of every additional location established under this approval.

(C) Each agency determination or redetermination to preapprove an institution's addition of locations under paragraph (a)(2)(viii)(A) of this section may not exceed five years.

(D) The agency may not preapprove an institution's addition of locations under paragraph (a)(2)(viii)(A) of this section after the institution undergoes a change in ownership resulting in a change in control as defined in 34 CFR 600.31 until the institution demonstrates that it meets the conditions for the agency to preapprove additional locations described in this paragraph.

(E) The agency must have an effective mechanism for conducting, at reasonable intervals, visits to a representative sample of additional locations approved under paragraph (a)(2)(viii)(A) of this section.

(ix) The acquisition of any other institution or any program or location of another institution.

(x) The addition of a permanent location at a site at which the institution is conducting a teach-out for students of another institution that has ceased operating before all students have completed their program of study.

(3) The agency's substantive change policy must define when the changes made or proposed by an institution are or would be sufficiently extensive to require the agency to conduct a new comprehensive evaluation of that institution.

(b) The agency may determine the procedures it uses to grant prior approval of the substantive change. However, these procedures must specify an effective date, which is not retroactive, on which the change is included in the program's or institution's accreditation. An agency may designate the date of a change in

ownership as the effective date of its approval of that substantive change if the accreditation decision is made within 30 days of the change in ownership. Except as provided in paragraph (c) of this section, these procedures may, but need not, require a visit by the agency.

(c) Except as provided in (a)(2)(viii)(A) of this section, if the agency’s accreditation of an institution enables the institution to seek eligibility to participate in title IV, HEA programs, the agency’s procedures for the approval of an additional location where at least 50 percent of an educational program is offered must provide for a determination of the institution’s fiscal and administrative capacity to operate the additional location. In addition, the agency’s procedures must include--

(1) A visit, within six months, to each additional location the institution establishes, if the institution--

(i) Has a total of three or fewer additional locations;

(ii) Has not demonstrated, to the agency’s satisfaction, that it has a proven record of effective educational oversight of additional locations; or

(iii) Has been placed on warning, probation, or show cause by the agency or is subject to some limitation by the agency on its accreditation or preaccreditation status;

(2) An effective mechanism for conducting, at reasonable intervals, visits to a representative sample of additional locations of institutions that operate more than three additional locations; and

(3) An effective mechanism, which may, at the agency’s discretion, include visits to additional locations, for ensuring that accredited and preaccredited institutions that experience rapid growth in the number of additional locations maintain educational quality.

(d) The purpose of the visits described in paragraph (c) of this section is to verify that the additional location has the personnel, facilities, and resources it claimed to have in its application to the agency for approval of the additional location.

(b) In providing public notice that an institution or program subject to its jurisdiction is being considered for accreditation or preaccreditation, the agency must provide an opportunity for third-party comment concerning the institution's or program's qualifications for accreditation or preaccreditation. At the agency's discretion, third-party comment may be received either in writing or at a public hearing, or both.

(c) The accrediting agency must—(1) Review in a timely, fair, and equitable manner any complaint it receives against an accredited institution or program that is related to the agency's standards or procedures. The agency may not complete its review and make a decision regarding a complaint unless, in accordance with published procedures, it ensures that the institution or program has sufficient opportunity to provide a response to the complaint; (2) Take follow-up action, as necessary, including enforcement action, if necessary, based on results of its review; and (3) Review in a timely, fair and equitable manner, and apply unbiased judgment to, any complaints against itself and take follow-up action, as appropriate, based on the results of its review.

(d) If an institution or program elects to make a public disclosure of its accreditation or preaccreditation status, the agency must ensure that the institution or program discloses that status accurately, including the specific academic or instructional programs covered by that status and the name, address, and telephone number of the agency.

(e) The accrediting agency must provide for the public correction of incorrect or misleading information an accredited or preaccredited institution or program releases about -- (1) The accreditation or preaccreditation status of the institution or program; (2) The contents of reports of on-site reviews ; and (3) The agency's accrediting or preaccrediting actions with respect to the institution or program.

Section 602.24 - Additional procedures certain institutional accreditors must have

If the agency is an institutional accrediting agency and its accreditation or preaccreditation enables those institutions to obtain eligibility to participate in Title IV, HEA programs, the agency must demonstrate that it has established and uses all of the following procedures:

(a) Branch campus. (1) The agency must require the institution to notify the agency if it plans to establish a branch campus and to submit a business plan for the branch campus that describes--(i) The educational program to be offered at the branch campus; (ii) The projected revenues and expenditures and cash flow at

the branch campus; and (iii) The operation, management, and physical resources at the branch campus. (2) The agency may extend accreditation to the branch campus only after it evaluates the business plan and takes whatever other actions it deems necessary to determine that the branch campus has sufficient educational, financial, operational, management, and physical resources to meet the agency's standards; and (3) The agency must undertake a site visit to the branch campus as soon as practicable, but no later than six months after the establishment of that campus.

(b) Change in ownership.

The agency must undertake a site visit to an institution that has undergone a change of ownership that resulted in a change of control as soon as practicable, but no later than six months after the change of ownership.

(c) Teach-out plans and agreements.

(1) The agency must require an institution it accredits or preaccredits to submit a teach-out plan to the agency for approval upon the occurrence of any of the following events: (i) The Secretary notifies the agency that the Secretary has initiated an emergency action against an institution, in accordance with section 487(c)(1)(G) of the HEA, or an action to limit, suspend, or terminate an institution participating in any title IV, HEA program, in accordance with section 487(c)(1)(F) of the HEA, and that a teach-out plan is required. (ii) The agency acts to withdraw, terminate, or suspend the accreditation or preaccreditation of the institution. (iii) The institution notifies the agency that it intends to cease operations entirely or close a location that provides one hundred percent of at least one program. (iv) A State licensing or authorizing agency notifies the agency that an institution's license or legal authorization to provide an educational program has been or will be revoked; (2) The agency must evaluate the teach-out plan to ensure it provides for the equitable treatment of students under criteria established by the agency, specifies additional charges, if any, and provides for notification to the students of any additional charges; (3) If the agency approves a teach-out plan that includes a program that is accredited by another recognized accrediting agency, it must notify that accrediting agency of its approval, (4) The agency may require an institution it accredits or preaccredits to enter into a teach-out agreement as part of its teach-out plan; and (5) the agency must require an institution it accredits or preaccredits that enters into a teach-out agreement, either on its own or at the request of the agency, with another institution to submit that teach-out agreement to the agency for approval. The agency may approve the teach-out agreement only if the agreement is between institutions that are accredited or preaccredited by a nationally recognized accrediting agency, is consistent with applicable standards and regulations, and provides for the equitable treatment of students by ensuring that--(i) The teach-out institution has the necessary experience, resources, and support services to --(A) Provide an educational program that is of acceptable quality and reasonably similar in content, structure, and scheduling to that provided by the institution that is ceasing operations either entirely or at one of its locations; and (B) Remain stable, carry out its mission, and meet all obligations to existing students; and (ii) The teach-out institution demonstrates that it can provide students access to the program and services without requiring them to move or travel substantial distances and that it will provide students with information about additional charges, if any.

(d) Closed Institution. If an institution the agency accredits or preaccredits closes without a teach-out plan or agreement, the agency must work with the Department and the appropriate State agency, to the extent feasible, to assist students in finding reasonable opportunities to complete their education without additional charges.

(e) Transfer of credit policies. The accrediting agency must confirm, as part of its review for initial accreditation or preaccreditation, or renewal of accreditation, that the institution has transfer of credit policies that -- (1) Are publicly disclosed in accordance with § 668.43(a)(11); and (2) Include a statement of the criteria established by the institution regarding the transfer of credit earned at another institution of higher education.

(f) Credit hour policies. The accrediting agency, as part of its review of an institution for initial accreditation or preaccreditation or renewal of accreditation, must conduct an effective review and evaluation of the reliability and accuracy of the institution's assignment of credit hours.

(1) The accrediting agency meets this requirement if-- (i) It reviews the institution's--(A) Policies and procedures for determining the credit hours, as defined in 34 CFR 600.2, that the institution awards for courses and programs; and (B) The application of the institution's policies and procedures to its programs and coursework; and (ii) Makes a reasonable determination of whether the institution's assignment of credit hours conforms to commonly accepted practice in higher education. (2) In reviewing and evaluating an institution's policies and procedures for determining credit hour assignments, an accrediting agency may

use sampling or other methods in evaluation, sufficient to comply with paragraph (f)(1)(i)(B) of this section. (3) The accrediting agency must take such actions that it deems appropriate to address any deficiencies that it identifies at an institution as part of its reviews and evaluations under paragraph (f)(1)(i) and (ii) of this section, as it does in relation to other deficiencies it may identify, subject to the requirements of this part. (4) If, following the institutional review process under this paragraph (f), the agency finds systemic noncompliance with the agency’s policies or significant noncompliance regarding one or more programs at the institution, the agency must promptly notify the Secretary.

- (a) Provides adequate written specification of its requirements, including clear standards, for an institution or program to be accredited or preaccredited.
- (b) Uses procedures that afford an institution or program a reasonable period of time to comply with the agency’s requests for information and documents.
- (c) Provides written specification of any deficiencies identified at the institution or program examined.
- (d) Provides sufficient opportunity for a written response by an institution or program, regarding any deficiencies identified by the agency, to be considered by the agency within a timeframe determined by the agency, and before any adverse action is taken.
- (e) Notifies the institution or program in writing of any adverse accrediting action or an action to place the institution or program on probation or show cause. The notice describes the basis for the action.

(f) Provides an opportunity, upon written request of an institution or program to appeal any adverse action prior to the action becoming final- - (1) The appeal must take place at a hearing before an appeals panel that--(i) May not include current members of the agency's decision-making body that took the initial adverse action;(ii) Is subject to a conflict of interest policy;(iii) Does not serve only an advisory or procedural role, and has and uses the authority to make the following decisions: to affirm, amend, or reverse adverse actions of the original decision-making body; and (iv) Affirms, amends, reverses, or remands the adverse action. A decision to affirm, amend, or reverse the adverse action is implemented by the appeals panel or by the original decision-making body, at the agency's option. In a decision to remand the adverse action to the original decision-making body for further consideration, the appeals panel must identify specific issues that the original decision-making body must address. In a decision that is implemented by or remanded to the original decision-making body, that body must act in a manner consistent with the appeals panel's decisions or instructions. (2) The agency must recognize the right of the institution or program to employ counsel to represent the institution or program during its appeal, including to make any presentation that the agency permits the institution or program to make on its own during the appeal.

(g) The agency notifies the institution or program in writing of the result of its appeal and the basis for that result.

(h)(1) The agency must provide for a process, in accordance with written procedures, through which an institution or program may, before the agency reaches a final adverse action decision, seek review of new financial information if all of the following conditions are met: (i) The financial information was unavailable to the institution or program until after the decision subject to appeal was made; (ii) The financial information is significant and bears materially on the financial deficiencies identified by the agency. The criteria of significance and materiality are determined by the agency; (iii) The only remaining deficiency cited by the agency in support of a final adverse action decision is the institution's or program's failure to meet an agency standard pertaining to finances. (2) An institution or program may seek the review of new financial information described in paragraph (h)(1) of this section only once and any determination by the agency made with respect to that review does not provide a basis for an appeal.

(b) Except as provided in paragraph (c) of this section, the agency may not grant initial or renewed accreditation or preaccreditation to an institution, or a program offered by an institution, if the agency knows, or has reasonable cause to know, that the institution is the subject of--(1) A pending or final action brought by a State agency to suspend, revoke, withdraw, or terminate the institution's legal authority to provide postsecondary education in the State;(2) A decision by a recognized agency to deny accreditation or preaccreditation;(3) A pending or final action brought by a recognized accrediting agency to suspend, revoke, withdraw, or terminate the institution’s accreditation or preaccreditation; or (4) Probation or an equivalent status imposed by a recognized agency.

(c) The agency may grant accreditation or preaccreditation to an institution or program described in paragraph (b) of this section only if it provides to the Secretary, within 30 days of its action, a thorough and reasonable explanation, consistent with its standards, why the action of the other body does not preclude the agency's grant of accreditation or preaccreditation.

(d) If the agency learns that an institution it accredits or preaccredits, or an institution that offers a program it accredits or preaccredits, is the subject of an adverse action by another recognized accrediting agency or has been placed on probation or an equivalent status by another recognized agency, the agency must promptly review its accreditation or preaccreditation of the institution or program to determine if it should also take adverse action or place the institution or program on probation or show cause.

(e) The agency must, upon request, share with other appropriate recognized accrediting agencies and recognized State approval agencies information about the accreditation or preaccreditation status of an institution or program and any adverse actions it has taken against an accredited or preaccredited institution or program.
