

CONSOLIDATED STATE PERFORMANCE REPORT:

Parts I and II

for
STATE FORMULA GRANT PROGRAMS
under the
ELEMENTARY AND SECONDARY EDUCATION ACT
As amended by the
No Child Left Behind Act of 2001

For reporting on
School Year 2007-08

RHODE ISLAND

PART I DUE FRIDAY, DECEMBER 19, 2008
PART II DUE FRIDAY, FEBRUARY 27, 2009

U.S. DEPARTMENT OF EDUCATION
WASHINGTON, DC 20202

INTRODUCTION

Sections 9302 and 9303 of the Elementary and Secondary Education Act (ESEA), as amended by the No Child Left Behind Act of 2001 (NCLB) provide to States the option of applying for and reporting on multiple ESEA programs through a single consolidated application and report. Although a central, practical purpose of the Consolidated State Application and Report is to reduce "red tape" and burden on States, the Consolidated State Application and Report are also intended to have the important purpose of encouraging the integration of State, local, and ESEA programs in comprehensive planning and service delivery and enhancing the likelihood that the State will coordinate planning and service delivery across multiple State and local programs. The combined goal of all educational agencies—State, local, and Federal—is a more coherent, well-integrated educational plan that will result in improved teaching and learning. The Consolidated State Application and Report includes the following ESEA programs:

- Title I, Part A – Improving Basic Programs Operated by Local Educational Agencies
- Title I, Part B, Subpart 3 – William F. Goodling Even Start Family Literacy Programs
- Title I, Part C – Education of Migratory Children (Includes the Migrant Child Count)
- Title I, Part D – Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk
- Title II, Part A – Improving Teacher Quality State Grants (Teacher and Principal Training and Recruiting Fund)
- Title III, Part A – English Language Acquisition, Language Enhancement, and Academic Achievement Act
- Title IV, Part A, Subpart 1 – Safe and Drug-Free Schools and Communities State Grants
- Title IV, Part A, Subpart 2 – Safe and Drug-Free Schools and Communities National Activities (Community Service Grant Program)
- Title V, Part A – Innovative Programs
- Title VI, Section 6111 – Grants for State Assessments and Related Activities
- Title VI, Part B – Rural Education Achievement Program
- Title X, Part C – Education for Homeless Children and Youths

The NCLB Consolidated State Performance Report (CSPR) for school year (SY) 2007-08 consists of two Parts, Part I and Part II.

PART I

Part I of the CSPR requests information related to the five ESEA Goals, established in the June 2002 Consolidated State Application, and information required for the Annual State Report to the Secretary, as described in Section 1111(h)(4) of the ESEA. The five ESEA Goals established in the June 2002 Consolidated State Application are:

- **Performance Goal 1: By SY 2013-14, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.**
- **Performance Goal 2: All limited English proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.**
- **Performance Goal 3: By SY 2005-06, all students will be taught by highly qualified teachers.**
- **Performance Goal 4: All students will be educated in learning environments that are safe, drug free, and conducive to learning.**
- **Performance Goal 5: All students will graduate from high school.**

Beginning with the CSPR SY 2005-06 collection, the Education of Homeless Children and Youths was added. The Migrant Child count was added for the SY 2006-07 collection.

PART II

Part II of the CSPR consists of information related to State activities and outcomes of specific ESEA programs. While the information requested varies from program to program, the specific information requested for this report meets the following criteria:

1. The information is needed for Department program performance plans or for other program needs.
2. The information is not available from another source, including program evaluations pending full implementation of required EDFacts submission.
3. The information will provide valid evidence of program outcomes or results.

GENERAL INSTRUCTIONS AND TIMELINES

All States that received funding on the basis of the Consolidated State Application for the SY 2007-08 must respond to this Consolidated State Performance Report (CSPR). Part I of the Report is due to the Department by Friday, December 19, 2008. Part II of the Report is due to the Department by Friday, February 27, 2009. Both Part I and Part II should reflect data from the SY 2007-08, unless otherwise noted.

The format states will use to submit the Consolidated State Performance Report has changed to an online submission starting with SY 2004-05. This online submission system is being developed through the Education Data Exchange Network (EDEN) and will make the submission process less burdensome. Please see the following section on transmittal instructions for more information on how to submit this year's Consolidated State Performance Report.

TRANSMITTAL INSTRUCTIONS

The Consolidated State Performance Report (CSPR) data will be collected online from the SEAs, using the EDEN web site. The EDEN web site will be modified to include a separate area (sub-domain) for CSPR data entry. This area will utilize EDEN formatting to the extent possible and the data will be entered in the order of the current CSPR forms. The data entry screens will include or provide access to all instructions and notes on the current CSPR forms; additionally, an effort will be made to design the screens to balance efficient data collection and reduction of visual clutter.

Initially, a state user will log onto EDEN and be provided with an option that takes him or her to the "SY 2007-08 CSPR". The main CSPR screen will allow the user to select the section of the CSPR that he or she needs to either view or enter data. After selecting a section of the CSPR, the user will be presented with a screen or set of screens where the user can input the data for that section of the CSPR. A user can only select one section of the CSPR at a time. After a state has included all available data in the designated sections of a particular CSPR Part, a lead state user will certify that Part and transmit it to the Department. Once a Part has been transmitted, ED will have access to the data. States may still make changes or additions to the transmitted data, by creating an updated version of the CSPR. Detailed instructions for transmitting the SY 2007-08 CSPR will be found on the main CSPR page of the EDEN web site (<https://EDEN.ED.GOV/EDENPortal/>).

According to the Paperwork Reduction Act of 1965, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1810-0614. The time required to complete this information collection is estimated to average 111 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates(s) contact School Support and Technology Programs, 400 Maryland Avenue, SW, Washington DC 20202-6140. Questions about the new electronic CSPR submission process, should be directed to the EDEN Partner Support Center at 1-877-HLPEDEN (1-877-457-3336).

OMB Number: 1810-0614

5PM EST**

1.1 STANDARDS AND ASSESSMENT DEVELOPMENT

This section requests descriptions of the State's implementation of the NCLB academic content standards, academic achievement standards and assessments to meet the requirements of Section 1111(b)(1) of ESEA.

1.1.1 Academic Content Standards

In the space below, provide a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's academic content standards in mathematics, reading/language arts or science. Responses should focus on actions taken or planned since the State's content standards were approved through ED's peer review process for State assessment systems. Indicate specifically in what school year your State expects the changes to be implemented.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to content standards taken or planned."

The response is limited to 8,000 characters.

No revisions or changes to content standards taken or planned.

Source – Manual input by the SEA using the online collection tool.

1.1.2 Assessments in Mathematics and Reading/Language Arts

In the space below, provide a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's assessments and/or academic achievement standards in mathematics or reading/language arts required under Section 1111(b)(3) of ESEA. Responses should focus on actions taken or planned since the State's assessment system was approved through ED's peer review process. Responses also should indicate specifically in what school year your State expects the changes to be implemented.

As applicable, include any assessment (e.g., alternate assessments based on alternate achievement standards, alternate assessments based on modified achievement standards, native language assessments, or others) implemented to meet the assessment requirements under Section 1111(b)(3) of ESEA as well as alternate achievement standards for students with significant cognitive disabilities and modified academic achievement standards for certain students with disabilities implemented to meet the requirements of Section 1111(b)(3) of ESEA. Indicate specifically in what year your state expects the changes to be implemented.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to assessments and/or academic achievement standards taken or planned."

The response is limited to 8,000 characters.

No revisions or changes to assessments and/or academic achievement standards taken or planned

Source – Manual input by the SEA using the online collection tool.

1.1.4 Assessments in Science

If your State's assessments and academic achievement standards in science required under Section 1111(b)(3) of ESEA have been approved through ED's peer review process, provide in the space below a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's assessments and/or academic achievement standards in science required under Section 1111(b)(3) of ESEA. Responses should focus on actions taken or planned since the State's assessment system was approved through ED's peer review process. Responses also should indicate specifically in what school year your State expects the changes to be implemented.

As applicable, include any assessment (e.g., alternate assessments based on alternate achievement standards, alternate assessments based on modified achievement standards, native language assessments, or others) implemented to meet the assessment requirements under Section 1111(b)(3) of ESEA as well as alternate achievement standards for students with significant cognitive disabilities and modified academic achievement standards for certain students with disabilities implemented to meet the requirements of Section 1111(b)(3) of ESEA.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to assessments and/or academic achievement standards taken or planned."

If the State's assessments in science required under Section 1111(b)(3) of ESEA have not been approved through ED's peer review process, respond "State's assessments and academic achievement standards in science not yet approved."

The response is limited to 8,000 characters.

State's assessments and academic achievement standards in science not yet approved.

Source – Manual input by the SEA using the online collection tool.

1.2 PARTICIPATION IN STATE ASSESSMENTS

This section collects data on the participation of students in the State NCLB assessments.

1.2.1 Participation of All Students in Mathematics Assessment

In the table below, provide the number of students enrolled during the State's testing window for NCLB mathematics assessments required under Section 1111(b)(3) of ESEA (regardless of whether the students were present for a full academic year) and the number of students who participated in the mathematics assessment in accordance with NCLB. The percentage of students who were tested for mathematics will be calculated automatically.

The student group "children with disabilities (IDEA)" includes children who participated in the regular assessments with or without accommodations and alternate assessments.

The student group "limited English proficient (LEP) students" includes recently arrived students who have attended schools in the United States for fewer than 12 months. Do not include former LEP students.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students	78,618	77,912	99.1
American Indian or Alaska Native	486	474	97.5
Asian or Pacific Islander	2,408	2,393	99.4
Black, non-Hispanic	6,804	6,705	98.5
Hispanic	14,051	13,908	99.0
White, non-Hispanic	54,819	54,386	99.2
Children with disabilities (IDEA)	14,786	14,436	97.6
Limited English proficient (LEP) students	3,606	3,569	99.0
Economically disadvantaged students	30,755	30,465	99.1
Migratory students			
Male	40,664	40,222	98.9
Female	37,931	37,669	99.3
Comments: The difference of 3 students out of over 14400 may be due to rounding errors in the aggregate commands.			

Source – The table above is produced through ED Facts. The SEA submits the data in file N/X081 that includes data group 588, category sets A, B, C, D, E, and F, and subtotal 1. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.2.2 Participation of Students with Disabilities in Mathematics Assessment

In the table below, provide the number of children with disabilities (IDEA) participating during the State's testing window in mathematics assessments required under Section 1111(b)(3) of ESEA (regardless of whether the children were present for a full academic year) by the type of assessment. The percentage of children with disabilities (IDEA) who participated in the mathematics assessment for each assessment option will be calculated automatically. The total number of children with disabilities (IDEA) participating will also be calculated automatically.

The data provided below should include mathematics participation data from all students with disabilities as defined under the Individuals with Disabilities Education Act. Do not include results from students covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Participating	Percentage of Children with Disabilities (IDEA) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	5,683	39.4
Regular Assessment with Accommodations	8,190	56.7
Alternate Assessment Based on Grade-Level Achievement Standards		
Alternate Assessment Based on Modified Achievement Standards		
Alternate Assessment Based on Alternate Achievement Standards	563	3.9

Total	14,436	
Comments: The difference of 3 students out of over 14400 may be due to rounding errors in the aggregate commands.		

Source – Manual input by the SEA using the online collection tool.

1.2.3 Participation of All Students in the Reading/Language Arts Assessment

This section is similar to 1.2.1 and collects data on the State's NCLB reading/language arts assessment.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students	78,139	77,423	99.1
American Indian or Alaska Native	483	475	98.3
Asian or Pacific Islander	2,371	2,352	99.2
Black, non-Hispanic	6,730	6,639	98.6
Hispanic	13,720	13,561	98.8
White, non-Hispanic	54,779	54,348	99.2
Children with disabilities (IDEA)	14,779	14,419	97.6
Limited English proficient (LEP) students	3,133	3,084	98.4
Economically disadvantaged students	30,391	30,096	99.0
Migratory students			
Male	40,418	39,962	98.9
Female	37,696	37,439	99.3
Comments: Averaging of the Reading and Writing tests in grades 4, 8 and 11 to get Reading Language Arts results may produce rounding errors			

Source – The same file specification as 1.2.1 is used, but with data group 589 instead of 588.

1.2.4 Participation of Students with Disabilities in Reading/Language Arts Assessment

This section is similar to 1.2.2 and collects data on the State's NCLB reading/language arts assessment.

The data provided should include reading/language arts participation data from all students with disabilities as defined under the Individuals with Disabilities Education Act. Do not include results from students covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Participating	Percentage of Children with Disabilities (IDEA) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	5,688	39.4
Regular Assessment with Accommodations	8,190	56.7
Alternate Assessment Based on Grade-Level Achievement Standards		
Alternate Assessment Based on Modified Achievement Standards		
Alternate Assessment Based on Alternate Achievement Standards	558	3.9
Total	14,436	
Comments: Averaging of the Reading and Writing tests in grades 4, 8 and 11 to get Reading Language Arts results may produce rounding errors		

Source – Manual input by the SEA using the online collection tool.

1.2.5 Participation of All Students in the Science Assessment

This section is similar to 1.2.1 and collects data on the State's NCLB science assessment.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students	33,963	33,484	98.6
American Indian or Alaska Native	200	192	96.0
Asian or Pacific Islander	1,018	1,005	98.7
Black, non-Hispanic	2,888	2,840	98.3
Hispanic	5,960	5,870	98.5
White, non-Hispanic	23,728	23,411	98.7
Children with disabilities (IDEA)	5,976	5,745	96.1
Limited English proficient (LEP) students	1,928	1,916	99.4
Economically disadvantaged students	12,368	12,149	98.2
Migratory students	0	0	0.0
Male	17,337	17,063	98.4
Female	16,472	16,269	98.8
Comments: Rhode Island does not yet have the migrant population tracked in our state assessments.			

Source – Manual input by the SEA using the online collection tool. Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 83I.

1.2.6 Participation of Students with Disabilities in Science Assessment

This section is similar to 1.2.2 and collects data on the State's NCLB science assessment.

The data provided should include science participation data from all students with disabilities as defined under the Individuals with Disabilities Education Act. Do not include results from students covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Participating	Percentage of Children with Disabilities (IDEA) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	3,294	57.3
Regular Assessment with Accommodations	2,341	40.7
Alternate Assessment Based on Grade-Level Achievement Standards		
Alternate Assessment Based on Modified Achievement Standards		
Alternate Assessment Based on Alternate Achievement Standards	110	1.9
Total	5,745	
Comments:		

Source – Manual input by the SEA using the online collection tool. Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 83I.

1.3 STUDENT ACADEMIC ACHIEVEMENT

This section collects data on student academic achievement on the State NCLB assessments.

1.3.1 Student Academic Achievement in Mathematics

In the format of the table below, provide the number of students who completed the State NCLB assessment(s) in mathematics implemented to meet the requirements of Section 1111(b)(3) of ESEA (regardless of whether the students were present for a full academic year) and for whom a proficiency level was assigned, and the number of these students who scored at or above proficient, in grades 3 through 8 and high school. The percentage of students who scored at or above proficient is calculated automatically.

The student group "children with disabilities (IDEA)" includes children who participated in the regular assessments with or without accommodations and alternate assessments.

The student group "limited English proficient (LEP) students" does include recently arrived students who have attended schools in the United States for fewer than 12 months. Do not include former LEP students.

1.3.2 Student Academic Achievement in Reading/Language Arts

This section is similar to 1.3.1. The only difference is that this section collects data on the State's NCLB reading/language arts assessment.

The student group "limited English proficient (LEP) students" does not include recently arrived students who have attended schools in the United States for fewer than 12 months. Do not include former LEP students.

1.3.3 Student Academic Achievement in Science

This section is similar to 1.3.1. The only difference is that this section collects data on the State's NCLB science assessment administered at least one in each of the following grade spans 3 through 5, 6 through 9, and 10 through 12.

Limited English Proficiency (LEP) students includes recently arrived students who have attended schools in the United States for fewer than 12 months. Do not include former LEP students.

1.3.1.1 Student Academic Achievement in Mathematics -Grade 3

	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
Grade 3			
All students	9,784	5,876	60.1
American Indian or Alaska Native	68	29	42.6
Asian or Pacific Islander	309	182	58.9
Black, non-Hispanic	855	313	36.6
Hispanic	1,784	606	34.0
White, non-Hispanic	6,747	4,737	70.2
Children with disabilities (IDEA)	1,783	679	38.1
Limited English proficient (LEP) students	675	152	22.5
Economically disadvantaged students	4,048	1,684	41.6
Migratory students	0	0	0.0
Male	5,068	3,064	60.5
Female	4,705	2,807	59.7
Comments:			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.2.1 Student Academic Achievement in Reading/Language Arts -Grade 3

	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
Grade 3			
All students	9,717	6,637	68.3
American Indian or Alaska Native	68	36	52.9
Asian or Pacific Islander	306	197	64.4
Black, non-Hispanic	845	424	50.2
Hispanic	1,731	795	45.9
White, non-Hispanic	6,747	5,175	76.7
Children with disabilities (IDEA)	1,784	691	38.7
Limited English proficient (LEP) students	604	166	27.5
Economically disadvantaged students	3,995	2,045	51.2
Migratory students	0	0	0.0
Male	5,031	3,248	64.6
Female	4,675	3,384	72.4
Comments:			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.3.1 Student Academic Achievement in Science -Grade 3

Grade 3	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	0	0	0.0
American Indian or Alaska Native	0	0	0.0
Asian or Pacific Islander	0	0	0.0
Black, non-Hispanic	0	0	0.0
Hispanic	0	0	0.0
White, non-Hispanic	0	0	0.0
Children with disabilities (IDEA)	0	0	0.0
Limited English proficient (LEP) students	0	0	0.0
Economically disadvantaged students	0	0	0.0
Migratory students	0	0	0.0
Male	0	0	0.0
Female	0	0	0.0
Comments: There was no Science test administered in grade 3 in the 2007-2008 school year			

Source – Manual input by the SEA using the online collection tool. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online CSPR collection tool.

Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 83I.

1.3.1.2 Student Academic Achievement in Mathematics -Grade 4

Grade 4	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	11,095	5,992	54.0
American Indian or Alaska Native	72	25	34.7
Asian or Pacific Islander	331	193	58.3
Black, non-Hispanic	965	347	36.0
Hispanic	2,210	657	29.7
White, non-Hispanic	7,508	4,769	63.5
Children with disabilities (IDEA)	1,970	532	27.0
Limited English proficient (LEP) students	751	105	14.0
Economically disadvantaged students	4,789	1,726	36.0
Migratory students	0	0	0.0
Male	5,723	3,092	54.0
Female	5,370	2,900	54.0
Comments:			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.2.2 Student Academic Achievement in Reading/Language Arts -Grade 4

Grade 4	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	11,013	7,025	63.8
American Indian or Alaska Native	73	33	45.2
Asian or Pacific Islander	323	205	63.5
Black, non-Hispanic	958	464	48.4
Hispanic	2,147	860	40.1
White, non-Hispanic	7,504	5,459	72.7
Children with disabilities (IDEA)	1,970	579	29.4
Limited English proficient (LEP) students	662	114	17.2
Economically disadvantaged students	4,727	2,169	45.9
Migratory students	0	0	0.0
Male	5,679	3,375	59.4
Female	5,332	3,649	68.4
Comments:			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.3.2 Student Academic Achievement in Science -Grade 4

	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
Grade 4			
All students	11,030	4,019	36.4
American Indian or Alaska Native	68	15	22.1
Asian or Pacific Islander	334	122	36.5
Black, non-Hispanic	954	157	16.5
Hispanic	2,194	284	12.9
White, non-Hispanic	7,426	3,430	46.2
Children with disabilities (IDEA)	1,898	351	18.5
Limited English proficient (LEP) students	953	77	8.1
Economically disadvantaged students	4,700	858	18.3
Migratory students	0	0	0.0
Male	5,651	2,013	35.6
Female	5,327	1,994	37.4
Comments: State data for migratory students is not available.			

Source – Manual input by the SEA using the online collection tool. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online CSPR collection tool.

Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 83I.

1.3.1.3 Student Academic Achievement in Mathematics -Grade 5

	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
Grade 5			
All students	10,967	6,268	57.2
American Indian or Alaska Native	70	27	38.6
Asian or Pacific Islander	366	234	63.9
Black, non-Hispanic	950	336	35.4

White, non-Hispanic	7,708	1,586	20.6
Children with disabilities (IDEA)	1,631	63	3.9
Limited English proficient (LEP) students	381	N<10	
Economically disadvantaged students	2,860	138	4.8
Migratory students	0	0	0.0
Male	5,191	895	17.2
Female	5,282	839	15.9
Comments: State data for migratory students is not available.			

Source – Manual input by the SEA using the online collection tool. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online CSPR collection tool.

Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 83I.

1.4 SCHOOL AND DISTRICT ACCOUNTABILITY

This section collects data on the Adequate Yearly Progress (AYP) status of schools and districts.

1.4.1 All Schools and Districts Accountability

In the table below, provide the total number of schools and districts and the total number of those schools and districts that made AYP based on data for the SY 2007-08. The percentage that made AYP will be calculated automatically.

Entity	Total #	Total # that Made AYP in SY 2007-08	Percentage that Made AYP in SY 2007-08
Schools	303	222	73.3
Districts	49	31	63.3
Comments: Note: Re districts, this response includes all LEAs: traditional school districts (36), independent charters (8), state-operated schools (4), and collaboratives (1). Some state reports from Rhode Island re district accountability refer only to the 36 traditional school districts, of which 24 made AYP.			

Source – The table above is produced through EDFacts. The SEA submits the data in N/X103 for data group 32.

1.4.2 Title I School Accountability

In the table below, provide the total number of public Title I schools by type and the total number of those schools that made AYP based on data for the SY 2007-08 school year. Include only public Title I schools. Do not include Title I programs operated by local educational agencies in private schools. The percentage that made AYP will be calculated automatically.

Title I School	# Title I Schools	# Title I Schools that Made AYP in SY 2007-08	Percentage of Title I Schools that Made AYP in SY 2007-08
All Title I schools	143	98	68.5
Schoolwide (SWP) Title I schools	71	31	43.7
Targeted assistance (TAS) Title I schools	72	67	93.1
Comments: The # of title I schools is incorrect and as per email from eden support today we are informed that this cannot be correct by 5 p.m. The correct #s are: All Title I Schools = 142. TAS Title I schools = 71.			

Source – The table above is produced through EDFacts. The SEA submits the data in N/X129 for data group 22 and N/X103 for data group 32.

1.4.3 Accountability of Districts That Received Title I Funds

In the table below, provide the total number of districts that received Title I funds and the total number of those districts that made AYP based on data for SY 2007-08. The percentage that made AYP will be calculated automatically.

# Districts That Received Title I Funds	# Districts That Received Title I Funds and Made AYP in SY 2007-08	Percentage of Districts That Received Title I Funds and Made AYP in SY 2007-08
35	23	65.7
Comments:		

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk.

Note: DG 582 is not collected from the SEA, rather it comes from the Title I funding data.

1.4.4 Title I Schools Identified for Improvement

1.4.4.1 List of Title I Schools Identified for Improvement

In the following table, provide a list of Title I schools identified for improvement, corrective action, or restructuring under Section 1116 for the SY 2008-09 based on the data from SY 2007-08. For each school on the list, provide the following:

- District Name and NCES ID Code
- School Name and NCES ID Code
- Whether the school met the proficiency target in reading/language arts as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the reading/language arts assessment
- Whether the school met the proficiency target in mathematics as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the mathematics assessment
- Whether the school met the other academic indicator for elementary/middle schools (if applicable) as outlined in the State's Accountability Plan

- Whether the school met the graduation rate for high schools (if applicable) as outlined in the State's Accountability Plan
- Improvement status for SY 2008-09 (Use one of the following improvement status designations: School Improvement – Year 1, School Improvement – Year 2, Corrective Action, Restructuring Year 1 (planning), or Restructuring Year 2 (implementing))
- Whether (yes or no) the school is or is not a Title I school (This column must be completed by States that choose to list all schools in improvement. Column is optional for States that list only Title I schools.)
- Whether (yes or no) the school was provided assistance through 1003(a).
- Whether (yes or no) the school was provided assistance through 1003 (g).

See attached for blank template that can be used to enter school data.

Download template: [Question 1.4.4.1 \(Get MS Excel Viewer\)](#)

Source – Manual entry by SEA into the online collection tool.

¹ The school improvement statuses are defined in LEA and School Improvement Non-Regulatory Guidance. This document may be found on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.

1.4.4.3 Corrective Action

In the table below, for schools in corrective action, provide the number of schools for which the listed corrective actions under NCLB were implemented in SY 2007-08 (based on SY 2006-07 assessments under Section 1111 of ESEA).

Corrective Action	# of Title I Schools in Corrective Action in Which the Corrective Action was Implemented in SY 2007-08
Required implementation of a new research-based curriculum or instructional program	7
Extension of the school year or school day	0
Replacement of staff members relevant to the school's low performance	0
Significant decrease in management authority at the school level	0
Replacement of the principal	0
Restructuring the internal organization of the school	0
Appointment of an outside expert to advise the school	0
Comments:	

Source – Manual entry by SEA into the online collection tool.

1.4.4.4 Restructuring – Year 2

In the table below, for schools in restructuring – year 2 (implementation year), provide the number of schools for which the listed restructuring actions under NCLB were implemented in SY 2007-08 (based on SY 2006-07 assessments under Section 1111 of ESEA).

Restructuring Action	# of Title I Schools in Restructuring in Which Restructuring Action Is Being Implemented
Replacement of all or most of the school staff (which may include the principal)	0
Reopening the school as a public charter school	0
Entering into a contract with a private entity to operate the school	0
Take over the school by the State	0
Other major restructuring of the school governance	8
Comments:	

Source – Manual entry by SEA into the online collection tool.

In the space below, list specifically the "other major restructuring of the school governance" action(s) that were implemented.

The response is limited to 8,000 characters.

Appointed a state Progressive Support and Intervention Specialist to work with the district central office and school leaders to identify specific actions and supports that would be implemented to improve learning and teaching in the restructuring schools. Based on the corrective action plan, one or more of these actions occurred in specific schools:

Mentors for principals;

Established effective leadership teams;

Established working school improvement teams;

Developed and implemented school improvement plans;

Required teachers to sign letters of recommitment to work in the school.

1.4.5 Districts That Received Title I Funds Identified for Improvement

1.4.5.1 List of Districts That Received Title I Funds and Were Identified for Improvement

In the following table, provide a list of districts that received Title I funds and were identified for improvement or corrective action under Section 1116 for the SY 2008-09 based on the data from SY 2007-08. For each district on the list, provide the following:

- District Name and NCES ID Code
- Whether the district met the proficiency target in reading/language arts as outlined in the State's Accountability Plan
- Whether the district met the participation rate target for the reading/language arts assessment
- Whether the district met the proficiency target in mathematics as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the mathematics assessment
- Whether the district met the other academic indicator for elementary/middle schools (if applicable) as outlined in the State's Accountability Plan

- Whether the district met the graduation rate for high schools (if applicable) as outlined in the State's Accountability Plan
- Improvement status for SY 2008-09 (Use one of the following improvement status designations: Improvement or Corrective Action²)
- Whether the district is a district that received Title I funds. Indicate "Yes" if the district received Title I funds and "No" if the district did not receive Title I funds. (This column **must be completed by States that choose to list all districts or all districts in improvement. This column is optional for States that list only** districts in improvement that receive Title I funds.)

See attached for blank template that can be used to enter district data.

Download template: [Question 1.4.5.1 \(Get MS Excel Viewer\)](#)

Source – Manual entry by SEA into the online collection tool.

² The district improvement statuses are defined in LEA and School Improvement Non-Regulatory Guidance. This document may be found on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.

1.4.5.2 Actions Taken for Districts That Received Title I Funds and Were Identified for Improvement

In the space below, briefly describe the measures being taken to address the achievement problems of districts identified for improvement or corrective action. Include a discussion of the technical assistance provided by the State (e.g., the number of districts served, the nature and duration of assistance provided, etc.).

The response is limited to 8,000 characters.

Districts identified for improvement or corrective action that receive Title I Funds are required to work with RIDE to develop and implement a District Negotiated Agreement that outlines district and state roles and responsibilities and a district corrective action plan and school-focused action plans. The allocation of state and federal resources is tied to the District Negotiated Agreement. Quarterly district face-to-face meetings with RIDE are held to assess progress and troubleshoot barriers to implementation. In addition, an annual Commissioner's Visit is scheduled to determine the district's/school's progress in implementing its corrective action plans.

The Office of Progressive Support and Intervention is focused on the ongoing building of its system of response to identified schools and districts. This system includes the following mechanisms: (1) formal management letters to districts announcing the "corrective action" status of their schools and districts were sent; (2) a District Negotiated Agreement and a District Corrective Action Plan in all identified districts were developed, implemented, and monitored; (3) partnerships with support providers (Educational Development Center, The Education Alliance at Brown University, Annenberg Institute for School Reform, and individual contractors) were built; (4) systemic review of all state and federal funding expenditures was conducted with each district; (5) regular face-to-face meetings between the district and the Commissioner were held; (6) SALT visits, Commissioner visits to track progress were conducted in each district, and (7) a PS&I Director and a PS&I coordinator/specialist were assigned to each identified district.

In 2006-2007 there were three districts with Title I schools identified for improvement or corrective action. This number stayed the same in 2007-2008. All identified districts are urban.

Source – Manual entry by SEA into the online collection tool.

1.4.5.3 Corrective Action

In the table below, for districts in corrective action, provide the number of districts in corrective action in which the listed corrective actions under NCLB were implemented in SY 2007-08 (based on SY 2006-07 assessments under Section 1111 of ESEA).

Corrective Action	# of Districts receiving Title I funds in Corrective Action in Which Corrective Action was Implemented in SY 2007-08
Implementing a new curriculum based on State standards	3
Authorized students to transfer from district schools to higher performing schools in a neighboring district	0
Deferred programmatic funds or reduced administrative funds	0
Replaced district personnel who are relevant to the failure to make AYP	0
Removed one or more schools from the jurisdiction of the district	0
Appointed a receiver or trustee to administer the affairs of the district	0
Restructured the district	0
Abolished the district (list the number of districts abolished between the end of SY 2006-07 and beginning of SY 2007-08 as a corrective action)	0
Comments:	

Source – Manual entry by SEA into the online collection tool.

1.4.7 Appeal of AYP and Identification Determinations

In the table below, provide the number of districts and schools that appealed their AYP designations based on 2007-08 data and the results of those appeals.

	# Appealed Their AYP Designations	# Appeals Resulted in a Change in the AYP Designation
Districts	1	1
Schools	1	0
Comments:		

Source – Manual entry by SEA into the online collection tool.

Date (MM/DD/YY) that processing appeals based on SY 2007-08 data was complete	06/24/08

1.4.8 School Improvement Status

In the section below, "Schools in Improvement" means Title I schools identified for improvement, corrective action, or restructuring under Section 1116 of ESEA for SY 2007-08.

1.4.8.1 Student Proficiency for Schools Receiving Assistance Through Section 1003(a) and 1003(g) Funds

The table below pertains only to schools that received assistance through Section 1003(a) and/or 1003(g) funds during SY 2007-08.

- In the SY 2007-08 column, provide the total number and percentage of students in schools receiving School Improvement funds in SY 2007-08 who were:
 - Proficient in mathematics as measured by your State's assessments required under Section 1111(b)(3) of ESEA in SY 2007-08.
 - Proficient in reading/language arts as measured by your State's assessments required under Section 1111(b)(3) of ESEA in SY 2007-08.
 - Total number of schools for which the data in this table are reported. This should be the total number of schools that received assistance through Section 1003(a) and/or 1003(g) funds during SY 2007-08.
- In the SY 2006-07 column, provide the requested data for the same schools whose student proficiency data are reported for SY 2007-08. No total is requested for schools in SY 2006-07.

Category	SY 2007-08	SY 2006-07
Total number of students who were enrolled in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2007-08		10,725
Total number of students who were proficient in mathematics in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2007-08		2,970
Percentage of students who were proficient in mathematics in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2007-08		27.7
Total number of students who were proficient in reading/language arts in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2007-08		4,153
Percentage of students who were proficient in reading/language arts in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2007-08		38.7
Number of schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2007-08	28	
Comments: RI is a fall testing state. Fall 2007 test results were used for the SY 2006-07 column. SY 2007-08 column is blank because Fall 2008 test results have not been finalized. Updated information will be sent by e-mail to ED when test results have been finalized, as per ED request.		

Source – Manual input by the SEA using the online collection tool. Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 83I.

1.4.8.2 School Improvement Status and School Improvement Assistance

In the table below, indicate the number of schools receiving assistance through Section 1003(a) and/or 1003(g) funds during SY 2007-08 that:

- Made adequate yearly progress;
- Exited improvement status;
- Did not make adequate yearly progress.

Category	# of Schools
Number of schools receiving assistance through Section 1003(a) and/or 1003(g) funds during SY 2007-08 that made adequate yearly progress based on testing in SY 2007-08	
Number of schools receiving assistance through Section 1003(a) and/or 1003(g) funds during SY 2007-08 that exited improvement status based on testing in SY 2007-08	
Number of schools receiving assistance through Section 1003(a) and/or 1003(g) funds during SY 2007-08 that did not make adequate yearly progress based on testing in SY 2007-08	
Comments: We are unable to report because Fall 2008 test results have not been finalized. Updated information will be sent by e-mail to ED when test results have been finalized, as per ED request.	

Source – Manual input by the SEA using the online collection tool. Note: New collection for the SY 2007-08 CSPR. Proposed under OMB

1.4.8.3 Effective School Improvement Strategies

In the table below, indicate the effective school improvement strategies used that were supported through Section 1003(a) and/or 1003(g) funds.

Column 1	Column 2	Column 3	Column 4	Column 5	Column 6	Column 7
Effective Strategy or Combination of Strategies Used (See response options in "Column 1 Response Options Box" below.) If your State's response includes a "5" (other strategies), identify the specific strategy(s) in Column 2.	Description of "Other Strategies" This response is limited to 500 characters.	Number of schools in which the strategy(s) was used	Number of schools that used the strategy(s), made AYP, and exited improvement status	Number of schools that used the strategy(s), made AYP, but did not exit improvement status	Most common other Positive Outcome from the Strategy (See response options in "Column 6 Response Options Box" below)	Description of "Other Positive Outcome" if Response for Column 6 is "D" This response is limited to 500 characters.
7 = Combo 2	Combined strategies 1 and 2.	16				NA
8 = Combo 3	Combined strategies 1, 2 and 3	23				NA
		0				

Comments: RI is a fall testing state. We are unable to report in columns 4,5,6 because Fall 2008 test results have not been finalized. Updated information will be sent by e-mail to ED when test results have been finalized, as per ED request.

Column 1 Response Options Box
<p>1 = Provide customized technical assistance and/or professional development that is designed to build the capacity of LEA and school staff to improve schools and is informed by student achievement and other outcome-related measures.</p> <p>2 = Utilize research-based strategies or practices to change instructional practice to address the academic achievement problems that caused the school to be identified for improvement, corrective action, or restructuring.</p> <p>3 = Create partnerships among the SEA, LEAs and other entities for the purpose of delivering technical assistance, professional development, and management advice.</p> <p>4 = Provide professional development to enhance the capacity of school support team members and other technical assistance providers who are part of the Statewide system of support and that is informed by student achievement and other outcome-related measures.</p> <p>5 = Implement other strategies determined by the SEA or LEA, as appropriate, for which data indicate the strategy is likely to result in improved teaching and learning in schools identified for improvement, corrective action, or restructuring.</p> <p>6 = Combination 1: Schools using a combination of strategies from above. Please use Column 2 to indicate which of the above strategies comprise this combination.</p> <p>7 = Combination 2: Schools using a combination of strategies from above. Please use Column 2 to indicate which of the above strategies comprise this combination.</p> <p>8 = Combination 3: Schools Using a combination of strategies from above. Please use Column 2 to indicate which of the above strategies comprise this combination.</p>

Column 6 Response Options Box

A = Improvement by at least five percentage points in two or more AYP reporting cells

B = Increased teacher retention

C = Improved parental involvement

D = Other

1.4.8.4 Sharing of Effective Strategies

In the space below, describe how your State shared the effective strategies identified in item 1.4.8.3 with its LEAs and schools. Please exclude newsletters and handouts in your description.

This response is limited to 8,000 characters.

The RI Department of Education (RIDE), Office of Progressive Support and Intervention (PS & I) had a multi-level approach to sharing effective strategies for school improvement, including:

1. Joint Capacity Meetings: Each identified district with Title I schools in need of improvement had a RIDE PS& I liaison assigned. On a monthly basis, the PSI liaison and other RIDE staff, as appropriate, met with district and school staff to review implementation of school improvement activities, share successes, and identify barriers to progress. School staff had the opportunity to hear about program implementation in other schools. The RIDE PS&I liaison shared the information with RIDE PS& I office staff members to increase knowledge of effective strategies across districts.
2. Quarterly Face -to -Face Meetings: A quarterly meeting was held with each district that had Title I schools in need of improvement to review progress on implementation of the district's corrective action plan and school improvement activities. The quarterly meetings included district administrators, school staff, union representatives, and, at times, school committee members. The Commissioner of Education chaired these meetings, and directors and staff from across the department attended.
3. RI School Superintendents Association: The Director of the Office of Progressive Support and Intervention regularly attended the statewide meeting of school superintendent and reported on successful interventions that were being implemented in those districts with schools in need of improvements. This state-wide forum provided an opportunity for superintendents to share ideas and learn from each other's practices.
4. RI Board of Regents: The Director of the Office of Progressive Support and Intervention regularly reported on the progress of school improvement activities to the RI Board of Regents in public meetings.
5. The RIDE sponsored a two-day conference for all districts with schools in need of improvement. The conference provided an opportunity for RIDE staff, district staff, and students to share their experiences and effective strategies. The conference received local television and newspaper coverage which highlighted the work and progress that was taking place in RI schools.
6. RIDE PS& I staff and local superintendents participated in a two-day regional conference on Strengthening Statewide Systems of Support. The conference was sponsored by the New England Comprehensive Center and the Educational Alliance at Brown University.

1.4.8.5 Use of Section 1003(a) and (g) School Improvement Funds

Note: New section for the SY 2007-08 CSPR. Proposed under OMB 83I.

1.4.8.5.1 Section 1003(a) State Reservations

In the space provided, enter the percentage of the FY 2007 (SY 2007-08) Title I, Part A allocation that the SEA reserved in accordance with Section 1003(a) of ESEA and §200.100(a) of ED's regulations governing the reservation of funds for school improvement under Section 1003(a) of ESEA: 4.0 %

Comments:

Source – Manual input by the SEA using the online collection tool. Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 83I.

1.4.8.5.2 Section 1003(a) and 1003(g) Allocations to LEAs and Schools

In the tables below, provide the requested information for FY 2007 (SY 2007-08).

See attached for blank template that can be used to enter allocation data.

Download template: [Question 1.4.8.5.2 \(Get MS Excel Viewer\)](#)

Source – Manual input by the SEA using the online collection tool.

Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 831.

1.4.8.5.3 Use of Section 1003(g)(8) Funds for Evaluation and Technical Assistance

Section 1003(g)(8) of ESEA allows States to reserve up to five percent of Section 1003(g) funds for administration and to meet the evaluation and technical assistance requirements for this program. In the space below, identify and describe the specific Section 1003(g) evaluation and technical assistance activities that your State conducted during SY 2007-08.

This response is limited to 8,000 characters.

No 1003g funds were allocated for 2007-08.

Source – Manual input by the SEA using the online collection tool. Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 831.

1.4.8.6 Actions Taken for Title I Schools Identified for Improvement Supported by Funds Other than Those of Section 1003(a) and 1003(g).

In the space below, describe actions (if any) taken by your State in SY 2007-08 that were supported by funds other than Section 1003(a) and 1003(g) funds to address the achievement problems of schools identified for improvement, corrective action, or restructuring under Section 1116 of ESEA.

The response is limited to 8,000 characters.

RIDE provided state funding to districts in order to build district capacity to support schools in need of improvement. RIDE and the district developed a District Negotiated Agreement (DNA) that identified the use of state funds to build district capacity. The DNA was monitored on a regular basis during monthly Joint Capacity Meetings, and quarterly Face to Face Meetings with the district.

During the 2007-08 school year, the following strategies were used:

1. Customized technical assistance and professional development to build the LEA capacity to support schools in need of improvement.
2. Research based practices to address academic achievement.
3. Partnerships with New England Comprehensive center and local colleges to deliver technical assistance, professional development, and management advice.

Source – Manual input by the SEA using the online collection tool. Note: New collection for the SY 2007-08 CSPR. Proposed under OMB 831.

1.4.9 Public School Choice and Supplemental Educational Services

This section collects data on public school choice and supplemental educational services.

1.4.9.1 Public School Choice

This section collects data on public school choice. FAQs related to the public school choice provisions are at the end of this section.

1.4.9.1.2 Public School Choice – Students

In the table below, provide the number of students who were eligible for public school choice, the number of eligible students who applied for public school choice, and the number who transferred under the provisions for public school choice in Section 1116 of ESEA.

Students who are eligible for public school choice includes:

- (1) Students currently enrolled in a school identified for improvement, corrective action or restructuring.
- (2) Students who transferred in the current school year under the public school choice provisions of Section 1116, and
- (3) Students who previously transferred under Section 1116 and are continuing to transfer for the current school year under Section 1116.

	# Students
Eligible for public school choice	20,356
Applied to transfer	179
Transferred to another school under the Title I public school choice provisions	12

Indicate in the table below the categories of students that are included in the count of eligible students.

	Yes/No
Enrolled in a school identified for improvement	Yes
Transferred in the current school year, only	Yes
Transferred in a prior year and in the current year	Yes
Comments: No comment	

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk.

1.4.9.1.3 Funds Spent on Public School Choice

In the table below, provide the total dollar amount spent by LEAs on transportation for public school choice in Section 1116 of ESEA.

	Amount
Dollars spent by LEAs on transportation for public school choice	\$ 4,704
Comments: The amount of funds spent for transportation decreased. The amount reported above is correct.	

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk.

1.4.9.1.4 Availability of Public School Choice Options

In the table below provide the number of LEAs in your State that are unable to provide public school choice options to eligible students due to any of the following reasons:

1. All schools at a grade level are in school improvement, corrective action, or restructuring.
2. LEA only has a single school at the grade level of the school at which students are eligible for public school choice
3. LEA's schools are so remote from one another that choice is impracticable.

	# LEAs
LEAs Unable to Provide Public School Choice	2
Comments:	

Source – Manual entry by SEA into the online collection tool.

FAQs about public school choice:

a. How should States report data on Title I public school choice for those LEAs that have open enrollment and other choice programs?

An LEA may consider a student as eligible for and participating in Title I public school choice, and may consider costs for transporting that student towards its funds spent on transportation for public school choice, if the student meets the following conditions:

- Has a "home" or "neighborhood" school (to which the student would have been assigned, in the absence of a choice program) that receives Title I funds and has been identified, under the statute, as in need of improvement, corrective action, or restructuring; and
- Has elected to enroll, at some point since July 1, 2002 (the effective date of the Title I choice provisions), and after the home school has been identified as in need of improvement, in a school³ that has not been so identified and is attending that school; and
- Is using district transportation services to attend such a school.

b. How do States report on public school choice for those LEAs that are not able to offer public school choice (e.g., LEAs in which all schools in a grade level are in school improvement, LEAs that have only a single school at that grade level, or LEAs whose schools are so remote from one another that choice is impracticable)? For those LEAs, States should count as eligible all students who attend identified Title I schools. States should report that no eligible schools or students were provided the option to transfer and should provide an explanation why choice is not possible within the LEA in the Comment Section.

³ Adapted from OESE/OII policy letter of August 2004. The policy letter may be found on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/stateletters/choice/choice081804.html>.

1.4.9.2 Supplemental Educational Services

This section collects data on supplemental educational services.

1.4.9.2.2 Supplemental Educational Services – Students

In the table below, provide the number of students who were eligible for, who applied for, and who received supplemental educational services under Section 1116 of ESEA.

	# Students
Eligible for supplemental educational services	12,267
Applied for supplemental educational services	2,379
Received supplemental educational services	2,273
Comments: No comment	

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk.

1.4.9.2.3 Funds Spent on Supplemental Educational Services

In the table below, provide the total dollar amount spent by LEAs on supplemental educational services under Section 1116 of ESEA.

	Amount
Dollars spent by LEAs on supplemental educational services	\$ 3,506,176
Comments: No comment	

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk.

1.5 TEACHER QUALITY

This section collects data on "highly qualified" teachers as the term is defined in Section 9101(23) of ESEA.

1.5.1 Core Academic Classes Taught by Teachers Who Are Highly Qualified

In the table below, provide the number of core academic classes for each of the school types listed and the number of those core academic classes taught by teachers who are highly qualified (as the term is defined in Section 9101(23) of ESEA) and the number taught by teachers who are not highly qualified. The percentage of core academic classes taught by teachers who are highly qualified and the percentage taught by teachers who are not highly qualified will be calculated automatically. Below the table are FAQs about these data. The percentages used for high-and low-poverty schools and the poverty metric used to determine those percentages are reported in 1.5.3.

School Type	# of Core Academic Classes (Total)	# of Core Academic Classes Taught by Teachers Who Are Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are Highly Qualified	# of Core Academic Classes Taught by Teachers Who Are NOT Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are NOT Highly Qualified
All schools	10,818	10,381	96.0	437	4.0
Elementary level					
High-poverty schools	2,083	1,935	92.9	148	7.1
Low-poverty schools	3,084	2,997	97.2	87	2.8
All elementary schools	5,167	4,932	95.5	235	4.5
Secondary level					
High-poverty schools	2,013	1,906	94.7	107	5.3
Low-poverty schools	3,638	3,543	97.4	95	2.6
All secondary schools	5,651	5,449	96.4	202	3.6
Comments:					

Do the data in Table 1.5.1 above include classes taught by special education teachers who provide direct instruction core academic subjects?

Data table includes classes taught by special education teachers who provide direct instruction core academic subjects.	Yes
---	-----

If the answer above is no, please explain below. The response is limited to 8,000 characters.

Does the State count elementary classes so that a full-day self-contained classroom equals one class, or does the State use a departmentalized approach where a classroom is counted multiple times, once for each subject taught?

The response is limited to 8,000 characters.

The State uses a departmentalized approach where a self-contained classroom is counted multiple times, once for each core subject taught.

Source – Manual entry by SEA into the online collection tool.

FAQs about highly qualified teachers and core academic subjects:

- a. *What are the core academic subjects? English, reading/language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography [Title IX, Section 9101(11)]. While the statute includes the arts in the core academic subjects, it does not specify which of the arts are core academic subjects; therefore, States must make this determination.*
- b. *How is a teacher defined? An individual who provides instruction in the core academic areas to kindergarten, grades 1 through 12, or ungraded classes, or individuals who teach in an environment other than a classroom setting (and who maintain daily student attendance records) [from NCES, CCD, 2001-02]*
- c. *How is a class defined? A class is a setting in which organized instruction of core academic course content is provided to one or more students (including cross-age groupings) for a given period of time. (A course may be offered to more than one class.) Instruction, provided by one or more teachers or other staff members, may be delivered in person or via a different medium. Classes that share space should be considered as separate classes if they function as separate units for more than 50% of the time [from NCES Non-fiscal Data Handbook for Early Childhood, Elementary, and Secondary Education, 2003].*
- d. *Should 6th-, 7th-, and 8th-grade classes be reported in the elementary or the secondary category? States are responsible for determining whether the content taught at the middle school level meets the competency requirements for elementary or secondary instruction. Report classes in grade 6 through 8 consistent with how teachers have been classified to determine their highly qualified status, regardless of whether their schools are configured as elementary or middle schools.*
- e. *How should States count teachers (including specialists or resource teachers) in elementary classes? States that count self-contained classrooms as one class should, to avoid over-representation, also count subject-area specialists (e.g., mathematics or music teachers) or resource teachers as teaching one class. On the other hand, States using a departmentalized approach to instruction where a self-contained classroom is counted multiple times (once for each subject taught) should also count subject-area specialists or resource teachers as teaching multiple classes.*
- f. *How should States count teachers in self-contained multiple-subject secondary classes? Each core academic subject taught for which students are receiving credit toward graduation should be counted in the numerator and the denominator. For example, if the same teacher teaches English, calculus, history, and science in a self-contained classroom, count these as four classes in the denominator. If the teacher were Highly Qualified to teach English and history, he/she would be counted as Highly Qualified in two of the four subjects in the numerator.*
- g. *What is a "high-poverty school"? Section 1111(h)(1)(C)(viii) defines "high-poverty" schools as schools in the top quartile of poverty in the State. The poverty quartile breaks are reported later in this section.*
- h. *What is a "low-poverty school"? Section 1111(h)(1)(C)(viii) defines "low-poverty" schools as schools in the bottom quartile of poverty in the State. The poverty quartile breaks are reported later in this section.*

1.5.2 Reasons Core Academic Classes Are Taught by Teachers Who Are Not Highly Qualified

In the table below, estimate the percentages for each of the reasons why teachers who are not highly qualified teach core academic classes. For example, if 900 elementary classes were taught by teachers who are not highly qualified, what percentage of those 900 classes falls into each of the categories listed below? If the three reasons provided at each grade level are not sufficient to explain why core academic classes at a particular grade level are taught by teachers who are not highly qualified, use the row labeled "other" and explain the additional reasons. The total of the reasons is calculated automatically for each grade level and must equal 100% at the elementary level and 100% at the secondary level.

Note: Use the numbers of core academic classes taught by teachers who are not highly qualified from 1.5.1 for both elementary school classes (1.5.2.1) and for secondary school classes (1.5.2.2) as your starting point.

	Percentage
Elementary School Classes	
Elementary school classes taught by certified general education teachers who did not pass a subject-knowledge test or (if eligible) have not demonstrated subject-matter competency through HOUSSE	40.0
Elementary school classes taught by certified special education teachers who did not pass a subject-knowledge test or have not demonstrated subject-matter competency through HOUSSE	60.0
Elementary school classes taught by teachers who are not fully certified (and are not in an approved alternative route program)	0.0
Other (please explain in comment box below)	0.0
Total	100.0

The response is limited to 8,000 characters.

Source – Manual entry by SEA into the online collection tool.

	Percentage
Secondary School Classes	
Secondary school classes taught by certified general education teachers who have not demonstrated subject-matter knowledge in those subjects (e.g., out-of-field teachers)	2.0
Secondary school classes taught by certified special education teachers who have not demonstrated subject-matter competency in those subjects	98.0
Secondary school classes taught by teachers who are not fully certified (and are not in an approved alternative route program)	0.0
Other (please explain in comment box below)	0.0
Total	100.0

The response is limited to 8,000 characters.

Source – Manual entry by SEA into the online collection tool.

1.5.3 Poverty Quartiles and Metrics Used

In the table below, provide the poverty quartiles breaks used in determining high-and low-poverty schools and the poverty metric used to determine the poverty quartiles. Below the table are FAQs about the data collected in this table.

	High-Poverty Schools (more than what %)	Low-Poverty Schools (less than what %)
Elementary schools	57.6	12.7
Poverty metric used	RI used the percentage of students who qualify for the free or reduced-price lunch program for this calculation.	
Secondary schools	53.7	10.9
Poverty metric used	RI used the percentage of students who qualify for the free or reduced-price lunch program for this calculation.	
Comments:		

Source – Manual entry by SEA into the online collection tool.

FAQs on poverty quartiles and metrics used to determine poverty

- a. *How are the poverty quartiles determined? Separately rank order elementary and secondary schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.*
- b. *Since the poverty data are collected at the school and not classroom level, how do we classify schools as either elementary or secondary for this purpose? States may include as elementary schools all schools that serve children in grades K through 5 (including K through 8 or K through 12 schools) and would therefore include as secondary schools those that exclusively serve children in grades 6 and higher.*

1.6 TITLE III AND LANGUAGE INSTRUCTIONAL PROGRAMS

This section collects annual performance and accountability data on the implementation of Title III programs.

1.6.1 Language Instruction Educational Programs

In the table below, place a check next to each type of language instruction educational programs implemented in the State, as defined in Section 3301(8), as required by Sections 3121(a)(1), 3123(b)(1), and 3123(b)(2).

Table 1.6.1 Definitions:

1. **Types of Programs = Types of programs described in the subgrantee's local plan (as submitted to the State or as implemented) that is closest to the descriptions in <http://www.ncela.gwu.edu/expert/glossary.html>.**
2. **Other Language = Name of the language of instruction, other than English, used in the program.**

Check Types of Programs	Type of Program	Other Language
Yes	Dual language	Spanish
No	Two-way immersion	
Yes	Transitional bilingual	Spanish
No	Developmental bilingual	
No	Heritage language	
Yes	Sheltered English instruction	
No	Structured English immersion	
No	Specially designed academic instruction delivered in English (SDAIE)	
Yes	Content-based ESL	
Yes	Pull-out ESL

1.6.2 Student Demographic Data

1.6.2.1 Number of ALL LEP Students in the State

In the table below, provide the unduplicated number of ALL LEP students in the State. LEP students are defined as all students assessed for English language proficiency (ELP) using an annual State ELP assessment as required under Section 1111(b)(7) of ESEA in the reporting year and who meet the LEP definition in Section 9101(25).

- Include newly enrolled (recent arrivals to the U.S.) and continually enrolled LEP students, whether or not they receive services in a Title III language instruction educational program
- Do not include Former LEP students (as defined in Section 200.20(f)(2) of the Title I regulation) and monitored Former LEP students (as defined in Section 3121(a)(4) of Title III) in the ALL LEP student count in this table.

Number of ALL LEP students in the State	7,427
Comments:	

Source – Manual entry by SEA into the online collection tool. Note: New or substantially revised

question for the SY 2007-08 CSPR. Proposed under OMB 831.

1.6.2.2 Number of LEP Students Who Received Title III Language Instruction Educational Program Services

In the table below, provide the unduplicated number of the number of LEP students who received services in Title III language instructional education programs.

	#
LEP students who received services in a Title III language instruction educational program in grades K through 12 for this reporting year.	7,427
Comments:	

Source – The SEA submits the data in file N/X116 that contains data group ID 648, category set A.

1.6.2.3 Most Commonly Spoken Languages in the State

In the table below, provide the five most commonly spoken languages, other than English, in the State (for all LEP students, not just LEP students who received Title III Services). The top five languages should be determined by the highest number of students speaking each of the languages listed.

Language	# LEP Students
Spanish	5,538
Portuguese	352
Creoles and pidgins, Portuguese-based (Other)	263
Chinese	140
Khmer	125

Report additional languages with significant numbers of LEP students in the comment box below. The response is limited to 8,000 characters.

Source – Manual entry by SEA into the online collection tool.

1.6.3 Student Performance Data

This section collects data on LEP student English language proficiency, as required by Sections 1111(h)(4)(D) and 3121(b)(1).

1.6.3.1.1 ALL LEP Participation in State Annual English Language Proficiency Assessment

In the table below, please provide the number of ALL LEP students tested on annual State English language proficiency assessment (as defined in 1.6.2.1).

	#
Number tested on State annual ELP assessment	7,063
Number not tested on State annual ELP assessment	341
Total	7,404
Comments:	

Source – Manual entry by SEA into the online collection tool. Note: New or substantially revised question for the SY 2007-08 CSPR.

Proposed under OMB 831.

1.6.3.1.2 ALL LEP Student English Language Proficiency Results

	#
Number proficient or above on State annual ELP assessment	1,322
Percent proficient or above on State annual ELP assessment	17.9
Comments: For Title III accountability purposes, only students who are in the program for three or more years are included when determining proficiency. There are 3349 students who met this condition and out of these, 1322 were performing at proficient or above (4.5 and above in Access Test). This gives us a state percent of 39.47 at or above proficient. This is different from the 17.9 shown above.	

Source – Manual entry by SEA into the online collection tool. Note: New or substantially revised question for the SY 2007-08 CSPR.

Proposed under OMB 831.

1.6.3.2.1 Title III LEP Participation in English Language Proficiency

In the table below, provide the number of Title III LEP students participating in the annual State English language proficiency assessment.

	#
Number tested on State annual ELP assessment	7,063
Number not tested on State annual ELP assessment	341
Total	7,404
Comments:	

Source – Manual entry by SEA into the online collection tool. Note: New or substantially revised

question for the SY 2007-08 CSPR. Proposed under OMB 831.

1.6.3.2.2 Title III LEP English Language Proficiency Results

In the table below, provide the results from the annual State English language proficiency assessment for Title III-served LEP students who participated in a Title III language instruction educational program in grades K through 12.

Table 1.6.3.2.2 Definitions:

1. **Making Progress = Number of Title III LEP students who met the definition of "Making Progress" as defined by the State and submitted to OELA in the State Consolidated Application (CSA), or as amended.**
2. **ELP Attainment = Number of Title III LEP students who attained English language proficiency as defined by the State and submitted to OELA in the State Consolidated Application (CSA), or as amended.**
3. **Results = Number and percent of Title III LEP students who met the State definition of "Making Progress" and the number and percent that met the State definition of "Attainment" of English language proficiency.**

	Results	
	#	%
Making progress		
ELP attainment	1,322	39.5
Comments: For Progress: Rhode Island does not have an official definition of Progress for individual students. Instead, Progress is defined at the district and state levels. We require the mean performance at the district or state level to increase by 0.50 from one year to the other to meet the Progress indicator for Title III accountability. For Attainment: Students need to have been in the program for three years. There are 3349 students in this group and out of these, 1322 of them were proficient (scoring at 4.5 or above in Access Test). This gives us 39.47 percent achieving attainment

1.6.4 Title III Subgrantees

This section collects data on the performance of Title III subgrantees.

1.6.4.1 Title III Subgrantee Performance

In the table below, report the number of Title III subgrantees meeting the criteria described in the table. Do not leave items blank. If there are zero subgrantees who met the condition described, put a zero in the number (#) column. Do not double count subgrantees by category.

Note: Do not include number of subgrants made under Section 3114(d)(1) from funds reserved for education programs and activities for immigrant children and youth. (Report Section 3114(d)(1) subgrants in 1.6.5.1 ONLY.)

	#
Total number of subgrantees for the year	17
Number of subgrantees that met all three Title III AMAOs	7
Number of subgrantees who met AMAO 1	12
Number of subgrantees who met AMAO 2	12
Number of subgrantees who met AMAO 3	11
Number of subgrantees that did not meet any Title III AMAOs	2
Number of subgrantees that did not meet Title III AMAOs for two consecutive years (SYs 2006-07 and 2007-08)	6
Number of subgrantees implementing an improvement plan in SY 2007-08 for not meeting Title III AMAOs	9
Number of subgrantees who have not met Title III AMAOs for four consecutive years (SYs 2004-05, 2005-06, 2006-07, and 2007-08)	5
Comments:	

Source – Manual entry by SEA into the online collection tool.

1.6.4.2 State Accountability

In the table below, indicate whether the State met all three Title III AMAOs.

Note: Meeting all three Title III AMAOs means meeting each State-set target for each objective: Making Progress, Attaining Proficiency, and Making AYP for the LEP subgroup. This section collects data that will be used to determine State AYP, as required under Section 6161.

State met <u>all</u> three Title III AMAOs	<u>No</u>
Comments:	

Source – Manual entry by SEA into the online collection tool.

1.6.4.3 Termination of Title III Language Instruction Educational Programs

This section collects data on the termination of Title III programs or activities as required by Section 3123(b)(7).

Were any Title III language instruction educational programs or activities terminated for failure to reach program goals?	No
If yes, provide the number of language instruction educational programs or activities for immigrant children and youth terminated.	
Comments:	

Source – Manual entry by SEA into the online collection tool.

1.6.5 Education Programs and Activities for Immigrant Students

This section collects data on education programs and activities for immigrant students.

1.6.5.1 Immigrant Students

In the table below, report the unduplicated number of immigrant students enrolled in the State and who participated in qualifying educational programs under Section 3114(d)(1).

Table 1.6.5.1 Definitions:

1. **Immigrant Students Enrolled = Number of students who meet the definition of immigrant children and youth in Section 3301(6) and enrolled in the elementary or secondary schools in the State.**
2. **Students in 3114(d)(1) Program = Number of immigrant students who participated in programs for immigrant children and youth funded under Section 3114(d)(1), using the funds reserved for immigrant education programs/activities. This number should not include immigrant students who receive services in Title III language instructional educational programs under Sections 3114(a) and 3115(a).**
3. **3114(d)(1) Subgrants = Number of subgrants made in the State under Section 3114(d)(1), with the funds reserved for immigrant education programs/activities. Do not include Title III LIEP subgrants made under Sections 3114(a) and 3115(a) that serve immigrant students enrolled in them.**

# Immigrant Students Enrolled	# Students in 3114(d)(1) Program	# of 3114(d)(1) Subgrants
2,903	247	4

If state reports zero (0) students in programs or zero (0) subgrants, explain in comment box below. The response is limited to 8,000 characters.

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk.

1.6.6 Teacher Information and Professional Development

This section collects data on teachers in Title III language instruction education programs as required under Section 3123(b)(5).

1.6.6.1 Teacher Information

This section collects information about teachers as required under Section 3123 (b)(5).

In the table below, report the number of teachers who are working in the Title III language instruction educational programs as defined in Section 3301(8) and reported in 1.6.1 (Types of language instruction educational programs) even if they are not paid with Title III funds.

Note: Section 3301(8) – The term 'Language instruction educational program' means an instruction course – (A) in which a limited English proficient child is placed for the purpose of developing and attaining English proficiency, while meeting challenging State academic content and student academic achievement standards, as required by Section 1111(b)(1); and (B) that may make instructional use of both English and a child's native language to enable the child to develop and attain English proficiency and may include the participation of English proficient children if such course is designed to enable all participating children to become proficient in English and a second language.

	#
Number of all certified/licensed teachers currently working in Title III language instruction educational programs.	342
Estimate number of additional certified/licensed teachers that will be needed for Title III language instruction educational programs in the next 5 years*.	0

Explain in the comment box below if there is a zero for any item in the table above. The response is limited to 8,000 characters.

The LEP enrollment in Rhode Island has decreased, therefore we are estimating that we will not require an increase in teachers for Title III programs.

Source – Manual entry by SEA into the online collection tool.

* This number should be the total additional teachers needed for the next 5 years, not the number needed for each year. Do not include the number of teachers currently working in Title III English language instruction educational programs.

1.6.6.2 Professional Development (PD) Activities of Subgrantees Related to the Teaching and Learning of LEP Students

In the table below, provide information about the subgrantee professional development activities that meets the requirements of Section 3115(c)(2).

Table 1.6.6.2 Definitions:

1. **Professional Development Topics = Subgrantee activities for professional development topics required under Title III.**
2. **# Subgrantees = Number of subgrantees who conducted each type of professional development activity. A subgrantee may conduct more than one professional development activity. (Use the same method of counting subgrantees, including consortia, as in 1.6.1.1 and 1.6.4.1.)**
3. **Total Number of Participants = Number of teachers, administrators and other personnel who participated in each type of the professional development (PD) activities reported.**
4. **Total = Number of all participants in PD activities.**

Type of Professional Development Activity	# Subgrantees	
Instructional strategies for LEP students	17	
Understanding and implementation of assessment of LEP students	17	
Understanding and implementation of ELP standards and academic content standards for LEP students	17	
Alignment of the curriculum in language instruction educational programs to ELP standards	17	
Subject matter knowledge for teachers	17	
Other (Explain in comment box)	0	
Participant Information	# Subgrantees	# Participants
PD provided to content classroom teachers	5	15
PD provided to LEP classroom teachers	12	16
PD provided to principals	17	35
PD provided to administrators/other than principals	17	33
PD provided to other school personnel/non-administrative	4	5
PD provided to community based organization personnel	0	0
Total	17	104

The response is limited to 8,000 characters.

Source – Manual entry by SEA into the online collection tool.

1.6.7 State Subgrant Activities

This section collects data on State grant activities.

1.6.7.1 State Subgrant Process

In the table below, report the time between when the State receives the Title III allocation from ED, normally on July 1 of each year for the upcoming school year, and the time when the State distributes these funds to subgrantees for the intended school year. Dates must be in the format MM/DD/YY.

Table 1.6.7.1 Definitions:

1. **Date State Received Allocation = Annual date the State receives the Title III allocation from US Department of Education (ED).**
2. **Date Funds Available to Subgrantees = Annual date that Title III funds are available to approved subgrantees.**
3. **# of Days/\$\$ Distribution = Average number of days for States receiving Title III funds to make subgrants to subgrantees beginning from July 1 of each year, except under conditions where funds are being withheld.**

Example: State received SY 2007-08 funds July 1, 2007, and then made these funds available to subgrantees on August 1, 2007, for SY 2007-08 programs. Then the "# of days/\$\$ Distribution" is 30 days.

Date State Received Allocation	Date Funds Available to Subgrantees	# of Days/\$\$ Distribution
07/01/07	07/01/07	1
Comments: Once funds are available to the Rhode Island Department of Education, the funds are then available to the LEAs on the same day to begin running their programs. This is achieved because Rhode Island requires that the LEAs submit their application 1 month in advance of the July 1 program start date. The RIDE program and fiscal offices then review the applications and the approval process occurs prior to July 1 to achieve a July 1 start.		

Source – Manual entry by SEA into the online collection tool.

1.6.7.2 Steps To Shorten the Distribution of Title III Funds to Subgrantees

In the comment box below, describe how your State can shorten the process of distributing Title III funds to subgrantees. The response is limited to 8,000 characters.

It takes Rhode Island less than a day to make the funds available to the subgrantees so there are currently no steps to shorten the distribution of Title III funds to the subgrantees.

Source – Manual entry by SEA into the online collection tool.

1.7 PERSISTENTLY DANGEROUS SCHOOLS

In the table below, provide the number of schools identified as persistently dangerous, as determined by the State, by the start of the school year. For further guidance on persistently dangerous schools, refer to Section B "Identifying Persistently Dangerous Schools" in the Unsafe School Choice Option Non-Regulatory Guidance, available at: <http://www.ed.gov/policy/elsec/guid/unsafeschoolchoice.pdf>.

	#
Persistently Dangerous Schools	0
Comments:	

Source – Manual entry by SEA into the online collection tool.

1.8 GRADUATION RATES AND DROPOUT RATES

This section collects graduation and dropout rates.

1.8.1 Graduation Rates

In the table below, provide the graduation rates calculated using the methodology that was approved as part of the State's accountability plan for the previous school year (SY 2006-07). Below the table are FAQs about the data collected in this table.

Student Group	Graduation Rate
All Students	89.2
American Indian or Alaska Native	69.4
Asian or Pacific Islander	88.9
Black, non-Hispanic	85.6
Hispanic	81.9
White, non-Hispanic	91.4
Children with disabilities (IDEA)	
Limited English proficient	
Economically disadvantaged	
Migratory students	
Male	87.1
Female	91.4
Comments: not disaggregated by program IEP, LEP and Migrant status.	

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online CSPR collection tool.

FAQs on graduation rates:

- a. *What is the graduation rate? Section 200.19 of the Title I regulations issued under the No Child Left Behind Act on December 2, 2002, defines graduation rate to mean:*
 - The percentage of students, measured from the beginning of high school, who graduate from public high school with a regular diploma (not including a GED or any other diploma not fully aligned with the State's academic standards) in the standard number of years; or,
 - Another more accurate definition developed by the State and approved by the Secretary in the State plan that more accurately measures the rate of students who graduate from high school with a regular diploma; and
 - Avoids counting a dropout as a transfer.
- b. *What if the data collection system is not in place for the collection of graduate rates? For those States that are reporting transitional graduation rate data and are working to put into place data collection systems that will allow the State to calculate the graduation rate in accordance with Section 200.19 for all the required subgroups, please provide a detailed progress report on the status of those efforts.*

The response is limited to 8,000 characters.

The system is in place now to report cohort graduation rates by all subgroups for 2007-08 school year.

1.8.2 Dropout Rates

In the table below, provide the dropout rates calculated using the annual event school dropout rate for students leaving a school in a single year determined in accordance with the National Center for Education Statistic's (NCES) Common Core of Data (CCD) for the previous school year (SY 2006-07). Below the table is a FAQ about the data collected in this table.

Student Group	Dropout Rate
All Students	10.8
American Indian or Alaska Native	30.7
Asian or Pacific Islander	11.1
Black, non-Hispanic	14.4
Hispanic	18.1
White, non-Hispanic	8.7
Children with disabilities (IDEA)	
Limited English proficient	
Economically disadvantaged	
Migratory students	
Male	12.9
Female	8.6
Comments: The State does not disaggregate rates by IEP, LEP and Migrant status. The system is in place now to report dropouts rates by all subgroups for 2007-08 school year.	

Source – Manual entry by SEA into the online collection tool.

FAQ on dropout rates:

What is a dropout? A dropout is an individual who: 1) was enrolled in school at some time during the previous school year; and 2) was not enrolled at the beginning of the current school year; and 3) has not graduated from high school or completed a State-or district-approved educational program; and 4) does not meet any of the following exclusionary conditions: a) transfer to another public school district, private school, or State-or district-approved educational program (including correctional or health facility programs); b) temporary absence due to suspension or school-excused illness; or c) death.

1.9 EDUCATION FOR HOMELESS CHILDREN AND YOUTHS PROGRAM

This section collects data on homeless children and youths and the McKinney-Vento grant program.

In the table below, provide the following information about the number of LEAs in the State who reported data on homeless children and youths and the McKinney-Vento program. The totals will be will be automatically calculated.

	#	# LEAs Reporting Data
LEAs without subgrants	44	44
LEAs with subgrants	5	5
Total	49	49
Comments:		

Source – Manual entry by SEA into the online collection tool.

1.9.1 All LEAs (with and without McKinney-Vento subgrants)

The following questions collect data on homeless children and youths in the State.

1.9.1.1 Homeless Children And Youths

In the table below, provide the number of homeless children and youths by grade level enrolled in public school at any time during the regular school year. The totals will be automatically calculated:

Age/Grade	# of Homeless Children/Youths Enrolled in Public School in LEAs Without Subgrants	# of Homeless Children/Youths Enrolled in Public School in LEAs With Subgrants
Age 3 through 5 (not Kindergarten)	N<10	12
K	38	22
1	42	38
2	49	29
3	43	34
4	30	24
5	38	23

11	N<10
12	N<10
Ungraded	N<10
Total	369
Comments:	

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk.

1.9.2.2 Subpopulations of Homeless Students Served

In the table below, please provide the following information about the homeless students served during the regular school year.

	# Homeless Students Served
Unaccompanied youth	10
Migratory children/youth	N<10
Children with disabilities (IDEA)	103
Limited English proficient students	16
Comments:	

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk.

1.9.2.3 Educational Support Services Provided by Subgrantees

In the table below, provide the number of subgrantee programs that provided the following educational support services with McKinney-Vento funds.

	# McKinney-Vento Subgrantees That Offer
Tutoring or other instructional support	5
Expedited evaluations	4
Staff professional development and awareness	4
Referrals for medical, dental, and other health services	4
Transportation	4
Early childhood programs	4
Assistance with participation in school programs	3
Before-, after-school, mentoring, summer programs	5
Obtaining or transferring records necessary for enrollment	4
Parent education related to rights and resources for children	5
Coordination between schools and agencies	4
Counseling	2
Addressing needs related to domestic violence	3
Clothing to meet a school requirement	2
School supplies	5
Referral to other programs and services	4
Emergency assistance related to school attendance	5
Other (optional – in comment box below)	1
Other (optional – in comment box below)	1
Other (optional – in comment box below)	1

The response is limited to 8,000 characters.

Other services include;
short-term taxi fare(Unaccompanied Youth)
classroom teacher support
"home" based learning supplies and materials

Source – Manual input by SEA into the online collection tool.

1.9.2.4 Barriers To The Education Of Homeless Children And Youth

In the table below, provide the number of subgrantees that reported the following barriers to the enrollment and success of homeless children and youths.

	# Subgrantees Reporting
Eligibility for homeless services	3
School Selection	2
Transportation	5
School records	1
Immunizations	1
Other medical records	0
Other Barriers – in comment box below	1

The response is limited to 8,000 characters.

Other barriers include; Lack of affordable housing Past criminal records Past due utility bills-previous residences

Source – Manual entry by SEA into the online collection tool.

1.9.2.5 Academic Progress of Homeless Students

The following questions collect data on the academic achievement of homeless children and youths served by McKinney-Vento subgrants.

1.9.2.5.1 Reading Assessment

In the table below, provide the number of homeless children and youths served who were tested on the State NCLB reading/language arts assessment and the number of those tested who scored at or above proficient. Provide data for grades 9 through 12 only for those grades tested for NCLB.

Grade	# Homeless Children/Youths Served by McKinney-Vento Taking Reading Assessment Test	# Homeless Children/Youths Served by McKinney-Vento Who Scored At or Above Proficient
3	18	16
4	13	N<10
5	18	N<10
6	14	N<10
7	19	N<10
8	11	N<10
High School	10	0

1.9.2.5.2 Mathematics Assessment

This section is similar to 1.9.2.5.1. The only difference is that this section collects data on the State NCLB mathematics assessment.

Grade	# Homeless Children/Youths Served by McKinney-Vento Taking Mathematics Assessment Test	# Homeless Children/Youths Served by McKinney-Vento Who Scored At or Above Proficient
3	19	12
4	11	N<10
5	11	N<10
6	14	N<10
7	18	N<10
8	14	N<10
High School	N<10	0

1.10 MIGRANT CHILD COUNTS

This section collects the Title I, Part C, Migrant Education Program (MEP) child counts which States are required to provide and may be used to determine the annual State allocations under Title I, Part C. The child counts should reflect the reporting period of September 1, 2007 through August 31, 2008. This section also collects a report on the procedures used by States to produce true, accurate, and valid child counts.

To provide the child counts, each SEA should have sufficient procedures in place to ensure that it is counting only those children who are eligible for the MEP. Such procedures are important to protecting the integrity of the State's MEP because they permit the early discovery and correction of eligibility problems and thus help to ensure that only eligible migrant children are counted for funding purposes and are served. If an SEA has reservations about the accuracy of its child counts, it must inform the Department of its concerns and explain how and when it will resolve them in Section 1.10.3.4 Quality Control Processes.

Note: In submitting this information, the Authorizing State Official must certify that, to the best of his/her knowledge, the child counts and information contained in the report are true, reliable, and valid and that any false Statement provided is subject to fine or imprisonment pursuant to 18 U.S.C. 1001.

FAQs on Child Count:

How is "out-of-school" defined? Out-of-school means youth up through age 21 who are entitled to a free public education in the State but are not currently enrolled in a K-12 institution. This could include students who have dropped out of school, youth who are working on a GED outside of a K-12 institution, and youth who are "here-to-work" only. It does not include preschoolers, who are counted by age grouping.

How is "ungraded" defined? Ungraded means the children are served in an educational unit that has no separate grades. For example, some schools have primary grade groupings that are not traditionally graded, or ungraded groupings for children with learning disabilities. In some cases, ungraded students may also include special education children, transitional bilingual students, students working on a GED through a K-12 institution, or those in a correctional setting. (Students working on a GED outside of a K-12 institution are counted as out-of-school youth.)

1.10.1 Category 1 Child Count

In the table below, enter the unduplicated statewide number by age/grade of eligible migrant children age 3 through 21 who, within 3 years of making a qualifying move, resided in your State for one or more days during the reporting period of September 1, 2007 through August 31, 2008. This figure includes all eligible migrant children who may or may not have participated in MEP services. Count a child who moved from one age/grade level to another during the reporting period only once in the highest age/grade that he/she attained during the reporting period. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

1.10.1.1 Category 1 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 1 greater than 10 percent.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

1.10.2 Category 2 Child Count

In the table below, enter by age/grade the unduplicated statewide number of eligible migrant children age 3 through 21 who, within 3 years of making a qualifying move, were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the reporting period of September 1, 2007 through August 31, 2008. Count a child who moved from one age/grade level to another during the reporting period only once in the highest age/grade that he/she attained during the reporting period. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

1.10.3 Child Count Calculation and Validation Procedures

The following question requests information on the State's MEP child count calculation and validation procedures.

1.10.3.1 Student Information System

In the space below, respond to the following questions: What system(s) did your State use to compile and generate the Category 1 and Category 2 child count for this reporting period (e.g., NGS, MIS 2000, COEStar, manual system)? Were child counts for the last reporting period generated using the same system(s)? If the State's category 2 count was generated using a different system from the category 1 count, please identify each system.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

1.10.3.2 Data Collection and Management Procedures

In the space below, respond to the following questions: How was the child count data collected? What data were collected? What activities were conducted to collect the data? When were the data collected for use in the student information system? If the data for the State's category 2 count were collected and maintained differently from the category 1 count, please describe each set of procedures.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

In the space below, describe how the child count data are inputted, updated, and then organized by the student information system for child count purposes at the State level The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

If the data for the State's category 2 count were collected and maintained differently from the category 1 count, please describe each set of procedures.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

1.10.3.3 Methods Used To Count Children

In the space below, respond to the following question: How was each child count calculated? Please describe the compilation process and edit functions that are built into your student information system(s) specifically to produce an accurate child count. In particular, describe how your system includes and counts only:

- children who were between age 3 through 21;
- children who met the program eligibility criteria (e.g., were within 3 years of a last qualifying move, had a qualifying activity);
- children who were resident in your State for at least 1 day during the eligibility period (September 1 through August 31);
- children who—in the case of Category 2—received a MEP-funded service during the summer or intersession term; and
- children once per age/grade level for each child count category.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

If your State's category 2 count was generated using a different system from the category 1 count, please describe each system separately.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

1.10.3.4 Quality Control Processes

In the space below, respond to the following question: What steps are taken to ensure your State properly determines and verifies the eligibility of each child included in the child counts for the reporting period of September 1 through August 31 before that child's data are included in the student information system(s)?

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

In the space below, describe specifically the procedures used and the results of any re-interview processes used by the SEA during the reporting period to test the accuracy of the State's MEP eligibility determinations. In this description, please include the number of eligibility determinations sampled, the number for which a test was completed, and the number found eligible.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

In the space below, respond to the following question: Throughout the year, what steps are taken by staff to check that child count data are inputted and updated accurately (and—for systems that merge data—consolidated accurately)?

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

In the space below, respond to the following question: What final steps are taken by State staff to verify the child counts produced by your student information system(s) are accurate counts of children in Category 1 and Category 2 prior to their submission to ED? The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

In the space below, describe those corrective actions or improvements that will be made by the SEA to improve the accuracy of its MEP

eligibility determinations in light of the prospective re-interviewing results.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.

Source – Manual entry by SEA into the online collection tool.

In the space below, discuss any concerns about the accuracy of the reported child counts or the underlying eligibility determinations on which the counts are based.

The response is limited to 8,000 characters.

The Rhode Island Department of Education has not operated a migrant education program since 2005 and it has returned all Title I, Part C funds to the US DOE every fiscal year since. The number of potentially eligible migratory students in the state is too low to operate a viable program. Consequently, the state does not collect or maintain any migrant child information.
