

CONSOLIDATED STATE PERFORMANCE REPORT:

Parts I and II

**for
STATE FORMULA GRANT PROGRAMS
under the
ELEMENTARY AND SECONDARY EDUCATION ACT
As amended by the
No Child Left Behind Act of 2001**

For reporting on
School Year 2008-09

IOWA

**PART I DUE FRIDAY, DECEMBER 18, 2009
PART II DUE FRIDAY, FEBRUARY 12, 2010**

**U.S. DEPARTMENT OF EDUCATION
WASHINGTON, DC 20202**

INTRODUCTION

Sections 9302 and 9303 of the Elementary and Secondary Education Act (ESEA), as amended by the No Child Left Behind Act of 2001 (NCLB) provide to States the option of applying for and reporting on multiple ESEA programs through a single consolidated application and report. Although a central, practical purpose of the Consolidated State Application and Report is to reduce "red tape" and burden on States, the Consolidated State Application and Report are also intended to have the important purpose of encouraging the integration of State, local, and ESEA programs in comprehensive planning and service delivery and enhancing the likelihood that the State will coordinate planning and service delivery across multiple State and local programs. The combined goal of all educational agencies—State, local, and Federal—is a more coherent, well-integrated educational plan that will result in improved teaching and learning. The Consolidated State Application and Report includes the following ESEA programs:

- Title I, Part A – Improving Basic Programs Operated by Local Educational Agencies
- Title I, Part B, Subpart 3 – William F. Goodling Even Start Family Literacy Programs
- Title I, Part C – Education of Migratory Children (Includes the Migrant Child Count)
- Title I, Part D – Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk
- Title II, Part A – Improving Teacher Quality State Grants (Teacher and Principal Training and Recruiting Fund)
- Title III, Part A – English Language Acquisition, Language Enhancement, and Academic Achievement Act
- Title IV, Part A, Subpart 1 – Safe and Drug-Free Schools and Communities State Grants
- Title IV, Part A, Subpart 2 – Safe and Drug-Free Schools and Communities National Activities (Community Service Grant Program)
- Title V, Part A – Innovative Programs
- Title VI, Section 6111 – Grants for State Assessments and Related Activities
- Title VI, Part B – Rural Education Achievement Program
- Title X, Part C – Education for Homeless Children and Youths

The NCLB Consolidated State Performance Report (CSPR) for school year (SY) 2008-09 consists of two Parts, Part I and Part II.

PART I

Part I of the CSPR requests information related to the five ESEA Goals, established in the June 2002 Consolidated State Application, and information required for the Annual State Report to the Secretary, as described in Section 1111(h)(4) of the ESEA. The five ESEA Goals established in the June 2002 Consolidated State Application are:

- **Performance Goal 1: By SY 2013-14, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.**
- **Performance Goal 2: All limited English proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.**
- **Performance Goal 3: By SY 2005-06, all students will be taught by highly qualified teachers.**
- **Performance Goal 4: All students will be educated in learning environments that are safe, drug free, and conducive to learning.**
- **Performance Goal 5: All students will graduate from high school.**

Beginning with the CSPR SY 2005-06 collection, the Education of Homeless Children and Youths was added. The Migrant Child count was added for the SY 2006-07 collection.

PART II

Part II of the CSPR consists of information related to State activities and outcomes of specific ESEA programs. While the information requested varies from program to program, the specific information requested for this report meets the following criteria:

1. The information is needed for Department program performance plans or for other program needs.
2. The information is not available from another source, including program evaluations pending full implementation of required EDFacts submission.
3. The information will provide valid evidence of program outcomes or results.

GENERAL INSTRUCTIONS AND TIMELINES

All States that received funding on the basis of the Consolidated State Application for the SY 2008-09 must respond to this Consolidated State Performance Report (CSPR). Part I of the Report is due to the Department by Friday, December 18, 2009. Part II of the Report is due to the Department by Friday, February 12, 2010. Both Part I and Part II should reflect data from the SY 2008-09, unless otherwise noted.

The format states will use to submit the Consolidated State Performance Report has changed to an online submission starting with SY 2004-05. This online submission system is being developed through the Education Data Exchange Network (EDEN) and will make the submission process less burdensome. Please see the following section on transmittal instructions for more information on how to submit this year's Consolidated State Performance Report.

TRANSMITTAL INSTRUCTIONS

The Consolidated State Performance Report (CSPR) data will be collected online from the SEAs, using the EDEN web site. The EDEN web site will be modified to include a separate area (sub-domain) for CSPR data entry. This area will utilize EDEN formatting to the extent possible and the data will be entered in the order of the current CSPR forms. The data entry screens will include or provide access to all instructions and notes on the current CSPR forms; additionally, an effort will be made to design the screens to balance efficient data collection and reduction of visual clutter.

Initially, a state user will log onto EDEN and be provided with an option that takes him or her to the "SY 2008-09 CSPR". The main CSPR screen will allow the user to select the section of the CSPR that he or she needs to either view or enter data. After selecting a section of the CSPR, the user will be presented with a screen or set of screens where the user can input the data for that section of the CSPR. A user can only select one section of the CSPR at a time. After a state has included all available data in the designated sections of a particular CSPR Part, a lead state user will certify that Part and transmit it to the Department. Once a Part has been transmitted, ED will have access to the data. States may still make changes or additions to the transmitted data, by creating an updated version of the CSPR. Detailed instructions for transmitting the SY 2008-09 CSPR will be found on the main CSPR page of the EDEN web site (<https://EDEN.ED.GOV/EDENPortal/>).

According to the Paperwork Reduction Act of 1965, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1810-0614. The time required to complete this information collection is estimated to average 111 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimates(s) contact School Support and Technology Programs, 400 Maryland Avenue, SW, Washington DC 20202-6140. Questions about the new electronic CSPR submission process, should be directed to the EDEN Partner Support Center at 1-877-HLPEDEN (1-877-457-3336).

OMB Number: 1810-0614

Expiration Date: 10/31/2010

1.1 STANDARDS AND ASSESSMENT DEVELOPMENT

STANDARDS OF ASSESSMENT DEVELOPMENT

This section requests descriptions of the State's implementation of the Elementary and Secondary Education Act, as amended (ESEA) academic content standards, academic achievement standards and assessments to meet the requirements of Section 1111(b)(1) of ESEA.

1.1.1 Academic Content Standards

In the space below, provide a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's academic content standards in mathematics, reading/language arts or science. Responses should focus on actions taken or planned since the State's content standards were approved through ED's peer review process for State assessment systems. Indicate specifically in what school year your State expects the changes to be implemented.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to content standards made or planned."

The response is limited to 4,000 characters.

No revisions or changes to content standards made or planned.

Source – Manual input by the SEA using the online collection tool.

1.1.2 Assessments in Mathematics and Reading/Language Arts

In the space below, provide a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's assessments and/or academic achievement standards in mathematics or reading/language arts required under Section 1111(b)(3) of ESEA. Responses should focus on actions taken or planned since the State's assessment system was approved through ED's peer review process. Responses also should indicate specifically in what school year your State expects the changes to be implemented.

As applicable, include any assessment (e.g., alternate assessments based on alternate achievement standards, alternate assessments based on modified achievement standards, native language assessments, or others) implemented to meet the assessment requirements under Section 1111(b)(3) of ESEA as well as alternate achievement standards for students with significant cognitive disabilities and modified academic achievement standards for certain students with disabilities implemented to meet the requirements of Section 1111(b)(3) of ESEA. Indicate specifically in what year your state expects the changes to be implemented.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to assessments and/or academic achievement standards taken or planned."

The response is limited to 8,000 characters.

No revisions or changes to assessments and/or academic achievement standards taken or planned.

Source – Manual input by the SEA using the online collection tool.

1.1.4 Assessments in Science

If your State's assessments and academic achievement standards in science required under Section 1111(b)(3) of ESEA have been approved through ED's peer review process, provide in the space below a description and timeline of any actions the State has taken or is planning to take to make revisions to or change the State's assessments and/or academic achievement standards in science required under Section 1111(b)(3) of ESEA. Responses should focus on actions taken or planned since the State's assessment system was approved through ED's peer review process. Responses also should indicate specifically in what school year your State expects the changes to be implemented.

As applicable, include any assessment (e.g., alternate assessments based on alternate achievement standards, alternate assessments based on modified achievement standards, native language assessments, or others) implemented to meet the assessment requirements under Section 1111(b)(3) of ESEA as well as alternate achievement standards for students with significant cognitive disabilities and modified academic achievement standards for certain students with disabilities implemented to meet the requirements of Section 1111(b)(3) of ESEA.

If the State has not made or is not planning to make revisions or changes, respond "No revisions or changes to assessments and/or academic achievement standards taken or planned."

If the State's assessments in science required under Section 1111(b)(3) of ESEA have not been approved through ED's peer review process, respond "State's assessments and academic achievement standards in science not yet approved."

The response is limited to 4,000 characters.

State's assessments and academic achievement standards in science not yet approved.

Source – Manual input by the SEA using the online collection tool.

1.2 PARTICIPATION IN STATE ASSESSMENTS

This section collects data on the participation of students in the State assessments.

1.2.1 Participation of all Students in Mathematics Assessment

In the table below, provide the number of students enrolled during the State's testing window for mathematics assessments required under Section 1111(b)(3) of ESEA (regardless of whether the students were present for a full academic year) and the number of students who participated in the mathematics assessment in accordance with ESEA. The percentage of students who were tested for mathematics will be calculated automatically.

The student group "children with disabilities (IDEA)" includes children who participated in the regular assessments with or without accommodations and alternate assessments. Do not include former students with disabilities(IDEA). Do not include students only covered under Section 504 of the Rehabilitation Act of 1973.

The student group "limited English proficient (LEP) students" includes recently arrived students who have attended schools in the United States for fewer than 12 months. Do not include former LEP students.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students	244,125		>97%
American Indian or Alaska Native	1,435		>97%
Asian or Pacific Islander	5,387		>97%
Black, non-Hispanic	14,279		>97%
Hispanic	16,808		>97%
White, non-Hispanic	206,216		>97%
Children with disabilities (IDEA)	33,998		>97%
Limited English proficient (LEP) students	10,401		>97%
Economically disadvantaged students	86,788		>97%
Migratory students	672	624	92.9
Male	124,900		>97%
Female	119,199		>97%
Comments: Unchanged			

Source – The table above is produced through ED Facts. The SEA submits the data in file N/X081 that includes data group 588, category sets A, B, C, D, E, and F, and subtotal 1. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.2.2 Participation of Students with Disabilities in Mathematics Assessment

In the table below, provide the number of children with disabilities (IDEA) participating during the State's testing window in mathematics assessments required under Section 1111(b)(3) of ESEA (regardless of whether the children were present for a full academic year) by the type of assessment. The percentage of children with disabilities (IDEA) who participated in the mathematics assessment for each assessment option will be calculated automatically. The total number of children with disabilities (IDEA) participating will also be calculated automatically.

The data provided below should include mathematics participation data from all students with disabilities as defined under the Individuals with Disabilities Education Act(IDEA). Do not include former students with disabilities (IDEA). Do not include students only covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Participating	Percentage of Children with Disabilities (IDEA) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	7,674	22.8
Regular Assessment with Accommodations	24,142	71.9
Alternate Assessment Based on Grade-Level Achievement Standards		
Alternate Assessment Based on Modified Achievement Standards		
Alternate Assessment Based on Alternate Achievement Standards	1,773	5.3
Total	33,589	
Comments:		

1.2.3 Participation of All Students in the Reading/Language Arts Assessment

This section is similar to 1.2.1 and collects data on the State's reading/language arts assessment.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students	244,177		>97%
American Indian or Alaska Native	1,435		>97%
Asian or Pacific Islander	5,385		>97%
Black, non-Hispanic	14,282		>97%
Hispanic	16,806		>97%
White, non-Hispanic	206,269		>97%
Children with disabilities (IDEA)	33,920		>97%
Limited English proficient (LEP) students	10,384		>97%
Economically disadvantaged students	86,811		>97%
Migratory students	672	625	93.0
Male	124,931		>97%
Female	119,223		>97%
Comments: Migrants data is accurate according to data received by districts.			

Source – The same file specification as 1.2.1 is used, but with data group 589 instead of 588.

1.2.4 Participation of Students with Disabilities in Reading/Language Arts Assessment

This section is similar to 1.2.2 and collects data on the State's reading/language arts assessment.

The data provided should include reading/language arts participation data from all students with disabilities as defined under the Individuals with Disabilities Education Act (IDEA). Do not include former students with disabilities (IDEA). Do not include students only covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Participating	Percentage of Children with Disabilities (IDEA) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	7,713	22.9
Regular Assessment with Accommodations	24,179	71.8
Alternate Assessment Based on Grade-Level Achievement Standards		
Alternate Assessment Based on Modified Achievement Standards		
Alternate Assessment Based on Alternate Achievement Standards	1,781	5.3
Total	33,673	
Comments: The data are correct as reported.		

1.2.5 Participation of All Students in the Science Assessment

This section is similar to 1.2.1 and collects data on the State's science assessment.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students			
American Indian or Alaska Native			
Asian or Pacific Islander			
Black, non-Hispanic			
Hispanic			
White, non-Hispanic			
Children with disabilities (IDEA)			
Limited English proficient (LEP) students			
Economically disadvantaged students			
Migratory students			
Male			
Female			
Comments: The state did not collect the number of Science students enrolled on test date. The State will add this field for future reporting.			

Source – Manual input by the SEA using the online collection tool.

1.2.6 Participation of Students with Disabilities in Science Assessment

This section is similar to 1.2.2 and collects data on the State's science assessment.

The data provided should include science participation results from all students with disabilities as defined under the Individuals with Disabilities Education Act (IDEA). Do not include former students with disabilities (IDEA). Do not include students only covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Participating	Percentage of Children with Disabilities (IDEA) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	7,599	23.6
Regular Assessment with Accommodations	23,835	74.1
Alternate Assessment Based on Grade-Level Achievement Standards		
Alternate Assessment Based on Modified Achievement Standards		
Alternate Assessment Based on Alternate Achievement Standards	740	2.3
Total	32,174	
Comments: Based upon the number of Children with Disabilities that participating in the assessment.		

Source – Manual input by the SEA using the online collection tool.

1.3 STUDENT ACADEMIC ACHIEVEMENT

This section collects data on student academic achievement on the State assessments.

1.3.1 Student Academic Achievement in Mathematics

In the format of the table below, provide the number of students who received a valid score on the State assessment(s) in mathematics implemented to meet the requirements of Section 1111(b)(3) of ESEA (regardless of whether the students were present for a full academic year) and for whom a proficiency level was assigned, and the number of these students who scored at or above proficient, in grades 3 through 8 and high school. The percentage of students who scored at or above proficient is calculated automatically.

The student group "children with disabilities (IDEA)" includes children who participated, and for whom a proficiency level was assigned in the regular assessments with or without accommodations and alternate assessments. Do not include former students with disabilities (IDEA). The student group "limited English proficient (LEP) students" does include recently arrived students who have attended schools in the United States for fewer than 12 months. Do not include former LEP students.

1.3.1.1 Student Academic Achievement in Mathematics -Grade 3

Grade 3	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	34,786	26,482	76.1
American Indian or Alaska Native	175	105	60.0
Asian or Pacific Islander	852	683	80.2
Black, non-Hispanic	2,204	1,066	48.4
Hispanic	2,826	1,681	59.5
White, non-Hispanic	28,723	22,945	79.9
Children with disabilities (IDEA)	4,205	1,956	46.5
Limited English proficient (LEP) students	2,141	1,150	53.7
Economically disadvantaged students	13,884	8,856	63.8
Migratory students	125	77	61.6
Male	17,835	13,808	77.4
Female	16,951	12,674	74.8
Comments: Fewer migrant students were enrolled during the testing window.			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.2.1 Student Academic Achievement in Reading/Language Arts -Grade 3

Grade 3	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	34,828	26,490	76.1
American Indian or Alaska Native	177	112	63.3
Asian or Pacific Islander	852	655	76.9
Black, non-Hispanic	2,208	1,162	52.6
Hispanic	2,821	1,652	58.6
White, non-Hispanic	28,764	22,907	79.6
Children with disabilities (IDEA)	4,228	1,598	37.8
Limited English proficient (LEP) students	2,130	1,066	50.0
Economically disadvantaged students	13,900	8,846	63.6
Migratory students	125	67	53.6
Male	17,856	13,046	73.1
Female	16,972	13,444	79.2
Comments: Fewer migrant students were enrolled during the testing window.			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.3.1 Student Academic Achievement in Science -Grade 3

Grade 3	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	32,416	25,989	80.2
American Indian or Alaska Native	170	117	68.8
Asian or Pacific Islander	784	628	80.1
Black, non-Hispanic	2,126	1,208	56.8
Hispanic	2,612	1,747	66.9
White, non-Hispanic	26,718	22,286	83.4
Children with disabilities (IDEA)	3,713	2,177	58.6
Limited English proficient (LEP) students	2,019	1,220	60.4
Economically disadvantaged students	12,978	9,053	69.8
Migratory students	115	83	72.2
Male	16,591	13,198	79.6
Female	15,825	12,791	80.8
Comments:			

Source – Manual input by the SEA using the online collection tool. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online CSPR collection tool.

1.3.1.2 Student Academic Achievement in Mathematics -Grade 4

Grade 4	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	34,630	27,800	80.3
American Indian or Alaska Native	206	121	58.7
Asian or Pacific Islander	767	625	81.5
Black, non-Hispanic	2,183	1,227	56.2
Hispanic	2,589	1,659	64.1
White, non-Hispanic	28,884	24,167	83.7
Children with disabilities (IDEA)	4,775	2,356	49.3
Limited English proficient (LEP) students	1,849	1,051	56.8
Economically disadvantaged students	13,421	9,272	69.1
Migratory students	121	65	53.7
Male	17,761	14,335	80.7
Female	16,869	13,465	79.8
Comments:			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.2.2 Student Academic Achievement in Reading/Language Arts -Grade 4

Grade 4	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	34,595	27,792	80.3
American Indian or Alaska Native	206	132	64.1
Asian or Pacific Islander	765	629	82.2
Black, non-Hispanic	2,187	1,265	57.8
Hispanic	2,583	1,685	65.2
White, non-Hispanic	28,853	24,080	83.5
Children with disabilities (IDEA)	4,774	2,112	44.2
Limited English proficient (LEP) students	1,837	1,029	56.0
Economically disadvantaged students	13,409	9,200	68.6
Migratory students	121	66	54.6
Male	17,737	13,896	78.3
Female	16,858	13,896	82.4
Comments:			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.3.2 Student Academic Achievement in Science -Grade 4

Grade 4	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	33,426	27,210	81.4
American Indian or Alaska Native	201	122	60.7
Asian or Pacific Islander	748	604	80.8
Black, non-Hispanic	2,118	1,181	55.8
Hispanic	2,453	1,644	67.0
White, non-Hispanic	27,906	23,659	84.8
Children with disabilities (IDEA)	4,377	2,578	58.9
Limited English proficient (LEP) students	1,769	1,061	60.0
Economically disadvantaged students	12,840	9,092	70.8
Migratory students	106	70	66.0
Male	17,112	14,034	82.0
Female	16,314	13,176	80.8
Comments:			

Source – Manual input by the SEA using the online collection tool. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online CSPR collection tool.

1.3.1.3 Student Academic Achievement in Mathematics -Grade 5

Grade 5	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	34,426	27,218	79.1
American Indian or Alaska Native	203	132	65.0
Asian or Pacific Islander	795	663	83.4
Black, non-Hispanic	2,118	1,090	51.5
Hispanic	2,485	1,534	61.7
White, non-Hispanic	28,821	23,796	82.6
Children with disabilities (IDEA)	4,990	2,273	45.6
Limited English proficient (LEP) students	1,668	875	52.5
Economically disadvantaged students	13,105	8,757	66.8
Migratory students	117	65	55.6
Male	17,587	14,150	80.5
Female	16,838	13,068	77.6
Comments:			

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online collection tool.

1.3.2.3 Student Academic Achievement in Reading/Language Arts -Grade 5

Grade 5	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	34,455	27,393	79.5
American Indian or Alaska Native	202	131	64.8
Asian or Pacific Islander	786	621	79.0
Black, non-Hispanic	2,131	1,157	54.3
Hispanic	2,480	1,533	61.8
White, non-Hispanic	28,852	23,948	83.0

1.4 SCHOOL AND DISTRICT ACCOUNTABILITY

This section collects data on the Adequate Yearly Progress (AYP) status of schools and districts.

1.4.1 All Schools and Districts Accountability

In the table below, provide the total number of public elementary and secondary schools and districts in the State, including charters, and the total number of those schools and districts that made AYP based on data for the SY 2008-09. The percentage that made AYP will be calculated automatically.

Entity	Total #	Total # that Made AYP in SY 2008-09	Percentage that Made AYP in SY 2008-09
Schools	1,443	1,007	69.8
Districts	362	327	90.3
Comments:			

Source – The table above is produced through ED Facts. The SEA submits the data in N/X103 for data group 32.

1.4.2 Title I School Accountability

In the table below, provide the total number of public Title I schools by type and the total number of those schools that made AYP based on data for the SY 2008-09 school year. Include only public Title I schools. Do not include Title I programs operated by local educational agencies in private schools. The percentage that made AYP will be calculated automatically.

Title I School	# Title I Schools	# Title I Schools that Made AYP in SY 2008-09	Percentage of Title I Schools that Made AYP in SY 2008-09
All Title I schools	648	482	74.4
Schoolwide (SWP) Title I schools	140	59	42.1
Targeted assistance (TAS) Title I schools	508	423	83.3
Comments:			

Source – The table above is produced through ED Facts. The SEA submits the data in N/X129 for data group 22 and N/X103 for data group 32.

1.4.3 Accountability of Districts That Received Title I Funds

In the table below, provide the total number of districts that received Title I funds and the total number of those districts that made AYP based on data for SY 2008-09. The percentage that made AYP will be calculated automatically.

# Districts That Received Title I Funds	# Districts That Received Title I Funds and Made AYP in SY 2008-09	Percentage of Districts That Received Title I Funds and Made AYP in SY 2008-09
361	324	89.8
Comments:		

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk.

Note: DG 582 is not collected from the SEA, rather it comes from the Title I funding data.

1.4.4 Title I Schools Identified for Improvement

1.4.4.1 List of Title I Schools Identified for Improvement

In the following table, provide a list of Title I schools identified for improvement, corrective action, or restructuring under Section 1116 for the SY 2009-10 based on the data from SY 2008-09. For each school on the list, provide the following:

- District Name
- District NCES ID Code
- School Name
- School NCES ID Code
- Whether the school met the proficiency target in reading/language arts as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the reading/language arts assessment
- Whether the school met the proficiency target in mathematics as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the mathematics assessment
- Whether the school met the other academic indicator for elementary/middle schools (if applicable) as outlined in the State's Accountability Plan

- Whether the school met the graduation rate for high schools (if applicable) as outlined in the State's Accountability Plan
- Improvement status for SY <> (Use one of the following improvement status designations: School Improvement û Year 1, School Improvement û Year 2, Corrective Action, Restructuring Year 1 (planning), or Restructuring Year 2 (implementing))
- Whether (yes or no) the school is or is not a Title I school (This column must be completed by States that choose to list all schools in improvement. Column is optional for States that list only Title I schools.)
- Whether (yes or no) the school was provided assistance through 1003(a).
- Whether (yes or no) the school was provided assistance through 1003 (g).

See attached for blank template that can be used to enter school data.

Download template: [Question 1.4.4.1 \(Get MS Excel Viewer\)](#)

Source – Manual entry by SEA into the online collection tool.

¹ The school improvement statuses are defined in LEA and School Improvement Non-Regulatory Guidance. This document may be found on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.

1.4.4.3 Corrective Action

In the table below, for schools in corrective action, provide the number of schools for which the listed corrective actions under ESEA were implemented in SY 2008-09 (based on SY 2007-08 assessments under Section 1111 of ESEA).

Corrective Action	# of Title I Schools in Corrective Action in Which the Corrective Action was Implemented in SY 2008-09
Required implementation of a new research-based curriculum or instructional program	7
Extension of the school year or school day	
Replacement of staff members relevant to the school's low performance	
Significant decrease in management authority at the school level	
Replacement of the principal	4
Restructuring the internal organization of the school	
Appointment of an outside expert to advise the school	7
Comments:	

1.4.4.4 Restructuring – Year 2

In the table below, for schools in restructuring – year 2 (implementation year), provide the number of schools for which the listed restructuring actions under ESEA were implemented in SY 2008-09 (based on SY 2007-08 assessments under Section 1111 of ESEA).

Restructuring Action	# of Title I Schools in Restructuring in Which Restructuring Action Is Being Implemented
Replacement of all or most of the school staff (which may include the principal)	
Reopening the school as a public charter school	
Entering into a contract with a private entity to operate the school	
Take over the school by the State	
Other major restructuring of the school governance	2
Comments:	

In the space below, list specifically the "other major restructuring of the school governance" action(s) that were implemented. The response is limited to 8,000 characters.

Redesigned curriculum, consolidated attendance centers and added curriculum staff person to work more intensely with identified school. Implemented "Partnering with Communities".

1.4.5 Districts That Received Title I Funds Identified for Improvement

1.4.5.1 List of Districts That Received Title I Funds and Were Identified for Improvement

In the following table, provide a list of districts that received Title I funds and were identified for improvement or corrective action under Section 1116 for the SY 2009-10 based on the data from SY 2008-09. For each district on the list, provide the following:

- District Name
- District NCES ID Code
- Whether the district met the proficiency target in reading/language arts as outlined in the State's Accountability Plan
- Whether the district met the participation rate target for the reading/language arts assessment
- Whether the district met the proficiency target in mathematics as outlined in the State's Accountability Plan
- Whether the school met the participation rate target for the mathematics assessment
- Whether the district met the other academic indicator for elementary/middle schools (if applicable) as outlined in the State's Accountability Plan

- Whether the district met the graduation rate for high schools (if applicable) as outlined in the State's Accountability Plan
- Improvement status for SY 2009-10 (Use one of the following improvement status designations: Improvement or Corrective Action)
- Whether the district is a district that received Title I funds. Indicate "Yes" if the district received Title I funds and "No" if the district did not receive Title I funds. (This column **must be completed by States that choose to list all districts or all districts in improvement. This column is optional for States that list only** districts in improvement that receive Title I funds.)

See attached for blank template that can be used to enter district data.

Download template: [Question 1.4.5.1 \(Get MS Excel Viewer\)](#)

Source – Manual entry by SEA into the online collection tool.

² The district improvement statuses are defined in LEA and School Improvement Non-Regulatory Guidance. This document may be found on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.

1.4.5.2 Actions Taken for Districts That Received Title I Funds and Were Identified for Improvement

In the space below, briefly describe the measures being taken to address the achievement problems of districts identified for improvement or corrective action. Include a discussion of the technical assistance provided by the State (e.g., the number of districts served, the nature and duration of assistance provided, etc.).

The response is limited to 8,000 characters.

Thirteen districts were served by the Iowa State Support Team during the 2008-2009 school year. The assistance included the development of an action plan to improve district wide achievement. There are five phases in the Iowa Support System assistance for identified Districts in Need:

- Audit Phase
- Diagnosis Phase
- Design Phase
- Implementation/Monitoring Phase
- Monitoring/Assessment Phase

The final plan outlines actions and timelines to be taken in the areas of reading and mathematics, parent engagement, assessing evaluability, needs of students, mentoring of staff and implementation of evidence-based research.

1.4.5.3 Corrective Action

In the table below, for districts in corrective action, provide the number of districts in corrective action in which the listed corrective actions under ESEA were implemented in SY 2008-09 (based on SY 2007-08 assessments under Section 1111 of ESEA).

Corrective Action	# of Districts receiving Title I funds in Corrective Action in Which Corrective Action was Implemented in SY 2008-09
Implementing a new curriculum based on State standards	0
Authorized students to transfer from district schools to higher performing schools in a neighboring district	0
Deferred programmatic funds or reduced administrative funds	13
Replaced district personnel who are relevant to the failure to make AYP	0
Removed one or more schools from the jurisdiction of the district	0
Appointed a receiver or trustee to administer the affairs of the district	0
Restructured the district	0
Abolished the district (list the number of districts abolished between the end of SY 2007-08 and beginning of SY 2008-09 as a corrective action)	0
Comments:	

1.4.7 Appeal of AYP and Identification Determinations

In the table below, provide the number of districts and schools that appealed their AYP designations based on SY 2008-09 data and the results of those appeals.

	# Appealed Their AYP Designations	# Appeals Resulted in a Change in the AYP Designation
Districts	0	0
Schools	4	4
Comments:		

Date (MM/DD/YY) that processing appeals based on SY 2008-09 data was complete	08/17/09
---	----------

1.4.8 School Improvement Status

In the section below, "Schools in Improvement" means Title I schools identified for improvement, corrective action, or restructuring under Section 1116 of ESEA for SY 2008-09.

1.4.8.1 Student Proficiency for Schools Receiving Assistance Through Section 1003(a) and 1003(g) Funds

The table below pertains only to schools that received assistance through section 1003(a) and/or 1003(g) funds during SY 2008-09.

Instructions for States that during SY 2008-09 administered assessments required under section 1116 of ESEA after fall 2008 (i.e., non fall-testing states):

- In the SY 2008-09 column, provide the total number and percentage of students in schools receiving School Improvement funds in SY 2008-09 who were:
 - Proficient in mathematics as measured by your State's assessments required under section 1111(b)(3) of ESEA that were administered in SY 2008-09.
 - Proficient in reading/language arts as measured by your State's assessments required under section 1111(b)(3) of ESEA in SY 2008-09.
 - In SY 2007-08 column, provide the requested data for the same schools whose student proficiency data are reported for SY 2008-09.

States that in SY 2008-09 administered assessments required under section 1116 of ESEA during fall 2008 (i.e., fall-testing states):

- In the SY 2008-09 column, provide the total number and percentage of students in schools receiving School Improvement funds in SY 2008-09 who were:
 - Proficient in mathematics as measured by your State's assessments required under section 1111(b)(3) of ESEA that were administered in fall 2009.
 - Proficient in reading/language arts as measured by your State's assessments required under section 1111(b)(3) of ESEA that were administered in fall 2009.
 - In the SY 2007-08 column, provide the requested data for the same schools whose student proficiency data are reported in the SY 2008-09 column.

Category	SY 2008-09	SY 2007-08
Total number of students who completed the mathematics assessment and for whom proficiency level was assigned and were enrolled in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2008-09	6,315	3,532
Total number of students who were proficient or above in mathematics in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2008-09	3,816	1,859
Percentage of students who were proficient or above in mathematics in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2008-09	60.4	52.6
Total number of students who completed the reading/language arts assessment and for whom proficiency level was assigned and were enrolled in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2008-09	6,323	3,532
Total number of students who were proficient or above in reading/language arts in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2008-09	3,588	1,654
Percentage of students who were proficient in reading/language arts in schools that received assistance through Section 1003(a) and/or 1003(g) funds in SY 2008-09	56.8	46.8

1.4.8.2 School Improvement Status and School Improvement Assistance

In the table below, indicate the number of schools receiving assistance through section 1003(a) and/or 1003(g) funds during SY 2008-09 that:

- Made adequate yearly progress
- Exited improvement status
- Did not make adequate yearly progress

Category	# of Schools
Number of schools receiving assistance through Section 1003(a) and/or 1003(g) funds during SY 2008-09 that made adequate yearly progress based on testing in SY 2008-09	
Number of schools receiving assistance through Section 1003(a) and/or 1003(g) funds during SY 2008-09 that exited improvement status based on testing in SY 2008-09	0
Number of schools receiving assistance through Section 1003(a) and/or 1003(g) funds during SY 2008-09 that did not make adequate yearly progress based on testing in SY 2008-09	21
Comments:	

1.4.8.3 Effective School Improvement Strategies

In the table below, indicate the effective school improvement strategies used that were supported through Section 1003(a) and/or 1003(g) funds.

For fall-testing States, responses for this item would be based on assessments administered in fall 2009. For all other States the responses would be based on assessments administered during SY 2008-09.

Column 1	Column 2	Column 3	Column 4	Column 5	Column 6	Column 7
Effective Strategy or Combination of Strategies Used (See response options in "Column 1 Response Options Box" below.) If your State's response includes a "5" (other strategies), identify the specific strategy(s) in Column 2.	Description of "Other Strategies" This response is limited to 500 characters.	Number of schools in which the strategy (s) was used	Number of schools that used the strategy(s), made AYP, and exited improvement status based on testing after the schools received this assistance	Number of schools that used the strategy(s), made AYP based on testing after the schools received this assistance, but did not exit improvement status	Most common other Positive Outcome from the Strategy (See response options in "Column 6 Response Options Box" below)	Description of "Other Positive Outcome" if Response for Column 6 is "D" This response is limited to 500 characters.
6 = Combo 1	Options 1,2,3,4,5 were used with all Title I schools in need. this iclude such activities as new basal implementation, training in cultural proficiency, training in Fierce conversations,use of formative assessments to guide instruction, training in use of different instructional strategies, monitoring of implementation, parent engagement activities, Reading First, Smaller Learning Communities and Curriculum strategists.	22	0	5	D	Refocus of student instruction and academic goal attainment.

Comments:

--

Column 1 Response Options Box

1 = Provide customized technical assistance and/or professional development that is designed to build the capacity of LEA and school staff to improve schools and is informed by student achievement and other outcome-related measures.

2 = Utilize research-based strategies or practices to change instructional practice to address the academic achievement problems that caused the school to be identified for improvement, corrective action, or restructuring.

3 = Create partnerships among the SEA, LEAs and other entities for the purpose of delivering technical assistance, professional development, and management advice.

4 = Provide professional development to enhance the capacity of school support team members and other technical assistance providers who are part of the Statewide system of support and that is informed by student achievement and other outcome-related measures.

5 = Implement other strategies determined by the SEA or LEA, as appropriate, for which data indicate the strategy is likely to result in improved teaching and learning in schools identified for improvement, corrective action, or restructuring.

6 = Combination 1: Schools using a combination of strategies from above. Please use Column 2 to indicate which of the above strategies comprise this combination.

7 = Combination 2: Schools using a combination of strategies from above. Please use Column 2 to indicate which of the above strategies comprise this combination.

Column 6 Response Options Box

A = Improvement by at least five percentage points in two or more AYP reporting cells

B = Increased teacher retention

C = Improved parental involvement

D = Other

Source – Manual input by the SEA using the online collection tool.

1.4.8.4 Sharing of Effective Strategies

In the space below, describe how your State shared the effective strategies identified in item 1.4.8.3 with its LEAs and schools. Please exclude newsletters and handouts in your description.

This response is limited to 8,000 characters.

Strategies were shared with LEAs through workshops, State Support Team trainings, through the Area Educational Agencies (AEAs) that work with districts and schools, and through websites. Also trainings on different strategies, for example, on Fierce Conversations were provided throughout the state.

Source – Manual input by the SEA using the online collection tool.

1.4.8.5 Use of Section 1003(a) and (g) School Improvement Funds

1.4.8.5.1 Section 1003(a) State Reservations

In the space provided, enter the percentage of the FY 2008 (SY 2008-09) Title I, Part A allocation that the SEA reserved in accordance with Section 1003(a) of ESEA and §200.100(a) of ED's regulations governing the reservation of funds for school improvement under Section 1003(a) of ESEA: 4.0 %

Comments:

Source – Manual input by the SEA using the online collection tool.

1.4.8.5.2 Section 1003(a) and 1003(g) Allocations to LEAs and Schools

For SY 2008-09 there is no need to upload a spreadsheet to answer this question in the CSPR.

1.4.8.5.2 will be answered automatically using data submitted to ED Facts in Data Group 694, School improvement funds allocation table, from File Specification N/X132. You may review data submitted to ED Facts using the report named "Section 1003(a) and 1003(g) Allocations to LEAs and Schools -CSPR 1.4.8.5.2 (EDEN012)" from the ED Facts Reporting System.

1.4.8.5.3 Use of Section 1003(g)(8) Funds for Evaluation and Technical Assistance

Section 1003(g)(8) of ESEA allows States to reserve up to five percent of Section 1003(g) funds for administration and to meet the evaluation and technical assistance requirements for this program. In the space below, identify and describe the specific Section 1003(g) evaluation and technical assistance activities that your State conducted during SY 2008-09.

This response is limited to 8,000 characters.

The 5% reserve helps to cover part of the cost for a facilitator and expert to the School Support team. The facilitator helps to design and deliver technical assistance to both State Support Team members and schools that have been identified as in need. Funds are also used to assist schools in interpreting school data-student achievement, demographic, program, and perception-in order to identify trends. The training also assist schools in developing clear, measurable, attainable goals for improvement based on data and develop specific research-based strategies, timelines, and role assignment.

Technical assistance has been provided in partnering with parents, as well as, curriculum and instruction alignment.

Source – Manual input by the SEA using the online collection tool.

1.4.8.6 Actions Taken for Title I Schools Identified for Improvement Supported by Funds Other than Those of Section 1003(a) and 1003(g).

In the space below, describe actions (if any) taken by your State in SY 2008-09 that were supported by funds other than Section 1003(a) and 1003(g) funds to address the achievement problems of schools identified for improvement, corrective action, or restructuring under Section 1116 of ESEA.

The response is limited to 8,000 characters.

In Iowa, the Area Educational Agencies(AEAs) across the state provided consultants out of their budgets to serve as team members on the State Support Team and worked with Title I districts and schools identified as in need.

Source – Manual input by the SEA using the online collection tool.

1.4.9 Public School Choice and Supplemental Educational Services

This section collects data on public school choice and supplemental educational services.

1.4.9.1 Public School Choice

This section collects data on public school choice. FAQs related to the public school choice provisions are at the end of this section.

1.4.9.1.2 Public School Choice – Students

In the table below, provide the number of students who were eligible for public school choice, the number of eligible students who applied to transfer, and the number who transferred under the provisions for public school choice under Section 1116 of ESEA. The number of students who were eligible for public school choice should include:

1. All students currently enrolled in a school Title I identified for improvement, corrective action or restructuring.
2. All students who transferred in the current school year under the public school choice provisions of Section 1116, and
3. All students who previously transferred under the public school choice provisions of Section 1116 and are continuing to transfer for the current school year under Section 1116.

The number of students who applied to transfer should include:

1. All students who applied to transfer in the current school year but did not or were unable to transfer.
2. All students who transferred in the current school year under the public school choice provisions of Section 1116; and
3. All students who previously transferred under the public school choice provisions of Section 1116 and are continuing to transfer for the current school year under Section 1116.

For any of the respective student counts, States should indicate in the Comment section if the count does not include any of the categories of students discussed above.

	# Students
Eligible for public school choice	9,453
Applied to transfer	23
Transferred to another school under the Title I public school choice provisions	23

1.4.9.1.3 Funds Spent on Public School Choice

In the table below, provide the total dollar amount spent by LEAs on transportation for public school choice under Section 1116 of ESEA.

	Amount
Dollars spent by LEAs on transportation for public school choice	\$ 0

1.4.9.1.4 Availability of Public School Choice Options

In the table below provide the number of LEAs in your State that are unable to provide public school choice to eligible students due to any of the following reasons:

1. All schools at a grade level in the LEA are in school improvement, corrective action, or restructuring.
2. LEA only has a single school at the grade level of the school at which students are eligible for public school choice.
3. LEA's schools are so remote from one another that choice is impracticable.

	# LEAs
LEAs Unable to Provide Public School Choice	4

FAQs about public school choice:

- a. How should States report data on Title I public school choice for those LEAs that have open enrollment and other choice programs? For those LEAs that implement open enrollment or other school choice programs in addition to public school choice under Section 1116 of ESEA, the State may consider a student as having applied to transfer if the student meets the following:
- Has a "home" or "neighborhood" school (to which the student would have been assigned, in the absence of a school choice program) that receives Title I funds and has been identified, under the statute, as in need of improvement, corrective action, or restructuring; and
 - Has elected to enroll, at some point since July 1, 2002 (the effective date of the Title I choice provisions), and after the home school has been identified as in need of improvement, in a school that has not been so identified and is attending that school; and
 - Is using district transportation services to attend such a school.
- In addition, the State may consider costs for transporting a student meeting the above conditions towards the funds spent by an LEA on transportation for public school choice if the student is using district transportation services to attend the non-identified school.
- b. How should States report on public school choice for those LEAs that are not able to offer public school choice? In the count of LEAs that are not able to offer public school choice (for any of the reasons specified in 1.4.9.1.4), States should include those LEAs that are unable to offer public school choice at one or more grade levels. For instance, if an LEA is able to provide public school choice to eligible students at the elementary level but not at the secondary level, the State should include the LEA in the count. States should also include LEAs that are not able to provide public school choice at all (i.e., at any grade level). States should provide the reason(s) why public school choice was not possible in these LEAs at the grade level(s) in the Comment section. In addition, States may also include in the Comment section a separate count just of LEAs that are not able to offer public school choice at any grade level.

For LEAs that are not able to offer public school choice at one or more grade levels, States should count as eligible for public school choice (in 1.4.9.1.2) all students who attend identified Title I schools regardless of whether the LEA is able to offer the students public school choice.

³ Adapted from OESE/OII policy letter of August 2004. The policy letter may be found on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/stateletters/choice/choice081804.html>.

1.4.9.2 Supplemental Educational Services

This section collects data on supplemental educational services.

1.4.9.2.2 Supplemental Educational Services – Students

In the table below, provide the number of students who were eligible for, who applied for, and who received supplemental educational services under Section 1116 of ESEA.

	# Students
Eligible for supplemental educational services	5,134
Applied for supplemental educational services	158
Received supplemental educational services	158
Comments:	

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk.

1.4.9.2.3 Funds Spent on Supplemental Educational Services

In the table below, provide the total dollar amount spent by LEAs on supplemental educational services under Section 1116 of ESEA.

	Amount
Dollars spent by LEAs on supplemental educational services	\$ 103,602
Comments:	

1.5 TEACHER QUALITY

This section collects data on "highly qualified" teachers as the term is defined in Section 9101(23) of ESEA.

1.5.1 Core Academic Classes Taught by Teachers Who Are Highly Qualified

In the table below, provide the number of core academic classes for the grade levels listed, the number of those core academic classes taught by teachers who are highly qualified, and the number taught by teachers who are not highly qualified. The percentage of core academic classes taught by teachers who are highly qualified and the percentage taught by teachers who are not highly qualified will be calculated automatically. Below the table are FAQs about these data.

School Type	Number of Core Academic Classes (Total)	Number of Core Academic Classes Taught by Teachers Who Are Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are Highly Qualified	Number of Core Academic Classes Taught by Teachers Who Are NOT Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are NOT Highly Qualified
All classes	120,305	120,218	99.9	87	0.1
All elementary classes	70,234	70,192	99.9	42	0.1
All secondary classes	50,071	50,026	99.9	45	0.1

The IA Department of Education has modified data collection methods due to a federal Title I audit and reaching compliance. The state no longer is collecting this data on a grade level basis, the collection method is to now count sections, therefore accounting for the vast growth in the numbers reported.

Do the data in Table 1.5.1 above include classes taught by special education teachers who provide direct instruction core academic subjects?

Data table includes classes taught by special education teachers who provide direct instruction core academic subjects.

Yes

If the answer above is no, please explain below. The response is limited to 8,000 characters.

Does the State count elementary classes so that a full-day self-contained classroom equals one class, or does the State use a departmentalized approach where a classroom is counted multiple times, once for each subject taught?

The response is limited to 8,000 characters.

Iowa counts elementary classes so that a full-day self-contained classroom equals one class.

FAQs about highly qualified teachers and core academic subjects:

- a. *What are the core academic subjects? English, reading/language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography [Title IX, Section 9101(11)]. While the statute includes the arts in the core academic subjects, it does not specify which of the arts are core academic subjects; therefore, States must make this determination.*
- b. *How is a teacher defined? An individual who provides instruction in the core academic areas to kindergarten, grades 1 through 12, or ungraded classes, or individuals who teach in an environment other than a classroom setting (and who maintain daily student attendance records) [from NCES, CCD, 2001-02]*
- c. *How is a class defined? A class is a setting in which organized instruction of core academic course content is provided to one or more students (including cross-age groupings) for a given period of time. (A course may be offered to more than one class.) Instruction, provided by one or more teachers or other staff members, may be delivered in person or via a different medium. Classes that share space should be considered as separate classes if they function as separate units for more than 50% of the time [from NCES Non-fiscal Data Handbook for Early Childhood, Elementary, and Secondary Education, 2003].*
- d. *Should 6th-, 7th-, and 8th-grade classes be reported in the elementary or the secondary category? States are responsible for determining whether the content taught at the middle school level meets the competency requirements for elementary or secondary instruction. Report classes in grade 6 through 8 consistent with how teachers have been classified to determine their highly qualified status, regardless of whether their schools are configured as elementary or middle schools.*
- e. *How should States count teachers (including specialists or resource teachers) in elementary classes? States that count self-contained classrooms as one class should, to avoid over-representation, also count subject-area specialists (e.g., mathematics or music teachers) or resource teachers as teaching one class. On the other hand, States using a departmentalized approach to instruction where a self-contained classroom is counted multiple times (once for each subject taught) should also count subject-area specialists or resource teachers as teaching multiple classes.*
- f. *How should States count teachers in self-contained multiple-subject secondary classes? Each core academic subject taught for which students are receiving credit toward graduation should be counted in the numerator and the denominator. For example, if the same teacher teaches English, calculus, history, and science in a self-contained classroom, count these as four classes in the denominator. If the teacher is Highly Qualified to teach English and history, he/she would be counted as Highly Qualified in two of the four subjects in the numerator.*
- g. *What is the reporting period? The reporting period is the school year. The count of classes must include all semesters, quarters, or terms of the school year. For example, if core academic classes are held in summer sessions, those classes should be included in the count of core academic classes. A state determines into which school year classes fall.*

1.5.2 Reasons Core Academic Classes Are Taught by Teachers Who Are Not Highly Qualified

In the tables below, estimate the percentages for each of the reasons why teachers who are not highly qualified teach core academic classes. For example, if 900 elementary classes were taught by teachers who are not highly qualified, what percentage of those 900 classes falls into each of the categories listed below? If the three reasons provided at each grade level are not sufficient to explain why core academic classes at a particular grade level are taught by teachers who are not highly qualified, use the row labeled "other" and explain the additional reasons. The total of the reasons is calculated automatically for each grade level and must equal 100% at the elementary level and 100% at the secondary level.

Note: Use the numbers of core academic classes taught by teachers who are not highly qualified from 1.5.1 for both elementary school classes (1.5.2.1) and for secondary school classes (1.5.2.2) as your starting point.

	Percentage
Elementary School Classes	
Elementary school classes taught by certified general education teachers who did not pass a subject-knowledge test or (if eligible) have not demonstrated subject-matter competency through HOUSSE	0.0
Elementary school classes taught by certified special education teachers who did not pass a subject-knowledge test or have not demonstrated subject-matter competency through HOUSSE	0.0
Elementary school classes taught by teachers who are not fully certified (and are not in an approved alternative route program)	0.0
Other (please explain in comment box below)	100.0
Total	100.0

The response is limited to 8,000 characters.

The Iowa Department of Education has developed a system whereby schools enter data regarding teachers' licensure information. In the event a teacher is assigned to an area for which he or she is not highly qualified, the system is alerted. Also at any point during the school year, a district may hire a teacher who is not highly qualified. In either situation, the Department works with the district to ensure correction, including taking steps to force the district to remove the teacher or reassign the teacher to an area for which he/she is highly qualified.

	Percentage
Secondary School Classes	
Secondary school classes taught by certified general education teachers who have not demonstrated subject-matter knowledge in those subjects (e.g., out-of-field teachers)	0.0
Secondary school classes taught by certified special education teachers who have not demonstrated subject-matter competency in those subjects	0.0
Secondary school classes taught by teachers who are not fully certified (and are not in an approved alternative route program)	0.0
Other (please explain in comment box below)	100.0
Total	100.0

The response is limited to 8,000 characters.

The Iowa Department of Education has developed a system whereby schools enter data regarding teachers' assignment that is linked with each teachers' licensure information. In the event a teacher is assigned to an area for which he or she is not highly qualified, the system is alerted. Also, at any point during the school year, a district may hire a teacher who is not highly qualified. In either situation, the Department works with the district to ensure correction, including taking steps to force the district to remove the teacher or reassign the teacher to an area for which he/she is highly qualified. Because of these reasons, 99.9 was rounded to 100%.

1.5.3 Poverty Quartiles and Metrics Used

In the table below, provide the number of core academic classes for each of the school types listed and the number of those core academic classes taught by teachers who are highly qualified. The percentage of core academic classes taught by teachers who are highly qualified will be calculated automatically. The percentages used for high-and low-poverty schools and the poverty metric used to determine those percentages are reported in the second table. Below the tables are FAQs about these data.

This means that for the purpose of establishing poverty quartiles, some classes in schools where both elementary and secondary classes are taught would be counted as classes in an elementary school rather than as classes in a secondary school in 1.5.3. This also means that such a 12th grade class would be in different category in 1.5.3 than it would be in 1.5.1.

NOTE: No source of classroom-level poverty data exists, so States may look at school-level data when figuring poverty quartiles. Because not all schools have traditional grade configurations, and because a school may not be counted as both an elementary and as a secondary school, States may include as elementary schools all schools that serve children in grades K through 5 (including K through 8 or K through 12 schools).

School Type	Number of Core Academic Classes (Total)	Number of Core Academic Classes Taught by Teachers Who Are Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are Highly Qualified
Elementary Schools			
High Poverty Elementary Schools	21,085	21,083	100.0
Low-poverty Elementary Schools	17,446	17,442	100.0
Secondary Schools			
High Poverty secondary Schools	5,719	5,714	99.9
Low-Poverty secondary Schools	19,264	19,247	99.9

1.5.4 In the table below, provide the poverty quartiles breaks used in determining high-and low-poverty schools and the poverty metric used to determine the poverty quartiles. Below the table are FAQs about the data collected in this table.

	High-Poverty Schools (more than what %)	Low-Poverty Schools (less than what %)
Elementary schools	29.7	26.2
Poverty metric used	High/low poverty is based upon the top and bottom 25% of schools in terms of percent of their students that are eligible for free/reduced price lunch. Add 3/1/10 A data entry error was made in this table the values of High-poverty and Low-poverty needed to be reversed. The change has been made thus impacting 1.5.3 to the correct percentages.	
Secondary schools	27.6	26.8
Poverty metric used	High/low poverty is based upon the top and bottom 25% of schools in terms of percent of their students that are eligible for free/reduced price lunch.	

FAQs on poverty quartiles and metrics used to determine poverty

- What is a "high-poverty school"? Section 1111(h)(1)(C)(viii) defines "high-poverty" schools as schools in the top quartile of poverty in the State.
- What is a "low-poverty school"? Section 1111(h)(1)(C)(viii) defines "low-poverty" schools as schools in the bottom quartile of poverty in the State.
- How are the poverty quartiles determined? Separately rank order elementary and secondary schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.
- Since the poverty data are collected at the school and not classroom level, how do we classify schools as either elementary or secondary for this purpose? States may include as elementary schools all schools that serve children in grades K through 5 (including K through 8 or K through 12 schools) and would therefore include as secondary schools those that

*exclusively serve
children in grades 6 and higher.*

1.6 TITLE III AND LANGUAGE INSTRUCTIONAL PROGRAMS

This section collects annual performance and accountability data on the implementation of Title III programs.

1.6.1 Language Instruction Educational Programs

In the table below, place a check next to each type of language instruction educational programs implemented in the State, as defined in Section 3301(8), as required by Sections 3121(a)(1), 3123(b)(1), and 3123(b)(2).

Table 1.6.1 Definitions:

1. **Types of Programs = Types of programs described in the subgrantee's local plan (as submitted to the State or as implemented) that is closest to the descriptions in http://www.ncela.gwu.edu/files/uploads/5/Language_Instruction_Educational_Programs.pdf**
2. **Other Language = Name of the language of instruction, other than English, used in the program.**

Check Types of Programs	Type of Program	Other Language
Yes	Dual language	Spanish
Yes	Two-way immersion	Spanish
No	Transitional bilingual programs	
No	Developmental bilingual	
No	Heritage language	
Yes	Sheltered English instruction	
Yes	Structured English immersion	
Yes	Specially designed academic instruction delivered in English (SDAIE)	
Yes	Content-based ESL	
Yes	Pull-out ESL	
Yes	Other (explain in comment box below)	

The response is limited to 8,000 characters.

"Other"--LEAs use a combination of programs to provide services. Iowa's plan is based on consortia therefore all students are in a program or receive services (services are defined as modified instruction tutoring, before and afterschool programs, summer schools, etc; all of those activities not part of a "formal" program.)

1.6.2 Student Demographic Data

1.6.2.1 Number of ALL LEP Students in the State

In the table below, provide the unduplicated number of ALL LEP students in the State who meet the LEP definition under Section 9101(25).

Include newly enrolled (recent arrivals to the U.S.) and continually enrolled LEP students, whether or not they receive services in a Title III language instruction educational program

Do not include Former LEP students (as defined in Section 200.20(f)(2) of the Title I regulation) and monitored Former LEP students (as defined under Section 3121(a)(4) of Title III) in the ALL LEP student count in this table.

Number of ALL LEP students in the State	19,155
Comments:	

1.6.2.2 Number of LEP Students Who Received Title III Language Instruction Educational Program Services

In the table below, provide the unduplicated number of LEP students who received services in Title III language instructional education programs.

	#
LEP students who received services in a Title III language instruction educational program in grades K through 12 for this reporting year.	18,744
Comments:	

Source – The SEA submits the data in file N/X116 that contains data group ID 648, category set A.

1.6.2.3 Most Commonly Spoken Languages in the State

In the table below, provide the five most commonly spoken languages, other than English, in the State (for all LEP students, not just LEP students who received Title III Services). The top five languages should be determined by the highest number of students speaking each of the languages listed.

Language	# LEP Students
Spanish; Castilian	14,131
Vietnamese	832
Bosnian	792
Lao	362
Undetermined	341

Report additional languages with significant numbers of LEP students in the comment box below.

The response is limited to 8,000 characters.

1.6.3 Student Performance Data

This section collects data on LEP student English language proficiency, as required by Sections 1111(h)(4)(D) and 3121(a)(2).

1.6.3.1.1 All LEP Students Tested on the State Annual English Language Proficiency Assessment

In the table below, please provide the number of ALL LEP students tested on annual State English language proficiency assessment (as defined in 1.6.2.1).

	#
Number tested on State annual ELP assessment	18,556
Number not tested on State annual ELP assessment	599
Total	19,155
Comments:	

1.6.3.1.2 ALL LEP Student English Language Proficiency Results

	#
Number proficient or above on State annual ELP assessment	4,359
Percent proficient or above on State annual ELP assessment	22.8
Comments:	

1.6.3.2.1 Title III LEP Students Tested on the State Annual English Language Proficiency (ELP) Assessment

In the table below, provide the number of Title III LEP students tested on annual State English language proficiency assessment.

	#
Number tested on State annual ELP assessment	18,556
Number not tested on State annual ELP assessment	599
Total	19,155
Comments:	
In the table below, provide the number of Title III Students who took the State annual ELP assessment for the first time and whose progress cannot be determined. Report this number ONLY if the State did not include these students in establishing AMAO1/making progress target and did not include them in the calculations for AMAO1/making progress(# and % making progress).	
	#
Number of Title III LEP with one data point whose progress can not be determined and whose results were not included in the calculation for AMAO1.	4,539

1.6.3.2.2

Table 1.6.3.2.2 Definitions:

1. **Annual Measureable Achievement Objectives (AMAOs) = State targets for the percent of students making progress and attaining proficiency.**
2. **Making Progress = Number of Title III LEP students that met the definition of Making Progress as defined by the State and submitted to ED in the State Consolidated Application (CSA), or as amended.**
3. **ELP Attainment = Number of Title III LEP students that meet the State defined English language proficiency submitted to ED in the State Consolidated Application (CSA), or as amended.**
4. **Results = Number and percent of Title III LEP students that met the State definition of Making Progress and the number and percent that met the State definition of Attainment of English language proficiency.**

In the table below, provide the State targets for the number and percentage of States making progress and attaining English proficiency for this reporting period. Additionally, provide the results from the annual State English language proficiency assessment for Title III-served LEP students who participated in a Title III language instruction educational program in grades K through 12. If your State uses cohorts, provide us with the range of targets, (i.e., indicate the lowest target among the cohorts, e.g., 10% and the highest target among a cohort, e.g., 70%).

	Results		Targets	
	#	%	#	%
Making progress	7,559	41.1	7,779	55.00
ELP attainment	4,358	23.7	3,559	19.00
Comments:				

1.6.3.5 Native Language Assessments

This section collects data on LEP students assessed in their native language (Section 1111(b)(6)) to be used for AYP determinations.

1.6.3.5.1 LEP Students Assessed in Native Language

In the table below, check "yes" if the specified assessment is used for AYP purposes.

State offers the State reading/language arts content tests in the students' native language(s).	No
State offers the State mathematics content tests in the students' native language(s).	No
State offers the State science content tests in the students' native language(s).	No
Comments:	

1.6.3.6 Title III Served Monitored Former LEP (MFLEP) Students

This section collects data on the performance of former LEP students as required by Sections 3121(a)(4) and 3123(b)(8).

1.6.3.6.1 Title III Served MFLEP Students by Year Monitored

In the table below, report the unduplicated count of monitored former LEP students during the two consecutive years of monitoring, which includes both MFLEP students in AYP grades and in non-AYP grades.

Monitored Former LEP students include:

- Students who have transitioned out of a language instruction educational program funded by Title III into classrooms that are not tailored for LEP students.
- Students who are no longer receiving LEP services and who are being monitored for academic content achievement for 2 years after the transition.

Table 1.6.3.6.1 Definitions:

1. **# Year One = Number of former LEP students in their first year of being monitored.**
2. **# Year Two = Number of former LEP students in their second year of being monitored.**
3. **Total = Number of monitored former LEP students in year one and year two. This is automatically calculated.**

# Year One	# Year Two	Total
605	434	1,039
Comments:		

1.6.3.6.2 In the table below, report the number of MFLEP students who took the annual mathematics assessment. Please provide data only for those students who transitioned into classrooms not designed for LEP students and who no longer received services under Title III in this reporting year. These students include both students who are monitored former LEP students in their first year of monitoring, and those in their second year of monitoring.

Table 1.6.3.6.2 Definitions:

1. **# Tested = State-aggregated number of MFLEP students who were tested in mathematics in all AYP grades.**
2. **# At or Above Proficient = State-aggregated number of MFLEP students who scored at or above proficient on the State annual mathematics assessment.**
3. **% Results = Automatically calculated based on number who scored at or above proficient divided by the number tested.**
4. **# Below proficient = State-aggregated number of MFLEP students in grades used for NCLB accountability determinations (3 through 8 and once in high school) who did not score proficient on the State NCLB mathematics assessment. This will be automatically calculated.**

# Tested	# At or Above Proficient	% Results	# Below Proficient
1,037	752	72.5	285
Comments:			

1.6.3.6.3 Monitored Former LEP (MFLEP) Students Results for Reading/Language Arts

In the table below, report the number of MFLEP students who took the annual mathematics assessment. Please provide data only for those students who transitioned into classrooms not designed for LEP students and who no longer received services under Title III in this reporting year. These students include both students who are monitored former LEP students in their first year of monitoring, and those in their second year of monitoring.

Table 1.6.3.6.3 Definitions:

1. **# Tested = State-aggregated number of MFLEP students who were tested in reading/language arts in all AYP grades.**
2. **# At or Above Proficient = State-aggregated number of MFLEP students who scored at or above proficient on the State annual reading/language arts assessment.**
3. **% Results = Automatically calculated based on number who scored at or above proficient divided by the total number tested.**
4. **# Below proficient = State-aggregated number MFLEP students who did not score proficient on the State annual reading/language arts assessment. This will be automatically calculated.**

# Tested	# At or Above Proficient	% Results	# Below Proficient
1,038	720	69.4	318
Comments:			

1.6.3.6.4 Monitored Former LEP (MFLEP) Students Results for Science

In the table below, report results for monitored former LEP students who took the annual science assessment. Please provide data only for those students who transitioned into classrooms not designed for LEP students and who no longer received services under Title III in this reporting year. These students include both students who are monitored former LEP students in their first year of monitoring, and those in their second year of monitoring.

Table 1.6.3.6.4 Definitions:

1. **# Tested = State-aggregated number of MFLEP students who were tested in science.**
2. **# At or Above Proficient = State-aggregated number of MFLEP students who scored at or above proficient on the State annual science assessment.**
3. **% Results = Automatically calculated based on number who scored at or above proficient divided by the total number tested.**
4. **# Below proficient = State-aggregated number MFLEP students who did not score proficient on the State annual science assessment. This will be automatically calculated.**

# Tested	# At or Above Proficient	% Results	# Below Proficient
1,025	747	72.9	278
Comments:			

1.6.4 Title III Subgrantees

This section collects data on the performance of Title III subgrantees.

1.6.4.1 Title III Subgrantee Performance

In the table below, report the number of Title III subgrantees meeting the criteria described in the table. Do not leave items blank. If there are zero subgrantees who met the condition described, put a zero in the number (#) column. Do not double count subgrantees by category.

Note: Do not include number of subgrants made under Section 3114(d)(1) from funds reserved for education programs and activities for immigrant children and youth. (Report Section 3114(d)(1) subgrants in 1.6.5.1 ONLY.)

	#
# -Total number of subgrantees for the year	12
# -Number of subgrantees that met all three Title III AMAOs	2
# -Number of subgrantees who met AMAO 1	8
# -Number of subgrantees who met AMAO 2	12
# -Number of subgrantees who met AMAO 3	10
# -Number of subgrantees that did not meet any Title III AMAOs	0
# -Number of subgrantees that did not meet Title III AMAOs for two consecutive years (SYs 2007-08 and 2008-09)	2
# -Number of subgrantees implementing an improvement plan in SY 2008-09 for not meeting Title III AMAOs	2
# -Number of subgrantees who have not met Title III AMAOs for four consecutive years (SYs 2005-06, 2006-07, 2007-08, and 2008-09)	2
Comments:	

1.6.4.2 State Accountability

In the table below, indicate whether the State met all three Title III AMAOs.

Note: Meeting all three Title III AMAOs means meeting each State-set target for each objective: Making Progress, Attaining Proficiency, and Making AYP for the LEP subgroup. This section collects data that will be used to determine State AYP, as required under Section 6161.

State met <u>all</u> three Title III AMAOs	<u>No</u>
Comments: The State has not met all three AMAOs. All 12 subgrantees made proficiency - AMAO 2. 8 of 12 subgrantees made progress - AMAO 1. However, only 53.99% of our students made progress. Our goal for AMAO 1 is 55.5%. Only 2 of our subgrantees made AMAO 3.	

1.6.4.3 Termination of Title III Language Instruction Educational Programs

This section collects data on the termination of Title III programs or activities as required by Section 3123(b)(7).

Were any Title III language instruction educational programs or activities terminated for failure to reach program goals?	No
If yes, provide the number of language instruction educational programs or activities for immigrant children and youth terminated.	
Comments:	

1.6.5 Education Programs and Activities for Immigrant Students

This section collects data on education programs and activities for immigrant students.

1.6.5.1 Immigrant Students

In the table below, report the unduplicated number of immigrant students enrolled in schools in the State and who participated in qualifying educational programs under Section 3114(d)(1).

Table 1.6.5.1 Definitions:

1. **Immigrant Students Enrolled = Number of students who meet the definition of immigrant children and youth under Section 3301(6) and enrolled in the elementary or secondary schools in the State.**
2. **Students in 3114(d)(1) Program = Number of immigrant students who participated in programs for immigrant children and youth funded under Section 3114(d)(1), using the funds reserved for immigrant education programs/activities. This number should not include immigrant students who receive services in Title III language instructional educational programs under Sections 3114(a) and 3115(a).**
3. **3114(d)(1)Subgrants = Number of subgrants made in the State under Section 3114(d)(1), with the funds reserved for immigrant education programs/activities. Do not include Title III Language Instruction Educational Program (LIEP) subgrants made under**

Sections 3114(a) and 3115(a) that serve immigrant students enrolled in them.

# Immigrant Students Enrolled	# Students in 3114(d)(1) Program	# of 3114(d)(1) Subgrants
3,962	2,337	9

If state reports zero (0) students in programs or zero (0) subgrants, explain in comment box below. The response is limited to 8,000 characters.

We served 2337 immigrant students in 9 districts that met the federal requirement of having a 5% growth in the immigrant student population and the state discretionary rule for having over 40 students.

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk.

1.6.6 Teacher Information and Professional Development

This section collects data on teachers in Title III language instruction education programs as required under Section 3123(b)(5).

1.6.6.1 Teacher Information

This section collects information about teachers as required under Section 3123 (b)(5).

In the table below, report the number of teachers who are working in the Title III language instruction educational programs as defined under Section 3301(8) and reported in 1.6.1 (Types of language instruction educational programs) even if they are not paid with Title III funds.

Note: Section 3301(8) û The term æLanguage instruction educational program' means an instruction course û (A) in which a limited English proficient child is placed for the purpose of developing and attaining English proficiency, while meeting challenging State academic content and student academic achievement standards, as required by Section 1111(b)(1); and (B) that may make instructional use of both English and a child's native language to enable the child to develop and attain English proficiency and may include the participation of English proficient children if such course is designed to enable all participating children to become proficient in English and a second language.

	#
Number of all certified/licensed teachers currently working in Title III language instruction educational programs.	371
Estimate number of additional certified/licensed teachers that will be needed for Title III language instruction educational programs in the next 5 years*.	479

Explain in the comment box below if there is a zero for any item in the table above. The response is limited to 8,000 characters.

The ELL population of Iowa has grown about 5.8% a year since 2002. At this rate we will need about 29% more certified teachers in 5 years. That would change the number in Iowa to about 479.

* This number should be the total additional teachers needed for the next 5 years, not the number needed for each year. Do not include the number of teachers currently working in Title III English language instruction educational programs.

1.6.6.2 Professional Development Activities of Subgrantees Related to the Teaching and Learning of LEP Students

In the tables below, provide information about the subgrantee professional development activities that meet the requirements of Section 3115(c)(2).

Table 1.6.6.2 Definitions:

1. **Professional Development Topics = Subgrantee activities for professional development topics required under Title III.**
2. **#Subgrantees = Number of subgrantees who conducted each type of professional development activity. A subgrantee may conduct more than one professional development activity. (Use the same method of counting subgrantees, including consortia, as in 1.6.1.1 and 1.6.4.1.)**
3. Total Number of Participants = Number of teachers, administrators and other personnel who participated in each type of the professional development activities reported.
4. Total = Number of all participants in professional development (PD) activities

Type of Professional Development Activity	# Subgrantees	
Instructional strategies for LEP students	12	
Understanding and implementation of assessment of LEP students	12	
Understanding and implementation of ELP standards and academic content standards for LEP students	12	
Alignment of the curriculum in language instruction educational programs to ELP standards	12	
Subject matter knowledge for teachers	12	
Other (Explain in comment box)	12	
Participant Information	# Subgrantees	# Participants
PD provided to content classroom teachers	12	4,567
PD provided to LEP classroom teachers	12	1,173
PD provided to principals	12	337
PD provided to administrators/other than principals	12	268
PD provided to other school personnel/non-administrative	12	853
PD provided to community based organization personnel	12	298
Total	12	7,496

The response is limited to 8,000 characters.

1.6.7 State Subgrant Activities

This section collects data on State grant activities.

1.6.7.1 State Subgrant Process

In the table below, report the time between when the State receives the Title III allocation from ED, normally on July 1 of each year for the upcoming school year, and the time when the State distributes these funds to subgrantees for the intended school year. Dates must be in the format MM/DD/YY.

Table 1.6.7.1 Definitions:

1. **Date State Received Allocation = Annual date the State receives the Title III allocation from US Department of Education (ED).**
2. **Date Funds Available to Subgrantees = Annual date that Title III funds are available to approved subgrantees.**
3. **# of Days/\$\$ Distribution = Average number of days for States receiving Title III funds to make subgrants to subgrantees beginning from July 1 of each year, except under conditions where funds are being withheld.**

Example: State received SY 2008-09 funds July 1, 2008, and then made these funds available to subgrantees on August 1, 2008, for SY 2008-09 programs. Then the "# of days/\$\$ Distribution" is 30 days.

Date State Received Allocation	Date Funds Available to Subgrantees	# of Days/\$\$ Distribution
07/01/08	07/01/09	0
Comments: Funds are available for each subgrantee immediately if end of the year and continuation reports are done.		

1.6.7.2 Steps To Shorten the Distribution of Title III Funds to Subgrantees

In the comment box below, describe how your State can shorten the process of distributing Title III funds to subgrantees. The response is limited to 8,000 characters.

We don't have any recommendations. AEAs submit a report before the new yearly award is made. AEAs have access immediately.

1.7 PERSISTENTLY DANGEROUS SCHOOLS

In the table below, provide the number of schools identified as persistently dangerous, as determined by the State, by the start of the school year. For further guidance on persistently dangerous schools, refer to Section B "Identifying Persistently Dangerous Schools" in the Unsafe School Choice Option Non-Regulatory Guidance, available at: <http://www.ed.gov/policy/elsec/guid/unsafeschoolchoice.pdf>.

	#
Persistently Dangerous Schools	
Comments: I am unable to make an entry in the box provided above. Iowa has 0 schools that meet the definition of Persistently Dangerous Schools.	

1.8 GRADUATION RATES AND DROPOUT RATES

This section collects graduation and dropout rates.

1.8.1 Graduation Rates

In the table below, provide the graduation rates calculated using the methodology that was approved as part of the State's accountability plan for the previous school year (SY 2007-08). Below the table are FAQs about the data collected in this table.

Student Group	Graduation Rate
All Students	88.7
American Indian or Alaska Native	67.7
Asian or Pacific Islander	88.4
Black, non-Hispanic	71.0
Hispanic	69.2
White, non-Hispanic	90.8
Children with disabilities (IDEA)	83.4
Limited English proficient	69.8
Economically disadvantaged	84.8
Migratory students	71.6
Male	87.4
Female	90.0
Comments: This is the first year we had data for Migrant students.	

Source – Initially populated from ED Facts. See Attachment D: CSPR & ED Facts Data Crosswalk. If the SEA has additional racial/ethnic groups or combinations of racial/ethnic groups in its accountability plan under NCLB, the SEA will report the above data for those groups through the online CSPR collection tool.

FAQs on graduation rates:

- a. *What is the graduation rate? Section 200.19 of the Title I regulations issued under the No Child Left Behind Act on December 2, 2002, defines graduation rate to mean:*
 - The percentage of students, measured from the beginning of high school, who graduate from public high school with a regular diploma (not including a GED or any other diploma not fully aligned with the State's academic standards) in the standard number of years; or,
 - Another more accurate definition developed by the State and approved by the Secretary in the State plan that more accurately measures the rate of students who graduate from high school with a regular diploma; and
 - Avoids counting a dropout as a transfer.
- b. *What if the data collection system is not in place for the collection of graduate rates? For those States that are reporting transitional graduation rate data and are working to put into place data collection systems that will allow the State to calculate the graduation rate in accordance with Section 200.19 for all the required subgroups, please provide a detailed progress report on the status of those efforts.*

The response is limited to 8,000 characters.

1.8.2 Dropout Rates

In the table below, provide the dropout rates calculated using the annual event school dropout rate for students leaving a school in a single year determined in accordance with the National Center for Education Statistic's (NCES) Common Core of Data (CCD) for the previous school year (SY 2007-08). Below the table is a FAQ about the data collected in this table.

Student Group	Dropout Rate
All Students	2.0
American Indian or Alaska Native	6.0
Asian or Pacific Islander	1.8
Black, non-Hispanic	4.1
Hispanic	3.9
White, non-Hispanic	1.7
Children with disabilities (IDEA)	2.3
Limited English proficient	3.9
Economically disadvantaged	2.8
Migratory students	4.0
Male	2.2
Female	1.7
Comments:	

FAQ on dropout rates:

What is a dropout? A dropout is an individual who: 1) was enrolled in school at some time during the previous school year; and 2) was not enrolled at the beginning of the current school year; and 3) has not graduated from high school or completed a State-or district-approved educational program; and 4) does not meet any of the following exclusionary conditions: a) transfer to another public school district, private school, or State-or district-approved educational program (including correctional or health facility programs); b) temporary absence due to suspension or school-excused illness; or c) death.

1.9 EDUCATION FOR HOMELESS CHILDREN AND YOUTHS PROGRAM

This section collects data on homeless children and youths and the McKinney-Vento grant program.

In the table below, provide the following information about the number of LEAs in the State who reported data on homeless children and youths and the McKinney-Vento program. The totals will be will be automatically calculated.

	#	# LEAs Reporting Data
LEAs without subgrants	341	341
LEAs with subgrants	10	10
Total	351	351
Comments:		

1.9.1 All LEAs (with and without McKinney-Vento subgrants)

The following questions collect data on homeless children and youths in the State.

1.9.1.1 Homeless Children And Youths

In the table below, provide the number of homeless children and youths by grade level enrolled in public school at any time during the regular school year. The totals will be automatically calculated:

Age/Grade	# of Homeless Children/Youths Enrolled in Public School in LEAs Without Subgrants	# of Homeless Children/Youths Enrolled in Public School in LEAs With Subgrants
Age 3 through 5 (not Kindergarten)	21	145
K	236	366
1	194	447
2	205	411
3	158	450
4	151	400
5	127	361
6	167	332
7	162	282
8	125	300
9	165	266
10	192	212
11	180	216
12	357	196
Ungraded		
Total	2,440	4,384
Comments:		

1.9.1.2 Primary Nighttime Residence of Homeless Children and Youths

In the table below, provide the number of homeless children and youths by primary nighttime residence enrolled in public school at any time during the regular school year. The primary nighttime residence should be the student's nighttime residence when he/she was identified as homeless. The totals will be automatically calculated.

	# of Homeless Children/Youths -LEAs Without Subgrants	# of Homeless Children/Youths -LEAs With Subgrants
Shelters, transitional housing, awaiting foster care	723	1,410
Doubled-up (e.g., living with another family)	1,644	2,632
Unsheltered (e.g., cars, parks, campgrounds, temporary trailer, or abandoned buildings)	65	120
Hotels/Motels	N<10	222
Total	2,440	4,384
Comments:		

1.9.2 LEAs with McKinney-Vento Subgrants

The following sections collect data on LEAs with McKinney-Vento subgrants.

1.9.2.1 Homeless Children and Youths Served by McKinney-Vento Subgrants

In the table below, provide the number of homeless children and youths by grade level who were served by McKinney-Vento subgrants during the regular school year. The total will be automatically calculated.

Age/Grade	# Homeless Children/Youths Served by Subgrants
Age 3 through 5 (not Kindergarten)	112
K	275
1	312
2	320
3	341
4	293
5	284
6	244
7	221
8	210
9	215
10	167
11	141
12	135
Ungraded	
Total	3,270
Comments:	

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk.

1.9.2.2 Subgroups of Homeless Students Served

In the table below, please provide the following information about the homeless students served during the regular school year.

	# Homeless Students Served
Unaccompanied youth	69
Migratory children/youth	52
Children with disabilities (IDEA)	882
Limited English proficient students	429
Comments:	

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk.

1.9.2.3 Educational Support Services Provided by Subgrantees

In the table below, provide the number of subgrantee programs that provided the following educational support services with McKinney-Vento funds.

	# McKinney-Vento Subgrantees That Offer
Tutoring or other instructional support	9
Expedited evaluations	7
Staff professional development and awareness	8
Referrals for medical, dental, and other health services	9
Transportation	10
Early childhood programs	7
Assistance with participation in school programs	8
Before-, after-school, mentoring, summer programs	8
Obtaining or transferring records necessary for enrollment	8
Parent education related to rights and resources for children	8
Coordination between schools and agencies	9
Counseling	9
Addressing needs related to domestic violence	7
Clothing to meet a school requirement	8
School supplies	8
Referral to other programs and services	8
Emergency assistance related to school attendance	8
Other (optional – in comment box below)	0
Other (optional – in comment box below)	0
Other (optional – in comment box below)	0

The response is limited to 8,000 characters.

Source – Manual input by SEA into the online collection tool.

1.9.2.4 Barriers To The Education Of Homeless Children And Youth

In the table below, provide the number of subgrantees that reported the following barriers to the enrollment and success of homeless children and youths.

	# Subgrantees Reporting
Eligibility for homeless services	2
School Selection	2
Transportation	7
School records	2
Immunizations	1
Other medical records	0
Other Barriers – in comment box below	4

The response is limited to 8,000 characters.

Transportation for after-school programs; expedite enrollment so students are in classes sooner; attendance; clothing, food, medical services, mental health services

1.9.2.5 Academic Progress of Homeless Students

The following questions collect data on the academic achievement of homeless children and youths served by McKinney-Vento subgrants.

1.9.2.5.1 Reading Assessment

In the table below, provide the number of homeless children and youths served who were tested on the State ESEA reading/language arts assessment and the number of those tested who scored at or above proficient. Provide data for grades 9 through 12 only for those grades tested for ESEA.

Grade	# Homeless Children/Youths Served by McKinney-Vento Taking Reading Assessment Test	# Homeless Children/Youths Served by McKinney-Vento Who Scored At or Above Proficient
3	197	114
4	165	98
5	175	104
6	192	81
7	156	64
8	137	68
High School	50	24
Comments:		

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk.

1.9.2.5.2 Mathematics Assessment

This section is similar to 1.9.2.5.1. The only difference is that this section collects data on the State ESEA mathematics assessment.

Grade	# Homeless Children/Youths Served by McKinney-Vento Taking Mathematics Assessment Test	# Homeless Children/Youths Served by McKinney-Vento Who Scored At or Above Proficient
3	196	114
4	163	101
5	174	103
6	191	95
7	156	91
8	136	65
High School	49	26
Comments:

1.10 MIGRANT CHILD COUNTS

This section collects the Title I, Part C, Migrant Education Program (MEP) child counts which States are required to provide and may be used to determine the annual State allocations under Title I, Part C. The child counts should reflect the reporting period of September 1, 2008 through August 31, 2009. This section also collects a report on the procedures used by States to produce true, accurate, and valid child counts.

To provide the child counts, each SEA should have sufficient procedures in place to ensure that it is counting only those children who are eligible for the MEP. Such procedures are important to protecting the integrity of the State's MEP because they permit the early discovery and correction of eligibility problems and thus help to ensure that only eligible migrant children are counted for funding purposes and are served. If an SEA has reservations about the accuracy of its child counts, it must inform the Department of its concerns and explain how and when it will resolve them under Section 1.10.3.4 Quality Control Processes.

Note: In submitting this information, the Authorizing State Official must certify that, to the best of his/her knowledge, the child counts and information contained in the report are true, reliable, and valid and that any false Statement provided is subject to fine or imprisonment pursuant to 18 U.S.C. 1001.

FAQs on Child Count:

How is "out-of-school" defined? Out-of-school means youth up through age 21 who are entitled to a free public education in the State but are not currently enrolled in a K-12 institution. This could include students who have dropped out of school, youth who are working on a GED outside of a K-12 institution, and youth who are "here-to-work" only. It does not include preschoolers, who are counted by age grouping.

How is "ungraded" defined? Ungraded means the children are served in an educational unit that has no separate grades. For example, some schools have primary grade groupings that are not traditionally graded, or ungraded groupings for children with learning disabilities. In some cases, ungraded students may also include special education children, transitional bilingual students, students working on a GED through a K-12 institution, or those in a correctional setting. (Students working on a GED outside of a K-12 institution are counted as out-of-school youth.)

1.10.1 Category 1 Child Count

In the table below, enter the unduplicated statewide number by age/grade of eligible migrant children age 3 through 21 who, within 3 years of making a qualifying move, resided in your State for one or more days during the reporting period of September 1, 2008 through August 31, 2009. This figure includes all eligible migrant children who may or may not have participated in MEP services. Count a child who moved from one age/grade level to another during the reporting period only once in the highest age/grade that he/she attained during the reporting period. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

Age/Grade	12-Month Count of Eligible Migrant Children Who Can be Counted for Funding Purposes
Age 3 through 5 (not Kindergarten)	95
K	106
1	149
2	155
3	136
4	124
5	107

1.10.1.1 Category 1 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 1 greater than 10 percent.

The response is limited to 8,000 characters.

Iowa has fewer migrant families entering the state for the purpose of employment in an agribusiness. In addition, more students have expired eligibility.

1.10.2 Category 2 Child Count

In the table below, enter by age/grade the unduplicated statewide number of eligible migrant children age 3 through 21 who, within 3 years of making a qualifying move, were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the reporting period of September 1, 2008 through August 31, 2009. Count a child who moved from one age/grade level to another during the reporting period only once in the highest age/grade that he/she attained during the reporting period. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

Age/Grade	Summer/Intersession Count of Eligible Migrant Children Who Are Participants and Who Can Be Counted for Funding Purposes
Age 3 through 5 (not Kindergarten)	0

Total	109
Comments: There were no migrant students ages 3-5 participating in summer sessions.	

Source – Initially populated from EDFacts. See Attachment D: CSPR & EDFacts Data Crosswalk.

1.10.2.1 Category 2 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 2 greater than 10 percent.

The response is limited to 8,000 characters.

The number of summer session participants is down for several reasons: ICE raids have impacted migrant families, fewer families have come to Iowa for summer work, and fewer MEP funded programs are offering summer programs.

1.10.3 Child Count Calculation and Validation Procedures

The following question requests information on the State's MEP child count calculation and validation procedures.

1.10.3.1 Student Information System

In the space below, respond to the following questions: What system(s) did your State use to compile and generate the Category 1 and Category 2 child count for this reporting period (e.g., NGS, MIS 2000, COEStar, manual system)? Were child counts for the last reporting period generated using the same system(s)? If the State's category 2 count was generated using a different system from the category 1 count, please identify each system.

The response is limited to 8,000 characters.

Iowa has used MS/EdD -MIS2000 to compile the student counts for 2007-08 and 2008-09. We will continue to use MIS2000 to generate migrant student data for the 2009-10 school year.

1.10.3.2 Data Collection and Management Procedures

In the space below, respond to the following questions: How was the child count data collected? What data were collected? What activities were conducted to collect the data? When were the data collected for use in the student information system? If the data for the State's category 2 count were collected and maintained differently from the category 1 count, please describe each set of procedures.

The response is limited to 8,000 characters.

Child count data is collected through informal surveys and COE interviews. The data collected is the same information required for the national COE. All Iowa school districts also submit data through the Statewide data collection systems: BEDS and Project Easier twice a year. All districts are given the federal definition of migrant and use that definition to identify potential migrant students who are enrolled in their schools. School districts are also required to complete COEs for every student they identify as migrant.

BEDS and Project Easier data are collected only in the fall and spring of every school year. However, the informal surveys and COE interviews are ongoing throughout the year.

The same procedures are used for both the Category 1 and 2 counts.

In the space below, describe how the child count data are inputted, updated, and then organized by the student information system for child count purposes at the State level

The response is limited to 8,000 characters.

All Iowa COEs are completed and reviewed at the local level prior to being sent to the State MEP office for review and approval. BEDS and Project Easier data are collected and reviewed by the Bureau of Planning, Research, Development and Evaluation (PRDE). In addition, reports are generated through MIS2000. Collected data from all sources is reviewed and organized by the State MEP office and the PRDE staff. Conflicting data undergoes additional scrutiny to verify accuracy. If data cannot be verified as accurate, it is not included in the count.

Approved Coes are entered into the MIS2000 database. Data entry staff signs off on and dates each COE after entry into the database. Copies are made of approved/entered COEs and then filed in the State MEP files. The original COEs are returned to the local districts.

After approval of the COEs, a letter signed by the State MEP Coordinator, is sent to each district verifying the eligibility of migrant students. This letter is used as documentation of eligibility for free meals through the Food and Nutrition programs in the schools.

If the data for the State's category 2 count were collected and maintained differently from the category 1 count, please describe each set of procedures.

The response is limited to 8,000 characters.

NA

1.10.3.3 Methods Used To Count Children

In the space below, respond to the following question: How was each child count calculated? Please describe the compilation process and edit functions that are built into your student information system(s) specifically to produce an accurate child count. In particular, describe how your system includes and counts only:

- children who were between age 3 through 21;
- children who met the program eligibility criteria (e.g., were within 3 years of a last qualifying move, had a qualifying activity);
- children who were resident in your State for at least 1 day during the eligibility period (September 1 through August 31);
- children who—in the case of Category 2—received a MEP-funded service during the summer or intersession term; and
- children once per age/grade level for each child count category.

The response is limited to 8,000 characters.

Data from approved COEs are entered into the MIS2000 database. The system has error checks that prevent incorrect/incomplete information from being entered.

Two reports are generated: the first to identify eligible students enrolled for the first time during the 9/01/08-8/31/09 count period, and the second to verify the enrollment and eligibility of migrant students counted during the previous two count periods. These reports are sent to districts for verification and any changes (withdrawals, duplications, spelling corrections, etc.) are entered into MIS2000.

All data is cross checked with data collected and compiled by the state data collection system. Discrepancies are resolved by reviewing existing data, reviewing COEs, and contacting local districts. All necessary changes are made to both the State and MIS2000 databases. Local staff receive yearly trainings on eligibility criteria and accurate completion of the COE. Both the State MEP Coordinator and the State ID&R Coordinator are available to provide additional training at any time.

Addendum: *MIS2000 prepares reports that calculate the number of eligible children between the ages of 3 and 21 based upon the COE data entered into the system between 9/1/08 and 8/31/09. These reports are cross-checked against the state database (Project Easier) which contains data from all districts regarding the number of migrant students enrolled between 9/1 and 8/31. MIS2000 reports only on data entered for MEP-funded programs and Project Easier reports on all Iowa districts. All non-MEP districts are contacted to verify their reported migrant numbers. Because very few of the identified migrant students in the non-MEP districts have a COE completed and because many of them are no longer in the district when the CSPR is done, we will not be including these students in our count. All Iowa districts have been informed (and frequently reminded) of the requirement for completing COEs on ALL students they identify as migrant. We will continue to be diligent in enforcing this requirement. *We rely on the MIS2000 reports and the Project Easier database to give accurate numbers for the number of children meeting eligibility criteria, children in Iowa for at least 1 day during the eligibility period, children receiving MEP-funded summer/intersession services, and to count children once per age/grade level in each child count category. Data from COEs cannot be entered if it doesn't contain the information required by the online form, therefore we are pretty much assured that when a child's information is accepted by the system, it is accurate.

If your State's category 2 count was generated using a different system from the category 1 count, please describe each system separately.

The response is limited to 8,000 characters.

NA

1.10.3.4 Quality Control Processes

In the space below, respond to the following question: What steps are taken to ensure your State properly determines and verifies the eligibility of each child included in the child counts for the reporting period of September 1 through August 31 before that child's data are included in the student information system(s)?

The response is limited to 8,000 characters.

Prior to the determination of the counts, two reports are sent to each MEP to verify that students listed on the reports were in the district during the count period: a list of students whose QAD occurred during the 9/01/08-8/31/09 period and a list of students previously enrolled in the district. Districts review each list and return any changes or corrections to the State MEP office. All changes/corrections are made to both the State and MIS2000 databases. Addendum: *Trainings which include student eligibility criteria, PFS, interviewing, completion of COEs and other issues of ID&R are conducted twice a year by the State MEP Director and the State ID&R Coordinator for Iowa MEP staff. *The Iowa ID&R Manual is currently in revision and will be made available to MEP staff at the spring training. *All interviewers receive state training in interview protocols, in interviewing techniques that will put families at ease, but also in not asking leading questions. Print material is given to the interviewers that will assist them as they conduct interviews in their home district. In some instances, the state-trained interviewers conduct additional training for local interviewers/recruiters using the same materials provided at the state training. The State ID&R Coordinator is available to provide additional on-site training at the local level. In addition, all interviewers/recruiters have been told that only the interviewer completes the COE. *Eligibility issues are resolved through regular and frequent communication between the State MEP office and the local districts. All COEs are reviewed at the State Office and any questions arising from these reviews are dealt with immediately. *The effectiveness of ID&R activities is evaluated through on-site monitoring and training requests of the local MEPs, review of the COEs at both the state and local levels and, during the 2009-10 school year, through the re-interviewing process.

In the space below, describe specifically the procedures used and the results of any re-interview processes used by the SEA during the reporting period to test the accuracy of the State's MEP eligibility determinations. In this description, please include the number of eligibility determinations sampled, the number for which a test was completed, and the number found eligible.

The response is limited to 8,000 characters.

Iowa has just completed the development of a re-interviewing plan and will implement the plan in 2010. Training has been given and additional training will take place prior to the actual re-interviewing activities. A Re-interviewing Tool-kit has been developed and has been distributed to all MEPs. The tool-kit contains sample interview protocols, sample letters to parents and suggestions for establishing rapport with families as well as report forms to be completed after the re-interviews and sent to the State MEP office. This document will also be posted on the Iowa Department of Education Migrant webpage.

For two consecutive years, each MEP district will re-interview a minimum of 10 migrant families using a tool designed by the State MEP office. Interviewers cannot be the same staff who previously interviewed the families. In the third year, an outside, independent contractor will be hired to conduct the re-interview activities.

In the space below, respond to the following question: Throughout the year, what steps are taken by staff to check that child count data are inputted and updated accurately (and—for systems that merge data—consolidated accurately)?

The response is limited to 8,000 characters.

Upon approval by the State Migrant Education Director, all COEs are given to the data entry staff to be inputted into MIS2000. Error checks built into the MIS2000 system prevent the data entry staff person from entering incorrect/incomplete information. When errors are flagged, the LEA submitting the COE is contacted for clarification or correction of the data. All corrected COEs are reviewed for accuracy and eligibility before being returned to the data entry staff. If the data cannot be clarified or corrected, the COE is not entered into MIS2000.

In the space below, respond to the following question: What final steps are taken by State staff to verify the child counts produced by your student information system(s) are accurate counts of children in Category 1 and Category 2 prior to their submission to ED?

The response is limited to 8,000 characters.

Data collected in MIS2000 is cross checked with the state database to ensure that numbers match. In the event of mismatches, extensive review is done of all migrant databases to identify where errors have been made. Only when errors are corrected does the count information get certified as final.

In the space below, describe those corrective actions or improvements that will be made by the SEA to improve the accuracy of its MEP eligibility determinations in light of the prospective re-interviewing results.

The response is limited to 8,000 characters.

Corrective actions to be considered in improving the accuracy of MEP eligibility determinations after re-interviewing include:

- 1 Re-training all interviewers (including practice re-interviewing)
- 2 Revamping training materials, including the tool-kit
- 3 Increased training regarding MEP eligibility for all MEP staff

In the space below, discuss any concerns about the accuracy of the reported child counts or the underlying eligibility determinations on

which the counts are based.

The response is limited to 8,000 characters.

The State MEP Coordinator and the PRDE team have had multiple meetings to resolve issues of communication between various staff completing data reports at different times. Sections of the State data collection forms have been revised to include migrant eligibility criteria which can be verified with the district MEP coordinator. Cross checking between MIS2000 and the State databases has been more efficient with fewer data entry errors. Consistent and regular training and follow-up with districts has been the key component in this process.
