

**CONSOLIDATED STATE PERFORMANCE REPORT:
Parts I and II**

**for
STATE FORMULA GRANT PROGRAMS
under the
ELEMENTARY AND SECONDARY EDUCATION ACT
As amended in 2001**

**For reporting on
School Year 2011-12**

BUREAU OF INDIAN AFFAIRS

**PART I DUE THURSDAY, DECEMBER 20, 2012
PART II DUE FRIDAY, FEBRUARY 15, 2013**

**U.S. DEPARTMENT OF EDUCATION
WASHINGTON, DC 20202**

INTRODUCTION

Sections 9302 and 9303 of the *Elementary and Secondary Education Act (ESEA)*, as amended in 2001 provide to States the option of applying for and reporting on multiple *ESEA* programs through a single consolidated application and report. Although a central, practical purpose of the Consolidated State Application and Report is to reduce "red tape" and burden on States, the Consolidated State Application and Report are also intended to have the important purpose of encouraging the integration of State, local, and *ESEA* programs in comprehensive planning and service delivery and enhancing the likelihood that the State will coordinate planning and service delivery across multiple State and local programs. The combined goal of all educational agencies—State, local, and Federal—is a more coherent, well-integrated educational plan that will result in improved teaching and learning. The Consolidated State Application and Report includes the following *ESEA* programs:

- Title I, Part A – *Improving Basic Programs Operated by Local Educational Agencies*
- Title I, Part B, Subpart 3 – *William F. Goodling Even Start Family Literacy Programs*
- Title I, Part C – *Education of Migratory Children* (Includes the Migrant Child Count)
- Title I, Part D – *Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk*
- Title II, Part A – *Improving Teacher Quality State Grants (Teacher and Principal Training and Recruiting Fund)*
- Title III, Part A – *English Language Acquisition, Language Enhancement, and Academic Achievement Act*
- Title IV, Part A, Subpart 1 – *Safe and Drug-Free Schools and Communities State Grants*
- Title IV, Part A, Subpart 2 – *Safe and Drug-Free Schools and Communities National Activities (Community Service Grant Program)*
- Title V, Part A – *Innovative Programs*
- Title VI, Section 6111 – *Grants for State Assessments and Related Activities*
- Title VI, Part B – *Rural Education Achievement Program*
- Title X, Part C – *Education for Homeless Children and Youths*

The *ESEA* Consolidated State Performance Report (CSPR) for school year (SY) 2011-12 consists of two Parts, Part I and Part II.

PART I

Part I of the CSPR requests information related to the five *ESEA* Goals, established in the June 2002 Consolidated State Application, and information required for the Annual State Report to the Secretary, as described in Section 1111(h)(4) of the *ESEA*. The five *ESEA* Goals established in the June 2002 Consolidated State Application are:

- **Performance Goal 1:** By SY 2013-14, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- **Performance Goal 2:** All limited English proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- **Performance Goal 3:** By SY 2005-06, all students will be taught by highly qualified teachers.
- **Performance Goal 4:** All students will be educated in learning environments that are safe, drug free, and conducive to learning.
- **Performance Goal 5:** All students will graduate from high school

Beginning with the CSPR SY 2005-06 collection, the Education of Homeless Children and Youths was added. The Migrant Child count was added for the SY 2006-07 collection.

PART II

Part II of the CSPR consists of information related to State activities and outcomes of specific *ESEA* programs. While the information requested varies from program to program, the specific information requested for this report meets the following criteria:

1. The information is needed for Department program performance plans or for other program needs.
2. The information is not available from another source, including program evaluations pending full implementation of required ED Facts submission.
3. The information will provide valid evidence of program outcomes or results.

GENERAL INSTRUCTIONS AND TIMELINES

All States that received funding on the basis of the Consolidated State Application for the SY 2011-12 must respond to this Consolidated State Performance Report (CSPR). Part I of the Report is due to the Department by **Thursday, December 20, 2012**. Part II of the Report is due to the Department by **Friday, February 15, 2013**. Both Part I and Part II should reflect data from the SY 2011-12, unless otherwise noted.

The format states will use to submit the Consolidated State Performance Report has changed to an online submission starting with SY 2004-05. This online submission system is being developed through the Education Data Exchange Network (EDEN) and will make the submission process less burdensome. Please see the following section on transmittal instructions for more information on how to submit this year's Consolidated State Performance Report.

TRANSMITTAL INSTRUCTIONS

The Consolidated State Performance Report (CSPR) data will be collected online from the SEAs, using the EDEN web site. The EDEN web site will be modified to include a separate area (sub-domain) for CSPR data entry. This area will utilize EDEN formatting to the extent possible and the data will be entered in the order of the current CSPR forms. The data entry screens will include or provide access to all instructions and notes on the current CSPR forms; additionally, an effort will be made to design the screens to balance efficient data collection and reduction of visual clutter.

Initially, a state user will log onto EDEN and be provided with an option that takes him or her to the "SY 2011-12 CSPR". The main CSPR screen will allow the user to select the section of the CSPR that he or she needs to either view or enter data. After selecting a section of the CSPR, the user will be presented with a screen or set of screens where the user can input the data for that section of the CSPR. A user can only select one section of the CSPR at a time. After a state has included all available data in the designated sections of a particular CSPR Part, a lead state user will certify that Part and transmit it to the Department. Once a Part has been transmitted, ED will have access to the data. States may still make changes or additions to the transmitted data, by creating an updated version of the CSPR. Detailed instructions for transmitting the SY 2011-12 CSPR will be found on the main CSPR page of the EDEN web site (<https://EDEN.ED.GOV/EDENPortal/>).

School Year 2011-12

**PART I DUE DECEMBER 20, 2012
5PM EST**

1.1 STANDARDS AND ASSESSMENT DEVELOPMENT

STANDARDS OF ASSESSMENT DEVELOPMENT

This section requests descriptions of the State's implementation of the *Elementary and Secondary Education Act, as amended (ESEA)* academic content standards, academic achievement standards and assessments to meet the requirements of Section 1111(b)(1) of *ESEA*.

1.1.1 Academic Content Standards

Indicate below whether your state has made or is planning to make revisions to or change the State's academic content standards in mathematics, reading/language arts or science since the State's content standards were most recently approved through ED's peer review process for State assessment systems. If yes, indicate specifically in what school year your State implemented or will implement the revisions or changes.

No Revisions or changes	No revisions or changes to academic content standards in mathematics, reading/language arts or science made or planned.
	State has revised or changed its academic content standards in mathematics, reading/language arts or science or is planning to make revisions to or change its academic content standards in mathematics, reading/language arts or science. Indicate below the year these changes were or will be implemented or "Not Applicable" to indicate that changes were not made or will not be made in the subject area.

Acceptable responses are a school year (e.g., 2011-12) or Not Applicable.

	Mathematics	Reading/Language Arts	Science
Academic Content Standards	Not Applicable	Not Applicable	Not Applicable

If the responses above do not fully describe revisions or changes to your State's academic achievement standards, describe the revisions or changes below.

The response is limited to 1,000 characters

The BIE is required under 25 CFR § 30.104(a) to use the academic content standards of the states where its schools are respectively located.

1.1.1.1 Academic Achievement Standards in Mathematics, Reading/Language Arts and Science

Indicate below whether your state has changed or is planning to change the State's academic achievement standards in mathematics, reading/language arts or science since the State's academic achievement standards were most recently approved through ED's peer review process for State assessment systems. If yes, indicate specifically in what school year your State implemented or will implement the changes.

As applicable, include changes to academic achievement standards based on any assessments (e.g., alternate assessments based on alternate achievement standards, alternate assessments based on modified achievement standards, native language assessments, or others) implemented to meet the assessment requirements under Section 1111(b)(3) of ESEA.

<p>No Revisions or changes</p>	<p>No revisions or changes to academic content standards in mathematics, reading/language arts or science made or planned.</p>
	<p>State has changed its academic achievement standards or is planning to change its academic achievement standards in mathematics, reading/language arts or science. Indicate below either the school year in which these changes were or will be implemented or "Not Applicable" to indicate that changes were not made or will not be made in the subject area.</p>

Acceptable responses are a school year (e.g., 2011-12) or Not Applicable.

Academic Achievement Standards for	Mathematics	Reading/Language Arts	Science
Regular Assessments in Grades 3-8	Not Applicable	Not Applicable	Not Applicable
Regular Assessments in High School	Not Applicable	Not Applicable	Not Applicable
Alternate Assessments Based on Grade-Level Achievement Standards (if applicable)	Not Applicable	Not Applicable	Not Applicable
Alternate Assessments Based on Modified Achievement Standards (if applicable)	Not Applicable	Not Applicable	Not Applicable
Alternate Assessments Based on Alternate Achievement Standards	Not Applicable	Not Applicable	Not Applicable

If the responses above do not fully describe revisions or changes to your State's academic achievement standards, describe the revisions or changes below.

The response is limited to 1,000 characters

<p>The BIE is required under 25 CFR § 30.104(a) to use the academic content standards of the states where its schools are respectively located.</p>

1.1.2 Assessments in Mathematics and Reading/Language Arts and Science

Indicate below whether your state has changed or is planning to change the State's academic assessments in mathematics, reading/language arts or science since the State's academic assessments were most recently approved through ED's peer review process for State assessment systems. If yes, indicate specifically in what school year your State implemented or will implement the changes.

As applicable, include any assessments (e.g., alternate assessments based on alternate achievement standards, alternate assessments based on modified achievement standards, native language assessments, or others) implemented to meet the assessment requirements under Section 1111(b)(3) of ESEA.

No Revisions or changes	No changes to assessments in mathematics, reading/language arts or science made or planned.
	State has changed or is planning to change its assessments in mathematics, reading/language arts or science. Indicate below the year these changes were implemented or "Not Applicable" to indicate that changes were not made or will not be made in the subject area.

Acceptable responses are a school year (e.g., 2011-12) or Not Applicable.

Academic Assessments	Mathematics	Reading/Language Arts	Science
Regular Assessments in Grades 3-8	Not Applicable	Not Applicable	Not Applicable
Regular Assessments in High School	Not Applicable	Not Applicable	Not Applicable
Alternate Assessments Based on Grade-Level Achievement Standards (if applicable)	Not Applicable	Not Applicable	Not Applicable
Alternate Assessments Based on Modified Achievement Standards (if applicable)	Not Applicable	Not Applicable	Not Applicable
Alternate Assessments Based on Alternate Achievement Standards	Not Applicable	Not Applicable	Not Applicable

If the responses above do not fully describe revisions or changes to your State's academic achievement standards, describe the revisions or changes below.

The response is limited to 1,000 characters

The BIE relies upon state assessments for its accountability system (25 CFR § 30.104(a)).

1.1.3 Grants for State Assessments and Related Activities

1.1.3.1 Percentages of Funds Used for Standards and Assessment Development and Other Purposes

For funds your State had available under *ESEA* section 6111 (Grants for State Assessments and Related Activities) during SY 2011-12, estimate what percentage of the funds your State used for the following (round to the nearest ten percent).

Purpose	Percentage (rounded to the nearest ten percent)
To pay the costs of the development of the State assessments and standards required by section 1111(b)	0.00
To administer assessments required by section 1111(b) or to carry out other activities described in section 6111 and other activities related to ensuring that the State's schools and local educational agencies are held accountable for the results	100.00
Comments: The response is limited to 4,000 characters. The BIE uses its 6111 funding for activities related to state academic content standards and assessments, professional development relative to academic content standards, for the procurement of additional assessments to measure student achievement relative to the standards prior to taking the state standards-based assessment, and for the purpose of assisting tribes in the development of alternate systems of AYP.	

1.1.3.2 Uses of Funds for Purposes Other than Standards and Assessment Development

For funds your State had available under *ESEA* section 6111 (Grants for State Assessments and Related Activities) during SY 2011-12 that were used for purposes other than the costs of the development of the State assessments and standards required by section 1111(b), for what purposes did your State use the funds? (Enter "yes" for all that apply and "no" for all that do not apply).

Purpose	Used for Purpose (yes/no)
Administering assessments required by section 1111(b)	No
Developing challenging State academic content and student academic achievement standards and aligned assessments in academic subjects for which standards and assessments are not required by section 1111 (b)	Yes
Developing or improving assessments of English language proficiency necessary to comply with section 1111(b)(7)	No
Ensuring the continued validity and reliability of State assessments, and/or refining State assessments to ensure their continued alignment with the State's academic content standards and to improve the alignment of curricula and instructional materials	No
Developing multiple measures to increase the reliability and validity of State assessment systems	Yes
Strengthening the capacity of local educational agencies and schools to provide all students the opportunity to increase educational achievement, including carrying out professional development activities aligned with State student academic achievement standards and assessments	Yes
Expanding the range of accommodations available to students with limited English proficiency and students with disabilities (<i>IDEA</i>) to improve the rates of inclusion of such students, including professional development activities aligned with State academic achievement standards and assessments	No
Improving the dissemination of information on student achievement and school performance to parents and the community, including the development of information and reporting systems designed to identify best educational practices based on scientifically based research or to assist in linking records of student achievement, length of enrollment, and graduation over time	Yes
Other	Yes
Comments: The response is limited to 4,000 characters. To the degree that funds are expending relative to academic content standards and assessment, the BIE provides services around professional development, alternate definition of AYP, and assistance to schools to better understand their students' achievement patterns where testing is concerned.	

1.2 PARTICIPATION IN STATE ASSESSMENTS

This section collects data on the participation of students in the State assessments.

Note: States are not required to report these data by the seven (7) racial/ethnic groups; instead, they are required to report these data by the major racial and ethnic groups that are identified in their Accountability Workbooks. The charts below display racial/ethnic data that has been mapped back from the major racial and ethnic groups identified in their workbooks, to the 7 racial/ethnic groups to allow for the examination of data across states.

1.2.1 Participation of all Students in Mathematics Assessment

In the table below, provide the number of students enrolled during the State's testing window for mathematics assessments required under Section 1111(b)(3) of ESEA (regardless of whether the students were present for a full academic year) and the number of students who participated in the mathematics assessment in accordance with ESEA. The percentage of students who were tested for mathematics will be calculated automatically.

The student group "children with disabilities (IDEA)" includes children who participated in the regular assessments with or without accommodations and alternate assessments. Do not include former students with disabilities (IDEA). Do not include students only covered under Section 504 of the Rehabilitation Act of 1973.

The student group "limited English proficient (LEP) students" includes recently arrived students who have attended schools in the United States for fewer than 12 months. Do not include former LEP students.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students	S	20,439	>=99
American Indian or Alaska Native	S	20,439	>=99
Asian			
Black or African American			
Hispanic or Latino			
Native Hawaiian or other Pacific Islander			
White			
Two or more races			
Children with disabilities (<i>IDEA</i>)	S	3,382	>=99
Limited English proficient (LEP) students	S	8,225	>=99
Economically disadvantaged students	S	20,439	>=99
Migratory students			
Male	S	10,253	>=99
Female	S	10,186	>=99
Comments: The response is limited to 4,000 characters. The BIE is required under 25 CFR § 30.104(a) to use the academic content standards, assessments, and accountability systems developed by the state where the BIE-funded school is located for accountability purposes.			

1.2.2 Participation of Students with Disabilities in Mathematics Assessment

In the table below, provide the number of children with disabilities (*IDEA*) participating during the State's testing window in mathematics assessments required under Section 1111(b)(3) of *ESEA* (regardless of whether the children were present for a full academic year) by the type of assessment. The percentage of children with disabilities (*IDEA*) who participated in the mathematics assessment for each assessment option will be calculated automatically. The total number of children with disabilities (*IDEA*) participating will also be calculated automatically.

The data provided below should include mathematics participation data from all students with disabilities as defined under the *Individuals with Disabilities Education Act(IDEA)*. Do not include former students with disabilities (*IDEA*). Do not include students only covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (<i>IDEA</i>) Participating	Percentage of Children with Disabilities (<i>IDEA</i>) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	2,339	69.16
Regular Assessment with Accommodations	793	23.45
Alternate Assessment Based on Grade-Level Achievement Standards	60	1.77
Alternate Assessment Based on Modified Achievement Standards	80	2.37
Alternate Assessment Based on Alternate Achievement Standards	110	3.25
Total	3,382	////////////////////

Comments: The response is limited to 4,000 characters. The BIE is required under 25 CFR § 30.104(a) to use the academic content standards, assessments, and accountability systems developed by the state where the BIE-funded school is located for accountability purposes.

1.2.3 Participation of All Students in the Reading/Language Arts Assessment

This section is similar to 1.2.1 and collects data on the State's reading/language arts assessment.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students	S	20,393	>=99
American Indian or Alaska Native	S	20,393	>=99
Asian			
Black or African American			
Hispanic or Latino			
Native Hawaiian or other Pacific Islander			
White			
Two or more races			
Children with disabilities (<i>IDEA</i>)	S	3,384	>=99
Limited English proficient (LEP) students	S	8,180	>=99
Economically disadvantaged students	S	20,393	>=99
Migratory students			
Male	S	10,224	>=99
Female	S	10,169	>=99
Comments: The response is limited to 4,000 characters. Please see comment on 1.2.1.			

1.2.3.1 Recently Arrived LEP Students Taking ELP Assessments in Lieu of Reading/Language Arts Assessment

In the table below, provide the number of recently arrived LEP students (as defined in 34 C.F.R. Part 200.6(b)(4)) included in the participation counts in 1.2.3 and 1.3.2.1 who took an assessment of English language proficiency in lieu of the State's reading/language arts assessment, as permitted under 34 C.F.R. Part 200.20.

Recently arrived LEP students who took an assessment of English language proficiency in lieu of the State's reading/language arts assessment	
--	--

1.2.4 Participation of Students with Disabilities in Reading/Language Arts Assessment

This section is similar to 1.2.2 and collects data on the State's reading/language arts assessment.

The data provided should include reading/language arts participation data from all students with disabilities as defined under the *Individuals with Disabilities Education Act (IDEA)*. Do not include former students with disabilities (*IDEA*). Do not include students only covered under Section 504 of the Rehabilitation Act of 1973.

Note: For this question only, report on students with disabilities (*IDEA*) who are also LEP students in the U.S. less than 12 months who took the ELP in lieu of the statewide reading/language arts assessment.

Type of Assessment	# Children with Disabilities (<i>IDEA</i>) Participating	Percentage of Children with Disabilities (<i>IDEA</i>) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	2,372	70.09
Regular Assessment with Accommodations	751	22.19
Alternate Assessment Based on Grade-Level Achievement Standards	71	2.10
Alternate Assessment Based on Modified Achievement Standards	93	2.75
Alternate Assessment Based on Alternate Achievement Standards	97	2.87
LEP < 12 months, took ELP		
Total	3,384	////////////////////
Comments: The response is limited to 4,000 characters.		

1.2.5 Participation of All Students in the Science Assessment

This section is similar to 1.2.1 and collects data on the State's science assessment.

Student Group	# Students Enrolled	# Students Participating	Percentage of Students Participating
All students	S	7,203	>=99
American Indian or Alaska Native	S	7,203	>=99
Asian			
Black or African American			
Hispanic or Latino			
Native Hawaiian or other Pacific Islander			
White			
Two or more races			
Children with disabilities (IDEA)	S	1,213	>=99
Limited English proficient (LEP) students	S	2,675	>=99
Economically disadvantaged students	S	7,203	>=99
Migratory students			
Male	S	3,502	>=99
Female	S	3,701	>=99
Comments: The response is limited to 4,000 characters. Please see comment on 1.2.1.			

Source – Manual input by the SEA using the online collection tool.

1.2.6 Participation of Students with Disabilities in Science Assessment

This section is similar to 1.2.2 and collects data on the State's science assessment.

The data provided should include science participation results from all students with disabilities as defined under the *Individuals with Disabilities Education Act (IDEA)*. Do not include former students with disabilities (IDEA). Do not include students only covered under Section 504 of the Rehabilitation Act of 1973.

Type of Assessment	# Children with Disabilities (IDEA) Participating	Percentage of Children with Disabilities (IDEA) Participating, Who Took the Specified Assessment
Regular Assessment without Accommodations	879	72.46
Regular Assessment with Accommodations	237	19.54
Alternate Assessment Based on Grade-Level Achievement Standards	36	2.97
Alternate Assessment Based on Modified Achievement Standards	20	1.65
Alternate Assessment Based on Alternate Achievement Standards	41	3.38
Total	1,213	////////////////////////////////////
Comments: The response is limited to 4,000 characters.		

1.3 STUDENT ACADEMIC ACHIEVEMENT

This section collects data on student academic achievement on the State assessments.

Note: States are not required to report these data by the seven (7) racial/ethnic groups; instead, they are required to report these data by the major racial and ethnic groups that are identified in their Accountability Workbooks. The charts below display racial/ethnic data that has been mapped back from the major racial and ethnic groups identified in their workbooks, to the 7 racial/ethnic groups to allow for the examination of data across states.

1.3.1 Student Academic Achievement in Mathematics

In the format of the table below, provide the number of students who received a valid score on the State assessment(s) in mathematics implemented to meet the requirements of Section 1111(b)(3) of *ESEA* (regardless of whether the students were present for a full academic year) and for whom a proficiency level was assigned, and the number of these students who scored at or above proficient, in grades 3 through 8 and high school. The percentage of students who scored at or above proficient is calculated automatically.

The student group "children with disabilities (*IDEA*)" includes children who participated, and for whom a proficiency level was assigned in the regular assessments with or without accommodations and alternate assessments. Do not include former students with disabilities (*IDEA*). The student group "limited English proficient (LEP) students" does include recently arrived students who have attended schools in the United States for fewer than 12 months. Do not include former LEP students.

1.3.1.1 Student Academic Achievement in Mathematics - Grade 3

Grade 3	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient
All students	3,312	S	45
American Indian or Alaska Native	3,312	S	45
Asian			
Black or African American			
Hispanic or Latino			
Native Hawaiian or other Pacific Islander			
White			
Two or more races			
Children with disabilities (<i>IDEA</i>)	530	S	25
Limited English proficient (LEP) students	1,377	S	42
Economically disadvantaged students	3,312	S	45
Migratory students			
Male	1,626	S	44
Female	1,686	S	45
<p>Comments: The response is limited to 4,000 characters. The BIE is required under 25 CFR § 30.104(a) to use the academic content standards, assessments, and accountability systems developed by the state where the BIE-funded school is located for accountability purposes.</p> <p>It is very important to note that all assessment results are reported into EdFacts in aggregate. This satisfied ESEA reporting requirements. However, it is not statistically appropriate to treat all test scores as equivalent across the states where BIE schools are located. Differences in standards and assessments preclude the meaningful comparison of achievement data across the BIE.</p> <p>Trends that may be appropriately observed are those in aggregate at the bureau level over time. These, too, are affected by changes states may have made to their assessment systems, and may not be considered substantially reliable where statistical inferences are concerned.</p>			

1.3.2.1 Student Academic Achievement in Reading/Language Arts - Grade 3

Grade 3	# Students Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Students Scoring at or Above Proficient	Percentage of Students Scoring at or Above Proficient

1.4 SCHOOL AND DISTRICT ACCOUNTABILITY

This section collects data on the Adequate Yearly Progress (AYP) status of schools and districts.

1.4.1 All Schools and Districts Accountability

In the table below, provide the total number of public elementary and secondary schools and districts in the State, including charters, and the total number of those schools and districts that made AYP based on data for SY 2011-12. The percentage that made AYP will be calculated automatically.

Entity	Total #	Total # that Made AYP in SY 2011-12	Percentage that Made AYP in SY 2011-12
Schools	173	45	26.01
Districts	173	45	26.01

Comments: The response is limited to 4,000 characters. The BIE's accountability system is reliant upon the accountability systems of states pursuant to 25 CFR § 30.104(a). The opportunity for flexibility in implementation of the Elementary and Secondary Education Act offered by the U.S. Department of Education rewarded the creativity of states in the area of accountability. Whereas AYP accountability systems were relatively easy for the BIE to implement because little variation of AYP systems from state to state was observed, states' flexibility systems are drastically more complex, and the BIE is not in a position to replicate the flexibility systems with fidelity because of their complexity. Because the State of New Mexico was granted the opportunity to implement its accountability system retroactively to the beginning of SY 2011-12, having submitted in the first window for ESEA Flexibility, the BIE experiences difficulty in issuing AYP determinations in accordance with 25 CFR § 30.104(a) for multiple reasons. The BIE is currently working with the U.S. Department of Education to identify a mutually acceptable means of calculating AYP and issuing determinations under a mix of AYP systems and flexibility systems for accountability.

1.4.2 Title I School Accountability

In the table below, provide the total number of public Title I schools by type and the total number of those schools that made AYP based on data for SY 2011-12. Include only public Title I schools. Do not include Title I programs operated by local educational agencies in private schools. The percentage that made AYP will be calculated automatically.

Title I School	# Title I Schools	# Title I Schools that Made AYP in SY 2011-12	Percentage of Title I Schools that Made AYP in SY 2011-12
All Title I schools	173	45	26.01
Schoolwide (SWP) Title I schools	173	45	26.01
Targeted assistance (TAS) Title I schools			

Comments: The response is limited to 4,000 characters. The BIE's accountability system is reliant upon the accountability systems of states pursuant to 25 CFR § 30.104(a). The opportunity for flexibility in implementation of the Elementary and Secondary Education Act offered by the U.S. Department of Education rewarded the creativity of states in the area of accountability. Whereas AYP accountability systems were relatively easy for the BIE to implement because little variation of AYP systems from state to state was observed, states' flexibility systems are drastically more complex, and the BIE is not in a position to replicate the flexibility systems with fidelity because of their complexity. Because the State of New Mexico was granted the opportunity to implement its accountability system retroactively to the beginning of SY 2011-12, having submitted in the first window for ESEA Flexibility, the BIE experiences difficulty in issuing AYP determinations in accordance with 25 CFR § 30.104(a) for multiple reasons. The BIE is currently working with the U.S. Department of Education to identify a mutually acceptable means of calculating AYP and issuing determinations under a mix of AYP systems and flexibility systems for accountability.

1.4.3 Accountability of Districts That Received Title I Funds

In the table below, provide the total number of districts that received Title I funds and the total number of those districts that made AYP based on data for SY 2011-12. The percentage that made AYP will be calculated automatically.

# Districts That Received Title I Funds in SY 2011-12	# Districts That Received Title I Funds and Made AYP in SY 2011-12	Percentage of Districts That Received Title I Funds and Made AYP in SY 2011-12
Comments: The response is limited to 4,000 characters. All BIE-funded schools receive Title I Schoolwide Program funds. Please see the comments for 1.4.2.		

1.4.4.3 Corrective Action

In the table below, for schools in corrective action, provide the number of schools for which the listed corrective actions under *ESEA* were implemented in SY 2011-12 (based on SY 2010-11 assessments under Section 1111 of *ESEA*).

Corrective Action	# of Title I Schools in Corrective Action in Which the Corrective Action was Implemented in SY 2011-12
Required implementation of a new research-based curriculum or instructional program	21
Extension of the school year or school day	12
Replacement of staff members relevant to the school's low performance	
Significant decrease in management authority at the school level	
Replacement of the principal	
Restructuring the internal organization of the school	
Appointment of an outside expert to advise the school	
<p>Comments: The response is limited to 4,000 characters. The BIE's accountability system is reliant upon the accountability systems of states pursuant to 25 CFR § 30.104(a). The opportunity for flexibility in implementation of the Elementary and Secondary Education Act offered by the U.S. Department of Education rewarded the creativity of states in the area of accountability. Whereas AYP accountability systems were relatively easy for the BIE to implement because little variation of AYP systems from state to state was observed, states' flexibility systems are drastically more complex, and the BIE is not in a position to replicate the flexibility systems with fidelity because of their complexity. Because the State of New Mexico was granted the opportunity to implement its accountability system retroactively to the beginning of SY 2011-12, having submitted in the first window for ESEA Flexibility, the BIE experiences difficulty in issuing AYP determinations in accordance with 25 CFR § 30.104(a) for multiple reasons. The BIE is currently working with the U.S. Department of Education to identify a mutually acceptable means of calculating AYP and issuing determinations under a mix of AYP systems and flexibility systems for accountability.</p>	

1.4.4.4 Restructuring – Year 2

In the table below, for schools in restructuring – year 2 (implementation year), provide the number of schools for which the listed restructuring actions under *ESEA* were implemented in SY 2011-12 (based on SY 2010-11 assessments under Section 1111 of *ESEA*).

Restructuring Action	# of Title I Schools in Restructuring in Which Restructuring Action Is Being Implemented
Replacement of all or most of the school staff (which may include the principal)	5
Reopening the school as a public charter school	
Entering into a contract with a private entity to operate the school	
Takeover the school by the State	
Other major restructuring of the school governance	98
<p>Comments: The response is limited to 4,000 characters. Most schools in Restructuring engage the Turnaround model.</p>	

In the space below, list specifically the "other major restructuring of the school governance" action(s) that were implemented.

The response is limited to 8,000 characters.

The typical courses of action engaged by BIE schools are based on the Native Star (IndiStar) performance improvement indicators. As a result, choices by individual schools will vary depending on the needs of the school. The BIE has partnered with the Center on Innovation and Improvement to maximize schools' understanding and ability to address academic performance improvement.

1.4.5.2 Actions Taken for Districts That Received Title I Funds and Were Identified for Improvement

In the space below, briefly describe the measures being taken to address the achievement problems of districts identified for improvement or corrective action. Include a discussion of the technical assistance provided by the State (e.g., the number of districts served, the nature and duration of assistance provided, etc.).

The response is limited to 8,000 characters.

The BIE has developed a Statewide System of Support (SSOS) that has embraced the Center on Innovation and Improvement's (CII) "Mega System." The use of CII's systematic approach to continuous school improvement emphasizes use of data and sound research to enable school teams, to monitor its parts and subsystems and test them against student learning outcomes. The teams identify and assess indicators of effective practice within their system and modify and add to these indicators as they find success. The teams fine-tune the subsystems so that the school itself, the mega system, performs ever more effectively. For schools identified for improvement or corrective action organization and orientation is toward specific corrective or restructuring activities calculated to turn the school around. The mega system approach is supplemented through the use of an online tool (Native Star) to organize teams and promote continuous review and refinement of school improvement plans and processes. As a part of the SOSS, ELO level staff members assure that all school teams are focused on specific tasks for school improvement through web-based coaching provided to each school on a regular and ongoing basis.

Regular and ongoing feedback from the ELO level staff offers continuous guidance to school teams to help them focus on developing tasks designed to provide quick turn-around in school performance as part of their school improvement plan. The web-based Native Star tool allows State level SOSS members to continuously review trends, and progress of schools by remote access that will assist in continuous monitoring and identification of professional development needs across the BIE system. Native Star also allows for follow-up with the school to ensure continued progress on the school improvement plan and its accompanying tasks.

The online system, regular training, and ability for schools and SSOS members to interact regularly (both formally and informally) to encourage an environment of candor that allows team members to speak frankly about their school's situation and how best to improve it. In SY 2009-10, the Native Star system was introduced to SIG schools. In SY2010-11, BIE operated schools and a select group of pilot schools began using the Native Star system. In 2011-12, all BIE-funded schools including grant/contract schools are using Native Star on a much broader scale to provide continuous improvement through organized activities to as many BIE-funded schools as will participate.

1.4.5.3 Corrective Action

In the table below, for districts in corrective action, provide the number of districts in corrective action in which the listed corrective actions under *ESEA* were implemented in SY 2011-12 (based on SY 2010-11 assessments under Section 1111 of *ESEA*).

Corrective Action	# of Districts receiving Title I funds in Corrective Action in Which Corrective Action was Implemented in SY 2011-12
Implemented a new curriculum based on State standards	16
Authorized students to transfer from district schools to higher performing schools in a neighboring district	0
Deferred programmatic funds or reduced administrative funds	0
Replaced district personnel who are relevant to the failure to make AYP	11
Removed one or more schools from the jurisdiction of the district	0
Appointed a receiver or trustee to administer the affairs of the district	0
Restructured the district	0
Abolished the district (list the number of districts abolished between the end of SY 2010-11 and beginning of SY 2011-12 as a corrective action)	0
Comments: The response is limited to 4,000 characters. BIE schools are schools of choice public choice as conceived under NCLB does not apply to BIE-funded schools.	

1.4.7 Appeal of AYP and Identification Determinations

In the table below, provide the number of districts and schools that appealed their AYP designations based on SY 2011-12 data and the results of those appeals.

Entity	# Appealed Their AYP Designations	# Appeals Resulted in a Change in the AYP Designation
Districts	0	0
Schools	0	0
Comments: The response is limited to 4,000 characters.		

Date (MM/DD/YY) that processing appeals based on SY 2011-12 data was complete	
---	--

1.4.8 Sections 1003(a) and (g) School Improvement Funds

In the section below, "schools in improvement" means Title I schools identified for improvement, corrective action, or restructuring under Section 1116 of *ESEA* for SY 2011-12.

1.4.8.5.1 Section 1003(a) State Reservations

In the space provided, enter the percentage of the FY 2011 (SY 2011-12) Title I, Part A allocation that the SEA reserved in accordance with Section 1003(a) of *ESEA* and §200.100(a) of ED's regulations governing the reservation of funds for school improvement under Section 1003(a) of *ESEA*: 4.50%

Comments: The response is limited to 4,000 characters. The BIE reserves 4.5% of the amount according to the Memorandum of Understanding between the BIE and the US Department of Education.

There were four schools identified as Tier I schools under SIG and they received funds under Title 1003 (g) funding.

There were ten schools identified as Tier III schools and they received monies form Title 1003 (a) for approximately \$1,000,000. Tier III schools also received Title funds under 1003 (g) and non-Title funds under Enhancement funding.

1.4.8.5.2 Section 1003(a) and 1003(g) Allocations to LEAs and Schools

For SY 2011-12 there is no need to upload a spreadsheet to answer this question in the CSPR.

1.4.8.5.2 will be answered automatically using data submitted to ED Facts in Data Group 694, School improvement funds allocation table, from File Specification N/X132. You may review data submitted to ED Facts using the report named "Section 1003(a) and 1003(g) Allocations to LEAs and Schools- CSPR 1.4.8.5.2 (EDEN012)" from the ED Facts Reporting System.

1.4.8.5.3 Use of Section 1003(g)(8) Funds for Evaluation and Technical Assistance

Section 1003(g)(8) of *ESEA* allows States to reserve up to five percent of Section 1003(g) funds for administration and to meet the evaluation and technical assistance requirements for this program. In the space below, identify and describe the specific Section 1003(g) evaluation and technical assistance activities that your State conducted during SY 2011-12.

This response is limited to 8,000 characters.

As part of the grant application to the Department of Education the BIE set aside five percent of funds for a national education organization to assist with monitoring and technical assistance for the SIG schools that received grants. After an RFP and review of applicants, (CORE) Consortium On Reading Excellence was selected from a group of organizations that bid on the project. As written in the scope of work for its performance plan

CORE provides expert on-site consultation, technical assistance, and professional development related to each school's reading and math programs and implementation of the curriculum and or programs that are being implemented at the school.

Further, CORE is assisted by the BIE's Academic Achievement Program staff as well as Supplemental program staff in monitoring the schools SIG implementation and school improvement progress.

Site visits are scheduled and coordinated with education line offices, school leadership teams, and when possible be attended by school board members. The contractor (CORE) develops an agenda with input and concurrence from the school administrator for each school site visit and will notify and provide a copy of the agenda to The Education Line Officer, Associate Deputy Director and the DPA point of contact.

CORE provides a summary of site visits for each school within ten days of the site visit completion with supporting documentation such as DIBELS, AIMS Web and NWEA, and other data to support the contractor's services and recommendations.

CORE has agreed to:

- Observe instructional practices with school leadership utilizing a standard instrument to document observations and debrief with reading and or math coaches, principal, teachers after observations on strengths and areas of needed improvement.
- Provide a report for each site visit that will be in a standard format approved by the BIE.
- Assist with planning of delivery of a three tier instructional model and model explicit instruction for teachers who need that level of support. CORE has agreed to work closely with teachers, coaches, and administrators to develop, implement, and review scheduling at the school that will support the implementation of the curriculum.
- Provide training on interpreting data and using data to improve implementation of the program and instruction at the school. This shall include interpretation of DIBELS, AIMS Web, NWEA and results from state assessments data to the extent that teachers and administrators are able to utilize the data on a weekly basis to assess the needs of each student, group students according to need reflected in the data and to provide differentiated instruction to meet the unique needs of the student.
- Work with school based reading/math coaches to target areas of school wide professional development and provide mini workshops or in service presentations on implementing the reading and or math program with fidelity depending on the needs of the school staff.
- Meet with the school reading leadership team to develop and review action plans for improving the school's reading program.
- Provide documentation of services directly the DPA on a prescribed format for billing and payment purposes.

1.4.8.6 Actions Taken for Title I Schools Identified for Improvement Supported by Funds Other than Those of Section 1003(a) and 1003(g).

In the space below, describe actions (if any) taken by your State in SY 2011-12 that were supported by **funds other than Section 1003(a) and 1003(g) funds** to address the achievement problems of schools identified for improvement, corrective action, or restructuring under Section 1116 of *ESEA*.

The response is limited to 8,000 characters.

Seventy three schools are supported through "Education Enhancement" funds that are identified as BIE Reads, Math Counts, and FOCUS. These monies are appropriated through the BIE for schools that are in restructuring, Corrective Action, or School Improvement. Schools are awarded budgets of \$150,000 - \$400,000 to enhance school improvement.

These enhancement funded schools, as part of Statewide System of Support, are provided the necessary assistance to establish scientifically research-based reading and math programs for students. The BIE also focuses on providing significantly increased professional development to ensure that all teachers, including special education and teachers for ELL, have the skills they need to teach these programs effectively. Additionally, the program provides assistance to schools to prepare classroom teachers to effectively screen and identify those students most likely to experience difficulties in learning to immediately plan and deliver appropriate Response to Intervention.

This component of support focuses on reading and math best practice will support proven methods of reading and math instruction in classrooms. The program provides assistance to schools in selecting effective instructional materials, programs, learning systems and strategies to implement methods that have been proven to teach reading. BIE Reads and Math Counts as well as the FOCUS program also provides assistance for the selection and administration of screening, diagnostic and classroom-based instructional assessments with proven validity and reliability, in order to measure where students are and to monitor their progress regularly. Taken together, the complementary standards based programs, practices and tools required gives teachers the skills and support they need to help children become proficient in reading and math at each grade level.

1.4.9 Public School Choice and Supplemental Educational Services

This section collects data on public school choice and supplemental educational services.

1.4.9.1 Public School Choice

This section collects data on public school choice. FAQs related to the public school choice provisions are at the end of this section.

1.4.9.1.2 Public School Choice – Students

In the table below, provide the number of students who were eligible for public school choice, the number of eligible students who applied to transfer, and the number who transferred under the provisions for public school choice under Section 1116 of ESEA. The number of students who were eligible for public school choice should include:

1. All students currently enrolled in a school Title I identified for improvement, corrective action or restructuring.
2. All students who transferred in the current school year under the public school choice provisions of Section 1116, and
3. All students who previously transferred under the public school choice provisions of Section 1116 and are continuing to transfer for the current school year under Section 1116.

The number of students who applied to transfer should include:

1. All students who applied to transfer in the current school year but did not or were unable to transfer.
2. All students who transferred in the current school year under the public school choice provisions of Section 1116; and
3. All students who previously transferred under the public school choice provisions of Section 1116 and are continuing to transfer for the current school year under Section 1116.

For any of the respective student counts, States should indicate in the Comment section if the count does not include any of the categories of students discussed above.

Public School Choice	# Students
Eligible for public school choice	
Applied to transfer	
Transferred to another school under the Title I public school choice provisions	
Comments: The response is limited to 4,000 characters. The BIE is exempt from school choice provisions under ESEA (2 CFR § 30.120).	

1.4.9.1.3 Funds Spent on Public School Choice

In the table below, provide the total dollar amount spent by LEAs on transportation for public school choice under Section 1116 of *ESEA*.

Transportation for Public School Choice	Amount
Dollars spent by LEAs on transportation for public school choice	\$

1.4.9.1.4 Availability of Public School Choice Options

In the table below provide the number of LEAs in your State that are unable to provide public school choice to eligible students due to any of the following reasons:

1. All schools at a grade level in the LEA are in school improvement, corrective action, or restructuring.
2. LEA only has a single school at the grade level of the school at which students are eligible for public school choice.
3. LEA's schools are so remote from one another that choice is impracticable.

Unable to Provide Public School Choice	# LEAs
LEAs Unable to Provide Public School Choice	173

FAQs about public school choice:

- a. How should States report data on Title I public school choice for those LEAs that have open enrollment and other choice programs? For those LEAs that implement open enrollment or other school choice programs in addition to public school choice under Section 1116 of *ESEA*, the State may consider a student as having applied to transfer if the student meets the following:
 - o Has a "home" or "neighborhood" school (to which the student would have been assigned, in the absence of a school choice program) that receives Title I funds and has been identified, under the statute, as in need of improvement, corrective action, or restructuring; and
 - o Has elected to enroll, at some point since July 1, 2002 (the effective date of the Title I choice provisions), and after the home school has been identified as in need of improvement, in a school that has not been so identified and is attending that school; and
 - o Is using district transportation services to attend such a school.

In addition, the State may consider costs for transporting a student meeting the above conditions towards the funds spent by an LEA on transportation for public school choice if the student is using district transportation services to attend the non-identified school.

- b. How should States report on public school choice for those LEAs that are not able to offer public school choice? In the count of LEAs that are not able to offer public school choice (for any of the reasons specified in 1.4.9.1.4), States should include those LEAs that are unable to offer public school choice at one or more grade levels. For instance, if an LEA is able to provide public school choice to eligible students at the elementary level but not at the secondary level, the State should include the LEA in the count. States should also include LEAs that are not able to provide public school choice at all (i.e., at any grade level). States should provide the reason(s) why public school choice was not possible in these LEAs at the grade level(s) in the Comment section. In addition, States may also include in the Comment section a separate count just of LEAs that are not able to offer public school choice at any grade level.

For LEAs that are not able to offer public school choice at one or more grade levels, States should count as eligible for public school choice (in 1.4.9.1.2) all students who attend identified Title I schools regardless of whether the LEA is able to offer the students public school choice.

Comments: The response is limited to 4,000 characters. The BIE is exempt from school choice provisions under ESEA (2 CFR § 30.120).

³ Adapted from OESE/OII policy letter of August 2004. The policy letter may be found on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/stateletters/choice/choice081804.html>.

1.4.9.2 Supplemental Educational Services

This section collects data on supplemental educational services.

1.4.9.2.2 Supplemental Educational Services – Students

In the table below, provide the number of students who were eligible for, who applied for, and who received supplemental educational services under Section 1116 of *ESEA*.

Supplemental Educational Services	# Students
Eligible for supplemental educational services	
Applied for supplemental educational services	
Received supplemental educational services	
Comments: The response is limited to 4,000 characters. The BIE complied with ESEA (Pub.L. 10710 § 1116(g)). The data collections of the BIE that serve as the basis for this specific reporting element are still under collection, approximately 90 days behind schedule. The CSPR reopen period will provide the required information.	

1.4.9.2.3 Funds Spent on Supplemental Educational Services

In the table below, provide the total dollar amount spent by LEAs on supplemental educational services under Section 1116 of *ESEA*.

Spending on Supplemental Educational Services	Amount
Dollars spent by LEAs on supplemental educational services	\$
Comments: The response is limited to 4,000 characters. The data collections of the BIE that serve as the basis for this specific reporting element are still under collection, approximately 90 days behind schedule. The CSPR reopen period will provide the required information.	

1.5 TEACHER QUALITY

This section collects data on "highly qualified" teachers as the term is defined in Section 9101(23) of ESEA.

1.5.1 Core Academic Classes Taught by Teachers Who Are Highly Qualified

In the table below, provide the number of core academic classes for the grade levels listed, the number of those core academic classes taught by teachers who are highly qualified, and the number taught by teachers who are not highly qualified. The percentage of core academic classes taught by teachers who are highly qualified and the percentage taught by teachers who are not highly qualified will be calculated automatically. Below the table are FAQs about these data.

	Number of Core Academic Classes (Total)	Number of Core Academic Classes Taught by Teachers Who Are Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are Highly Qualified	Number of Core Academic Classes Taught by Teachers Who Are <u>NOT</u> Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are <u>NOT</u> Highly Qualified
All classes	6,486	6,334	97.66	152	2.34
All elementary classes	3,767	3,671	97.45	96	2.55
All secondary classes	2,719	2,663	97.94	56	2.06

Do the data in Table 1.5.1 above include classes taught by special education teachers who provide direct instruction core academic subjects?

Data table includes classes taught by special education teachers who provide direct instruction core academic subjects.	Yes
---	-----

If the answer above is no, please explain below. The response is limited to 8,000 characters.

The final BIE numbers show a slight decline in core classes being taught. This is likely due to improved training on reporting of these data. The subject of Highly Qualified Teachers and Core Academic Classes is difficult for reporting purposes as what constitutes a "Core Academic Class" varies by the state in which the school is located.
--

Does the State count elementary classes so that a full-day self-contained classroom equals one class, or does the State use a departmentalized approach where a classroom is counted multiple times, once for each subject taught?

The response is limited to 8,000 characters.

The BIE counts full-day self-containing classrooms as one teacher and one course for reporting purposes.
--

FAQs about highly qualified teachers and core academic subjects:

- a. *What are the core academic subjects?* English, reading/language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography [Title IX, Section 9101(11)]. While the statute includes the arts in the core academic subjects, it does not specify which of the arts are core academic subjects; therefore, States must make this determination.
- b. *How is a teacher defined?* An individual who provides instruction in the core academic areas to kindergarten, grades 1 through 12, or ungraded classes, or individuals who teach in an environment other than a classroom setting (and who maintain daily student attendance records) [from NCES, CCD, 2001-02]
- c. *How is a class defined?* A class is a setting in which organized instruction of core academic course content is provided to one or more students (including cross-age groupings) for a given period of time. (A course may be offered to more than one class.) Instruction, provided by one or more teachers or other staff members, may be delivered in person or via a different medium. Classes that share space should be considered as separate classes if they function as separate units for more than 50% of the time [from NCES Non-fiscal Data Handbook for Early Childhood, Elementary, and Secondary Education, 2003].
- d. *Should 6th-, 7th-, and 8th-grade classes be reported in the elementary or the secondary category?* States are responsible for determining whether the content taught at the middle school level meets the competency requirements for elementary or secondary instruction. Report classes in grade 6 through 8 consistent with how teachers have been classified to determine their highly qualified status, regardless of whether their schools are configured as elementary or middle schools.
- e. *How should States count teachers (including specialists or resource teachers) in elementary classes?* States that count self-contained classrooms as one class should, to avoid over-representation, also count subject-area specialists (e.g., mathematics or music teachers) or resource teachers as teaching one class. On the other hand, States using a departmentalized approach to instruction where a self-contained classroom is counted multiple times (once for each subject taught) should also count subject-area specialists or resource teachers as teaching multiple classes.
- f. *How should States count teachers in self-contained multiple-subject secondary classes?* Each core academic subject taught for which students are receiving credit toward graduation should be counted in the numerator and the denominator. For example, if the same teacher teaches English, calculus, history, and science in a self-contained classroom, count these as four classes in the denominator. If the teacher is Highly Qualified to teach English and history, he/she would be counted as Highly Qualified in two of the four subjects in the numerator.
- g. *What is the reporting period?* The reporting period is the school year. The count of classes must include all semesters, quarters, or terms of the school year. For example, if core academic classes are held in summer sessions, those classes should be included in the count of core academic classes. A state determines into which school year classes fall.

1.5.2 Reasons Core Academic Classes Are Taught by Teachers Who Are Not Highly Qualified

In the tables below, estimate the percentages for each of the reasons why teachers who are not highly qualified teach core academic classes. For example, if 900 elementary classes were taught by teachers who are not highly qualified, what percentage of those 900 classes falls into each of the categories listed below? If the three reasons provided at each grade level are not sufficient to explain why core academic classes at a particular grade level are taught by teachers who are not highly qualified, use the row labeled "other" and explain the additional reasons. The total of the reasons is calculated automatically for each grade level and must equal 100% at the elementary level and 100% at the secondary level.

Note: Use the numbers of core academic classes taught by teachers who are not highly qualified from 1.5.1 for both elementary school classes (1.5.2.1) and for secondary school classes (1.5.2.2) as your starting point.

Elementary School Classes	Percentage
Elementary school classes taught by certified general education teachers who did not pass a subject-knowledge test or (if eligible) have not demonstrated subject-matter competency through HOUSSE	70.95
Elementary school classes taught by certified special education teachers who did not pass a subject-knowledge test or have not demonstrated subject-matter competency through HOUSSE	1.35
Elementary school classes taught by teachers who are not fully certified (and are not in an approved alternative route program)	20.95
Other (please explain in comment box below)	6.75
Total	100.00

The response is limited to 8,000 characters.

In the BIE, requirements for teacher certification varies by state, and tribally-controlled schools may have different standards by which certifications are evaluated.

Secondary School Classes	Percentage
Secondary school classes taught by certified general education teachers who have not demonstrated subject-matter knowledge in those subjects (e.g., out-of-field teachers)	45.06
Secondary school classes taught by certified special education teachers who have not demonstrated subject-matter competency in those subjects	0.43
Secondary school classes taught by teachers who are not fully certified (and are not in an approved alternative route program)	52.36
Other (please explain in comment box below)	2.15
Total	100.00

The response is limited to 8,000 characters.

In the BIE, requirements for teacher certification varies by state, and tribally-controlled schools may have different standards by which certifications are evaluated.

1.5.3 Poverty Quartiles and Metrics Used

In the table below, provide the number of core academic classes for each of the school types listed and the number of those core academic classes taught by teachers who are highly qualified. The percentage of core academic classes taught by teachers who are highly qualified will be calculated automatically. The percentages used for high- and low-poverty schools and the poverty metric used to determine those percentages are reported in the second table. Below the tables are FAQs about these data.

NOTE: No source of classroom-level poverty data exists, so States may look at school-level data when figuring poverty quartiles. Because not all schools have traditional grade configurations, and because a school may not be counted as both an elementary and as a secondary school, States may include as elementary schools all schools that serve children in grades K through 5 (including K through 8 or K through 12 schools).

This means that for the purpose of establishing poverty quartiles, some classes in schools where both elementary and secondary classes are taught would be counted as classes in an elementary school rather than as classes in a secondary school in 1.5.3. This also means that such a 12th grade class would be in a different category in 1.5.3 than it would be in 1.5.1.

School Type	Number of Core Academic Classes (Total)	Number of Core Academic Classes Taught by Teachers Who Are Highly Qualified	Percentage of Core Academic Classes Taught by Teachers Who Are Highly Qualified
Elementary Schools			
High Poverty Elementary Schools	3,767	3,671	97.45
Low-poverty Elementary Schools			
Secondary Schools			
High Poverty secondary Schools	2,719	2,663	97.94
Low-Poverty secondary Schools			

1.5.3.1 Poverty Quartile Breaks

In the table below, provide the poverty quartiles breaks used in determining high- and low-poverty schools and the poverty metric used to determine the poverty quartiles. Below the table are FAQs about the data collected in this table.

	High-Poverty Schools (more than what %)	Low-Poverty Schools (less than what %)
Elementary schools	100.00	0.00
Poverty metric used	By Memorandum of Understanding with the U.S. Department of Education, 100% of BIE-funded schools are considered high poverty.	
Secondary schools	100.00	0.00
Poverty metric used	By Memorandum of Understanding with the U.S. Department of Education, 100% of BIE-funded schools are considered high poverty.	

FAQs on poverty quartiles and metrics used to determine poverty

- a. *What is a "high-poverty school"?* Section 1111(h)(1)(C)(viii) defines "high-poverty" schools as schools in the top quartile of poverty in the State.
- b. *What is a "low-poverty school"?* Section 1111(h)(1)(C)(viii) defines "low-poverty" schools as schools in the bottom quartile of poverty in the State.
- c. *How are the poverty quartiles determined?* Separately rank order elementary and secondary schools from highest to lowest on your percentage poverty measure. Divide the list into four equal groups. Schools in the first (highest group) are high-poverty schools. Schools in the last group (lowest group) are the low-poverty schools. Generally, States use the percentage of students who qualify for the free or reduced-price lunch program for this calculation.
- d. *Since the poverty data are collected at the school and not classroom level, how do we classify schools as either elementary or secondary for this purpose?* States may include as elementary schools all schools that serve children in grades K through 5 (including K through 8 or K through 12 schools) and would therefore include as secondary schools those that exclusively serve children in grades 6 and higher.

1.6 TITLE III AND LANGUAGE INSTRUCTIONAL PROGRAMS

This section collects annual performance and accountability data on the implementation of Title III programs.

1.6.1 Language Instruction Educational Programs

In the table below, place a check next to each type of language instruction educational programs implemented in the State, as defined in Section 3301(8), as required by Sections 3121(a)(1), 3123(b)(1), and 3123(b)(2).

Table 1.6.1 Definitions:

1. **Types of Programs** = Types of programs described in the subgrantee's local plan (as submitted to the State or as implemented) that is closest to the descriptions in http://www.ncela.gwu.edu/files/rcd/BE021775/Glossary_of_Terms.pdf.
2. **Other Language** = Name of the language of instruction, other than English, used in the programs.

Check Types of Programs	Type of Program	Other Language
<input type="checkbox"/> No	Dual language	
<input type="checkbox"/> No	Two-way immersion	
<input type="checkbox"/> No	Transitional bilingual programs	
<input type="checkbox"/> No	Developmental bilingual	
<input type="checkbox"/> No	Heritage language	
<input type="checkbox"/> No	Sheltered English instruction	////////////////////
<input type="checkbox"/> No	Structured English immersion	////////////////////
<input type="checkbox"/> No	Specially designed academic instruction delivered in English (SDAIE)	////////////////////
<input type="checkbox"/> No	Content-based ESL	////////////////////
<input type="checkbox"/> No	Pull-out ESL	////////////////////
<input type="checkbox"/> No	Other (explain in comment box below)	////////////////////

The response is limited to 8,000 characters.

The BIE does not receive Title III funds and, therefore, does not have students to report as responsive to the requirements for this category.

1.6.2 Student Demographic Data

1.6.2.1 Number of ALL LEP Students in the State

In the table below, provide the unduplicated number of ALL LEP students in the State who meet the LEP definition under Section 9101(25).

- Include newly enrolled (recent arrivals to the U.S.) and continually enrolled LEP students, whether or not they receive services in a Title III language instruction educational program.
- Do not include Former LEP students (as defined in Section 200.20(f)(2) of the Title I regulation) and monitored Former LEP students (as defined under Section 3121(a)(4) of Title III) in the ALL LEP student count in this table.

Number of ALL LEP students in the State	16,023
Comments: The response is limited to 4,000 characters. The BIE reports on LEP students, but does not receive Title III funding. Consequently, Title III reporting is omitted while some data elements for LEP are reported. Technically, the students in the BIE system are native English speakers, which is why the Limited English Proficient term is used.	

1.6.2.2 Number of LEP Students Who Received Title III Language Instruction Educational Program Services

In the table below, provide the unduplicated number of LEP students who received services in Title III language instructional education programs.

LEP Students Receiving Services	#
LEP students who received services in a Title III language instruction educational program in grades K through 12 for this reporting year.	
Comments: The response is limited to 4,000 characters. The BIE reports on LEP students, but does not receive Title III funding. Consequently, Title III reporting is omitted while some data elements for LEP are reported.	

1.6.2.3 Most Commonly Spoken Languages in the State

In the table below, provide the five most commonly spoken languages, other than English, in the State (for all LEP students, not just LEP students who received Title III Services). The top five languages should be determined by the highest number of students speaking each of the languages listed.

Language	# LEP Students

Report additional languages with significant numbers of LEP students in the comment box below.

The response is limited to 8,000 characters.

<p>The Bureau of Indian Education serves students from over 100 tribes across the United States. There are many different Native languages represented. The BIE also serves many students in their LEP program, not funded by Title III, that come from homes that do not have either proficient Native language or proficient English language. Listed below are the five most frequently used Native languages. (In order of most prevalent use.)</p> <p>Navajo Hopi Dakota Arapaho Apache</p>
--

1.6.3 Student Performance Data

This section collects data on LEP students' English language proficiency, as required by Sections 1111(h)(4)(D) and 3121 (a)(2).

1.6.3.1.1 All LEP Students Tested on the State Annual English Language Proficiency Assessment

In the table below, please provide the number of ALL LEP students tested and not tested on annual State English language proficiency (ELP) assessment (as defined in 1.6.2.1).

All LEP Testing	#
Number tested on State annual ELP assessment	11,036
Number not tested on State annual ELP assessment	
Total	11,036
<p>Comments: The response is limited to 4,000 characters. The BIE reporting on LEP assessment is uneven as schools have considerable leeway as to how they assess for LEP performance. Generally speaking, BIE schools follow their respective state's guidelines for identification of and support for LEP students. The regulations, however, for BIE schools are also sparse (25 CFR § 39.134), granting schools a wide range of options for identification. The difficulty in identifying students as LEP at this point, then, is determining students who not tested for LEP. There are a considerable range of acceptable options for why schools assess for LEP the way that they do.</p>	

1.6.3.1.2 ALL LEP Student English Language Proficiency Results

All LEP Results	#
Number attained proficiency on State annual ELP assessment	2,361
Percent attained proficiency on State annual ELP assessment	17.12
<p>Comments: The response is limited to 4,000 characters. The BIE reporting on LEP assessment is uneven as schools have considerable leeway as to how they assess for LEP performance. Schools use a wide variety of LEP assessments provided that each assessment is scientifically valid for the purpose of identifying students as LEP. No single assessment of LEP is used. Consequently, the use of a wide variety of assessments to obtain information on LEP status means that it is not possible to compare proficiency attainment in a uniform manner even though this is how the data are reported.</p>	

1.6.3.2.1 Title III LEP Students Tested on the State Annual English Language Proficiency Assessment

In the table below, provide the number of Title III LEP students tested on annual State English language proficiency assessment.

Title III LEP Testing	#
Number tested on State annual ELP assessment	
Number not tested on State annual ELP assessment	
Total	
Comments: The response is limited to 4,000 characters. The BIE does not receive Title III funding.	

In the table below, provide the number of Title III students who took the State annual ELP assessment for the first time and whose progress cannot be determined and whose results were not included in the calculation for AMAO 1. Report this number ONLY if the State did not include these students in establishing AMAO 1/ making progress target and did not include them in the calculations for AMAO 1/ making progress (# and % making progress).

Title III First Time Tested	#
Number of Title III students who took the State annual ELP assessment for the first time whose progress cannot be determined and whose results were not included in the calculation for AMAO 1.	

1.6.3.2.2 Title III LEP English Language Proficiency Results

This section collects information on Title III LEP students' development of English and attainment of English proficiency.

Table 1.6.3.2.2 Definitions:

- Annual Measureable Achievement Objectives (AMAOs)** = State targets for the number and percent of students making progress and attaining proficiency.
- Making Progress** = Number and percent of Title III LEP students that met the definition of "Making Progress" as defined by the State and submitted to ED in the Consolidated State Application (CSA), or as amended.
- Attained Proficiency** = Number and percent of Title III LEP students that met the State definition of "Attainment" of English language proficiency submitted to ED in the Consolidated State Application (CSA), or as amended.
- Results** = Number and percent of Title III LEP students that met the State definition of "Making Progress" and the number and percent that met the State definition of "Attainment" of English language proficiency.

In the table below, provide the State targets for the number and percent of students making progress and attaining English proficiency for this reporting period. Additionally, provide the results from the annual State English language proficiency assessment for Title III-served LEP students who participated in a Title III language instruction educational program in grades K through 12. If your State uses cohorts, provide us with the range of targets, (i.e., indicate the lowest target among the cohorts, e.g., 10% and the highest target among a cohort, e.g., 70%).

Title III Results	Results #	Results %	Targets #	Targets %
Making progress				
Attained proficiency				
Comments: The response is limited to 4,000 characters. The BIE does not receive Title III funds.				

1.6.3.5 Native Language Assessments

This section collects data on LEP students assessed in their native language (Section 1111(b)(6)) to be used for AYP determinations.

1.6.3.5.1 LEP Students Assessed in Native Language

In the table below, check "Yes" if the specified assessment is used for AYP purposes.

State offers the State reading/language arts content tests in the students' native language(s).	<input type="checkbox"/> No
State offers the State mathematics content tests in the students' native language(s).	<input type="checkbox"/> No
State offers the State science content tests in the students' native language(s).	<input type="checkbox"/> No
Comments: The response is limited to 4,000 characters. At this point, no assessment of LEP relative to indigenous native languages exists.	

1.6.3.5.2 Native Language of Mathematics Tests Given

In the table below, report the language(s) in which native language assessments are given for *ESEA* accountability determinations for mathematics.

Language(s)
Comments: The response is limited to 4,000 characters. Not applicable.

1.6.3.5.3 Native Language of Reading/Language Arts Tests Given

In the table below, report the language(s) in which native language assessments are given for *ESEA* accountability determinations for reading/language arts.

Language(s)
Comments: The response is limited to 4,000 characters. Not applicable.

1.6.3.5.4 Native Language of Science Tests Given

In the table below, report the language(s) in which native language assessments are given for *ESEA* accountability determinations for science.

Language(s)
Comments: The response is limited to 4,000 characters. Not applicable.

1.6.3.6 Title III Served Monitored Former LEP (MFLEP) Students

This section collects data on the performance of former LEP students as required by Sections 3121(a)(4) and 3123(b)(8).

1.6.3.6.1 Title III Served MFLEP Students by Year Monitored

In the table below, report the unduplicated count of monitored former LEP students during the two consecutive years of monitoring, which includes both MFLEP students in AYP grades and in non-AYP grades.

Monitored Former LEP (MFLEP) students include:

- Students who have transitioned out of a language instruction educational program.
- Students who are no longer receiving LEP services and who are being monitored for academic content achievement for 2 years after the transition.

Table 1.6.3.6.1 Definitions:

1. **# Year One** = Number of former LEP students in their first year of being monitored.
2. **# Year Two** = Number of former LEP students in their second year of being monitored.
3. **Total** = Number of monitored former LEP students in year one and year two. This is automatically calculated.

# Year One	# Year Two	Total
Comments: The response is limited to 4,000 characters. Not applicable.		

1.6.3.6.2 MFLEP Students Results for Mathematics

In the table below, report the number of MFLEP students who took the annual mathematics assessment. Please provide data only for those students who transitioned out of language instruction educational programs and who no longer received services under Title III in this reporting year. These students include both students who are monitored former LEP students in their first year of monitoring, and those in their second year of monitoring.

Table 1.6.3.6.2 Definitions:

1. **# Tested** = State-aggregated number of MFLEP students who were tested in mathematics in all AYP grades.
2. **# At or Above Proficient** = State-aggregated number of MFLEP students who scored at or above proficient on the State annual mathematics assessment.
3. **% Results** = Automatically calculated based on number who scored at or above proficient divided by the number tested.
4. **# Below proficient** = State-aggregated number of MFLEP students who did not score proficient on the State annual mathematics assessment. This will be automatically calculated.

# Tested	# At or Above Proficient	% Results	# Below Proficient
Comments: The response is limited to 4,000 characters. Not applicable.			

1.6.3.6.3 MFLEP Students Results for Reading/Language Arts

In the table below, report results for MFLEP students who took the annual reading/language arts assessment. Please provide data only for those students who transitioned out of language instruction educational programs and who no longer received services under Title III in this reporting year. These students include both students who are monitored former LEP students in their first year of monitoring, and those in their second year of monitoring.

Table 1.6.3.6.3 Definitions:

1. **# Tested** = State-aggregated number of MFLEP students who were tested in reading/language arts in all AYP grades.
2. **# At or Above Proficient** = State-aggregated number of MFLEP students who scored at or above proficient on the State annual reading/language arts assessment.
3. **% Results** = Automatically calculated based on number who scored at or above proficient divided by the total number tested. This will be automatically calculated.
4. **# Below proficient** = State-aggregated number MFLEP students who did not score proficient on the State annual reading/language arts assessment.

# Tested	# At or Above Proficient	% Results	# Below Proficient
Comments: The response is limited to 4,000 characters. Not applicable.			

1.6.3.6.4 MFLEP Students Results for Science

In the table below, report results for MFLEP students who took the annual science assessment. Please provide data only for those students who transitioned out of language instruction educational programs and who no longer received services under Title III in this reporting year. These students include both students who are MFLEP students in their first year of monitoring, and those in their second year of monitoring.

Table 1.6.3.6.4 Definitions:

1. **# Tested** = State-aggregated number of MFLEP students who were tested in science.
2. **# At or Above Proficient** = State-aggregated number of MFLEP students who scored at or above proficient on the State annual science assessment.
3. **% Results** = Automatically calculated based on number who scored at or above proficient divided by the total number tested. This will be automatically calculated.
4. **# Below proficient** = State-aggregated number MFLEP students who did not score proficient on the State annual science assessment.

# Tested	# At or Above Proficient	% Results	# Below Proficient
Comments: The response is limited to 4,000 characters. Not applicable.			

1.6.4 Title III Subgrantees

This section collects data on the performance of Title III subgrantees.

1.6.4.1 Title III Subgrantee Performance

In the table below, report the number of Title III subgrantees meeting the criteria described in the table. Do not leave items blank. If there are zero subgrantees who met the condition described, put a zero in the number (#) column. Do not double count subgrantees by category.

Note: Do not include number of subgrants made under Section 3114(d)(1) from funds reserved for education programs and activities for immigrant children and youth. (Report Section 3114(d)(1) subgrants in 1.6.5.1 ONLY.)

Title III Results	#
# - Total number of subgrantees for the year	
////////////////////////////////////	
# - Number of subgrantees that met all three Title III AMAOs	
# - Number of subgrantees who met AMAO 1	
# - Number of subgrantees who met AMAO 2	
# - Number of subgrantees who met AMAO 3	
////////////////////////////////////	
# - Number of subgrantees that did not meet any Title III AMAOs	
////////////////////////////////////	
# - Number of subgrantees that did not meet Title III AMAOs for two consecutive years (SYs 2010-11 and 2011-12)	
# - Number of subgrantees implementing an improvement plan in SY 2011-12 for not meeting Title III AMAOs for two consecutive years	
# - Number of subgrantees that have not met Title III AMAOs for four consecutive years (SYs 2008-09, 2009-10, 2010-11, and 2011-12)	

Provide information on how the State counted consortia members in the total number of subgrantees and in each of the numbers in table 1.6.4.1.

The response is limited to 4,000 characters.

Comments: The response is limited to 4,000 characters. Not applicable.

1.6.4.2 State Accountability

In the table below, indicate whether the State met all three Title III AMAOs.

Note: Meeting all three Title III AMAOs means meeting each State-set target for each objective: Making Progress, Attaining Proficiency, and Making AYP for the LEP subgroup. This section collects data that will be used to determine State AYP, as required under Section 6161.

State met <u>all</u> three Title III AMAOs	No Response
Comments: The response is limited to 4,000 characters. Not applicable.	

1.6.4.3 Termination of Title III Language Instruction Educational Programs

This section collects data on the termination of Title III programs or activities as required by Section 3123(b)(7).

Were any Title III language instruction educational programs <u>or</u> activities terminated for failure to reach program goals?	No Response
If yes, provide the number of language instruction educational programs <u>or</u> activities for immigrant children and youth terminated.	
Comments: The response is limited to 4,000 characters. Not applicable.	

1.6.5 Education Programs and Activities for Immigrant Students

This section collects data on education programs and activities for immigrant students.

Note: All immigrant students are not LEP students.

1.6.5.1 Immigrant Students

In the table below, report the unduplicated number of immigrant students enrolled in schools in the State and who participated in qualifying educational programs under Section 3114(d)(1).

Table 1.6.5.1 Definitions:

1. **Immigrant Students Enrolled** = Number of students who meet the definition of immigrant children and youth under Section 3301(6) and enrolled in the elementary or secondary schools in the State.
2. **Students in 3114(d)(1) Program** = Number of immigrant students who participated in programs for immigrant children and youth funded under Section 3114(d)(1), using the funds reserved for immigrant education programs/activities. This number should not include immigrant students who only receive services in Title III language instructional educational programs under Sections 3114(a) and 3115(a).
3. **3114(d)(1)Subgrants** = Number of subgrants made in the State under Section 3114(d)(1), with the funds reserved for immigrant education programs/activities. Do not include Title III Language Instruction Educational Program (LIEP) subgrants made under Sections 3114(a) and 3115(a) that serve immigrant students enrolled in them.

# Immigrant Students Enrolled	# Students in 3114(d)(1) Program	# of 3114(d)(1) Subgrants

If state reports zero (0) students in programs or zero (0) subgrants, explain in comment box below.

The response is limited to 8,000 characters.

The BIE does not serve immigrant students. Part of the verification of enrollment for funding BIE schools is based upon the student's enrollment with a federally-recognized Indian tribe.

1.6.6 Teacher Information and Professional Development

This section collects data on teachers in Title III language instruction educational programs as required under Section 3123 (b)(5).

1.6.6.1 Teacher Information

This section collects information about teachers as required under Section 3123 (b)(5).

In the table below, report the number of teachers who are working in the Title III language instruction educational programs as defined under Section 3301(8) and reported in 1.6.1 (Types of language instruction educational programs) even if they are not paid with Title III funds.

Note: Section 3301(8) v The term 'Language instruction educational program' means an instruction course v (A) in which a limited English proficient child is placed for the purpose of developing and attaining English proficiency, while meeting challenging State academic content and student academic achievement standards, as required by Section 1111(b)(1); and (B) that may make instructional use of both English and a child's native language to enable the child to develop and attain English proficiency and may include the participation of English proficient children if such course is designed to enable all participating children to become proficient in English as a second language.

Title III Teachers	#
Number of all certified/licensed teachers currently working in Title III language instruction educational programs.	
Estimate number of additional certified/licensed teachers that will be needed for Title III language instruction educational programs in the next 5 years*.	

Explain in the comment box below if there is a zero for any item in the table above.

The response is limited to 8,000 characters.

Not applicable.

* This number should be the total additional teachers needed for the next 5 years, not the number needed for each year. Do not include the number of teachers currently working in Title III English language instruction educational programs.

1.6.6.2 Professional Development Activities of Subgrantees Related to the Teaching and Learning of LEP Students

In the tables below, provide information about the subgrantee professional development activities that meet the requirements of Section 3115(c)(2).

Table 1.6.6.2 Definitions:

1. **Professional Development Topics** = Subgrantee professional development topics required under Title III.
2. **#Subgrantees** = Number of subgrantees who conducted each type of professional development activity. A subgrantee may conduct more than one professional development activity. (Use the same method of counting subgrantees, including consortia, as in 1.6.1 and 1.6.4.)
3. **Total Number of Participants** = Number of teachers, administrators and other personnel who participated in each type of the professional development activities reported.
4. **Total** = Number of all participants in professional development (PD) activities.

Type of Professional Development Activity	# Subgrantees	////////////////////////////////////
Instructional strategies for LEP students		////////////////////////////////////
Understanding and implementation of assessment of LEP students		////////////////////////////////////
Understanding and implementation of ELP standards and academic content standards for LEP students		////////////////////////////////////
Alignment of the curriculum in language instruction educational programs to ELP standards		////////////////////////////////////
Subject matter knowledge for teachers		////////////////////////////////////
Other (Explain in comment box)		////////////////////////////////////
Participant Information	# Subgrantees	# Participants
PD provided to content classroom teachers		
PD provided to LEP classroom teachers		
PD provided to principals		
PD provided to administrators/other than principals		
PD provided to other school personnel/non-administrative		
PD provided to community based organization personnel		
Total		

The response is limited to 8,000 characters.

Not applicable.

1.6.7 State Subgrant Activities

This section collects data on State grant activities.

1.6.7.1 State Subgrant Process

In the table below, report the time between when the State receives the Title III allocation from ED, normally on July 1 of each year for the upcoming school year, and the time when the State distributes these funds to subgrantees for the intended school year. Dates must be submitted using the MM/DD/YY format.

Table 1.6.7.1 Definitions:

1. **Date State Received Allocation** = Annual date the State receives the Title III allocation from US Department of Education (ED).
2. **Date Funds Available to Subgrantees** = Annual date that Title III funds are available to approved subgrantees.
3. **# of Days/\$\$ Distribution** = Average number of days for States receiving Title III funds to make subgrants to subgrantees beginning from July 1 of each year, except under conditions where funds are being withheld.

Example: State received SY 2011-12 funds July 1, 2011, and then made these funds available to subgrantees on August 1, 2011, for SY 2011-12 programs. Then the "# of days/\$\$ Distribution" is 30 days.

Date State Received Allocation	Date Funds Available to Subgrantees	# of Days/\$\$ Distribution

Comments: The response is limited to 4,000 characters. Not applicable.

1.6.7.2 Steps To Shorten the Distribution of Title III Funds to Subgrantees

In the comment box below, describe how your State can shorten the process of distributing Title III funds to subgrantees.

The response is limited to 8,000 characters.

Not applicable.

1.7 PERSISTENTLY DANGEROUS SCHOOLS

In the table below, provide the number of schools identified as persistently dangerous, as determined by the State, by the start of the school year. For further guidance on persistently dangerous schools, refer to Section B "Identifying Persistently Dangerous Schools" in the Unsafe School Choice Option Non-Regulatory Guidance, available at: <http://www.ed.gov/policy/elsec/guid/unsafeschoolchoice.pdf>.

Persistently Dangerous Schools	#
Persistently Dangerous Schools	0
Comments: The response is limited to 4,000 characters. The BIE has no schools identified as persistently dangerous.	

1.9 EDUCATION FOR HOMELESS CHILDREN AND YOUTHS PROGRAM

This section collects data on homeless children and youths and the McKinney-Vento grant program.

In the table below, provide the following information about the number of LEAs in the State who reported data on homeless children and youths and the McKinney-Vento program. The totals will be will be automatically calculated.

LEAs	#	# LEAs Reporting Data
LEAs without subgrants	158	144
LEAs with subgrants	15	10
Total	173	154

Comments: The response is limited to 4,000 characters. In the BIE, LEAs and Schools are the same for reporting purposes. Due to issues with reporting zero counts and the lack of a requirement to do so at the LEA and School level for EdFacts, schools with no students identified as homeless will show up as not having reported any data.

1.9.1 All LEAs (with and without McKinney-Vento subgrants)

The following questions collect data on homeless children and youths in the State.

1.9.1.1 Homeless Children And Youths

In the table below, provide the number of homeless children and youths by grade level enrolled in public school at any time during the regular school year. The totals will be automatically calculated:

Age/Grade	# of Homeless Children/Youths <u>Enrolled</u> in Public School in LEAs <u>Without</u> Subgrants	# of Homeless Children/Youths <u>Enrolled</u> in Public School in LEAs <u>With</u> Subgrants
Age 3 through 5 (not Kindergarten)		
K	97	61
1	89	102
2	86	100
3	98	98
4	108	72
5	110	84
6	121	54
7	108	75
8	100	79
9	59	39
10	46	39
11	59	31
12	69	31
Ungraded		
Total	1,150	865

Comments: The response is limited to 4,000 characters. The BIE only serves Homeless students via the McKinney/Vento subgrant and Title I for "School Age" students. In the BIE, "School Age" is defined as 4 years of age reaching 5 by December 31 of the year in which the student is enrolled in Kindergarten. As the BIE also requires all its schools to use standard configurations for grade assignment, no students will appear in the 3-5 years of age Pre-K or Ungraded categories.

1.9.1.2 Primary Nighttime Residence of Homeless Children and Youths

In the table below, provide the number of homeless children and youths by primary nighttime residence enrolled in public school at any time during the regular school year. The primary nighttime residence should be the student's nighttime residence when he/she was identified as homeless. The totals will be automatically calculated.

Primary Nighttime Residence	# of Homeless Children/Youths - LEAs <u>Without</u> Subgrants	# of Homeless Children/Youths - LEAs <u>With</u> Subgrants
Shelters, transitional housing, awaiting foster care	363	130
Doubled-up (e.g., living with another family)	766	720
Unsheltered (e.g., cars, parks, campgrounds, temporary trailer, or abandoned buildings)	21	2
Hotels/Motels		13
Total	1,150	865

Comments: The response is limited to 4,000 characters.

1.9.2 LEAs with McKinney-Vento Subgrants

The following sections collect data on LEAs with McKinney-Vento subgrants.

1.9.2.1 Homeless Children and Youths Served by McKinney-Vento Subgrants

In the table below, provide the number of homeless children and youths by grade level who were served by McKinney-Vento subgrants during the regular school year. The total will be automatically calculated.

Age/Grade	# Homeless Children/Youths Served by Subgrants
Age Birth Through 2	
Age 3 through 5 (not Kindergarten)	
K	113
1	133
2	128
3	112
4	84
5	98
6	71
7	97
8	95
9	61
10	58
11	48
12	55
Ungraded	
Total	1,153
Comments: The response is limited to 4,000 characters.	

1.9.2.2 Subgroups of Homeless Students Served

In the table below, please provide the following information about the homeless students served during the regular school year.

Subgroup	# Homeless Students Served
Unaccompanied homeless youth	4
Migratory children/youth	0
Children with disabilities (<i>IDEA</i>)	219
Limited English Proficient (LEP) students	278
Comments: The response is limited to 4,000 characters.	

1.9.3 Academic Achievement of Homeless Students

The following questions collect data on the academic achievement of enrolled homeless children and youths.

1.9.3.1 Reading Assessment

In the table below, provide the number of enrolled homeless children and youths who were tested on the State *ESEA* reading/language arts assessment and the number of those tested who scored at or above proficient. Provide data for grades 9 through 12 only for those grades tested for *ESEA*.

Grade	# Homeless Children/Youth Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Homeless Children/Youth Scoring at or above Proficient
3	160	60
4	147	46
5	182	68
6	156	49

1.9.3.2 Mathematics Assessment

This section is similar to 1.9.3.1. The only difference is that this section collects data on the State mathematics assessment.

Grade	# Homeless Children/Youth Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Homeless Children/Youth Scoring at or above Proficient
3	161	65
4	146	55
5	183	56
6	156	54
7	164	52
8	155	39
High School	89	20

Comments: The response is limited to 4,000 characters.

1.9.3.3 Science Assessment

This section is similar to 1.9.3.1. The only difference is that this section collects data on the State science assessment.

Grade	# Homeless Children/Youth Who Received a Valid Score and for Whom a Proficiency Level Was Assigned	# Homeless Children/Youth Scoring at or above Proficient
3		
4	66	18
5	85	21
6		
7	S	
8	139	23
High School	79	12

Comments: The response is limited to 4,000 characters. States are required to assess Science in one set of grades for each level: grades 3-5, 6-8, and high school. BIE reports Science results from each grade level assessed for Science across 23 states where BIE schools are located. This fact should explain the inclusion of two grade levels of data beyond the base requirements for test administration as well as the lack of reporting for grades 3 and 6 (no states where BIE schools are located assessed Science in these grade levels).

1.10 MIGRANT CHILD COUNTS

This section collects the Title I, Part C, Migrant Education Program (MEP) child counts which States are required to provide and may be used to determine the annual State allocations under Title I, Part C. The child counts should reflect the reporting period of September 1, 2011 through August 31, 2012. This section also collects a report on the procedures used by States to produce true, accurate, and valid child counts.

To provide the child counts, each SEA should have sufficient procedures in place to ensure that it is counting only those children who are eligible for the MEP. Such procedures are important to protecting the integrity of the State's MEP because they permit the early discovery and correction of eligibility problems and thus help to ensure that only eligible migrant children are counted for funding purposes and are served. If an SEA has reservations about the accuracy of its child counts, it must inform the Department of its concerns and explain how and when it will resolve them under Section 1.10.3.4 *Quality Control Processes*.

Note: In submitting this information, the Authorizing State Official must certify that, to the best of his/her knowledge, the child counts and information contained in the report are true, reliable, and valid and that any false Statement provided is subject to fine or imprisonment pursuant to 18 U.S.C. 1001.

FAQs on Child Count:

- a. *How is "out-of-school" defined?* Out-of-school means youth up through age 21 who are entitled to a free public education in the State but are not currently enrolled in a K-12 institution. This could include students who have dropped out of school, youth who are working on a GED outside of a K-12 institution, and youth who are "here-to-work" only. It does not include preschoolers, who are counted by age grouping.
- b. *How is "ungraded" defined?* Ungraded means the children are served in an educational unit that has no separate grades. For example, some schools have primary grade groupings that are not traditionally graded, or ungraded groupings for children with learning disabilities. In some cases, ungraded students may also include special education children, transitional bilingual students, students working on a GED through a K-12 institution, or those in a correctional setting. (Students working on a GED outside of a K-12 institution are counted as out-of-school youth.)

1.10.1 Category 1 Child Count

In the table below, enter the unduplicated statewide number by age/grade of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, resided in your State for one or more days during the reporting period of September 1, 2011 through August 31, 2012. This figure includes all eligible migrant children who may or may not have participated in MEP services. Count a child who moved from one age/grade level to another during the reporting period only once in the highest age/grade that he/she attained during the reporting period. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

1.10.1.1 Category 1 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 1 greater than 10 percent.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

1.10.2 Category 2 Child Count

In the table below, enter by age/grade the unduplicated statewide number of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the reporting period of September 1, 2011 through August 31, 2012. Count a child who moved from one age/grade level to another during the reporting period only once in the highest age/grade that he/she attained during the reporting period. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

1.10.2.1 Category 2 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 2 greater than 10 percent.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

1.10.3 Child Count Calculation and Validation Procedures

The following question requests information on the State's MEP child count calculation and validation procedures.

1.10.3.1 Student Information System

In the space below, respond to the following questions: What system(s) did your State use to compile and generate the Category 1 and Category 2 child count for this reporting period (e.g., NGS, MIS 2000, COEStar, manual system)? Were child counts for the last reporting period generated using the same system(s)? If the State's Category 2 count was generated using a different system from the Category 1 count, please identify each system.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

1.10.3.2 Data Collection and Management Procedures

In the space below, respond to the following questions: How was the child count data collected? What data were collected? What activities were conducted to collect the data? When were the data collected for use in the student information system? If the data for the State's Category 2 count were collected and maintained differently from the Category 1 count, please describe each set of procedures.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

In the space below, describe how the child count data are inputted, updated, and then organized by the student information system for child count purposes at the State level.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

If the data for the State's Category 2 count were collected and maintained differently from the Category 1 count, please describe each set of procedures.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

1.10.3.3 Methods Used To Count Children

In the space below, respond to the following question: How was each child count calculated? Please describe the compilation process and edit functions that are built into your student information system(s) specifically to produce an accurate child count. In particular, describe how your system includes and counts only:

- Children who were between age 3 through 21
- Children who met the program eligibility criteria (e.g., were within 3 years of a last qualifying move, had a qualifying activity)
- Children who were resident in your State for at least 1 day during the eligibility period (September 1 through August 31)
- Children who—in the case of Category 2—received a MEP-funded service during the summer or intersession term
- Children once per age/grade level for each child count category.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

If your State's Category 2 count was generated using a different system from the Category 1 count, please describe each system separately.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

1.10.3.4 Quality Control Processes

In the space below, respond to the following question: What steps are taken to ensure your State properly determines and verifies the eligibility of each child included in the child counts for the reporting period of September 1 through August 31 before that child's data are included in the student information system(s)?

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

In the space below, describe specifically the procedures used and the results of any re-interview processes used by the SEA during the reporting period to test the accuracy of the State's MEP eligibility determinations. In this description, please include the number of eligibility determinations sampled, the number for which a test was completed, and the number found eligible.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

In the space below, respond to the following question: Throughout the year, what steps are taken by staff to check that child count data are inputted and updated accurately (and—for systems that merge data—consolidated accurately)?

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

In the space below, respond to the following question: What final steps are taken by State staff to verify the child counts produced by your student information system(s) are accurate counts of children in Category 1 and Category 2 prior to their submission to ED?

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

In the space below, describe those corrective actions or improvements that will be made by the SEA to improve the accuracy of its MEP eligibility determinations in light of the prospective re-interviewing results.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.

In the space below, discuss any concerns about the accuracy of the reported child counts or the underlying eligibility determinations on which the counts are based.

The response is limited to 8,000 characters.

The BIE does not serve migrant students.
