

CONSOLIDATED STATE PERFORMANCE REPORT: Parts I and II

**for
STATE FORMULA GRANT PROGRAMS
under the
ELEMENTARY AND SECONDARY EDUCATION ACT
As amended in 2001**

**For reporting on
School Year 2012-13**

OHIO

**PART I DUE FRIDAY, DECEMBER 20, 2013
PART II DUE FRIDAY, FEBRUARY 14, 2014**

**U.S. DEPARTMENT OF EDUCATION
WASHINGTON, DC 20202**

INTRODUCTION

Sections 9302 and 9303 of the *Elementary and Secondary Education Act (ESEA)*, as amended in 2001 provide to States the option of applying for and reporting on multiple *ESEA* programs through a single consolidated application and report. Although a central, practical purpose of the Consolidated State Application and Report is to reduce "red tape" and burden on States, the Consolidated State Application and Report are also intended to have the important purpose of encouraging the integration of State, local, and *ESEA* programs in comprehensive planning and service delivery and enhancing the likelihood that the State will coordinate planning and service delivery across multiple State and local programs. The combined goal of all educational agencies—State, local, and Federal—is a more coherent, well-integrated educational plan that will result in improved teaching and learning. The Consolidated State Application and Report includes the following *ESEA* programs:

- Title I, Part A – *Improving Basic Programs Operated by Local Educational Agencies*
- Title I, Part B, Subpart 3 – *William F. Goodling Even Start Family Literacy Programs*
- Title I, Part C – *Education of Migratory Children (Includes the Migrant Child Count)*
- Title I, Part D – *Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk*
- Title II, Part A – *Improving Teacher Quality State Grants (Teacher and Principal Training and Recruiting Fund)*
- Title III, Part A – *English Language Acquisition, Language Enhancement, and Academic Achievement Act*
- Title IV, Part A, Subpart 1 – *Safe and Drug-Free Schools and Communities State Grants*
- Title IV, Part A, Subpart 2 – *Safe and Drug-Free Schools and Communities National Activities (Community Service Grant Program)*
- Title V, Part A – *Innovative Programs*
- Title VI, Section 6111 – *Grants for State Assessments and Related Activities*
- Title VI, Part B – *Rural Education Achievement Program*
- Title X, Part C – *Education for Homeless Children and Youths*

The *ESEA* Consolidated State Performance Report (CSPR) for school year (SY) 2012-13 consists of two Parts, Part I and Part II.

PART I

Part I of the CSPR requests information related to the five *ESEA* Goals, established in the June 2002 Consolidated State Application, and information required for the Annual State Report to the Secretary, as described in Section 1111(h)(4) of the *ESEA*. The five *ESEA* Goals established in the June 2002 Consolidated State Application are:

- **Performance Goal 1:** By SY 2013~~14~~, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- **Performance Goal 2:** All limited English proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- **Performance Goal 3:** By SY 200~~06~~6, all students will be taught by highly qualified teachers.
- **Performance Goal 4:** All students will be educated in learning environments that are safe, drug free, and conducive to learning.
- **Performance Goal 5:** All students will graduate from high school.

Beginning with the CSPR SY 2005-06 collection, the Education of Homeless Children and Youths was added. The Migrant Child count was added for the SY 2006-07 collection.

PART II

Part II of the CSPR consists of information related to State activities and outcomes of specific *ESEA* programs. While the information requested varies from program to program, the specific information requested for this report meets the following criteria:

1. The information is needed for Department program performance plans or for other program needs.
2. The information is not available from another source, including program evaluations pending full implementation of required ED Facts submission.
3. The information will provide valid evidence of program outcomes or results.

GENERAL INSTRUCTIONS AND TIMELINES

All States that received funding on the basis of the Consolidated State Application for the SY 2012-13 must respond to this Consolidated State Performance Report (CSPR). Part I of the Report is due to the Department by **Friday, December 20, 2013**. Part II of the Report is due to the Department by **Friday, February 14, 2014**. Both Part I and Part II should reflect data from the SY 2012-13, unless otherwise noted.

The format states will use to submit the Consolidated State Performance Report has changed to an online submission starting with SY 2004-05. This online submission system is being developed through the Education Data Exchange Network (EDEN) and will make the submission process less burdensome. Please see the following section on transmittal instructions for more information on how to submit this year's Consolidated State Performance Report.

TRANSMITTAL INSTRUCTIONS

The Consolidated State Performance Report (CSPR) data will be collected online from the SEAs, using the EDEN web site. The EDEN web site will be modified to include a separate area (sub-domain) for CSPR data entry. This area will utilize EDEN formatting to the extent possible and the data will be entered in the order of the current CSPR forms. The data entry screens will include or provide access to all instructions and notes on the current CSPR forms; additionally, an effort will be made to design the screens to balance efficient data collection and reduction of visual clutter.

Initially, a state user will log onto EDEN and be provided with an option that takes him or her to the "SY 2012-13 CSPR". The main CSPR screen will allow the user to select the section of the CSPR that he or she needs to either view or enter data. After selecting a section of the CSPR, the user will be presented with a screen or set of screens where the user can input the data for that section of the CSPR. A user can only select one section of the CSPR at a time. After a state has included all available data in the designated sections of a particular CSPR Part, a lead state user will certify that Part and transmit it to the Department. Once a Part has been transmitted, ED will have access to the data. States may still make changes or additions to the transmitted data, by creating an updated version of the CSPR. Detailed instructions for transmitting the SY 2012-13 CSPR will be found on the main CSPR page of the EDEN web site (<https://EDEN.ED.GOV/EDENPortal/>).

School Year 2012-13

**PART II DUE FEBRUARY 17, 2012
5PM EST**

2.1 Improving BASIC PROGRAMS OPERATED BY LOCAL EDUCATIONAL AGENCIES (TITLE I, PART A)

This section collects data on Title I, Part A programs.

2.1.1 Student Achievement in Schools with Title I, Part A Programs

The following sections collect data on student academic achievement on the State's assessments in schools that receive Title I, Part A funds and operate either Schoolwide programs or Targeted Assistance programs.

2.1.1.1 Student Achievement in Mathematics in Schoolwide Schools (SWP)

In the format of the table below, provide the number of students in SWP schools who completed the assessment and for whom a proficiency level was assigned, in grades 3 through 8 and high school, on the State's mathematics assessments under Section 1111(b)(3) of *ESEA*. Also, provide the number of those students who scored at or above proficient. The percentage of students who scored at or above proficient is calculated automatically.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	73,960	S	72.4
4	72,183	S	70.5
5	66,335	S	58.8
6	52,169	S	63.8
7	42,783	S	58.9
8	41,734	S	63.3
High School	23,668	S	68.6
Total	372,832	S	65.6
Comments:			

2.1.1.2 Student Achievement in Reading/Language Arts in Schoolwide Schools (SWP)

This section is similar to 2.1.1.1. The only difference is that this section collects data on performance on the State's reading/language arts assessment in SWP.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	74,012	S	77.6
4	72,127	S	83.6
5	66,318	S	65.8
6	52,160	S	74.4
7	42,803	S	70.6
8	41,720	S	77.0
High School	23,689	S	77.8
Total	372,829	S	75.3
Comments:			

2.1.1.3 Student Achievement in Mathematics in Targeted Assistance Schools (TAS)

In the table below, provide the number of all students in TAS who completed the assessment and for whom a proficiency level was assigned, in grades 3 through 8 and high school, on the State's mathematics assessments under Section 1111(b)(3) of *ESEA*. Also, provide the number of those students who scored at or above proficient. The percentage of students who scored at or above proficient is calculated automatically.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	37,253	S	86.6
4	37,465	S	86.7
5	34,737	S	78.9
6	28,585	S	82.8
7	22,914	S	79.4
8	21,738	S	83.1
High School	6,117	S	79.5
Total	188,809	S	83.1
Comments:			

2.1.1.4 Student Achievement in Reading/Language Arts in Targeted Assistance Schools (TAS)

This section is similar to 2.1.1.3. The only difference is that this section collects data on performance on the State's reading/language arts assessment by all students in TAS.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	37,213	S	90.2
4	37,468	S	93.7
5	34,736	S	83.2
6	28,698	S	88.9
7	22,914	S	86.1
8	21,776	S	90.4
High School	6,110	S	84.5
Total	188,915	S	88.7
Comments:			

2.1.2 Title I, Part A Student Participation

The following sections collect data on students participating in Title I, Part A by various student characteristics.

2.1.2.1 Student Participation in Public Title I, Part A by Special Services or Programs

In the table below, provide the number of public school students served by either Public Title I SWP or TAS programs at any time during the regular school year for each category listed. Count each student only once in each category even if the student participated during more than one term or in more than one school or district in the State. Count each student in as many of the categories that are applicable to the student. Include pre-kindergarten through grade 12. Do not include the following individuals: (1) adult participants of adult literacy programs funded by Title I, (2) private school students participating in Title I programs operated by local educational agencies, or (3) students served in Part A local neglected programs.

Special Services or Programs	# Students Served
Children with disabilities (<i>IDEA</i>)	134,823
Limited English proficient students	29,204
Students who are homeless	17,544
Migratory students	292
Comments:	

2.1.2.2 Student Participation in Public Title I, Part A by Racial/Ethnic Group

In the table below, provide the unduplicated number of public school students served by either public Title I SWP or TAS at any time during the regular school year. Each student should be reported in only one racial/ethnic category. Include pre-kindergarten through grade 12. The total number of students served will be calculated automatically.

Do not include: (1) adult participants of adult literacy programs funded by Title I, (2) private school students participating in Title I programs operated by local educational agencies, or (3) students served in Part A local neglected programs.

Race/Ethnicity	# Students Served
American Indian or Alaska Native	1,200
Asian	7,741
Black or African American	213,310
Hispanic or Latino	47,111
Native Hawaiian or other Pacific Islander	506
White	485,617
Two or more races	43,009
Total	798,494
Comments:	

2.1.2.3 Student Participation in Title I, Part A by Grade Level

In the table below, provide the unduplicated number of students participating in Title I, Part A programs by grade level and by type of program: Title I public targeted assistance programs (Public TAS), Title I schoolwide programs (Public SWP), private school students participating in Title I programs (private), and Part A local neglected programs (local neglected). The totals column by type of program will be automatically calculated.

Age/Grade	Public TAS	Public SWP	Private	Local Neglected	Total
Age 0-2	0	13	0	0	13
Age 3-5 (not Kindergarten)	39	26,256	1	0	26,296
K	5,051	85,497	94	0	90,642
1	7,307	82,225	132	2	89,666
2	6,538	78,027	133	3	84,701
3	5,721	76,970	125	0	82,816
4	3,779	75,038	82	3	78,902
5	2,608	69,131	35	11	71,785
6	2,259	55,006	6	28	57,299
7	1,664	45,767	0	50	47,481
8	1,578	44,846	0	90	46,514
9	303	37,864	1	136	38,304
10	298	29,156	1	123	29,578
11	267	28,418	1	66	28,752
12	264	25,286	1	42	25,593
Ungraded	3	437	0	0	440
TOTALS	37,679	759,937	612	554	798,782

Comments:

2.1.2.4 Student Participation in Title I, Part A Targeted Assistance Programs by Instructional and Support Services

The following sections collect data about the participation of students in TAS.

2.1.2.4.1 Student Participation in Title I, Part A Targeted Assistance Programs by Instructional Services

In the table below, provide the number of students receiving each of the listed instructional services through a TAS program funded by Title I, Part A. Students may be reported as receiving more than one instructional service. However, students should be reported only once for each instructional service regardless of the frequency with which they received the service.

TAS instructional service	# Students Served
Mathematics	10,159
Reading/language arts	33,120
Science	320
Social studies	307
Vocational/career	0
Other instructional services	209
Comments:	

2.1.2.4.2 Student Participation in Title I, Part A Targeted Assistance Programs by Support Services

In the table below, provide the number of students receiving each of the listed support services through a TAS program funded by Title I, Part A. Students may be reported as receiving more than one support service. However, students should be reported only once for each support service regardless of the frequency with which they received the service.

TAS Support Service	# Students Served
Health, dental, and eye care	204
Supporting guidance/advocacy	4
Other support services	139
Comments:	

2.1.3 Staff Information for Title I, Part A Targeted Assistance Programs (TAS)

In the table below, provide the number of full-time equivalent (FTE) staff funded by a Title I, Part A TAS in each of the staff categories. For staff who work with both TAS and SWP, report only the FTE attributable to their TAS responsibilities.

For paraprofessionals only, provide the percentage of paraprofessionals who were qualified in accordance with Section 1119 (c) and (d) of ESEA.

See the FAQs following the table for additional information.

Staff Category	Staff FTE	Percentage Qualified
Teachers	904	
Paraprofessionals ¹	56	100.00
Other paraprofessionals (translators, parental involvement, computer assistance) ²	31	
Clerical support staff	12	
Administrators (non-clerical)	20	
Comments:		

FAQs on staff information

- a. What is a "paraprofessional?" An employee of an LEA who provides instructional support in a program supported with Title I, Part A funds. Instructional support includes the following activities:
 - (a) Providing one-on-one tutoring for eligible students, if the tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher;
 - (b) Providing assistance with classroom management, such as organizing instructional and other materials;
 - (c) Providing assistance in a computer laboratory;
 - (d) Conducting parental involvement activities;
 - (e) Providing support in a library or media center;
 - (f) Acting as a translator; or
 - (g) Providing instructional services to students.
- b. What is an "other paraprofessional?" Paraprofessionals who do not provide instructional support, for example, paraprofessionals who are translators or who work with parental involvement or computer assistance.
- c. Who is a qualified paraprofessional? A paraprofessional who has (1) completed 2 years of study at an institution of higher education; (2) obtained an associate's (or higher) degree; or (3) met a rigorous standard of quality and been able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness) (Sections 1119(c) and (d).) For more information on qualified paraprofessionals, please refer to the Title I paraprofessionals Guidance, available at: <http://www.ed.gov/policy/elsec/guid/paraguidance.doc>

¹ Consistent with ESEA, Title I, Section 1119(g)(2).

² Consistent with ESEA, Title I, Section 1119(e).

2.1.3.1 Paraprofessional Information for Title I, Part A Schoolwide Programs

In the table below, provide the number of FTE paraprofessionals who served in SWP and the percentage of these paraprofessionals who were qualified in accordance with Section 1119 (c) and (d) of *ESEA*. Use the additional guidance found below the previous table.

Paraprofessional Information	Paraprofessionals FTE	Percentage Qualified
Paraprofessionals ³	4,440.50	99.60
Comments:		

³ Consistent with *ESEA*, Title I, Section 1119(g)(2).

2.1.4 Parental Involvement Reservation Under Title I, Part A

In the table below provide information on the amount of Title I, Part A funds reserved by LEAs for parental involvement activities under Section 1118 (a)(3) of the ESEA. The percentage of LEAs FY 2012 Title I Part A allocations reserved for parental involvement will be automatically calculated from the data entered in Rows 2 and 3.

Parental Involvement Reservation	LEAs that Received a Federal Fiscal Year (FY) 2012 (School Year 2012–2013) Title I, Part A Allocation of \$500,000 or less	LEAs that Received a Federal fiscal year (FY) 2012 (School Year 2012–2013) Title I, Part A Allocation of more than \$500,000
Number of LEAs *	753	223
Sum of the amount reserved by LEAs for parental Involvement	160,830	5,109,384
Sum of LEAs' FY 2012 Title I, Part A allocations	147,956,054	403,842,526
Percentage of LEA's FY 2012 Title I, Part A allocations reserved for parental involvement	0.10	1.30

*The sum of Column 2 and Column 3 should equal the number of LEAs that received an FY 2012 Title I, Part A allocation.

In the comment box below, provide examples of how LEAs in your State used their Title I Part A, set-aside for parental involvement during SY 2012–2013.

This response is limited to 8,000 characters.

- Gave parents computer training at the schools to assist their children with homework
- Provided district-wide parent meetings/workshops, which include various materials and resources for families including literacy nights and math nights
- Supported district family liaisons/consultants with assigned building responsibilities (e.g., home visits)
- Supported transition programs, especially for kindergarten children
- Offered family literacy programs for families in need of literacy training
- Established district Parent Advisory Boards
- Enhanced communication between districts and families by utilizing technology such as smart phones and Web sites
- Established district leadership teams (DLTs), including parents who have children in the district as members
- Offered after-school programs to meet the needs of the families in the districts
- Provided translation services for parents
- Created a "Literacy on Wheels" program to bring books to poor neighborhoods
- Started male involvement model programs

2.3 Education OF MIGRANT CHILDREN (TITLE I, PART C)

This section collects data on the Migrant Education Program (Title I, Part C) for the performance period of September 1, 2012 through August 31, 2013. This section is composed of the following subsections:

- Population data of eligible migrant children
- Academic data of eligible migrant students
- Participation data of migrant children served during either the regular school year, summer/intersession term, or program year
- School data
- Project data
- Personnel data

Where the table collects data by age/grade, report children in the highest age/grade that they attained during the performance period. For example, a child who turns 3 during the performance period would only be performance in the "Age 3 through 5 (not Kindergarten)" row.

2.3.1 Migrant Child Counts

This section collects the Title I, Part C, Migrant Education Program (MEP) child counts which States are required to provide and may be used to determine the annual State allocations under Title I, Part C. The child counts should reflect the performance period of September 1, 2012 through August 31, 2013. This section also collects a report on the procedures used by States to produce true, reliable, and valid child counts.

To provide the child counts, each SEA should have sufficient procedures in place to ensure that it is counting only those children who are eligible for the MEP. Such procedures are important to protecting the integrity of the State's MEP because they permit the early discovery and correction of eligibility problems and thus help to ensure that only eligible migrant children are counted for funding purposes and are served. If an SEA has reservations about the accuracy of its child counts, it must inform the Department of its concerns and explain how and when it will resolve them in the box below, which precedes Section 2.3.1.1 *Category 1 Child Count*.

Note: In submitting this information, the Authorizing State Official must certify that, to the best of his/her knowledge, the child counts and information contained in the report are true, reliable, and valid and that any false Statement provided is subject to fine or imprisonment pursuant to 18 U.S.C. 1001.

FAQs on Child Count:

1. *How is "out-of-school" defined?* Out-of-school means children up through age 21 who are entitled to a free public education in the State but are not currently enrolled in a K-12 institution. This could include students who have dropped out of school in the previous performance period (September 1, 2011 v August 31, 2012), youth who are working on a GED outside of a K-12 institution, and youth who are "here-to-work" only. It does not include preschoolers, who are counted by age grouping. Children who were enrolled in school for at least one day, but dropped out of school during the performance period should be counted in the highest age/grade level attained during the performance period.
2. *How is "ungraded" defined?* Ungraded means the children are served in an educational unit that has no separate grades. For example, some schools have primary grade groupings that are not traditionally graded, or ungraded groupings for children with learning disabilities. In some cases, ungraded students may also include special education children, transitional bilingual students, students working on a GED through a K-12 institution, or those in a correctional setting. (Students working on a GED outside of a K-12 institution are counted as out-of-school youth.)

In the space below, discuss any concerns about the accuracy of the reported child counts or the underlying eligibility determinations on which the counts are based and how and when these concerns will be resolved.

The response is limited to 8,000 characters.

Comments: There are no concerns to report at this time.

2.3.1.1 Category 1 Child Count (Eligible Migrant Children)

In the table below, enter the unduplicated statewide number by age/grade of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, resided in your State for one or more days during the performance period of September 1, 2012 through August 31, 2013. This figure includes all eligible migrant children who may or may not have participated in MEP services. Count a child who moved from one age/grade level to another during the performance period only once in the highest age/grade that he/she attained during the performance period. The unduplicated statewide total count is

calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

Comments:	

2.3.1.1.1 Category 1 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 1 greater than 10 percent.

The response is limited to 8,000 characters.

Comments: The rate of decrease (14.7%) can be attributed to fewer migrant families, and especially fewer out-of-school youth in migrant families, coming to Ohio for work. This has been a continuing trend in the state for the past ten years.

2.3.1.1.2 Birth through Two Child Count

In the table below, enter the unduplicated statewide number of **eligible** migrant children from age birth through age 2 who, within 3 years of making a qualifying move, resided in your State for one or more days during the performance period of September 1, 2012 through August 31, 2013.

Age/Grade	Eligible Migrant Children
Age birth through 2	0
Comments:	

2.3.1.2 Category 2 Child Count (Eligible Migrant Children Served by the MEP During the Summer/ Intersession Term)

In the table below, enter by age/grade the unduplicated statewide number of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, were **served** for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the performance period of September 1, 2012 through August 31, 2013. Count a child who moved from one age/grade level to another during the performance period only once in the highest age/grade that he/she attained during the performance period. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once. The unduplicated statewide total count is calculated automatically.

Do not include:

- Children age birth through 2 years
- Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs.
- Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).
- Children who received only referred services (non-MEP funded).

2.3.1.2.1 Category 2 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 2 greater than 10 percent.

The response is limited to 8,000 characters.

Comments: The rate of decrease (12.8%) can be attributed to fewer migrant families, and especially fewer out-of-school youth in migrant families, coming to Ohio for work. This has been a continuing trend in the state for the past ten years.

2.3.1.2.2 Birth through Two Eligible Migrant Children Served by the MEP During the Summer/Intersession Term

In the table below, enter the unduplicated statewide number of eligible migrant children from age birth through 2 who, within 3 years of making a qualifying move, were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the performance period of September 1, 2012 through August 31, 2013. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once.

Do not include:

- Children who received locally referred services (non-MEP funded).

Age/Grade	Eligible Migrant Children Served by the MEP During the Summer/Intersession Term
Age birth through 2	a
Comments:	

2.3.1.3 Child Count Calculation and Validation Procedures

The following questions request information on the State's MEP child count calculation and validation procedures.

2.3.1.3.1 Student Information System

In the space below, respond to the following questions: What system did the State use to compile and generate the Category 1 child count for this performance period? Please check the box that applies.

Student Information System	(Yes/No)
NGS	No
MIS 2000	No
COEStar	No
MAPS	No
Other Student Information System. Please identify the system:	Yes
The 2012-2013 Category 1 child count and Category 2 child count were generated using the Ohio Migrant Student Information System (OMSIS2). OMSIS2 is a client/server management information system utilizing the FileMaker suite of hosted database tools. OMSIS2 is developed and maintained by the Tri-Rivers Educational Computer Association (TRECA), a non-profit entity providing K-12 educational technology services through a consortium of Ohio public school districts.	

Student Information System	(Yes/No)
Was the Category 2 child count for this performance period generated using the same system?	Yes

If the State's Category 2 count was generated using a different system than the Category 1 count please identify the specific system that generates the Category 2 count.

The response is limited to 8,000 characters.

The Category 2 count only differs from the Category 1 count by which backend database tables are required to produce accurate and complete numbers. The Category 2 count references additional tables.
--

2.3.1.3.2 Data Collection and Management Procedures

In the space below, please respond to the following question:

Data Collection and Management Procedures	(Yes/No)
Does the State collect all the required data elements and data sections on the National Certificate of Eligibility (COE)?	Yes

2.3.1.3.3 Methods Used To Count Children

In the space below, please describe the procedures and processes at the State level used to ensure all eligible children are accounted for in the performance period . In particular, describe how the State includes and counts only:

- Children who were age 3 through 21
- Children who met the program eligibility criteria (e.g., were within 3 years of a qualifying move, had a qualifying activity)
- Children who were resident in your State for at least 1 day during the performance period (September 1 through August 31)
- Children who – in the case of Category 2 – were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods
- Children counted once per age/grade level for each child count category
- Children two years of age that turned three years old during the performance period.

The response is limited to 8,000 characters.

A query is run against the Ohio Migrant Student Information System (OMSIS2) database described in Question 2.3.1.3.1 to calculate the Category 1 child count. It identifies those students between ages 3 and 21 (as shown by the Student Identification Table) who have made a qualifying move within the past 36 months (as shown by the Educational Enrollment History Data Table) and who have also had a third birthday before the end date of the program in which they participated (as shown by the Educational Enrollment History Data Table, the Student Identification Table, and the Supplemental Program Information Table) or before the end of their residency in Ohio (we may reference an older sibling's enrollment information to determine this third criterion). A similar query that includes all of the above information is run to calculate the Category 2 child count, but it also has a summer service indicator. The fields used to run this particular query are SID.OHID, SID.LastName, SID.FirstName, ENR.OHID, SID.DeceasedDate, SID.GraduationDate, SID.BirthDate, ENR.LastQualifyingMove, ENR.EnrollmentDate, ENR.WithdrawalDate, ENR.OhioArrivalDate, and several flag fields that serve to exclude specific instances (e.g., children who turn three during the school year, but for whom no Ohio residency can be guaranteed except at the age of two). The database administrator (or the administrator's representative) at the Ohio Migrant Education Center (OMEC) executes these queries and updates a series of flags in a specific order. Each September, a home visit is made to each student for whom a valid COE exists to determine if the student is still a resident in the State. The verification data are added to our database, and they serve as an indication that the student is eligible to be included in Category 1 for the new program year. All students added through a new COE during the program year are also counted. When a student is identified in Ohio for the first time, the OMSIS2 data system generates a unique ID for that student called the OHID. If a student has been identified previously, then his/her new records are always entered using the student's existing OHID to avoid duplication. This check of the OMSIS2 system is accomplished before any record is entered into the system as new. When eligible students are first identified and entered into the database, they are all Category 1 students. They are not counted in Category 2 unless they also are eligible for and receive funded summer services.

Summer program students are flagged in the Student Information Table. A query is run against these data to generate a list of all students served during the summer. These students are served in one or more of the following ways: district site-based summer programs, in-home instruction, ESL programs, and/or health fair participation. Recorded participation in a funding-eligible instructional service during the summer/intersession period is required and must be documented before an indicator can be updated in OMSIS2 that triggers the inclusion of a particular student in the child count. The timing of this participation is verified when the queries used for the child counts screen by the date of the service(s) provided. If the date shown for the service(s) does not fall during the designated summer period, then that child will not qualify to be counted. Each child who is counted always has at least one qualifying service for which a qualifying date has been documented. Services provided to children whose eligibility has just expired may be reported at the local level, but quality control procedures at OMEC are in place to exclude these records from being entered into OMSIS2 (or, in a few cases, to allow the records to be entered with an 'N' in the funding flag field) so that non-funded services provided to these children will not inadvertently be counted as funded.

Every student has a unique OHID number that ensures the child is only counted once. As part of the quality control process at OMEC, "new" students are double-checked to ensure that they have not already been assigned a different OHID number. Some of the quality control criteria used to ensure the unique identity of a "new" child include surname, parent/guardian first names, alternate spellings of surnames, migratory histories of families with similar names, and date of birth.

How does the State ensure that the system that transmits migrant data to the Department accurately accounts for all the migrant children in every ED Facts data file?

OMSIS2 includes numerous companion fields to each date-type field accessed by the queries used for ED Facts and the Consolidated State Performance Report (CSPR). These companion fields include a number of calculations and comparisons that help locate data that may require further review.

For example, each child record contains a birth date field and a current age field that are query-relevant. Each enrollment and service record contains a date of service or date of enrollment field, a residency date field, and a qualifying move date field that are also query-relevant. One example of a companion field that is used during reporting uses query-relevant fields to calculate the age a student was at the time of residency and service. This produces a flag that is used to exclude, for example, current three year-olds who were three at the end of the reporting cycle, but not necessarily a resident in Ohio when their third

birthday arrived. Such a child is excluded from the Category 1 count. All three year-olds are examined using the companion calculation field in this way to separate those proven and not proven eligible. Similar companion calculation fields exist that guard against incorrect date values being entered in the query-relevant fields.

Duplications are prevented through the use of a combination of FMP11 database features, including extensive use of the "Go to Related Records" script command. Searches are initially performed in a related table while seeking funded services delivered during the current reporting period. From there this script is run, resulting in a found set of students (not services). All counts for the CSPR are then generated from the Students Table, where each student has only one grade level and one unique identifier, to ensure that no student can possibly be counted twice in any cell of any CSPR table.

Eligibility for Category 1 is first established for the majority of students using FMP11's "Constrain Found Set" tool repeatedly for each criterion that could possibly exclude a student from eligibility for the current reporting period. Students who definitely qualify based on this more rigorous screening compose the first group of students marked as qualifying. Students who qualify, but whose eligibility for the current reporting period must be confirmed on a case-by-case basis, are excluded from this first group by the stringency of the initial queries. Instead, these students are individually marked as qualifying only after their record is carefully reviewed to confirm, for example, that their age qualified them to be counted as eligible for the reporting period. After all Category 1 eligibility has been marked, an export of data from the Student Table into an empty Reporting Table is executed. The Reporting Table contains many true-or-false fields that correspond to each category of the CSPR.

A database relationship links the Student Table to the Reporting Table on the key field OHID. By updating each of the Reporting Table's true-or-false fields directly from within the Student Table, and by doing so only after the Reporting Table already contains exclusively Category 1-eligible records, it is possible to know with certainty that: 1) only eligible students are contained in any individual count; and 2) there is absolutely no duplication within counts.

Accuracy checks are performed, using the Reporting Table as a source and the Student Table as the destination for a "Go to Related Records" script. This technique could be used to find instantly the exact group of students reported as being in the 7th Grade and also receiving Math instruction in the summer. This group can be scrolled through to verify that each student did in fact receive Math instruction (and when and where), and is a 7th grader.

Reporting data are preserved, without changes, directly within OMSIS2 every year. Over time this collection of tables serves as an ongoing longitudinal data reference tool for management information.

Use of MSIX to Verify Data Quality	(Yes/No)
Does the State use data in the Migrant Student Information Exchange (MSIX) to verify the quality of migrant data?	No
If MSIX is utilized, please explain how.	
The response is limited to 8,000 characters.	

2.3.1.3.4 Quality Control Processes

In the space below, respond to the following questions :

Quality Control Processes	Yes/No
Is student eligibility based on a personal interview (face-to-face or phone call) with a parent, guardian, or other responsible adult, or youth-as-worker?	Yes
Do the SEA and/or regional offices train recruiters at least annually on eligibility requirements, including the basic eligibility definition, economic necessity, temporary vs. seasonal, processing, etc.?	Yes
Does the SEA have a formal process, beyond the recruiter's determination, for reviewing and ensuring the accuracy of written eligibility information [e.g., COEs are reviewed and initialed by the recruiter's supervisor and/or other reviewer(s)]?	Yes
Are incomplete or otherwise questionable COEs returned to the recruiter for correction, further explanation, documentation, and/or verification?	Yes
Does the SEA provide recruiters with written eligibility guidance (e.g., a handbook)?	Yes
Does the SEA review student attendance at summer/inter-session projects?	Yes
Does the SEA have both a local and state-level process for resolving eligibility questions?	Yes
Are written procedures provided to regular school year and summer/intersession personnel on how to collect and report pupil enrollment and withdrawal data?	Yes
Are records/data entry personnel provided training on how to review regular school year and summer/inter-session site records, input data, and run reports used for child count purposes?	Yes

In the space below, describe the results of any re-interview processes used by the SEA during the performance period to test the accuracy of the State's MEP eligibility determinations.

Results	#
The number of eligibility determinations sampled.	95
The number of eligibility determinations sampled for which a re-interview was completed.	51
The number of eligibility determinations sampled for which a re-interview was completed and the child was found eligible.	51

Describe any reasons children were determined ineligible in the re-interviewing process.

The response is limited to 8,000 characters.

No migrant children were found to be ineligible for MEP services during the re-interview process.

Procedures	Yes/No
Was the sampling of eligible children random?	Yes
Was the sampling statewide?	Yes

If the sampling was stratified by group/area please describe the procedures.

The response is limited to 8,000 characters.

The sampling was not stratified.

Please describe the sampling replacement by the State.

The response is limited to 8,000 characters.

Sampling was conducted without replacements. All students identified in Ohio from September 1, 2012 through August 31, 2013 were part of the total population sampled for the re-interview. A percentage of students was pulled from OMSIS II to generate a random sample that was given to the re-interviewer to initiate the interview process. After about a month, a new random sample was pulled from the database using only students' names entered into OMSIS II since the last re-interview list was run. Ohio sampled without replacements because every name entered into the database had only one chance to be pulled for the re-interview.

Obtaining Data From Families	
Check the applicable box to indicate how the re-interviews were conducted	
Face-to-face re-interviews	<input checked="" type="checkbox"/> Face re-interviews
Phone Interviews	
Both	

Obtaining Data From Families	Yes/No
Was there a standard instrument used?	Yes
Was there a protocol for verifying all information used in making the original eligibility determination?	Yes
Were re-interviewers trained and provided instruments?	Yes
Did the recruitment personnel who made the initial eligibility determinations also conduct the re-interviews with the same families?	No
When were the most recent independent re-interviews completed (i.e., interviewers were neither SEA or LOA staff members responsible for administering or operating the MEP, nor any other persons who worked on the initial eligibility determinations being tested)?	(MM/YY) 11/13

If you did conduct independent re-interviews in this performance period, describe how you ensured that the process was independent.

The response is limited to 8,000 characters.

Interviewers were neither SEA nor LOA staff members responsible for administering or operating the MEP, nor any other persons who worked on the initial eligibility determinations being tested.

In the space below, refer to the results of any re-interview processes used by the SEA, and if any of the migrant children were found ineligible, describe those corrective actions or improvements that will be made by the SEA to improve the accuracy of its MEP eligibility determinations.

The response is limited to 8,000 characters.

No migrant children were found to be ineligible for MEP services during the re-interview process.

2.3.2 Eligible Migrant Children

2.3.2.1 Priority for Services

In the table below, provide the unduplicated number of **eligible** migrant children who have been classified as having "Priority for Services." The total is calculated automatically.

Total	167

Comments: The significant increase in the number of referrals during the regular school year (N = 167) compared to last year (N = 6) is attributed to a change in how referrals are counted. Had we used the same system last year that we used this year, the numbers reported would have been much higher. Last year we had much more emphasis on reporting summer referral numbers.

2.3.2.7 Referrals — During the Summer/ Intersession Term

In the table below, provide the unduplicated number of **eligible** migrant children who, during the summer/intersession term, received an educational or educationally related service funded by another non-MEP program/organization that they would not have otherwise received without efforts supported by MEP funds. Children should be reported only once regardless of the frequency with which they received a referred service. Include children who received a referral only or who received both a referral and MEP-funded services. Do not include children who received a referral from the MEP, but did not receive services from the non-MEP program/organization to which they were referred. The total is calculated automatically.

FAQ on Dropouts:

How is "drop outs of school" defined? The term used for students, who, during the performance period, were enrolled in a public school for at least one day, but who subsequently left school with no plans on returning to enroll in a school and continue toward a high school diploma. Students who dropped out-of-school prior to the 2011-12 performance period should be classified NOT as "drop-outs" but as "out-of-school youth."

2.3.2.8.2 GED

In the table below, provide the total unduplicated number of **eligible** migrant students who obtained a General Education Development (GED) Certificate in your State.

Obtained GED	#
Obtained a GED in your State During the Performance Period	0
Comments:	

2.3.3 MEP Participation Data Regular School Year

The following questions collect data about the participation of migrant children in MEP-funded services during the regular school year.

Participating migrant children include:

- Children who received instructional or support services funded in whole or in part with MEP funds.
- Eligible migrant children and children who continued to receive MEP-funded services: (1) during the term their eligibility ended, (2) for one additional school year after their eligibility ended, if comparable services were not available through other programs, and (3) in secondary school after their eligibility ended, and served through credit accrual programs until graduation [e.g., children served under the continuation of services authority, Section 1304(e) (1–3)].

Do not include:

- Children who were served through a Title I Schoolwide Program (SWP) where MEP funds were consolidated with those of other programs.
- Children who received only referred services (non-MEP funded).
- Children who were only served during the summer/intersession term.

FAQ on Services:

What are services? Services are a subset of all allowable activities that the MEP can provide through its programs and projects. "Services" are those educational or educationally related activities that: (1) directly benefit a migrant child; (2) address a need of a migrant child consistent with the SEA's comprehensive needs assessment and service delivery plan; (3) are grounded in scientifically based research or, in the case of support services, are a generally accepted practice; and (4) are designed to enable the program to meet its measurable outcomes and contribute to the achievement of the State's performance targets. Activities related to identification and recruitment activities, parental involvement, program evaluation, professional development, or administration of the program are examples of allowable activities that are not considered services. Other examples of an allowable activity that would not be considered a service would be the one-time act of providing instructional packets to a child or family, and handing out leaflets to migrant families on available reading programs as part of an effort to increase the reading skills of migrant children. Although these are allowable activities, they are not services because they do not meet all of the criteria above.

2.3.3.1 MEP Children Served During the Regular School Year

In the table below, provide the unduplicated number of **participating** migrant children who received MEP-funded instructional or support services during the regular school year. Do **not** count the number of times an individual child received a service intervention. The total number of students served is calculated automatically.

FAQs on Support Services:

- a. *What are support services?* These MEP-funded services include, but are not limited to, health, nutrition, counseling, and social services for migrant families; necessary educational supplies, and transportation. The one-time act of providing instructional or informational packets to a child or family does not constitute a support service.
- b. *What are counseling services?* Services to help a student to better identify and enhance his or her educational, personal, or occupational potential; relate his or her abilities, emotions, and aptitudes to educational and career opportunities; utilize his or her abilities in formulating realistic plans; and achieve satisfying personal and social development. These activities take place between one or more counselors and one or more students as counselees, between students and students, and between counselors and other staff members. The services can also help the child address life problems or personal crisis that result from the culture of migrancy.

2.3.4 MEP Participation ~~Summer/Intersession Term~~

The questions in this subsection are similar to the questions in the previous section with one difference. The questions in this subsection collect data on the **summer/intersession term** instead of the regular school year.

2.3.4.1 MEP Students Served During the Summer/Intersession Term

In the table below, provide the unduplicated number of **participating** migrant children who received MEP-funded instructional or support services during the summer/intersession term. Do **not** count the number of times an individual child received a service intervention. The total number of students served is calculated automatically.

Age/Grade	Served During the Summer/Intersession Term
Age Birth through 2	0
Age 3 through 5 (not Kindergarten)	149
K	95
1	66
2	89
3	60
4	65
5	54
6	53
7	38
8	34
9	24
10	22

12	5
Ungraded	1
Out-of-school	18
Total	806
Comments:	

2.3.4.2 Priority for Services-During the Summer/Intersession Term

In the table below, provide the unduplicated number of **participating** migrant children who have been classified as having "priority for services" and who received MEP- funded instructional or support services during the summer/intersession term. The total is calculated automatically.

Age/Grade	Priority for Services During the Summer/Intersession Term
Age 3 through 5	
K	34
1	21
2	36
3	25
4	22
5	19
6	13
7	19
8	12

2.3.4.4 Instructional Service – During the Summer/Intersession Term

In the table below, provide the unduplicated number of **participating** migrant children who received any type of MEP-funded instructional service during the summer/intersession term. Include children who received instructional services provided by either a teacher or a paraprofessional. Children should be reported only once regardless of the frequency with which they received a service intervention. The total is calculated automatically.

Age/Grade	Instructional Service During the Summer/Intersession Term
Age birth through 2	
Age 3 through 5 (not Kindergarten)	149
K	95
1	66
2	89
3	60
4	65
5	54
6	52
7	38
8	33
9	23
10	22
11	33
12	5
Ungraded	1
Out-of-school	18
Total	803
Comments:	

2.3.4.4.1 Type of Instructional Service

In the table below, provide the number of **participating** migrant children reported in the table above who received reading instruction, mathematics instruction, or high school credit accrual during the summer/intersession term. Include children who received such instructional services provided by a teacher only. Children may be reported as having received more than one type of instructional service in the table. However, children should be reported only once within each type of instructional service that they received regardless of the frequency with which they received the instructional service. The totals are calculated automatically.

Age/Grade	Reading Instruction During the Summer/ Intersession Term	Mathematics Instruction During the Summer/ Intersession Term	High School Credit Accrual During the Summer/ Intersession Term
Age birth through 2			
Age 3 through 5 (not Kindergarten)	125	24	
K	94	87	
1	66	64

FAQ on Types of Instructional Services:

What is "*high school credit accrual*"? Instruction in courses that accrue credits needed for high school graduation provided by a teacher for students on a regular or systematic basis, usually for a predetermined period of time. Includes correspondence courses taken by a student under the supervision of a teacher.

2.3.4.4.2 Support Services with Breakout for Counseling Service – During the Summer/Intersession Term

In the table below, in the column titled **Support Services**, provide the unduplicated number of **participating** migrant children who received any MEP-funded support service during the summer/intersession term. In the column titled **Counseling Service**, provide the unduplicated number of **participating** migrant children who received a counseling service during the summer/intersession term. Children should be reported only once in each column regardless of the frequency with which they received a support service intervention. The totals are calculated automatically.

Age/Grade	Support Services During the Summer/Intersession Term	Breakout of Counseling Service During the Summer/Intersession Term
Age birth through 2

2.3.6 School Data During the Regular School Year

The following questions are about the enrollment of eligible migrant children in schools during the regular school year.

2.3.6.1 Schools and Enrollment - During the Regular School Year

In the table below, provide the number of public schools that enrolled **eligible** migrant children at any time during the regular school year. Schools include public schools that serve school age (e.g., grades K through 12) children. Also, provide the number of **eligible** migrant children who were enrolled in those schools. Since more than one school in a State may enroll the same migrant child at some time during the regular school year, the number of children may include duplicates.

Schools	#
Number of schools that enrolled eligible migrant children	68
Number of eligible migrant children enrolled in those schools	642
Comments:	

2.3.6.2 Schools Where MEP Funds Were Consolidated in School Wide Programs (SWP) – During the Regular School Year

In the table below, provide the number of schools where MEP funds were consolidated in an SWP. Also, provide the number of **eligible** migrant children who were enrolled in those schools at any time during the regular school year. Since more than one school in a State may enroll the same migrant child at some time during the regular school year, the number of children may include duplicates.

Schools	#
Number of schools where MEP funds were consolidated in a schoolwide program	
Number of eligible migrant children enrolled in those schools	
Comments:	

2.3.7 MEP Project Data

The following questions collect data on MEP projects.

2.3.7.1 Type of MEP Project

In the table below, provide the number of projects that are funded in whole or in part with MEP funds. A MEP project is the entity that receives MEP funds from the State or through an intermediate entity that receives the MEP funds from the State and provides services directly to the migrant child. Do not include projects where MEP funds were consolidated in SWP.

Also, provide the number of migrant children **participating** in the projects. Since children may participate in more than one project, the number of children may include duplicates.

Type of MEP Project	Number of MEP Projects	Number of Migrant Children Participating in the Projects
Regular school year - school day only	9	601
Regular school year - school day/extended day	0	0
Summer/intersession only	9	998
Year round	1	51
Comments:		

FAQs on type of MEP project:

- a. *What is a project?* A project is any entity that receives MEP funds and provides services directly to migrant children in accordance with the State Service Delivery Plan and State approved subgrant applications or contracts. A project's services may be provided in one or more sites. Each project should be counted once, regardless of the number of sites in which it provides services.
- b. *What are Regular School Year – School Day Only projects?* Projects where all MEP services are provided during the school day during the regular school year.
- c. *What are Regular School Year – School Day/Extended Day projects?* Projects where some or all MEP services are provided during an extended day or week during the regular school year (e.g., some services are provided during the school day and some outside of the school day; e.g., all services are provided outside of the school day).
- d. *What are Summer/Intersession Only projects?* Projects where all MEP services are provided during the summer/intersession term.
- e. *What are Year Round projects?* Projects where all MEP services are provided during the regular school year and summer/intersession term.

2.3.8 MEP Personnel Data

The following questions collect data on MEP personnel data.

2.3.8.1 MEP State Director

In the table below, provide the FTE amount of time the State director performs MEP duties (regardless of whether the director is funded by State, MEP, or other funds) during the performance period (e.g., September 1 through August 31).

State Director FTE	0.20
Comments:	

FAQs on the MEP State director

- a. *How is the FTE calculated for the State director?* Calculate the FTE using the number of days worked for the MEP. To do so, first define how many full-time days constitute one *FTE* for the State director in your State for the performance period. To calculate the FTE number, sum the total days the State director worked for the MEP during the performance period and divide this sum by the number of full-time days that constitute one FTE in the performance period.
- b. *Who is the State director?* The manager within the SEA who administers the MEP on a Statewide basis.

2.3.8.2 MEP Staff

In the table below, provide the headcount and FTE by job classification of the staff funded by the MEP. Do **not** include staff employed in SWP where MEP funds were combined with those of other programs.

Job Classification	Regular School Year		Summer/Intersession Term	
	Headcount	FTE	Headcount	FTE
Teachers	27	6	117	102
Counselors	0	0	0	0
All paraprofessionals	19	7	58	53
Recruiters	1	0	8	8
Records transfer staff	4	1	11	10
Administrators	7	3	16	15
Comments:				

Note: The Headcount value displayed represents the greatest whole number submitted in file specification N/X065 for the corresponding Job Classification. For example, an ESS submitted value of 9.8 will be represented in your CSRP as 9.

FAQs on MEP staff:

- a. *How is the FTE calculated?* The FTE may be calculated using one of two methods:
 1. To calculate the FTE, in each job category, sum the percentage of time that staff were funded by the MEP and enter the total FTE for that category.
 2. Calculate the FTE using the number of days worked. To do so, first define how many full-time days constitute one FTE for each job classification in your State for each term. (For example, one regular-term FTE may equal 180 full-time (8 hour) work days; one summer term FTE may equal 30 full-time work days; or one intersession FTE may equal 45 full-time work days split between three 15-day non-contiguous blocks throughout the year.) To calculate the FTE number, sum the total days the individuals worked in a particular job classification for a term and divide this sum by the number of full-time days that constitute one FTE in that term.
- b. *Who is a teacher?* A classroom instructor who is licensed and meets any other teaching requirements in the State.
- c. *Who is a counselor?* A professional staff member who guides individuals, families, groups, and communities by assisting them in problem-solving, decision-making, discovering meaning, and articulating goals related to personal, educational, and career development.
- d. *Who is a paraprofessional?* An individual who: (1) provides one-on-one tutoring if such tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher; (2) assists with classroom management, such as organizing instructional and other materials; (3) provides instructional assistance in a computer laboratory; (4) conducts parental involvement activities; (5) provides support in a library or media center; (6) acts as a translator; or (7) provides instructional support services under the direct supervision of a teacher (Title I, Section 1119(g)(2)). Because a paraprofessional provides instructional support, he/she should not be providing planned direct instruction or introducing to students new skills, concepts, or academic content. Individuals who work in food services, cafeteria or playground supervision, personal care services, non-instructional computer assistance, and similar positions are not considered paraprofessionals under Title I.
- e. *Who is a recruiter?* A staff person responsible for identifying and recruiting children as eligible for the MEP and documenting their eligibility on the Certificate of Eligibility.
- f. *Who is a record transfer staffer?* An individual who is responsible for entering, retrieving, or sending student records from or to another school or student records system.
- g. *Who is an administrator?* A professional staff member, including the project director or regional director. The SEA MEP Director should not be included.

2.3.8.3 Qualified Paraprofessionals

In the table below, provide the headcount and FTE of the qualified paraprofessionals funded by the MEP. Do **not** include staff employed in SWP where MEP funds were combined with those of other programs.

Type of Professional funded by MEP	Regular School Year		Summer/Intersession Term	
	Headcount	FTE	Headcount	FTE
Qualified Paraprofessionals	12	5.60	44	43.00
Comments:				

FAQs on qualified paraprofessionals:

- a. *How is the FTE calculated?* The FTE may be calculated using one of two methods:
 1. To calculate the FTE, sum the percentage of time that staff were funded by the MEP and enter the total FTE for that category.
 2. Calculate the FTE using the number of days worked. To do so, first define how many full-time days constitute one FTE in your State for each term. (For example, one regular-term FTE may equal 180 full-time (8 hour) work days; one summer term FTE may equal 30 full-time work days; or one intersession FTE may equal 45 full-time work days split between three 15-day non-contiguous blocks throughout the year.) To calculate the FTE number, sum the total days the individuals worked for a term and divide this sum by the number of full-time days that constitute one FTE in that term.
- b. *Who is a qualified paraprofessional?* A qualified paraprofessional must have a secondary school diploma or its recognized equivalent and have (1) completed 2 years of study at an institution of higher education; (2) obtained an associate's (or higher) degree; or (3) met a rigorous standard of quality and be able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness) (Sections 1119(c) and (d) of *ESEA*).

2.4 Prevention AND INTERVENTION PROGRAMS FOR CHILDREN AND YOUTH WHO ARE NEGLECTED, DELINQUENT, OR AT RISK (TITLE I, PART D, SUBPARTS 1 AND 2)

This section collects data on programs and facilities that serve students who are neglected, delinquent, or at risk under Title I, Part D, and characteristics about and services provided to these students.

Throughout this section:

- Report data for the program year of July 1, 2012 through June 30, 2013.
- Count programs/facilities based on how the program was classified to ED for funding purposes.
- Do not include programs funded solely through Title I, Part A.
- Use the definitions listed below:
 - **Adult Corrections:** An adult correctional institution is a facility in which persons, including persons 21 or under, are confined as a result of conviction for a criminal offense.
 - **At-Risk Programs:** Programs operated (through LEAs) that target students who are at risk of academic failure, have a drug or alcohol problem, are pregnant or parenting, have been in contact with the juvenile justice system in the past, are at least 1 year behind the expected age/grade level, have limited English proficiency, are gang members, have dropped out of school in the past, or have a high absenteeism rate at school.
 - **Juvenile Corrections:** An institution for delinquent children and youth is a public or private residential facility other than a foster home that is operated for the care of children and youth who have been adjudicated delinquent or in need of supervision. Include any programs serving adjudicated youth (including non-secure facilities and group homes) in this category.
 - **Juvenile Detention Facilities:** Detention facilities are shorter-term institutions that provide care to children who require secure custody pending court adjudication, court disposition, or execution of a court order, or care to children after commitment.
 - **Neglected Programs:** An institution for neglected children and youth is a public or private residential facility, other than a foster home, that is operated primarily for the care of children who have been committed to the institution or voluntarily placed under applicable State law due to abandonment, neglect, or death of their parents or guardians.
 - **Other:** Any other programs, not defined above, which receive Title I, Part D funds and serve non-adjudicated children and youth.

2.4.1 State Agency Title I, Part D Programs and Facilities- Subpart 1

The following questions collect data on Title I, Part D, Subpart 1 programs and facilities.

2.4.1.1 Programs and Facilities - Subpart 1

In the table below, provide the number of State agency Title I, Part D, Subpart 1 programs and facilities that serve neglected and delinquent students and the average length of stay by program/facility type, for these students.

Report only programs and facilities that received Title I, Part D, Subpart 1 funding during the reporting year. Count a facility once if it offers only one type of program. If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/facilities will be automatically calculated. Below the table is a FAQ about the data collected in this table.

State Program/Facility Type	# Programs/Facilities	Average Length of Stay in Days
Neglected programs		
Juvenile detention		
Juvenile corrections	4	275
Adult corrections	19	150
Other		
Total	23	
Comments: The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title-ID, Subpart I.		

FAQ on Programs and Facilities - Subpart I:

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit, for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

2.4.1.1.1 Programs and Facilities That Reported - Subpart 1

In the table below, provide the number of State agency Title I, Part D, Subpart 1 programs/facilities that reported data on neglected and delinquent students.

The total row will be automatically calculated.

State Program/Facility Type	# Reporting Data
Neglected Programs	
Juvenile Detention	
Juvenile Corrections	4
Adult Corrections	19
Other	
Total	23
Comments: The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title-ID, Subpart I.	

2.4.1.2 Students Served – Subpart 1

In the tables below, provide the number of neglected and delinquent students served in State agency Title I, Part D, Subpart 1 programs and facilities. Report only students who received Title I, Part D, Subpart 1 services during the reporting year. In the first table, provide in row 1 the unduplicated number of students served by each program, and in row 2, the total number of students in row 1 who are long-term. In the subsequent tables provide the number of students served by disability (IDEA) and limited English proficiency (LEP), by race/ethnicity, by sex, and by age. The total number of students by race/ethnicity, by sex and by age will be automatically calculated.

# of Students Served	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Total Unduplicated Students Served			952	1,284	
Total Long Term Students Served			245	987	

Student Subgroups	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Students with disabilities (IDEA)			431	120	
LEP Students			0	4	

Race/Ethnicity	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
American Indian or Alaskan Native			3	0	
Asian			0	0	
Black or African American			593	751	
Hispanic or Latino			21	29	
Native Hawaiian or other Pacific Islander			1	2	
White			270	487	
Two or more races			64	15	
Total			952	1,284	

Sex	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Male			911	1,175	
Female			41	109	
Total			952	1,284	

Age	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
3 through 5			0	0	
6			0	0	
7			0	0	
8			0	0	
9			0	0	
10			0	0	
11			1	0	
12			6	0	
13			25	0	
14			98	0	
15			190	0	
16			292	0	
17			216	1	
18			81	214	
19			43	364	
20			0	447	
21			0	258	
Total			952	1,284	

If the total number of students differs by demographics, please explain in comment box below.

This response is limited to 8,000 characters.

Comments: The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title-D, Subpart I.

FAQ on Unduplicated Count:

What is an unduplicated count? An unduplicated count is one that counts students only once, even if they were admitted to a facility or program multiple times within the reporting year.

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2012 through June 30, 2013.

2.4.1.3.1 Transition Services in Subpart 1

In the first row of the table below indicate whether programs/facilities receiving Subpart 1 funds within the State are able to track student outcomes after leaving the program or facility by entering Yes or No. If not, provide more information in the comment field. In the second row, provide the unduplicated count of students receiving transition services that specifically target planning for further schooling and/or employment.

Transition Services	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Are facilities in your state able to collect data on student outcomes after exit?			No	Yes	
Number of students receiving transition services that address further schooling and/or employment.			276	369	

This response is limited to 4,000 characters.

Comments: The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title-D, Subpart I.

The Ohio Department of Youth Services is not able to track student outcomes after they have officially exited the facility.

The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title I-D, Subpart I.

2.4.1.3.2 Academic and Vocational Outcomes While in the State Agency Program/Facility or Within 90 Calendar Days After Exit

In the table below, for each program type, first provide the unduplicated number of students who attained academic and vocational outcomes while enrolled in the State agency program/facility and next provide the unduplicated number of students who attained academic and vocational outcomes within 90 calendar days after exiting. If a student attained an outcome once in the program/facility and once during the 90 day transition period, that student may be counted once in each column separately.

Outcomes	Neglected Programs		Juvenile Detention		Juvenile Corrections		Adult Corrections		Other Programs	
	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit
# of Students Who Enrolled in their local district school					S	0	7	4		
Earned high school course credits					863	0	8	S		
Enrolled in a GED program					129	0	1,228	S		
Earned a GED					98	0	252	S		
Obtained high school diploma					55	0	8	S		
Accepted and/or enrolled into post-secondary education					S	0	13	6		
Enrolled in job training courses/programs					340	0	199	25		
Obtained employment					S	0	96	33		

This response is limited to 4,000 characters.

Comments: The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title-D, Subpart I.

The Ohio Department of Youth Services is not able to track student outcomes after they have officially exited the facility.

The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title I-D, Subpart I.

2.4.1.6 Academic Performance- Subpart 1

The following questions collect data on the academic performance of neglected and delinquent students served by Title I, Part D, Subpart 1 in reading and mathematics.

2.4.1.6.1 Academic Performance in Reading – Subpart 1

In the tables below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 1, who participated in reading testing. In the first table, report the number of students who tested below grade level upon entry based on their pre-test. A post-test is not required to answer this item. Then, indicate the number of students who completed both a pre-test and a post-test. In the second table, report only students who participated in both pre-and post-testing. Students should be reported in only one of the four change categories in the second table below.

Report only information on a student's most recent testing data. Students who were pre-tested prior to July 1, 2012, may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Below the tables is an FAQ about the data collected in these tables.

Performance Data (Based on most recent testing data)	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Long-term students who tested below grade level upon entry			201	804	
Long-term students who have complete pre- and post-test results (data)			51	759	

Of the students reported in the second row above, indicate the number who showed:

Performance Data (Based on most recent pre/post-test data)	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Negative grade level change from the pre- to post-test exams			15	65	
No change in grade level from the pre- to post-test exams			12	69	
Improvement up to one full grade level from the pre- to post-test exams			4	281	
Improvement of more than one full grade level from the pre- to post-test exams			20	344	
Comments: The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title-ID, Subpart I.					

FAQ on long-term students:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2012 through June 30, 2013.

2.4.1.6.2 Academic Performance in Mathematics – Subpart 1

This section is similar to 2.4.1.6.1. The only difference is that this section collects data on mathematics performance.

Performance Data (Based on most recent testing data)	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Long-term students who tested below grade level upon entry			54	851	
Long-term students who have complete pre- and post-test results (data)			8	763	

Of the students reported in the second row above, indicate the number who showed:

Performance Data (Based on most recent pre/post-test data)	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Negative grade level change from the pre- to post-test exams			4	51	
No change in grade level from the pre- to post-test exams			5	31	
Improvement up to one full grade level from the pre- to post-test exams			5	250	
Improvement of more than one full grade level from the pre- to post-test exams			5	431	
Comments: The State of Ohio does not fund Neglected, Juvenile Detention, or Other programs with Title-ID, Subpart I.					

2.4.2 LEA Title I, Part D Programs and Facilities- Subpart 2

The following questions collect data on Title I, Part D, Subpart 2 programs and facilities.

2.4.2.1 Programs and Facilities – Subpart 2

In the table below, provide the number of LEA Title I, Part D, Subpart 2 programs and facilities that serve neglected and delinquent students and the yearly average length of stay by program/facility type for these students. Report only the programs and facilities that received Title I, Part D, Subpart 2 funding during the reporting year. Count a facility once if it offers only one type of program. If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/ facilities will be automatically calculated. Below the table is an FAQ about the data collected in this table.

LEA Program/Facility Type	# Programs/Facilities	Average Length of Stay (# days)
At-risk programs		
Neglected programs	45	124
Juvenile detention	42	16
Juvenile corrections	33	144
Other		
Total	120	

Comments: The State of Ohio does not fund ARisk or Other programs with Title I-D, Subpart 2.

One Local Education Agency in Ohio was unable to report data at the present time. Ashland City Schools is responsible for the reporting of one Juvenile Detention facility that was ordered closed by the county court system and there are no records available for 2012-2013.

FAQ on average length of stay:

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

2.4.2.1.1 Programs and Facilities That Reported - Subpart 2

In the table below, provide the number of LEA Title I, Part D, Subpart 2 programs and facilities that reported data on neglected and delinquent students.

The total row will be automatically calculated.

LEA Program/Facility Type	# Reporting Data
At-risk programs	
Neglected programs	45
Juvenile detention	42
Juvenile corrections	33
Other	
Total	120

Comments: The State of Ohio does not fund ARisk or Other programs with Title I-D, Subpart 2.

One Local Education Agency in Ohio was unable to report data at the present time. Ashland City Schools is responsible for the reporting of one Juvenile Detention facility that was ordered closed by the county court system and there are no records available for 2012-2013.

The State of Ohio does not fund At-Risk or Other programs with Title I-D, Subpart II.

2.4.2.2 Students Served – Subpart 2

In the tables below, provide the number of neglected and delinquent students served in LEA Title I, Part D, Subpart 2 programs and facilities. Report only students who received Title I, Part D, Subpart 2 services during the reporting year. In the first table, provide in row 1 the unduplicated number of students served by each program, and in row 2, the total number of students in row 1 who are long-term. In the subsequent tables, provide the number of students served by disability (IDEA), and limited English proficiency (LEP), by race/ethnicity, by sex, and by age. The total number of students by race/ethnicity, by sex, and by age will be automatically calculated.

# of Students Served	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Total Unduplicated Students Served		2,496	14,460	2,537	
Total Long Term Students Served		1,455	350	1,624	

Student Subgroups	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Students with disabilities (IDEA)		1,060	2,647	781	
LEP Students		17	71		

Race/Ethnicity	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
American Indian or Alaska Native		4	11	2	
Asian		31	23	1	
Black or African American		1,038	5,541	1,127	
Hispanic or Latino		100	422	56	
Native Hawaiian or other Pacific Islander		59	5		
White		1,143	7,814	1,218	
Two or more races		121	644	133	
Total		2,496	14,460	2,537	

Sex	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Male		1,374	10,621	2,231	
Female		1,122	3,839	306	
Total		2,496	14,460	2,537	

Age	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
3-5		2			
6		3			
7		18			
8		17	1	1	
9		21	7	3	
10		44	22	5	
11		81	111	9	
12		103	393	23	
13		171	922	91	
14		326	1,923	252	
15		454	2,831	485	
16		539	3,440	672	
17		456	4,036	750	
18		214	636	214	
19		35	112	28	
20		11	23	3	
21		1	3	1	

Total		2,496	14,460	2,537	
-------	--	-------	--------	-------	--

If the total number of students differs by demographics, please explain. The response is limited to 8,000 characters.

The State of Ohio does not fund At-Risk or Other programs with Title I-D, Subpart 2.

FAQ on Unduplicated Count:

What is an unduplicated count? An unduplicated count is one that counts students only once, even if they were admitted to a facility or program multiple times within the reporting year.

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2012 through June 30, 2013.

2.4.2.3.1 Transition Services in Subpart 2

In the first row of the table below indicate whether programs/facilities receiving Subpart 2 funds within the State are able to track student outcomes after leaving the program or facility by entering Yes or No. If not, provide more information in the comment field. In the second row, provide the unduplicated count of students receiving transition services that specifically target planning for further schooling and/or employment.

Transition Services	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Are facilities in your state able to collect data on student outcomes after exit?		Yes	Yes	Yes	
Number of students receiving transition services that address further schooling and/or employment.		519	850	651	

This response is limited to 4,000 characters.

Comments: The State of Ohio does not fund ARisk or Other programs with Title I-D, Subpart 2.

2.4.2.3.2 Academic and Vocational Outcomes While in the LEA Program/Facility or Within 90 Calendar Days After Exit

In the table below, for each program type, first provide the unduplicated number of students who attained academic and vocational outcomes while enrolled in the LEA program/facility and next provide the unduplicated number of students who attained academic and vocational outcomes within 90 calendar days after exiting. If a student attained an outcome once in the program/facility and once during the 90 day transition period, that student may be counted once in each column separately.

Outcomes	At-Risk Programs		Neglected Programs		Juvenile Detention		Juvenile Corrections		Other Programs	
	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit
# of Students Who Enrolled in their local district school			631	674	2,915	1,267	545	401		
Earned high school course credits			974	219	1,534	290	1,307	272		
Enrolled in a GED program			87	34	59	11	118	4		
Earned a GED			25	17	15	27	53	4		
Obtained high school diploma			43	S	12	4	62	16		
Accepted and/or enrolled into post-secondary education			15	11	S	S	120	4		
Enrolled in job training courses/programs			13	6	S		132	S		
Obtained employment			29	8	S		12	5		

This response is limited to 4,000 characters.

Comments: The State of Ohio does not fund ARisk or Other programs with Title I-D, Subpart 2.

2.4.2.6 Academic Performance- Subpart 2

The following questions collect data on the academic performance of neglected and delinquent students served by Title I, Part D, Subpart 2 in reading and mathematics.

2.4.2.6.1 Academic Performance in Reading – Subpart 2

In the tables below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 2, who participated in reading testing. In the first table, report the number of students who tested below grade level upon entry based on their pre-test. A post-test is not required to answer this item. Then, indicate the number of students who completed both a pre-test and a post-test. In the second table, report only students who participated in both pre-and post-testing. Students should be reported in only one of the four change categories in the second table below. Reporting pre- and post-test data for at-risk students in the tables below is optional.

Report only information on a student's most recent testing data. Students who were pre-tested prior to July 1, 2012, may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Below the tables is an FAQ about the data collected in these tables.

Performance Data (Based on most recent testing data)	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Long-term students who tested below grade level upon entry		708	150	814	
Long-term students who have complete pre- and post-test results (data)		744	102	680	

Of the students reported in the second row above, indicate the number who showed:

Performance Data (Based on most recent pre/post-test data)	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Negative grade level change from the pre- to post-test exams		158	5	127	
No change in grade level from the pre- to post-test exams		142	24	147	
Improvement up to one full grade level from the pre- to post-test exams		258	44	161	
Improvement of more than one full grade level from the pre- to post-test exams		186	29	245	
Comments: The State of Ohio does not fund ARisk or Other programs with Title I-D, Subpart 2.					

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2012, through June 30, 2013.

Is reporting pre-posttest data for at-risk programs required? No, reporting pre-posttest data for at-risk students is no longer required, but States have the option to continue to collect and report it within the CSPR.

2.4.2.6.2 Academic Performance in Mathematics – Subpart 2

This section is similar to 2.4.2.6.1. The only difference is that this section collects data on mathematics performance.

Performance Data (Based on most recent testing data)	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Long-term students who tested below grade level upon entry		564	145	901	
Long-term students who have complete pre- and post-test results (data)		630	92	753	

Of the students reported in the second row above, indicate the number who showed:

Performance Data (Based on most recent pre/post-test data)	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Negative grade level change from the pre- to post-test exams		109	7	126	
No change in grade level from the pre- to post-test exams		145	31	163	
Improvement up to one full grade level from the pre- to post-test exams		197	33	181	
Improvement of more than one full grade level from the pre- to post-test exams		179	21	283	
Comments: The State of Ohio does not fund At-Risk or Other programs with Title I-D, Subpart 2.					

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2012, through June 30, 2013.

Is reporting pre/post-test data for at-risk programs required? No, reporting pre/post-test data for at-risk students is no longer required, but States have the option to continue to collect and report it within the CSPR.

2.7 Safe and DRUG FREE SCHOOLS AND COMMUNITIES ACT (TITLE IV, PART A)

This section collects data on student behaviors under the *Safe and Drug-Free Schools and Communities Act*.

2.7.1 Performance Measures

In the table below, provide actual performance data.

Performance Indicator	Instrument/ Data Source	Frequency of Collection	Year of most recent collection	Targets	Actual Performance	Baseline	Year Baseline Established
Decrease by 5% the number of out-of-school suspensions and expulsions for ATOD use/possession/sale/distribution on school grounds between the 2002-2003 school year and the 2006-2007 school year. Decrease this number by another 1% by the end of the 2008-2009, 2010-2011, 2012-2013, 2014-2015, and 2016-2017 school years.	Education Management Information System (EMIS)	Annually	2012-2013	2010-11: 11,385	2010-11: 10,373	12,242	2002-2003
				2011-12: 11,324	2011-12: 10,160		
				2012-13: 11,263	2012-13: 9,264		
				2013-14: 11,201			
				2014-15: 11,140			
Comments:

2.7.2 Out-of-School Suspensions and Expulsions

The following questions collect data on the out-of-school suspension and expulsion of students by grade level (e.g., K through 5, 6 through 8, 9 through 12) and type of incident (e.g., violence, weapons possession, alcohol-related, illicit drug-related).

2.7.2.1 State Definitions

In the spaces below, provide the State definitions for each type of incident.

Incident Type	State Definition
Alcohol related	"Alcohol-Related Incident" is defined as the use, possession, sale, or distribution of intoxicating alcoholic beverages.
Illicit drug related	"Illicit Drug-Related Incident" is defined as the use, possession, sale, or distribution of any controlled drug other than prescription medication that has been administered in accordance with the district's policies.
Violent incident without physical injury	"Fighting/Violence" is defined as mutual participation in an incident involving physical violence.
Violent incident with physical injury	"Serious Bodily Injury" is defined as an incident that results in serious bodily injury (i.e., "a bodily injury that involves substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ, or faculty") to oneself or others.
Weapons possession	<p>*Ohio has three separate weapons classifications that are aggregated for CSPR reporting.</p> <p>"Weapons Possession" is defined as:</p> <ol style="list-style-type: none"> 1) "Use, Possession, Sale, or Distribution of a Firearm" - Any weapon that will, is designed to, or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of any such weapon; any firearm, muffler, or firearm silencer; or any machine gun. This includes zip guns, starter guns, and flare guns. 2) "Use, Possession, Sale, or Distribution of a Weapon Other Than a Firearm or Explosive, Incendiary, or Poison Gas" - Any weapon, device, instrument, material, or substance, animate or inanimate, that is used for or is readily capable of causing death or serious bodily injury, except that such a term does not include a pocket knife with a blade of less than 2½ inches in length. 3) "Use, Possession, Sale, or Distribution of Any Explosive, Incendiary, or Poison Gas" - Any destructive device, which includes a bomb, a grenade, a rocket having a propellant charge of more than four ounces, a missile having an explosive or incendiary charge of more than one-quarter ounce, and a mine or similar device. This includes any weapon that will or that may be readily converted to expel a projectile by the action of an explosive or other propellant, and that has any barrel with a bore of more than one-half inch in diameter.
Comments:	

2.7.2.2 Out-of-School Suspensions and Expulsions for Violent Incident Without Physical Injury

The following questions collect data on violent incident without physical injury.

2.7.2.2.1 Out-of-School Suspensions for Violent Incident Without Physical Injury

In the table below, provide the number of out-of-school suspensions for violent incident without physical injury by grade level. Also, provide the number of LEAs that reported data on violent incident without physical injury, including LEAs that report no incidents.

Grades	# Suspensions for Violent Incident Without Physical Injury	# LEAs Reporting
K through 5	18,699	575
6 through 8	21,965	653
9 through 12	12,422	590
Comments:		

2.7.2.2.2 Out-of-School Expulsions for Violent Incident Without Physical Injury

In the table below, provide the number of out-of school expulsions for violent incident without physical injury by grade level. Also, provide the number of LEAs that reported data on violent incident without physical injury, including LEAs that report no incidents.

Grades	# Expulsions for Violent Incident Without Physical Injury	# LEAs Reporting
K through 5	64	25
6 through 8	290	72
9 through 12	542	121
Comments:		

2.7.2.3 Out-of-School Suspensions and Expulsions for Violent Incident with Physical Injury

The following questions collect data on violent incident with physical injury.

2.7.2.3.1 Out-of-School Suspensions for Violent Incident with Physical Injury

In the table below, provide the number of out-of-school suspensions for violent incident with physical injury by grade level. Also, provide the number of LEAs that reported data on violent incident with physical injury, including LEAs that report no incidents.

Grades	# Suspensions for Violent Incident with Physical Injury	# LEAs Reporting
K through 5	1,361	54
6 through 8	909	53
9 through 12	842	30
Comments:		

2.7.2.3.2 Out-of-School Expulsions for Violent Incident with Physical Injury

In the table below, provide the number of out-of school expulsions for violent incident with physical injury by grade level. Also, provide the number of LEAs that reported data on violent incident with physical injury, including LEAs that report no incidents.

Grades	# Expulsions for Violent Incident with Physical Injury	# LEAs Reporting
K through 5	8	3
6 through 8	38	4
9 through 12	91	11
Comments:		

2.7.2.4 Out-of-School Suspensions and Expulsions for Weapons Possession

The following sections collect data on weapons possession.

2.7.2.4.1 Out-of-School Suspensions for Weapons Possession

In the table below, provide the number of out-of-school suspensions for weapons possession by grade level. Also, provide the number of LEAs that reported data on weapons possession, including LEAs that report no incidents.

Grades	# Suspensions for Weapons Possession	# LEAs Reporting
K through 5	1,129	325
6 through 8	916	311
9 through 12	735	274
Comments:		

2.7.2.4.2 Out-of-School Expulsions for Weapons Possession

In the table below, provide the number of out-of-school expulsions for weapons possession by grade level. Also, provide the number of LEAs that reported data on weapons possession, including LEAs that report no incidents.

Grades	# Expulsion for Weapons Possession	# LEAs Reporting
K through 5	87	35
6 through 8	146	74
9 through 12	172	82
Comments:		

2.7.2.5 Out-of-School Suspensions and Expulsions for Alcohol-Related Incidents

The following questions collect data on alcohol-related incidents.

2.7.2.5.1 Out-of-School Suspensions for Alcohol-Related Incidents

In the table below, provide the number of out-of-school suspensions for alcohol-related incidents by grade level. Also, provide the number of LEAs that reported data on alcohol-related incidents, including LEAs that report no incidents.

Grades	# Suspensions for Alcohol-Related Incidents	# LEAs Reporting
K through 5	22	14
6 through 8	172	69
9 through 12	784	208
Comments:		

2.7.2.5.2 Out-of-School Expulsions for Alcohol-Related Incidents

In the table below, provide the number of out-of-school expulsions for alcohol-related incidents by grade level. Also, provide the number of LEAs that reported data on alcohol-related incidents, including LEAs that report no incidents.

Grades	# Expulsion for Alcohol-Related Incidents	# LEAs Reporting
K through 5	S	1
6 through 8	16	15
9 through 12	40	22
Comments:		

2.7.2.6 Out-of-School Suspensions and Expulsions for Illicit Drug-Related Incidents

The following questions collect data on illicit drug-related incidents.

2.7.2.6.1 Out-of-School Suspensions for Illicit Drug-Related Incidents

In the table below, provide the number of out-of-school suspensions for illicit drug-related incidents by grade level. Also, provide the number of LEAs that reported data on illicit drug-related incidents, including LEAs that report no incidents.

Grades	# Suspensions for Illicit Drug-Related Incidents	# LEAs Reporting
K through 5	116	59
6 through 8	803	254
9 through 12	2,735	431
Comments:		

2.7.2.6.2 Out-of-School Expulsions for Illicit Drug-Related Incidents

In the table below, provide the number of out-of-school expulsions for illicit drug-related incidents by grade level. Also, provide the number of LEAs that reported data on illicit drug-related incidents, including LEAs that report no incidents.

Grades	# Expulsion for Illicit Drug-Related Incidents	# LEAs Reporting
K through 5	5	5
6 through 8	135	66
9 through 12	388	145
Comments:		

2.7.3 Parent Involvement

In the table below, provide the types of efforts your State uses to inform parents of, and include parents in, drug and violence prevention efforts. Place a check mark next to the five most common efforts underway in your State. If there are other efforts underway in your State not captured on the list, add those in the other specify section.

Yes	Parental Involvement Activities
Yes	Information dissemination on Web sites and in publications, including newsletters, guides, brochures, and "report cards" on school performance
Yes	Training and technical assistance to LEAs on recruiting and involving parents
Yes	State requirement that parents must be included on LEA advisory councils
Yes	State and local parent training, meetings, conferences, and workshops
Yes	Parent involvement in State-level advisory groups
Yes	Parent involvement in school-based teams or community coalitions
Yes	Parent surveys, focus groups, and/or other assessments of parent needs and program effectiveness
Yes	Media and other campaigns (Public service announcements, red ribbon campaigns, kick-off events, parenting awareness month, safe schools week, family day, etc.) to raise parental awareness of drug and alcohol or safety issues
Yes	Other Specify 1
Yes	Other Specify 2

In the space below, specify 'other' parental activities.

The response is limited to 8,000 characters.

During the 2012-2013 school year, the Ohio Department of Education (ODE) maintained responsibility for supporting the implementation of Ohio School Climate Guidelines, Anti-HIB policy, and Positive Behavior Intervention Supports (PBIS) to reduce incidents of student violence and student discipline in Ohio schools. Maintaining a focus on best practices and prevention/intervention services, ODE continues to provide professional development and technical assistance to ensure Ohio's schools remain safe. This has been demonstrated through Ohio's Anti-HIB initiative and the revision of the Safety and Violence Prevention Curriculum (SVPC). The SVPC makes educators aware of risk behaviors students might demonstrate. Educators who are well-connected with their students, aware of these types of risk behaviors, and knowledgeable about how to respond to them can reduce incidents of student violence and promote a positive school climate and safe learning environments. To advise districts' policy implementation aimed at reducing incidents of bullying, ODE's Anti-HIB Web resources page has been revised (<http://education.ohio.gov/Topics/Other-Resources/School-Safety/Safe-and-Supportive-Learning/Anti-Harassment-Intimidation-and-Bullying-Resource>). Numerous resources are provided in various categories to meet the needs of educators, parents, and students.

To further the implementation of Ohio's Comprehensive System of Learning Supports, ODE is partnering with the Ohio Department of Mental Health and Addiction Services to administer the Safe Schools/Healthy Students Grant. Since 2007, Ohio has advised districts to make data-driven decisions for the purpose of identifying school and community partnerships to meet the prevention and intervention needs of students and families. The Safe Schools/Healthy Students Grant administered by the Substance Abuse and Mental Health Services Administration (SAMSHA) requires a partnership between ODE and the Ohio Department of Mental Health and Addiction Services (ODMHAS) to use data to assist school and community partnerships in developing systems of services for students and families at the county level. ODE is excited to be of assistance in developing state and local plans that describe how school districts across the state can also develop these structures of support.

To provide a framework for implementing all stages of student needs, the Positive Behavior Intervention Supports (PBIS) model guides school districts in their attempts to reduce student risk behaviors. A PBIS school has a broad-based consensus among its staff as to the value of the framework, as well as a commitment to sustain the framework over time to reduce incidents of student violence and discipline. A cornerstone among PBIS schools is their consistency in maintaining and supporting behavioral expectations for students throughout the school environment.

ODE also continues to specifically engage parents with a best practices page on its Web site (<http://education.ohio.gov/Topics/Other-Resources/Family-and-Community-Engagement/Getting-Parents-Involved/Sample-Best-Practices-for-Parent-Involvement-in-Sc>). Additionally, the Superintendent's Parent Advisory Council (PAC), comprised of approximately 20 members representing parents, families, and community-based organizations, meets throughout the year to receive education updates and to share information and resources with families, schools, and community members. Through the PAC, members work to increase parent and family involvement in education through effective communication, while also empowering and advocating for all families. It provides feedback on new ODE policies, products, and materials for families, and then shares what it has learned with local families and community organizations to enrich the education experience.

2.9 Rural EDUCATION ACHIEVEMENT PROGRAM (REAP) (TITLE VI, PART B, SUBPARTS 1 AND 2)

This section collects data on the Rural Education Achievement Program (REAP) Title VI, Part B, Subparts 1 and 2.

2.9.2 LEA Use of Rural Low-Income Schools Program (RLIS) (Title VI, Part B, Subpart 2) Grant Funds

In the table below, provide the number of eligible LEAs that used RLIS funds for each of the listed purposes.

Purpose	# LEA
Teacher recruitment and retention, including the use of signing bonuses and other financial incentives	2
Teacher professional development, including programs that train teachers to utilize technology to improve teaching and to train special needs teachers	35
Educational technology, including software and hardware as described in Title II, Part D	44
Parental involvement activities	17
Activities authorized under the Safe and Drug-Free Schools Program (Title IV, Part A)	28
Activities authorized under Title I, Part A	57
Activities authorized under Title III (Language instruction for LEP and immigrant students)	3
Comments:	

2.9.2.1 Goals and Objectives

In the space below, describe the progress the State has made in meeting the goals and objectives for the Rural Low-Income Schools (RLIS) Program as described in its June 2002 Consolidated State application. Provide quantitative data where available.

The response is limited to 8,000 characters.

There were 109 Local Educational Agencies (LEAs) in Ohio that participated in the Rural and Low-Income School (RLIS) Program during SY2012-2013.

1. Under Ohio's approved ESEA Flexibility Request, the State no longer measures Adequate Yearly Progress (AYP), instead evaluating buildings and LEAs with a set of Annual Measurable Objectives (AMOs) and demotion criteria in order to assign a final Letter Grade to each building and LEA. The three AMOs are Reading Percent Proficient, Mathematics Percent Proficient, and Graduation Rate. No building or LEA may receive a final Letter Grade of A if any student subgroup of sufficient size to be evaluated (i.e., $N = 30$) scores below 70.0% on any of the three AMOs. Additionally, any building or LEA that has at least one student subgroup of sufficient size that does not meet the 95.0% target for Reading Participation Rate and Mathematics Participation Rate or the 93.0% target for Attendance Rate will be demoted by one letter grade. Within this system, receiving a final Letter Grade of C is equivalent to meeting AYP under the former evaluation rules.

A. Among the 109 LEAs participating in RLIS during the 2012-2013 school year, their final Letter Grade distribution is as follows:

- 3 LEAs (2.8%) received As.
- 17 LEAs received Bs. Another 4 LEAs were demoted from A to B for not meeting targets in Reading Percent Proficient, Mathematics Percent Proficient, Graduation Rate, and Attendance Rate. The total number of LEAs that received Bs is 21 (19.3%).
- 15 LEAs received Cs, and 5 LEAs were demoted from B to C for not meeting the Attendance Rate target. So, a total of 20 LEAs (18.3%) received Cs.
- 13 LEAs received Ds as their final Letter Grades. 4 additional LEAs received demotions from C to D for not reaching the Attendance Rate target. 17 LEAs total (15.6%) received Ds.
- Finally, 23 LEAs received a final Letter Grade of F. Another 6 LEAs were demoted from D to F for not meeting the Attendance Rate target. An additional 19 LEAs that received Fs were also demoted, but since there is no letter grade lower than F, Fs are what they received. One of these LEAs was demoted for not meeting the Mathematics Participation Rate target, while the others were demoted for not meeting the target for Attendance Rate. In sum, 48 LEAs (44.0%) received Fs.

B. 7 LEAs had a sufficient number of students ($N = 30$) in their Limited English Proficient (LEP) student subgroup to be evaluated on the AMOs. 3 LEP subgroups met the Reading Percent Proficient AMO, and 2 met the Mathematics Percent Proficient AMO. None had enough students to be evaluated for the Graduation Rate AMO. For the demotion criteria, 5 LEP subgroups met the Reading Participation Rate target (NB: 2 subgroups were not evaluated), 6 met the Mathematics Participation Rate target (NB: 1 subgroup was not evaluated), and all 7 met the Attendance Rate target.

2. Highly Qualified Teacher Results:

A. 94 of 109 LEAs exceeded the State's Percentage of Core Academic Subject Elementary and Secondary School Classes Taught by Highly Qualified Teachers (86.2%). This represents a decrease of 3.9% from the performance of 81 RLIS LEAs (90.1%) in SY2011-2012. The State-level percentage also decreased slightly, from 99.1% in SY2010-2011 to 99.2% for SY2011-2012, then down to 99.0% in SY2012-2013.

B. 89 of 109 LEAs met the federal requirement of having 100.0% of core academic subject elementary and secondary school classes taught by Highly Qualified Teachers (81.7%). This represents an increase of 3.9% over the performance of 81 RLIS LEAs (77.8%) in SY2011-2012.

3. Safe and Drug-Free Schools and Communities Results:

A. 28 of 109 LEAs used funds for activities authorized under the Title IV-A Safe and Drug-Free Schools and Communities Program (25.7%). This represents an increase of 2.2% from the performance of 81 REAP LEAs (23.5%) in SY2011-2012.

B. 0 of 107 LEAs contained any schools defined as Persistently Dangerous (0.0%). This is identical to the performance of 81 REAP LEAs (0.0%) in SY2011-2012.

2.10 Funding TRANSFERABILITY FOR STATE AND LOCAL EDUCATIONAL AGENCIES (TITLE VI, PART A, SUBPART 2)**2.10.1 State Transferability of Funds**

In the table below, indicate whether the state transferred funds under the state transferability authority.

State Transferability of Funds	Yes/No
Did the State transfer funds under the State Transferability authority of Section 6123(a) during SY 2012-13?	<input type="checkbox"/> No
Comments:	

2.10.2 Local Educational Agency (LEA) Transferability of Funds

In the table below, indicate the number of LEAs that notified that state that they transferred funds under the LEA transferability authority.

LEA Transferability of Funds	#
LEAs that notified the State that they were transferring funds under the LEA Transferability authority of Section 6123(b).	11
Comments:	

2.10.2.1 LEA Funds Transfers

In the table below, provide the total number of LEAs that transferred funds from an eligible program to another eligible program.

Program	# LEAs Transferring Funds FROM Eligible Program	# LEAs Transferring Funds TO Eligible Program
Improving Teacher Quality State Grants (Section 2121)	11	0
Educational Technology State Grants (Section 2412(a)(2)(A))	0	0
Safe and Drug-Free Schools and Communities (Section 4112(b)(1))	0	0
State Grants for Innovative Programs (Section 5112(a))	0	0
Title I, Part A, Improving Basic Programs Operated by LEAs		11

In the table below provide the total amount of FY 2012 appropriated funds transferred from and to each eligible program.

Program	Total Amount of Funds Transferred FROM Eligible Program	Total Amount of Funds Transferred TO Eligible Program
Improving Teacher Quality State Grants (Section 2121)	443,324.50	0.00
Educational Technology State Grants (Section 2412(a)(2)(A))	0.00	0.00
Safe and Drug-Free Schools and Communities (Section 4112(b)(1))	0.00	0.00
State Grants for Innovative Programs (Section 5112(a))	0.00	0.00
Title I, Part A, Improving Basic Programs Operated by LEAs		443,324.50
Total	443,324.50	443,324.50
Comments:		

The Department plans to obtain information on the use of funds under both the State and LEA Transferability Authority through evaluation studies.

2.11 Graduation RATES ⁴

This section collects graduation rates.

2.11.1 Regulatory Adjusted Cohort Graduation Rates

In the table below, provide the graduation rates calculated using the methodology that was approved as part of the State's accountability plan for the **current school year** (SY 2012-13). Below the table are FAQs about the data collected in this table.

Note: States are not required to report these data by the seven (7) racial/ethnic groups; instead, they are required to report these data by the major racial and ethnic groups that are identified in their Accountability Workbooks. The charts below display racial/ethnic data that has been mapped back from the major racial and ethnic groups identified in their workbooks, to the 7 racial/ethnic groups to allow for the examination of data across states.

Student Group	Graduation Rate
All Students	82.1
American Indian or Alaska Native	68
Asian or Pacific Islander	89
<i>Asian</i>	
<i>Native Hawaiian or Other Pacific Islander</i>	
Black or African American	63.2
Hispanic or Latino	68.8
White	86.9
Two or more races	74.0
Children with disabilities (<i>IDEA</i>)	68.9
Limited English proficient (LEP) students	67
Economically disadvantaged students	69.4

FAQs on graduation rates:

What is the regulatory adjusted cohort graduation rate? For complete definitions and instructions, please refer to the non-regulatory guidance, which can be found here: <http://www2.ed.gov/policy/elsec/guid/hsgrguidance.pdf>.

The response is limited to 8,000 characters.

These results have been verified as correct.

⁴ The "Asian/Pacific Islander" row in the tables below represent either the value reported by the state to the Department of Education for the major racial and ethnic group "Asian/Pacific Islander" or an aggregation of values reported by the state for the major racial and ethnic groups "Asian" and "Native Hawaiian/Other Pacific Islander or Pacific Islander" (and "Filipino" in the case of California). When the values reported in the Asian/Pacific Islander row represent the U. S. Department of Education aggregation of other values reported by the state, the detail for "Asian" and "Native Hawaiian or Other Pacific Islander" are also included in the following rows. Disaggregated reporting for the adjusted cohort graduation rate data is done according to the provisions outlined within each state's Accountability Workbook. Accordingly, not every state uses major racial and ethnic groups which enable detail of Asian American/Pacific Islander (AAPI) populations.

2.12 LIST OF SCHOOLS AND DISTRICTS

This section contains data on school statuses. States with approved ESEA Flexibility requests should follow the instructions in sections 2.12.1 and 2.12.3. All other states should follow the instructions in sections 2.12.2 and 2.12.4. These tables will be generated based on data submitted to ED*Facts* and included as part of each state's certified report; states will no longer upload their lists separately. Data will be generated into separate reports for each question listed below.

2.12.1 List of Schools for ESEA Flexibility States

2.12.1.1 List of Reward Schools

Instructions for States that identified reward schools⁶ under ESEA flexibility for SY 2013-14 : Provide the information listed in the bullets below for those schools.

- District Name
- District NCES ID Code
- School Name
- School NCES ID Code
- Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- Whether the school met the 95 percent participation rate target for the mathematics assessment
- Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- If applicable, State-specific status in addition to reward (e.g., grade, star, or level)
- Whether the school was identified as a high progress or high performing reward school
- Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- Whether (yes or no) the school was provided assistance through 1003(a).
- Whether (yes or no) the school was provided assistance through 1003(g).

The data for this question are reported through ED*Facts* files and compiled in the EDEN030 "List of Reward Schools" report in the ED*Facts* Reporting System (ERS). The ED*Facts* files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN030 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁶ The definition of reward schools is provided in the document titled, ESEA Flexibility. This document may be accessed on the Department's Web page at <http://www.ed.gov/esea/flexibility/documents/esea-flexibility.doc>

2.12.1.2 List of Priority and Focus Schools

Instructions for States that identified priority and focus schools⁸ under ESEA flexibility for SY 2013-14 : Provide the information listed in the bullets below for those schools.

- District Name
- District NCES ID Code
- School Name
- School NCES ID Code
- Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- Whether the school met the 95 percent participation rate target for the mathematics assessment
- Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- Status for SY 2013-14 (Use one of the following status designations: priority or focus)
- If applicable, State-specific status in addition to priority or focus (e.g., grade, star, or level)
- Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- Whether (yes or no) the school was provided assistance through Section 1003(a).
- Whether (yes or no) the school was provided assistance through Section 1003(g).

The data for this question are reported through EDFacts files and compiled in the EDEN031 "List of Priority and Focus Schools" report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN031 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁸ The definitions of priority and focus schools are provided in the document titled, *ESEA Flexibility*. This document may be accessed on the Department's Web page at <http://www.ed.gov/esea/flexibility/documents/esea-flexibility.doc>

2.12.1.3 List of Other Identified Schools

Instructions for States that identified non- priority, focus, or reward schools⁹ with State-specific statuses under ESEA flexibility for SY 2013-14 : Provide the information listed in the bullets below for those schools.

- District Name
- District NCES ID Code
- School Name
- School NCES ID Code
- Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- Whether the school met the 95 percent participation rate target for the mathematics assessment
- Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- State-specific designation (e.g., grade, star, or level)
- Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- Whether (yes or no) the school was provided assistance through Section 1003(a).
- Whether (yes or no) the school was provided assistance through Section 1003(g).

The data for this question are reported through ED Facts files and compiled in the EDEN032 "List of Other Identified Schools" report in the ED Facts Reporting System (ERS). The ED Facts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN032 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁹ The definitions of reward, priority, and focus schools are provided in the document titled, ESEA Flexibility. This document may be accessed on the Department's Web page at <http://www.ed.gov/esea/flexibility/documents/esea-flexibility.doc>.

2.12.2 List of Schools for All Other States

2.12.2.1 Instructions for States that identified schools for improvement, corrective action, or restructuring under ESEA section 1116 for SY 2013-14: Provide the information listed in the bullets below for those schools.

- District Name
- District NCES ID Code
- School Name
- School NCES ID Code
- Whether the school met the proficiency target in reading/language arts in accordance with the State's Accountability Plan
- Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- Whether the school met the proficiency target in mathematics in accordance with the State's Accountability Plan
- Whether the school met the 95 percent participation rate target for the mathematics assessment
- Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's Accountability Plan
- Whether the school met the graduation rate target for high schools (if applicable) in accordance with the State's Accountability Plan
- Status for SY 2013-14 (Use one of the following status designations: School Improvement – Year 1, School Improvement – Year 2, Corrective Action, Restructuring Year 1 (planning), or Restructuring Year 2 (implementing))¹⁰
- Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- Whether (yes or no) the school was provided assistance through Section 1003(a).
- Whether (yes or no) the school was provided assistance through Section 1003(g).

The data for this question are reported through EDFacts files and compiled in the EDEN033 "List of Schools Identified for Improvement" report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN033 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

¹⁰ The school improvement statuses are defined in *LEA and School Improvement Non-Regulatory Guidance*. This document may be accessed on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.

2.12.3 List of Districts for ESEA Flexibility States

2.12.3.1 List of Identified Districts with State Specific Statuses

Instructions for States that identified school districts with State-specific statuses under ESEA Flexibility for SY 2013-14: Provide the information listed in the bullets below for those districts.

- District Name
- District NCES ID Code
- Whether the district met the proficiency target in reading/language arts in accordance with the State's approved ESEA Flexibility request
- Whether the district met the 95 percent participation rate target for the reading/language arts assessment Whether the district met the proficiency target in mathematics in accordance with the State's approved ESEA Flexibility request
- Whether the district met the 95 percent participation rate target for the mathematics assessment
- Whether the district met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA Flexibility request
- Whether the district met the graduation rate for high schools (if applicable) in accordance with the State's approved ESEA Flexibility request
- State-specific status for SY 2013-14 (e.g., grade, star, or level)
- Whether the district received Title I funds.

The data for this question are reported through EDFacts files and compiled in the EDEN034 "List of Identified Districts with State Specific Statuse's report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN034 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

2.12.4 List of Districts for All Other States

2.12.4.1 List of Districts Identified for Improvement

Instructions for States that identified school districts for improvement or corrective action¹¹ under ESEA section 1116 for SY 2013-14: Provide the information listed in the bullets below for those districts.

- District Name
- District NCES ID Code
- Whether the district met the proficiency target in reading/language arts as outlined in the State's Accountability Plan
- Whether the district met the participation rate target for the reading/language arts assessment
- Whether the district met the proficiency target in mathematics as outlined in the State's Accountability Plan
- Whether the district met the participation rate target for the mathematics assessment
- Whether the district met the other academic indicator for elementary/middle schools (if applicable) as outlined in the State's Accountability Plan
- Whether the district met the graduation rate for high schools (if applicable) as outlined in the State's Accountability Plan
- Improvement status for SY 2013-14 (Use one of the following improvement status designations: Improvement or Corrective Action)
- Whether the district received Title I funds.

The data for this question are reported through ED Facts files and compiled in the EDEN035 "List of Districts Identified for Improvement" report in the ED Facts Reporting System (ERS). The ED Facts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN035 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

¹¹ The school improvement statuses are defined in *LEA and School Improvement Non-Regulatory Guidance*. This document may be accessed on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.
