Issue(s):

Question Number	Issue Description
1.2.3, 1.3.2, and 1.9.3.1	ED urges caution when using and interpreting the SY2013-14 assessment participation and performance data for the states that implemented field testing of PARCC/Smarter Balanced during SY2013-14. In Iowa, approximately 1% of students across all tested grades participated in the field test for reading/language arts. Please note that the performance data do not include results for students who participated in the field test.
1.2.4	Please note that table 1.2.4 does not include counts of students who participated in the field test in SY2013-14. Due to this exclusion, the percentages do not represent all students with disabilities that participated in an assessment type.
