

**CONSOLIDATED STATE PERFORMANCE REPORT:
Parts I and II**

for
STATE FORMULA GRANT PROGRAMS
under the
ELEMENTARY AND SECONDARY EDUCATION ACT
As amended in 2001

For reporting on
School Year 2013-14

PART I DUE THURSDAY, DECEMBER 18, 2014
PART II DUE FRIDAY, FEBRUARY 13, 2015

U.S. DEPARTMENT OF EDUCATION
WASHINGTON, DC 20202

PRIVACY PROTECTED VERSION

SOME DATA IN THIS REPORT HAVE BEEN SUPPRESSED OR BLURRED TO PROTECT STUDENT PRIVACY.

INTRODUCTION

Sections 9302 and 9303 of the *Elementary and Secondary Education Act (ESEA)*, as amended in 2001 provide to States the option of applying for and reporting on multiple *ESEA* programs through a single consolidated application and report. Although a central, practical purpose of the Consolidated State Application and Report is to reduce "red tape" and burden on States, the Consolidated State Application and Report are also intended to have the important purpose of encouraging the integration of State, local, and *ESEA* programs in comprehensive planning and service delivery and enhancing the likelihood that the State will coordinate planning and service delivery across multiple State and local programs. The combined goal of all educational agencies—State, local, and Federal—is a more coherent, well-integrated educational plan that will result in improved teaching and learning. The Consolidated State Application and Report includes the following *ESEA* programs:

- Title I, Part A – *Improving Basic Programs Operated by Local Educational Agencies*
- Title I, Part B, Subpart 3 – *William F. Goodling Even Start Family Literacy Programs*
- Title I, Part C – *Education of Migratory Children* (Includes the Migrant Child Count)
- Title I, Part D – *Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk*
- Title II, Part A – *Improving Teacher Quality State Grants (Teacher and Principal Training and Recruiting Fund)*
- Title III, Part A – *English Language Acquisition, Language Enhancement, and Academic Achievement Act*
- Title IV, Part A, Subpart 1 – *Safe and Drug-Free Schools and Communities State Grants*
- Title IV, Part A, Subpart 2 – *Safe and Drug-Free Schools and Communities National Activities (Community Service Grant Program)*
- Title V, Part A – *Innovative Programs*
- Title VI, Section 6111 – *Grants for State Assessments and Related Activities*
- Title VI, Part B – *Rural Education Achievement Program*
- Title X, Part C – *Education for Homeless Children and Youths*

The *ESEA* Consolidated State Performance Report (CSPR) for school year (SY) 2013-14 consists of two Parts, Part I and Part II.

PART I

Part I of the CSPR requests information related to the five *ESEA* Goals, established in the June 2002 Consolidated State Application, and information required for the Annual State Report to the Secretary, as described in Section 1111(h)(4) of the *ESEA*. The five *ESEA* Goals established in the June 2002 Consolidated State Application are:

- | **Performance Goal 1:** By SY 2013-14, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- | **Performance Goal 2:** All limited English proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- | **Performance Goal 3:** By SY 2005-06, all students will be taught by highly qualified teachers.
- | **Performance Goal 4:** All students will be educated in learning environments that are safe, drug free, and conducive to learning.
- | **Performance Goal 5:** All students will graduate from high school.

Beginning with the CSPR SY 2005-06 collection, the Education of Homeless Children and Youths was added. The Migrant Child count was added for the SY 2006-07 collection.

PART II

Part II of the CSPR consists of information related to State activities and outcomes of specific *ESEA* programs. While the information requested varies from program to program, the specific information requested for this report meets the following criteria:

1. The information is needed for Department program performance plans or for other program needs.
2. The information is not available from another source, including program evaluations pending full implementation of required ED Facts submission.
3. The information will provide valid evidence of program outcomes or results.

GENERAL INSTRUCTIONS AND TIMELINES

All States that received funding on the basis of the Consolidated State Application for the SY 2013-14 must respond to this Consolidated State Performance Report (CSPR). Part I of the Report is due to the Department by **Thursday, December 18, 2014**. Part II of the Report is due to the Department by **Friday, February 13, 2015**. Both Part I and Part II should reflect data from the SY 2013-14, unless otherwise noted.

The format states will use to submit the Consolidated State Performance Report has changed to an online submission starting with SY 2004-05. This online submission system is being developed through the Education Data Exchange Network (EDEN) and will make the submission process less burdensome. Please see the following section on transmittal instructions for more information on how to submit this year's Consolidated State Performance Report.

TRANSMITTAL INSTRUCTIONS

The Consolidated State Performance Report (CSPR) data will be collected online from the SEAs, using the EDEN web site. The EDEN web site will be modified to include a separate area (sub-domain) for CSPR data entry. This area will utilize EDEN formatting to the extent possible and the data will be entered in the order of the current CSPR forms. The data entry screens will include or provide access to all instructions and notes on the current CSPR forms; additionally, an effort will be made to design the screens to balance efficient data collection and reduction of visual clutter.

Initially, a state user will log onto EDEN and be provided with an option that takes him or her to the "SY 2013-14 CSPR". The main CSPR screen will allow the user to select the section of the CSPR that he or she needs to either view or enter data. After selecting a section of the CSPR, the user will be presented with a screen or set of screens where the user can input the data for that section of the CSPR. A user can only select one section of the CSPR at a time. After a state has included all available data in the designated sections of a particular CSPR Part, a lead state user will certify that Part and transmit it to the Department. Once a Part has been transmitted, ED will have access to the data. States may still make changes or additions to the transmitted data, by creating an updated version of the CSPR. Detailed instructions for transmitting the SY 2013-14 CSPR will be found on the main CSPR page of the EDEN web site (<https://EDEN.ED.GOV/EDENPortal/>).

5PM EST**

2.1 IMPROVING BASIC PROGRAMS OPERATED BY LOCAL EDUCATIONAL AGENCIES (TITLE I, PART A)

This section collects data on Title I, Part A programs.

2.1.1 Student Achievement in Schools with Title I, Part A Programs

The following sections collect data on student academic achievement on the State's assessments in schools that receive Title I, Part A funds and operate either Schoolwide programs or Targeted Assistance programs.

2.1.1.1 Student Achievement in Mathematics in Schoolwide Schools (SWP)

In the format of the table below, provide the number of students in SWP schools who completed the assessment and for whom a proficiency level was assigned, in grades 3 through 8 and high school, on the State's mathematics assessments under Section 1111(b)(3) of *ESEA*. Also, provide the number of those students who scored at or above proficient. The percentage of students who scored at or above proficient is calculated automatically.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	75,968	S	73.90
4	73,234	S	71.60
5	66,764	S	57.70
6	51,839	S	65.40
7	43,130	S	57.80
8	43,296	S	66.50
High School	26,551	S	65.10
Total	380,782	S	66.20
Comments:			

2.1.1.2 Student Achievement in Reading/Language Arts in Schoolwide Schools (SWP)

This section is similar to 2.1.1.1. The only difference is that this section collects data on performance on the State's reading/language arts assessment in SWP.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	76,043	S	77.60
4	73,152	S	81.10
5	66,702	S	63.50
6	51,861	S	77.00
7	43,143	S	73.10
8	43,386	S	78.60
High School	26,505	S	79.40
Total	380,792	S	75.50
Comments:			

2.1.1.3 Student Achievement in Mathematics in Targeted Assistance Schools (TAS)

In the table below, provide the number of all students in TAS who completed the assessment and for whom a proficiency level was assigned, in grades 3 through 8 and high school, on the State's mathematics assessments under Section 1111(b)(3) of *ESEA*. Also, provide the number of those students who scored at or above proficient. The percentage of students who scored at or above proficient is calculated automatically.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	34,912	S	89.20
4	35,173	S	87.90
5	33,739	S	78.70
6	27,054	S	85.30
7	20,780	S	82.30
8	19,945	S	87.90
High School	3,955	S	80.50
Total	175,558	S	85.20

Comments:

2.1.1.4 Student Achievement in Reading/Language Arts in Targeted Assistance Schools (TAS)

This section is similar to 2.1.1.3. The only difference is that this section collects data on performance on the State's reading/language arts assessment by all students in TAS.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	34,926	S	91.00
4	35,143	S	93.20
5	33,709	S	82.10
6	27,106	S	90.50
7	20,843	S	89.40
8	20,028	S	91.70
High School	3,946	S	87.90
Total	175,701	S	89.50

Comments:

2.1.2 Title I, Part A Student Participation

The following sections collect data on students participating in Title I, Part A by various student characteristics.

2.1.2.1 Student Participation in Public Title I, Part A by Special Services or Programs

In the table below, provide the number of public school students served by either Public Title I SWP or TAS programs at any time during the regular school year for each category listed. Count each student only once in each category even if the student participated during more than one term or in more than one school or district in the State. Count each student in as many of the categories that are applicable to the student. Include pre-kindergarten through grade 12. Do not include the following individuals: (1) adult participants of adult literacy programs funded by Title I, (2) private school students participating in Title I programs operated by local educational agencies, or (3) students served in Part A local neglected programs.

Special Services or Programs	# Students Served
Children with disabilities (<i>IDEA</i>)	140,554
Limited English proficient students	34,051
Students who are homeless	18,669
Migratory students	256
Comments:	

2.1.2.2 Student Participation in Public Title I, Part A by Racial/Ethnic Group

In the table below, provide the unduplicated number of public school students served by either public Title I SWP or TAS at any time during the regular school year. Each student should be reported in only one racial/ethnic category. Include pre-kindergarten through grade 12. The total number of students served will be calculated automatically.

Do not include: (1) adult participants of adult literacy programs funded by Title I, (2) private school students participating in Title I programs operated by local educational agencies, or (3) students served in Part A local neglected programs.

Race/Ethnicity	# Students Served
American Indian or Alaska Native	1,200
Asian	8,524
Black or African American	222,146
Hispanic or Latino	52,201
Native Hawaiian or other Pacific Islander	612
White	493,572
Two or more races	46,226
Total	824,481
Comments:	

2.1.2.3 Student Participation in Title I, Part A by Grade Level

In the table below, provide the unduplicated number of students participating in Title I, Part A programs by grade level and by type of program: Title I public targeted assistance programs (Public TAS), Title I schoolwide programs (Public SWP), private school students participating in Title I programs (private), and Part A local neglected programs (local neglected). The totals column by type of program will be automatically calculated.

Age/Grade	Public TAS	Public SWP	Private	Local Neglected	Total
Age 0-2	0	7	0	0	7
Age 3-5 (not Kindergarten)	27	27,194	1	0	27,222
K	4,648	87,545	141	0	92,334
1	6,838	85,769	203	0	92,810
2	5,935	81,696	147	1	87,779
3	5,231	79,320	124	1	84,676
4	3,194	76,377	82	0	79,653
5	2,561	69,706	52	6	72,325
6	2,411	54,713	18	17	57,159
7	1,435	46,363	10	25	47,833
8	1,181	46,903	10	59	48,153
9	342	41,278	10	119	41,749
10	354	33,362	7	83	33,806
11	185	31,155	1	58	31,399
12	173	27,594	0	26	27,793
Ungraded	3	584	0	0	587
TOTALS	34,518	789,566	806	395	825,285
Comments:					

2.1.2.4 Student Participation in Title I, Part A Targeted Assistance Programs by Instructional and Support Services

The following sections collect data about the participation of students in TAS.

2.1.2.4.1 Student Participation in Title I, Part A Targeted Assistance Programs by Instructional Services

In the table below, provide the number of students receiving each of the listed instructional services through a TAS program funded by Title I, Part A. Students may be reported as receiving more than one instructional service. However, students should be reported only once for each instructional service regardless of the frequency with which they received the service.

TAS instructional service	# Students Served
Mathematics	8,921
Reading/language arts	29,590
Science	194
Social studies	209
Vocational/career	0
Other instructional services	34
Comments:	

2.1.2.4.2 Student Participation in Title I, Part A Targeted Assistance Programs by Support Services

In the table below, provide the number of students receiving each of the listed support services through a TAS program funded by Title I, Part A. Students may be reported as receiving more than one support service. However, students should be reported only once for each support service regardless of the frequency with which they received the service.

TAS Support Service	# Students Served
Health, dental, and eye care	259
Supporting guidance/advocacy	369
Other support services	96
Comments:	

2.1.3 Staff Information for Title I, Part A Targeted Assistance Programs (TAS)

In the table below, provide the number of full-time equivalent (FTE) staff funded by a Title I, Part A TAS in each of the staff categories. For staff who work with both TAS and SWP, report only the FTE attributable to their TAS responsibilities.

For paraprofessionals only, provide the percentage of paraprofessionals who were qualified in accordance with Section 1119 (c) and (d) of ESEA.

See the FAQs following the table for additional information.

Staff Category	Staff FTE	Percentage Qualified
Teachers	836.50	
Paraprofessionals ¹	47.66	97.79
Other paraprofessionals (translators, parental involvement, computer assistance) ²	9.00	
Clerical support staff	28.39	
Administrators (non-clerical)	11.09	
Comments:		

FAQs on staff information

- a. *What is a "paraprofessional?"* An employee of an LEA who provides instructional support in a program supported with Title I, Part A funds. Instructional support includes the following activities:
1. Providing one-on-one tutoring for eligible students, if the tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher;
 2. Providing assistance with classroom management, such as organizing instructional and other materials;
 3. Providing assistance in a computer laboratory;
 4. Conducting parental involvement activities;
 5. Providing support in a library or media center;
 6. Acting as a translator; or
 7. Providing instructional services to students.
- b. *What is an "other paraprofessional?"* Paraprofessionals who do not provide instructional support, for example, paraprofessionals who are translators or who work with parental involvement or computer assistance.
- c. *Who is a qualified paraprofessional?* A paraprofessional who has (1) completed 2 years of study at an institution of higher education; (2) obtained an associate's (or higher) degree; or (3) met a rigorous standard of quality and been able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness) (Sections 1119(c) and (d).) For more information on qualified paraprofessionals, please refer to the Title I paraprofessionals Guidance, available at: <http://www.ed.gov/policy/elsec/guid/paraguidance.doc>

¹ Consistent with ESEA, Title I, Section 1119(g)(2).

² Consistent with ESEA, Title I, Section 1119(e).

2.1.3.1 Paraprofessional Information for Title I, Part A Schoolwide Programs

In the table below, provide the number of FTE paraprofessionals who served in SWP and the percentage of these paraprofessionals who were qualified in accordance with Section 1119 (c) and (d) of *ESEA*. Use the additional guidance found below the previous table.

Paraprofessional Information	Paraprofessionals FTE	Percentage Qualified
Paraprofessionals ³	4,386.90	99.63
Comments:		

³ Consistent with *ESEA*, Title I, Section 1119(g)(2).

2.1.4 Parental Involvement Reservation Under Title I, Part A

In the table below provide information on the amount of Title I, Part A funds reserved by LEAs for parental involvement activities under Section 1118 (a)(3) of the ESEA. The percentage of LEAs FY 2013 Title I Part A allocations reserved for parental involvement will be automatically calculated from the data entered in Rows 2 and 3.

Parental Involvement Reservation	LEAs that Received a Federal Fiscal Year (FY) 2013 (School Year 2013-14) Title I, Part A Allocation of \$500,000 or less	LEAs that Received a Federal fiscal year (FY) 2013 (School Year 2013-14) Title I, Part A Allocation of more than \$500,000
Number of LEAs*	786	211
Sum of the amount reserved by LEAs for parental Involvement	199,124	5,367,142
Sum of LEA's FY 2013 Title I, Part A allocations	151,308,106	369,527,133
Percentage of LEA's FY 2013 Title I, Part A allocations reserved for parental involvement	0.13	1.45

*The sum of Column 2 and Column 3 should equal the number of LEAs that received an FY 2013 Title I, Part A allocation.

In the comment box below, provide examples of how LEAs in your State used their Title I Part A, set-aside for parental involvement during SY 2013-2014.

This response is limited to 8,000 characters.

During the 2013-2014 school year, LEAs in Ohio used the Title I, Part A parental involvement set-aside funds in a variety of ways. Perhaps the most common use of funds was for parent/student evening meetings, including such events as literacy nights, math nights, and curriculum nights. LEAs often used funds to purchase materials for parents to use to educate their children at home, such as books for parents to read with their children, books on parenting skills, and kits for helping children with math at home. In individual schools, one popular use for these monies has been to buy summer reading packets for use at home.

Other specific uses of funds this past year included professional development for parents in the use of technology so they could become more technologically proficient with items such as smart phones and websites in order to help them to better communicate with school personnel and to use online school resources. This money was also spent on activities and programs such as training parents to encourage the involvement of other parents in their children's schools, offering computer training to assist parents in helping their children with homework, providing family liaisons, creating Kindergarten transition programs, offering translation services, providing literacy training for families, and participating in fatherhood/male role model programs such as those that link dads to local professional sports teams.

At the LEA level, parental involvement funds were used for even larger-scale projects. For example, one district provided a parent resource center that was staffed for 17 hours every week. The district also had a full time English Language Learner (ELL) Parent Liaison who not only translated and interpreted for parents, but also helped create a climate that encourages parental involvement within their children's schools. Another urban district used these funds to integrate learning between parents and children through intensive interactive literacy activities and by training parents how to be the primary teachers for their children.

Clearly, the flexibility of Title I, Part A parental involvement set-aside funds allows LEAs to engage with a wide variety of programs, services, trainings, resources, and so on to help increase parental involvement in their children's education. Just the few examples provided here show the diversity of their uses, as well as their ability to target an LEA's specific needs.

2.3 EDUCATION OF MIGRANT CHILDREN (TITLE I, PART C)

This section collects data on the Migrant Education Program (Title I, Part C) for the performance period of September 1, 2013 through August 31, 2014. This section is composed of the following subsections:

- ┆ Population data of eligible migrant children
- ┆ Academic data of eligible migrant students
- ┆ Data of migrant children served during the performance period
- ┆ School data
- ┆ Project data
- ┆ Personnel data

Where the table collects data by age/grade, report children in the highest age/grade that they attained during the performance period. For example, a child who turns 3 during the performance period would only be performance in the "Age 3 through 5 (not Kindergarten)" row.

2.3.1 Migrant Child Counts

This section collects the Title I, Part C, Migrant Education Program (MEP) child counts which States are required to provide and may be used to determine the annual State allocations under Title I, Part C. The child counts should reflect the performance period of September 1, 2013 through August 31, 2014. This section also collects a report on the procedures used by States to produce true, reliable, and valid child counts.

To provide the child counts, each SEA should have sufficient procedures in place to ensure that it is counting only those children who are eligible for the MEP. Such procedures are important to protecting the integrity of the State's MEP because they permit the early discovery and correction of eligibility problems and thus help to ensure that only eligible migrant children are counted for funding purposes and are served. If an SEA has reservations about the accuracy of its child counts, it must inform the Department of its concerns and explain how and when it will resolve them in the box below, which precedes Section 2.3.1.1 *Category 1 Child Count*.

Note: In submitting this information, the Authorizing State Official must certify that, to the best of his/her knowledge, the child counts and information contained in the report are true, reliable, and valid and that any false Statement provided is subject to fine or imprisonment pursuant to 18 U.S.C. 1001.

FAQs on Child Count:

1. *How is "out-of-school" defined?* Out-of-school means children up through age 21 who are entitled to a free public education in the State but are not currently enrolled in a K-12 institution. This could include students who have dropped out of school in the previous performance period (September 1, 2012 - August 31, 2013), youth who are working on a GED outside of a K-12 institution, and youth who are "here-to-work" only. It does not include preschoolers, who are counted by age grouping. Children who were enrolled in school for at least one day, but dropped out of school during the performance period should be counted in the highest age/grade level attained during the performance period.
2. *How is "ungraded" defined?* Ungraded means the children are served in an educational unit that has no separate grades. For example, some schools have primary grade groupings that are not traditionally graded, or ungraded groupings for children with learning disabilities. In some cases, ungraded students may also include special education children, transitional bilingual students, students working on a GED through a K-12 institution, or those in a correctional setting. (Students working on a GED outside of a K-12 institution are counted as out-of-school youth.)

In the space below, discuss any concerns about the accuracy of the reported child counts or the underlying eligibility determinations on which the counts are based and how and when these concerns will be resolved.

The response is limited to 8,000 characters.

Comments: Ohio has no concerns to report for the 2013-2014 school year.

2.3.1.1 Category 1 Child Count (Eligible Migrant Children)

In the table below, enter the unduplicated statewide number by age/grade of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, resided in your State for one or more days during the performance period of September 1, 2013 through August 31, 2014. This figure includes all eligible migrant children who may or may not have participated in MEP services. Count a child who moved from one age/grade level to another during the performance period only once in the highest age/grade that he/she attained during the performance period. The unduplicated statewide total count is calculated automatically.

Do not include:

- ┆ Children age birth through 2 years
- ┆ Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- ┆ Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

Age/Grade	Eligible Migrant Children
Age 3 through 5 (not Kindergarten)	282
K	151
1	112
2	94
3	121
4	77
5	92
6	65
7	76
8	66

9	83
10	50
11	54
12	34
Ungraded	3
Out-of-school	107
Total	1,467

Comments:

2.3.1.1.1 Category 1 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 1 greater than 10 percent.

The response is limited to 8,000 characters.

Comments: Ohio experienced only an 8.0% decrease (1,595 [2012-2013] minus 1,467 [2013-2014] equals 128, and 128 divided by 1,595 equals 8.0%) in the Category 1 child count.

2.3.1.1.2 Birth through Two Child Count

In the table below, enter the unduplicated statewide number of eligible migrant children from birth through age 2 who, within 3 years of making a qualifying move, resided in your State for one or more days during the performance period of September 1, 2013 through August 31, 2014.

Age/Grade	Eligible Migrant Children
Age birth through 2	0

Comments:

2.3.1.2 Category 2 Child Count (Eligible Migrant Children Served by the MEP During the Summer/ Intersession Term)

In the table below, enter by age/grade the unduplicated statewide number of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, were **served** for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the performance period of September 1, 2013 through August 31, 2014. Count a child who moved from one age/grade level to another during the performance period only once in the highest age/grade that he/she attained during the performance period. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once. The unduplicated statewide total count is calculated automatically.

Do not include:

- ┆ Children age birth through 2 years
- ┆ Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs.
- ┆ Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).
- ┆ Children who received only referred services (non-MEP funded).

2.3.1.2.1 Category 2 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 2 greater than 10 percent.

The response is limited to 8,000 characters.

Comments: The decrease in the Category 2 child count (20.1%; 806 [2012-2013] minus 644 [2013-2014] equals 162, and 162 divided by 806 equals 20.1%) can be attributed to fewer migrant families, and especially fewer out-of-school youth in migrant families, coming to Ohio for work. This has been a continuing trend in the state for the past 11 years.

2.3.1.2.2 Birth through Two Eligible Migrant Children Served by the MEP During the Summer/Intersession Term

In the table below, enter the unduplicated statewide number of eligible migrant children from age birth through 2 who, within 3 years of making a qualifying move, were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the performance period of September 1, 2013 through August 31, 2014. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once.

Do not include:

- ┆ Children who received only referred services (non-MEP funded).

Age/Grade	Eligible Migrant Children Served by the MEP During the Summer/Intersession Term
Age birth through 2	0
Comments:	

2.3.1.3 Child Count Calculation and Validation Procedures

The following questions request information on the State's MEP child count calculation and validation procedures.

2.3.1.3.1 Student Information System

In the space below, respond to the following questions: What system did the State use to compile and generate the Category 1 child count for this performance period? Please check the box that applies.

Student Information System	(Yes/No)
NGS	<u>No</u>
MIS 2000	<u>No</u>
COEStar	<u>No</u>
MAPS	<u>No</u>
Other Student Information System. Please identify the system:	<u>Yes</u>
The 2013-2014 Category 1 child count and Category 2 child count were generated using the Ohio Migrant Student Information System (OMSIS2). OMSIS2 is a client/server management information system utilizing the FileMaker suite of hosted database tools. OMSIS2 is developed and maintained by the Tri-Rivers Educational Computer Association (TRECA), a non-profit entity providing K-12 educational technology services through a consortium of Ohio public school districts.	

Student Information System	(Yes/No)
Was the Category 2 child count for this performance period generated using the same system?	<u>Yes</u>

If the State's Category 2 count was generated using a different system than the Category 1 count please identify the specific system that generates the Category 2 count.

The response is limited to 8,000 characters.

The Category 2 child count only differs from the Category 1 child count by which backend database tables are required to produce accurate and complete numbers. The Category 2 child count references additional tables.
--

2.3.1.3.3 Methods Used To Count Children

In the space below, please describe the procedures and processes at the State level used to ensure all eligible children are accounted for in the performance period. In particular, describe how the State includes and counts only:

- | The unduplicated count of eligible migrant children, ages 3-21. Include children two years of age whose residency in the state has been verified after turning three.
- | Children who met the program eligibility criteria (e.g., were within 3 years of a qualifying move, had a qualifying activity)
- | Children who were resident in your State for at least 1 day during the performance period (September 1 through August 31)
- | Children who – in the case of Category 2 – were serviced for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods
- | Children once per age/grade level for each child count category

The response is limited to 8,000 characters.

A query is run against the Ohio Migrant Student Information System database (OMSIS2) described in Question 2.3.1.3.1 to calculate the Category 1 child count. It identifies those students between ages 3 and 21 (as shown by the Student Identification Table) who have made a qualifying move within the past 36 months (as shown by the Educational Enrollment History Data Table) and who have also had a third birthday before the end date of the program in which they participated (as shown by the Educational Enrollment History Data Table, the Student Identification Table, and the Supplemental Program Information Table) or before the end of their residency in Ohio (we may reference an older sibling's enrollment information to determine this third criterion). A similar query that includes all of the above information is run to calculate the Category 2 child count, but it also has a summer service indicator. The fields used to run this particular query are SID.OHID, SID.LastName, SID.FirstName, ENR.OHID, SID.DeceasedDate, SID.GraduationDate, SID.BirthDate, ENR.LastQualifyingMove, ENR.EnrollmentDate, ENR.WithdrawalDate, ENR.OhioArrivalDate, and several flag fields that serve to exclude specific instances (e.g., children who turn three during the school year, but for whom no Ohio residency can be guaranteed except at the age of two). The database administrator (or the administrator's representative) at the Ohio Migrant Education Center (OMEC) executes these queries and updates a series of flags in a specific order. Each September, a home visit is made to each student for whom a valid National Certificate of Eligibility (COE) exists to determine if the student is still a resident in the State. The verification data are added to our database, and they serve as an indication that the student is eligible to be included in Category 1 for the new program year. All students added through a new COE during the program year are also counted. When a student is identified in Ohio for the first time, the OMSIS2 data system generates a unique ID for that student called the OHID. If a student has been identified previously, then his/her new records are always entered using the student's existing OHID to avoid duplication. This check of the OMSIS2 system is accomplished before any record is entered into the system as new. When eligible students are first identified and entered into the database, they are all Category 1 students. They are not counted in Category 2 unless they also are eligible for and receive funded summer services.

Summer program students are flagged in the Student Information Table. A query is run against these data to generate a list of all students served during the summer. These students are served in one or more of the following ways: district site-based summer programs, in-home instruction, ESL programs, and/or health fair participation. Recorded participation in a funding-eligible instructional service during the summer/intersession period is required and must be documented before an indicator can be updated in OMSIS2 that triggers the inclusion of a particular student in the child count. The timing of this participation is verified when the queries used for the child counts screen by the date of the service(s) provided. If the date shown for the service(s) does not fall during the designated summer period, then that child will not qualify to be counted. Each child who is counted always has at least one qualifying service for which a qualifying date has been documented. Services provided to children whose eligibility has just expired may be reported at the local level, but quality control procedures at OMEC are in place to exclude these records from being entered into OMSIS2.

Every student has a unique OHID number that ensures the child is only counted once. As part of the quality control process at OMEC, "new" students are double-checked to ensure that they have not already been assigned a different OHID number. Some of the quality control criteria used to ensure the unique identity of a "new" child include surname, parent first names, alternative spellings of surnames, migratory histories of families with similar names, and date of birth.

How does the State ensure that the system that transmits migrant data to the Department accurately accounts for all the migrant children in every ED Facts data file (see the Office of Migrant Education's CSPR Rating Instrument for the criteria needed to address this question)?

OMSIS2 includes numerous companion fields for each date-type field accessed by the queries used for ED Facts and the Consolidated State Performance Report (CSPR). These fields include a number of calculations and comparisons to help locate data that may require further review.

For example, each child record contains query-relevant birth date and current age fields. Each enrollment and service record contains query-relevant date of service or date of enrollment, residency date, and qualifying move date fields. One example of a companion field used during reporting uses query-relevant fields to calculate the age a student was at the time of residency and service. This produces a flag that is used to exclude, for example, current three-year-olds who were three at the end of the reporting cycle, but not necessarily a resident in Ohio when their third birthday arrived. Such a child is excluded from the Category 1 child count. All three-year-olds are examined using companion calculation fields in this way to separate those proven and not proven eligible. Similar companion calculation fields exist to guard against incorrect date values being entered in the query-relevant fields.

Duplications are prevented through the use of a combination of FileMaker Pro 11's (FMP11) database features, including extensive use of the "Go to Related Records" script command. Searches are initially performed in a related table while seeking funded services delivered during the current reporting period. From there this script is run, resulting in a found set of students (not services). All counts for the CSPR are then generated from the Students Table, where each student has only one grade level and one unique identifier, to ensure that no student can possibly be counted twice in any cell of any CSPR table.

Category 1 eligibility is first established for the majority of students using FMP11's "Constrain Found Set" tool repeatedly for each criterion that could possibly exclude a student from eligibility for the current reporting period. Students who qualify based on this more rigorous screening compose the first group of students marked as qualifying. Students who qualify, but whose eligibility for the current reporting period must be confirmed on a case-by-case basis, are excluded from this group by the stringency of the initial queries. Instead, these students are individually marked as qualifying only after their records are carefully reviewed to confirm, for example, that their age qualified them to be counted as eligible for the reporting period. After all Category 1 eligibility has been marked, an export of data from the Student Table into an empty Reporting Table is executed. The Reporting Table contains many true-or-false fields that correspond to each category of the CSPR.

A database relationship links the Student Table to the Reporting Table on the key field OHID. By updating each of the Reporting Table's true-or-false fields directly from within the Student Table, and by doing so only after the Reporting Table already contains exclusively Category 1-eligible records, it is possible to know with certainty that only eligible students are contained in any individual count, and that there is absolutely no duplication within counts.

Accuracy checks are performed, using the Reporting Table as the source and the Student Table as the destination, for a "Go to Related Records" script. This technique can be used, for example, to find instantly the exact group of students reported as being in the 7th grade and receiving Math instruction in the summer. This group can be scrolled through to verify that each student did in fact receive Math instruction (as well as when and where), and is a 7th grader.

Reporting data are preserved without changes directly within OMSIS2 every year so that over time, this collection of tables can serve as an ongoing longitudinal data reference tool for information management.

Use of MSIX to Verify Data Quality	(Yes/No)
Does the State use data in the Migrant Student Information Exchange (MSIX) to verify the quality of migrant data?	<u>No</u>

If MSIX is utilized, please explain how.

The response is limited to 8,000 characters.

Ohio does not use the Migrant Student Information Exchange (MSIX) to verify the quality of migrant student data.

2.3.1.3.4 Quality Control Processes

In the space below, respond to the following questions :

Quality Control Processes	Yes/No
Is student eligibility based on a personal interview (face-to-face or phone call) with a parent, guardian, or other responsible adult, or youth-as-worker?	<u>Yes</u>
Does the SEA and/or regional offices train recruiters at least annually on eligibility requirements, including the basic eligibility definition, economic necessity, temporary vs. seasonal, processing, etc.?	<u>Yes</u>
Does the SEA have a formal process, beyond the recruiter's determination, for reviewing and ensuring the accuracy of written eligibility information [e.g., COEs are reviewed and initiated by the recruiter's supervisor and/or other reviewer(s)]?	<u>Yes</u>
Are incomplete or otherwise questionable COEs returned to the recruiter for correction, further explanation, documentation, and/or verification?	<u>Yes</u>
Does the SEA provide recruiters with written eligibility guidance (e.g., a handbook)?	<u>Yes</u>
Does the SEA review student attendance records at summer/inter-session projects to verify that the total unduplicated number of eligible migrant students served in the summer/intersession is reconciled with the Category 2 Count ?	<u>Yes</u>
Does the SEA have both a local and state-level process for resolving eligibility questions?	<u>Yes</u>
Are written procedures provided to regular school year and summer/intersession personnel on how to collect and report pupil enrollment and withdrawal data?	<u>Yes</u>
Are records/data entry personnel provided training on how to review regular school year and summer/inter-session site records, input data, and run reports used for child count purposes?	<u>Yes</u>

In the space below, describe the results of any re-interview processes used by the SEA during the performance period to test the accuracy of the State's MEP eligibility determinations.

Results	#
The number of eligibility determinations sampled.	86
The number of eligibility determinations sampled for which a re-interview was completed.	70
The number of eligibility determinations sampled for which a re-interview was completed and the child was found eligible.	70

Describe any reasons for non-response in the re-interviewing process.

The response is limited to 8,000 characters.

For the 2013-2014 school year, when no independent prospective re-interview process for the state was required, Ohio conducted its own re-interview process for quality control purposes. We selected a random sample of 86 names for whom to review Migrant Education Program (MEP) eligibility determinations with re-interviews. From this group of 86 potential re-interviewees, there were 16 we were unable to locate because they had moved out of the area. However, we were successful in finding the remaining 70 potential re-interviewees in our sample. We were able to complete in full all 70 re-interviews with these respondents, achieving a response rate of 81.4% ($70/86 = 81.4\%$). From the 70 successfully completed re-interviews, we found all 70 MEP eligibility determinations to be correct.

Procedures	Yes/No
What was the most recent year that the MEP conducted independent prospective re-interviews (i.e., interviewers were neither SEA or LEA staff members responsible for administering or operating the MEP, nor any other persons who worked on the initial eligibility determinations being tested)?	<u>None</u>
Was the sampling of eligible children random?	<u>Yes</u>
Was the sampling statewide?	<u>Yes</u>

FAQ on independent prospective reinterviews:

- What are independent prospective re-interviews?* Independent prospective re-interviews allow confirmation of your State's eligibility determinations and the accuracy of the numbers of migrant children in your State reports. Independent prospective interviews should be conducted at least once every three years by an independent interviewer, performed on the current year's identified migrant children.

If the sampling was stratified by group/area please describe the procedures.

The response is limited to 8,000 characters.

Ohio was not required to conduct independent prospective re-interviews for the 2013-2014 school year. The last year for which we did so was the 2012-2013 school year, and we will next conduct the independent prospective re-interview process for school year 2015-2016.

During the required 2012-2013 re-interview process, our sampling was not stratified.

Please describe the sampling replacement by the State.

The response is limited to 8,000 characters.

Ohio was not required to conduct independent prospective re-interviews for the 2013-2014 school year. The last year for which we did so was the 2012-2013 school year, and we will next conduct the independent prospective re-interview process for school year 2015-2016.

During the required 2012-2013 re-interview process, sampling was conducted without replacements. All students identified in Ohio from September 1, 2012 through August 31, 2013 were part of the total population sampled for the re-interview. A percentage of students was pulled from OMSIS2 to generate a random sample that was given to the re-interviewer to initiate the interview process. After about a month, a new random sample was pulled from the database using only those students' names entered into OMSIS2 since the last re-interview list was run. Ohio sampled without replacements because every name entered into the database had only one chance to be selected for the re-interview sample.

Obtaining Data From Families	
Check the applicable box to indicate how the re-interviews were conducted	
Face-to-face re-interviews	Face-to-face re-interviews <u> </u>
Phone Interviews	
Both	
Obtaining Data From Families	
Yes/No	
Was there a protocol for verifying all information used in making the original eligibility determination?	Yes <u> </u>
Were re-interviewers independent from the original interviewers?	Yes <u> </u>

If you did conduct independent re-interviews in this reporting period, describe how you ensured that the process was independent.

The response is limited to 8,000 characters.

Ohio was not required to conduct independent prospective re-interviews for the 2013-2014 school year. The last year for which we did so was the 2012-2013 school year, and we will next conduct the independent prospective re-interview process for school year 2015-2016.

During the required 2012-2013 re-interview process, a protocol was established that allowed us to verify all of the information used in making the initial eligibility determinations. Additionally, re-interviewers were neither SEA nor LEA staff members responsible for administering or operating the Migrant Education Program, nor were they any other persons who worked on the initial eligibility determinations being reviewed during the re-interviews.

In the space below, refer to the results of any re-interview processes used by the SEA, and if any of the migrant children were found ineligible, describe those corrective actions or improvements that will be made by the SEA to improve the accuracy of its MEP eligibility determinations.

The response is limited to 8,000 characters.

For the 2013-2014 school year, when no independent prospective re-interview process was required for the state, no migrant children were found to be ineligible for the Migrant Education Program during Ohio's own re-interview process.

In the space below, please respond to the following question:

Does the state collect all the required data elements and data sections on the National Certificate of Eligibility (COE)?	<u>Yes</u>
---	------------

2.3.2 Eligible Migrant Children

2.3.2.1 Priority for Services

In the table below, provide the unduplicated number of **eligible** migrant children who have been classified as having "Priority for Services." The total is calculated automatically.

FAQ on Dropouts:

How is "drop outs" defined? The term used for students, who, during the reporting period, were enrolled in a public school for at least one day, but who subsequently left school with no plans on returning to enroll in a school and continue toward a high school diploma. Students who dropped out-of-school prior to the 2012-13 reporting period should be classified NOT as "drop-outs" but as "out-of-school youth."

2.3.2.8.2 HSED (High School Equivalency Diploma)

In the table below, provide the total unduplicated number of **eligible** migrant students who obtained a High School Equivalency Diploma (HSED) by passing a high school equivalency test that your state accepts (e.g. GED, HiSET, TASC).

2.3.3 Services for Eligible Migrant Children

The following questions collect data about MEP services provided to eligible migrant children during the performance period.

Eligible migrant children who are served include:

- Migrant children who were eligible for and received instructional or support services funded in whole or in part with MEP funds.
- Children who continued to receive MEP-funded services during the term their eligibility ended.

Do not include:

- Children who were served through a Title I **Schoolwide Program** (SWP) where MEP funds were consolidated with those of other programs.
- Children who received only referred services (non-MEP funded).
- Children who were served for one additional school year after their eligibility ended, if comparable services were not available through other programs
- Children who were in secondary school after their eligibility ended, and served through credit accrual programs until graduation (e.g., children served under the continuation of services authority, Section (1304(e)).

FAQ on Services:

What are services? Services are a subset of all allowable activities that the MEP can provide through its programs and projects. "Services" are those educational or educationally related activities that: (1) directly benefit a migrant child; (2) address a need of a migrant child consistent with the SEA's comprehensive needs assessment and service delivery plan; (3) are grounded in scientifically based research or, in the case of support services, are a generally accepted practice; and (4) are designed to enable the program to meet its measurable outcomes and contribute to the achievement of the State's performance targets. Activities related to identification and recruitment activities, parental involvement, program evaluation, professional development, or administration of the program are examples of allowable activities that are not considered services. Other examples of an allowable activity that would not be considered a service would be the one-time act of providing instructional packets to a child or family, and handing out leaflets to migrant families on available reading programs as part of an effort to increase the reading skills of migrant children. Although these are allowable activities, they are not services because they do not meet all of the criteria above.

2.3.3.2 Priority for Services – During the Regular School Year

In the table below, provide the unduplicated number of **eligible** migrant children who have been classified as having "priority for services" and who received MEP funded instructional or support services during the regular school year. The total is calculated automatically.

<p>Comments: The number of children in the Age 3 through 5 Age/Grade category was reported as zero for both Table 2.3.2.1 and Table 2.3.5.1. In Table 2.3.2.1, this zero was converted to a null value, whereas the zero in Table 2.3.5.1 is still a zero, hence the supposed difference between the two values. These data have been verified as correct.</p>	

2.3.5.2 Continuation of Services – During the Performance Period

In the table below, provide the unduplicated number of migrant children who received MEP-funded instructional or support services during the performance period under the continuation of services authority Sections 1304(e)(2–3). Do **not** include children served under Section 1304(e)(1), which are children whose eligibility expired during the school term. The total is calculated automatically.

Comments: CSPR Question 2.3.5.2, "Continuation of Services - During the Performance Period," is new for the 2013-2014 school year reporting period. In the ED Facts C054 File Specifications "MEP Students Served - 12 Months," Data Group 102, Category Set C did not include "Continuation (Only)" as a mandatory data element. This was confirmed in a January 28, 2015 email from the Office of Migrant Education, which said that "States will have the *option* of submitting Category Set C in this file" (i.e., File C054). Additionally, the email indicated that "States that do not submit Category Set C data *will not populate*" CSPR Question 2.3.5.2. Based on these two pieces of guidance, Ohio has not submitted any data for Category Set C for 2013-2014, and therefore all values for this question are null.

2.3.5.3 Instructional Service – During the Performance Period

In the table below, provide the unduplicated number of **eligible** migrant children who received any type of MEP-funded instructional service during the performance period. Include children who received instructional services provided by either a teacher or a paraprofessional. Children should be reported only once regardless of the frequency with which they received a service intervention. The total is calculated automatically.

2.3.5.3.1 Type of Instructional Service – During the Performance Period

In the table below, provide the number of **eligible** migrant children reported in the table above who received MEP-funded reading instruction, mathematics instruction, or high school credit accrual during the performance period. Include children who received such instructional services provided by a teacher only. Children may be reported as having received more than one type of instructional service in the table. However, children should be reported only once within each type of instructional service that they received regardless of the frequency with which they received the instructional service. The totals are calculated automatically.

Age/Grade	Reading Instruction During the Performance Period	Mathematics Instruction During the Performance Period	High School Credit Accrual During the Performance Period
Age birth through 2			////////////////////////////////////
Age 3 through 5 (not Kindergarten)	99	15	////////////////////////////////////

FAQ on Types of Instructional Services:

What is "high school credit accrual"? Instruction in courses that accrue credits needed for high school graduation provided by a teacher for students on a regular or systematic basis, usually for a predetermined period of time. Includes correspondence courses taken by a student under the supervision of a teacher.

2.3.5.3.2 Support Services with Breakout for Counseling Services – During the Performance Period

In the table below, in the column titled **Support Services**, provide the unduplicated number of **eligible** migrant children who received any MEP-funded support service during the performance period. In the column titled **Breakout of Counseling Services During the Performance Period**, provide the unduplicated number of **eligible** migrant children who received a counseling service during the performance period. Children should be reported only once in each column regardless of the frequency with which they received a support service intervention. The totals are calculated automatically.

FAQs on Support Services:

- a. *What are support services?* These MEP-funded services include, but are not limited to, health, nutrition, counseling, and social services for migrant families; necessary educational supplies, and transportation. The one-time act of providing instructional or informational packets to a child or family does not constitute a support service.
- b. *What are counseling services?* Services to help a student to better identify and enhance his or her educational, personal, or occupational potential; relate his or her abilities, emotions, and aptitudes to educational and career opportunities; utilize his or her abilities in formulating realistic plans; and achieve satisfying personal and social development. These activities take place between one or more counselors and one or more students as counselees, between students and students, and between counselors and other staff members. The services can also help the child address life problems or personal crisis that result from the culture of migrancy.

2.3.6 School Data - During the Regular School Year

The following questions are about the enrollment of eligible migrant children in schools during the regular school year.

2.3.6.1 Schools and Enrollment - During the Regular School Year

In the table below, provide the number of public schools that enrolled **eligible** migrant children at any time during the regular school year. Schools include public schools that serve school age (e.g., grades K through 12) children. Also, provide the number of **eligible** migrant children who were enrolled in those schools. Since more than one school in a State may enroll the same migrant child at some time during the regular school year, the number of children may include duplicates.

Schools	#
Number of schools that enrolled eligible migrant children	53
Number of eligible migrant children enrolled in those schools	556
Comments:	

2.3.6.2 Schools Where MEP Funds Were Consolidated in Schoolwide Programs (SWP) – During the Regular School Year

In the table below, provide the number of schools where MEP funds were consolidated in an SWP. Also, provide the number of **eligible** migrant children who were enrolled in those schools at any time during the regular school year. Since more than one school in a State may enroll the same migrant child at some time during the regular school year, the number of children may include duplicates.

Schools	#
Number of schools where MEP funds were consolidated in a schoolwide program	
Number of eligible migrant children enrolled in those schools	
Comments:	

2.3.7 MEP Project Data

The following questions collect data on MEP projects.

2.3.7.1 Type of MEP Project

In the table below, provide the number of projects that are funded in whole or in part with MEP funds. A MEP project is the entity that receives MEP funds from the State or through an intermediate entity that receives the MEP funds from the State and provides services directly to the migrant child. Do not include projects where MEP funds were consolidated in SWP.

Also, provide the number of migrant children **served** in the projects. Since children may participate in more than one project, the number of children may include duplicates.

Type of MEP Project	Number of MEP Projects	Number of Migrant Children Served in the Projects
Regular school year - school day only	9	493
Regular school year - school day/extended day	0	0
Summer/intersession only	9	823
Year round	1	63
Comments:		

FAQs on type of MEP project:

- a. *What is a project?* A project is any entity that receives MEP funds and provides services directly to migrant children in accordance with the State Service Delivery Plan and State approved subgrant applications or contracts. A project's services may be provided in one or more sites. Each project should be counted once, regardless of the number of sites in which it provides services.
- b. *What are Regular School Year – School Day Only projects?* Projects where all MEP services are provided during the school day during the regular school year.
- c. *What are Regular School Year – School Day/Extended Day projects?* Projects where some or all MEP services are provided during an extended day or week during the regular school year (e.g., some services are provided during the school day and some outside of the school day; e.g., all services are provided outside of the school day).
- d. *What are Summer/Intersession Only projects?* Projects where all MEP services are provided during the summer/intersession term.
- e. *What are Year Round projects?* Projects where all MEP services are provided during the regular school year and summer/intersession term.

2.3.8 MEP Personnel Data

The following questions collect data on MEP personnel data.

2.3.8.1 MEP State Director

In the table below, provide the FTE amount of time the State director performs MEP duties (regardless of whether the director is funded by State, MEP, or other funds) during the performance period (e.g., September 1 through August 31).

State Director FTE	0.15
Comments: These data have been verified as correct.	

FAQs on the MEP State director

- a. *How is the FTE calculated for the State director?* Calculate the FTE using the number of days worked for the MEP. To do so, first define how many full-time days constitute one *FTE* for the State director in your State for the performance period. To calculate the FTE number, sum the total days the State director worked for the MEP during the performance period and divide this sum by the number of full-time days that constitute one FTE in the reporting period.
- b. *Who is the State director?* The manager within the SEA who administers the MEP on a statewide basis.

2.3.8.2 MEP Staff

In the table below, provide the headcount and FTE by job classification of the staff funded by the MEP. Do **not** include staff employed in SWP where MEP funds were combined with those of other programs.

Job Classification	Regular School Year		Summer/Intersession Term		Performance Period
	Headcount	FTE	Headcount	FTE	Headcount
Teachers	25	6.24	96	83.20	121
Counselors	0	0.00	0	0.00	0
Non-qualified paraprofessionals	0	0.00	0	0.00	0
Qualified paraprofessionals	20	5.64	66	57.25	86
Recruiters	1	0.05	8	5.75	9
Records transfer staff	5	0.34	12	9.70	17
Administrators	4	0.72	13	12.50	17
Comments:					

Note: The Headcount value displayed represents the greatest whole number submitted in file specification N/X065 for the corresponding Job Classification. For example, an ESS submitted value of 9.8 will be represented in your CSPR as 9.

FAQs on MEP staff:

- a. *How is the FTE calculated?* The FTE may be calculated using one of two methods:
 1. To calculate the FTE, in each job category, sum the percentage of time that staff were funded by the MEP and enter the total FTE for that category.
 2. Calculate the FTE using the number of days worked. To do so, first define how many full-time days constitute one FTE for each job classification in your State for each term. (For example, one regular-term FTE may equal 180 full-time (8 hour) work days; one summer term FTE may equal 30 full-time work days; or one intersession FTE may equal 45 full-time work days split between three 15-day non-contiguous blocks throughout the year.) To calculate the FTE number, sum the total days the individuals worked in a particular job classification for a term and divide this sum by the number of full-time days that constitute one FTE in that term.
- b. *Who is a teacher?* A classroom instructor who is licensed and meets any other teaching requirements in the State.
- c. *Who is a counselor?* A professional staff member who guides individuals, families, groups, and communities by assisting them in problem-solving, decision-making, discovering meaning, and articulating goals related to personal, educational, and career development.
- d. *Who is a paraprofessional?* An individual who: (1) provides one-on-one tutoring if such tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher; (2) assists with classroom management, such as organizing instructional and other materials; (3) provides instructional assistance in a computer laboratory; (4) conducts parental involvement activities; (5) provides support in a library or media center; (6) acts as a translator; or (7) provides instructional support services under the direct supervision of a teacher (Title I, Section 1119(g)(2)). Because a paraprofessional provides instructional support, he/she should not be providing planned direct instruction or introducing to students new skills, concepts, or academic content. Individuals who work in food services, cafeteria or playground supervision, personal care services, non-instructional computer assistance, and similar positions are not considered paraprofessionals under Title I.
- e. *Who is a qualified paraprofessional?* A qualified paraprofessional must have a secondary school diploma or its recognized equivalent and have (1) completed 2 years of study at an institution of higher education; (2) obtained an associate's (or higher) degree; or (3) met a rigorous standard of quality and be able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness) (Section 1119(c) and (d) of ESEA).
- f. *Who is a recruiter?* A staff person responsible for identifying and recruiting children as eligible for the MEP and documenting their eligibility on the Certificate of Eligibility.
- g. *Who is a record transfer staffer?* An individual who is responsible for entering, retrieving, or sending student records from or to another school or student records system.
- h. *Who is an administrator?* A professional staff member, including the project director or regional director. The SEA MEP Director should not be included.

2.4 PREVENTION AND INTERVENTION PROGRAMS FOR CHILDREN AND YOUTH WHO ARE NEGLECTED, DELINQUENT, OR AT RISK (TITLE I, PART D, SUBPARTS 1 AND 2)

This section collects data on programs and facilities that serve students who are neglected, delinquent, or at risk under Title I, Part D, and characteristics about and services provided to these students.

Throughout this section:

- | Report data for the program year of July 1, 2013 through June 30, 2014.
- | Count programs/facilities based on how the program was classified to ED for funding purposes.
- | Do not include programs funded solely through Title I, Part A.
- | Use the definitions listed below:
 - | **Adult Corrections:** An adult correctional institution is a facility in which persons, including persons 21 or under, are confined as a result of conviction for a criminal offense.
 - | **At-Risk Programs:** Programs operated (through LEAs) that target students who are at risk of academic failure, have a drug or alcohol problem, are pregnant or parenting, have been in contact with the juvenile justice system in the past, are at least 1 year behind the expected age/grade level, have limited English proficiency, are gang members, have dropped out of school in the past, or have a high absenteeism rate at school.
 - | **Juvenile Corrections:** An institution for delinquent children and youth is a public or private residential facility other than a foster home that is operated for the care of children and youth who have been adjudicated delinquent or in need of supervision. Include any programs serving adjudicated youth (including non-secure facilities and group homes) in this category.
 - | **Juvenile Detention Facilities:** Detention facilities are shorter-term institutions that provide care to children who require secure custody pending court adjudication, court disposition, or execution of a court order, or care to children after commitment.
 - | **Neglected Programs:** An institution for neglected children and youth is a public or private residential facility, other than a foster home, that is operated primarily for the care of children who have been committed to the institution or voluntarily placed under applicable State law due to abandonment, neglect, or death of their parents or guardians.
 - | **Other:** Any other programs, not defined above, which receive Title I, Part D funds and serve non-adjudicated children and youth.

2.4.1 State Agency Title I, Part D Programs and Facilities – Subpart 1

The following questions collect data on Title I, Part D, Subpart 1 programs and facilities.

2.4.1.1 Programs and Facilities - Subpart 1

In the table below, provide the number of State agency Title I, Part D, Subpart 1 programs and facilities that serve neglected and delinquent students and the average length of stay by program/facility type, for these students.

Report only programs and facilities that received Title I, Part D, Subpart 1 funding during the reporting year. Count a facility once if it offers only one type of program. If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/facilities will be automatically calculated. Below the table is a FAQ about the data collected in this table.

State Program/Facility Type	# Programs/Facilities	Average Length of Stay in Days
Neglected programs		
Juvenile detention		
Juvenile corrections	4	174
Adult corrections	19	135
Other		
Total	23	////////////////////
Comments: The State of Ohio does not use Title I, Part D, Subpart 1 funds for Neglected, Juvenile Detention, or Other programs.		

FAQ on Programs and Facilities - Subpart I:

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit, for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

2.4.1.1.1 Programs and Facilities That Reported - Subpart 1

In the table below, provide the number of State agency Title I, Part D, Subpart 1 programs/facilities that reported data on neglected and delinquent students.

The total row will be automatically calculated.

State Program/Facility Type	# Reporting Data
Neglected Programs	
Juvenile Detention	
Juvenile Corrections	4
Adult Corrections	19
Other	
Total	23
Comments: The State of Ohio does not use Title I, Part D, Subpart 1 funds for Neglected, Juvenile Detention, or Other programs.	

2.4.1.2 Students Served – Subpart 1

In the tables below, provide the number of neglected and delinquent students served in State agency Title I, Part D, Subpart 1 programs and facilities. Report only students who received Title I, Part D, Subpart 1 services during the reporting year. In the first table, provide in row 1 the unduplicated number of students served by each program, and in row 2, the total number of students in row 1 who are long-term. In the subsequent tables provide the number of students served by disability (IDEA) and limited English proficiency (LEP), by race/ethnicity, by sex, and by age. The total number of students by race/ethnicity, by sex and by age will be automatically calculated.

# of Students Served	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Total Unduplicated Students Served			727	1,193	
Total Long Term Students Served			498	893	

Student Subgroups	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Students with disabilities (IDEA)			377	163	
LEP Students			0	4	

Race/Ethnicity	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
American Indian or Alaskan Native			1	0	
Asian			0	0	
Black or African American			468	703	
Hispanic or Latino			13	32	
Native Hawaiian or other Pacific Islander			0	1	
White			199	451	
Two or more races			46	6	
Total			727	1,193	

Sex	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Male			696	1,067	
Female			31	126	
Total			727	1,193

11			0	0	
12			0	0	
13			1	0	
14			11	0	
15			29	0	
16			125	1	
17			228	2	
18			238	92	
19			77	308	
20			18	432	
21			0	358	
Total			727	1,193	

If the total number of students differs by demographics, please explain in comment box below.

This response is limited to 8,000 characters.

Comments: The State of Ohio does not use Title I, Part D, Subpart 1 funds for Neglected, Juvenile Detention, or Other programs.

FAQ on Unduplicated Count:

What is an unduplicated count? An unduplicated count is one that counts students only once, even if they were admitted to a facility or program multiple times within the reporting year.

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013 through June 30, 2014.

2.4.1.3.1 Transition Services in Subpart 1

In the first row of the table below indicate whether programs/facilities receiving Subpart 1 funds within the State are legally permitted to track student outcomes after leaving the program or facility by entering Yes or No. In the second row, provide the unduplicated count of students receiving transition services that specifically target planning for further schooling and/or employment. If not, provide more information in the comment field.

Transition Services	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Are facilities in your state permitted to collect data on student outcomes after exit ? (Yes or No)			No	Yes	
Number of students receiving transition services that address further schooling and/or employment.			727	293	

This response is limited to 4,000 characters.

Comments: The State of Ohio does not use Title I, Part D, Subpart 1 funds for Neglected, Juvenile Detention, or Other programs.

FAQ on facilities collecting data on student outcomes after exit:

If only some, but not all, facilities in the State are legally permitted to collect data on student outcomes after exit, enter 'yes' for the first question and provide a comment indicating why some facilities are unable to collect these data.

2.4.1.3.2 Academic and Vocational Outcomes While in the State Agency Program/Facility or Within 90 Calendar Days After Exit

In the table below, for each program type, first provide the unduplicated number of students who attained academic and vocational outcomes while enrolled in the State agency program/facility and next provide the unduplicated number of students who attained academic and vocational outcomes within 90 calendar days after exiting. If a student attained an outcome once in the program/facility and once during the 90 day transition period, that student may be counted once in each column separately as appropriate. For "Enrolled in their local district school" use the "90 days after exit" columns to provide the number of students who enrolled, or planned to enroll, in their local district school after exit.

Outcomes	Neglected Programs		Juvenile Detention		Juvenile Corrections		Adult Corrections		Other Programs	
	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit
# of Students Who Enrolled in their local district school	//////////		//////////		//////////	S	//////////	S	//////////	
Earned high school course credits					727	S	10	S		
Enrolled in a GED program					86	S	1,189	S		
Earned a GED					86	S	117	S		
Obtained high school diploma					29	S	4	S		
Accepted and/or enrolled into post-secondary education					56	S	21	S		
Enrolled in job training courses/programs					371	S	122	S		
Obtained employment					S	S	73	8		

This response is limited to 4,000 characters.

Comments: The State of Ohio does not use Title I, Part D, Subpart 1 funds for Neglected, Juvenile Detention, or Other programs.

2.4.1.6 Academic Performance – Subpart 1

The following questions collect data on the academic performance of neglected and delinquent long-term students served by Title I, Part D, Subpart 1 in reading and mathematics.

2.4.1.6.1 Academic Performance in Reading – Subpart 1

In the table below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 1, who participated in reading pre-and post-testing. Students should be reported in only one of the four change categories.

Report only information on a student's most recent testing data. Students who were pre-tested prior to July 1, 2013, may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Below the table is an FAQ about the data collected in this table.

Performance Data (Based on most recent pre/post-test data)	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams			98	49	
Long-term students with no change in grade level from the pre- to post-test exams			5	134	
Long-term students with improvement up to one full grade level from the pre- to post-test exams			59	249	
Long-term students with improvement of more than one full grade level from the pre- to post-test exams			89	367	
Comments: The State of Ohio does not use Title I, Part D, Subpart 1 funds for Neglected, Juvenile Detention, or Other programs.					

FAQ on long-term students:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013 through June 30, 2014.

2.4.1.6.2 Academic Performance in Mathematics – Subpart 1

This section is similar to 2.4.1.6.1. The only difference is that this section collects data on mathematics performance.

Performance Data (Based on most recent pre/post-test data)	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams			82	58	
Long-term students with no change in grade level from the pre- to post-test exams			14	129	
Long-term students with improvement up to one full grade level from the pre- to post-test exams			41	228	
Long-term students with improvement of more than one full grade level from the pre- to post-test exams			93	380	
Comments: The State of Ohio does not use Title I, Part D, Subpart 1 funds for Neglected, Juvenile Detention, or Other programs.					

2.4.2 LEA Title I, Part D Programs and Facilities – Subpart 2

The following questions collect data on Title I, Part D, Subpart 2 programs and facilities.

2.4.2.1 Programs and Facilities – Subpart 2

In the table below, provide the number of LEA Title I, Part D, Subpart 2 programs and facilities that serve neglected and delinquent students and the yearly average length of stay by program/facility type for these students. Report only the programs and facilities that received Title I, Part D, Subpart 2 funding during the reporting year. Count a facility once if it offers only one type of program. If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/ facilities will be automatically calculated. Below the table is an FAQ about the data collected in this table.

LEA Program/Facility Type	# Programs/Facilities	Average Length of Stay (# days)
At-risk programs		
Neglected programs	56	125
Juvenile detention	41	17
Juvenile corrections	33	156
Other		
Total	130	////////////////////

Comments: The State of Ohio does not use Title I, Part D, Subpart 2 funds for At-Risk or Other programs.

FAQ on average length of stay:

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

2.4.2.1.1 Programs and Facilities That Reported - Subpart 2

In the table below, provide the number of LEA Title I, Part D, Subpart 2 programs and facilities that reported data on neglected and delinquent students.

The total row will be automatically calculated.

LEA Program/Facility Type	# Reporting Data
At-risk programs	
Neglected programs	56
Juvenile detention	41
Juvenile corrections	33
Other	
Total	130

Comments: The State of Ohio does not use Title I, Part D, Subpart 2 funds for At-Risk or Other programs.

2.4.2.2 Students Served – Subpart 2

In the tables below, provide the number of neglected and delinquent students served in LEA Title I, Part D, Subpart 2 programs and facilities. Report only students who received Title I, Part D, Subpart 2 services during the reporting year. In the first table, provide in row 1 the unduplicated number of students served by each program, and in row 2, the total number of students in row 1 who are long-term. In the subsequent tables, provide the number of students served by disability (IDEA), and limited English proficiency (LEP), by race/ethnicity, by sex, and by age. The total number of students by race/ethnicity, by sex, and by age will be automatically calculated.

# of Students Served	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Total Unduplicated Students Served		2,741	13,388	2,216	
Total Long Term Students Served		1,486	408	1,711	

Student Subgroups	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Students with disabilities (IDEA)		1,156	2,433	635	
LEP Students		15	49	7	

Race/Ethnicity	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
American Indian or Alaska Native		13	11	1	
Asian		9	12		
Black or African American		1,265	5,318	878	
Hispanic or Latino		82	358	53	
Native Hawaiian or other Pacific Islander		3	1	1	
White		1,204	7,028	1,153	
Two or more races		165	660	130	
Total		2,741	13,388	2,216	

Sex	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Male		1,579	9,849	1,963	
Female		1,162	3,539	253	
Total		2,741	13,388	2,216	

Age	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
3-5		55			
6		20			
7		21	2		
8		23	6	1	
9		39	9	1	
10		42	37	3	
11		62	118	7	
12		100	364	19	
13		215	921	87	
14		328	1,651	165	
15		510	2,618	402	
16		567	3,285	583	
17		518	3,474	688	
18		191	711	232	
19		28	159	27	
20		19	33	1	
21		3			
Total		2,741	13,388	2,216	

If the total number of students differs by demographics, please explain. The response is limited to 8,000 characters.

The State of Ohio does not use Title I, Part D, Subpart 2 funds for At-Risk or Other programs.
--

FAQ on Unduplicated Count:

What is an unduplicated count? An unduplicated count is one that counts students only once, even if they were admitted to a facility or program multiple times within the reporting year.

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013 through June 30, 2014.

2.4.2.3.1 Transition Services in Subpart 2

In the first row of the table below indicate whether programs/facilities receiving Subpart 2 funds within the State are legally permitted to track student outcomes after leaving the program or facility by entering Yes or No. In the second row, provide the unduplicated count of students receiving transition services that specifically target planning for further schooling and/or employment. If not, provide more information in the comment field.

Transition Services	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Are facilities in your state permitted to collect data on student outcomes after exit ? (Yes or No)		Yes	Yes	Yes	
Number of students receiving transition services that address further schooling and/or employment.		826	2,421	1,167	

This response is limited to 4,000 characters.

Comments: The State of Ohio does not use Title I, Part D, Subpart 2 funds for At-Risk or Other programs.

FAQ on facilities collecting data on student outcomes after exit:

If only some, but not all, facilities in the State are legally permitted to collect data on student outcomes after exit, enter 'yes' for the first question and provide a comment indicating why some facilities are unable to collect these data.

2.4.2.3.2 Academic and Vocational Outcomes While in the LEA Program/Facility or Within 90 Calendar Days After Exit

In the table below, for each program type, first provide the unduplicated number of students who attained academic and vocational outcomes while enrolled in the LEA program/facility and next provide the unduplicated number of students who attained academic and vocational outcomes within 90 calendar days after exiting. If a student attained an outcome once in the program/facility and once during the 90 day transition period, that student may be counted once in each column separately as appropriate. For "Enrolled in their local district school" use the "90 days after exit" columns to provide the number of students who enrolled, or planned to enroll, in their local district school after exit.

Outcomes	At-Risk Programs		Neglected Programs		Juvenile Detention		Juvenile Corrections		Other Programs	
	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit
# of Students Who Enrolled in their local district school	//////////		//////////	667	//////////	1,623	//////////	507	//////////	
Earned high school course credits			1,285	357	2,784	591	1,568	129		
Enrolled in a GED program			38	S	45	23	78	S		
Earned a GED			11	S	15	7	51	S		
Obtained high school diploma			79	12	19	55	47	5		
Accepted and/or enrolled into post-secondary education			27	S	S	10	15	S		
Enrolled in job training courses/programs			107	15	45	45	122	7		
Obtained employment			103	S		30	4	14		

This response is limited to 4,000 characters.

Comments: The State of Ohio does not use Title I, Part D, Subpart 2 funds for At-Risk or Other programs.

2.4.2.6 Academic Performance – Subpart 2

The following questions collect data on the academic performance of neglected and delinquent long-term students served by Title I, Part D, Subpart 2 in reading and mathematics.

2.4.2.6.1 Academic Performance in Reading – Subpart 2

In the table below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 2, who participated in reading pre- and post-testing. Students should be reported in only one of the four change categories. Reporting pre- and post-test data for at-risk students in the table below is optional.

Report only information on a student's most recent testing data. Students who were pre-tested prior to July 1, 2013, may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Below the table is an FAQ about the data collected in this table.

Performance Data (Based on most recent pre/post-test data)	At-Risk Programs	Neglected Programs	Juvenile Detention Facilities	Juvenile Corrections Facilities	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams		91	4	141	
Long-term students with no change in grade level from the pre- to post-test exams		141	41	281	
Long-term students with improvement up to one full grade level from the pre- to post-test exams		318	16	275	
Long-term students with improvement of more than one full grade level from the pre- to post-test exams		111	41	255	
Comments: The State of Ohio does not use Title I, Part D, Subpart 2 funds for At-Risk or Other programs.					

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013, through June 30, 2014.

Is reporting pre-posttest data for at-risk programs required? No, reporting pre-posttest data for at-risk students is no longer required, but States have the option to continue to collect and report it within the CSPR.

2.4.2.6.2 Academic Performance in Mathematics – Subpart 2

This section is similar to 2.4.2.6.1. The only difference is that this section collects data on mathematics performance.

Performance Data (Based on most recent pre/post-test data)	At-Risk Programs	Neglected Programs	Juvenile Detention Facilities	Juvenile Corrections Facilities	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams		74	S	115	
Long-term students with no change in grade level from the pre- to post-test exams		175	35	266	
Long-term students with improvement up to one full grade level from the pre- to post-test exams		246	19	386	
Long-term students with improvement of more than one full grade level from the pre- to post-test exams		128	45	367	

Comments: The State of Ohio does not use Title I, Part D, Subpart 2 funds for At-Risk or Other programs.

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013, through June 30, 2014.

Is reporting pre/post-test data for at-risk programs required? No, reporting pre/post-test data for at-risk students is no longer required, but States have the option to continue to collect and report it within the CSPR.

2.9 RURAL EDUCATION ACHIEVEMENT PROGRAM (REAP) (TITLE VI, PART B, SUBPARTS 1 AND 2)

This section collects data on the Rural Education Achievement Program (REAP) Title VI, Part B, Subparts 1 and 2.

2.9.2 LEA Use of Rural Low-Income Schools Program (RLIS) (Title VI, Part B, Subpart 2) Grant Funds

In the table below, provide the number of eligible LEAs that used RLIS funds for each of the listed purposes.

Purpose	# LEAs
Teacher recruitment and retention, including the use of signing bonuses and other financial incentives	5
Teacher professional development, including programs that train teachers to utilize technology to improve teaching and to train special needs teachers	31
Educational technology, including software and hardware as described in Title II, Part D	46
Parental involvement activities	15
Activities authorized under the Safe and Drug-Free Schools Program (Title IV, Part A)	27
Activities authorized under Title I, Part A	60
Activities authorized under Title III (Language instruction for LEP and immigrant students)	4
Comments:	

2.9.2.1 Goals and Objectives

In the space below, describe the progress the State has made in meeting the goals and objectives for the Rural Low-Income Schools (RLIS) Program as described in its June 2002 Consolidated State application. Provide quantitative data where available.

The response is limited to 8,000 characters.

There were 105 Local Educational Agencies (LEAs) in Ohio that participated in the Rural and Low-Income School (RLIS) Program during 2013-2014.

1. Disaggregated Student Performance Results:

Under Ohio's approved ESEA Flexibility Request, the State no longer measures Adequate Yearly Progress (AYP), instead evaluating buildings and LEAs with a set of Annual Measurable Objectives (AMOs) and demotion criteria in order to assign a Final Letter Grade to each building and LEA. The 3 AMOs are Reading Percent Proficient, Mathematics Percent Proficient, and Graduation Rate. No building or LEA may receive a Final Letter Grade of A if any student subgroup of sufficient size to be evaluated (i.e., N = 30) scores below a 70.0% demotion threshold on any of the 3 AMOs. Additionally, any building or LEA that has at least 1 student subgroup of sufficient size (N = 40) that does not meet the 95.0% target for Reading or Mathematics Participation Rate will be demoted by 1 letter grade. In this system, receiving a Final Letter Grade of C is equivalent to meeting AYP.

Ohio made a significant change to its AMO demotion process in 2013-2014, which is reflected in the AMO results below. Previously, Attendance Rate was included—along with Reading and Mathematics Participation Rates—as an AMO demotion criterion. If any student subgroup of sufficient size to be evaluated for Attendance Rate (N = 30) did not meet the 93.0% goal, it would cause an AMO demotion of 1 letter grade. Under this practice, the majority of AMO demotions received were for not meeting the Attendance Rate goal, rather than for any of the 5 other methods for earning a demotion. Because there are disproportionately more student subgroups evaluated for Attendance Rate than for either the AMOs or the other AMO demotion criteria, it seemed possible that demotions based solely on Attendance Rate were perhaps obscuring the picture painted by student performance results. Ohio successfully petitioned the USDOE to modify its ESEA Flexibility Request and remove Attendance Rate as an AMO demotion criterion, so the AMO results no longer reflect any Attendance Rate demotions.

A. Final Letter Grades: Among the 105 LEAs participating in the RLIS Program during 2013-2014, their Final Letter Grade distribution is as follows:

- 1) 2 LEAs (1.9%) received As.
- 2) 8 LEAs (7.6%) received Bs. 3 LEAs (2.9%) were demoted from a Preliminary Letter Grade of A to a Final Letter Grade of B for not meeting 70.0% proficiency targets either in both the Reading and the Mathematics Percent Proficient AMOs (N = 1 LEA) or in the Mathematics Percent Proficient AMO (N = 2 LEAs). The total number of LEAs that received Bs as Final Letter Grades is 11 (10.5%).
- 3) 22 LEAs (21.0%) received Cs.
- 4) 15 LEAs (14.3%) received Ds.
- 5) 55 LEAs (52.4%) received Fs.

B. Annual Measurable Objectives: Among the 105 LEAs participating in the RLIS Program during 2013-2014, there were 492 student subgroups evaluated for AMOs and 558 subgroups too small to be evaluated for AMOs. For the 492 evaluated subgroups, the results are as follows:

- 1) Of 105 All Students subgroups, 33 (31.4%) met or exceeded all 3 AMOs and all applicable demotion thresholds.
- 2) Of 105 All Students subgroups, 72 (68.6%) did not meet at least 1 AMO but met or exceeded all applicable demotion thresholds.
 - a) 5 subgroups (6.9%) did not meet the Reading Percent Proficient AMO.
 - b) 17 subgroups (23.6%) did not meet the Mathematics Percent Proficient AMO.
 - c) 48 subgroups (66.7%) did not meet both the Reading and the Mathematics Percent Proficient AMOs.
 - d) 2 subgroups (2.8%) did not meet the Reading and the Mathematics Percent Proficient AMOs and the Graduation Rate AMO.
 - e) All 105 subgroups met the AMO demotion criteria thresholds of 95.0% for the Reading and the Mathematics Participation Rates.
 - f) All 105 subgroups met the AMO demotion thresholds of 70.0% for the Reading and the Mathematics Percent Proficient AMOs and the Graduation Rate AMO.
- 3) Of 387 non-All Students subgroups, 52 (13.4%) met or exceeded all applicable AMOs and all applicable demotion thresholds.
 - a) All 52 subgroups met the Reading and the Mathematics Percent Proficient AMOs, and all 37 subgroups that had at least 30 students evaluated for the Graduation Rate AMO met it.
 - b) For the Reading and the Mathematics Participation Rate demotion criteria, 51 of 52 subgroups with at least 40 students met the demotion thresholds of 95.0%.
 - c) All 52 subgroups met the AMO demotion thresholds of 70.0% for the Reading and the Mathematics Percent Proficient AMOs and the Graduation Rate AMO.
- 4) Of 387 non-All Students subgroups, 335 (86.6%) did not meet at least 1 AMO, and 3 (.7%) did not meet at least 1 applicable AMO demotion criteria.
 - a) 16 subgroups (4.8%) did not meet the Reading Percent Proficient AMO.
 - b) 35 subgroups (10.4%) did not meet the Mathematics Percent Proficient AMO.
 - c) 259 subgroups (77.3%) did not meet the Reading and the Mathematics Percent Proficient AMOs.
 - d) 25 subgroups (7.5%) did not meet the Reading and the Mathematics Percent Proficient AMOs and the Graduation Rate AMO.
 - e) For the Reading Participation Rate AMO demotion criteria, 321 of 335 subgroups had at least 40 students, and all 321 (100.0%) met the demotion threshold of 95.0%. For the Mathematics Participation Rate AMO demotion criteria, the number was 322.
 - f) 3 LEAs had 1 subgroup each that did not meet AMO demotion thresholds. 2 LEAs had 1 subgroup that scored below 70.0% on the Mathematics Percent Proficient AMO, and 1 LEA had 1 subgroup that scored below 70.0% on both the Reading and the Mathematics Percent Proficient AMOs. In these 3 cases, each LEA's Preliminary Letter Grade was an A, so having a subgroup score below the 70.0% threshold on at least 1 AMO caused the Final Letter Grades to be demoted to Bs.

C. Limited English Proficient Student Subgroup:

- 1) 7 LEAs had a sufficient number of students (N = 30) in their Limited English Proficient (LEP) student subgroups to be evaluated on the Reading and the Mathematics Percent Proficient AMOs.

- a) The LEP subgroups in 2 of the 7 LEAs met both the Reading and the Mathematics Percent Proficient AMOs.
- b) None of the LEP subgroups in the other 5 LEAs met either the Reading or the Mathematics Percent Proficient AMOs.
- c) No LEA had enough students in the LEP subgroup to be evaluated for the Graduation Rate AMO.

2) For the demotion criteria, all 6 LEP subgroups with at least 40 students met the Reading Participation Rate target of 95.0%, and all 7 LEP subgroups of sufficient size met the Mathematics Participation Rate target of 95.0%.

2. Highly Qualified Teachers:

A. Comparison to State Highly Qualified Teacher Percentage: 87 of 105 RLIS LEAs exceeded the State Percentage of Core Academic Subject Elementary and Secondary School Classes Taught by Highly Qualified Teachers (82.9%). This represents a decrease of 3.3% from the performance of 109 RLIS LEAs (86.2%) in 2012-2013. The State percentage decreased slightly, from 99.2% in 2011-2012 to 99.0% for 2012-2013 and 98.7% in 2013-2014.

B. Attainment of 100.0% Highly Qualified Teacher Goal: 74 of 105 RLIS LEAs met the federal requirement of having 100.0% of core academic subject elementary and secondary school classes taught by Highly Qualified Teachers (70.5%). This represents a decrease of 11.2% over the performance of 109 RLIS LEAs (81.7%) in 2012-2013.

3. Safe and Drug-Free Schools and Communities:

A. Title IV-A Funded Activities: 27 of 105 RLIS LEAs used funds for activities authorized under the Title IV-A Safe and Drug-Free Schools and Communities Program (25.7%). This represents no percentage change from the performance of 109 RLIS LEAs (25.7%) in 2012-2013.

B. Persistently Dangerous Schools: 0 of 105 RLIS LEAs had any schools defined as Persistently Dangerous (0.0%). This is identical to the performance of 109 RLIS LEAs (0.0%) in 2012-2013.

2.10 FUNDING TRANSFERABILITY FOR STATE AND LOCAL EDUCATIONAL AGENCIES (TITLE VI, PART A, SUBPART 2)

2.10.1 State Transferability of Funds

In the table below, indicate whether the state transferred funds under the state transferability authority.

State Transferability of Funds	Yes/No
Did the State transfer funds under the State Transferability authority of Section 6123(a) during SY 2013-14?	<u>No</u>
Comments:	

2.10.2 Local Educational Agency (LEA) Transferability of Funds

In the table below, indicate the number of LEAs that notified that state that they transferred funds under the LEA transferability authority.

LEA Transferability of Funds	#
LEAs that notified the State that they were transferring funds under the LEA Transferability authority of Section 6123(b).	10
Comments:	

2.10.2.1 LEA Funds Transfers

In the table below, provide the total number of LEAs that transferred funds from an eligible program to another eligible program.

Program	# LEAs Transferring Funds FROM Eligible Program	# LEAs Transferring Funds TO Eligible Program
Improving Teacher Quality State Grants (Section 2121)	10	0
Educational Technology State Grants (Section 2412(a)(2)(A))	0	0
Safe and Drug-Free Schools and Communities (Section 4112(b)(1))	0	0
State Grants for Innovative Programs (Section 5112(a))	0	0
Title I, Part A, Improving Basic Programs Operated by LEAs		10

In the table below provide the total amount of FY 2013 appropriated funds transferred from and to each eligible program.

Program	Total Amount of Funds Transferred FROM Eligible Program	Total Amount of Funds Transferred TO Eligible Program
Improving Teacher Quality State Grants (Section 2121)	292,345.61	0.00
Educational Technology State Grants (Section 2412(a)(2)(A))	0.00	0.00
Safe and Drug-Free Schools and Communities (Section 4112(b)(1))	0.00	0.00
State Grants for Innovative Programs (Section 5112(a))	0.00	0.00
Title I, Part A, Improving Basic Programs Operated by LEAs		292,345.61
Total	292,345.61	292,345.61
Comments:		

The Department plans to obtain information on the use of funds under both the State and LEA Transferability Authority through evaluation studies.

2.11 GRADUATION RATES ⁴

This section collects graduation rates.

2.11.1 Regulatory Adjusted Cohort Graduation Rates

In the table below, provide the graduation rates calculated using the methodology that was approved as part of the State's accountability plan for the **current school year** (SY 2013-14). Below the table are FAQs about the data collected in this table.

Note: States are not required to report these data by the racial/ethnic groups shown in the table below; instead, they are required to report these data by the major racial and ethnic groups that are identified in their Accountability Workbooks. The charts below display racial/ethnic data that have been mapped from the major racial and ethnic groups identified in their workbooks, to the racial/ethnic groups shown.

Student Group	Graduation Rate
All Students	81.80
American Indian or Alaska Native	74.00
Asian or Pacific Islander	88.00
<i>Asian</i>	
<i>Native Hawaiian or Other Pacific Islander</i>	
Black or African American	62.70
Hispanic or Latino	69.20
White	86.60
Two or more races	75.60
Children with disabilities (<i>IDEA</i>)	68.40
Limited English proficient (LEP) students	66.00
Economically disadvantaged students	69.20

FAQs on graduation rates:

What is the regulatory adjusted cohort graduation rate? For complete definitions and instructions, please refer to the non-regulatory guidance, which can be found here: <http://www2.ed.gov/policy/elsec/guid/hsgrguidance.pdf>.

The response is limited to 8,000 characters.

⁴ The "Asian/Pacific Islander" row in the tables below represent either the value reported by the state to the Department of Education for the major racial and ethnic group "Asian/Pacific Islander" or an aggregation of values reported by the state for the major racial and ethnic groups "Asian" and "Native Hawaiian/Other Pacific Islander or Pacific Islander" (and "Filipino" in the case of California). When the values reported in the Asian/Pacific Islander row represent the U. S. Department of Education aggregation of other values reported by the state, the detail for "Asian" and "Native Hawaiian or Other Pacific Islander" are also included in the following rows. Disaggregated reporting for the adjusted cohort graduation rate data is done according to the provisions outlined within each state's Accountability Workbook. Accordingly, not every state uses major racial and ethnic groups which enable detail of Asian American/Pacific Islander (AAPI) populations.

2.12 LISTS OF SCHOOLS AND DISTRICTS

This section contains data on school statuses. States with approved ESEA Flexibility requests should follow the instructions in sections 2.12.1 and 2.12.3. All other states should follow the instructions in sections 2.12.2 and 2.12.4. These tables will be generated based on data submitted to ED^{Facts} and included as part of each state's certified report; states will no longer upload their lists separately. Data will be generated into separate reports for each question listed below.

2.12.1 List of Schools for ESEA Flexibility States

2.12.1.1 List of Reward Schools

Instructions for States that identified reward schools⁵ under ESEA flexibility for SY 2014-15 : Provide the information listed in the bullets below for those schools.

- | District Name
- | District NCES ID Code
- | School Name
- | School NCES ID Code
- | Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- | Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the mathematics assessment
- | Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | If applicable, State-specific status in addition to reward (e.g., grade, star, or level)
- | Whether the school was identified as a high progress or high performing reward school
- | Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- | Whether (yes or no) the school was provided assistance through 1003(a).
- | Whether (yes or no) the school was provided assistance through 1003(g).

The data for this question are reported through ED^{Facts} files and compiled in the EDEN030 "List of Reward Schools" report in the ED^{Facts} Reporting System (ERS). The ED^{Facts} files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN030 report in ERS and verify that the state's data are correct . The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁵ The definition of reward schools is provided in the document titled, ESEA Flexibility. This document may be accessed on the Department's Web page at <http://www.ed.gov/eSEA/flexibility/documents/eSEA-flexibility.doc>

2.12.1.2 List of Priority and Focus Schools

Instructions for States that identified priority and focus schools⁶ under ESEA flexibility for SY 2014-15 : Provide the information listed in the bullets below for those schools.

- | District Name
- | District NCES ID Code
- | School Name
- | School NCES ID Code
- | Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- | Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the mathematics assessment
- | Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Status for SY 2014-15 (Use one of the following status designations: priority or focus)
- | If applicable, State-specific status in addition to priority or focus (e.g., grade, star, or level)
- | Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- | Whether (yes or no) the school was provided assistance through Section 1003(a).
- | Whether (yes or no) the school was provided assistance through Section 1003(g).

The data for this question are reported through EDFacts files and compiled in the EDEN031 "List of Priority and Focus Schools" report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN031 report in ERS and verify that the state's data are correct . The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁶ The definitions of priority and focus schools are provided in the document titled, *ESEA Flexibility*. This document may be accessed on the Department's Web page at <http://www.ed.gov/esea/flexibility/documents/esea-flexibility.doc>

2.12.1.3 List of Other Identified Schools

Instructions for States that identified non- priority, focus, or reward schools⁷ with State-specific statuses under ESEA flexibility for SY 2014-15 :
Provide the information listed in the bullets below for those schools.

- | District Name
- | District NCES ID Code
- | School Name
- | School NCES ID Code
- | Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- | Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the mathematics assessment
- | Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | State-specific designation (e.g., grade, star, or level)
- | Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- | Whether (yes or no) the school was provided assistance through Section 1003(a).
