

**CONSOLIDATED STATE PERFORMANCE REPORT:
Parts I and II**

for
STATE FORMULA GRANT PROGRAMS
under the
ELEMENTARY AND SECONDARY EDUCATION ACT
As amended in 2001

For reporting on
School Year 2013-14

PART I DUE THURSDAY, DECEMBER 18, 2014
PART II DUE FRIDAY, FEBRUARY 13, 2015

U.S. DEPARTMENT OF EDUCATION
WASHINGTON, DC 20202

PRIVACY PROTECTED VERSION

SOME DATA IN THIS REPORT HAVE BEEN SUPPRESSED OR BLURRED TO PROTECT STUDENT PRIVACY.

INTRODUCTION

Sections 9302 and 9303 of the *Elementary and Secondary Education Act (ESEA)*, as amended in 2001 provide to States the option of applying for and reporting on multiple *ESEA* programs through a single consolidated application and report. Although a central, practical purpose of the Consolidated State Application and Report is to reduce "red tape" and burden on States, the Consolidated State Application and Report are also intended to have the important purpose of encouraging the integration of State, local, and *ESEA* programs in comprehensive planning and service delivery and enhancing the likelihood that the State will coordinate planning and service delivery across multiple State and local programs. The combined goal of all educational agencies—State, local, and Federal—is a more coherent, well-integrated educational plan that will result in improved teaching and learning. The Consolidated State Application and Report includes the following *ESEA* programs:

- Title I, Part A – *Improving Basic Programs Operated by Local Educational Agencies*
- Title I, Part B, Subpart 3 – *William F. Goodling Even Start Family Literacy Programs*
- Title I, Part C – *Education of Migratory Children* (Includes the Migrant Child Count)
- Title I, Part D – *Prevention and Intervention Programs for Children and Youth Who Are Neglected, Delinquent, or At-Risk*
- Title II, Part A – *Improving Teacher Quality State Grants (Teacher and Principal Training and Recruiting Fund)*
- Title III, Part A – *English Language Acquisition, Language Enhancement, and Academic Achievement Act*
- Title IV, Part A, Subpart 1 – *Safe and Drug-Free Schools and Communities State Grants*
- Title IV, Part A, Subpart 2 – *Safe and Drug-Free Schools and Communities National Activities (Community Service Grant Program)*
- Title V, Part A – *Innovative Programs*
- Title VI, Section 6111 – *Grants for State Assessments and Related Activities*
- Title VI, Part B – *Rural Education Achievement Program*
- Title X, Part C – *Education for Homeless Children and Youths*

The *ESEA* Consolidated State Performance Report (CSPR) for school year (SY) 2013-14 consists of two Parts, Part I and Part II.

PART I

Part I of the CSPR requests information related to the five *ESEA* Goals, established in the June 2002 Consolidated State Application, and information required for the Annual State Report to the Secretary, as described in Section 1111(h)(4) of the *ESEA*. The five *ESEA* Goals established in the June 2002 Consolidated State Application are:

- | **Performance Goal 1:** By SY 2013-14, all students will reach high standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- | **Performance Goal 2:** All limited English proficient students will become proficient in English and reach high academic standards, at a minimum attaining proficiency or better in reading/language arts and mathematics.
- | **Performance Goal 3:** By SY 2005-06, all students will be taught by highly qualified teachers.
- | **Performance Goal 4:** All students will be educated in learning environments that are safe, drug free, and conducive to learning.
- | **Performance Goal 5:** All students will graduate from high school.

Beginning with the CSPR SY 2005-06 collection, the Education of Homeless Children and Youths was added. The Migrant Child count was added for the SY 2006-07 collection.

PART II

Part II of the CSPR consists of information related to State activities and outcomes of specific *ESEA* programs. While the information requested varies from program to program, the specific information requested for this report meets the following criteria:

1. The information is needed for Department program performance plans or for other program needs.
2. The information is not available from another source, including program evaluations pending full implementation of required ED Facts submission.
3. The information will provide valid evidence of program outcomes or results.

GENERAL INSTRUCTIONS AND TIMELINES

All States that received funding on the basis of the Consolidated State Application for the SY 2013-14 must respond to this Consolidated State Performance Report (CSPR). Part I of the Report is due to the Department by **Thursday, December 18, 2014**. Part II of the Report is due to the Department by **Friday, February 13, 2015**. Both Part I and Part II should reflect data from the SY 2013-14, unless otherwise noted.

The format states will use to submit the Consolidated State Performance Report has changed to an online submission starting with SY 2004-05. This online submission system is being developed through the Education Data Exchange Network (EDEN) and will make the submission process less burdensome. Please see the following section on transmittal instructions for more information on how to submit this year's Consolidated State Performance Report.

TRANSMITTAL INSTRUCTIONS

The Consolidated State Performance Report (CSPR) data will be collected online from the SEAs, using the EDEN web site. The EDEN web site will be modified to include a separate area (sub-domain) for CSPR data entry. This area will utilize EDEN formatting to the extent possible and the data will be entered in the order of the current CSPR forms. The data entry screens will include or provide access to all instructions and notes on the current CSPR forms; additionally, an effort will be made to design the screens to balance efficient data collection and reduction of visual clutter.

Initially, a state user will log onto EDEN and be provided with an option that takes him or her to the "SY 2013-14 CSPR". The main CSPR screen will allow the user to select the section of the CSPR that he or she needs to either view or enter data. After selecting a section of the CSPR, the user will be presented with a screen or set of screens where the user can input the data for that section of the CSPR. A user can only select one section of the CSPR at a time. After a state has included all available data in the designated sections of a particular CSPR Part, a lead state user will certify that Part and transmit it to the Department. Once a Part has been transmitted, ED will have access to the data. States may still make changes or additions to the transmitted data, by creating an updated version of the CSPR. Detailed instructions for transmitting the SY 2013-14 CSPR will be found on the main CSPR page of the EDEN web site (<https://EDEN.ED.GOV/EDENPortal/>).

**CONSOLIDATED STATE PERFORMANCE REPORT
PART II**

For reporting on
School Year 2013-14

**PART II DUE FEBRUARY 13, 2015
5PM EST**

2.1 IMPROVING BASIC PROGRAMS OPERATED BY LOCAL EDUCATIONAL AGENCIES (TITLE I, PART A)

This section collects data on Title I, Part A programs.

2.1.1 Student Achievement in Schools with Title I, Part A Programs

The following sections collect data on student academic achievement on the State's assessments in schools that receive Title I, Part A funds and operate either Schoolwide programs or Targeted Assistance programs.

2.1.1.1 Student Achievement in Mathematics in Schoolwide Schools (SWP)

In the format of the table below, provide the number of students in SWP schools who completed the assessment and for whom a proficiency level was assigned, in grades 3 through 8 and high school, on the State's mathematics assessments under Section 1111(b)(3) of ESEA. Also, provide the number of those students who scored at or above proficient. The percentage of students who scored at or above proficient is calculated automatically.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	30,641	S	65.30
4	29,619	S	69.60
5	28,725	S	69.70
6	15,145	S	57.00
7	13,046	S	57.40
8	12,258	S	58.90
High School	5,317	S	33.30
Total	134,751	S	63.70
Comments:			

2.1.1.2 Student Achievement in Reading/Language Arts in Schoolwide Schools (SWP)

This section is similar to 2.1.1.1. The only difference is that this section collects data on performance on the State's reading/language arts assessment in SWP.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	30,527	S	73.60
4	29,548	S	70.50
5	28,692	S	74.70
6	15,120	S	58.10
7	13,029	S	57.70
8	12,237	S	56.10
High School	5,320	S	48.20
Total	134,473	S	67.30
Comments:			

2.1.1.3 Student Achievement in Mathematics in Targeted Assistance Schools (TAS)

In the table below, provide the number of all students in TAS who completed the assessment and for whom a proficiency level was assigned, in grades 3 through 8 and high school, on the State's mathematics assessments under Section 1111(b)(3) of *ESEA*. Also, provide the number of those students who scored at or above proficient. The percentage of students who scored at or above proficient is calculated automatically.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	372	S	78.00
4	296	S	85.00
5	285	S	86.00
6	101	S	90.00
7			
8			
High School			
Total	1,054	S	83.00

Comments: Targeted assistance programs (TAS) counts are different this year because one district that offered Targeted Assistance previously, in SY 2012-13, did not offer it this year. Additionally, one district chose to target on K-2, while another chose to target ninth and tenth grades.

2.1.1.4 Student Achievement in Reading/Language Arts in Targeted Assistance Schools (TAS)

This section is similar to 2.1.1.3. The only difference is that this section collects data on performance on the State's reading/language arts assessment by all students in TAS.

Grade	# Students Who Completed the Assessment and for Whom a Proficiency Level Was Assigned	# Students Scoring at or above Proficient	Percentage at or above Proficient
3	371	S	86.00
4	295	S	89.00
5	283	S	90.00
6	101	S	91.00
7			
8			
High School			
Total	1,050	S	88.00

Comments: Targeted assistance programs (TAS) counts are different this year because one district that offered Targeted Assistance previously, in SY 2012-13, did not offer it this year. Additionally, one district chose to target on K-2, while another chose to target ninth and tenth grades.

2.1.2 Title I, Part A Student Participation

The following sections collect data on students participating in Title I, Part A by various student characteristics.

2.1.2.1 Student Participation in Public Title I, Part A by Special Services or Programs

In the table below, provide the number of public school students served by either Public Title I SWP or TAS programs at any time during the regular school year for each category listed. Count each student only once in each category even if the student participated during more than one term or in more than one school or district in the State. Count each student in as many of the categories that are applicable to the student. Include pre-kindergarten through grade 12. Do not include the following individuals: (1) adult participants of adult literacy programs funded by Title I, (2) private school students participating in Title I programs operated by local educational agencies, or (3) students served in Part A local neglected programs.

Special Services or Programs	# Students Served
Children with disabilities (<i>IDEA</i>)	33,671
Limited English proficient students	20,411
Students who are homeless	3,511
Migratory students	229
Comments: Weather and hiring trends contributed to the 36.56% decrease of Category 1 eligible migrant children ages 3-21 in SC from 1,198 in School Year (SY) 2012-13 to 760 in SY2013-14. A major factor that diminished migration was weather. In March 2014, there was a freeze which, according to the SC Department of Agriculture, resulted in a \$30 million loss for the early peach season. This altered the labor contracts for H2A peach workers from whence are recruited many OSY. Furthermore, the Southeast region (Alabama, Georgia, and South Carolina) saw among the biggest decreases in the number of hired agricultural workers. This was reported in the US Department of Agriculture Farm Labor report released 20 November 2014, for the July Reference Week. The lower number of workers hired reflects the lower number of students present for the year.	
Programmatically, recruitment capacity was strained due to the following occurrences: there was a loss of one participating LEA; budget cuts to summer programs in order to allow for regular school year programs for SY14-15 resulted in less local recruiters and hence restrained recruitment capacity.	

2.1.2.2 Student Participation in Public Title I, Part A by Racial/Ethnic Group

In the table below, provide the unduplicated number of public school students served by either public Title I SWP or TAS at any time during the regular school year. Each student should be reported in only one racial/ethnic category. Include pre-kindergarten through grade 12. The total number of students served will be calculated automatically.

Do not include: (1) adult participants of adult literacy programs funded by Title I, (2) private school students participating in Title I programs operated by local educational agencies, or (3) students served in Part A local neglected programs.

Race/Ethnicity	# Students Served
American Indian or Alaska Native	1,050
Asian	2,026
Black or African American	129,911
Hispanic or Latino	24,548
Native Hawaiian or other Pacific Islander	280
White	107,287
Two or more races	8,692
Total	273,794
Comments:	

2.1.2.3 Student Participation in Title I, Part A by Grade Level

In the table below, provide the unduplicated number of students participating in Title I, Part A programs by grade level and by type of program: Title I public targeted assistance programs (Public TAS), Title I schoolwide programs (Public SWP), private school students participating in Title I programs (private), and Part A local neglected programs (local neglected). The totals column by type of program will be automatically calculated.

Age/Grade	Public TAS	Public SWP	Private	Local Neglected	Total
Age 0-2	0	0	0	0	0
Age 3-5 (not Kindergarten)	0	16,492	0	0	16,492
K	28	35,192	33	53	35,306
1	106	35,367	24	62	35,559
2	72	33,084	25	68	33,249
3	0	30,951	20	44	31,015
4	0	30,035	21	88	30,144
5	0	29,428	68	81	29,577
6	0	16,183	10	111	16,304
7	0	14,205	1	177	14,383
8	0	13,963	0	235	14,198
9	80	6,636	0	370	7,086
10	63	5,518	0	240	5,821
11	0	4,268	0	170	4,438
12	0	4,219	0	67	4,286
Ungraded	0	0	0	0	0
TOTALS	349	275,541	202	1,766	277,858

Comments: Private schools which elect to participate in Title I programs vary from year to year, as does student Title I enrollment. Targeted assistance programs are different this year because one district, that previously offered Targeted Assistance in SY 2012-13, did not offer Targeted Assistance this year. Additionally, one district chose to target K-2, while another district chose to target ninth and tenth grades.

2.1.2.4 Student Participation in Title I, Part A Targeted Assistance Programs by Instructional and Support Services

The following sections collect data about the participation of students in TAS.

2.1.2.4.1 Student Participation in Title I, Part A Targeted Assistance Programs by Instructional Services

In the table below, provide the number of students receiving each of the listed instructional services through a TAS program funded by Title I, Part A. Students may be reported as receiving more than one instructional service. However, students should be reported only once for each instructional service regardless of the frequency with which they received the service.

TAS instructional service	# Students Served
Mathematics	101
Reading/language arts	391
Science	0
Social studies	0
Vocational/career	0
Other instructional services	0
Comments:	

2.1.2.4.2 Student Participation in Title I, Part A Targeted Assistance Programs by Support Services

In the table below, provide the number of students receiving each of the listed support services through a TAS program funded by Title I, Part A. Students may be reported as receiving more than one support service. However, students should be reported only once for each support service regardless of the frequency with which they received the service.

TAS Support Service	# Students Served
Health, dental, and eye care	312
Supporting guidance/advocacy	312
Other support services	27
Comments:	

2.1.3 Staff Information for Title I, Part A Targeted Assistance Programs (TAS)

In the table below, provide the number of full-time equivalent (FTE) staff funded by a Title I, Part A TAS in each of the staff categories. For staff who work with both TAS and SWP, report only the FTE attributable to their TAS responsibilities.

For paraprofessionals only, provide the percentage of paraprofessionals who were qualified in accordance with Section 1119 (c) and (d) of ESEA.

See the FAQs following the table for additional information.

Staff Category	Staff FTE	Percentage Qualified
Teachers	31.52	
Paraprofessionals ¹	0.00	100.00
Other paraprofessionals (translators, parental involvement, computer assistance) ²	0.00	
Clerical support staff	0.00	
Administrators (non-clerical)	1.00	
Comments:		

FAQs on staff information

- a. *What is a "paraprofessional?"* An employee of an LEA who provides instructional support in a program supported with Title I, Part A funds. Instructional support includes the following activities:
1. Providing one-on-one tutoring for eligible students, if the tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher;
 2. Providing assistance with classroom management, such as organizing instructional and other materials;
 3. Providing assistance in a computer laboratory;
 4. Conducting parental involvement activities;
 5. Providing support in a library or media center;
 6. Acting as a translator; or
 7. Providing instructional services to students.
- b. *What is an "other paraprofessional?"* Paraprofessionals who do not provide instructional support, for example, paraprofessionals who are translators or who work with parental involvement or computer assistance.
- c. *Who is a qualified paraprofessional?* A paraprofessional who has (1) completed 2 years of study at an institution of higher education; (2) obtained an associate's (or higher) degree; or (3) met a rigorous standard of quality and been able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness) (Sections 1119(c) and (d).) For more information on qualified paraprofessionals, please refer to the Title I paraprofessionals Guidance, available at: <http://www.ed.gov/policy/elsec/guid/paraguidance.doc>

¹ Consistent with ESEA, Title I, Section 1119(g)(2).

² Consistent with ESEA, Title I, Section 1119(e).

2.1.3.1 Paraprofessional Information for Title I, Part A Schoolwide Programs

In the table below, provide the number of FTE paraprofessionals who served in SWP and the percentage of these paraprofessionals who were qualified in accordance with Section 1119 (c) and (d) of *ESEA*. Use the additional guidance found below the previous table.

Paraprofessional Information	Paraprofessionals FTE	Percentage Qualified
Paraprofessionals ³	30.80	70.70
Comments:		

³ Consistent with *ESEA*, Title I, Section 1119(g)(2).

2.1.4 Parental Involvement Reservation Under Title I, Part A

In the table below provide information on the amount of Title I, Part A funds reserved by LEAs for parental involvement activities under Section 1118 (a)(3) of the ESEA. The percentage of LEAs FY 2013 Title I Part A allocations reserved for parental involvement will be automatically calculated from the data entered in Rows 2 and 3.

Parental Involvement Reservation	LEAs that Received a Federal Fiscal Year (FY) 2013 (School Year 2013-14) Title I, Part A Allocation of \$500,000 or less	LEAs that Received a Federal fiscal year (FY) 2013 (School Year 2013-14) Title I, Part A Allocation of more than \$500,000
Number of LEAs*	13	70
Sum of the amount reserved by LEAs for parental Involvement	140,700	6,677,420
Sum of LEA's FY 2013 Title I, Part A allocations	3,822,170	133,897,750
Percentage of LEA's FY 2013 Title I, Part A allocations reserved for parental involvement	3.68	4.99

*The sum of Column 2 and Column 3 should equal the number of LEAs that received an FY 2013 Title I, Part A allocation.

In the comment box below, provide examples of how LEAs in your State used their Title I Part A, set-aside for parental involvement during SY 2013–2014.

This response is limited to 8,000 characters.

Parent involvement reservations helped pay for:

- District-level Parent Involvement Coordinators
- Supplies for Parent Involvement Activities
- Parent Meetings with school personnel
- Parent workshops

2.3 EDUCATION OF MIGRANT CHILDREN (TITLE I, PART C)

This section collects data on the Migrant Education Program (Title I, Part C) for the performance period of September 1, 2013 through August 31, 2014. This section is composed of the following subsections:

- ┆ Population data of eligible migrant children
- ┆ Academic data of eligible migrant students
- ┆ Data of migrant children served during the performance period
- ┆ School data
- ┆ Project data
- ┆ Personnel data

Where the table collects data by age/grade, report children in the highest age/grade that they attained during the performance period. For example, a child who turns 3 during the performance period would only be performance in the "Age 3 through 5 (not Kindergarten)" row.

2.3.1 Migrant Child Counts

This section collects the Title I, Part C, Migrant Education Program (MEP) child counts which States are required to provide and may be used to determine the annual State allocations under Title I, Part C. The child counts should reflect the performance period of September 1, 2013 through August 31, 2014. This section also collects a report on the procedures used by States to produce true, reliable, and valid child counts.

To provide the child counts, each SEA should have sufficient procedures in place to ensure that it is counting only those children who are eligible for the MEP. Such procedures are important to protecting the integrity of the State's MEP because they permit the early discovery and correction of eligibility problems and thus help to ensure that only eligible migrant children are counted for funding purposes and are served. If an SEA has reservations about the accuracy of its child counts, it must inform the Department of its concerns and explain how and when it will resolve them in the box below, which precedes Section 2.3.1.1 *Category 1 Child Count*.

Note: In submitting this information, the Authorizing State Official must certify that, to the best of his/her knowledge, the child counts and information contained in the report are true, reliable, and valid and that any false Statement provided is subject to fine or imprisonment pursuant to 18 U.S.C. 1001.

FAQs on Child Count:

1. *How is "out-of-school" defined?* Out-of-school means children up through age 21 who are entitled to a free public education in the State but are not currently enrolled in a K-12 institution. This could include students who have dropped out of school in the previous performance period (September 1, 2012 - August 31, 2013), youth who are working on a GED outside of a K-12 institution, and youth who are "here-to-work" only. It does not include preschoolers, who are counted by age grouping. Children who were enrolled in school for at least one day, but dropped out of school during the performance period should be counted in the highest age/grade level attained during the performance period.
2. *How is "ungraded" defined?* Ungraded means the children are served in an educational unit that has no separate grades. For example, some schools have primary grade groupings that are not traditionally graded, or ungraded groupings for children with learning disabilities. In some cases, ungraded students may also include special education children, transitional bilingual students, students working on a GED through a K-12 institution, or those in a correctional setting. (Students working on a GED outside of a K-12 institution are counted as out-of-school youth.)

In the space below, discuss any concerns about the accuracy of the reported child counts or the underlying eligibility determinations on which the counts are based and how and when these concerns will be resolved.

The response is limited to 8,000 characters.

Comments: Our migrant students face extraordinary hardships and all summer MEP staff work to assist these students. No MEP students received priority for services during the regular school year, only summer. SC MEP follows the definition of counseling services in the CSPR since there is no delineation in the law or guidance and based on the CSPR II definition p 33 all summer MEP staff in SC "help the child address life problems or personal crisis that result from the culture of migrancy." He stated that no further action was needed that OME was interested from a programmatic stand point.

2.3.1.1 Category 1 Child Count (Eligible Migrant Children)

In the table below, enter the unduplicated statewide number by age/grade of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, resided in your State for one or more days during the performance period of September 1, 2013 through August 31, 2014. This figure includes all eligible migrant children who may or may not have participated in MEP services. Count a child who moved from one age/grade level to another during the performance period only once in the highest age/grade that he/she attained during the performance period. The unduplicated statewide total count is calculated automatically.

Do not include:

- ┆ Children age birth through 2 years
- ┆ Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs
- ┆ Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).

Age/Grade	Eligible Migrant Children
Age 3 through 5 (not Kindergarten)	122
K	68
1	77
2	45
3	45
4	52
5	26
6	22

7	26
8	19
9	18
10	17
11	6
12	6
Ungraded	0
Out-of-school	207
Total	756
Comments: None.	

2.3.1.1.1 Category 1 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 1 greater than 10 percent.

The response is limited to 8,000 characters.

Comments: Weather and hiring trends contributed to the 36.56% decrease of Category 1 eligible migrant children ages 3-21 in SC from 1,198 in School Year (SY) 2012-13 to 760 in SY2013-14. A major factor that diminished migration was weather. In March 2014 there was a freeze which according to the SC Department of Agriculture, resulted in a \$30 million loss for the early peach season. This altered the labor contracts for H2A peach workers from whence are recruited many OSY. Furthermore, the Southeast region (Alabama, Georgia, and South Carolina) saw among the biggest decreases in the number of hired agricultural workers. This was reported in the US Department of Agriculture Farm Labor report released 20 November 2014, for the July Reference Week. The lower number of workers hired reflects the lower number of students present for the year.

Programmatically, recruitment capacity was stained due to the following occurrences: there was a loss of one participating LEA; budget cuts to summer programs in order to allow for regular school year programs for SY14-15 resulted in less local recruiters and hence restrained recruitment capacity.

2.3.1.1.2 Birth through Two Child Count

In the table below, enter the unduplicated statewide number of eligible migrant children from birth through age 2 who, within 3 years of making a qualifying move, resided in your State for one or more days during the performance period of September 1, 2013 through August 31, 2014.

Age/Grade	Eligible Migrant Children
Age birth through 2	90
Comments: None.	

2.3.1.2 Category 2 Child Count (Eligible Migrant Children Served by the MEP During the Summer/ Intersession Term)

In the table below, enter by age/grade the unduplicated statewide number of **eligible** migrant children age 3 through 21 who, within 3 years of making a qualifying move, were **served** for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the performance period of September 1, 2013 through August 31, 2014. Count a child who moved from one age/grade level to another during the performance period only once in the highest age/grade that he/she attained during the performance period. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once. The unduplicated statewide total count is calculated automatically.

Do not include:

- ┆ Children age birth through 2 years
- ┆ Children served by the MEP (under the continuation of services authority) after their period of eligibility has expired when other services are not available to meet their needs.
- ┆ Previously eligible secondary-school children who are receiving credit accrual services (under the continuation of services authority).
- ┆ Children who received only referred services (non-MEP funded).

2.3.1.2.1 Category 2 Child Count Increases/Decreases

In the space below, explain any increases or decreases from last year in the number of students reported for Category 2 greater than 10 percent.

The response is limited to 8,000 characters.

Comments: From SY2012-13 to SY2013-14, there was a 35% increase (407 to 548) of eligible migrant children (ages 3-21) served by the MEP in SC during the summer 2014 session. Several factors resulted in the increase of services: the implementation of an improved tracking form with more detail allowed for more categories and discernment of services-broken down by k-12, OSY, and preK services and better reporting; the targeted use of interns to support LEAs/LOAs and non-project areas increased the amount of services provided to students; the importance of services was stressed at the annual training for LEAs/LOAs; and the wide-spread use, and ease of usage of consortium SOSOSY mini-lessons for OSY increases academic and support services to this group.

2.3.1.2.2 Birth through Two Eligible Migrant Children Served by the MEP During the Summer/Intersession Term

In the table below, enter the unduplicated statewide number of eligible migrant children from age birth through 2 who, within 3 years of making a qualifying move, were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods that occurred within the performance period of September 1, 2013 through August 31, 2014. Count a child who moved to different schools within the State and who was served in both traditional summer and year-round school intersession programs only once.

Do not include:

- ┆ Children who received only referred services (non-MEP funded).

Age/Grade	Eligible Migrant Children Served by the MEP During the Summer/Intersession Term

Comments: None.	

2.3.1.3 Child Count Calculation and Validation Procedures

The following questions request information on the State's MEP child count calculation and validation procedures.

2.3.1.3.1 Student Information System

In the space below, respond to the following questions: What system did the State use to compile and generate the Category 1 child count for this performance period? Please check the box that applies.

Student Information System	(Yes/No)
NGS	<u>No</u>
MIS 2000	<u>Yes</u>
COEStar	<u>No</u>
MAPS	<u>No</u>
Other Student Information System. Please identify the system: None.	<u>No</u>

Student Information System	(Yes/No)
Was the Category 2 child count for this performance period generated using the same system?	<u>Yes</u>

If the State's Category 2 count was generated using a different system than the Category 1 count please identify the specific system that generates the Category 2 count.

The response is limited to 8,000 characters.

None.

2.3.1.3.3 Methods Used To Count Children

In the space below, please describe the procedures and processes at the State level used to ensure all eligible children are accounted for in the performance period . In particular, describe how the State includes and counts only:

- | The unduplicated count of eligible migrant children, ages 3-21. Include children two years of age whose residency in the state has been verified after turning three.
- | Children who met the program eligibility criteria (e.g., were within 3 years of a qualifying move, had a qualifying activity)
- | Children who were resident in your State for at least 1 day during the performance period (September 1 through August 31)
- | Children who – in the case of Category 2 – were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods
- | Children once per age/grade level for each child count category

The response is limited to 8,000 characters.

*Children who were age 3 through 21 - Each student was determined eligible by an in person interview with the student her/himself if appropriate (i.e. for OSY or emancipated youth), or with the student's parent/guardian/spouse. Eligibility was documented on a COE with all the elements of the nationally approved COE. The COE was reviewed by the recruiter and her/his supervisor before submission to the State Data Specialist. The State Data Specialist then reviewed each COE individually. If the COE was not determined complete she contacted the recruiter and had her/him correct missing/incomplete information. If the COE was deemed acceptable the State Data Specialist she entered the COE information into the State Migrant Data System, MIS2000. The State Data Specialist verified each paper COE, and information entered into MIS2000 individually several times, along with documentation for services. The State Director reviewed the work of the State Data Person. Also, the Service Provider (MIS2000) was consulted if there were any difficulties or uncertainty about reports. Furthermore, for the reports MIS2000 is programed to only include children aged 3-21 for the performance period of 01 September 2013 to 31 August 2014.

*Children who met the program eligibility criteria - Original eligibility data was obtained from State trained State and Local recruiters. The recruiters filled out COEs with the nationally approved data elements for eligible students via face-to-face interviews. These recruiters were trained on the basis of the OME's recruitment guide. Any questions or incomplete information was reviewed by the local MEP administrator and the State Data Specialist and clarified before entry into MIS2000. The information was reviewed several times at the State level as described above. Furthermore, MIS2000 is programed to calculate when a student's end of eligibility is based on the qualifying arrival date. The MIS2000 formula makes certain that student's end of eligibility date is not before 01 September 2013. Since the SCMEP program is small and all students are known individually to each LEA summer program and recruiter, if a student has graduated, or obtained an high school equivalency diploma it is know right away. This information is directly communicated to the State level and noted in MIS2000 so that only students who have not graduated or earned an high school equivalency diploma are counted within the MSI2000 program parameters dictated by the needs of the Federal requirements.

*Children who were resident in your State for at least 1 day during the performance period - Each and every student identified by SCMEP is deemed eligible by a face to face interview with the student/parent/guardian during the reporting period. Furthermore, the State Data System is programed to include only eligible MEP students who resided in SC between 01 September 2013 and 31 August 2014 are included in the Category 1 count.

*Children who—in the case of Category 2—were served for one or more days in a MEP-funded project conducted during either the summer term or during intersession periods - At the State level this was accounted for in several ways: documentation of service to the State Data Specialist from the LEAs, On-Site Monitoring, and End of Program reports from the LEAs to the State Office which includes the names of students served, including a separate list of PFS students, and the type of service and the amount of service. The State Data Specialist and the State Director individually and repeatedly reviewed the names, amount, and type of service each student was given. The information was inputted into MIS2000 and reviewed on each student. MIS2000 is structured to report accurately the parameters of the Category 2 count, and all other counts.

*Children counted once per age/grade level for each child count category - SCMEP - After original information has been verified at the local and State Level (described above) the State Data Specialist cross checks each student with MSIX and does a search for that student in MIS2000. She does several searches in both systems using alternate spellings, wild card prompts, and positioning of last names. If an exact match is found the student number is used and the record is updated to eliminate duplicates. If there are potential duplicates, they are verified with further information checks, such as parents' names, students' date and place of birth, MSIX, and local staff. If no record exists MIS2000 creates a new record. The State Data Specialist and State Director review MSIX, MIS2000, and LEA records to minimize duplicate counts and to ensure that each student is only counted once per age/grade level for each child count category. LEAs verify their counts and services by end of program reports. These reports are reviewed by the State Data Specialist and the State Director. Preparation for CSPR is conducted by the State Data Specialist, overseen by the State Director, and in collaboration with the SC Department of Education Office of Research and Data Analysis. This review involves individual review of every COE, every sheet of paper with service documented by the LEA, and every data entry for every student to ensure that records are accurate and duplication is minimized. Before final submission to CSPR, counts are reviewed by the State Data Specialist, the State Director and another State Department staff member. In MIS2000 there is a data field that is marked if a student in regular term enrollment (R), participant (P), intersession (I), or summer (S). The validity of the type of enrollment is verified by COEs, service logs, on-site monitoring, and LEA reporting requirements. The State Data Specialist, overseen by the State Director, reviews each document before imputing information in MIS2000. She then reviews each data element before final reporting.

*Children two years of age that turned three years old during the performance period - For students that may turn 3 years old during the performance period, their presence is verified by a home visit. Eligibility is documented in MIS2000. Reports in MIS2000 contain the appropriate parameters specified by Federal requirements.

How does the State ensure that the system that transmits migrant data to the Department accurately accounts for all the migrant children in every ED Facts data file (see the Office of Migrant Education's CSPR Rating Instrument for the criteria needed to address this question)?

The State ED Facts coordinator, the SCMEP State Data Specialist, and the SCMEP State Director are in constant communication and review each file. The authenticity of each data element is described above. Furthermore, a Guidesheet for SCMEP and CSPR Part II from the CSPR&ED Facts Crosswalk is used to ensure that all information is transmitted. The OME provided SC CSPR SY2013-14 Data Check was populated and shared with the ED Facts Coordinator, SCMEP State Data Specialist, the Special Populations Team Leader, a Title I team member, and the team from the Office of Research and Data Analysis. The State MEP Director, the MEP team, and the MEP Data Specialist reviewed the Data Check thrice for accuracy. The Director used it, along with the Guidesheet to accomplish the manual entry elements.

All MIS2000 data reports are cross-checked after CSPR/ED Facts submission by the SC State Department ED Facts Coordinator, a team member from the Office of Research and Data Analysis, a Title I Team member, the MEP State Data Specialist and the MEP State Director.

Use of MSIX to Verify Data Quality	(Yes/No)
Does the State use data in the Migrant Student Information Exchange (MSIX) to verify the quality of migrant data?	Yes

If MSIX is utilized, please explain how.

The response is limited to 8,000 characters.

MSIX is utilized by the State Data Specialist, recruiters, and LEA/LOA staff members to minimize duplicate records (described above); that is, to ensure each MIS2000 State student number is matched with MSIX students. Furthermore, MSIX is also used to target appropriate summer services. Specifically, if MSIX information is complete and up to date, service providers look at areas where students need extra assistance and check LEP and IEP status and testing results. MSIX is used mostly to track previous moves, to verify if students are PFS, to check LEP status, and to notify/receive information regarding student moves.

2.3.1.3.4 Quality Control Processes

In the space below, respond to the following questions :

Quality Control Processes	Yes/No
Is student eligibility based on a personal interview (face-to-face or phone call) with a parent, guardian, or other responsible adult, or youth-as-worker?	<u>Yes</u>
Does the SEA and/or regional offices train recruiters at least annually on eligibility requirements, including the basic eligibility definition, economic necessity, temporary vs. seasonal, processing, etc.?	<u>Yes</u>
Does the SEA have a formal process, beyond the recruiter's determination, for reviewing and ensuring the accuracy of written eligibility information [e.g., COEs are reviewed and initialed by the recruiter's supervisor and/or other reviewer(s)]?	<u>Yes</u>
Are incomplete or otherwise questionable COEs returned to the recruiter for correction, further explanation, documentation, and/or verification?	<u>Yes</u>
Does the SEA provide recruiters with written eligibility guidance (e.g., a handbook)?	<u>Yes</u>
Does the SEA review student attendance records at summer/inter-session projects to verify that the total unduplicated number of eligible migrant students served in the summer/intersession is reconciled with the Category 2 Count ?	<u>Yes</u>
Does the SEA have both a local and state-level process for resolving eligibility questions?	<u>Yes</u>
Are written procedures provided to regular school year and summer/intersession personnel on how to collect and report pupil enrollment and withdrawal data?	<u>Yes</u>
Are records/data entry personnel provided training on how to review regular school year and summer/inter-session site records, input data, and run reports used for child count purposes?	<u>Yes</u>

In the space below, describe the results of any re-interview processes used by the SEA during the performance period to test the accuracy of the State's MEP eligibility determinations.

Results	#
The number of eligibility determinations sampled.	125
The number of eligibility determinations sampled for which a re-interview was completed.	47
The number of eligibility determinations sampled for which a re-interview was completed and the child was found eligible.	1

Describe any reasons for non-response in the re-interviewing process.

The response is limited to 8,000 characters.

The first independent re-interview sample (50) and replacement (50) were generated by a random sample of COEs in MIS2000 from 09/01/2013-06/25/2014. The first round of re-interview was conducted in the peak of the season from 25-28 June 2014. However, it was quickly realized that the random sample that was generated was from the entire period of 09/01/2013 - 06/25/2014, the majority of the COEs that were pulled in both the sample and replacement were from students that had already migrant from the previous year and were no longer present. The majority of the 36 successful face to face re-interviews were present again for the new year harvest. It was deemed that 36 was not adequate for eligibility determination, hence a second independent re-interview sample was conducted between 01-02 October 2014 for the fall harvest this time using a MIS2000 randomly generated sample of 25 students present (the entire universe) from 08/01/2014 - 09/30/2014 in order to increase the change of successful face to face interviews, of this round there were 11 successful contacts resulting in a total of 47 completed face to face re-interviews. Face to face re-interviews are very challenging especially as migrant students and families are present mostly only during the peak harvest season when labor demands are intense. Availability of students/parents/guardians/spouses for in person re-interviews is limited.

Procedures	Yes/No
What was the most recent year that the MEP conducted independent prospective re-interviews (i.e., interviewers were neither SEA or LEA staff members responsible for administering or operating the MEP, nor any other persons who worked on the initial eligibility determinations being tested)?	<u>SY2013-14</u>
Was the sampling of eligible children random?	<u>Yes</u>
Was the sampling statewide?	<u>Yes</u>

FAQ on independent prospective reinterviews:

- a. *What are independent prospective re-interviews?* Independent prospective re-interviews allow confirmation of your State's eligibility determinations and the accuracy of the numbers of migrant children in your State reports. Independent prospective interviews should be conducted at least once every three years by an independent interviewer, performed on the current year's identified migrant children.

If the sampling was stratified by group/area please describe the procedures.

The response is limited to 8,000 characters.

None.

Please describe the sampling replacement by the State.

The response is limited to 8,000 characters.

Random sampling was generated for a state wide simple random sample by MIS2000. There was a sampling of 100 students, an oversample. Following OME's guide for small states, 50 students were expected to be interviewed, 50 extra names were included as replacement as SCMEP has a population that is primarily summer only, and present for a short amount of time. The initial 50 students sampled had a re-interview attempted; the numbers of those not successful in being contacted were replaced, by names for the next 50, in order, from the random sample list, until 50 re-interviews were obtained.

For the second independent re-interview round the entire universe 25 student at that time (from 08/01/2014 - 09/30/2014) was used in order to guarantee an adequate number of in person contacts since availability of students/parents/guardians/spouses for in person re-interviews is limited due to the demands of the peak labor season and the limited presence of families in SC to the crop periods.

Obtaining Data From Families		
Check the applicable box to indicate how the re-interviews were conducted		
Face-to-face re-interviews	<u>Face-to-face re-interviews</u>	
Phone Interviews		
Both		
Obtaining Data From Families		Yes/No
Was there a protocol for verifying all information used in making the original eligibility determination?		<u>Yes</u>
Were re-interviewers independent from the original interviewers?		<u>Yes</u>

If you did conduct independent re-interviews in this reporting period, describe how you ensured that the process was independent.

The response is limited to 8,000 characters.

In order to minimize costs and ensure quality and independence of re-interviews, SC asked that NC MEP staff conduct its 3rd year independent re-interviews. The benefits included: close proximity to limit travel cost and time; the use of professional and trained MEP recruiters to conduct re-interviews. The use of NC MEP recruiters was invaluable due to the fact that they already were familiar with migrant families and lifestyles, they have the ability to converse in the majority language of the most of the migrants in SC, and they have already had the training to conduct independent re-interviews. Furthermore, since the NC staff do not work in SC and the majority of the migrants in SC migrants were unknown to the NC MEP staff, the integrity of independence in the re-interviews was increased.

In the space below, refer to the results of any re-interview processes used by the SEA, and if any of the migrant children were found ineligible, describe those corrective actions or improvements that will be made by the SEA to improve the accuracy of its MEP eligibility determinations.

The response is limited to 8,000 characters.

Out of 47 total completed re-interviews, 33 were found eligible with no changes. Thirteen were found to need some changes - these changes vary from date changes, to spelling changes, and updated moves. The State Coordinator has reviewed the results and the changes will be made after review with the State Data Specialist and recruiters when the MEP team re-commences employment in March. Specifically the recruiters will obtain a new COE on updates that require it. For spelling and date corrections the State Data Specialist will annotate the changes on the original COE and update the state data system.

A specific improvement the SEA will implement based on this last independent re-interview process will be to only take a rolling random re-interview sample from the peak season in order to increase the chances of successful contacts.

For the one COE that was deemed ineligible all of the dates were correct but it was found that the student had graduated from High School in Mexico. The specific actions the SEA will take are the following: the student will be removed from the state database and a note will be made on the original COE. Furthermore, during the annual training on eligibility, it will be stressed that a student is not eligible for MEP if they have obtained a HS degree or its equivalent in their country of origin or the United States.

In the space below, please respond to the following question:

Does the state collect all the required data elements and data sections on the National Certificate of Eligibility (COE)?	<u>Yes</u>
---	------------

2.3.2 Eligible Migrant Children

2.3.2.1 Priority for Services

In the table below, provide the unduplicated number of **eligible** migrant children who have been classified as having "Priority for Services." The total is calculated automatically.

Comments: Weather and hiring trends contributed to the decrease of eligible migrant children in SC, from 1,069 in School Year (SY) 2012-13 to 678 in SY2013-14. A major factor that diminished migration was due to weather. In March 2014, there was a freeze which according to the SC Department of Agriculture, resulted in a \$30 million loss for the early peach season. This altered the labor contracts for H2A peach workers from whence are recruited many OSY. Furthermore, the Southeast region (Alabama, Georgia, and South Carolina) saw among the biggest decreases in the number of hired agricultural workers. This was reported in the US Department of Agriculture Farm Labor report released 20 November 2014, for the July Reference Week. The lower number of workers hired reflects the lower number of students present for the year.

Programmatically, recruitment capacity was stained due to the following occurrences: there was a loss of one participating LEA; budget cuts to summer programs in order to allow for regular school year programs for SY14-15 resulted in less local recruiters and hence restrained recruitment capacity.

2.3.2.5 Qualifying Arrival Date During the Regular School Year

In the table below, provide the unduplicated number of **eligible** migrant children whose qualifying arrival date occurred during the performance period's regular school year (i.e., QAD during the 2013-14 regular school year). The total is calculated automatically.

2.3.2.6 Referrals — During the Performance Period

In the table below, provide the unduplicated number of **eligible** migrant children who, during the performance period, received an educational or educationally related service funded by a non-MEP program/organization that they would not have otherwise received without efforts supported by MEP funds. Children should be reported only once regardless of the frequency with which they received a referred service. Include children who received a referral only or who received both a referral and MEP-funded services. Do not include children who received a referral from the MEP, but did not receive services from the non-MEP program/organization to which they were referred. The total is calculated automatically.

Comments: None.	

FAQ on Dropouts:

How is "drop outs" defined? The term used for students, who, during the reporting period, were enrolled in a public school for at least one day, but who subsequently left school with no plans on returning to enroll in a school and continue toward a high school diploma. Students who dropped out-of-school prior to the 2012-13 reporting period should be classified NOT as "drop-outs" but as "out-of-school youth."

2.3.2.8.2 HSED (High School Equivalency Diploma)

In the table below, provide the total unduplicated number of **eligible** migrant students who obtained a High School Equivalency Diploma (HSED) by passing a high school equivalency test that your state accepts (e.g. GED, HiSET, TASC).

Obtained HSED	#
Obtained a HSED in your State During the Performance Period	S
Comments: None.	

2.3.3 Services for Eligible Migrant Children

The following questions collect data about MEP services provided to eligible migrant children during the performance period.

Eligible migrant children who are served include:

- Migrant children who were eligible for and received instructional or support services funded in whole or in part with MEP funds.
- Children who continued to receive MEP-funded services during the term their eligibility ended.

Do not include:

- Children who were served through a Title I **Schoolwide Program** (SWP) where MEP funds were consolidated with those of other programs.
- Children who received only referred services (non-MEP funded).
- Children who were served for one additional school year after their eligibility ended, if comparable services were not available through other programs
- Children who were in secondary school after their eligibility ended, and served through credit accrual programs until graduation (e.g., children served under the continuation of services authority, Section (1304(e)).

FAQ on Services:

What are services? Services are a subset of all allowable activities that the MEP can provide through its programs and projects. "Services" are those educational or educationally related activities that: (1) directly benefit a migrant child; (2) address a need of a migrant child consistent with the SEA's comprehensive needs assessment and service delivery plan; (3) are grounded in scientifically based research or, in the case of support services, are a generally accepted practice; and (4) are designed to enable the program to meet its measurable outcomes and contribute to the achievement of the State's performance targets. Activities related to identification and recruitment activities, parental involvement, program evaluation, professional development, or administration of the program are examples of allowable activities that are not considered services. Other examples of an allowable activity that would not be considered a service would be the one-time act of providing instructional packets to a child or family, and handing out leaflets to migrant families on available reading programs as part of an effort to increase the reading skills of migrant children. Although these are allowable activities, they are not services because they do not meet all of the criteria above.

2.3.3.2 Priority for Services – During the Regular School Year

In the table below, provide the unduplicated number of **eligible** migrant children who have been classified as having "priority for services" and who received MEP funded instructional or support services during the regular school year. The total is calculated automatically.

Comments: Weather and hiring trends contributed to the decrease of eligible migrant children in SC in SY 2013-14. A major factor that diminished migration was due to weather. In March 2014 there was a freeze which according to the SC Department of Agriculture, resulted in a \$30 million loss for the early peach season. This altered the labor contracts for H2A peach workers from whence are recruited many OSY. Furthermore, the Southeast region (Alabama, Georgia, and South Carolina) saw among the biggest decreases in the number of hired agricultural workers. This was reported in the US Department of Agriculture Farm Labor report released 20 November 2014, for the July Reference Week. The lower number of workers hired reflects the lower number of students present for the year.

Programmatically, recruitment capacity was stained due to the following occurrences: there was a loss of one participating LEA; budget cuts to summer programs in order to allow for regular school year programs for SY14-15 resulted in less local recruiters and hence restrained recruitment capacity.

2.3.5.1 Priority for Services – During the Performance Period

In the table below, provide the unduplicated number of **eligible** migrant children who have been classified as having "priority for services" and who received MEP-funded instructional or support services during the performance period. The total is calculated automatically.

2.3.5.3.1 Type of Instructional Service – During the Performance Period

In the table below, provide the number of **eligible** migrant children reported in the table above who received MEP-funded reading instruction, mathematics instruction, or high school credit accrual during the performance period. Include children who received such instructional services provided by a teacher only. Children may be reported as having received more than one type of instructional service in the table. However, children should be reported only once within each type of instructional service that they received regardless of the frequency with which they received the instructional service. The totals are calculated automatically.

Age/Grade	Reading Instruction During the Performance Period	Mathematics Instruction During the Performance Period	High School Credit Accrual During the Performance Period
Age birth through 2	40	39	////////////////////////////////////
Age 3 through 5 (not Kindergarten)	49	49	////////////////////////////////////

FAQ on Types of Instructional Services:

What is "high school credit accrual"? Instruction in courses that accrue credits needed for high school graduation provided by a teacher for students on a regular or systematic basis, usually for a predetermined period of time. Includes correspondence courses taken by a student under the supervision of a teacher.

2.3.5.3.2 Support Services with Breakout for Counseling Services – During the Performance Period

In the table below, in the column titled **Support Services**, provide the unduplicated number of **eligible** migrant children who received any MEP-funded support service during the performance period. In the column titled **Breakout of Counseling Services During the Performance Period**, provide the unduplicated number of **eligible** migrant children who received a counseling service during the performance period. Children should be reported only once in each column regardless of the frequency with which they received a support service intervention. The totals are calculated automatically.

Age/Grade	Support Services During the Performance Period	Breakout of Counseling Service During the Performance Period

Comments: Our migrant students face extraordinary hardships and all summer MEP staff work to assist these students. SC MEP follows the definition of counseling services in the CSPR since there is no delineation in the law or guidance and based on the CSPR II definition (p. 33), all summer MEP staff in SC "help the child address life problems or personal crisis that result from the culture of migrancy."

FAQs on Support Services:

- a. *What are support services?* These MEP-funded services include, but are not limited to, health, nutrition, counseling, and social services for migrant families; necessary educational supplies, and transportation. The one-time act of providing instructional or informational packets to a child or family does not constitute a support service.
- b. *What are counseling services?* Services to help a student to better identify and enhance his or her educational, personal, or occupational potential; relate his or her abilities, emotions, and aptitudes to educational and career opportunities; utilize his or her abilities in formulating realistic plans; and achieve satisfying personal and social development. These activities take place between one or more counselors and one or more students as counselees, between students and students, and between counselors and other staff members. The services can also help the child address life problems or personal crisis that result from the culture of migrancy.

2.3.6 School Data - During the Regular School Year

The following questions are about the enrollment of eligible migrant children in schools during the regular school year.

2.3.6.1 Schools and Enrollment - During the Regular School Year

In the table below, provide the number of public schools that enrolled **eligible** migrant children at any time during the regular school year. Schools include public schools that serve school age (e.g., grades K through 12) children. Also, provide the number of **eligible** migrant children who were enrolled in those schools. Since more than one school in a State may enroll the same migrant child at some time during the regular school year, the number of children may include duplicates.

Schools	#
Number of schools that enrolled eligible migrant children	124
Number of eligible migrant children enrolled in those schools	437
Comments: None.	

2.3.6.2 Schools Where MEP Funds Were Consolidated in Schoolwide Programs (SWP) – During the Regular School Year

In the table below, provide the number of schools where MEP funds were consolidated in an SWP. Also, provide the number of **eligible** migrant children who were enrolled in those schools at any time during the regular school year. Since more than one school in a State may enroll the same migrant child at some time during the regular school year, the number of children may include duplicates.

Schools	#
Number of schools where MEP funds were consolidated in a schoolwide program	
Number of eligible migrant children enrolled in those schools	
Comments: No funds are consolidated in SWP.	

2.3.7 MEP Project Data

The following questions collect data on MEP projects.

2.3.7.1 Type of MEP Project

In the table below, provide the number of projects that are funded in whole or in part with MEP funds. A MEP project is the entity that receives MEP funds from the State or through an intermediate entity that receives the MEP funds from the State and provides services directly to the migrant child. Do not include projects where MEP funds were consolidated in SWP.

Also, provide the number of migrant children **served** in the projects. Since children may participate in more than one project, the number of children may include duplicates.

Type of MEP Project	Number of MEP Projects	Number of Migrant Children Served in the Projects
Regular school year - school day only	0	0
Regular school year - school day/extended day	0	0
Summer/intersession only	7	575
Year round	0	0

Comments: Weather and hiring trends contributed to the decrease of eligible migrant children in SC in SY2013-14. A major factor that diminished migration was weather. In March 2014 there was a freeze which according to the SC Department of Agriculture, resulted in a \$30 million loss for the early peach season. This altered the labor contracts for H2A peach workers from whence are recruited many OSY. Furthermore, the Southeast region (Alabama, Georgia, and South Carolina) saw among the biggest decreases in the number of hired agricultural workers. This was reported in the US Department of Agriculture Farm Labor report released 20 November 2014, for the July Reference Week. The lower number of workers hired reflects the lower number of students present for the year.

Programmatically, recruitment capacity was stunted due to the following occurrences: there was a loss of one participating LEA; budget cuts to summer programs in order to allow for regular school year programs for SY14-15 resulted in less local recruiters and hence restrained recruitment capacity.

FAQs on type of MEP project:

- a. *What is a project?* A project is any entity that receives MEP funds and provides services directly to migrant children in accordance with the State Service Delivery Plan and State approved subgrant applications or contracts. A project's services may be provided in one or more sites. Each project should be counted once, regardless of the number of sites in which it provides services.
- b. *What are Regular School Year – School Day Only projects?* Projects where all MEP services are provided during the school day during the regular school year.
- c. *What are Regular School Year – School Day/Extended Day projects?* Projects where some or all MEP services are provided during an extended day or week during the regular school year (e.g., some services are provided during the school day and some outside of the school day; e.g., all services are provided outside of the school day).
- d. *What are Summer/Intersession Only projects?* Projects where all MEP services are provided during the summer/intersession term.
- e. *What are Year Round projects?* Projects where all MEP services are provided during the regular school year and summer/intersession term.

2.3.8 MEP Personnel Data

The following questions collect data on MEP personnel data.

2.3.8.1 MEP State Director

In the table below, provide the FTE amount of time the State director performs MEP duties (regardless of whether the director is funded by State, MEP, or other funds) during the performance period (e.g., September 1 through August 31).

State Director FTE	1.00
Comments: None.	

FAQs on the MEP State director

- a. *How is the FTE calculated for the State director?* Calculate the FTE using the number of days worked for the MEP. To do so, first define how many full-time days constitute one *FTE* for the State director in your State for the performance period. To calculate the FTE number, sum the total days the State director worked for the MEP during the performance period and divide this sum by the number of full-time days that constitute one FTE in the reporting period.
- b. *Who is the State director?* The manager within the SEA who administers the MEP on a statewide basis.

2.3.8.2 MEP Staff

In the table below, provide the headcount and FTE by job classification of the staff funded by the MEP. Do **not** include staff employed in SWP where MEP funds were combined with those of other programs.

Job Classification	Regular School Year		Summer/Intersession Term		Performance Period
	Headcount	FTE	Headcount	FTE	Headcount
Teachers	7	0.00	29	18.75	
Counselors	0	0.00	0	0.00	
Non-qualified paraprofessionals	0	0.00	5	5.00	4
Qualified paraprofessionals	0	0.00	14	13.80	8
Recruiters	0	0.00	4	3.37	
Records transfer staff	0	0.00	3	2.00	
Administrators	0	0.00	4	2.66	
Comments: None.					

Note: The Headcount value displayed represents the greatest whole number submitted in file specification N/X065 for the corresponding Job Classification. For example, an ESS submitted value of 9.8 will be represented in your CSPR as 9.

FAQs on MEP staff:

- a. *How is the FTE calculated?* The FTE may be calculated using one of two methods:
 1. To calculate the FTE, in each job category, sum the percentage of time that staff were funded by the MEP and enter the total FTE for that category.
 2. Calculate the FTE using the number of days worked. To do so, first define how many full-time days constitute one FTE for each job classification in your State for each term. (For example, one regular-term FTE may equal 180 full-time (8 hour) work days; one summer term FTE may equal 30 full-time work days; or one intersession FTE may equal 45 full-time work days split between three 15-day non-contiguous blocks throughout the year.) To calculate the FTE number, sum the total days the individuals worked in a particular job classification for a term and divide this sum by the number of full-time days that constitute one FTE in that term.
- b. *Who is a teacher?* A classroom instructor who is licensed and meets any other teaching requirements in the State.
- c. *Who is a counselor?* A professional staff member who guides individuals, families, groups, and communities by assisting them in problem-solving, decision-making, discovering meaning, and articulating goals related to personal, educational, and career development.
- d. *Who is a paraprofessional?* An individual who: (1) provides one-on-one tutoring if such tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher; (2) assists with classroom management, such as organizing instructional and other materials; (3) provides instructional assistance in a computer laboratory; (4) conducts parental involvement activities; (5) provides support in a library or media center; (6) acts as a translator; or (7) provides instructional support services under the direct supervision of a teacher (Title I, Section 1119(g)(2)). Because a paraprofessional provides instructional support, he/she should not be providing planned direct instruction or introducing to students new skills, concepts, or academic content. Individuals who work in food services, cafeteria or playground supervision, personal care services, non-instructional computer assistance, and similar positions are not considered paraprofessionals under Title I.
- e. *Who is a qualified paraprofessional?* A qualified paraprofessional must have a secondary school diploma or its recognized equivalent and have (1) completed 2 years of study at an institution of higher education; (2) obtained an associate's (or higher) degree; or (3) met a rigorous standard of quality and be able to demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness) (Section 1119(c) and (d) of ESEA).
- f. *Who is a recruiter?* A staff person responsible for identifying and recruiting children as eligible for the MEP and documenting their eligibility on the Certificate of Eligibility.
- g. *Who is a record transfer staffer?* An individual who is responsible for entering, retrieving, or sending student records from or to another school or student records system.
- h. *Who is an administrator?* A professional staff member, including the project director or regional director. The SEA MEP Director should not be included.

2.4 PREVENTION AND INTERVENTION PROGRAMS FOR CHILDREN AND YOUTH WHO ARE NEGLECTED, DELINQUENT, OR AT RISK (TITLE I, PART D, SUBPARTS 1 AND 2)

This section collects data on programs and facilities that serve students who are neglected, delinquent, or at risk under Title I, Part D, and characteristics about and services provided to these students.

Throughout this section:

- | Report data for the program year of July 1, 2013 through June 30, 2014.
- | Count programs/facilities based on how the program was classified to ED for funding purposes.
- | Do not include programs funded solely through Title I, Part A.
- | Use the definitions listed below:
 - | **Adult Corrections:** An adult correctional institution is a facility in which persons, including persons 21 or under, are confined as a result of conviction for a criminal offense.
 - | **At-Risk Programs:** Programs operated (through LEAs) that target students who are at risk of academic failure, have a drug or alcohol problem, are pregnant or parenting, have been in contact with the juvenile justice system in the past, are at least 1 year behind the expected age/grade level, have limited English proficiency, are gang members, have dropped out of school in the past, or have a high absenteeism rate at school.
 - | **Juvenile Corrections:** An institution for delinquent children and youth is a public or private residential facility other than a foster home that is operated for the care of children and youth who have been adjudicated delinquent or in need of supervision. Include any programs serving adjudicated youth (including non-secure facilities and group homes) in this category.
 - | **Juvenile Detention Facilities:** Detention facilities are shorter-term institutions that provide care to children who require secure custody pending court adjudication, court disposition, or execution of a court order, or care to children after commitment.
 - | **Neglected Programs:** An institution for neglected children and youth is a public or private residential facility, other than a foster home, that is operated primarily for the care of children who have been committed to the institution or voluntarily placed under applicable State law due to abandonment, neglect, or death of their parents or guardians.
 - | **Other:** Any other programs, not defined above, which receive Title I, Part D funds and serve non-adjudicated children and youth.

2.4.1 State Agency Title I, Part D Programs and Facilities – Subpart 1

The following questions collect data on Title I, Part D, Subpart 1 programs and facilities.

2.4.1.1 Programs and Facilities - Subpart 1

In the table below, provide the number of State agency Title I, Part D, Subpart 1 programs and facilities that serve neglected and delinquent students and the average length of stay by program/facility type, for these students.

Report only programs and facilities that received Title I, Part D, Subpart 1 funding during the reporting year. Count a facility once if it offers only one type of program. If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/facilities will be automatically calculated. Below the table is a FAQ about the data collected in this table.

State Program/Facility Type	# Programs/Facilities	Average Length of Stay in Days
Neglected programs	1	180
Juvenile detention	1	31
Juvenile corrections	14	90
Adult corrections	9	365
Other	0	0
Total	25	////////////////////
Comments:		

FAQ on Programs and Facilities - Subpart I:

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit, for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

2.4.1.1.1 Programs and Facilities That Reported - Subpart 1

In the table below, provide the number of State agency Title I, Part D, Subpart 1 programs/facilities that reported data on neglected and delinquent students.

The total row will be automatically calculated.

State Program/Facility Type	# Reporting Data
Neglected Programs	1
Juvenile Detention	1
Juvenile Corrections	14
Adult Corrections	9
Other	0
Total	25
Comments:	

2.4.1.2 Students Served – Subpart 1

In the tables below, provide the number of neglected and delinquent students served in State agency Title I, Part D, Subpart 1 programs and facilities. Report only students who received Title I, Part D, Subpart 1 services during the reporting year. In the first table, provide in row 1 the unduplicated number of students served by each program, and in row 2, the total number of students in row 1 who are long-term. In the subsequent tables provide the number of students served by disability (IDEA) and limited English proficiency (LEP), by race/ethnicity, by sex, and by age. The total number of students by race/ethnicity, by sex and by age will be automatically calculated.

# of Students Served	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Total Unduplicated Students Served	113	563	3,443	649	
Total Long Term Students Served	57	15	3,443	475	

Student Subgroups	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs

13	24	13	50	0	
14	34	61	186	0	
15	32	98	461	0	
16	15	149	859	0	
17	4	168	1,083	35	
18	0	61	641	119	
19	0	8	129	193	
20	0	1	19	223	
21	0	0	5	79	
Total	113	563	3,443	649	

If the total number of students differs by demographics, please explain in comment box below.

This response is limited to 8,000 characters.

Comments:

FAQ on Unduplicated Count:

What is an unduplicated count? An unduplicated count is one that counts students only once, even if they were admitted to a facility or program multiple times within the reporting year.

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013 through June 30, 2014.

2.4.1.3.1 Transition Services in Subpart 1

In the first row of the table below indicate whether programs/facilities receiving Subpart 1 funds within the State are legally permitted to track student outcomes after leaving the program or facility by entering Yes or No. In the second row, provide the unduplicated count of students receiving transition services that specifically target planning for further schooling and/or employment. If not, provide more information in the comment field.

Transition Services	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Are facilities in your state permitted to collect data on student outcomes after exit ? (Yes or No)	Yes	Yes	Yes	Yes	
Number of students receiving transition services that address further schooling and/or employment.	113	563	3,443	649	0

This response is limited to 4,000 characters.

Comments: The Neglected Facility plans to implement a system to track outcomes for the students while in the facility and within the 90 days allotted for outcomes after exit beginning with the 2014-15 reporting period. This plan will affect the data reported with the 2014-15 CSPR.

Juvenile Detention and Juvenile Corrections will work with the SCDE to develop a system to track and report student data for the 2014-15 academic year.

The Department of Corrections does not track academic or vocational outcome data following release.

All facilities stated that they lacked the technology and resources to gather post-exit outcome data. The SCDE anticipates providing technical assistance and collaboration with all facilities to develop more efficient means to track student outcomes after exit. In addition, the Title I, Part D office will meet internally with the Office of Research and Data Analysis and the PowerSchool Office to research possible methods by which the SCDE can collect the data. PowerSchool is the current student information system (SIS) provided to school districts by the SCDE and is the primary source for student data collections. In addition, the 2016 Title I, Part D application will require a plan to demonstrate the capacity and process to collect and report outcome data, both within facility and after exit.

FAQ on facilities collecting data on student outcomes after exit:

If only some, but not all, facilities in the State are legally permitted to collect data on student outcomes after exit, enter 'yes' for the first question and provide a comment indicating why some facilities are unable to collect these data.

2.4.1.3.2 Academic and Vocational Outcomes While in the State Agency Program/Facility or Within 90 Calendar Days After Exit

In the table below, for each program type, first provide the unduplicated number of students who attained academic and vocational outcomes while enrolled in the State agency program/facility and next provide the unduplicated number of students who attained academic and vocational outcomes within 90 calendar days after exiting. If a student attained an outcome once in the program/facility and once during the 90 day transition period, that student may be counted once in each column separately as appropriate. For "Enrolled in their local district school" use the "90 days after exit" columns to provide the number of students who enrolled, or planned to enroll, in their local district school after exit.

Outcomes	Neglected Programs		Juvenile Detention		Juvenile Corrections		Adult Corrections		Other Programs	
	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit
# of Students Who Enrolled in their local district school	////		////		////		////		////	
Earned high school course credits	31				88		S			
Enrolled in a GED program					116		648			
Earned a GED					89		123			
Obtained high school diploma					S		S			
Accepted and/or enrolled into post-secondary education					5	8	S			
Enrolled in job training courses/programs					112	145	165			
Obtained employment					S	5	S			

This response is limited to 4,000 characters.

Comments: The detention facility is a temporary short-term facility. The students are provided educational services pending adjudication. The short length of stay makes it highly unlikely that objectives will be met while in the facility.

The facility stated that lack of technology made the gathering of post-exit outcome data a highly labor intensive process without adequate resources to accomplish the task. Technical assistance and collaboration with this facility to develop more efficient means to track student outcomes after exit will be provided. The 2016 Title I, Part D application will require a plan to demonstrate the capacity and process to collect and report all data, including the outcome data.

2.4.1.6 Academic Performance – Subpart 1

The following questions collect data on the academic performance of neglected and delinquent long-term students served by Title I, Part D, Subpart 1 in reading and mathematics.

2.4.1.6.1 Academic Performance in Reading – Subpart 1

In the table below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 1, who participated in reading pre-and post-testing. Students should be reported in only one of the four change categories.

Report only information on a student's most recent testing data. Students who were pre-tested prior to July 1, 2013, may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Below the table is an FAQ about the data collected in this table.

Performance Data (Based on most recent pre/post-test data)	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams	4	S	7	58	S
Long-term students with no change in grade level from the pre- to post-test exams	23	S	18	12	S
Long-term students with improvement up to one full grade level from the pre- to post-test exams	7	S	2	42	S
Long-term students with improvement of more than one full grade level from the pre- to post-test exams	4	S	6	65	S
Comments: Pre- and post-test data was not collected for the 15 long-term students in Juvenile Detention. The SCDE will work with the Department of Juvenile Justice to secure a plan to collect the required data for the 2014-15 CSPR report.					

FAQ on long-term students:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013 through June 30, 2014.

2.4.1.6.2 Academic Performance in Mathematics – Subpart 1

This section is similar to 2.4.1.6.1. The only difference is that this section collects data on mathematics performance.

Performance Data (Based on most recent pre/post-test data)	Neglected Programs	Juvenile Detention	Juvenile Corrections	Adult Corrections	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams	10	0	34	47	0
Long-term students with no change in grade level from the pre- to post-test exams	S	0	0	11	0
Long-term students with improvement up to one full grade level from the pre- to post-test exams	18	0	S	53	0
Long-term students with improvement of more than one full grade level from the pre- to post-test exams	11	0	0	66	0
Comments: Pre- and post-test data was not collected for the 15 long-term students in Juvenile Detention. The SCDE will work with the Department of Juvenile Justice to secure a plan to collect the required data for the 2014-15 CSPR report.					

2.4.2 LEA Title I, Part D Programs and Facilities – Subpart 2

The following questions collect data on Title I, Part D, Subpart 2 programs and facilities.

2.4.2.1 Programs and Facilities – Subpart 2

In the table below, provide the number of LEA Title I, Part D, Subpart 2 programs and facilities that serve neglected and delinquent students and the yearly average length of stay by program/facility type for these students. Report only the programs and facilities that received Title I, Part D, Subpart 2 funding during the reporting year. Count a facility once if it offers only one type of program. If a facility offers more than one type of program (i.e., it is a multipurpose facility), then count each of the separate programs. The total number of programs/ facilities will be automatically calculated. Below the table is an FAQ about the data collected in this table.

LEA Program/Facility Type	# Programs/Facilities	Average Length of Stay (# days)
At-risk programs	0	0
Neglected programs	0	0
Juvenile detention	1	11
Juvenile corrections	2	150
Other	0	0
Total	3	////////////////////
Comments:		

FAQ on average length of stay:

How is average length of stay calculated? The average length of stay should be weighted by number of students and should include the number of days, per visit for each student enrolled during the reporting year, regardless of entry or exit date. Multiple visits for students who entered more than once during the reporting year can be included. The average length of stay in days should not exceed 365.

2.4.2.1.1 Programs and Facilities That Reported - Subpart 2

In the table below, provide the number of LEA Title I, Part D, Subpart 2 programs and facilities that reported data on neglected and delinquent students.

The total row will be automatically calculated.

LEA Program/Facility Type	# Reporting Data
At-risk programs	0
Neglected programs	0
Juvenile detention	1
Juvenile corrections	2
Other	0
Total	3
Comments:	

2.4.2.2 Students Served – Subpart 2

In the tables below, provide the number of neglected and delinquent students served in LEA Title I, Part D, Subpart 2 programs and facilities. Report only students who received Title I, Part D, Subpart 2 services during the reporting year. In the first table, provide in row 1 the unduplicated number of students served by each program, and in row 2, the total number of students in row 1 who are long-term. In the subsequent tables, provide the number of students served by disability (IDEA), and limited English proficiency (LEP), by race/ethnicity, by sex, and by age. The total number of students by race/ethnicity, by sex, and by age will be automatically calculated.

# of Students Served	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Total Unduplicated Students Served			262	174	
Total Long Term Students Served			3	156	

Student Subgroups	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Students with disabilities (IDEA)			70	65	
LEP Students			0	0	

Race/Ethnicity	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
American Indian or Alaska Native			0	0	
Asian			0	0	
Black or African American			223	106	
Hispanic or Latino			2	5	
Native Hawaiian or other Pacific Islander			0	0	
White			37	60	
Two or more races			0	3	
Total			262	174	

Sex	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Male			204	109	
Female			58	65	
Total			262	174	

Age	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
3-5			0	0	
6			0	0	
7			0	0	
8			0	0	
9			0	1	
10			0	1	
11			0	3	
12			5	6	
13			20	9	
14			61	14	
15			67	24	
16			79	43	
17			29	52	
18			1	19	
19			0	2	
20			0	0	
21			0	0	
Total			262	174	

If the total number of students differs by demographics, please explain. The response is limited to 8,000 characters.

--

FAQ on Unduplicated Count:

What is an unduplicated count? An unduplicated count is one that counts students only once, even if they were admitted to a facility or program multiple times within the reporting year.

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013 through June 30, 2014.

2.4.2.3.1 Transition Services in Subpart 2

In the first row of the table below indicate whether programs/facilities receiving Subpart 2 funds within the State are legally permitted to track student outcomes after leaving the program or facility by entering Yes or No. In the second row, provide the unduplicated count of students receiving transition services that specifically target planning for further schooling and/or employment. If not, provide more information in the comment field.

Transition Services	At-Risk Programs	Neglected Programs	Juvenile Detention	Juvenile Corrections	Other Programs
Are facilities in your state permitted to collect data on student outcomes after exit ? (Yes or No)			Yes	Yes	
Number of students receiving transition services that address further schooling and/or employment.			262	174	

This response is limited to 4,000 characters.

Comments:

FAQ on facilities collecting data on student outcomes after exit:

If only some, but not all, facilities in the State are legally permitted to collect data on student outcomes after exit, enter 'yes' for the first question and provide a comment indicating why some facilities are unable to collect these data.

2.4.2.3.2 Academic and Vocational Outcomes While in the LEA Program/Facility or Within 90 Calendar Days After Exit

In the table below, for each program type, first provide the unduplicated number of students who attained academic and vocational outcomes while enrolled in the LEA program/facility and next provide the unduplicated number of students who attained academic and vocational outcomes within 90 calendar days after exiting. If a student attained an outcome once in the program/facility and once during the 90 day transition period, that student may be counted once in each column separately as appropriate. For "Enrolled in their local district school" use the "90 days after exit" columns to provide the number of students who enrolled, or planned to enroll, in their local district school after exit.

Outcomes	At-Risk Programs		Neglected Programs		Juvenile Detention		Juvenile Corrections		Other Programs	
	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit	In fac.	90 days after exit
# of Students Who Enrolled in their local district school	//////////		//////////		//////////	260	//////////	72	//////////	
Earned high school course credits						254	67			
Enrolled in a GED program						S	9			
Earned a GED						S	S			
Obtained high school diploma								S		
Accepted and/or enrolled into post-secondary education								S		
Enrolled in job training courses/programs										
Obtained employment								S		

This response is limited to 4,000 characters.

Comments:

2.4.2.6 Academic Performance – Subpart 2

The following questions collect data on the academic performance of neglected and delinquent long-term students served by Title I, Part D, Subpart 2 in reading and mathematics.

2.4.2.6.1 Academic Performance in Reading – Subpart 2

In the table below, provide the unduplicated number of long-term students served by Title I, Part D, Subpart 2, who participated in reading pre- and post-testing. Students should be reported in only one of the four change categories. Reporting pre- and post-test data for at-risk students in the table below is optional.

Report only information on a student's most recent testing data. Students who were pre-tested prior to July 1, 2013, may be included if their post-test was administered during the reporting year. Students who were post-tested after the reporting year ended should be counted in the following year. Below the table is an FAQ about the data collected in this table.

Performance Data (Based on most recent pre/post-test data)	At-Risk Programs	Neglected Programs	Juvenile Detention Facilities	Juvenile Corrections Facilities	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams			0	6	
Long-term students with no change in grade level from the pre- to post-test exams			S	43	
Long-term students with improvement up to one full grade level from the pre- to post-test exams			S	21	
Long-term students with improvement of more than one full grade level from the pre- to post-test exams			0	15	
Comments:					

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013, through June 30, 2014.

Is reporting pre-posttest data for at-risk programs required? No, reporting pre-posttest data for at-risk students is no longer required, but States have the option to continue to collect and report it within the CSPR.

2.4.2.6.2 Academic Performance in Mathematics – Subpart 2

This section is similar to 2.4.2.6.1. The only difference is that this section collects data on mathematics performance.

Performance Data (Based on most recent pre/post-test data)	At-Risk Programs	Neglected Programs	Juvenile Detention Facilities	Juvenile Corrections Facilities	Other Programs
Long-term students with negative grade level change from the pre- to post-test exams			S	12	
Long-term students with no change in grade level from the pre- to post-test exams			S	32	
Long-term students with improvement up to one full grade level from the pre- to post-test exams			S	9	
Long-term students with improvement of more than one full grade level from the pre- to post-test exams			S	21	
Comments:					

FAQ on long-term:

What is long-term? Long-term refers to students who were enrolled for at least 90 consecutive calendar days from July 1, 2013, through June 30, 2014.

Is reporting pre/post-test data for at-risk programs required? No, reporting pre/post-test data for at-risk students is no longer required, but States have the option to continue to collect and report it within the CSPR.

2.9 RURAL EDUCATION ACHIEVEMENT PROGRAM (REAP) (TITLE VI, PART B, SUBPARTS 1 AND 2)

This section collects data on the Rural Education Achievement Program (REAP) Title VI, Part B, Subparts 1 and 2.

2.9.2 LEA Use of Rural Low-Income Schools Program (RLIS) (Title VI, Part B, Subpart 2) Grant Funds

In the table below, provide the number of eligible LEAs that used RLIS funds for each of the listed purposes.

Purpose	# LEAs
Teacher recruitment and retention, including the use of signing bonuses and other financial incentives	3
Teacher professional development, including programs that train teachers to utilize technology to improve teaching and to train special needs teachers	11
Educational technology, including software and hardware as described in Title II, Part D	16
Parental involvement activities	5
Activities authorized under the Safe and Drug-Free Schools Program (Title IV, Part A)	3
Activities authorized under Title I, Part A	28
Activities authorized under Title III (Language instruction for LEP and immigrant students)	3
Comments:	

2.9.2.1 Goals and Objectives

In the space below, describe the progress the State has made in meeting the goals and objectives for the Rural Low-Income Schools (RLIS) Program as described in its June 2002 Consolidated State application. Provide quantitative data where available.

The response is limited to 8,000 characters.

Due to the ESEA Flexibility waiver, South Carolina no longer uses Adequate Yearly Progress (AYP) for school or district accountability.

2.10 FUNDING TRANSFERABILITY FOR STATE AND LOCAL EDUCATIONAL AGENCIES (TITLE VI, PART A, SUBPART 2)

2.10.1 State Transferability of Funds

In the table below, indicate whether the state transferred funds under the state transferability authority.

State Transferability of Funds	Yes/No
Did the State transfer funds under the State Transferability authority of Section 6123(a) during SY 2013-14?	<u>No</u>
Comments:	

2.10.2 Local Educational Agency (LEA) Transferability of Funds

In the table below, indicate the number of LEAs that notified that state that they transferred funds under the LEA transferability authority.

LEA Transferability of Funds	#
LEAs that notified the State that they were transferring funds under the LEA Transferability authority of Section 6123(b).	0
Comments:	

2.10.2.1 LEA Funds Transfers

In the table below, provide the total number of LEAs that transferred funds from an eligible program to another eligible program.

Program	# LEAs Transferring Funds FROM Eligible Program	# LEAs Transferring Funds TO Eligible Program
Improving Teacher Quality State Grants (Section 2121)	0	0
Educational Technology State Grants (Section 2412(a)(2)(A))	0	0
Safe and Drug-Free Schools and Communities (Section 4112(b)(1))	0	0
State Grants for Innovative Programs (Section 5112(a))	0	0
Title I, Part A, Improving Basic Programs Operated by LEAs		0

In the table below provide the total amount of FY 2013 appropriated funds transferred from and to each eligible program.

Program	Total Amount of Funds Transferred FROM Eligible Program	Total Amount of Funds Transferred TO Eligible Program
Improving Teacher Quality State Grants (Section 2121)	0.00	0.00
Educational Technology State Grants (Section 2412(a)(2)(A))	0.00	0.00
Safe and Drug-Free Schools and Communities (Section 4112(b)(1))	0.00	0.00
State Grants for Innovative Programs (Section 5112(a))	0.00	0.00
Title I, Part A, Improving Basic Programs Operated by LEAs		0.00
Total	0.00	0.00

Comments: The South Carolina Department of Education plans to obtain information on the use of funds under both the State and LEA Transferability Authority through evaluation studies.

The Department plans to obtain information on the use of funds under both the State and LEA Transferability Authority through evaluation studies.

2.11 GRADUATION RATES⁴

This section collects graduation rates.

2.11.1 Regulatory Adjusted Cohort Graduation Rates

In the table below, provide the graduation rates calculated using the methodology that was approved as part of the State's accountability plan for the **current school year** (SY 2013-14). Below the table are FAQs about the data collected in this table.

Note: States are not required to report these data by the racial/ethnic groups shown in the table below; instead, they are required to report these data by the major racial and ethnic groups that are identified in their Accountability Workbooks. The charts below display racial/ethnic data that have been mapped from the major racial and ethnic groups identified in their workbooks, to the racial/ethnic groups shown.

Student Group	Graduation Rate
All Students	80.00
American Indian or Alaska Native	74.00
Asian or Pacific Islander	88.00
<i>Asian</i>	
<i>Native Hawaiian or Other Pacific Islander</i>	
Black or African American	76.00
Hispanic or Latino	77.00
White	82.80
Two or more races	
Children with disabilities (<i>IDEA</i>)	43.20
Limited English proficient (LEP) students	73.00
Economically disadvantaged students	72.50

FAQs on graduation rates:

What is the regulatory adjusted cohort graduation rate? For complete definitions and instructions, please refer to the non-regulatory guidance, which can be found here: <http://www2.ed.gov/policy/elsec/guid/hsgrguidance.pdf>.

The response is limited to 8,000 characters.

⁴ The "Asian/Pacific Islander" row in the tables below represent either the value reported by the state to the Department of Education for the major racial and ethnic group "Asian/Pacific Islander" or an aggregation of values reported by the state for the major racial and ethnic groups "Asian" and "Native Hawaiian/Other Pacific Islander or Pacific Islander" (and "Filipino" in the case of California). When the values reported in the Asian/Pacific Islander row represent the U. S. Department of Education aggregation of other values reported by the state, the detail for "Asian" and "Native Hawaiian or Other Pacific Islander" are also included in the following rows. Disaggregated reporting for the adjusted cohort graduation rate data is done according to the provisions outlined within each state's Accountability Workbook. Accordingly, not every state uses major racial and ethnic groups which enable detail of Asian American/Pacific Islander (AAPI) populations.

2.12 LISTS OF SCHOOLS AND DISTRICTS

This section contains data on school statuses. States with approved ESEA Flexibility requests should follow the instructions in sections 2.12.1 and 2.12.3. All other states should follow the instructions in sections 2.12.2 and 2.12.4. These tables will be generated based on data submitted to ED^{Facts} and included as part of each state's certified report; states will no longer upload their lists separately. Data will be generated into separate reports for each question listed below.

2.12.1 List of Schools for ESEA Flexibility States

2.12.1.1 List of Reward Schools

Instructions for States that identified reward schools⁵ under ESEA flexibility for SY 2014-15 : Provide the information listed in the bullets below for those schools.

- | District Name
- | District NCES ID Code
- | School Name
- | School NCES ID Code
- | Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- | Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the mathematics assessment
- | Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | If applicable, State-specific status in addition to reward (e.g., grade, star, or level)
- | Whether the school was identified as a high progress or high performing reward school
- | Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- | Whether (yes or no) the school was provided assistance through 1003(a).
- | Whether (yes or no) the school was provided assistance through 1003(g).

The data for this question are reported through ED^{Facts} files and compiled in the EDEN030 "List of Reward Schools" report in the ED^{Facts} Reporting System (ERS). The ED^{Facts} files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN030 report in ERS and verify that the state's data are correct . The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁵ The definition of reward schools is provided in the document titled, ESEA Flexibility. This document may be accessed on the Department's Web page at <http://www.ed.gov/eSEA/flexibility/documents/eSEA-flexibility.doc>

2.12.1.2 List of Priority and Focus Schools

Instructions for States that identified priority and focus schools⁶ under ESEA flexibility for SY 2014-15 : Provide the information listed in the bullets below for those schools.

- | District Name
- | District NCES ID Code
- | School Name
- | School NCES ID Code
- | Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- | Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the mathematics assessment
- | Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Status for SY 2014-15 (Use one of the following status designations: priority or focus)
- | If applicable, State-specific status in addition to priority or focus (e.g., grade, star, or level)
- | Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- | Whether (yes or no) the school was provided assistance through Section 1003(a).
- | Whether (yes or no) the school was provided assistance through Section 1003(g).

The data for this question are reported through EDFacts files and compiled in the EDEN031 "List of Priority and Focus Schools" report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN031 report in ERS and verify that the state's data are correct . The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁶ The definitions of priority and focus schools are provided in the document titled, *ESEA Flexibility*. This document may be accessed on the Department's Web page at <http://www.ed.gov/esea/flexibility/documents/esea-flexibility.doc>

2.12.1.3 List of Other Identified Schools

Instructions for States that identified non- priority, focus, or reward schools ⁷ with State-specific statuses under ESEA flexibility for SY 2014-15 :

Provide the information listed in the bullets below for those schools.

- | District Name
- | District NCES ID Code
- | School Name
- | School NCES ID Code
- | Whether the school met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the reading/language arts assessment
- | Whether the school met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- | Whether the school met the 95 percent participation rate target for the mathematics assessment
- | Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Whether the school met the graduation rate goal or target for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | State-specific designation (e.g., grade, star, or level)
- | Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- | Whether (yes or no) the school was provided assistance through Section 1003(a).
- | Whether (yes or no) the school was provided assistance through Section 1003(g).

The data for this question are reported through EDFacts files and compiled in the EDEN032 "List of Other Identified Schools" report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN032 report in ERS and verify that the state's data are correct . The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁷ The definitions of reward, priority, and focus schools are provided in the document titled, ESEA Flexibility. This document may be accessed on the Department's Web page at <http://www.ed.gov/esea/flexibility/documents/esea-flexibility.doc>.

2.12.2 List of Schools for All Other States

2.12.2.1 Instructions for States that identified schools for improvement, corrective action, or restructuring under ESEA section 1116 for SY 2014-15: Provide the information listed in the bullets below for those schools.

- | District Name
- | District NCES ID Code
- | School Name
- | School NCES ID Code
- | Whether the school met the proficiency target in reading/language arts in accordance with the State's Accountability Plan
- | Whether the school met the 95 percent participation rate target for the reading/language arts assessment/Whether the school met the proficiency target in mathematics in accordance with the State's Accountability Plan
- | Whether the school met the 95 percent participation rate target for the mathematics assessment
- | Whether the school met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's Accountability Plan
- | Whether the school met the graduation rate target for high schools (if applicable) in accordance with the State's Accountability Plan
- | Status for SY 2014-15 (Use one of the following status designations: School Improvement – Year 1, School Improvement – Year 2, Corrective Action, Restructuring Year 1 (planning), or Restructuring Year 2 (implementing))⁸
- | Whether (yes or no) the school is a Title I school (*This information must be provided by all States.*)
- | Whether (yes or no) the school was provided assistance through Section 1003(a).
- | Whether (yes or no) the school was provided assistance through Section 1003(g).

The data for this question are reported through EDFacts files and compiled in the EDEN033 "List of Schools Identified for Improvement" report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN033 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁸ The school improvement statuses are defined in *LEA and School Improvement Non-Regulatory Guidance*. This document may be accessed on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.

2.12.3 List of Districts for ESEA Flexibility States

2.12.3.1 List of Identified Districts with State Specific Statuses

Instructions for States that identified school districts with State-specific statuses under ESEA flexibility for SY 2014-15: Provide the information listed in the bullets below for those districts.

- | District name
- | District NCES ID code
- | Whether the district met the proficiency target in reading/language arts in accordance with the State's approved ESEA flexibility request
- | Whether the district met the 95 percent participation rate target for the reading/language arts assessment
- | Whether the district met the proficiency target in mathematics in accordance with the State's approved ESEA flexibility request
- | Whether the district met the 95 percent participation rate target for the mathematics assessment
- | Whether the district met the other academic indicator for elementary/middle schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | Whether the district met the graduation rate for high schools (if applicable) in accordance with the State's approved ESEA flexibility request
- | State-specific status for SY 2014-15 (e.g., grade, star, or level)
- | Whether the district received Title I funds.

The data for this question are reported through EDFacts files and compiled in the EDEN030 "List of Reward Schools" report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN030 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

2.12.4 List of Districts for All Other States

2.12.4.1 List of Districts Identified for Improvement

Instructions for States that identified school districts for improvement or corrective action⁹ under ESEA section 1116 for SY 2014-15: Provide the information listed in the bullets below for those districts.

- | District Name
- | District NCES ID Code
- | Whether the district met the proficiency target in reading/language arts as outlined in the State's Accountability Plan
- | Whether the district met the participation rate target for the reading/language arts assessment
- | Whether the district met the proficiency target in mathematics as outlined in the State's Accountability Plan
- | Whether the district met the participation rate target for the mathematics assessment
- | Whether the district met the other academic indicator for elementary/middle schools (if applicable) as outlined in the State's Accountability Plan
- | Whether the district met the graduation rate for high schools (if applicable) as outlined in the State's Accountability Plan
- | Improvement status for SY 2014-15 (Use one of the following improvement status designations: Improvement or Corrective Action)
- | Whether the district received Title I funds.

The data for this question are reported through EDFacts files and compiled in the EDEN035 "List of Districts Identified for Improvement" report in the EDFacts Reporting System (ERS). The EDFacts files and data groups used in this report are listed in the CSPR Crosswalk. The CSPR Data Key contains more detailed information on how the data are populated into the report.

Before certifying Part II of the CSPR, a state user must run the EDEN035 report in ERS and verify that the state's data are correct. The final, certified data from this report will be made publicly available alongside the state's certified CSPR PDF.

⁹ The district improvement statuses are defined in *LEA and School Improvement Non-Regulatory Guidance*. This document may be accessed on the Department's Web page at <http://www.ed.gov/policy/elsec/guid/schoolimprovementguid.doc>.
