

# UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION

Honorable Keith W. Rheault  
Superintendent of Public Instruction  
Nevada Department of Education  
700 E. Fifth Street  
Carson City, Nevada 89701

APR 11 2011

Dear Superintendent Rheault:

During the week of February 14, a team from the U.S. Department of Education's (ED) Student Achievement and School Accountability Programs (SASA) office reviewed the Nevada Department of Education's (NDE) administration of Title I, section 1003(g) (School Improvement Grants (SIG)) of the Elementary and Secondary Education Act of 1965 (ESEA), as amended. As part of its review, the ED team interviewed staff at the State educational agency (SEA) and two local educational agencies (LEAs). The ED team also conducted site visits to two schools implementing the SIG intervention models, where they visited classes and interviewed school leaders, teachers, parents, and students. Enclosed you will find ED's final monitoring report based upon this review.

In February 2011, SASA began its first year of monitoring of the SIG program. The primary purpose of monitoring is to ensure that the SEA carries out the SIG program consistent with the final requirements. Additionally, ED is using its monitoring review to observe how LEAs and schools are implementing the selected intervention models and identify areas where technical assistance may be needed to support effective program implementation.

In line with these aims, the enclosed monitoring report is organized into three sections: (1) *Summary and Observations*, (2) *Technical Assistance Recommendations*, and (3) *Monitoring Findings*. The *Summary and Observations* section describes the SIG implementation occurring in the schools and districts visited, initial indicators of success, and any outstanding challenges relating to implementation. The *Technical Assistance Recommendations* section contains strategies and resources for addressing technical assistance needs identified during ED's visit. Finally, the *Monitoring Findings* section identifies any compliance issues within the six indicator areas reviewed and corrective actions that the SEA is required to take.

The NDE has 30 business days from receipt of this report to respond to all of the compliance issues contained herein. ED staff will review your response for sufficiency and will determine which areas are acceptable and which require further documentation of implementation. ED will allow 30 business days for receipt of this further documentation, if required. ED recognizes that some corrective actions may require longer than the prescribed 30 days, and in these instances, ED will work with the NDE to determine a reasonable timeline. In those instances where additional time is required to implement specific corrective actions, you must submit a request for such an extension in writing to ED, including a timeline for completion for all related actions.

*The Department of Education's mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.*

Each State that participates in an onsite monitoring review and that has significant compliance findings in one or more of the programs monitored will have a condition placed on that program's grant award specifying that the State must submit (and receive approval of) documentation that all compliance issues identified in the monitoring report have been corrected. When documentation sufficient to address all compliance areas has been submitted and approved, ED will then remove the condition from your grant award.

With regards to the *Technical Assistance Recommendations* provided, we encourage you to employ these strategies to further support the effective implementation of the SIG program. ED staff will follow up with your staff over the next few months to see how the NDE is working to address these issues and make use of this technical assistance.

Please be aware that the observations reported, issues identified, and findings made in the enclosed report are based on written documentation or information provided to ED by SEA, LEA, or school staff during interviews. They also reflect the status of compliance in Nevada at the time and locations of SASA's onsite review. The NDE may receive further communication from ED that will require you to address noncompliance occurring prior or subsequent to the onsite visit.

The ED team would like to thank Rorie Fitzpatrick, Marcia Calloway, and Sue Moulden-Horton for their hard work and the assistance they provided prior to and during the review. The ED team was impressed with the efforts of your State's staff to support districts and schools in their implementation.

We look forward to working further with your staff to resolve the issues contained in this report and to improve the quality of the SIG program in Nevada

Sincerely,

Patricia A. McKee  
Acting Director  
Student Achievement and  
School Accountability Programs

Enclosure

cc: Marcia Calloway, Assistant Director, Elementary and Secondary Education Programs
