

## UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION

The Honorable Richard Corcoran  
Commissioner  
Florida Department of Education  
Turlington Building, Suite 1514  
325 West Gaines Street  
Tallahassee, FL 32399

August 26, 2019

Dear Commissioner Corcoran:

Thank you for your participation in the U.S. Department of Education's (the Department) assessment peer review process under Title I of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA). I appreciate the efforts of the Florida Department of Education (FDOE) to prepare for the English language proficiency (ELP) assessment peer review, which occurred in April 2019. Specifically, FDOE submitted evidence regarding ACCESS and Alternate ACCESS.

The ESEA and its implementing regulations require a State to ensure that its local education agencies (LEAs) provide an annual ELP assessment of all English learners (ELs) in grades K-12 in schools served by the State (ESEA section 1111(b)(2)(G); 34 CFR § 200.6(h)). Specifically, the ESEA requires a State to develop a uniform statewide ELP assessment to measure the ELP of all ELs in the State, including ELs with disabilities, and to provide an alternate ELP assessment (AELPA) for ELs who are students with the most significant cognitive disabilities who cannot participate in the regular ELP assessment even with accommodations (ESEA section 1111(b)(2)(G); 34 CFR § 200.6(h)(1), (5)). The ESEA and its implementing regulations require that a State's ELP assessments, including the AELPA, be aligned with the State's ELP standards, provide valid and reliable measures of the State's ELP standards, and be of adequate technical quality (ESEA section 1111(b)(2)(G); 34 CFR §§ 200.2(b)(2), (b)(4), (b)(5), 200.6(h)(2)).

External peer reviewers and Department staff carefully evaluated FDOE's submission and the Department found, based on the evidence received, that this component of your assessment system met some, but not all of the statutory and regulatory requirements of the ESEA. Based on the recommendations from this peer review and our own analysis of the State's submission, I have determined the following:

- General ELP assessment (ACCESS): **Partially meets requirements of the ESEA, as amended by ESSA.**
- Alternate ELP assessment (Alternate ACCESS): **Partially meets requirements of the ESEA, as amended by ESSA.**

*The Department of Education's mission is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access.*

The assessments that partially meet requirements do not meet a number of the requirements of the statute and regulations and FDOE will need to provide substantial additional information to demonstrate it meets the requirements. The Department realizes that this was the first time your State was required to provide its ELP and alternate ELP assessments for peer review and recognizes that it may take some time to address all of the required items. The specific list of items required for FDOE to submit is enclosed with this letter. Within 30 days, FDOE must provide a plan and timeline for submitting all required documentation. Upon submission of the plan, the Department will reach out to the State educational agency (SEA) to determine a mutually agreeable schedule. Resubmission should occur once all necessary evidence is complete (rather than in multiple submissions). The Department is placing a condition on FDOE's Title I, Part A grant award. To satisfy this condition, FDOE must submit satisfactory evidence to address the items identified in the enclosed list. If adequate progress is not made, the Department may take additional action.

The full peer review notes from the review are enclosed. These recommendations to the Department formed the basis of our determination. Please note that the peers' recommendations may differ from the Department's feedback; we encourage you to read the full peer notes for additional suggestions and recommendations for improving your assessment system beyond what is noted in the Department's feedback. Department staff will reach out to your assessment director in the next few days to discuss the peer notes and the Department's determination and to answer any questions you have.

Additionally, the Office of Special Education and Rehabilitative Services (OSERS) will monitor progress on matters pertaining to requirements in the Individuals with Disabilities Education Act (IDEA) related to the participation of students with disabilities in Title I assessments. In particular, OSERS will monitor progress against critical elements 1.4, 4.2, 5.1, 5.3, 5.4, 6.1 and 6.3. Insufficient progress to address such matters may lead OSERS to place a condition on FDOE's fiscal year 2020 IDEA Part B grant award.

Thank you for your ongoing commitment to improving educational outcomes for all students. I look forward to our continued partnership as we move ahead with this critical work. I appreciate the work you are doing to improve your schools and provide a high-quality education for your students.

If you have any questions, please contact my staff at: [ESEA.Assessment@ed.gov](mailto:ESEA.Assessment@ed.gov).

Sincerely,

/s/

Assistant Secretary for  
Elementary and Secondary Education

**Critical Elements Where Additional Evidence is Needed to Meet the Requirements for Florida’s Use of the ACCESS and Alternate ACCESS as English Language Proficiency (ELP) Assessments**

Critical Element	Additional Evidence Needed
<b>1.1 – State Adoption of ELP Standards for All English learners (ELs)</b>	For the State’s ELP standards: <ul style="list-style-type: none"> <li>• Evidence that Florida has adopted the most current WIDA ELP standards.</li> </ul>
<b>1.2 – Coherent and Progressive ELP Standards that Correspond to the State’s Academic Content Standards</b>	For the State’s ELP standards: <ul style="list-style-type: none"> <li>• For science, evidence that the ELP standards contain language proficiency expectations that reflect the language needed for ELs to acquire and demonstrate their achievement of the knowledge and skills identified in the State’s academic content standards appropriate to each grade-level/grade-band.</li> </ul> For reading/language arts and mathematics, evidence of alignment of its current ELP standards to the State’s academic content standards, including a plan to address findings of the previous alignment study
<b>1.3 – Required Assessments</b>	For Alternate ACCESS: <ul style="list-style-type: none"> <li>• Evidence that the alternate ELP assessment is available in kindergarten.</li> </ul>
<b>1.4 – Policies for Including All Students in Assessments</b>	For Alternate ACCESS: <ul style="list-style-type: none"> <li>• See critical element 1.3.</li> </ul>
<b>2.1 – Test Design and Development</b>	For ACCESS and Alternate ACCESS: <ul style="list-style-type: none"> <li>• Evidence that both assessments are aligned to the depth and breadth of the State’s ELP standards, including:               <ul style="list-style-type: none"> <li>○ Statement of the purposes and intended uses of results.</li> <li>○ Test blueprints.</li> <li>○ Processes to ensure that the ELP assessment is tailored to the knowledge and skills included in the State’s ELP standards and reflects appropriate inclusion of the range of complexity found in the standards (e.g., detail about the routing rules, detail of the item selection process for paper forms to ensure it adheres to the blueprint).</li> </ul> </li> </ul>
<b>2.2 – Item Development</b>	For ACCESS: <ul style="list-style-type: none"> <li>• Evidence of reasonable and technically sound procedures to develop and select items (e.g., timeline of development, qualifications of item writers, item-writing training, item review processes and reviewer qualifications, field test processes for each domain, and TAC review).</li> </ul> For Alternate ACCESS: <ul style="list-style-type: none"> <li>• Evidence of reasonable and technically sound procedures to develop and select items to assess ELP (e.g., involvement of experts with knowledge of ELs with significant cognitive disabilities).</li> </ul>

Critical Element	Additional Evidence Needed
<p><b>2.3 – Test Administration</b></p>	<p>For Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Evidence of established procedures to ensure that general and special education teachers, paraprofessionals, teachers of ELs, specialized instruction support personnel, and other appropriate staff receive necessary training to administer assessments and know how to administer assessments, including, as necessary, alternate assessments, and know how to make use of appropriate accommodations during assessments for all students with disabilities (e.g., content of training modules, evidence that training is required for test administrators and evidence of participation in such training).</li> </ul>
<p><b>2.4 – Monitoring Test Administration</b></p>	<p>For ACCESS and Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Evidence that the State adequately monitors the administration of its State assessments to ensure that standardized test administration procedures are implemented with fidelity across districts and schools.</li> </ul>
<p><b>2.5 – Test Security</b></p>	<p>For Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Evidence of policies and procedures that prevent assessment irregularities, including maintaining the security of test materials (both during test development and at time of test administration), proper test preparation guidelines and administration procedures, incident-reporting procedures, consequences for confirmed violations of test security, and requirements for annual training at the district and school levels for all individuals involved in test administration. <ul style="list-style-type: none"> <li>○ Specifically, evidence for the Alternate ACCESS of policies and procedures to protect the integrity of the test given that the test form is unchanged for the past several years.</li> </ul> </li> <li>• Evidence of detection of test irregularities.</li> <li>• Evidence of remediation following any test security incidents.</li> <li>• Evidence of the investigation of alleged or factual test irregularities (e.g., forensic analysis and plans to address concerns).</li> </ul>
<p><b>2.6 – Systems for Protecting Data Integrity and Privacy</b></p>	<p>For ACCESS and Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Policies and procedures to protect the integrity of test-related data in test administration (e.g., how data are protected by all parties, including during handoffs).</li> <li>• Policies and procedures to maintain secure student-level data that protect student privacy and confidentiality (e.g., guidelines for districts and schools).</li> </ul>
<p><b>3.1 – Overall Validity, including Validity Based on Content</b></p>	<p>For ACCESS:</p> <ul style="list-style-type: none"> <li>• Documentation of adequate alignment between the State’s ELP assessment and the ELP standards the assessment is designed to measure in terms of language knowledge and skills and the depth and breadth of the State’s ELP standards across all proficiency levels, domains, and modalities identified therein.</li> </ul>

Critical Element	Additional Evidence Needed
	<ul style="list-style-type: none"> <li>• Documentation of alignment between the State’s ELP standards and the language demands implied by, or explicitly stated in, the State’s academic content standards.</li> </ul> <p>For Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Evidence of adequate linkage to the State’s ELP standards in terms of content match (i.e., no unrelated content) and that the breadth of content and linguistic complexity determined in test design is appropriate for ELs who are students with the most significant cognitive disabilities.</li> </ul>
<b>3.2 – Validity Based on Linguistic Processes</b>	<p>For ACCESS and Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Adequate validity evidence that its assessments tap the intended language processes appropriate for each grade level/grade-band as represented in the State’s ELP standards.</li> </ul>
<b>3.3 – Validity Based on Internal Structure</b>	<p>For ACCESS and Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Evidence that the scoring and reporting structures of the assessments are consistent with the subdomain structures of the State’s ELP standards (e.g., an explanation of how the included statistical analyses relate to the validity framework for the assessments).</li> </ul>
<b>3.4 – Validity Based on Relationships with Other Variables</b>	<p>For ACCESS and Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Adequate validity evidence that the State’s assessment scores are related as expected with other variables (e.g., interpretations for studies of relationships between the State academic assessments and the ELP assessments).</li> </ul>
<b>4.1 – Reliability</b>	<p>For ACCESS and Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Evidence of test reliability, including:               <ul style="list-style-type: none"> <li>○ Reliability by subgroups;</li> <li>○ Consistency and accuracy of estimates in categorical classification decisions for the cut scores, achievement levels or proficiency levels based on the assessment results;</li> <li>○ Evidence that reliability statistics are used to inform ongoing maintenance and development.</li> </ul> </li> </ul> <p>For ACCESS:</p> <ul style="list-style-type: none"> <li>• For computer-adaptive tests, evidence that the assessments produce test forms with adequately precise estimates of an EL’s ELP.</li> </ul> <p>For Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Evidence of reliability, including test information functions (TIFs) for overall composite scores</li> </ul>
<b>4.2 – Fairness and accessibility</b>	<p>For ACCESS and Alternate ACCESS:</p> <ul style="list-style-type: none"> <li>• Evidence that the assessments are accessible to all students and fair across student groups in design, development, and analysis (e.g., the implementation of universal design principles, to the extent practicable, during item development and review, and</li> </ul>

	<ul style="list-style-type: none"><li>• Evidence that the State provides coherent and timely information about each student’s attainment of the State’s ELP standards to parents that are, to the extent practicable, written in a language that parents and guardians can understand or, if it is not practicable to provide written translations to a parent or guardian with limited English proficiency, are orally translated for such parent or guardian.</li><li>• Evidence that student reports are, upon request by an individual with a disability, provided in an alternative format accessible to that parent.</li></ul> <p>For Alternate ACCESS:</p> <ul style="list-style-type: none"><li>• Evidence that performance level descriptors are included on student score reports.</li></ul>

U. S. DEPARTMENT OF EDUCATION

# Peer Review of State Assessment Systems

## April State ELP Assessment Peer Review Notes

U. S. Department of Education  
Office of Elementary and Secondary Education  
Washington, D.C. 20202

Note: Peer review notes provide the combined recommendations of the individual peers to the U.S. Department of Education (Department), based on the statute and regulations, the Department's peer review guidance, and the peers' professional judgement of the evidence submitted by the State. These assessment peer review notes, however, do not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for assessment peer review. Although the peer notes inform the Secretary's consideration of each State's assessment system, the Department makes the final decision regarding whether the assessment system meets the requirements in the statute and regulations. As a result, these peer notes may not completely align with the final determination made by the Department.

### Section 2.5 Summary Statement

X The following additional evidence is needed/provide brief rationale:

#### **ACCESS**

- The delineation of responsibilities of test security between WIDA and the states, to include recommended guidelines or minimum standards for test security for states to implement
- Evidence of security procedures during test development
- Evidence of activities that prevent assessment irregularities, including maintaining the security of test materials (both during test development and at time of test administration), proper test preparation guidelines and administration procedures, incident-reporting procedures, consequences for confirmed violations of test security, and requirements for annual training at the district and school levels for all individuals involved in test administration;
- Evidence of detection of test irregularities;
- Evidence of remediation following any test security incidents involving any of the State's assessments; (provided by States)
- Evidence of the investigation of alleged or factual test irregularities to include forensic analysis and plans to address findings (provided by States)

#### **Alternate ACCESS**

SECTION 4: TECHNICAL QUALITY – OTHER

**Critical Element 4.1 – Reliability**

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
<p>The State has documented adequate reliability evidence for its assessments for the following measures of reliability for the State’s student population overall and each student group consistent with nationally recognized professional and technical testing standards. If the State’s assessments are implemented in multiple States, measures of reliability for the assessment overall and each student group consistent with nationally recognized professional and technical testing standards, including:</p> <ul style="list-style-type: none"> <li>• Test reliability of the State’s assessments estimated for its student population (<i>for ELP assessments, including any domain or component sub-tests, as applicable</i>);</li> <li>• Overall and conditional standard error of measurement of the State’s assessments, including any domain or component sub-tests, as applicable;</li> <li>• Consistency and accuracy of estimates in categorical classification decisions for the cut scores, achievement levels or proficiency levels based on the assessment results;</li> <li>• For computer-adaptive tests, evidence that the assessments produce test forms with adequately</li> </ul>	<p><b>ACCESS</b></p> <ul style="list-style-type: none"> <li>• 2.1-2, provided by domain</li> <li>• No subgroup information</li> </ul>	<p><b>ACCESS</b></p> <ul style="list-style-type: none"> <li>• While the various statistics (e.g. Cronbach’s alpha, decision consistency, TIF) are provided at the composite and domain levels, they are not computed for any subgroups, such as gender, SES, and accommodation type.</li> <li>• Accuracy and consistency measures for some composite scores and domains appeared low (see for example 2.1-2 p.345, p.167-168). If the proficiency levels are used to make decisions for these measures, then this needs to be addressed. The Peers’ understanding is that states can make decisions regarding the way in which scores are used to make decisions. Does WIDA provide more guidance given the reliability information?</li> <li>• While it may have been done, the Peers could not locate, for computer-adaptive tests, evidence that the assessments produce test forms with adequately precise estimates of <i>an EL’s English proficiency</i>.   X   The following additional evidence is needed/provide brief rationale:

#### **ACCESS**

- Evidence that the provided accommodations (1) are appropriate and effective for meeting the individual student's need(s) to participate in the assessments, (2) do not alter the construct being assessed, and (3) allow meaningful interpretations of results and comparison of scores for students who need and receive accommodations and students who do not need and do not receive accommodations;
- Evidence of a process to individually review and allow exceptional requests for a small number of students who require accommodations beyond those routinely allowed. (Provided by states)

#### **Alternate ACCESS**

- Evidence is needed for all aspects of this critical element.

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

### Section 6.4 Summary Statement

X The following additional evidence is needed/provide brief rationale:

#### **ACCESS & Alternate ACCESS**

- The State reports to the public its assessment results on *English language proficiency for all ELs including the number and percentage of ELs attaining ELP*. (provided by States)
- The State reports its assessment results for all students assessed, and the reporting facilitates **timely** interpretations and uses of those results by parents, educators, State officials, policymakers and other stakeholders, and the public. (provided by States)
- the State provides coherent and timely information about each student's attainment of the State's ELP standards to parents that are, to the extent practicable, written in a language that parents and guardians can understand or, if it is not practicable to provide written translations to a parent or guardian with limited English proficiency, are orally translated for such parent or guardian (provided by States)
- the State provides coherent and timely information about each student's attainment of the State's ELP standards to parents that upon request by a parent who is an individual with a disability as defined by the ADA, as amended, are provided in an alternative format accessible to that parent. (provided by States)

#### **Alternate ACCESS**

- Inclusion of performance level descriptors on student score reports

## SECTION 7: DOES NOT APPLY TO ELP ASSESSMENT PEER REVIEW

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

U. S. DEPARTMENT OF EDUCATION

# Peer Review of State Assessment Systems

## April State ELP Assessment Peer Review Notes

U. S. Department of Education  
Office of Elementary and Secondary Education  
Washington, D.C. 20202

Note: Peer review notes provide the combined recommendations of the individual peers to the U.S. Department of Education (Department), based on the statute and regulations, the Department's peer review guidance, and the peers' professional judgement of the evidence submitted by the State. These assessment peer review notes, however, do not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for assessment peer review. Although the peer notes inform the Secretary's consideration of each State's assessment system, the Department makes the final decision regarding whether the assessment system meets the requirements in the statute and regulations. As a result, these peer notes may not completely align with the final determination made by the Department.

SECTION 3: TECHNICAL QUALITY – VALIDITY

**Critical Element 3.1 – Overall Validity, Including Validity Based on Content**

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
<p>The State has documented adequate overall validity evidence for its assessments consistent with nationally recognized professional and technical testing standards. The State’s validity evidence includes evidence that:</p> <p><i>The State’s ELP assessments</i> measure the knowledge and skills specified in the State’s ELP standards, including:</p> <ul style="list-style-type: none"> <li>• Documentation of adequate alignment between the State’s ELP assessment and the ELP standards the assessment is designed to measure in terms of language knowledge and skills, the depth and breadth of the State’s ELP standards, across all proficiency levels, domains, and modalities identified therein;</li> <li>• Documentation of alignment (as defined) between the State’s ELP standards and the language demands implied by, or explicitly stated in, the State’s academic content standards;</li> <li>• If the State administers an AELPA aligned with alternate ELP achievement standards, the assessment shows adequate linkage to the State’s ELP standards in terms of content match (i.e., no unrelated content) and that the breadth of content and linguistic complexity</li> </ul>	<p>2.1 CAL Email – Acknowledgement of FL involvement in QC of test development process for 2 consecutive years</p>	<p><b>ACCESS and Alternate ACCESS</b> See peer review notes for WIDA from consortium peer review.</p> <p>Once the state has provided sufficient evidence requested for Critical Element 1.1 regarding the adoption of state ELP standards and alternate ELP standards, then the state needs to provide evidence of alignment studies.</p>

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

SECTION 4: TECHNICAL QUALITY – OTHER

**Critical Element 4.1 – Reliability**

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
<p>The State has documented adequate reliability evidence for its assessments for the following measures of reliability for the State’s student population overall and each student group consistent with nationally recognized professional and technical testing standards. If the State’s assessments are implemented in multiple States, measures of reliability for the assessment overall and each student group consistent with nationally recognized professional and technical testing standards, including:</p> <ul style="list-style-type: none"> <li>• Test reliability of the State’s assessments estimated for its student population (<i>for ELP assessments, including any domain or component sub-tests, as applicable</i>);</li> <li>• Overall and conditional standard error of measurement of the State’s assessments, including any domain or component sub-tests, as applicable;</li> <li>• Consistency and accuracy of estimates in categorical classification decisions for the cut scores, achievement levels or proficiency levels based on the assessment results;</li> <li>• For computer-adaptive tests, evidence that the assessments produce test forms with adequately</li> </ul>	<p>No state-specific evidence provided.</p>	<p><b>ACCESS and Alternate ACCESS</b> See peer review notes for WIDA from consortium peer review.</p>

### Critical Element 4.4 – Scoring

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
<p>The State has established and documented standardized scoring procedures and protocols for its assessments (and <i>for ELP assessments, any applicable domain or component sub-tests</i>) that are designed to produce reliable and meaningful results, facilitate valid score interpretations, and report assessment results in terms of the State’s <i>ELP standards</i>.</p> <p><i>For ELP assessments</i>, if an English learner has a disability that precludes assessment of the student in one or more of the required domains/components (listening, speaking, reading, and writing) such that there are no appropriate accommodations for the affected domain(s)/component(s), the State must provide a description of how it will ensure that the student is assessed in the remaining domain(s)/component(s) in which it is possible to assess the student, and a description of how this will occur.<sup>7</sup></p>	<p>1.4 2017FLManual_10.27.17_final, p.36 (Do Not Score)</p> <p>1.4 FLAccessibilityandAccommodationsSupplement, pp. 4-6 (Participation Requirements)</p> <p>1.4 2018 ACCESS for ELLs FAQ 10.26.17_Final, pp.12-12 (Score Reports)</p> <p>2.3 ACCESS Speaking reliability_training</p> <p>3.3 Less than Four_FL2018 - provides ELP Report of population missing score point</p> <p>4.4 Speaking Study_FL Report_SRead</p> <p>4.4 2017-18 Educator Training Overview – provides summary of Florida/WIDA ACCESS for ELLs trainings.</p>	<p><b>ACCESS and Alternate ACCESS</b> See peer review notes for WIDA from consortium peer review.</p> <p>State has provided Excel spreadsheets listing educators who have completed training for scoring; however, the state should provide more details of the content of training regarding standardized scoring procedures and protocols for its assessments.</p> <p>State should provide evidence that locally scored assessments are done in a manner that produces reliable results to facilitate score interpretations.</p> <p>2.3 ACCESS Speaking reliability training evidence shows how the state trains on reliability for speaking. However, it does not contain any reliability checks. The state should provide evidence of the reliability of local scoring of speaking. For example, the state could provide evidence of interrater reliability.</p> <p>4.4 Speaking Study_FL Report_SRead indicates that Final Rater Reliability Results are expected to be released in the fall of 2018. The peers are uncertain if these results were provided in the consortium evidence.</p> <p>The state does provide a description of how it will ensure that the student is assessed in the remaining domain(s)/component(s), but the peers would like to see evidence that the imputation method chosen for the missing domains is not masking the actual performance in the other domains.</p>

SECTION 5: INCLUSION OF ALL STUDENTS

**Critical Element 5.1 – Procedures for Including Students with Disabilities**

Critical Element	Evidence (Record document and page # for future reference)	Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence
<p>The State has in place procedures to ensure the inclusion of all public elementary and secondary school students<sup>8</sup> with disabilities in the State’s assessment system. Decisions about how to assess students with disabilities must be made by a student’s IEP Team under IDEA, the placement team under Section 504, or the individual or team designated by a district to make that decision under Title II of the ADA, as applicable, based on each student’s individual abilities and needs.</p> <ul style="list-style-type: none"> <li>• <b>For ELP assessments</b>, policies that require the inclusion of an EL with a disability that precludes assessment of the student in one or more of the required domains (speaking, listening, reading, and writing) such that there are no appropriate accommodations for the affected component (the State must assess the student’s English language proficiency based on the remaining components in which it is possible to assess the student).</li> </ul>	<p>1.4 2017FLManual_10.27.17_final, p. 15, (DHH/VI); pp. 35-36 (do not score)</p> <p>1.4 FLAccessibilityandAccommodationsSupplement, pp. 4-6 (participation requirements)</p>	<p>3.3 Less than Four_FL2018, which was provided for Critical Element 3.3, indicates how it ensures students who have a disability that precludes assessment in one or more of the required domains/components (listening, speaking, reading, and writing) such that there are no appropriate accommodations for the affected domain(s)/component(s) are assessed in the remaining domain(s)/component(s) in which it is possible to assess the student; however, the state should provide evidence that the same is true for students taking the Alternate ACCESS.</p>

<sup>8</sup> For ELP peer review, this refers to ELs with disabilities.

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.

<b>Critical Element</b>	<b>Evidence (Record document and page # for future reference)</b>	<b>Comments/Notes/Questions/Suggestions Regarding State Documentation or Evidence</b>
<p>The State monitors test administration in its districts and schools to ensure that appropriate assessments, with or without accommodations, are selected for all students with disabilities and ELs so that they are appropriately included in assessments and receive accommodations that are:</p> <ul style="list-style-type: none"> <li>• Consistent with the State’s policies for accommodations;</li> <li>• Appropriate for addressing a student’s disability or language needs for each assessment administered;</li> <li>• Consistent with accommodations provided to the students during instruction and/or practice;</li> <li>• Consistent with the assessment accommodations identified by a student’s IEP Team under IDEA, placement team convened under Section 504; or for students covered by Title II of the ADA, the individual or team designated by a district to make these decisions; or another process for an EL;</li> <li>• Administered with fidelity to test administration procedures;</li> <li>• Monitored for administrations of all required ELP assessments, and AELPA.</li> </ul>	<p>2.4 Caveon Test Administration Monitoring Pilot</p> <p>5.4 Accommodation Concerns - provides FDOE responses to LEAs’ concerns regarding accommodations and gridding Do Not Score codes.</p>	<p><b>ACCESS and Alternate ACCESS</b></p> <p>The state provides two pieces of evidence – 2.4 Caveon Test Administration Monitoring Pilot and 5.4 Accommodations Concerns.</p> <p>The peers found these pieces of evidence insufficient to satisfy this critical element.</p> <p>5.4 Accommodations Concerns is merely an e-mail chain that describes how to handle a particular student; however, the peers do not believe this evidence addresses the monitoring requirement of this critical element.</p> <p>The state indicates that if the monitoring pilot is successful, it would expand its implementation. The peers believe the state should provide additional evidence of how and when the monitoring process would be fully implemented. The monitoring pilot was just for the Florida summative and the ACCESS but not the Alternate ACCESS.</p> <p>The state should provide evidence (e.g., a state monitoring plan) that it monitors test administration for special populations, making sure that each bullet in the critical element is addressed.</p> <p>The documentation for monitoring does not specifically address the selection and use of accommodations. The state should provide evidence to ensure that state monitors specifically consider accommodation use (process for selecting and using accommodations) and results from that monitoring.</p>

Peers would like additional information about how this is done for the Alternate ACCESS. The state should provide evidence of how this information is communicated to the field and to parents.</p> <p>The state should provide evidence of how information is provided to parents in a format accessible to parents with disabilities.</p> <p>The state should provide evidence that the reports released to parents include performance level descriptors.</p>

Consistent with the note on page 1, the evidence requested by the peer reviewers does not necessarily reflect the final set of additional evidence, if any, that a State may need to submit to demonstrate that its assessment system meets all of the critical elements for the assessment peer review. As a result, a State should refer to the letter to the State, including the list of additional evidence needed, if any, from the Department.
