CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

Instructions for Completing Consolidated State Application Accountability Workbook

By January 31, 2003, States must complete and submit to the Department this Consolidated State Application Accountability Workbook. We understand that some of the critical elements for the key principles may still be under consideration and may not yet be final State policy by the January 31 due date. States that do not have final approval for some of these elements or that have not finalized a decision on these elements by January 31 should, when completing the Workbook, indicate the status of each element which is not yet official State policy and provide the anticipated date by which the proposed policy will become effective. In each of these cases, States must include a timeline of steps to complete to ensure that such elements are in place by May 1, 2003, and implemented during the 2002-2003 school year. By no later than May 1, 2003, States must submit to the Department final information for all sections of the Consolidated State Application Accountability Workbook.

Transmittal Instructions

To expedite the receipt of this Consolidated State Application Accountability Workbook, please send your submission via the Internet as a .doc file, pdf file, rtf or .txt file or provide the URL for the site where your submission is posted on the Internet. Send electronic submissions to conapp@ed.gov.

A State that submits only a paper submission should mail the submission by express courier to:

Celia Sims
U.S. Department of Education
400 Maryland Ave., SW
Room 3W300

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

PART I: Summary of Required Elements for State Accountability Systems

Instructions

The following chart is an overview of States' implementation of the critical elements required for approval of their State accountability systems. States must provide detailed implementation information for each of these elements in Part II of this Consolidated State Application Accountability Workbook.

For each of the elements listed in the following chart, States should indicate the current implementation status in their State using the following legend:

- F:** State has a final policy, approved by all the required entities in the State (e.g., State Board of Education, State Legislature), for implementing this element in its accountability system.
- P:** State has a proposed policy for implementing this element in its accountability system, but must still receive approval by required entities in the State (e.g., State Board of Education, State Legislature).
- W:** State is still working on formulating a policy to implement this element in its accountability system.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

Summary of Implementation Status for Required Elements of State Accountability Systems

Status	State Accountability System Element
Principle 1: All Schools	
F	1.1 Accountability system includes <i>all schools and districts in the state</i> .
F	1.2 Accountability system holds <i>all schools to the same criteria</i> .
F	1.3 Accountability system incorporates the <i>academic achievement standards</i> .
F	1.4 Accountability system provides <i>information in a timely manner</i> .
F	1.5 Accountability system includes <i>report cards</i> .
F	1.6 Accountability system includes <i>rewards and sanctions</i> .
Principle 2: All Students	
F	2.1 The accountability system includes <i>all students</i>
F	2.2 The accountability system has a consistent definition of <i>full academic year</i> .
F	2.3 The accountability system properly includes <i>mobile students</i> .
Principle 3: Method of AYP Determinations	
F	3.1 Accountability system expects <i>all student subgroups, public schools, and LEAs to reach proficiency by 2013-14</i> .
F	3.2 Accountability system has a method for determining whether <i>student subgroups, public schools, and LEAs made adequate yearly progress</i> .
F	3.2a Accountability system establishes a <i>starting point</i> .
F	3.2b Accountability system establishes <i>statewide annual measurable objectives</i> .
F	3.2c Accountability system establishes <i>intermediate goals</i> .
Principle 4: Annual Decisions	
F	4.1 The accountability system <i>determines annually the progress</i> of schools and districts.

STATUS Legend:

F – Final state policy

P – Proposed policy, awaiting State approval (Approved by State Board, awaiting USDOE approval)

W – Working to formulate policy

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

Principle 5: Subgroup Accountability

F	5.1	The accountability system <i>includes all the required student subgroups</i> .
F	5.2	The accountability system holds <i>schools and LEAs accountable for the progress of student subgroups</i> .
F	5.3	The accountability system includes <i>students with disabilities</i> .
F	5.4	The accountability system includes <i>limited English proficient students</i> .
F	5.5	The State has determined the minimum number of students sufficient to yield statistically reliable information for each purpose for which disaggregated data are used.
F	5.6	The State has strategies to protect the privacy of individual students in reporting achievement results and in determining whether schools and LEAs are making adequate yearly progress on the basis of disaggregated subgroups.

Principle 6: Based on Academic Assessments

F	6.1	Accountability system is based <i>primarily on academic assessments</i> .
---	-----	---

Principle 7: Additional Indicators

F	7.1	Accountability system includes <i>graduation rate for high schools</i> .
F	7.2	Accountability system includes an <i>additional academic indicator for elementary and middle schools</i> .
F	7.3	Additional indicators are valid and reliable.

Principle 8: Separate Decisions for Reading/Language Arts and Mathematics

F	8.1	Accountability system holds students, schools and districts separately accountable for <i>reading/language arts and mathematics</i> .
---	-----	---

Principle 9: System Validity and Reliability

F	9.1	Accountability system produces <i>reliable decisions</i> .
F	9.2	Accountability system produces <i>valid decisions</i> .
F	9.3	State has a plan for addressing <i>changes in assessment and student population</i> .

Principle 10: Participation Rate

F	10.1	Accountability system has a means for calculating the <i>rate of participation</i> in the statewide assessment.
F	10.2	Accountability system has a means for <i>applying the 95% assessment criteria to student subgroups and small schools</i> .

STATUS Legend:

F – Final policy

P – Proposed Policy, awaiting State approval (Approved by State Board, awaiting USDOE approval)

W– Working to formulate policy

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

PART II: State Response and Activities for Meeting State Accountability System Requirements

Instructions

In Part II of this Workbook, States are to provide detailed information for each of the critical elements required for State accountability systems. States should answer the questions asked about each of the critical elements in the State's accountability system. States that do not have final approval for any of these elements or that have not finalized a decision on these elements by January 31, 2003, should, when completing this section of the Workbook, indicate the status of each element that is not yet official State policy and provide the anticipated date by which the proposed policy will become effective. In each of these cases, States must include a timeline of steps to complete to ensure that such elements are in place by May 1, 2003, and implemented during the 2002-2003 school year. By no later than May 1, 2003, States must submit to the Department final information for all sections of the Consolidated State Application Accountability Workbook.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

PRINCIPLE 1. A single statewide Accountability System applied to all public schools and LEAs.

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>1.1 How does the State Accountability System include every public school and LEA in the State?</p>	<p>Every public school and LEA is required to make adequate yearly progress and is included in the State Accountability System.</p> <p>State has a definition of “public school” and “LEA” for AYP accountability purposes.</p> <ul style="list-style-type: none"> • The State Accountability System produces AYP decisions for all public schools, including public schools with variant grade configurations (e.g., K-12), public schools that serve special populations (e.g., alternative public schools, juvenile institutions, state public schools for the blind) and public charter schools. It also holds accountable public schools with no grades assessed (e.g., K-2). 	<p>A public school or LEA is not required to make adequate yearly progress and is not included in the State Accountability System.</p> <p>State policy systematically excludes certain public schools and/or LEAs.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		

ORS 329.105 establishes a state report card for all schools and districts as the basis of a single statewide accountability system. All schools with resident students enrolled in grades K – 12 will receive school report cards and AYP designations.

Schools Without Benchmark Grades

The preliminary designation for the sending school will be the same preliminary designation as the single receiving school into which the largest group of students was promoted, as identified by the district.

During the appeals process, a district may request review of the preliminary AYP designation for the sending school using one of the alternatives listed below.

- The sending school’s attendance plus the results of third grade assessments, of only the students sent to the receiving school by the sending school, may be used to determine AYP. The sending school may choose to limit the identified students to those that attended the sending school for a full academic year. K-2 Targeted Assistance Schools may also elect to look only at the third grade assessment results of students served by the sending school for any groups designated as not making AYP in the preliminary determination.
- For Kindergarten-only schools: The results of assessments of foundation skills in reading and mathematics that are administered locally and are aligned with the Oregon Statewide Content Standards and have pre-determined, standard passing levels may be used to determine AYP. The Department of Education will provide assistance to districts in identifying and determining which Kindergarten assessments meet these criteria.

AYP Reports for New Schools

New schools will receive AYP ratings when they have operated for two years. High schools may have two years of assessment data (from 2003-2004 and 2004-2005) but only one year of graduation data (from 2003-2004, the most current data available). If the school has not administered state assessments in the first two years of operation, AYP determinations will be made based on feeder patterns (see below) or the first year the school administers state assessments. Districts must provide data for any school that does not administer benchmark assessments for which there is no clear feeder pattern. Preliminary AYP designations will be issued in each of these cases, and the Oregon Department of Education will work with districts to ensure that final AYP determinations for these schools are valid.

Very Small Schools and Districts

A number of small schools and districts may not meet minimum cell size requirements for participation, assessments, and attendance or graduation, even after combining four years of data. In these cases, districts and schools will provide additional data during the review period in order to determine a final AYP designation.

For additional assessment data, schools or districts can submit

- Two additional years OSA data
or
- Local assessments that assess student achievement of state content standards and are reported on a scale aligned with the Oregon Statewide Assessments. The Oregon Department of Education will assist schools and districts in identifying local assessments that meet these criteria.

For additional graduation and attendance data, schools or districts can submit

- Two additional years of attendance or graduation data to reach the minimum cell size or
- Data on other academic indicators approved by the Oregon Department of Education

If the school or district is still unable to meet the minimum cell size after applying one of the options above, then the school or district may waive the minimum required cell sizes and request an AYP determination with the additional data included. In this circumstance, academic AYP targets will be based on the margin of error for 42 students.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>1.2 How are all public schools and LEAs held to the same criteria when making an AYP determination?</p>	<p>All public schools and LEAs are systematically judged on the basis of the same criteria when making an AYP determination.</p> <p>If applicable, the AYP definition is integrated into the State Accountability System.</p>	<p>Some public schools and LEAs are systematically judged on the basis of alternate criteria when making an AYP determination.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>AYP determinations will be based on the composite score from statewide multiple choice assessments in reading knowledge and skills and math knowledge and skills.. Student scores in the meets and exceeds categories are considered proficient. All scores below meets are not proficient. To be counted as proficient, a student must meet the performance/achievement standard for a test taken at or above (“target up”) the student’s enrolled grade (See Element 5.3 for exceptions for the treatment of students with disabilities taking assessments of the alternate achievement standards.). http://www.ode.state.or.us/search/results/?id=223</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>1.3 Does the State have, at a minimum, a definition of <i>basic</i>, <i>proficient</i> and <i>advanced</i> student achievement levels in reading/language arts and mathematics?</p>	<p>State has defined three levels of student achievement: <i>basic</i>, <i>proficient</i> and <i>advanced</i>.¹</p> <p>Student achievement levels of <i>proficient</i> and <i>advanced</i> determine how well students are mastering the materials in the State's academic content standards; and the <i>basic</i> level of achievement provides complete information about the progress of lower-achieving students toward mastering the <i>proficient</i> and <i>advanced</i> levels.</p>	<p>Standards do not meet the legislated requirements.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Oregon identifies five levels of performance. "Exceeds Standard" indicates advanced achievement. "Meets Standard" indicates proficient achievement. Oregon uses three levels of basic performance to indicate progress towards proficiency: "Nearly Meets", "Low" and "Very Low".</p> <p>In March 2007, the State Board of Education adopted revisions to the achievement standards following a review process and public input. As a term of compliance with the federal peer review of the state's standards and assessment system, student performance relative to the adopted achievement standards will be reported to students, parents, and educators for the 2006-07 school year. Achievement standards and performance level descriptors can be found at the Achievement/Performance Standards webpage: http://www.ode.state.or.us/search/results/?id=223</p>		

¹ System of State achievement standards will be reviewed by the Standards and Assessments Peer Review. The Accountability Peer Review will determine that achievement levels are used in determining AYP.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>1.4 How does the State provide accountability and adequate yearly progress decisions and information in a timely manner?</p>	<p>State provides decisions about adequate yearly progress in time for LEAs to implement the required provisions before the beginning of the next academic year.</p> <p>State allows enough time to notify parents about public school choice or supplemental educational service options, time for parents to make an informed decision, and time to implement public school choice and supplemental educational services.</p>	<p>Timeline does not provide sufficient time for LEAs to fulfill their responsibilities before the beginning of the next academic year.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Oregon issues preliminary report cards by the first week in August and Final report cards by the first week in September based on tests from the previous academic year. Oregon administers tests throughout the year and returns individual results as soon after testing as possible. Online assessment results are available immediately after testing. Knowledge and skills tests administered on paper are returned in six weeks.. School and LEA results are aggregated over the summer and summaries are published as they are ready.</p> <p>All schools and LEA’s will be notified of their preliminary AYP status by early August, which is before the start of school in September. However, that will permit schools who fail to meet AYP two or more years in a row to offer school choice or make other required responses before school begins in the fall. If the determination is that a school has not met AYP for the second year in a row and an appeal cannot be resolved before school starts, the school will provide choice (or other required actions as appropriate if the school has not met AYP for more than two years) based on the preliminary determination. If the final resolution of the appeal leads to the determination the AYP was met, the school will continue to provide transportation for the remainder of the school year. Final AYP determinations are made public prior to the start of school in September.</p> <p>Additionally, the state provides schools and LEAs with “pre-preliminary” AYP reports based on available assessment results and other indicator data beginning in mid-June to facilitate data correction and school and LEA planning efforts.</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>1.5 Does the State Accountability System produce an annual State Report Card?</p>	<p>The State Report Card includes all the required data elements [see Appendix A for the list of required data elements].</p> <p>The State Report Card is available to the public at the beginning of the academic year.</p> <p>The State Report Card is accessible in languages of major populations in the State, to the extent possible.</p> <p>Assessment results and other academic indicators (including graduation rates) are reported by student subgroups</p>	<p>The State Report Card does not include all the required data elements.</p> <p>The State Report Card is not available to the public.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>ORS 329.105 requires the state to produce report cards for schools and districts annually. The cards for each school and LEA are available on our public website and paper copies are sent to each LEA. LEAs must distribute the report cards to all parents by a specific date. Report cards are available in English and Spanish (The two major languages spoken in Oregon.). The following URL is a link to the current report cards: http://www.ode.state.or.us/data/reportcard/reports.aspx</p> <p>In March 2007, the State Board adopted an amendment to Oregon Administrative Rule 581-022-1060 requiring districts to distribute report cards no later than the December 15th following the October publication of the report cards on the web.</p> <p>ORS 329.115 requires the Department of Education to produce a State Report Card Annually. The report card incorporates requirements of state law and NCLB and is available to the public on the web at: http://www.ode.state.or.us/search/results/?id=126</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>1.6 How does the State Accountability System include rewards and sanctions for public schools and LEAs?²</p>	<p>State uses one or more types of rewards and sanctions, where the criteria are:</p> <ul style="list-style-type: none"> • Set by the State; • Based on adequate yearly progress decisions; and, • Applied uniformly across public schools and LEAs. 	<p>State does not implement rewards or sanctions for public schools and LEAs based on adequate yearly progress.</p>
STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS		
<p>All schools that fail to meet AYP will be required to submit a plan of correction that indicates how state and federal funds provided to the school will be used to improve performance of subgroups not making AYP. This plan will be integrated into the current statutory requirement for Consolidated District Improvement Plans (CDIP; ORS 329.095). Title I schools will also face the sanctions defined by NCLB for not meeting AYP two years in a row or more.</p> <p><u>Identifying Title I schools and districts for improvement.</u> Continued AYP failure is predicated on repeated failure relative to a specific content area. A school or district that does not meet participation and/or performance targets in a content area in year 1 and again does not meet targets in the same area in year 2 would be classified as “in improvement status”. Likewise, for a school or district to be identified as in school improvement based on “other indicator” performance, failure to meet the state target for the other indicator must occur in two consecutive years. In other words, to be designated as needing improvement, a school or district must not meet AYP in English/language arts for two consecutive years, in math for two consecutive years, in both subjects simultaneously for two consecutive years, or relative to the other indicator for two consecutive years.</p> <p>For example, if in year 1 a school does not meet the language arts targets, but meets the math attendance targets and in year 2 the school meets the language arts targets, the school would <u>not</u> be classified as needing improvement (whether or not the school meets the targets for math and attendance in year 2). If in year 1 a district does not meet the graduation target, but meets the math and English /language arts targets and in year 2 the district does not meet the graduation and math targets but meets the English /language arts targets, the district would be classified as needing improvement since the graduation target was not met two years in a row.</p> <p>A district (LEA) will be identified for improvement only when all three grade spans (3-5, 6-8, 9-12) fail AYP in the same subject for two consecutive years. If a district does not meet the minimum n of 42 test scores over two years at any grade span, AYP will be calculated and reported using all grade spans combined. In addition, AYP will be calculated and reported using all grade spans combined for all districts that are comprised of a single school.</p> <p>All schools that show exceptional achievement will be rewarded through the Blue Ribbon Schools Program. Title I schools that show exceptional achievement will also be rewarded by the Title I Distinguished Schools Program. As the State economy improves, the Oregon Department of Education will examine further opportunities to provide financial rewards to the outstanding schools and districts.</p>		

² The state must provide rewards and sanctions for all public schools and LEAs for making adequate yearly progress, except that the State is not required to hold schools and LEAs not receiving Title I funds to the requirements of section 1116 of NCLB [§200.12(b)(40)].

PRINCIPLE 2. All students are included in the State Accountability System.

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>2.1 How does the State Accountability System include all students in the State?</p>	<p>All students in the State are included in the State Accountability System.</p> <p>The definitions of “public school” and “LEA” account for all students enrolled in the public school district, regardless of program or type of public school.</p>	<p>Public school students exist in the State for whom the State Accountability System makes no provision.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Oregon statute defines LEA or “school district” (ORS 332.002; ORS 332.007; ORS 332.072). Policy on schools are defined in the following document: http://www.ode.state.or.us/pubs/instID/institutions-definitions-081506.pdf</p> <p>The school definition document established an institution ID system that is used as the basis of the state’s accountability system.</p> <p>All students enrolled in the state on the first school day in May are included in accountability reports based on the resident district and school of the student reported in the Spring Membership Collection. The resident district is defined as the district responsible for the education of the student and also is the basis on which the State School Fund, the Common School Fund, and the County School Fund are distributed to local districts.</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>2.2 How does the State define “full academic year” for identifying students in AYP decisions?</p>	<p>The State has a definition of “full academic year” for determining which students are to be included in decisions about AYP.</p> <p>The definition of full academic year is consistent and applied statewide.</p>	<p>LEAs have varying definitions of “full academic year.”</p> <p>The State’s definition excludes students who must transfer from one district to another as they advance to the next grade.</p> <p>The definition of full academic year is not applied consistently.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Oregon defines “full academic year” to be more than half the number of instructional days in the school’s calendar prior to May 1 (the date of enrollment used for determining the participation denominator). Oregon sets standards for instructional time in terms of hours and sets separate numbers of required hours at different grade levels. The above definition can be applied consistently across all schools.</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING STATUTORY REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>2.3 How does the State Accountability System determine which students have attended the same public school and/or LEA for a full academic year?</p>	<p>State holds public schools accountable for students who were enrolled at the same public school for a full academic year.</p> <p>State holds LEAs accountable for students who transfer during the full academic year from one public school within the district to another public school within the district.</p>	<p>State definition requires students to attend the same public school for more than a full academic year to be included in public school accountability.</p> <p>State definition requires students to attend school in the same district for more than a full academic year to be included in district accountability.</p> <p>State holds public schools accountable for students who have not attended the same public school for a full academic year.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>LEAs must keep that information to report summary data for our school funding formula. Therefore, the state will report results on all students tested and ask LEAs to identify students who should be excluded from AYP calculations because they were not enrolled for at least a half year.</p>		

PRINCIPLE 3. State definition of AYP is based on expectations for growth in student achievement that is continuous and substantial, such that all students are proficient in reading/language arts and mathematics no later than 2013-2014.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>3.1 How does the State's definition of adequate yearly progress require all students to be proficient in reading/language arts and mathematics by the 2013-2014 academic year?</p>	<p>The State has a timeline for ensuring that all students will meet or exceed the State's proficient level of academic achievement in reading/language arts³ and mathematics, not later than 2013-2014.</p>	<p>State definition does not require all students to achieve proficiency by 2013-2014.</p> <p>State extends the timeline past the 2013-2014 academic year.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>On May 16, 2002, the State Board adopted the ESEA performance goals including Goal 1, which sets 2013-14 as the year by which all students will meet proficiency standards in reading/language arts and mathematics.</p>		

³ If the state has separate assessments to cover its language arts standards (e.g., reading and writing), the State must create a method to include scores from all the relevant assessments.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>3.2 How does the State Accountability System determine whether each student subgroup, public school and LEA makes AYP?</p>	<p>For a public school and LEA to make adequate yearly progress, each student subgroup must meet or exceed the State annual measurable objectives, each student subgroup must have at least a 95% participation rate in the statewide assessments, and the school must meet the State's requirement for other academic indicators.</p> <p>However, if in any particular year the student subgroup does not meet those annual measurable objectives, the public school or LEA may be considered to have made AYP, if the percentage of students in that group who did not meet or exceed the proficient level of academic achievement on the State assessments for that year decreased by 10% of that percentage from the preceding public school year; that group made progress on one or more of the State's academic indicators; and that group had at least 95% participation rate on the statewide assessment.</p>	<p>State uses different method for calculating how public schools and LEAs make AYP.</p>

STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS

Oregon will establish a series of annual targets that apply to all groups (state, district, school and subgroups) The targets can be displayed as two tables (one for reading/language arts and one for mathematics) with a column for each year from 2002 to 2014 and a row for each subgroup (total, students with disabilities, limited English proficiency, poverty, and six ethnic/racial groups). A growth target for each subgroup will be defined as 1/12th of the difference between the 2014 target of 100% and the 2002 starting point. (The annual targets are displayed at the end of this document.)

A school may meet AYP if the percent meeting for each subgroup is within the 99% confidence interval of the target or the percent not meeting was reduced by 10% from the previous year (safe harbor). The additional indicator (graduation rate for high schools and attendance for middle and elementary schools) must also meet or exceed the minimum standard and at least 95% of the students must be tested.

Oregon's online testing system (TESA) provides multiple assessment opportunities during a year. Each administration will present students with a separate test made up of a new set of items. Every test is aligned with and scored against the standards set for the end of the student's grade. If a student meets the standard on any administration prior to the official administration date in the spring, that student will be counted as meeting standard for purposes of calculating AYP.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>3.2a What is the State's starting point for calculating Adequate Yearly Progress?</p>	<p>Using data from the 2001-2002 school year, the State established separate starting points in reading/language arts and mathematics for measuring the percentage of students meeting or exceeding the State's proficient level of academic achievement.</p> <p>Each starting point is based, at a minimum, on the higher of the following percentages of students at the proficient level: (1) the percentage in the State of proficient students in the lowest-achieving student subgroup; or, (2) the percentage of proficient students in a public school at the 20th percentile of the State's total enrollment among all schools ranked by the percentage of students at the proficient level.</p> <p>A State may use these procedures to establish separate starting points by grade span; however, the starting point must be the same for all like schools (e.g., one same starting point for all elementary schools, one same starting point for all middle schools...).</p>	<p>The State Accountability System uses a different method for calculating the starting point (or baseline data).</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>As described in the answer to 3.2 above, targets are set separately for reading/language arts and for mathematics. Targets are set for each year and subgroup as shown in the table on the last page of the workbook, and they apply to all schools, LEAs and to the state.</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>3.2b What are the State's annual measurable objectives for determining adequate yearly progress?</p>	<p>State has annual measurable objectives that are consistent with a state's intermediate goals and that identify for each year a minimum percentage of students who must meet or exceed the proficient level of academic achievement on the State's academic assessments.</p> <p>The State's annual measurable objectives ensure that all students meet or exceed the State's proficient level of academic achievement within the timeline.</p> <p>The State's annual measurable objectives are the same throughout the State for each public school, each LEA, and each subgroup of students.</p>	<p>The State Accountability System uses another method for calculating annual measurable objectives.</p> <p>The State Accountability System does not include annual measurable objectives.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>As described in the answer to 3.2 above, targets are set separately for reading/language arts and for mathematics. Targets are set for each year and subgroup as shown in the table on the last page of the workbook, and they apply to all schools, LEAs and to the state.</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>3.2c What are the State's intermediate goals for determining adequate yearly progress?</p>	<p>State has established intermediate goals that increase in equal increments over the period covered by the State timeline.</p> <ul style="list-style-type: none"> •The first incremental increase takes effect not later than the 2004-2005 academic year. •Each following incremental increase occurs within three years. 	<p>The State uses another method for calculating intermediate goals.</p> <p>The State does not include intermediate goals in its definition of adequate yearly progress.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Oregon will establish reading/language arts and mathematics intermediate goals for all schools and LEAs that increase in equal increments over the 12-year timeline. There will be five intermediate goals (2005, 2008, 2011, 2012, and 2013) as shown in the table on the last page of the workbook.</p>		

PRINCIPLE 4. State makes annual decisions about the achievement of all public schools and LEAs.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF <i>NOT</i> MEETING REQUIREMENTS
<p>4.1 How does the State Accountability System make an annual determination of whether each public school and LEA in the State made AYP?</p>	<p>AYP decisions for each public school and LEA are made annually.⁴</p>	<p>AYP decisions for public schools and LEAs are not made annually.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>ORS 329.105 establishes an annual report card to assess the effectiveness of schools and LEAs. This report card is the basis of our accountability system and we will continue to determine effectiveness as defined by AYP annually.</p> <p>ODE will calculate AYP for the overall school/district for each subgroup first based on an average of two years of data when there are a sufficient number of tests. If two years of data does not provide a sufficient number of tests for the overall school/district, ODE will use up to four years of data. If an overall school/district or subgroup is determined to have a sufficient number of tests, and does not meet AYP via the 2 or 4 years, ODE will calculate AYP based on the most recent year of test data. However, in these circumstances, ODE will use the margin of error established for the two years of data to ensure that the rigor of AYP determinations is not reduced.</p> <p>For extremely small schools, additional years of data may be included on a case by case basis as required to evaluate AYP.</p>		

⁴ Decisions may be based upon several years of data and data may be averaged across grades within a public school [§1111(b)(2)(J)].

PRINCIPLE 5. All public schools and LEAs are held accountable for the achievement of individual subgroups.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF <i>NOT</i> MEETING REQUIREMENTS
<p>5.1 How are students with disabilities included in the State’s definition of adequate yearly progress?</p>	<p>All students with disabilities participate in statewide assessments: general assessments with or without accommodations or an alternate assessment based on grade level standards for the grade in which students are enrolled.</p> <p>State demonstrates that students with disabilities are fully included in the State Accountability System.</p>	<p>The State Accountability System or State policy excludes students with disabilities from participating in the statewide assessments.</p> <p>State cannot demonstrate that alternate assessments measure grade-level standards for the grade in which students are enrolled.</p>

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

<p>5.5 What is the State's definition of the minimum number of students in a subgroup required for reporting purposes? For accountability purposes?</p>	<p>State defines the number of students required in a subgroup for reporting and accountability purposes, and applies this definition consistently across the State.⁵</p> <p>Definition of subgroup will result in data that are statistically reliable.</p>	<p>State does not define the required number of students in a subgroup for reporting and accountability purposes.</p> <p>Definition is not applied consistently across the State.</p> <p>Definition does not result in data that are statistically reliable.</p>
---	---	--

STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS

In reviewing the variance of our tests and the reliability of decisions based on percent of students proficient, we have determined that a minimum of 42 scores will result in adequate statistical reliability and sufficient inclusion of schools and subgroups. Oregon will combine scores from two years to make annual determination of AYP. In addition, if an overall school/district or subgroup is determined to have in the current year a minimum of 21 scores, and does not meet AYP via the 2 or 4 year average years, ODE will calculate AYP based on the most recent year of test data.

As stated in Section 5.6, Oregon policy is to suppress reporting of groups smaller than six students.

Oregon has been collaborating with Brian Gong and Richard Hill of the Center For Assessment. We are currently conducting analyses using the methods outlined by Richard Hill and Charles DePascale (http://www.nciea.org/publications/CCSSO02_Reliability_RHCD03.pdf) These methods will allow us to estimate the reliability of the AYP determination over time. If we find that the reliability of the AYP model is sufficient to allow a smaller minimum, we will amend our proposal. Similarly, if statistical reliability requires more scores, we will raise the minimum N. These analyses will be conducted annually.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
------------------	-----------------------------------	--------------------------------------

⁵ The minimum number is not required to be the same for reporting and accountability.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

<p>5.6 How does the State Accountability System protect the privacy of students when reporting results and when determining AYP?</p>	<p>Definition does not reveal personally identifiable information.⁶</p>	<p>Definition reveals personally identifiable information.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Oregon policy is to suppress reporting of groups smaller than six students (http://www.ode.state.or.us/data/reportcard/docs/rcpolicymanual0607.pdf). We will continue that policy to protect the privacy of individual students. Schools or subgroups that have 99% or 100% of students meeting standard will be reported as “99% or above” to protect the privacy of students where all meet the standard.</p>		

⁶ The Family Education Rights and Privacy Act (FERPA) prohibits an LEA that receives Federal funds from releasing, without the prior written consent of a student’s parents, any personally identifiable information contained in a student’s education record.

PRINCIPLE 6. State definition of AYP is based primarily on the State’s academic assessments.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>6.1 How is the State’s definition of adequate yearly progress based primarily on academic assessments?</p>	<p>Formula for AYP shows that decisions are based primarily on assessments.⁷</p> <p>Plan clearly identifies which assessments are included in accountability.</p>	<p>Formula for AYP shows that decisions are based primarily on non-academic indicators or indicators other than the State assessments.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>AYP determinations include the state’s reading and mathematics multiple choice knowledge and skills assessments from grades 3-8 and High School. The only other factors will be the additional indicators of graduation rate and attendance.</p> <p>High School grade of accountability is described in Section 5.1</p>		

⁷ State Assessment System will be reviewed by the Standards and Assessments Peer Review Team.

PRINCIPLE 7. State definition of AYP includes graduation rates for public High schools and an additional indicator selected by the State for public Middle and public Elementary schools (such as attendance rates).

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>7.1 What is the State definition for the public high school graduation rate?</p>	<p>State definition of graduation rate:</p> <ul style="list-style-type: none"> • Calculates the percentage of students, measured from the beginning of the school year, who graduate from public high school with a regular diploma (not including a GED or any other diploma not fully aligned with the state’s academic standards) in the standard number of years; or, • Uses another more accurate definition that has been approved by the Secretary; and • Must avoid counting a dropout as a transfer. <p>Graduation rate is included (in the aggregate) for AYP, and disaggregated (as necessary) for use when applying the exception clause⁸ to make AYP.</p>	<p>State definition of public high school graduation rate does not meet these criteria.</p>

⁸ See USC 6311(b)(2)(I)(i), and 34 C.F.R. 200.20(b)

STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS

The state target for making AYP on the graduation indicator will be 65% for AYP reports based on assessments administered in the 2009-10 school year. Targets for future reporting years are provided in the appendix.

The graduation rate is calculated using a four-year cohort graduation rate, approved by U.S. Department of Education peer review.

Denominator: All first-time 9th graders at the institution in 2005-06, plus those students who transferred into the institution during 2005-06 through 2008-09, minus those students who transferred to another diploma granting institution in the United States, emigrated, or died during the 2005-06 through 2008-09 school years.

Numerator: Among those students in the denominator, the number of students earning a standard diploma in the school years 2005-06 through 2008-09, and the summer session following the 2008-09 school year.

For AYP reports based on assessments administered in the 2009-10 school year, Oregon will continue to report the previously approved NCES graduation rate formula. The target for this rate is 68.1% over two years combined or in the most current year. The previously approved graduation rate is calculated using a one-year version of the modified NCES graduation rate formula:

$$\frac{\text{Graduates}}{\text{Graduate} + \text{Dropouts}}$$

Where **Graduates** is the number of students who graduated with a standard diploma in the school year and following summer school session in the standard number of years, and **Dropouts** is the number of students dropping out of grades 9-12 in the school year in accordance with the NCES dropout definition.

Schools that do not meet the target for the four-year cohort rate can meet AYP by meeting the target for the NCES rate.

For AYP reports based on assessments administered in the 2010-11 school year and beyond Oregon will also report a five-year cohort graduation rate adhering to the U.S. Department of Education guidance and regulations. The state target for the five-year rate will be 70% on AYP reports based on assessments administered in the 2010-11 school year. Targets for future reporting years are provided in the appendix.

The formula for the rate produced in 2010-11 shall be as follows.

Denominator: All first-time 9th graders at the institution in 2005-06, plus those students who transferred into the institution during 2005-06 through 2009-10, minus those students who transferred to another diploma granting institution in the United States, emigrated, or died during the 2005-06 through 2009-10 school years.

Numerator: Among those students in the denominator, the number of students earning a standard diploma in the school years 2005-06 through 2009-10, and the summer session following the 2009-10 school year.

Schools and subgroups that do not meet the target for the four-year cohort rate can meet AYP by either

1. Reducing the percent of students not graduating on the four-year cohort graduation rate by at least ten percent from the prior year four-year cohort graduation rate (safe harbor); or
2. Meeting the (five-year rate) target for the five-year cohort graduation rate.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

Notes on data sources: Graduation, early leaver, and dropout data are collected at the student level. Each record used to determine a student's final outcome contains a place where the school can indicate race/ethnicity and gender. Special Education, LEP and economically disadvantaged status will come from the Special Education Child Counts, Limited English Proficiency collection and the Spring Membership collection, respectively.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>7.2 What is the State's additional academic indicator for public elementary schools for the definition of AYP? For public middle schools for the definition of AYP?</p>	<p>State defines the additional academic indicators, e.g., additional State or locally administered assessments not included in the State assessment system, grade-to-grade retention rates or attendance rates.⁹</p> <p>An additional academic indicator is included (in the aggregate) for AYP, and disaggregated (as necessary) for use when applying the exception clause to make AYP.</p>	<p>State has not defined an additional academic indicator for elementary and middle schools.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Oregon will use attendance as the additional academic indicator for elementary and middle schools. This indicator is a required element in our current report card system (ORS 329.105). We will use the currently established standard for adequate attendance for the report card of 92% over two years combined or in the most current year as the criterion for making AYP. Attendance rates for 2009-10 and later are calculated based on attendance from the beginning of the school year through the first school day in May.</p>		

⁹ NCLB only lists these indicators as examples.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF <i>NOT</i> MEETING REQUIREMENTS
<p>7.3 Are the State's academic indicators valid and reliable?</p>	<p>State has defined academic indicators that are valid and reliable.</p> <p>State has defined academic indicators that are consistent with nationally recognized standards, if any.</p>	<p>State has an academic indicator that is not valid and reliable.</p> <p>State has an academic indicator that is not consistent with nationally recognized standards.</p> <p>State has an academic indicator that is not consistent within grade levels.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>As previously noted, Oregon uses the additional academic indicators in our current accountability system. The selection of the indicators was based on a review of research and of systems that had been working in other states prior to Oregon's decision to include them in 1999. We have established reliable methods of data collection and review. In our experience, these indicators are valid for the purpose of assessing the effectiveness of schools and districts.</p>		

PRINCIPLE 8. AYP is based on reading/language arts and mathematics achievement objectives.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>8.1 Does the state measure achievement in reading/language arts and mathematics separately for determining AYP?</p>	<p>State AYP determination for student subgroups, public schools and LEAs separately measures reading/language arts and mathematics.¹⁰</p> <p>AYP is a separate calculation for reading/language arts and mathematics for each group, public school, and LEA.</p>	<p>State AYP determination for student subgroups, public schools and LEAs averages or combines achievement across reading/language arts and mathematics.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Separate determinations will be made for reading/language arts and mathematics. Only assessments that have met the requirements of the most recent peer review of the state’s standards and assessments will be used in calculating AYP determinations. AYP determinations include the state’s reading and mathematics multiple choice knowledge and skills assessments from grades 3-8 and High School.</p> <p>High school grade of accountability is described in section 5.1.</p>		

¹⁰ If the state has more than one assessment to cover its language arts standards, the State must create a method for including scores from all the relevant assessments.

PRINCIPLE 9. State Accountability System is statistically valid and reliable.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>9.1 How do AYP determinations meet the State's standard for acceptable reliability?</p>	<p>State has defined a method for determining an acceptable level of reliability (decision consistency) for AYP decisions.</p> <p>State provides evidence that decision consistency is (1) within the range deemed acceptable to the State, and (2) meets professional standards and practice.</p> <p>State publicly reports the estimate of decision consistency, and incorporates it appropriately into accountability decisions.</p> <p>State updates analysis and reporting of decision consistency at appropriate intervals.</p>	<p>State does not have an acceptable method for determining reliability (decision consistency) of accountability decisions, e.g., it reports only reliability coefficients for its assessments.</p> <p>State has parameters for acceptable reliability; however, the actual reliability (decision consistency) falls outside those parameters.</p> <p>State's evidence regarding accountability reliability (decision consistency) is not updated.</p>
<p>STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS</p>		
<p>Oregon has been collaborating with Brian Gong and Richard Hill of the Center For Assessment. We are currently conducting analyses using the methods outlined by Richard Hill and Charles DePascale (http://www.nciea.org/publications/CCSSO02_Reliability_RHCD03.pdf) Our projections reveal that this proposal will provide as reliable and inclusive formula as possible under the law.</p> <p>The analyses we are currently conducting will allow us to estimate the reliability of our model for determining AYP. We will review our results each year with both our in-state advisory groups and a national technical advisory panel.</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
9.2 What is the State's process for making valid AYP determinations?	State has established a process for public schools and LEAs to appeal an accountability decision.	State does not have a system for handling appeals of accountability decisions.

STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS

The state generally releases 3 versions of the AYP reports: Pre-Preliminary, Preliminary and Final AYP in an attempt to allow districts ample opportunity to review and correct their reports. If errors are found ODE releases corrected versions.

New schools will be held accountable as soon as sufficient data points are available. Two years of data are used to determine if a school has met the annual objective. For established schools, two years data are also used to determine growth. Students enrolled in newly reconstituted schools will be included in LEA accountability. State policy is that if enrollment of a school changes by more than 40% due to boundary changes, it is considered a new school. Assessment data will be reported on new schools the first year.

Oregon receives appeals of AYP determinations in August after preliminary AYP is released. An Accountability Advisory group comprised of knowledgeable district stakeholders reviews the appeals and reaches consensus recommendations as to the dispensation of the requests. Approved appeals are incorporated into the data used to make final AYP determinations.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
9.3 How has the State planned for incorporating into its definition of AYP anticipated changes in assessments?	<p>State has a plan to maintain continuity in AYP decisions necessary for validity through planned assessment changes, and other changes necessary to comply fully with NCLB.¹¹</p> <p>State has a plan for including new public schools in the State</p>	<p>State's transition plan interrupts annual determination of AYP.</p> <p>State does not have a plan for handling changes: e.g., to its assessment system, or the addition of new public schools.</p>

¹¹ Several events may occur which necessitate such a plan. For example, (1) the State may need to include additional assessments in grades 3-8 by 2005-2006; (2) the State may revise content and/or academic achievement standards; (3) the State may need to recalculate the starting point with the addition of new assessments; or (4) the State may need to incorporate the graduation rate or other indicators into its State Accountability System. These events may require new calculations of validity and reliability.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF <i>NOT</i> MEETING REQUIREMENTS
	<p>Accountability System.</p> <p>State has a plan for periodically reviewing its State Accountability System, so that unforeseen changes can be quickly addressed.</p>	
STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS		
<p>Oregon owns all the items used in our assessments. As the assessment system is adjusted Oregon will either calibrate items on the existing scale unless for some reason it is determined that such an approach isn't warranted. At that point, we would engage our stakeholders and Technical Advisory Team in an expedited discussion of options.</p> <p>New schools will be held accountable as soon as sufficient data points are available. Two years of data are used to determine if a school has met the annual objective. For established schools, two years data are also used to determine growth. Students enrolled in newly reconstituted schools will be included in LEA accountability. State policy is that if enrollment of a school changes by more than 40% due to boundary changes, it is considered a new school. Assessment data will be reported on new schools the first year.</p>		

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

PRINCIPLE 10. In order for a public school or LEA to make AYP, the State ensures that it assessed at least 95% of the students enrolled in each subgroup.

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
<p>10.1 What is the State's method for calculating participation rates in the State assessments for use in AYP determinations?</p>	<p>State has a procedure to determine the number of absent or untested students (by subgroup and aggregate).</p> <p>State has a procedure to determine the denominator (total enrollment) for the 95% calculation (by subgroup and aggregate).</p> <p>Public schools and LEAs are held accountable for reaching the 95% assessed goal.</p>	<p>The state does not have a procedure for determining the rate of students participating in statewide assessments.</p> <p>Public schools and LEAs are not held accountable for testing at least 95% of their students.</p>

STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS

AYP calculations will be made with total enrollment in the required grades on the first school day in May as the denominator (as described in Section 5.1). Any student without a valid test score from an assessment at or above the student's enrolled grade will be counted as a non-participant. Non-participation includes:

- Students who were absent from testing and students whose parents refused to allow them to participate (under conditions specified by OAR 581-022-1910 or OAR 581-022-0611)
- Students with test scores resulting from invalid test administrations.
- Students taking modified test administrations
- Students taking an assessment of the state's academic content standards below the enrolled grade of the student
- Students enrolled in grade 8 or lower who take the high school assessment and do not take the state assessment corresponding to the student's grade level
- Students who do not have a sufficient number of responses to generate a valid score (less than 5 items for Online tests and less than 10 items for paper and pencil tests) The standard is 95% participation. Students counted as non-participants will not be included in the calculation of percent proficient.

Districts, schools, and disaggregated groups may meet the participation target if the participation rate in either the most current year exceeds the state target or if the combined participation rate exceeds the state target.

The combined participation rate is:
$$\frac{\text{StudentsTested}_{\text{PriorYr}} + \text{StudentsTested}_{\text{CurrentYr}}}{\text{StudentsEnrolled}_{\text{PriorYr}} + \text{StudentsEnrolled}_{\text{CurrentYr}}}$$

Students will be omitted from the participation rate calculation when such students cannot take the State assessment during the school's entire testing window, including the make-up dates, because of a significant medical emergency. School systems will maintain appropriate documentation that such students have been determined by a medical practitioner to be incapacitated to the extent they are unable to participate in the appropriate State assessment.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

CRITICAL ELEMENT	EXAMPLES FOR MEETING REQUIREMENTS	EXAMPLES OF NOT MEETING REQUIREMENTS
10.2 What is the State's policy for determining when the 95% assessed requirement should be applied?	State has a policy that implements the regulation regarding the use of 95% allowance when the group is statistically significant according to State rules.	State does not have a procedure for making this determination.
STATE RESPONSE AND STATE ACTIVITIES FOR MEETING REQUIREMENTS		
Since schools and LEAs are accountable for the achievement of all students, the participation rate requirement applies to all schools and LEAs.		

Appendix A

Required Data Elements for State Report Card

1111(h)(1)(C)

1. Information, in the aggregate, on student achievement at each proficiency level on the State academic assessments (disaggregated by race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged, except that such disaggregation shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student.
2. Information that provides a comparison between the actual achievement levels of each student subgroup and the State's annual measurable objectives for each such group of students on each of the academic assessments.
3. The percentage of students not tested (disaggregated by the student subgroups), except that such disaggregation shall not be required in a case in which the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student.
4. The most recent 2-year trend in student achievement in each subject area, and for each grade level, for the required assessments.
5. Aggregate information on any other indicators used by the State to determine the adequate yearly progress of students in achieving State academic achievement standards disaggregated by student subgroups.
6. Graduation rates for secondary school students disaggregated by student subgroups.

CONSOLIDATED STATE APPLICATION ACCOUNTABILITY WORKBOOK

7. Information on the performance of local educational agencies in the State regarding making adequate yearly progress, including the number and names of each school identified for school improvement under section 1116.

8. The professional qualifications of teachers in the State, the percentage of such teachers teaching with emergency or provisional credentials, and the percentage of classes in the State not taught by highly qualified teachers, in the aggregate and disaggregated by high-poverty compared to low-poverty schools which (for this purpose) means schools in the top quartile of poverty and the bottom quartile of poverty in the State.
