July 1, 2003

Honorable Steven O. Laing
Superintendent of Public Instruction
Utah State Office of Education
PO Box 144200
250 East 500 South
Salt Lake City, Utah 84114-4200

Dear Superintendent Laing:

This is to inform you that we have received Utah’s Eligibility Document Submission for Federal Fiscal Year (FFY) 2003 under Part B of the Individuals with Disabilities Education Act (IDEA) submitted by Utah to the Office of Special Education Programs (OSEP) on May 8, 2003. Based on these documents and Utah’s eligibility documentation that OSEP fully approved about July 1, 2001, your grant awards are enclosed.

Please note that as part of your Eligibility Document Submission for FFY 2003, your State has made an assurance, under 34 CFR §80.11(c), that it will comply with all applicable Federal statutes and regulations in effect with respect to the periods for which it receives grant funding. Any changes made by the State, after OSEP approval, to information that is a part of a State’s eligibility documentation, must meet the public participation requirements of the IDEA and must be approved by OSEP before implementation.

The Utah FFY 2003 IDEA Part B grant awards are being released subject to FFY 2003 Special Conditions, as set forth in Enclosure C, that are being imposed pursuant to the Department’s authority in 34 CFR §80.12. Specifically, OSEP determined that Utah is not developing and administering alternate assessments and reporting publicly and to the Secretary on the participation and performance of children with disabilities in State and district-wide assessments, including alternate assessments, as required at 20 U.S.C. 1412(a)(17) and 34 CFR §300.139(a)(2).

The Biennial Performance Report for Part B of the IDEA for grant years 1999-2000 and 2000-2001 was due on May 31, 2002. Among other information, the Biennial Performance Report required that States submit information regarding children with disabilities’ participation in and performance on Statewide assessments. 34 CFR §300.138 requires that children with disabilities participate in general State and district-wide assessment programs with appropriate accommodations and modifications in administration, if necessary. In addition, States are required to develop alternate assessments for those children with disabilities who cannot participate in State and district-wide assessment programs, even with appropriate accommodations and modifications in administration. States also must report on the progress of children with disabilities in the State toward meeting the established performance goals and indicators for children with disabilities on assessment, dropout rates and graduation rates, at a minimum (34 CFR §300.137).
The requirements that States establish performance goals and indicators on performance of children with disabilities on assessments, drop-out rates and graduation rates and report publicly and to the Secretary every two years on the progress of the State and of children with disabilities within the State toward meeting those goals, ensure that children with disabilities participate in State and district-wide assessment systems; develop and administer alternate assessments, if necessary; and report publicly on the participation and performance of children with disabilities in State and district-wide assessments are crucial to ensuring that children with disabilities are provided access to high-quality instruction in the general curriculum, and that States and districts are held accountable for the progress of these children. 20 U.S.C. 1412(a)(16)-(17); 34 CFR §§300.137-300.139. The requirements regarding the participation of children with disabilities in, and reporting on participation and performance of children with disabilities in regular assessments have been in effect since July 1, 1998; the same requirements regarding alternate assessments have been in effect since July 1, 2000. The information reported to the Department in Utah’s Biennial Performance Report for the 2000-2001 school year demonstrated that Utah had not developed and was not administering alternate assessments that covered the same areas as other children were assessed on and thus was not reporting on the participation and performance of children with disabilities in alternate assessments in the same frequency and detail as for nondisabled children, as required by Part B. In particular, Utah’s alternate assessment does not assess performance on science, although other students are assessed in that area.

Your State’s failure to develop and administer alternate assessments and report on the participation and performance of children with disabilities in alternate assessments resulted in the Department imposing the FFY 2002 Special Conditions contained in Enclosure C of this letter. Because Utah did not meet those Special Conditions, and has not yet reported to the Secretary on the participation and performance of children with disabilities in alternate assessment, that it has reported publicly on the participation and performance of children with disabilities in alternate assessments, the Department is imposing Special Conditions on the State’s FFY 2003 grant awards under Part B. The reasons for doing so and the specific conditions are detailed in the enclosure. Utah must administer these awards both in keeping with the applicable provisions of Federal law and regulations and the Special Conditions attached to the grant award document. Acceptance by Utah of these grant awards constitutes an agreement by the State to comply with these Special Conditions.

Enclosed are grant awards for funds currently available under the Department of Education FFY 2003 Appropriations Act for the Part B Section 611 (Grants to States) and Section 619 (Preschool Grants) programs. These funds are for use primarily in school year 2003-2004 and are available for obligation by States from July 1, 2003 through September 30, 2005.

The amount in your award for Section 619 represents the full amount of funds to which you are entitled. However, the amount shown in your award for the Section 611 program is only part of the total funds that will be awarded to you for FFY 2003. Of the $8,874,397,536 appropriated for Section 611 in FFY 2003, $3,202,397,536 is available for awards on July 1, 2003, and $5,672,000,000 will be available on October 1, 2003.
The funding formula for the Section 611 program is the same as was implemented for FFY 2000. Subject to certain maximum and minimum funding requirements, State allocations are based on the amount that each State received from FFY 1999 funds, the general population in the age range for which each State ensures a free appropriate public education (FAPE) to all children with disabilities, and the number of children living in poverty in the age range for which each State ensures FAPE to all children with disabilities.

Enclosure A provides a short description of how Section 611 funds were allocated and how those funds can be used. In addition, Table I in Enclosure A shows funding levels for distribution of Section 611 funds.

Enclosure B provides a short description of how Section 619 funds were allocated and how those funds can be used. In addition, Table II in Enclosure B shows State-by-State funding levels for distribution of Section 619 funds.

We appreciate your ongoing commitment to the provision of quality educational services to children with disabilities.

Sincerely,

/s/Patricia J. Guard for

Stephanie S. Lee
