SECTION B

B.1. 301-6a

ESTIMATED COST AND INCENTIVE FEE (INCREMENTALLY FUNDED
CONTRACTS)(MAY 1998)

- (a) It is estimated that the total cost to the Government for full performance of this contract will be \$_____ of which \$_____ represents the estimated cost and \$ _____ represents the target fee (if any). The fee payable under this contract shall be the target fee adjusted in accordance with paragraph (e) of clause 52.216-10, Incentive Fee and _____ of this contract.
- (b) Sufficient funds are not presently available to cover the total estimated cost of this contract; however, this contract will follow the concepts of incremental funding described in FAR clause 52.232-22, "Limitation of Funds". Funds currently available for payment and allotted to this contract are \$_____ of which \$ _____ represents the limitation of reimbursable costs and \$_____ represents the amount set aside for fee (if any).
- (c) If and when the contract is fully funded, as specified in paragraph (a) of this clause, the "Limitation of Cost" clause shall become applicable.
- (d) The Contracting Officer may allot additional funds to the contract without the concurrence of the Contractor.

B.2. 52.216-10

INCENTIVE FEE (MAR 1997)

- (a) General. The Government shall pay the Contractor for performing this contract a fee determined as provided in this contract.
- (b) Target cost and target fee. The target cost and target fee specified in the Schedule are subject to adjustment if the contract is modified in accordance with paragraph (d) of this clause.
- (1) "Target cost," as used in this contract, means the estimated cost of this contract as initially negotiated, adjusted in accordance with paragraph (d) below.
- (2) "Target fee," as used in this contract, means the fee initially negotiated on the assumption that this contract would be performed for a cost equal to the estimated cost initially negotiated, adjusted in accordance with paragraph (d) of this clause.
- (c) Withholding of payment. Normally, the Government shall pay the fee to the Contractor as specified in the Schedule. However, when the Contracting Officer considers that performance or cost indicates that the Contractor will not achieve target, the Government shall pay on the basis of an appropriate lesser fee. When the Contractor demonstrates that performance or cost clearly indicates that the Contractor will earn a fee significantly above the target fee, the Government may, at the sole discretion of the Contracting Officer, pay on the basis of an appropriate higher fee. After payment of 85 percent of the applicable fee, the Contracting Officer may withhold further payment of fee until a reserve is set aside in an amount that the Contracting Officer considers necessary to protect the Government's interest. This reserve shall not exceed 15 percent of the applicable fee or \$100,000, whichever is less. The

SECTION B

Contracting Officer shall release 75 percent of all fee withholds under this contract after receipt of the certified final indirect cost rate proposal covering the year of physical completion of this contract, provided the Contractor has satisfied all other contract terms and conditions, including the submission of the final patent and royalty reports, and is not delinquent in submitting final vouchers on prior years' settlements. The Contracting Officer may release up to 90 percent of the fee withholds under this contract based on the Contractor's past performance related to the submission and settlement of final indirect cost rate proposals.

(d) Equitable adjustments. When the work under this contract is increased or decreased by a modification to this contract or when any equitable adjustment in the target cost is authorized under any other clause, equitable adjustments in the target cost, target fee, minimum fee, and maximum fee, as appropriate, shall be stated in a supplemental agreement to this contract.

(e) Fee payable. (1) The fee payable under this contract shall be the target fee increased by .65 cents for every dollar that the total allowable cost is less than the target cost or decreased by .35 cents for every dollar that the total allowable cost exceeds the target cost. In no event shall the fee be greater than .02 percent or less than .02 percent of the target cost.

(2) The fee shall be subject to adjustment, to the extent provided in paragraph (d) of this clause, and within the minimum and maximum fee limitations in paragraph (e)(1) of this clause, when the total allowable cost is increased or decreased as a consequence of (i) payments made under assignments or (ii) claims excepted from the release as required by paragraph (h)(2) of the Allowable Cost and Payment clause.

(3) If this contract is terminated in its entirety, the portion of the target fee payable shall not be subject to an increase or decrease as provided in this paragraph. The termination shall be accomplished in accordance with other applicable clauses of this contract.

(4) For the purpose of fee adjustment, "total allowable cost" shall not include allowable costs arising out of--

(i) Any of the causes covered by the Excusable Delays clause to the extent that they are beyond the control and without the fault or negligence of the Contractor or any subcontractor;

(ii) The taking effect, after negotiating the target cost, of a statute, court decision, written ruling, or regulation that results in the Contractor's being required to pay or bear the burden of any tax or duty or rate increase in a tax or duty;

(iii) Any direct cost attributed to the Contractor's involvement in litigation as required by the Contracting Officer pursuant to a clause of this contract, including furnishing evidence and information requested pursuant to the Notice and Assistance Regarding Patent and Copyright Infringement clause;

(iv) The purchase and maintenance of additional insurance not in the target cost and required by the Contracting Officer, or claims for reimbursement for liabilities to third persons pursuant to the Insurance Liability to Third Persons clause;

(v) Any claim, loss, or damage resulting from a risk for which the Contractor has been relieved of liability by the Government Property clause; or

(vi) Any claim, loss, or damage resulting from a risk defined in the contract as unusually hazardous or as a nuclear risk and against which

SECTION B

the Government has expressly agreed to indemnify the Contractor.

(5) All other allowable costs are included in "total allowable cost" for fee adjustment in accordance with this paragraph (e), unless otherwise specifically provided in this contract.

(f) Contract modification. The total allowable cost and the adjusted fee determined as provided in this clause shall be evidenced by a modification to this contract signed by the Contractor and Contracting Officer.

(g) Inconsistencies. In the event of any language inconsistencies between this clause and provisioning documents or Government options under this contract, compensation for spare parts or other supplies and services ordered under such documents shall be determined in accordance with this clause.

(End of clause)

IMPORTANT NOTICE: No deduction from or payment of fee by the Government under this contract shall (i) excuse the Contractor from performance of its obligations under this contract, or (ii) constitute a waiver of the delivery schedule or of any other rights or remedies, including Termination per FAR 52.249-6 Termination (Cost Reimbursement), of the parties under this contract.

The following items are excepted from the approval requirements of this clause:

1. Up to 50 copies of progress and final reports.

The Contractor shall ensure that any publication or audiovisual product developed or produced under this contract is compatible with the Department of Education's responsibilities under the Sections 504 and 508 of the Rehabilitation Act of 1973, 29 U.S.C. 794 and 794d, as amended, to ensure the accessibility of its programs and activities to individuals with disabilities.

The contractor shall not distribute or release to the public any publication or audiovisual product developed or produced under this contract without written authorization of the Contracting Officer. To obtain this authorization, the contractor shall submit 2 copies of the publication or audiovisual product to the Contracting Officer. Since the Contracting Officer must obtain internal public affairs or other clearances, the Contractor should plan at least 45 days to obtain authorization from the Contracting Officer.

Except as may be provided elsewhere, the contractor may develop and produce at its own expense, results of work under this contract (see Publication and Publicity).

NOTICE ABOUT RESEARCH ACTIVITIES INVOLVING HUMAN SUBJECTS (MARCH 1999)

(a) Applicable Regulations. Any research activities under this proposed contract involving human subjects are governed by Department of Education (ED) regulations for the protection of human subjects in research, Title 34, Code of Federal Regulations, Part 97 (hereafter, "the regulations"). The regulations require contractors and other entities involved in covered (nonexempt) research activities to establish and maintain procedures for the protection of human subjects. Copies of the regulations and related information on the protection of human research subjects are available on ED's Protection of Human Subjects in Research Web Site at <<http://ocfo.ed.gov/humansub.htm>> and from the Department's Protection of Human Subjects Coordinator, at the address shown below.

(b) Definitions.

- (1) The regulations define research as "a systematic investigation, including research development, testing and evaluation designed to develop or contribute to generalizable knowledge." (If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.) It includes activities that meet this definition, whether or not they are conducted under a program considered "research" for other purposes [34 CFR 97.102(d)].
- (2) The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains data through intervention or interaction with the individual or obtains identifiable private information" [34 CFR 97.102(f)(1)]. The definition of human subjects is met if an activity involves obtaining--

(A) information about a living person by--

- (i) manipulating that person's environment, as might occur when a new instructional technique is tested, or
- (ii) communicating or interacting with the individual, as occurs with surveys and interviews; or

(B) private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information). [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which an individual can reasonably expect will not be made public (for example,

SECTION H
SPECIAL CONTRACT REQUIREMENTS

a school health record).]

(c) Exemptions. The regulations provide exemptions from coverage for activities in which the only involvement of human subjects will be in one or more of the categories set forth in 34 CFR 97.101(b)(1-6). However, if the research subjects are children, the exemption at 34 CFR 97.101(b)(2)(i.e., research involving use of educational tests, survey procedures, interview procedures or observation of public behavior) is modified by 34 CFR 97.401(b), as explained in paragraph (d) below. Many types of research conducted on behalf of ED's National Center for Education Statistics are exempt under 34 CFR 97.101(b)(3)(ii), since the National Education Statistics Act prohibits disclosure of any individually identifiable information.

(d) Children as research subjects. Paragraph 34 CFR 97.402(a) of the regulations defines children as "persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law of the jurisdiction in which the research will be conducted." Paragraph 34 CFR 97.401(b) of the regulations provides that, if the research involves children as subjects--

- (1) The exemption at 34 CFR 97.101(b)(2) does not apply to activities involving--
 - (A) survey or interview procedures involving children as subjects, or
 - (B) observations of public behavior of children in which the investigator(s) will participate in the activities being observed.
- (2) The exemption at 34 CFR 97.101(b)(2) continues to apply, unmodified by 34 CFR 97.401(b), to--
 - (A) educational tests, and
 - (B) observations of public behavior in which the investigator(s) will not participate in the activities being observed.

(e) Proposal Instructions. An offeror proposing to do research that involves human subjects must provide information to ED on the proposed exempt and nonexempt activities. The offeror should submit this information as an attachment to its technical proposal. No specific page limitation applies to this requirement, but the offeror should be brief and to the point.

- (1) For exempt research activities involving human subjects, the offeror should identify the exemption(s) that applies and provide sufficient information to allow ED to determine that the designated exemption(s) is appropriate.
- (2) For covered research activities involving human subjects (whether conducted at the offeror's site or elsewhere), the offeror should identify the organizations (i.e., legally separate entities) that will be involved in the research activities to allow ED to:
 - (A) Determine the identity of the entities that need to submit Assurances and Certifications;
 - (B) Evaluate the adequacy of the proposed Institutional

SECTION H
SPECIAL CONTRACT REQUIREMENTS

Review Board(s) in light of the research subjects likely to be involved;
and

(C) Evaluate the appropriateness of the initial and continuing Institutional Review Board review procedures in consideration of the risks to subjects.

(3) If a reasonable potential exists that a need to conduct research involving human subjects may be identified after award of the contract and the offeror's proposal contains no definite plans for such research:

(A) The offeror should briefly describe the circumstances and nature of the potential research involving human subjects.

(B) If the offeror believes that an exemption is likely to apply, the offeror should identify the exemption and explain why it would apply.

(C) The offeror's proposal should allow adequate time to obtain and submit an Assurance of Compliance and a Certification of Institutional Review Board (IRB) review for any potential covered research that may be identified after award. Offerors are cautioned that no human subjects may be involved in covered research until the research has been reviewed and approved by the IRB and the contractor has submitted to ED an acceptable Assurance and a Certification of IRB review.

(f) Assurances and Certifications.

(1) For an offeror reasonably likely to receive an award, if ED determines that proposed research activities involving human subjects are covered (i.e., not exempt) under the regulations, the contracting officer will request the offeror to file an acceptable Assurance of Compliance with the regulations and provide Certification of IRB review and approval of the proposed project. In lieu of a new Assurance, ED will accept a current Multiple Project Assurance on file with the Office for Protection from Research Risks, Department of Health and Human Services, if ED determines that the Multiple Project Assurance is appropriate to the proposed covered research activity. Offerors reasonably likely to receive an award and proposing to do research that is covered by the regulations will be contacted by ED and given detailed instructions on filing the Assurances and Certifications.

(2) In accordance with 34 CFR 97, all subcontractors and any other legally separate entity (neither owned nor operated by the offeror) that will be engaged in covered research activities shall be required to have an Assurance on file and to provide to ED Certification of IRB review and approval.

(3) The offeror is responsible for ensuring that it and the other entities submit the required documents to ED in a timely manner. Although an offeror does not need to submit an Assurance of Compliance or a Certification of Institutional Review Board (IRB) review with its initial proposal, the offeror should be prepared to obtain and provide these documents promptly upon request. Failure to submit the documents in a timely manner may result in deferral of an award or award to

another offeror.

(g) Offerors may contact ED's Protection of Human Subjects Coordinator to obtain information about the regulations for the protection of human subjects and related policies and guidelines.

RESEARCH ACTIVITIES INVOLVING HUMAN SUBJECTS (March 1999)

(a) Any research activities under this contract involving human subjects are governed by Department of Education (ED) regulations for the protection of human subjects in research, Title 34, Code of Federal Regulations, Part 97. Part 97 requires the contractor, subcontractors and any other entities involved in covered research activities to establish and maintain procedures for the protection of human subjects. The definitions in 34 CFR 97.102 apply to this clause. As used in this clause, "covered research" means research involving human subjects that is not exempt under 34 CFR 97.101(b) and 34 CFR 97.401(b). The requirements at Part 97 apply to all entities involved in covered research under this contract. The requirements of this clause apply to the Contractor, regardless of which entity performs the covered research. The contractor shall comply with Part 97 and shall ensure that each entity involved in covered research activities complies with Part 97.

(b) The Contractor agrees that the rights and welfare of human subjects involved in research under this contract shall be protected in accordance with 34 CFR Part 97 and with the Contractor's current Assurance of Compliance on file with ED or the Office for Protection from Research Risks, Department of Health and Human Services.

(c) Under no condition shall the Contractor conduct, or allow to be conducted, any covered research activity involving human subjects prior to the Department's receipt of the Certification that the research has been reviewed and approved by the Institutional Review Board (IRB) [34 CFR 97.103(f)]. No covered research involving human subjects shall be initiated under this contract until the Contractor has provided the Contracting Officer (or the Contracting Officer's designee) a properly completed

SECTION H
SPECIAL CONTRACT REQUIREMENTS

Certification form certifying IRB review and approval of the research activity, and the Contracting Officer or designee has received the Certification. This restriction applies to the activities of each participating entity.

(d) In accordance with 34 CFR 97.109(e), an IRB must conduct continuing reviews of covered research activities at intervals appropriate to the degree of risk, but no less than once a year. Covered research activities that are expected to last one year or more are therefore subject to review by an IRB at least once a year.

(1) For each covered activity under this contract that requires continuing review, the contractor shall submit an annual written representation to the Contracting Officer (or the Contracting Officer's designee) stating whether covered research activities have been reviewed and approved by an IRB within the previous 12 months. The contractor may use Optional Form 310 for this representation. For multi-institutional projects, the contractor shall provide this information on its behalf and on behalf of any other entity engaged in covered research activities for which continuing IRB reviews are required.

(2) If the IRB disapproves, suspends, terminates or requires modification of any covered research activities under this contract, the Contractor shall immediately notify the Contracting Officer in writing of the IRB's action.

(e) The Contractor shall bear full responsibility for performing as safely as is feasible all activities under this contract involving the use of human subjects and for complying with all applicable regulations and requirements concerning human subjects. No one (neither the Contractor, nor any subcontractor, agent or employee of the Contractor, nor any other person or organization, institution, or group of any kind whatsoever) involved in the performance of such activities shall be deemed to constitute an agent or employee of the Department of Education or of the Federal Government with respect to such activities. The Contractor agrees to discharge its obligations, duties, and undertakings and the work pursuant thereto, whether requiring professional judgement or otherwise, as an independent Contractor without imputing liability on the part of the Government for the acts of the Contractor and its employees.

(f) Upon discovery of any noncompliance with any of the requirements or standards stated in paragraphs (b), (c) and (d) above, the Contractor shall immediately correct the deficiency. If at any time during performance of this contract, the Contracting Officer determines, in consultation with the Protection of Human Subjects Coordinator, Office of the Chief Financial and Chief Information Officer, or the sponsoring office, that the Contractor is not in compliance with any of the requirements or standards stated in paragraphs (b), (c) and (d) above, the Contracting Officer may immediately suspend, in whole or in part, work and further payments under this contract until the Contractor corrects such noncompliance. Notice of the suspension may be communicated

SECTION H
SPECIAL CONTRACT REQUIREMENTS

by telephone and confirmed in writing.

(g) The Government may terminate this contract, in full or in part, for failure to fully comply with any regulation or requirement related to human subjects involved in research. Such termination may be in lieu of or in addition to suspension of work or payment. Nothing herein shall be construed to limit the Government's right to terminate the contract for failure to fully comply with such requirements.

H.20. 316-1

ACCESSIBILITY OF SOFTWARE (JUNE 1997)

The Department of Education (ED) considers universal accessibility to information a priority for all its employees and external customers, including individuals with disabilities. Under Sections 504 and 508 of the Rehabilitation Act of 1973 (29 U.S.C. sections 794 and 794d, as amended), ED must ensure the accessibility of its programs and activities, specifically its obligation to acquire and use accessible electronic and information technology. ED maintains the manual, "Requirements for Accessible Software Design," to convey the accessibility needs of the Department to the developers and suppliers of computer applications. To comply with the provisions of this clause, the contractor may use the edition of the ED manual "Requirements for Accessible Software Design" in effect at the date of award of this contract or any more recent edition. A copy of the most recent edition of the manual may be found at <http://ocfo.ed.gov/coninfo/clibrary/software.htm>.

(a) Software developed for ED--The contractor shall ensure that any software developed under this contract for use by ED's employees or external customers is accessible to individuals with disabilities. At a minimum, such software must meet all the requirements the ED manual "Requirements for Accessible Software Design." However, in accordance with paragraph (d) of this clause, the contracting officer may waive a particular requirement.

(b) Software enhanced or modified for ED--Any enhancements and other modifications, made under this contract to software for use by ED's employees or external customers, are subject to the requirements of paragraph (a) of this clause, regardless of where or how the software was first developed. Except as otherwise specified elsewhere in the contract schedule, the contractor is only required to ensure that enhancements or modifications (not other features or parts of the software) of the software fully comply with the accessibility requirements of paragraph (a), as well as suggest solutions to ensure the software complies.

(c) Other software delivered under this contract--The contractor shall consider accessibility to individuals with disabilities as a significant factor when selecting or purchasing any software that will be delivered under this contract for use by ED's employees or external

SECTION H
SPECIAL CONTRACT REQUIREMENTS

customers.

Unless otherwise specified elsewhere in the contract schedule, the contractor is not required to obtain a waiver when it is not feasible for particular software not developed under this contract to fully meet the accessibility requirements of paragraph (a) of this clause.

However--

(1) In accordance with subparagraphs (c)(2) and (c)(3) of this clause, the contractor shall give the contracting officer an opportunity to review and potentially reject the selection or purchase of any software that will be delivered under this contract for use by ED's employees or external customers that does not meet all the requirements of the ED manual "Requirements for Accessible Software Design" and

(i) that has an aggregate total estimated cost or price of over \$500,000 for all copies or licenses of the software, or

(ii) that the contractor anticipates will be used by more than ten ED employees or external customers.

(2) At least ten calendar days prior to final selection of any software that meets the criteria in subparagraph (c)(1) of this clause, the contractor shall notify the contracting officer in writing, listing the specific accessibility requirements that would not be met, explaining how the accessibility of a particular feature can be achieved by alternative means or why it is not feasible to make a feature of the software accessible, and explaining any trade-offs or other reasons for recommending selection of the software.

(3) Within ten calendar days of the contracting officer's receipt of a notice under subparagraph (c)(2), if selection of the software may significantly impair ED's ability to ensure accessibility of its programs and activities to all its employees and external customers, including individuals with disabilities, the contracting officer may reject selection of the software by written notice to the contractor.

(d) Waiver of requirements--It is recognized that new technologies may provide solutions that are not envisioned in or consistent with the provisions of the manual "Requirements for Accessible Software Design." Also, compliance with certain requirements of the manual may not be feasible for the particular software required. In such extraordinary circumstances, the contracting officer may grant a waiver, in writing, to any requirement of the manual or of this clause if it furthers a public interest of ED and will not significantly impair ED's ability to ensure accessibility of its programs and activities to all its employees and external customers, including individuals with disabilities. To request a waiver, the contractor shall notify the contracting officer in writing, listing the specific accessibility requirements that would not be met and explaining how the accessibility of a particular feature can be achieved by alternative means or why it is not feasible to make a feature of the software accessible.

(e) Condition of payment--The contractor agrees that compliance with the provisions of this clause upon delivery of the software to ED is a condition of payment under this contract.

ACCOMMODATION/ACCESSIBILITY FOR THE DISABLED (APRIL 1996)

The acquisition and management of Federal Information Processing (FIP) resources shall be conducted in a manner that ensures access to computer and telecommunications products and services by all individuals, both federal employees and the public sector, including individuals with disabilities. The acquisition, management and utilization of FIP resources are subject to the computer accommodation and information accessibility for individuals with disabilities contained in P.L. 99-506 Reauthorization of the Rehabilitation Act of 1973, Section 508 - Electronic Equipment Accessibility, October 1986; and P.L. 100-542 Telecommunications Accessibility Enhancement Act, October 1988.

"Computer accommodation" means the acquisition or modification of FIP resources to minimize the functional limitations of individuals with disabilities so as to promote productivity and provide access to work-related or public information resources. "Individuals with disabilities" are individuals with limitations of vision, hearing, speech and/or mobility. The contractor shall ensure that FIP resources are equally provided to all individuals, including individuals with disabilities, guidelines.

H.19 APPLICATION OF THE DISPUTES CLAUSE

The evaluation of any Incentive Fees (see Quality Assurance Surveillance Plan, Appendix A; Exhibits A, and B, and Section B of the contract) are not subject to the "DISPUTES" Clause (FAR 52.233-1).

H. 20 OPTION FOR INCREASED QUANTITY - TASK 9

A. The Government may increase the quantity of services in Optional Task 9 - Option for Collection of Parent Data. The Contracting Officer may exercise the option by written notice to the Contractor 60 days in advance. Delivery of the added items shall be as specified in the Schedule of Deliverables.

The liquidated damages shall be in addition to excess costs under the Termination clause.

(c) The Contractor shall not be charged with liquidated damages when the delay in delivery or performance arises out of causes beyond the control and without the fault or negligence of the Contractor as defined in the Default--Fixed-Price Supply and Service clause in this contract.

(End of clause)

H.23. 52.217-8

OPTION TO EXTEND SERVICES (AUG 1989)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. (2) Include the Privacy Act notification contained in this contract in every solicitation and resulting subcontract and in every subcontract awarded without a solicitation, when the work statement in the proposed subcontract requires the redesign, development, or operation of a system of records on individuals that is subject to the Act; and

(3) Include this clause, including this subparagraph (3), in all subcontracts awarded under this contract which requires the design, development, or operation of such a system of records.

(b) In the event of violations of the Act, a civil action may be brought against the agency involved when the violation concerns the design, development, or operation of a system of records on individuals to accomplish an agency function, and criminal penalties may be imposed upon the officers or employees of the agency when the violation concerns the operation of a system of records on individuals to accomplish an agency function. COST ACCOUNTING STANDARDS (APR 1998)

(a) Unless the contract is exempt under 48 CFR 9903.201-1 and 9903.201-2, the provisions of 48 CFR, Part 9903 are incorporated herein by reference and the Contractor, in connection with this contract, shall--

(1) (CAS-covered Contracts Only) By submission of a Disclosure Statement, disclose in writing the Contractor's cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5, including methods of distinguishing direct costs from indirect costs and the basis used for allocating indirect costs. The practices disclosed for this contract shall be the same as the practices currently disclosed and applied on all other contracts and subcontracts being performed by the Contractor and which contain a Cost Accounting Standards (CAS) clause. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.

SECTION H
SPECIAL CONTRACT REQUIREMENTS

(2) Follow consistently the Contractor's cost accounting practices in accumulating and reporting contract performance cost data concerning this contract. If any change in cost accounting practices is made for the purposes of any contract or subcontract subject to CAS requirements, the change must be applied prospectively to this contract and the Disclosure Statement must be amended accordingly. If the contract price or cost allowance of this contract is affected by such changes, adjustment shall be made in accordance with subparagraph (a)(4) or (a)(5) of this clause, as appropriate.

(3) Comply with all CAS, including any modifications and interpretations indicated thereto contained in 48 CFR Part 9904, in effect on the date of award of this contract or, if the Contractor has submitted cost or pricing data, on the date of final agreement on price as shown on the Contractor's signed certificate of current cost or pricing data. The Contractor shall also comply with any CAS (or modifications to CAS) which hereafter become applicable to a contract or subcontract of the Contractor. Such compliance shall be required prospectively from the date of applicability to such contract or subcontract.

(4)(i) Agree to an equitable adjustment as provided in the Changes clause of this contract if the contract cost is affected by a change which, pursuant to subparagraph (a)(3) of this clause, the Contractor is required to make to the Contractor's established cost accounting practices.

(ii) Negotiate with the Contracting Officer to determine the terms and conditions under which a change may be made to a cost accounting practice, other than a change made under other provisions of subparagraph (a)(4) of this clause; provided that no agreement may be made under this provision that will increase costs paid by the United States.

(iii) When the parties agree to a change to a cost accounting practice, other than a change under subdivision (a)(4)(i) of this clause, negotiate an equitable adjustment as provided in the Changes clause of this contract.

(5) Agree to an adjustment of the contract price or cost allowance, as appropriate, if the Contractor or a subcontractor fails to comply with an applicable Cost Accounting Standard, or to follow any cost accounting practice consistently and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States, together with interest thereon computed at the annual rate established under section 6621 of the Internal Revenue Code of 1986 (26 U.S.C. 6621) for such period, from the time the payment by the United States was made to the time the adjustment is effected. In no case shall the Government recover costs greater than the increased cost to the Government, in the aggregate, on the relevant contracts subject to the price adjustment, unless the Contractor made a change in its cost accounting practices of which it was aware or should have been aware at the time of price negotiations and which it failed to disclose to the Government.

(b) If the parties fail to agree whether the Contractor or a subcontractor has complied with an applicable CAS in 48 CFR, Part 9904 or a CAS rule or regulation in 48 CFR, Part 9903 and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under the Contract Disputes Act (41 U.S.C. 601).

(c) The Contractor shall permit any authorized representatives of the

SECTION H
SPECIAL CONTRACT REQUIREMENTS

Government to examine and make copies of any documents, papers, or records relating to compliance with the requirements of this clause.

(d) The Contractor shall include in all negotiated subcontracts which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts, of any tier, including the obligation to comply with all CAS in effect on the subcontractor's award date or if the subcontractor has submitted cost or pricing data, on the date of final agreement on price as shown on the subcontractor's signed Certificate of Current Cost or Pricing Data. If the subcontract is awarded to a business unit which pursuant to 48 CFR 9903.201-2 is subject to other types of CAS coverage, the substance of the applicable clause set forth in subsection 30.201-4 of the Federal Acquisition Regulation shall be inserted. This requirement shall apply only to negotiated subcontracts in excess of \$500,000, except that the requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to include a CAS clause as specified in 48 CFR 9903.201-1.

(End of clause)

H.27. 52.230-3

DISCLOSURE AND CONSISTENCY OF COST ACCOUNTING PRACTICES (APR 1998)

(a) The Contractor, in connection with this contract, shall--

(1) Comply with the requirements of 48 CFR 9904.401, Consistency in Estimating, Accumulating, and Reporting Costs; 48 CFR 9904.402, Consistency in Allocating Costs Incurred for the Same Purpose; 48 CFR 9904.405, Accounting for Unallowable Costs; and 48 CFR 9904.406, Cost Accounting Standard--Cost Accounting Period, in effect on the date of award of this contract as indicated in 48 CFR Part 9904.

(2) (CAS-covered Contracts Only) If it is a business unit of a company required to submit a Disclosure Statement, disclose in writing its cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.

(3)(i) Follow consistently the Contractor's cost accounting practices. A change to such practices may be proposed, however, by either the Government or the Contractor, and the Contractor agrees to negotiate with the Contracting Officer the terms and conditions under which a change may be made. After the terms and conditions under which the change is to be made have been agreed to, the change must be applied prospectively to this contract, and the Disclosure Statement, if affected, must be amended accordingly.

(ii) The Contractor shall, when the parties agree to a change to a cost accounting practice and the Contracting Officer has made the finding required in 48 CFR 9903.201-6(b), that the change is desirable and not detrimental to the interests of the Government, negotiate an equitable adjustment as provided in the Changes clause of this contract. In the absence of the required finding, no agreement may be made under this contract clause that will increase costs paid by the United States.

(4) Agree to an adjustment of the contract price or cost allowance, as

SECTION H
SPECIAL CONTRACT REQUIREMENTS

appropriate, if the Contractor or a subcontractor fails to comply with the applicable CAS or to follow any cost accounting practice, and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States together with interest thereon computed at the annual rate of interest established under the Internal Revenue Code of 1986 (26 U.S.C. 6621), from the time the payment by the United States was made to the time the adjustment is effected.

(b) If the parties fail to agree whether the Contractor has complied with an applicable CAS, rule, or regulation as specified in 48 CFR, Parts 9903 and 9904 and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under the Contract Disputes Act (41 U.S.C. 601).

(c) The Contractor shall permit any authorized representatives of the Government to examine and make copies of any documents, papers, and records relating to compliance with the requirements of this clause.

(d) The Contractor shall include in all negotiated subcontracts, which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts of any tier, except that--

(1) If the subcontract is awarded to a business unit which pursuant to 48 CFR 9903.201-2 is subject to other types of CAS coverage, the substance of the applicable clause set forth in subsection 30.201-4 of the Federal Acquisition Regulation shall be inserted.

(2) This requirement shall apply only to negotiated subcontracts in excess of \$500,000.

(3) The requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to include a CAS clause as specified in 48 CFR 9903.201-1.

COST ACCOUNTING STANDARDS--EDUCATIONAL INSTITUTION (APR 1998)

(a) Unless the contract is exempt under 48 CFR 9903.201-1 and 9903.201-2, the provisions of 48 CFR 9903 are incorporated herein by reference and the Contractor, in connection with this contract, shall--

(1) (CAS-covered Contracts Only). If a business unit of an educational institution required to submit a Disclosure Statement, disclose in writing the Contractor's cost accounting practices as required by 48 CFR 9903.202-1 through 9903.202-5, including methods of distinguishing direct costs from indirect costs and the basis used for accumulating and allocating indirect costs. The practices disclosed for this contract shall be the same as the practices currently disclosed and applied on all other contracts and subcontracts being performed by the Contractor and which contain a Cost Accounting Standards (CAS) clause. If the Contractor has notified the Contracting Officer that the Disclosure Statement contains trade secrets, and commercial or financial information which is privileged and confidential, the Disclosure Statement shall be protected and shall not be released outside of the Government.

(2) Follow consistently the Contractor's cost accounting practices in accumulating and reporting contract performance cost data concerning this contract. If any change in cost accounting practices is made for the purposes of any contract or subcontract subject to CAS requirements, the

SECTION H
SPECIAL CONTRACT REQUIREMENTS

change must be applied prospectively to this contract and the Disclosure Statement, if required, must be amended accordingly. If an accounting principle change mandated under Office of Management and Budget (OMB) Circular A-21, Cost Principles for Educational Institutions, requires that a change in the Contractor's cost accounting practices be made after the date of this contract award, the change must be applied prospectively to this contract and the Disclosure Statement, if required, must be amended accordingly. If the contract price or cost allowance of this contract is affected by such changes, adjustment shall be made in accordance with subparagraph (a)(4) or (a)(5) of this clause, as appropriate.

(3) Comply with all CAS, including any modifications and interpretations indicated thereto contained in 48 CFR 9905 in effect on the date of award of this contract or, if the Contractor has submitted cost or pricing data, on the date of final agreement on price as shown on the Contractor's signed certificate of current cost or pricing data. The Contractor shall also comply with any CAS (or modifications to CAS) which hereafter become applicable to a contract or subcontract of the Contractor. Such compliance shall be required prospectively from the date of applicability to such contract or subcontract.

(4)(i) Agree to an equitable adjustment as provided in the Changes clause of this contract if the contract cost is affected by a change which, pursuant to subparagraph (a)(3) of this clause, the Contractor is required to make to the Contractor's established cost accounting practices.

(ii) Negotiate with the Contracting Officer to determine the terms and conditions under which a change may be made to a cost accounting practice, other than a change made under other provisions of subparagraph (a)(4) of this clause; provided that no agreement may be made under this provision that will increase costs paid by the United States.

(iii) When the parties agree to a change to a cost accounting practice, other than a change under subdivision (a)(4)(i) or (a)(4)(iv) of this clause, negotiate an equitable adjustment as provided in the Changes clause of this contract.

(iv) Agree to an equitable adjustment as provided in the Changes clause of this contract, if the contract cost is materially affected by an OMB Circular A-21 accounting principle amendment which, on becoming effective after the date of contract award, requires the Contractor to make a change to the Contractor's established cost accounting practices.

(5) Agree to an adjustment of the contract price or cost allowance, as appropriate, if the Contractor or a subcontractor fails to comply with an applicable Cost Accounting Standard, or to follow any cost accounting practice consistently and such failure results in any increased costs paid by the United States. Such adjustment shall provide for recovery of the increased costs to the United States, together with interest thereon computed at the annual rate established under section 6621 of the Internal Revenue Code of 1986 (26 U.S.C. 6621) for such period, from the time the payment by the United States was made to the time the adjustment is effected. In no case shall the Government recover costs greater than the increased cost to the Government, in the aggregate, on the relevant contracts subject to the price adjustment, unless the Contractor made a change in its cost accounting practices of which it was aware or should have been aware at the time of price negotiations and which it failed to

disclose to the Government.

(b) If the parties fail to agree whether the Contractor or a subcontractor has complied with an applicable CAS or a CAS rule or regulation in 48 CFR 9903, and as to any cost adjustment demanded by the United States, such failure to agree will constitute a dispute under the Contract Disputes Act (41 U.S.C. 601).

(c) The Contractor shall permit any authorized representatives of the Government to examine and make copies of any documents, papers, or records relating to compliance with the requirements of this clause.

(d) The Contractor shall include in all negotiated subcontracts which the Contractor enters into, the substance of this clause, except paragraph (b), and shall require such inclusion in all other subcontracts, of any tier, including the obligation to comply with all applicable CAS in effect on the subcontractor's award date or, if the subcontractor has submitted cost or pricing data, on the date of final agreement on price as shown on the subcontractor's signed Certificate of Current Cost or Pricing Data, except that--

(1) If the subcontract is awarded to a business unit which pursuant to 48 CFR 9903.201-2 is subject to other types of CAS coverage, the substance of the applicable clause set forth in 48 CFR 9903.201-4 shall be inserted;

(2) This requirement shall apply only to negotiated subcontracts in excess of \$500,000; and

(3) The requirement shall not apply to negotiated subcontracts otherwise exempt from the requirement to include a CAS clause as specified in 48 CFR 9903.201-1.

ADMINISTRATION OF COST ACCOUNTING STANDARDS (APR 1996)

For the purpose of administering the Cost Accounting Standards (CAS)

requirements under this contract, the Contractor shall take the steps outlined in paragraphs (a) through (g) of this clause:

(a) Submit to the Contracting Officer a description of any cost accounting practice change, the total potential impact of the change on contracts containing a CAS clause, and a general dollar magnitude of the change which identifies the potential shift of costs between CAS-covered contracts by contract type (i.e., firm-fixed-price, incentive, cost-plus-fixed fee, etc.) and other contractor business activity. As related to CAS-covered contracts, the analysis should identify the potential impact on funds of the various Agencies/Departments (i.e., Department of Energy, National Aeronautics and Space Administration, Army, Navy, Air Force, other Department of Defense, other Government) as follows:

(1) For any change in cost accounting practices required in accordance with subparagraph (a)(3) and subdivision (a)(4)(i) of the clause at FAR 52.230-2, Cost Accounting Standards; or subparagraph (a)(3) and subdivisions (a)(4)(i) or (a)(4)(iv) of the clause at FAR 52.230-5, Cost Accounting Standards--Educational Institution; within 60 days (or such other date as may be mutually agreed to) after award of a contract requiring this change.

(2) For any change in cost accounting practices proposed in accordance with subdivision (a)(4)(ii) or (iii) of the clauses at FAR 52.230-2, Cost Accounting Standards, and FAR 52.230-5, Cost Accounting Standards--Educational Institution; or with subparagraph (a)(3) of the

SECTION H
SPECIAL CONTRACT REQUIREMENTS

clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices, not less than 60 days (or such other date as may be mutually agreed to) before the effective date of the proposed change.

(3) For any failure to comply with an applicable CAS or to follow a disclosed practice (as contemplated by subparagraph (a)(5) at FAR 52.230-2, Cost Accounting Standards, and FAR 52.230-5, Cost Accounting Standards--Educational Institution; or by subparagraph (a)(4) at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices):

(i) Within 60 days (or such other date as may be mutually agreed to) after the date of agreement with the initial finding of noncompliance, or

(ii) In the event of Contractor disagreement with the initial finding of noncompliance, within 60 days of the date the Contractor is notified by the Contracting Officer of the determination of noncompliance.

(b) After an ACO, or cognizant Federal agency official, determination of materiality, submit a cost impact proposal in the form and manner specified by the Contracting Officer within 60 days (or such other date as may be mutually agreed to) after the date of determination of the adequacy and compliance of a change submitted pursuant to paragraph (a) of this clause. The cost impact proposal shall be in sufficient detail to permit evaluation, determination, and negotiation of the cost impact upon each separate CAS-covered contract and subcontract.

(1) Cost impact proposals submitted for changes in cost accounting practices required in accordance with subparagraph (a)(3) and subdivision (a)(4)(i) of the clause at FAR 52.230-2, Cost Accounting Standards; or subparagraph (a)(3) and subdivisions (a)(4)(i) or (a)(4)(iv) of the clause at FAR 52.230-5, Cost Accounting Standards--Educational Institution; shall identify the applicable standard or cost principle and all contracts and subcontracts containing the clauses entitled Cost Accounting Standards or Cost Accounting Standards--Educational Institution, which have an award date before the effective date of that standard or cost principle.

(2) Cost impact proposals submitted for any change in cost accounting practices proposed in accordance with subdivisions (a)(4)(ii) or (iii) of the clauses at FAR 52.230-2, Cost Accounting Standards, and FAR 52.230-5, Cost Accounting Standards--Educational Institution; or with subparagraph (a)(3) of the clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices; shall identify all contracts and subcontracts containing the clauses at FAR 52.230-2, Cost Accounting Standards, FAR 52.230-5, Cost Accounting Standards--Educational Institution, and FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices.

(3) Cost impact proposals submitted for failure to comply with an applicable CAS or to follow a disclosed practice as contemplated by subparagraph (a)(5) of the clauses at FAR 52.230-2, Cost Accounting Standards, and FAR 52.230-5, Cost Accounting Standards--Educational Institution; or by subparagraph (a)(4) of the clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices, shall identify the cost impact on each separate CAS covered contract from the date of failure to comply until the noncompliance is corrected.

(c) If the submissions required by paragraphs (a) and (b) of this clause are not submitted within the specified time, or any extension granted by the Contracting Officer, an amount not to exceed 10 percent of each subsequent amount determined payable related to the Contractor's

SECTION H
SPECIAL CONTRACT REQUIREMENTS

CAS-covered prime contracts, up to the estimated general dollar magnitude of the cost impact, may be withheld until such time as the required submission has been provided in the form and manner specified by the Contracting Officer.

(d) Agree to appropriate contract and subcontract amendments to reflect adjustments established in accordance with subparagraphs (a)(4) and (a)(5) of the clauses at FAR 52.230-2, and 52.230-5; or with subparagraphs (a)(3) or (a)(4) of the Disclosure and Consistency of Cost Accounting Practices clause at FAR 52.230-3.

(e) For all subcontracts subject to the clauses at FAR 52.230-2, 52.230-3, or 52.230-5--

(1) So state in the body of the subcontract, in the letter of award, or in both (self-deleting clauses shall not be used); and

(2) Include the substance of this clause in all negotiated subcontracts. In addition, within 30 days after award of the subcontract, submit the following information to the Contractor's cognizant contract administration office for transmittal to the contract administrative office cognizant of the subcontractor's facility:

(i) Subcontractor's name and subcontract number.

(ii) Dollar amount and date of award.

(iii) Name of Contractor making the award.

(iv) Any changes the subcontractor has made or proposes to make to cost accounting practices that affect prime contracts or subcontracts containing the clauses at FAR 52.230-2, 52.230-3, or 52.230-5, unless these changes have already been reported. If award of the subcontract results in making one or more CAS effective for the first time, this fact shall also be reported.

(f) Notify the Contracting Officer in writing of any adjustments required to subcontracts under this contract and agree to an adjustment, based on them, to this contract price or estimated cost and fee. This notice is due within 30 days after proposed subcontract adjustments are received and shall include a proposal for adjusting the higher tier subcontract or the prime contract appropriately.

(g) For subcontracts containing the clauses at FAR 52.230-2 or 52.230-5, require the subcontractor to comply with all Standards in effect on the date of award or of final agreement on price, as shown on the subcontractor's signed Certificate of Current Cost or Pricing Data, whichever is earlier.

(End of clause)

H.30. 52.239-1

PRIVACY OR SECURITY SAFEGUARDS (AUG 1996)

(a) The Contractor shall not publish or disclose in any manner, without the Contracting Officer's written consent, the details of any safeguards either designed or developed by the Contractor under this contract or otherwise provided by the Government.

(b) To the extent required to carry out a program of inspection to safeguard against threats and hazards to the security, integrity, and confidentiality of Government data, the Contractor shall afford the Government access to the Contractor's facilities, installations, technical capabilities, operations, documentation, records, and databases.

(c) If new or unanticipated threats or hazards are discovered by either the Government or the Contractor, or if existing safeguards have ceased to function, the discoverer shall immediately bring the situation to the attention of the other party.

SMALL BUSINESS SUBCONTRACTING PLAN (JAN 1999)

(a) This clause does not apply to small business concerns.

(b) Definitions. As used in this clause--

"Commercial item" means a product or service that satisfies the definition of commercial item in section 2.101 of the Federal Acquisition Regulation.

"Commercial plan" means a subcontracting plan (including goals) that covers the offeror's fiscal year and that applies to the entire production of commercial items sold by either the entire company or a portion thereof (e.g., division, plant, or product line).

"Individual contract plan" means a subcontracting plan that covers the entire contract period (including option periods), applies to a specific contract, and has goals that are based on the offeror's planned

OTHER STATEMENTS OF OFFERORS

subcontracting in support of the specific contract, except that indirect costs incurred for common or joint purposes may be allocated on a prorated basis to the contract.

"Master plan" means a subcontracting plan that contains all the required elements of an individual contract plan, except goals, and may be incorporated into individual contract plans, provided the master plan has been approved.

"Subcontract" means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime Contractor or subcontractor calling for supplies or services required for performance of the contract or subcontract.

(c) The offeror, upon request by the Contracting Officer, shall submit and negotiate a subcontracting plan, where applicable, that separately addresses subcontracting with small business, HUBZone small business concerns, small disadvantaged business, and women-owned small business concerns. If the offeror is submitting an individual contract plan, the plan must separately address subcontracting with small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns, with a separate part for the basic contract and separate parts for each option (if any). The plan shall be included in and made a part of the resultant contract. The subcontracting plan shall be negotiated within the time specified by the Contracting Officer. Failure to submit and negotiate the subcontracting plan shall make the offeror ineligible for award of a contract.

(d) The offeror's subcontracting plan shall include the following:

(1) Goals, expressed in terms of percentages of total planned subcontracting dollars, for the use of small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns, as subcontractors. The offeror shall include all subcontracts that contribute to contract performance, and may include a proportionate share of products and services that are normally allocated as indirect costs.

(2) A statement of--

(i) Total dollars planned to be subcontracted for an individual contract plan; or the offeror's total projected sales, expressed in dollars, and the total value of projected subcontracts to support the sales for a commercial plan;

(ii) Total dollars planned to be subcontracted to small business concerns;

(iii) Total dollars planned to be subcontracted to HUBZone small business concerns;

(iv) Total dollars planned to be subcontracted to small disadvantaged business concerns; and

(v) Total dollars planned to be subcontracted to women-owned small business concerns.

(3) A description of the principal types of supplies and services to be subcontracted, and an identification of the types planned for subcontracting to--

(i) Small business concerns;

(ii) HUBZone small business concerns;

(iii) Small disadvantaged business concerns; and

(iv) Women-owned small business concerns.

(4) A description of the method used to develop the subcontracting goals in paragraph (d)(1) of this clause.

SECTION K
REPRESENTATIONS, CERTIFICATIONS AND
OTHER STATEMENTS OF OFFERORS

(5) A description of the method used to identify potential sources for solicitation purposes (e.g., existing company source lists, the Procurement Marketing and Access Network (PRO-NET) of the Small Business Administration (SBA), the list of certified small disadvantaged business concerns of the SBA, the National Minority Purchasing Council Vendor Information Service, the Research and Information Division of the Minority Business Development Agency in the Department of Commerce, or small, HUBZone small disadvantaged and women-owned small business trade associations). A firm may rely on the information contained in PRO-NET as an accurate representation of a concern's size and ownership characteristics for the purposes of maintaining a small and women-owned small business source list. A firm shall rely on the information contained in SBA's list of small disadvantaged business concerns as an accurate representation of a concern's size and ownership characteristics for the purposes of maintaining a small disadvantaged business source list. Use of PRO-NET and/or the SBA list of small disadvantaged business concerns as its source lists does not relieve a firm of its responsibilities (e.g., outreach, assistance, counseling, publicizing subcontracting opportunities) in this clause.

(6) A statement as to whether or not the offeror included indirect costs in establishing subcontracting goals, and a description of the method used to determine the proportionate share of indirect costs to be incurred with--

- (i) Small business concerns;
- (ii) HUBZone small business concerns;
- (iii) Small disadvantaged business concerns; and
- (iv) Women-owned small business concerns.

(7) The name of the individual employed by the offeror who will administer the offeror's subcontracting program, and a description of the duties of the individual.

(8) A description of the efforts the offeror will make to assure that small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns have an equitable opportunity to compete for subcontracts.

(9) Assurances that the offeror will include the clause of this contract entitled "Utilization of Small Business Concerns" in all subcontracts that offer further subcontracting opportunities, and that the offeror will require all subcontractors (except small business concerns) that receive subcontracts in excess of \$500,000 (\$1,000,000 for construction of any public facility) to adopt a subcontracting plan that complies with the requirements of this clause.

(10) Assurances that the offeror will--

- (i) Cooperate in any studies or surveys as may be required;
- (ii) Submit periodic reports so that the Government can determine the extent of compliance by the offeror with the subcontracting plan;
- (iii) Submit Standard Form (SF) 294, Subcontracting Report for Individual Contracts, and/or SF 295, Summary Subcontract Report, in accordance with the instructions on the forms or as provided in agency regulations and in paragraph (j) of this clause; and
- (iv) Ensure that its subcontractors agree to submit SF 294 and 295.

(11) A description of the types of records that will be maintained concerning procedures that have been adopted to comply with the requirements and goals in the plan, including establishing source lists; and a description of the offeror's efforts to locate small business,

HUBZone small business, small disadvantaged business, and women-owned small business concerns and award subcontracts to them. The records shall include at least the following (on a plant-wide or company-wide basis, unless otherwise indicated):

(i) Source lists (e.g., PRO-Net), guides, and other data that identify small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns.

(ii) Organizations contacted in an attempt to locate sources that are small business, HUBZone small business, small disadvantaged or women-owned small business concerns.

(iii) Records on each subcontract solicitation resulting in an award of more than \$100,000, indicating--

(A) Whether small business concerns were solicited and, if not, why not;

(B) Whether HUBZone small business concerns were solicited and, if not, why not;

(C) Whether small disadvantaged business concerns were solicited and, if not, why not;

(D) Whether women-owned small business concerns were solicited and, if not, why not; and

(E) If applicable, the reason award was not made to a small business concern.

(iv) Records of any outreach efforts to contact--

(A) Trade associations;

(B) Business development organizations; and

(C) Conferences and trade fairs to locate small, HUBZone small, small disadvantaged, and women-owned small business sources.

(v) Records of internal guidance and encouragement provided to buyers through--

(A) Workshops, seminars, training, etc.; and

(B) Monitoring performance to evaluate compliance with the program's requirements.

(vi) On a contract-by-contract basis, records to support award data submitted by the offeror to the Government, including the name, address, and business size of each subcontractor. Contractors having commercial plans need not comply with this requirement.

(e) In order to effectively implement this plan to the extent consistent with efficient contract performance, the Contractor shall perform the following functions:

(1) Assist small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation by such concerns. Where the Contractor's lists of potential small business, HUBZone small business, small disadvantaged business, and women-owned small business subcontractors are excessively long, reasonable effort shall be made to give all such small business concerns an opportunity to compete over a period of time.

(2) Provide adequate and timely consideration of the potentialities of small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in all "make-or-buy" decisions.

(3) Counsel and discuss subcontracting opportunities with representatives of small business, HUBZone small business, small disadvantaged business, and women-owned small business firms.

SECTION K

OTHER STATEMENTS OF OFFERORS

(4) Provide notice to subcontractors concerning penalties and remedies for misrepresentations of business status as small, HUBZone small, small disadvantaged, or women-owned small business for the purpose of obtaining a subcontract that is to be included as part or all of a goal contained in the Contractor's subcontracting plan.

(f) A master plan on a plant or division-wide basis that contains all the elements required by paragraph (d) of this clause, except goals, may be incorporated by reference as a part of the subcontracting plan required of the offeror by this clause; provided--

(1) The master plan has been approved;

(2) The offeror ensures that the master plan is updated as necessary and provides copies of the approved master plan, including evidence of its approval, to the Contracting Officer; and

(3) Goals and any deviations from the master plan deemed necessary by the Contracting Officer to satisfy the requirements of this contract are set forth in the individual subcontracting plan.

(g) A commercial plan is the preferred type of subcontracting plan for contractors furnishing commercial items. The commercial plan shall relate to the offeror's planned subcontracting generally, for both commercial and Government business, rather than solely to the Government contract. Commercial plans are also preferred for subcontractors that provide commercial items under a prime contract, whether or not the prime contractor is supplying a commercial item.

(h) Prior compliance of the offeror with other such subcontracting plans under previous contracts will be considered by the Contracting Officer in determining the responsibility of the offeror for award of the contract.

(i) The failure of the Contractor or subcontractor to comply in good faith with--

(1) The clause of this contract entitled "Utilization of Small Business Concerns;" or

(2) An approved plan required by this clause, shall be a material breach of the contract.

(j) The Contractor shall submit the following reports:

(1) Standard Form 294, Subcontracting Report for Individual Contracts. This report shall be submitted to the Contracting Officer semiannually and at contract completion. The report covers subcontract award data related to this contract. This report is not required for commercial plans.

(2) Standard Form 295, Summary Subcontract Report. This report encompasses all the contracts with the awarding agency. It must be submitted semi-annually for contracts with the Department of Defense and annually for contracts with the Department of Defense and annually for contracts with civilian agencies. If the reporting activity must report annually all subcontract awards under that plan. All reports submitted at the close of each fiscal year (both individual and commercial plans) shall include a breakout, in the Contractor's format, of subcontract awards, in whole dollars, to small disadvantaged business concerns by Standard Industrial Classification (SIC) Major Group. For a commercial plan, the Contractor may obtain from each of its subcontractors a predominant SIC Major Group and report all awards to that subcontractor under its predominant SIC major Group.

Offerors are encouraged to submit proposals on recycled paper with a high post-consumer waste content. It is understood that your proposal will become part of the official contract file.

The RFP does not commit the Government to pay any cost for the preparation and submission of a proposal. In addition, the Contracting Officer is the only individual who can legally commit the Government to the expenditure of public funds in connection with this proposed acquisition.

The RFP and all of the attachments including the Statement of Work will be available on the OCFO Web Site from the Contract Information/Contract Documents On-Line Page. The Internet address is <http://ocfo.ed.gov>. For technical questions on the OCFO Web Site, call Gary Weaver at 202/401-0083.

TECHNICAL PROPOSAL INSTRUCTIONS (MARCH 1986)

Proposals which merely offer to conduct a program in accordance with the requirements of the Government's scope of work will not be eligible for award. You must submit an explanation of the proposed technical approach in conjunction with the tasks to be performed in achieving the project objectives.

A detailed work plan must be submitted indicating how each aspect of the statement of work is to be accomplished. Your technical approach should be in as much detail as you consider necessary to fully explain your proposed technical approach or method. The technical proposal should reflect a clear understanding of the nature of the work being undertaken.

The technical proposal must include information on how the project is to be organized, staffed, and managed. Information should be provided which will demonstrate your understanding and management of important events or tasks. You must explain how the management and coordination of consultant and/or subcontractor efforts will be accomplished.

The technical proposal must include a list of names and proposed duties of the professional personnel, consultants, and key subcontractor employees assigned to the project. Their resumes should be included and

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

should contain information on education, background, recent experience, and specific requirement related or technical accomplishments. The approximate percentage of time each individual will be available for this project must be included.

The proposed staff hours for each of the above individuals should be allocated against each task or subtask for the project. The technical proposal must provide the general background, experience, and qualifications of the organization. Similar or related contracts, subcontracts, or grants should be included and contain the name of the customer, contract or grant number, dollar amount, time of performance, and the names and telephone numbers of the project officer and contracting/grants officer.

The technical proposal must contain a discussion of present or proposed facilities and equipment which will be used in the performance of the contract.

The technical proposal must be prepared and submitted in the following format:

ADDITIONAL INSTRUCTIONS TO OFFERORS

A.Organization and content of proposal

Offerors are requested to use the proposal format described below. The author(s) of each chapter must be identified, and their proposed roles in the study should be stated. Credit for a well-written proposal depends on authors having a significant role to play in the performance of the contract. The technical proposal should be limited to a maximum of 250 double-spaced pages, in addition to appendices, resumes and tables.

The proposed plan should be written in enough detail so that a review panel can adequately judge its full merits. Although the intent of each task is spelled out in the Statement of Work, it is up to the offeror to propose the most effective method for carrying out these tasks. Offerors are encouraged to exercise independent judgment with respect to the best methods of attaining the objectives of this study. The specifications contained in the request for proposals are a starting point--the proposal must build on them, not simply repeat language from the request for proposals.

I.Technical proposal -- The topics for the technical proposal are as follows:

1.1 Introduction. The Introduction should present the offeror's conceptualization of the purpose, methodology, and products of the study, and should include a short summary of the offeror's qualifications and unique strengths relevant to the study.

1.2 General approach. In preparing the technical proposal, the offeror is expected to propose a conceptual framework for carrying out the study. The proposed design should address such topics as the evaluation methodology; plans for identifying distinct program models; plans for developing site selection criteria; sampling plan; procedures and time lines for implementing the data collection plan; a data analysis plan; an approach for

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

undertaking an impact study; and outlines for the final reports.

--Discussion of issues -- The proposal should contain a thorough discussion of the issues identified in Section III C, Evaluation Design Considerations, of this Statement of Work. The discussion should include pros and cons of various options and implications for the cost of carrying out the work.

--Selecting advisors for the study -- The proposal should contain the names of 8-10 persons nominated by the offeror to serve as advisors in the conduct of the study. The proposal should discuss the strengths of each potential advisor and explain the role each will play in helping achieve the objectives of the study. Advisors should include researchers with both analytic and programmatic experience related to the study, and practitioners. The list of nominees should include names, areas of expertise, resumes, and letters of commitment.

--Ensuring cooperation of local projects with the evaluation -- An extensive effort should be made to ensure the cooperation of all GEAR UP projects selected for the in-depth assessment study. The proposed study design should address measures to be taken to inform the projects of the study requirements and the advantages of the study to the projects; and to address the concerns of project, school, and district staff as well as parents and students.

1.3 Statement of work. The proposal should include a preliminary study design, organized by task and component, describing, in detail, the work to be performed and the methods to be used. Each task should be presented under its separate heading, with exactly the same numerical designations and in the same order as used in the statement of work. In addition to describing the procedures that will be used to complete each task, the offeror should indicate any anticipated issues and problems and how each will be addressed and resolved.

The following instructions refer to specific tasks identified in the statement of work.

--Task 1: Refine study design -- The proposal should discuss plans for identifying models and selecting sites for the longitudinal impact study and a plan for selecting a sample of treatment and control students. The proposal should identify and discuss the student, parent/family, and school outcomes that the study will address.

--Task 3: Development of data collection forms -- The proposal should outline each of the proposed data collection instruments and the major elements to be included in each instrument. The offeror should recommend appropriate data elements beyond those included in the statement of work. The offeror should also give examples of the types of questions to be asked and discuss how to obtain valid responses.

In developing the data collection instruments and designing the impact study, offerors are expected to build upon and coordinate with the other data sources identified in this statement of work. The principal additional data source to be considered is data collected by grantees in fulfillment of ED's annual performance reporting requirements. Annual performance reports will be submitted to ED by all grantees. They will contain basic information on a limited number of demographic characteristics of student participants, as well as somewhat less reliable information on student services and outcomes. Final performance indicators, including instructions for data collection and a standardized reporting format, will be developed by ED during the Summer of 1999. The offeror should be responsible for collecting and analyzing annual program performance report data beginning in Spring 2000 as specified under Task 6.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

In developing the in-depth case study instruments, the offeror should be mindful that the focus of the in-depth case study is student-centered, and the student participating in GEAR UP is the primary unit of analysis. Activities sponsored by GEAR UP projects are but one of the many sources of guidance, information and instruction shaping students' attitudes toward school, academic achievement, and postsecondary aspirations and preparation. Recognizing that GEAR UP may play a modest role in the lives of many students compared to parents, teachers, and peers, a student-focused case study would try to understand where GEAR UP "fits" with these other educational and community resources, and why it may play a larger role in the development of some students than others.

--Task 8: Data analysis and report preparation -- The offerors should propose the format of each report including an executive summary. Each report should document the study procedures, problems encountered and methods used to address these problems, and findings from the evaluation. The two major reports should also discuss any policy implications of study findings.

In considering the evaluation methodology, the offeror should select the design considered most appropriate for the study, and discuss the advantages and disadvantages of the design proposed as well as alternative approaches if assumptions are not met. The offeror should consider issues such as a projects ability to track student participation, effects of attrition on comparability of treatment and control groups, and other factors that may affect feasibility. In designing the GEAR UP participant and control/comparison samples and associated data collection strategies, the offeror should give consideration to methodological rigor and the practical realities of GEAR UP projects as they operate in the field.

1.4 Qualifications of key staff. The offeror's proposed personnel must meet the required qualifications for of key project staff in the Evaluation Criteria. The proposal should include a chart summarizing the expertise and experiences relevant to the study for key personnel (project director, senior analysts, and consultants).

For all except clerical staff, resumes should be provided showing each person's educational background, including specifications and degrees held, and relevant professional experiences (including dates) and publications. The resumes should clearly show the relation between each person's relevant qualifications and the tasks to be performed by that person. ED may request for review the relevant publications of key staff at any time during the negotiations. Resumes should also be provided for any proposed subcontractor or consultant personnel, as well as letters of agreement from them confirming the tasks on which they will work.

If major personnel are unknown at the time of submission, a position description (including job duties, qualifications required, and selection criteria) should be substituted for resumes.

Offerors should devote special attention to the resume of the proposed project director. The resume for the project director should include research experience in educational policy and evaluation, large scale project management and design, academic and support services for middle- and high-school students, sampling, experimental and quasi-experimental design and analysis, survey and case study research, and interviewing and interpersonal skills. Offerors should provide a detailed justification of the project director's qualifications for each task. The project director should have at least three years experience in most of the

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

above areas.

The project director's resume should contain a section on experience with evaluation contracts (Federal, state, local government, or private). Included in this section should be the project director's experience in monitoring contract budgets, adhering to project schedules, ensuring the quality and timeliness of contract deliverables, and dealing with other agencies and offices on policy and evaluation issues.

Key personnel should possess clearly identified qualifications, competencies and experience in managing similar types of complex evaluation studies. Additionally, key personnel (the project director and senior analysts) assigned to this project should demonstrate all of the following as a group and the appropriate experience for tasks for which they are proposed:

- Successful experiences in studies of mentoring, early intervention, and college awareness and preparation programs as they relate to school performance and college preparatory behaviors.
- Successful experiences in conducting case studies and experimental evaluations of educational programs.
- Ability to write in a well-organized and clear fashion as demonstrated by the proposal.

The offerors should indicate all other contracts to which each proposed staff member is currently committed or has been proposed to be committed, giving the percentage of time each commitment represents.

1.5 Corporate experience. This section should describe the offeror's relevant past and current experience in conducting studies of a similar or comparable nature. Brief summaries of such work should be submitted, including the dates of the work and names, current affiliations, and current telephone numbers of the Contracting Officers Technical Representative. The required qualifications for corporate performance records and offeror's experience are stated in the Evaluation Criteria.

1.6 Management plan. The offeror should provide a summary description of the management control system that is used internally for planning, scheduling, budgeting, managing, and reporting the accomplishments of this requirement. The offeror must describe how the internal management control system will be applied to the work of this proposal as specified in the Evaluation Criteria. The application of the proposed management system should include procedures for controlling expenditures and producing reports of expenditures by staff and tasks; procedures for controlling the quality and procedures for early identification of potential problems in carrying out task activities and their resolution.

In addition to describing the management system the offeror should present the following information in the proposal:

1. An organization chart that indicates all personnel, their commitments to each task, and the proposed lines of authority, coordination, and communication with the offering organization and with subcontractors (if any), and with ED;
2. Subcontractual arrangements including work to be done, responsibilities for tasks,

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

reporting arrangements, and any other terms of the agreement. A letter from the proposed subcontractor delineating the nature of the agreement must be included; and

3. The project director is expected to make a substantial commitment of time to this study. The proposal should indicate all existing contractual obligations to both Federal and non-Federal contractual commitment (as well as outside consulting assignments) over the period of the study for staff proposed for the study, including the percentage of time allotted to existing contracts.

Time commitments, to be expressed in person-hours and shown in tabular form as follows:

Staff Member	Task 1	Task 15	Total	%FTE
--------------	--------	---------	-------	------

_____	_____	_____	_____	_____
-------	-------	-------	-------	-------

A schedule for task activities and the delivery of products in calendar months from the effective date of the contract;

Charts (e.g., GANTT charts) showing the interrelationships of tasks plotted on a time scale.

B. Use of subcontractors and consultants

Proposals may include plans to subcontract parts of the work, provided that evidence is presented that any proposed subcontractor is fully capable of performing the assigned tasks, and that the offeror has effective control of the participation of the subcontractor(s) in the project.

Consultants should serve on this study, as indicated in the Statement of Work. Letter(s) by proposed subcontractors/consultants indicating willingness to serve, if selected, must be included with the offeror's proposal.

C. Computer facility

It is anticipated that the data processing for this requirement will be accomplished using the offeror's micro-computers and will not involve the use of government computer facilities. If micro-computers cannot be used, it is necessary to propose conducting all automatic data processing (ADP) or computer-oriented work required under this proposal using Government-furnished computer facilities. This requirement may be waived if the offeror can show that using other facilities would be more advantageous to the government. In any event, the technical proposal must justify the choice of ADP activities and the business proposal must specifically estimate the cost of the ADP activities, which will be involved in the performance of this contract. If it is necessary to use a government computer facility, the required funds will not be part of the award to the contractor but will be held in reserve at ED for payment to the facility.

D. Level of Effort

The Government estimates that the level of effort required to undertake Parts I and II (Tasks 1-8) as described in this statement of work is approximately 30 person years. Should the Government exercise Task 9, the estimated level of effort is 4 and 1/3 person years.

L.12. 314-1

PAST PERFORMANCE REPORT (MAR 1996)

Each offeror shall submit the following information as a separately bound part of its proposal for both the offeror and proposed major subcontractors. Major, as defined here and in the remainder of sections L and M regarding past performance, is any subcontractor that is subcontracted for a minimum of 25% of the total contract amount. Each major subcontractor shall identify the name of the prime contractor on each of its past performance forms. If the offeror has no relevant corporate or organizational past performance, the offeror may substitute past performance of a predecessor company or of the offeror's management or proposed key personnel who have relevant experience.

A. Each offeror shall submit information about its most recent four contracts, completed in the last three years or currently in process, which are of similar size, scope, complexity or, in any way, are relevant to the effort required by this solicitation. If the offeror's last four similar contracts are all currently in process, submit the last three similar contracts currently in process, and the most recent similar contract completed within the last three years. Contracts listed may include those entered into by the Federal Government, agencies of State and local governments and commercial customers. Contracts with the parent or an affiliate of the offeror may not be used.

Include the following information for each contract and subcontract:

1. Identification
 - a. Name of the contracting activity
 - b. Program title or product name
 - c. Contract number
 - d. Contract type
 - e. Period of performance, including all option periods
 - f. Contract Value:
 - (1) Initial projected total contract amount including all option periods
 - (2) Final or current projected total contract amount including all option periods
 - g. Points of Contact
 - (1) Contracting officer and telephone and fax number and e-mail address (if known)
 - (2) Administrative contracting officer, if different from above, and telephone and fax number and e-mail address (if known)
 - (3) Program manager, COTR or technical officer and telephone and fax number and e-mail

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

address (if known)

2. Work performed and relevance
 - a. Brief synopsis of work performed
 - b. Brief discussion of how the work performed is relevant to the statement of work in this solicitation
 - c. Brief, specific examples of the offeror's high quality performance
3. If any of the listed contracts are award-fee or incentive contracts, include a table showing fees awarded and the minimum and maximum available fee for each period.
4. Paragraph E. below requires you to send a copy of the "Contractor Information Form" to each of your references. In your past performance report, include:
 - a. The date you sent the "Contractor Information Form" to each reference.
 - b. How you sent it (e.g., fax, mail, express delivery service, courier, e-mail, etc.).
 - c. To whom you sent it including telephone and fax number and e-mail address (if known).

B. The offeror may provide information on problems encountered on the contracts and subcontracts identified in A above and corrective actions taken to resolve those problems. Other than the information requested in A above, offerors should not provide general information on their performance on the identified contracts. General performance information will be obtained from the references.

C. Offerors should understand the difference between experience and past performance. Experience reflects the offeror's capability of performing a requirement. Past performance reflects how well it has performed similar requirements. In assessing past performance, the quality of the offeror's past performance is of primary significance, not the quantity of previous contracts performed. An offeror's experience will be evaluated in the technical proposal. For further guidance on including information on experience or how experience will be evaluated refer to the technical proposal instructions and evaluation criteria.

D. The offeror may describe any quality awards or certifications that indicate the offeror possesses a high-quality process for developing and producing the product or service required. Such awards or certifications include, for example, the Malcolm Baldrige Quality Award, other government quality awards, and private sector awards or certifications (e.g., the automobile industry's QS 9000, Sematech's SSQA, or ANSI/EIA-599).

Identify which segment of the company (one division or the entire company) received the award or certification. Describe when the award or certification was bestowed. If the award or certification is over three years old, present evidence that the qualifications still apply. Information about awards will be considered in evaluation of each of

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

the past performance subfactors described in Section M. The offeror may describe how the award relates to one or more of the subfactors.

E. No later than the date proposals are due under this solicitation (see Block 9 of Standard Form 33), send a copy to each of your four references of the "Contractor Performance Information" form attached to this solicitation. Ask each reference to complete the form and return it to the contracting officer as prescribed on the form. Completed forms from references are due 10 calendar days after the date proposals are due under this solicitation. Request that the reference please return the completed form to the contracting officer by this date. Do not ask the reference to give you a copy of the completed form or any information therefrom. Beyond that initial request, you do not need to follow up with the reference; the contracting officer will contact the reference if necessary.

F. Each offeror will be evaluated on its performance under existing and prior contracts for similar products or services. Performance information will be used for both responsibility determinations and as an evaluation factor against which offerors' relative rankings will be compared to assure best value to the government. The government will focus on information that demonstrates quality of performance relative to the size and complexity of the procurement under consideration. The "Contractor Performance Information" form identified in Section J will be used to collect this information. References other than those identified by the offeror may be contacted by the Government with the information received in the evaluation of the offeror's past performance.

L.13. 3452.232-71

INCREMENTAL FUNDING (AUG 1987)

(a) Sufficient funds are not presently available to cover the total cost of the complete project described in this solicitation. However, it is the Government's intention to negotiate and award a contract using the incremental funding concepts described in the clause titled 'Limitation of Funds' in FAR 52.232-22. Under that clause, which will be included in the resultant contract, initial funds will be obligated under the contract to cover an estimated base performance period. Additional funds are intended to be allotted to the contract by contract modification, up to and including the full estimated cost of the entire period of performance. This intent notwithstanding, the Government will not be obligated to reimburse the contractor for cost incurred in excess of the periodic allotments, nor will the contractor be obligated to perform in excess of the amount allotted.

(b) The Limitation of Cost clause in FAR 52.232-20 shall supersede the Limitation of Funds clause in the event the contract becomes fully funded.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

FACILITIES CAPITAL COST OF MONEY (OCT 1997)

(a) Facilities capital cost of money will be an allowable cost under the contemplated contract, if the criteria for allowability in subparagraph 31.205-10(a)(2) of the Federal Acquisition Regulation are met. One of the allowability criteria requires the prospective contractor to propose facilities capital cost of money in its offer.

(b) If the prospective Contractor does not propose this cost, the resulting contract will include the clause Waiver of Facilities Capital Cost of Money.

(End of provision)

L.15. 52.215-20

REQUIREMENTS FOR COST OR PRICING DATA OR INFORMATION OTHER THAN COST OR PRICING DATA (OCT 1997)

(a) Exceptions from cost or pricing data. (1) In lieu of submitting cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following subparagraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) Identification of the law or regulation establishing the price offered. If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) Commercial item exception. For a commercial item exception, the offeror shall submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include--

(A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), e.g., wholesale, original equipment manufacturer, reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;

(B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;

(C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

(2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the offeror's determination of the prices to be offered in the catalog or marketplace.

SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS

(b) Requirements for cost or pricing data. If the offeror is not granted an exception from the requirement to submit cost or pricing data, the following applies:

(1) The offeror shall prepare and submit cost or pricing data and supporting attachments in accordance with Table 15-2 of FAR 15.408.

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

(End of provision)

L.16. 52.219-9

SMALL BUSINESS SUBCONTRACTING PLAN (JAN 1999)

(a) This clause does not apply to small business concerns.

(b) Definitions. As used in this clause--

"Commercial item" means a product or service that satisfies the definition of commercial item in section 2.101 of the Federal Acquisition Regulation.

"Commercial plan" means a subcontracting plan (including goals) that covers the offeror's fiscal year and that applies to the entire production of commercial items sold by either the entire company or a portion thereof (e.g., division, plant, or product line).

"Individual contract plan" means a subcontracting plan that covers the entire contract period (including option periods), applies to a specific contract, and has goals that are based on the offeror's planned subcontracting in support of the specific contract, except that indirect costs incurred for common or joint purposes may be allocated on a prorated basis to the contract.

"Master plan" means a subcontracting plan that contains all the required elements of an individual contract plan, except goals, and may be incorporated into individual contract plans, provided the master plan has been approved.

"Subcontract" means any agreement (other than one involving an employer-employee relationship) entered into by a Federal Government prime Contractor or subcontractor calling for supplies or services required for performance of the contract or subcontract.

(c) The offeror, upon request by the Contracting Officer, shall submit and negotiate a subcontracting plan, where applicable, that separately addresses subcontracting with small business, HUBZone small business concerns, small disadvantaged business, and women-owned small business concerns. If the offeror is submitting an individual contract plan, the plan must separately address subcontracting with small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns, with a separate part for the basic contract and separate parts for each option (if any). The plan shall be included in and made a part of the resultant contract. The subcontracting plan shall be negotiated within the time specified by the Contracting Officer. Failure to submit and negotiate the subcontracting plan shall make the offeror ineligible for award of a contract.

(d) The offeror's subcontracting plan shall include the following:

(1) Goals, expressed in terms of percentages of total planned subcontracting dollars, for the use of small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns, as subcontractors. The offeror shall include all subcontracts

that contribute to contract performance, and may include a proportionate share of products and services that are normally allocated as indirect costs.

(2) A statement of--

(i) Total dollars planned to be subcontracted for an individual contract plan; or the offeror's total projected sales, expressed in dollars, and the total value of projected subcontracts to support the sales for a commercial plan;

(ii) Total dollars planned to be subcontracted to small business concerns;

(iii) Total dollars planned to be subcontracted to HUBZone small business concerns;

(iv) Total dollars planned to be subcontracted to small disadvantaged business concerns; and

(v) Total dollars planned to be subcontracted to women-owned small business concerns.

(3) A description of the principal types of supplies and services to be subcontracted, and an identification of the types planned for subcontracting to--

(i) Small business concerns;

(ii) HUBZone small business concerns;

(iii) Small disadvantaged business concerns; and

(iv) Women-owned small business concerns.

(4) A description of the method used to develop the subcontracting goals in paragraph (d)(1) of this clause.

(5) A description of the method used to identify potential sources for solicitation purposes (e.g., existing company source lists, the Procurement Marketing and Access Network (PRO-NET) of the Small Business Administration (SBA), the list of certified small disadvantaged business concerns of the SBA, the National Minority Purchasing Council Vendor Information Service, the Research and Information Division of the Minority Business Development Agency in the Department of Commerce, or small, HUBZone small disadvantaged and women-owned small business trade associations). A firm may rely on the information contained in PRO-NET as an accurate representation of a concern's size and ownership characteristics for the purposes of maintaining a small and women-owned small business source list. A firm shall rely on the information contained in SBA's list of small disadvantaged business concerns as an accurate representation of a concern's size and ownership characteristics for the purposes of maintaining a small disadvantaged business source list. Use of PRO-NET and/or the SBA list of small disadvantaged business concerns as its source lists does not relieve a firm of its responsibilities (e.g., outreach, assistance, counseling, publicizing subcontracting opportunities) in this clause.

(6) A statement as to whether or not the offeror included indirect costs in establishing subcontracting goals, and a description of the method used to determine the proportionate share of indirect costs to be incurred with--

(i) Small business concerns;

(ii) HUBZone small business concerns;

(iii) Small disadvantaged business concerns; and

(iv) Women-owned small business concerns.

(e) In order to effectively implement this plan to the extent consistent with efficient contract performance, the Contractor shall perform the following functions:

(1) Assist small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns by arranging solicitations, time for the preparation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation by such concerns. (1) The master plan has been approved;

(2) The offeror ensures that the master plan is updated as necessary and provides copies of the approved master plan, including evidence of its approval, to the Contracting Officer; and

(3) Goals and any deviations from the master plan deemed necessary by the Contracting Officer to satisfy the requirements of this contract are set forth in the individual subcontracting plan.

(g) A commercial plan is the preferred type of subcontracting plan for contractors furnishing commercial items. The commercial plan shall relate to the offeror's planned subcontracting generally, for both commercial and Government business, rather than solely to the Government contract. Commercial plans are also preferred for subcontractors that provide commercial items under a prime contract, whether or not the prime contractor is supplying a commercial item.

(h) Prior compliance of the offeror with other such subcontracting plans under previous contracts will be considered by the Contracting Officer in determining the responsibility of the offeror for award of the contract.

SECTION M
EVALUATION FACTORS FOR AWARD

M.1. 312-2

EVALUATION FACTORS FOR AWARD (FEB 1996)

(A) The Government will make award to the responsible offeror(s) whose offer conforms to the solicitation, has no deficiencies (as defined in FAR 15.301) and is most advantageous to the Government, cost or price and other factors considered. For this solicitation, price will be a substantial factor in source selection, however quality factors (including technical merit and past performance), considered together, are significantly more important than cost or price. The contracting officer will determine whether the difference in quality is worth the difference in cost or price.

(B) Past Performance

1. Each offeror's past performance will be evaluated based on the subfactors below. The past performance rating will be combined with the technical rating at a ratio of 36% past performance to technical to produce a combined quality rating. The relative importance of combined quality factors to cost or price is described in paragraph (A).
2. Past performance subfactors:
 - a. Quality of Product or Service - compliance with contract requirements - accuracy of reports - appropriateness of personnel - technical excellence.
 - b. Problem Resolution - anticipates and avoids or mitigates problems - satisfactorily overcomes or resolves problems - prompt notification of problems - pro-active - effective contractor-recommended solutions.
 - c. Cost Control - within budget - current, accurate and complete billings - costs properly allocated - unallowable costs not billed - relationship of negotiated costs to actual - cost efficiencies.
 - d. Timeliness of Performance - meets interim milestones - reliable - stays on schedule despite problems - responsive to technical direction - completes on time, including wrap-up and contract administration - no liquidated damages assessed.
 - e. Business Relations - effective management - use of performance-based management techniques - business-like concern for the customer's interests - effective management and selection of subcontractors - effective small/small disadvantaged business subcontracting program - reasonable/cooperative behavior - effective use of technology in management and communication - flexible - minimal staff turnover - maintains high employee morale - resolves disagreements without being unnecessarily litigious.
 - f. Customer Service - understands and embraces service and program goals - team approach with the customer - satisfaction of end users with the contractor's service - positive customer feedback - prompt responses - courteous interactions - effective escalations and referrals - initiative and proactive improvements - creative service

EVALUATION FACTORS FOR AWARD

strategies.

Bonus Rating--Where the offeror has demonstrated an exceptional performance level in any of the above six subfactors, the contracting officer may give additional consideration for that factor. It is expected that this rating will be used in those rare circumstances when contractor performance clearly exceeds the performance level of "excellent."

3. Past performance evaluation will be based on information obtained from the awards and references listed in the offeror's proposal, other customers known to the Government, consumer protection organizations, and others who may have useful and relevant information. Information will also be considered regarding any major subcontractors, and key personnel records. The currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance will be considered. The contracting officer will give greater consideration to information about an offeror's past performance that the contracting officer considers either more reliable or more relevant to the effort required by this solicitation.
4. Evaluation of past performance may be quite subjective, based on consideration of all relevant facts and circumstances. It will include consideration of the offeror's commitment to customer satisfaction and will include conclusions of informed judgement.
5. An offeror will be given an opportunity to discuss adverse past performance information, if the offeror has not had a previous opportunity to comment on the information. The contracting officer may review recent contracts to ensure that corrective measures raised in discussions have been implemented. Prompt corrective action in an isolated instance might not outweigh an overall negative trend.
6. If no relevant information on past performance is available for an offeror, the offeror will not be evaluated favorably or unfavorably credit.

(C) Technical Evaluation Criteria: In accordance with the technical evaluation criteria, technical solutions that exceed any mandatory minimums will be given appropriate evaluation credit.
