The State reported that one district was identified as having a significant discrepancy in the rate of suspensions and expulsions of greater than ten days in a school year for children with IEPs.

The State reported that it used a minimum "n" size requirement; however, OSEP is unable to determine whether any districts did not meet the State-established minimum “n” size.

The State reported that it reviewed the district’s policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards to ensure compliance with the IDEA, as required by 34 CFR §300.170(b) for the district identified with significant discrepancies in FFY 2011. The State identified noncompliance through this review.

The State reported that it revised (or required the affected districts to revise), the districts’ policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards to ensure compliance with the IDEA, pursuant to 34 CFR §300.170(b) for the districts identified with significant discrepancies in FFY 2011.

REQUIRED ACTIONS

The State must report, in its FFY 2012 APR, on the correction of noncompliance that the State identified in FFY 2011 as a result of the review it conducted pursuant to 34 CFR §300.170(b). When reporting on the correction of this noncompliance, the State must report that it has verified that each LEA with noncompliance identified by the State: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the LEA, consistent with OSEP Memo 09-02.⁵ In the FFY 2012 APR, the State must describe the specific actions that were taken to verify the correction.

INDICATOR 4B: The State did not report its definition of “significant discrepancy.”

The State reported that nine districts were identified as having a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than ten days in a school year for children with IEPs. The State reported that it reviewed the districts’ policies, procedures, and practices relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards to ensure compliance with the IDEA, as required by 34 CFR §300.170(b) for the districts identified with significant discrepancies in FFY 2010.

The State reported that 511 of 563 districts did not meet the State-established minimum “n” size requirement of ten or more incidents.

OSEP’s June 2012 FFY 2010 SPP/APR Response Table required the State to include in the FFY 2011 APR, the status of correction of noncompliance identified in FFY 2011 for this indicator for districts with a significant discrepancy based on FFY 2009 discipline data. The State provided all of the required information.

REQUIRED ACTIONS

Because the State reported less than 100% compliance (greater than 0% actual target data for this indicator) for FFY 2011, the State must report on the status of correction of noncompliance identified in FFY 2011 for this indicator. The State must demonstrate, in the FFY 2012 APR, that the districts identified with noncompliance in FFY 2011 have corrected the noncompliance, including that the State verified that each district with noncompliance: (1) is correctly implementing the specific regulatory requirement(s) (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the district, consistent with OSEP Memo 09-02. In the FFY 2012 APR, the State must describe the specific actions that were taken to verify the correction.

INDICATOR 9: The State reported that no districts were identified with disproportionate representation of racial and ethnic groups in special education and related services.

The State provided its definition of “disproportionate representation.”

The State reported that 454 of 569 districts did not meet the State-established minimum “n” size requirement of 20 students in the racial ethnic group and the comparison group of all other racial ethnic groups and were excluded from the calculation.

INDICATOR 10: The State reported that no districts were identified with disproportionate representation of racial and ethnic groups in specific disability categories.

The State provided its definition of “disproportionate representation.”

The State reported that 503 of 569 districts did not meet the State-established minimum “n” size requirement of 20 students for both the racial/ethnic group and the comparison group of all other racial/ethnic groups and were excluded from the calculation.
