Explanatory Note: The percentage of children with disabilities (IDEA) who participated in statewide assessments for reading and mathematics for 4th grade, 8th grade, and one grade in high school. The denominator is the sum of children with disabilities (IDEA) who participated and children with disabilities (IDEA) who did not participate in statewide assessments (excluding those with a significant medical emergency who did not take the assessment). Preliminary data reported for IDEA and CSPR 2011-12 Assessment, accessed 6/3/2013. (Data source: EDFacts SY 2011-12).

Explanatory Note: The percentage of students in the state who scored at or above the Basic level and at or above the Proficient level on the National Assessment of Educational Progress (NAEP), for children with disabilities (IDEA) and children without disabilities. Elementary and Secondary Education Act (ESEA) requires states that receive Title I funding to participate in the state NAEP in reading and mathematics at grades 4 and 8 every two years. State NAEP does not provide individual scores for the students or schools assessed. Instead, NAEP provides results about subject-matter achievement, instructional experiences, and school environment, and reports these results for populations of students (e.g., fourth-graders) and subgroups of those populations (e.g., children with disabilities (IDEA)). (Data source: National Assessment of Educational Progress (NAEP), 2011).
