

UNITED STATES DEPARTMENT OF EDUCATION

OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES

Honorable Rosa Perez Perdomo  
Secretary  
Commonwealth of Puerto Rico  
Department of Health  
P.O. Box 70184  
San Juan, Puerto Rico 00936-8184

MAR 20 2006

Dear Secretary Perdomo:

Thank you for your timely submission of the Puerto Rico Department of Health's State Performance Plan (SPP) for review under Part C of the Individuals with Disabilities Education Act (IDEA). Section 616(b) of the Act requires States to submit, within one year after the date of enactment of the reauthorized IDEA, an SPP that evaluates the State's efforts to implement the requirements and purposes of IDEA and describes how the State will improve implementation. We appreciate the Puerto Rico Department of Health's (PRDH) efforts in preparing the SPP under a short timeline and in the face of many other competing priorities. In the SPPs, due by December 2, 2005, States were to include: (1) baseline data that reflect the State's efforts to implement Part C of the IDEA; (2) measurable and rigorous targets for the next six years for each of the indicators established by the Secretary in the priority areas under section 616(a) of the IDEA; and (3) activities the State will undertake to improve implementation of Part C.

The Office of Special Education Programs (OSEP) is pleased to inform you that PRDH's SPP under Part C meets the requirements of section 616(b) to include measurable and rigorous targets and improvement activities. The targets for each of the 14 indicators were measurable and demonstrated the intent of the State to improve performance and compliance for infants and toddlers with disabilities and their families. PRDH must make its SPP available through public means, including posting on PRDH's website, distribution to the media, and distribution through public agencies. (Section 616(b)(2)(C)(i)(I))

Under section 616(b)(2)(C)(ii)(II) of the Act, the State must annually report to OSEP on its performance under the SPP. The State's first Annual Performance Report (APR) on its progress in meeting its targets is due to OSEP by February 1, 2007. Attached to this letter you will find Table A that addresses issues identified during our review of the SPP that – while not requiring disapproval of your plan – will affect our annual determination of State performance and compliance based on data presented in the State's APR. As a result, your State needs to provide additional information as part of its February 2007 APR submission. Table B includes OSEP's analysis of your submission related to previously-identified noncompliance or other issues included in our October 14, 2005 letter that responded to PRDH's Federal fiscal year (FFY) 2003 APR, that also may require additional reporting.

In addition to reporting to OSEP, the State must report annually to the public on the performance

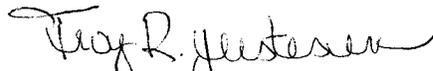

of each early intervention service (EIS) program located in the State on the targets in the State's performance plan. (Section 616(b)(2)(C)(ii)(I)) The requirement for public reporting on EIS program performance is a critical provision related to ensuring accountability and focusing on improved results for infants and toddlers with disabilities. OSEP will be providing technical assistance regarding the reporting on EIS program performance at the National Accountability Conference, September 18 and 19, 2006 in Denver and through periodic technical assistance conference calls.

We hope that the PRDH found the August 5, 2005 guidance on submission of the SPPs and the technical assistance that we provided through the August 11-12, 2005 Summer Institute, periodic conference calls, and the SPP Resources website helpful in this endeavor. If you have any feedback on our past technical assistance efforts or the needs of States for guidance, we would be happy to hear from you as we work to develop further mechanisms to support State improvement activities.

OSEP's October 14, 2005 letter directed the State to submit final documentation of correction of noncompliance by March 10, 2006. The State's longstanding noncompliance, related to: (1) the timely provision of early intervention service requirements under 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1); and (2) the timely complaint resolution under 34 CFR §303.512 are reported under Indicators 1 and 10 in Table B. The State must provide data demonstrating compliance with these requirements by June 1, 2006. Failure to provide data by that time demonstrating compliance may result in the State's being designated a "high risk" grantee or otherwise affect its FFY 2006 grant award.

Thank you for your continued work to improve results for infants and toddlers with disabilities and their families. We encourage you to work closely with your State Contact as you proceed in implementing improvement activities and developing your APR. If you have any questions regarding the SPP or the APR, please contact Linda Whitsett at 202-245-7573.

Sincerely,

Troy R. Justesen  
Acting Director  
Office of Special Education  
Programs
