<b>Monitoring Priorities and Indicators</b>	<b>Status of APR Data/SPP Revision Issues</b>	<b>OSEP Analysis/Next Steps</b>
<p>1. Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner.</p> <p>[Compliance Indicator]</p>	<p>The State revised the improvement activities for this indicator and OSEP accepts those revisions.</p> <p>The State's FFY 2008 reported data for this indicator are 94%. These data represent progress from the FFY 2007 data of 89%. The State did not meet its FFY 2008 target of 100%.</p> <p>The State reported that 13 of 14 findings of noncompliance identified in FFY 2007 were corrected in a timely manner and that the remaining finding subsequently was corrected by June 30, 2009.</p> <p>The State reported that two remaining findings of noncompliance identified in FFY 2006 for this indicator were corrected.</p> <p>The State was identified as being in need of assistance for two consecutive years based on the State's FFYs 2006 and 2007 APRs, was advised of available technical assistance, and was required to report, with the FFY 2008 APR, on: (1) the technical assistance sources from which the State received assistance; and (2) the actions the State took as a result of that technical assistance. The State reported on the technical assistance sources from which the State received assistance for this indicator and reported on the actions the State took as a result of that technical assistance.</p> <p>The State was also identified as being in need of assistance based on its FFY 2005 APR. In addition to reporting with the FFY 2008 APR on its use of technical assistance, the State was also required to report to OSEP by October 1, 2009 how the technical assistance selected by the State is addressing the factors contributing to the ongoing noncompliance. The State submitted the required information on September 28, 2009.</p>	<p>The State must demonstrate, in the FFY 2009 APR due February 1, 2011, that the State is in compliance with the timely service provision requirements in 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1). Because the State reported less than 100% compliance for FFY 2008, the State must report on the status of correction of noncompliance reflected in the data the State reported for this indicator.</p> <p>When reporting the correction of noncompliance, the State must report, in its FFY 2009 APR, that it has verified that each EIS program with noncompliance reflected in the data the State reported for this indicator: (1) is correctly implementing 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1) (i.e., achieved 100% compliance) based on updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has initiated services, although late, for any child whose services were not initiated in a timely manner, unless the child is no longer within the jurisdiction of the EIS program, consistent with OSEP Memorandum 09-02, dated October 17, 2008 (OSEP Memo 09-02). In the FFY 2009 APR, the State must describe the specific actions that were taken to verify the correction.</p> <p>If the State does not report 100% compliance in the FFY 2009 APR, the State must review its improvement activities and revise them, if necessary.</p>

<p>2. Percent of infants and toddlers with IFSPs who primarily receive early intervention services in the home or community-based settings.</p> <p>[Results Indicator]</p>	<p>The State revised the indicator and measurement language (consistent with revisions in the Indicator Measurement Table) and improvement activities for this indicator and OSEP accepts those revisions.</p> <p>The State's FFY 2008 reported data are 97%. Although the State's FFY 2008 data under IDEA section 618 for this indicator are 80%, the State explained that the 618 data included children under age three who were receiving Part B services pursuant to the State's FAPE mandate for two year olds, and that the State did not include those children in its calculations for this indicator since these children have IEPs not IFSPs. The data that the State reported in its FFY 2008 APR reflect a high level of performance for this indicator. The State did not meet its FFY 2008 target of 98%.</p>	<p>The State's actual target data for provision of services to infants and toddlers in natural environments are at or greater than 95%. There is no expectation that an increase in that percentage is necessary. OSEP appreciates the State's efforts to improve performance and assumes that the State is monitoring to ensure that IFSP teams are making service setting decisions on an individualized basis and in compliance with 34 CFR §§303.12, 303.18, and 303.344(d)(1)(ii).</p>
