Monitoring Priorities and Indicators	Status of APR Data/SPP Revision Issues	OSEP Analysis/Next Steps
<p>1. Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner.</p> <p>[Compliance Indicator]</p>	<p>American Samoa provided targets for FFY 2011 and FFY 2012, and improvement activities through FFY 2012, and OSEP accepts those revisions.</p> <p>American Samoa’s FFY 2009 data for this indicator are 86%. However, OSEP cannot determine whether these data are valid and reliable because, as noted in American Samoa’s Verification Visit letter dated March 4, 2011, American Samoa acknowledged that it failed to provide Part C services to eligible children between June 2009 and August 2010 (including all of FFY 2009). Therefore, OSEP could not determine whether there was progress or slippage or whether American Samoa met its target.</p> <p>OSEP’s June 3, 2010 response table required American Samoa to report that it has verified correction of the three remaining findings of noncompliance identified in FFY 2007, and it: (1) is correctly implementing 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1) (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has initiated services, although late, for any child whose services were not initiated in a timely manner, unless the child is no longer within the jurisdiction of American Samoa, consistent with OSEP Memorandum 09-02, dated October 17, 2008 (OSEP Memo 09-02). American Samoa did not report that it met these requirements. Therefore, American Samoa has not demonstrated that it corrected the noncompliance.</p>	<p>American Samoa did not provide valid and reliable data based on the required measurement and American Samoa must provide the required data based on the required measurement, for FFY 2009 in the FFY 2010 APR, due February 1, 2012.</p> <p>American Samoa must demonstrate, in the FFY 2010 APR, that the remaining three uncorrected noncompliance findings identified in FFY 2007 were corrected.</p> <p>American Samoa’s failure to correct longstanding noncompliance raises serious questions about the effectiveness of American Samoa’s general supervision system. American Samoa must take the steps necessary to ensure that it provides Part C services to eligible children in a timely manner and that it can report, in the FFY 2010 APR, that it has corrected this noncompliance.</p> <p>American Samoa must demonstrate, in the FFY 2010 APR, that American Samoa is in compliance with the timely service provision requirements in 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1).</p>

		<p>Because American Samoa reported less than 100% compliance for FFY 2009, American Samoa must report on the status of correction of noncompliance reflected in the data American Samoa reported for this indicator. If American Samoa does not report 100% compliance in the FFY 2010 APR, American Samoa must review its improvement activities and revise them, if necessary.</p> <p>When reporting on the correction of noncompliance, American Samoa must report, in its FFY 2010 APR, that it has verified that for noncompliance reflected in the FFY 2009 data American Samoa reported for this indicator and the remaining noncompliance identified in FFY 2007 it: (1) is correctly implementing 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1) (i.e., achieved 100% compliance) based on updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has initiated services, although late, for any child whose services were not initiated in a timely manner, unless the child is no longer within the jurisdiction of the EIS program, consistent with OSEP Memorandum 09-</p>

There is no expectation that an increase in that percentage is necessary. OSEP appreciates American Samoa's efforts to improve performance and assumes that American Samoa is monitoring to ensure that IFSP teams are making service setting decisions on an individualized basis and in compliance with 34 CFR §§303.12, 303.18, and 303.344(d)(1)(ii).</p>
