Monitoring Priorities and Indicators	Status of APR Data/SPP Revision Issues	OSEP Analysis/Next Steps
<p>The IDEA Part C regulations cited in this APR Response Table as 34 CFR §303.xxx are those regulations which were in effect during FFY 2010. If the State has chosen to implement any of the new regulations published in 76 Federal Register 60140 (September 28, 2011) prior to the required implementation date of July 1, 2012 for a regulation that impacts the measurements for an SPP/ APR indicator, the State must so indicate in its FFY 2011 APR, due February 1, 2013.</p>		
<p>1. Percent of infants and toddlers with IFSPs who receive the early intervention services on their IFSPs in a timely manner. [Compliance Indicator]</p>	<p>The State’s FFY 2010 data for this indicator are 93.4%. These data represent slippage from the FFY 2009 data of 95%. The State did not meet its FFY 2010 target of 100%.</p> <p>The State reported that it used data from a State database to report on this indicator. The State further reported that it did not use data for the full reporting period (July 1, 2010-June 30, 2011), and the State described how the time period in which the data were collected accurately reflect data for infants and toddlers with IFSPs for the full reporting period.</p> <p>The State reported that four of five findings of noncompliance identified in FFY 2009 were corrected in a timely manner. The State reported on the actions it took to address the uncorrected noncompliance.</p>	<p>The State must demonstrate, in the FFY 2011 APR, that the State is in compliance with the timely service provision requirements in 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1). Because the State reported less than 100% compliance for FFY 2010, the State must report on the status of correction of noncompliance identified in FFY 2010 for this indicator.</p> <p>The State must demonstrate, in the FFY 2011 APR, that the one remaining uncorrected noncompliance finding identified in FFY 2009 was corrected.</p> <p>When reporting on the correction of noncompliance, the State must report, in its FFY 2011 APR, that it has verified that each EIS program with noncompliance identified in FFY 2010 and FFY 2009 for this indicator: (1) is correctly implementing 34 CFR §§303.340(c), 303.342(e), and 303.344(f)(1) (i.e., achieved 100% compliance) based on updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has initiated services, although late, for any</p>

In the FFY 2011 APR, the State must describe the specific actions that were taken to verify the correction.</p> <p>If the State does not report 100% compliance in the FFY 2011 APR, the State must review its improvement activities and revise them, if necessary to ensure compliance.</p>				
<p>2. Percent of infants and toddlers with IFSPs who primarily receive early intervention services in the home or community-based settings. [Results Indicator]</p>	<p>The State's FFY 2010 reported data for this indicator are 95.3%. The State's data reflect a high level of performance for this indicator. The State met its FFY 2010 target of 93%.</p>	<p>The State's FFY 2010 data for provision of services to infants and toddlers in natural environments are at or greater than 95%. There is no expectation that an increase in that percentage is necessary. OSEP appreciates the State's efforts to improve performance and assumes that the State is monitoring to ensure that IFSP teams are making service setting decisions on an individualized basis and in compliance with 34 CFR §§303.12, 303.18, and 303.344(d)(1)(ii).</p>
