Nevada FFY 2012 Compliance Data Summary Notes

INDICATOR 1: The State was identified as being in need of assistance for two consecutive years based on the State's FFY 2010 and FFY 2011 APRs, was advised of available technical assistance, and was required to report, with the FFY 2012 APR, on: (1) the technical assistance sources from which the State received assistance; and (2) the actions the State took as a result of that technical assistance. The State reported on the technical assistance sources from which the State received assistance for this indicator and reported on the actions the State took as a result of that technical assistance.

The State reported that seven of 15 findings of noncompliance identified in FFY 2008 were corrected. For the uncorrected noncompliance, the State reported on the actions it took to address the uncorrected noncompliance.

REQUIRED ACTIONS

Because the State reported less than 100% compliance for FFY 2012, the State must report on the status of correction of noncompliance identified in FFY 2012 for this indicator. In addition, the State must demonstrate, in the FFY 2013 APR, that the remaining three uncorrected findings of noncompliance identified in FFY 2011 and the remaining eight uncorrected findings of noncompliance identified in FFY 2008 were corrected. When reporting on the correction of noncompliance, the State must report, in its FFY 2013 APR, that it has verified that each EIS program with findings of noncompliance identified in FFY 2012 and each EIS program or provider with remaining findings of noncompliance identified in FFY 2011 and in FFY 2008: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the EIS program or provider, consistent with OSEP Memo 09-02.⁴ In the FFY 2013 APR, the State must describe the specific actions that were taken to verify the correction.

⁴ OSEP Memorandum 09-02 (OSEP Memo 09-02), dated October 17, 2008, requires that the State report that it verified that each EIS program or provider with noncompliance: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the EIS program or provider.

INDICATOR 7: The State reported that it used data from a State database to report on this indicator. The State further reported that it did not use data for the full reporting period (July 1, 2012-June 30, 2013), and the State described how the time period in which the data were collected accurately reflects data for infants and toddlers with IFSPs for the full reporting period.

The State reported that one finding of noncompliance identified in FFY 2010 was corrected.

REQUIRED ACTIONS

Because the State reported less than 100% compliance for FFY 2012, the State must report on the status of correction of noncompliance identified in FFY 2012 for this indicator. When reporting on the correction of noncompliance, the State must report, in its FFY 2013 APR, that it has verified that each EIS program or provider with noncompliance identified in FFY 2012 for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the EIS program or provider, consistent with OSEP Memo 09-02. In the FFY 2013 APR, the State must describe the specific actions that were taken to verify the correction.

INDICATOR 8A:

REQUIRED ACTIONS

Because the State reported less than 100% compliance for FFY 2012, the State must report on the status of correction of noncompliance identified in FFY 2012 for this indicator. When reporting on the correction of noncompliance, the State must report, in its FFY 2013 APR, that it has verified that each EIS program or provider with noncompliance identified in FFY 2012 for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the EIS program or provider, consistent with OSEP Memo 09-02. In the FFY 2013 APR, the State must describe the specific actions that were taken to verify the correction.

INDICATOR 8C: The State reported that it used data from a State database to report on this indicator. The State further reported that it did not use data for the full reporting period (July 1, 2012-June 30, 2013), and the State described how the time period in which the data were collected accurately reflects data for infants and toddlers with IFSPs for the full reporting period.

REQUIRED ACTIONS

Because the State reported less than 100% compliance for FFY 2012, the State must report on the status of correction of noncompliance identified in FFY 2012 for this indicator. When reporting on the correction of noncompliance, the State must report, in its FFY 2013 APR, that it has verified that each EIS program or provider with noncompliance identified in FFY 2012 for this indicator: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the EIS program or provider, consistent with OSEP Memo 09-02. In the FFY 2013 APR, the State must describe the specific actions that were taken to verify the correction.

INDICATOR 9: The State reported that three of four findings of noncompliance identified in FFY 2009, and none of the eight findings of noncompliance identified in FFY 2008, and the one finding identified in FFY 2006, were corrected. For the uncorrected noncompliance, the State reported on the actions it took to address the uncorrected noncompliance.

The State was identified as being in need of assistance for two consecutive years based on the State's FFY 2010 and FFY 2011 APRs, was advised of available technical assistance, and was required to report, with the FFY 2012 APR, on: (1) the technical assistance sources from which the State received assistance; and (2) the actions the State took as a result of that technical assistance. The State reported on the technical assistance sources from which the State received assistance for this indicator and reported on the actions the State took as a result of that technical assistance.

REQUIRED ACTIONS

The State must report, with the FFY 2013 SPP/APR, that it has corrected the remaining three findings of noncompliance identified in FFY 2011, the one remaining finding identified in FFY 2009 and the eight findings of noncompliance identified in FFY 2008 that were not reported as corrected in the FFY 2012 APR.

When reporting with the FFY 2013 SPP/APR on the correction of the remaining findings of noncompliance identified in FFY 2011 and FFY 2009, the State must report that it verified that each EIS program or provider with remaining findings of noncompliance: (1) is correctly implementing the specific regulatory requirements (i.e., achieved 100% compliance) based on a review of updated data such as data subsequently collected through on-site monitoring or a State data system; and (2) has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the EIS program or provider, consistent with OSEP Memo 09-02.

The State's failure to correct longstanding noncompliance raises serious questions about the effectiveness of the State's general supervision system. The State must take the steps necessary to ensure that it can report, with the FFY 2013 SPP/APR, that it has corrected this noncompliance.

In addition, in responding to Indicators 1, 7, 8A, and 8C in the FFY 2013 SPP/APR, the State must report on correction of the noncompliance described in this table under those indicators.
