

Privacy Impact Assessment

For
ED.gov Blogs

Date: March 13, 2013

Point of Contact: Jill James, Web Manager

System Owner: Jill James, Web Manager

Author: Alan Smigielski and Jill James, Web Team

Office of Communications and Outreach

U.S. Department of Education

1. **System Information.** Describe the system - include system name, system acronym, and a description of the system, to include scope, purpose and major functions.

The Secretary's Homeroom Blog and office and initiative blogs hosted on www.ed.gov (at www.ed.gov/blog and www.ed.gov/edblogs respectively) are WordPress blog instances that support the Department of Education's (ED) efforts to facilitate an ongoing dialogue with the American public on education issues. Blog articles provide insights on the activities of schools, programs, grantees, and other education stakeholders to promote continuing discussion of educational innovation and reform. Articles do not endorse any educational product, service, curriculum or pedagogy.

2. **Legal Authority.** Cite the legal authority to collect and use this data. What specific legal authorities, arrangements, and/or agreements regulate the collection of information?

Office of Management and Budget's Memorandum "Social Media, Web-Based Interactive Technologies, and the Paperwork Reduction Act"
http://www.whitehouse.gov/sites/default/files/omb/assets/inforg/SocialMediaGuidance_04072010.pdf addresses the "applicability of the PRA to social media and web-based interactive technologies," including blogs. The memo explains that "certain uses of social media and web-based interactive technologies will be treated as equivalent to activities that are currently excluded from the PRA." It continues:

Notably, OMB's regulations implementing the PRA exclude facts or opinions provided in response to general solicitations published in the Federal Register or other publications. As agencies increasingly use web-based technologies as a means of "publishing" such solicitations, OMB believes that it is appropriate to exclude these activities as well. This Memorandum identifies a series of other activities that, consistent with the text and purposes of the PRA, OMB has determined may be excluded from its purview. Such activities include many uses of wikis, the posting of comments, the conduct of certain contests, and the rating and ranking of posts or comments by website users.

3. **Characterization of the Information.** What elements of personally identifiable information (PII) are collected and maintained by the system (e.g., name, social security number, date of birth, address, phone number)? What are the sources of information (e.g., student, teacher, employee, university)? How is the information collected (website, paper form, on-line form)? Is the information used to link or cross-reference multiple databases?

ED has several external blogs managed by program offices. These blogs increase ED's online presence and are another method for the public to interact with ED. Each blog has the functionality to allow readers to comment with a screen name and requires them to provide an e-mail address. The e-mail address is not visible to other blog readers. This information is not used to link or cross-reference any other databases.

In the future, the Homeroom Blog (www.ed.gov/blog) may collect a user's first name, last name, and e-mail address for event registration purposes if a user opts to provide that information.

4. Why is the information collected? How is this information necessary to the mission of the program, or contributes to a necessary agency activity? Given the amount and any type of data collected, discuss the privacy risks (internally and/or externally) identified and how they were mitigated.

ED collects the screen name and e-mail address of commenters on ED blogs for the purpose of blog moderation. These fields facilitate commenting and discussion and allow moderation of the blog where necessary.

Individuals may comment on items posted on blogs. The individual must provide a screen name and a valid email address. Only the screen name is visible to the public. Both the e-mail and screen name have been voluntarily shared with ED, and are captured and saved through ED's records management processes. The screen names and email addresses are not used for any other purpose.

5. Social Security Number (SSN). If an SSN is collected and used, describe the purpose of the collection, the type of use, and any disclosures. Also specify any alternatives that you considered, and why the alternative was not selected. If system collects SSN, the PIA will require a signature by the Assistant Secretary or designee. If no SSN is collected, no signature is required.

This system does not collect SSNs.

6. Uses of the Information. What is the intended use of the information? How will the information be used? Describe all internal and/or external uses of the information. What types of methods are used to analyze the data? Explain how the information is used, if the system uses commercial information, publicly available information, or information from other Federal agency databases.

E-mail address and screen name are collected when blog readers voluntarily elect to comment on a blog post. These fields facilitate commenting and discussion and allow moderation of the blog where necessary. The information is not used for any other purpose.

7. Internal Sharing and Disclosure. With which internal ED organizations will the information be shared? What information is shared? For what purpose is the information shared?

All of the comments captured through the management of ED's blogs consist of information that is or was publicly accessible. E-mail addresses provided by commenters are accessible only to blog admin staff. PII that has been removed from a blog comment in accordance with our comment and posting policy is retained in the records of the office that manages the blog.

8. External Sharing and Disclosure. With what external entity will the information be shared (e.g., another agency for a specified programmatic purpose)? What information is shared? For what purpose is the information shared? How is the information shared outside of the Department? Is the sharing pursuant to a Computer Matching Agreement (CMA), Memorandum of Understanding (MOU) or other type of approved sharing agreement with another agency?

All comments and screen names captured through the management of ED's blogs are information that is or was publicly accessible.

E-mail addresses provided by commenters are not shared outside the Department and are not shared pursuant to a CMA, MOU or other type of sharing agreement with another agency.

9. Notice. Is notice provided to the individual prior to collection of their information (e.g., a posted Privacy Notice)? What opportunities do individuals have to decline to provide information (where providing the information is voluntary) or to consent to particular uses of the information (other than required or authorized uses), and how individuals can grant consent?

All information collected through ED's blogs is information voluntarily shared by individuals with ED. On each blog maintained by ED, there is a link to the blog's comment and posting policy. The comment and posting policy tell visitors: "To protect your own privacy and the privacy of others, please do not include personally identifiable information, such as name, Social Security number, addresses, phone numbers or email addresses in the body of your comment. If you do voluntarily include your name in a comment, which we generally do not recommend, that comment may or may not be posted on these pages. If your comment is posted, your name may be redacted or removed. In

no circumstances will comments be posted that contain Social Security numbers, addresses, email address, phone numbers, or similar personally identifiable information." The privacy policy is available at <http://www.ed.gov/blog/comments-policy/>.

- 10. Web Addresses.** List the web addresses (known or planned) that have a Privacy Notice.

The privacy policy is available at <http://www.ed.gov/blog/comments-policy/>.

- 11. Security.** What administrative, technical, and physical security safeguards are in place to protect the PII? Examples include: monitoring, auditing, authentication, firewalls, etc. Has a C&A been completed? Is the system compliant with any federal security requirements?

All PII is secured in accordance with ED's internal directive on PII. In particular, sensitive PII removed from a blog in accordance with the comment and posting policy is stored electronically in a password-protected file.

- 12. Privacy Act System of Records. Is a system of records being created or altered under the Privacy Act, 5 U.S.C. 552a? Is this a Department-wide or Federal Government-wide SORN? If a SORN already exists, what is the SORN Number?**

A system of record notice is not needed because the information collected is not retrieved by any personal identifiers. Therefore, a system of record as defined by the Privacy Act is not being created and the reporting requirements of OMB Circular A-130 do not apply.

- 13. Records Retention and Disposition.** Is there a records retention and disposition schedule approved by the National Archives and Records Administration (NARA) for the records created by the system development lifecycle AND for the data collected? If yes – provide records schedule number:

No.
