Federal Student Aid

U.S. Department of Education
1. **System Information.** Describe the system - include system name, system acronym, and a description of the system, to include scope, purpose and major functions.

The Great Lakes Educational Loan Services Computer System (GOALS), hereafter referred to as the Great Lakes Computer System (GLCS), is used to service Federal Student Aid (FSA) Title IV student loans. Operational capabilities of the system include borrower account management, loan conversion/de-conversion, interim/repayment servicing, payment posting, deferment and forbearance processing, letter generation, call scheduling, loan transfer/put/un-put activities, collection, skip-tracing, claims and correspondence history files. The system communicates with the internal FSA platforms, borrowers, educational institutions, lending institutions, other loan servicers, third-party data providers, consumer reporting agencies and government agencies (as permitted by the Privacy Act of 1974). Channels of communication include mail, phone calls, a secure borrower website, e-mail and secure data transfer links.

2. **Legal Authority.** Cite the legal authority to collect and use this data. What specific legal authorities, arrangements, and/or agreements regulate the collection of information?

The Higher Education Act of 1965 (HEA), As Amended, Section 441 and 461 Title IV, Section 401

3. **Characterization of the Information.** What elements of personally identifiable information (PII) are collected and maintained by the system (e.g., name, social security number, date of birth, address, phone number)? What are the sources of information (e.g., student, teacher, employee, university)? How is the information collected (website, paper form, on-line form)? Is the information used to link or cross-reference multiple databases?

The GLCS system retrieves, stores, and presents the following elements of PII:

- Full Name
- Maiden Name
- Social Security Number (SSN)
- Driver’s License Number and State
- Home Address
- Home, Work, Alternate and Mobile Telephone Numbers
- Email Address
- Employment Information
- Financial Information
- Medical Information (to the extent required for purposes of certain deferments and discharge requests)
- Bank Account Numbers
- Related Demographic Data
- Borrower Loan Information, including: disbursement amount, principal balance, accrued interest, loan status, repayment plan, repayment amount, forbearance status, deferment status, separation date, grace period and delinquency
- Alien Registration Number
Privacy Impact Assessment

- Student Loan Account Numbers.

Sources of PII include borrowers, co-borrowers, educational institutions, the U.S. Department of Education (DoED), National Student Loan Data System (NSLDS), National Student Clearinghouse, and other authorized and/or reliable third parties including but not limited to FSA contractors, borrower references, U.S. military, commercial person locator services, national consumer reporting agencies, financial institutions, and the U.S. Department of the Treasury.

Information is collected via paper, website, on-line, electronic data transmission, and telephone.

The information is used to link or cross-reference multiple internal GLCS databases. Refer to Question 1 hereof.

4. Why is the information collected? How is this information necessary to the mission of the program, or contributes to a necessary agency activity? Given the amount and any type of data collected, discuss the privacy risks (internally and/or externally) identified and how they were mitigated.

The PII is necessary to properly service Federal student loans according to the regulatory requirements of Title IV Servicing. The SSN is never included in any electronic or postal mailings.

The borrower’s name, address, email address, and phone numbers are essential for communicating with the borrower and performing collection activities. The endorser’s name, address and phone numbers are used to reach the borrower when conventional methods fail.

The risk is that PII may be obtained by an unauthorized party to commit fraud and identity theft. The following are mitigation steps in place:

- Associates with the ability to access this information require a personnel security clearance before access is granted
- System access is assigned based on job function requirements and are maintained through access controls
- The change management process includes separation of duties
- Associates are required to complete Security and Awareness Training annually
- Physical access to areas where PII data is available is secured with a security badge system to limit physical access to areas as required
- Annual risk assessments are performed.

5. Social Security Number (SSN). If an SSN is collected and used, describe the purpose of the collection, the type of use, and any disclosures. Also specify any alternatives that you considered, and why the alternative was not selected. If system collects SSN, the PIA will require a signature by the Assistant Secretary or designee. If no SSN is collected, no signature is required.

The SSN is the unique identifier for HEA programs and its use is required by program participants and their trading partners to satisfy borrower eligibility, loan servicing, and loan status reporting requirements under law and regulations. Trading partners include the DoED, Internal Revenue Service (IRS), institutions of higher education, national credit bureaus, and servicers.
Privacy Impact Assessment

Borrowers (and endorsers, if applicable) are advised of the collection and use of the SSN in the promissory note materials of their Title IV program loans. In accordance with state laws regarding the use of SSN’s, a proprietary account number is assigned by Great Lakes and utilized for all borrower and endorser communications in lieu of the SSN except where an SSN is required on a federal form. The proprietary account number is also used for the purposes of internal reporting and communications.

6. Uses of the Information. What is the intended use of the information? How will the information be used? Describe all internal and/or external uses of the information. What types of methods are used to analyze the data? Explain how the information is used, if the system uses commercial information, publicly available information, or information from other Federal agency databases.

This information is collected to meet the contractual requirements of Federal Student Aid, enabling GLCS to perform student loan servicing activities.

The information is used for identification and verification purposes. Information is also used to assist borrowers with managing their loans, determine borrower eligibility for entitlements such as deferments, forbearances, and discharges, and to locate borrowers in cases of invalid addresses and/or phone numbers.

External uses of the information include reporting to schools for the purposes of default management and program eligibility, consumer reporting agencies for the purposes of reporting and maintaining borrower credit history.

The data is analyzed/evaluated by Great Lakes for the purposes of maintaining account balances, debt collection, default prevention, applying deferments and forbearances, and general account maintenance.

Sources of information will be various Federal agency databases, servicers from whom the Department of Education purchases student loans, person locator services and consumer reporting agencies.

7. Internal Sharing and Disclosure. With which internal ED organizations will the information be shared? What information is shared? For what purpose is the information shared?

GLCS shares this information with:

- Federal Student Aid and its agents and Contractors
- National Student Loan Data System (NSLDS)
- Debt Management Collection System (DMCS)
- Common Origination and Disbursement System (COD)
- Student Aid Internet Gateway (SAIG)
- Total and Permanent Disability (TPD).

All or part of the information described in Question 3 hereof may be shared.

The information is only shared as required by Federal Student Aid.

See response to Question 4 hereof for risks and mitigation measures.

8. External Sharing and Disclosure. With what external entity will the information be shared (e.g., another agency for a specified programmatic purpose)? What information is shared? For what purpose is the information shared? How is the information shared outside of the Department? Is the sharing pursuant to a Computer Matching Agreement (CMA),
Memorandum of Understanding or other type of approved sharing agreement with another agency?

The GLCS system does not share PII or other information with any external entities, except to process and service federal student loans and as permitted by the Privacy Act of 1974 and as required by Federal Student Aid.

Information will be shared with the following non-Department of Education systems and governmental entities:

- Internal Revenue Service, (including Adjusted Gross Income requests, waiver image processing and 1098/1099)
- U.S. Department of Treasury ("Treasury") (including Lockbox, Electronic Development Application vendor, Pay.gov, Remittance Express, Integrated Professional Automation Computer, and Ca$hLinkII)
- United States Postal Service.

Information will be shared with the following nongovernmental entities:

- Educational Institutions
- Other Federal Loan Servicers
- Independent Auditors
- National Consumer Reporting Agencies
- Person Locator Services
- Other parties as authorized by the borrower.

All or part of the information described in Question 3 hereof may be shared.

The information is only shared as required by Federal Student Aid.

Information is shared through file transmissions and secure email transmission using encryption methods compliant with Federal requirements.

Sharing of information with nongovernmental entities (consumer reporting agencies, independent program participants, etc.) will be pursuant to contractual or regulatory requirements, or through sharing agreements between the applicable entities and the Department of Education.

See response to Question 4 hereof for risks and mitigation measures.

9. Notice. Is notice provided to the individual prior to collection of their information (e.g., a posted Privacy Notice)? What opportunities do individuals have to decline to provide information (where providing the information is voluntary) or to consent to particular uses of the information (other than required or authorized uses), and how individuals can grant consent?

A privacy notice/policy is presented to the borrower via the following channels:

- Pursuant to the Gramm-Leach-Bliley Act, DoED’s privacy notice is sent to the borrower by letter or email upon purchase of the loan by DoED and on an annual basis thereafter for the life of the loan
- A privacy notice is provided on the Free Application for Federal Student Aid (FAFSA) form and on the FAFSA online application website (www.fafsa.ed.gov)
A privacy policy is also posted on GLCS’s secure borrower portal websites (http://www.mygreatlakes.org; http://www.myfedloan.org, https://accountaccess.myfedloan.org).

In order to establish an online account on the GLCS system secure borrower portal website, the borrower must agree to the Terms of Service which incorporates the privacy policy by reference and link.

Borrowers can at this point decline to provide additional information; however, providing certain information is required in order to communicate with GLCS through its secure borrower Web site and/or customer service call center.

Borrowers are required to opt into online account access features, and are required to provide consent, in compliance with applicable law, for various features and services provided by the GLCS system, such as paperless document delivery and online payment services.

GLCS shares information with designated financial, education, and Department of Education organizations and contractors only as required by contract.

10. Web Addresses. List the web addresses (known or planned) that have a Privacy Notice.

   http://www.mygreatlakes.org
   http://www.myfedloan.org
   https://accountaccess.myfedloan.org
   https://fafsa.ed.gov

11. Security. What administrative, technical, and physical security safeguards are in place to protect the PII? Examples include: monitoring, auditing, authentication, firewalls, etc. Has a C&A been completed? Is the system compliant with any federal security requirements?

   In accordance with the Federal Information Security Management Act of 2002 (FISMA), every FSA system must receive a signed Authority to Operate (ATO) from a designated FSA official. The ATO process includes a rigorous assessment of security controls, a plan of action and milestones to remediate any identified deficiencies, and a continuous monitoring program. The Great Lakes Computer System received its ATO on March 26, 2010.

   FISMA controls implemented comprise a combination of management, operational, and technical controls, and include the following control families: access control, awareness and training, audit and accountability, security assessment and authorization, configuration management, contingency planning, identification and authentication, incident response, maintenance, media protection, physical and environmental protection, planning, personnel security, risk assessment, system and services acquisition, system and communications protection, system and information integrity, and program management.

   Additionally, the following specific controls are applied:

   Management Controls
   • Certification, Accreditation and Security Assessments (CA)
   • Planning (PL)
   • Risk Assessment (RA)
• System and Services Acquisition (SA)

Operational Controls
• Awareness and Training (AT)
• Configuration Management (CM)
• Contingency Planning (CP)
• Incident Response (IR)
• Maintenance (MA)
• Media Protection (MP)
• Physical and Environmental Protection (PE)
• Personnel Security (PS)
• System and Information Integrity (SI)

Technical Controls
• Access Control (AC)
• Audit and Accountability (AU)
• Identification and Authentication (IA)
• System and Communications Protection (SC)

Physical access to areas where PII data is available is secured with a security badge system to limit physical access to areas as required.
GLCS also employs the following technical safeguards:

Firewalls and existing proxy servers are in place to control external access to internal resources.

• Connections to the Internet, or other external networks or information systems, occur through controlled interfaces (e.g., proxies, gateways, routers, firewalls, encrypted tunnels). The operational failure of the boundary protection mechanisms do not result in any unauthorized release of information outside of the system boundary
• GLCS physically allocates publicly accessible information system components (e.g., public web servers) to separate sub-networks with separate, physical network interfaces. The organization prevents public access into the organization’s internal networks except as appropriately mediated
• All routers, switches and firewalls are configured to allow only specifically authorized services and traffic (Deny-By-Default)
• All DoED data access is available to authorized and approved users with a 5C or 6C security clearance
• Privileged access to GLCS is limited to only 6C security cleared personnel
• Signed Rules of Behavior and Security Awareness Training for all employees
• Two Factor Authentication is not yet implemented on GLCS yet. It will be implemented on this system later this year.

The GLCS system is compliant with the following Federal Standards and Guidelines:
The Federal Information Security Management Act of 2002
The Privacy Act of 1974
The E-Government Act of 2002

12. Privacy Act System of Records. Is a system of records being created or altered under the Privacy Act, 5 U.S.C. 552a? Is this a Department-wide or Federal Government-wide SORN? If a SORN already exists, what is the SORN Number?

GLCS is covered under the “Common Services for Borrowers” System of Records Notice (SORN), which was published as number 18-11-16 in the Federal Register on January 23, 2006 (71 FR 3503-3507).

13. Records Retention and Disposition. Is there a records retention and disposition schedule approved by the National Archives and Records Administration (NARA) for the records created by the system development lifecycle AND for the data collected? If yes – provide records schedule number:

Per FSA, GLCS will follow the “FSA Loan Servicing, Consolidation, and Collections Records” records schedule. The ACS Tracking Number is OM: 6-106:L74.

DoED Record Schedule:
Schedule Locator NO: 075
Draft Date: 03/11/2009
Title: FSA Loan Servicing, Consolidation and Collections Records
Principal Office: Federal Student Aid
NARA Disposition Authority: N1-441-09-16
Description:
These records document business operations that support the servicing, consolidation, and collection of Title IV federal student aid obligations. These records relate to the post-enrollment period of student aid, including servicing of direct loans, consolidation of direct loans, managing and recovering defaulted debts assigned to the Department from Federal Family Education Loan (FFEL) and other lenders, rehabilitated loans, and any other type of Title IV student aid obligation.

This schedule provides a common disposition for records that comprise a variety of material and media, including but not limited to demographic and financial data on individual borrowers; institutional data on schools, guarantors, lenders, private collection agencies; records of financial transactions, payments, collections, account balancing and reconciliation, and reporting; records pertaining to customer interactions; and related correspondence and documents.

As these records may be maintained in different media formats, this schedule is written to authorize the disposition of the records in any media (media neutral). Records that are designated for permanent retention and are created and maintained electronically will be transferred to NARA in an approved electronic format.
DISPOSITION INSTRUCTIONS:

a. Record Copy

TEMPORARY

- Cut off annually upon payment or discharge of loan. Destroy/delete 15 years after cut off.

b. Duplicate Copies Regardless of Medium Maintained for Reference Purposes and That Do Not Serve as the Record Copy

TEMPORARY

- Destroy/delete when no longer needed for reference.

ELECTRONIC INFORMATION SYSTEMS:

Direct Loan Consolidation System (DLCS)
Debt Management and Collection System (DMCS)

IMPLEMENTATION GUIDANCE:

Follow the disposition instructions in DoED 086 for system software; input/source records; output and reports; and system documentation. Original signed paper documents required for legal purposes must be kept for the full length of the retention period, even if an electronic version has been captured in the information system.

ARRANGEMENT / ANNUAL ACCUMULATION:

PREVIOUS DISPOSITION AUTHORITY:

SPECIFIC LEGAL REQUIREMENTS:

Title IV of the Higher Education Act (HEA) of 1965, as amended

SPECIFIC RESTRICTIONS:

Privacy Act 18-11-05 Title IV Program Files
Privacy Act 18-11-08 Student Account Manager System

BUSINESS LINE: Loans
