SUBJECT : Call for Topics - 29th Institute on Rehabilitation Issues (2002-2003)

CONTENT : This Information Memorandum (IM) is to request your assistance in identifying topics for the 29th Institute on Rehabilitation Issues (IRI). For fifty-five years, the IRI has been an activity unique to the State-Federal vocational rehabilitation (VR) program, in which rehabilitation professionals and others with special expertise on the topics selected for study, come together to discuss the issues and to develop current and innovative training materials to improve the skills of VR professionals. In this manner, the VR program is able to develop timely publications containing solutions to some of the most pressing challenges facing the rehabilitation field.

On May 5, 2002, the IRI Planning Committee will discuss the topics considered to be most relevant for study. This meeting occurs immediately prior to the National IRI Forum, which will be held on May 6-7, 2002, at the Radisson Hotel – Old Town, 901 N.

Fairfax Street, Alexandria, Virginia. The topics selected for study during the next IRI cycle will be announced at the opening session of the Forum on Monday, May 6.

The criteria used by the IRI Planning Committee to select the topics for study are:

1. The topic is currently one of concern to a large number of State VR agencies.
2. It is a topic that can be completed within a year.
3. There are recognized experts or a body of literature that will be available to the prime study group.

The basic purposes of the IRI are to identify and discuss current issues of importance to the State-Federal VR program, and to publish materials, which can be used by persons responsible for staff development in the State VR agencies, Regional Rehabilitation Continuing Education Programs (RRCEP), Rehabilitation Counselor Long-Term Training Programs, and by others concerned about staff development in rehabilitation. For many years, the IRI topics have been of great importance as a technical assistance resource to the rehabilitation community. The publications resulting from the IRI are widely distributed to the State VR agencies, State Rehabilitation Councils, RRCEPs, university rehabilitation counselor degree programs and consumer groups identified during the course of the study group meetings.

Clearly, wide dissemination and utilization of the products resulting from the IRI are the goals of all concerned. Approximately 3,500 copies of each publication are printed, depending upon the level of interest expressed. IRI publications are also placed on the university coordinators' web sites, and are available from the National Clearing House on Rehabilitation Training Materials. It is the goal of the IRI Planning Committee to improve and enhance the use of the IRI publications by VR practitioners in all rehabilitation settings, and to ensure that the documents are meeting current training needs.

Attached is a list of IRI topics developed in recent years. Also attached is the form, which you may use when submitting topics. Please submit suggested topics no later than March 29, 2001, to Charles Sadler, the RSA IRI Coordinator.

When submitting topics, please be sure that you have included sufficient information on the form so that appropriate decisions on the selection of topics can be made. After selecting the topics for study, the Commissioner will assign one to each of the two university coordinators.

Membership on an IRI study group is both a privilege and an honor and we appreciate your continued interest and support of the IRI process.

Joanne M. Wilson
Commissioner

REHABILITATION SERVICES ADMINISTRATION

**Topic Suggestion Form for the Twenty-Ninth
Institute on Rehabilitation Issues (IRI) 2002-2003**

Note: Deadline for submission is March 29, 2002. Please complete all items and include additional attachments if necessary.

1. Title of suggested topic:

2. Briefly describe the issues to be addressed in publication:

A.

B.

C.

D.

E.

3. Intended audience:

4. Describe the potential effects on improving services to individuals with disabilities:

A.

B.

C.

D.

E.

5. Provide the names and addresses of persons with knowledge of this topic:

A. _____

B. _____

C. _____

D. _____

E. _____

6. Other resources (projects, programs, publications, etc.):

A. _____

B. _____

C. _____

D. _____

E. _____

7. Topic submitted by:

Name: _____

Title: _____

Employer: _____

Address: _____

Telephone/FAX: _____

E-mail: _____

Please return no later than March 29, 2002 to:
