School is covered by a state tuition recovery fund.

Notes: No, TBC did not pay into a tuition recovery fund, purchase a private insurance policy, or have a bond that might assist students who did not complete their program in the recovery of some of their tuition costs. However, as stated above, there were no active students with unfinished contracts at the time of school closure, and there was only one other student who left school within 90 days prior to closure.

Student Arrangements: Yes, all the students currently enrolled on December 17, 2014 graduated. Specifically, the closure was brought about by the graduation of our last student. There were zero students who were left without training. Within 90 days of the closure, this Branch Campus only had ONE student drop out (with the stated purpose of transferring her hours to another institution). All other students graduated.

Yes, these arrangements were in place from the time the students first enrolled in our program. The administration was committed to teaching the full program to any and all students who desired to stay enrolled, and that plan is exactly what was executed.
